Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Licensing Note: This media pack includes a Restricted Use license for Oracle Retail Predictive Application Server (RPAS) - Enterprise Engine to support Oracle® Retail Item Planning only.

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

- (i) the software component known as **ACUMATE** developed and licensed by Lucent Technologies Inc. of Murray Hill, New Jersey, to Oracle and imbedded in the Oracle Retail Predictive Application Server - Enterprise Engine, Oracle Retail Category Management, Oracle Retail Item Planning, Oracle Retail Merchandise Financial Planning, Oracle Retail Advanced Inventory Planning, Oracle Retail Demand Forecasting, Oracle Retail Regular Price Optimization, Oracle Retail Size Profile Optimization, Oracle Retail Replenishment Optimization applications.
- (ii) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (iii) the **SeeBeyond** component developed and licensed by Sun Microsystems, Inc. (Sun) of Santa Clara, California, to Oracle and imbedded in the Oracle Retail Integration Bus application.
- (iv) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
- (v) the software component known as **Crystal Enterprise Professional and/or Crystal Reports Professional** licensed by SAP and imbedded in Oracle Retail Store Inventory Management.
- (vi) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (vii) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.
- (viii) the software component known as **Style Report™** developed and licensed by InetSoft Technology Corp. of Piscataway, New Jersey, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.
- (ix) the software component known as **DataBeacon™** developed and licensed by Cognos Incorporated of Ottawa, Ontario, Canada, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.

Send Us Your Comments

Oracle Retail Item Planning User Guide for the RPAS Classic Client, Release 13.2

Oracle welcomes customers' comments and suggestions on the quality and usefulness of this document.

Your feedback is important, and helps us to best meet your needs as a user of our products. For example:

- Are the implementation steps correct and complete?
- Did you understand the context of the procedures?
- Did you find any errors in the information?
- Does the structure of the information help you with your tasks?
- Do you need different information or graphics? If so, where, and in what format?
- Are the examples correct? Do you need more examples?

If you find any errors or have any other suggestions for improvement, then please tell us your name, the name of the company who has licensed our products, the title and part number of the documentation and the chapter, section, and page number (if available).

Note: Before sending us your comments, you might like to check that you have the latest version of the document and if any concerns are already addressed. To do this, access the new Applications Release Online Documentation CD available on My Oracle Support and <http://www.oracle.com>. It contains the most current Documentation Library plus all documents revised or released recently.

Send your comments to us using the electronic mail address: retail-doc_us@oracle.com

Please give your name, address, electronic mail address, and telephone number (optional).

If you need assistance with Oracle software, then please contact your support representative or Oracle Support Services.

If you require training or instruction in using Oracle software, then please contact your Oracle local office and inquire about our Oracle University offerings. A list of Oracle offices is available on our Web site at <http://www.oracle.com>.

Preface

This guide describes the Item Planning user interface. It provides step-by-step instructions to complete most tasks that can be performed through the user interface.

Audience

This User Guide is for users and administrators of Oracle Retail Item Planning. This includes merchandisers, buyers, business analysts, and administrative personnel.

Documentation Accessibility

Our goal is to make Oracle products, services, and supporting documentation accessible to all users, including users that are disabled. To that end, our documentation includes features that make information available to users of assistive technology. This documentation is available in HTML format, and contains markup to facilitate access by the disabled community. Accessibility standards will continue to evolve over time, and Oracle is actively engaged with other market-leading technology vendors to address technical obstacles so that our documentation can be accessible to all of our customers. For more information, visit the Oracle Accessibility Program Web site at <http://www.oracle.com/accessibility/>.

Accessibility of Code Examples in Documentation

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/support/contact.html> or visit <http://www.oracle.com/accessibility/support.html> if you are hearing impaired.

Related Documents

For more information, see the following documents in the Oracle Retail Item Planning Release 13.2 documentation set:

- *Oracle Retail Item Planning Release Notes*
- *Oracle Retail Item Planning Installation Guide*
- *Oracle Retail Item Planning Operations Guide*
- *Oracle Retail Item Planning User Guide for the RPAS Fusion Client*

For more information about the Fashion Planning Bundle applications see the following documentation sets:

- Oracle Retail Assortment Planning documentation
- Oracle Retail Clearance Optimization Engine documentation
- Oracle Retail Item Planning Configured for COE documentation
- Oracle Retail Merchandise Financial Planning documentation
- Oracle Retail Size Profile Optimization documentation

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL:

<https://support.oracle.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Review Patch Documentation

When you install the application for the first time, you install either a base release (for example, 13.1) or a later patch release (for example, 13.1.2). If you are installing the base release, additional patch, and bundled hot fix releases, read the documentation for all releases that have occurred since the base release before you begin installation. Documentation for patch and bundled hot fix releases can contain critical information related to the base release, as well as information about code changes since the base release.

Oracle Retail Documentation on the Oracle Technology Network

Documentation is packaged with each Oracle Retail product release. Oracle Retail product documentation is also available on the following Web site:

http://www.oracle.com/technology/documentation/oracle_retail.html

(Data Model documents are not available through Oracle Technology Network. These documents are packaged with released code, or you can obtain them through My Oracle Support.)

Documentation should be available on this Web site within a month after a product release.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Introduction

Item Planning is part of an overall planning process that involves planning at multiple levels of the product hierarchy. The planning process can be thought of as a continual process where each step enhances the following, and prior performance affects plans for future performance. Planning takes input from multiple parties, and excellent communication enhances the process to help drive a financial road map for success. Multiple versions of the plan are created to benchmark success as well as provide insight to opportunities and risk for the in-season period.

Item Planning Process

This continual process has two main steps: preseason planning and in-season planning. The preseason planning objective is to create the benchmark against which to measure in season performance. This plan benchmark is the Original Plan (Op). This plan version should not be adjusted once the planning season has begun.

Preseason

The preseason planning process begins with the creation of a baseline with which to plan. This baseline can be derived from last year history, or adjusted last year history. Once the baseline is set, the balance set of measures is planned. This planning occurs at multiple levels of the product hierarchy. The role of Item Planning is to break out the Merchandise Financial Plan at the subclass, or lowest, hierarchy level to more definable plans at the style or style/color level. This lower level of detail assists in providing insight for the planner when in season on areas of opportunity and risk.

In-Season

Once in season, the process of planning switches over to in-season planning. Now the planner focuses on in-season management. The planner uses the Op plan as a benchmark against which to measure opportunity and risk. The plan version that the planner uses is the Working Plan (Wp). When the planner is ready to self-approve the Wp plans, the planner approves to the Current Plan (Cp) version.

Item Planning Benefits

Item level planning provides the following benefits:

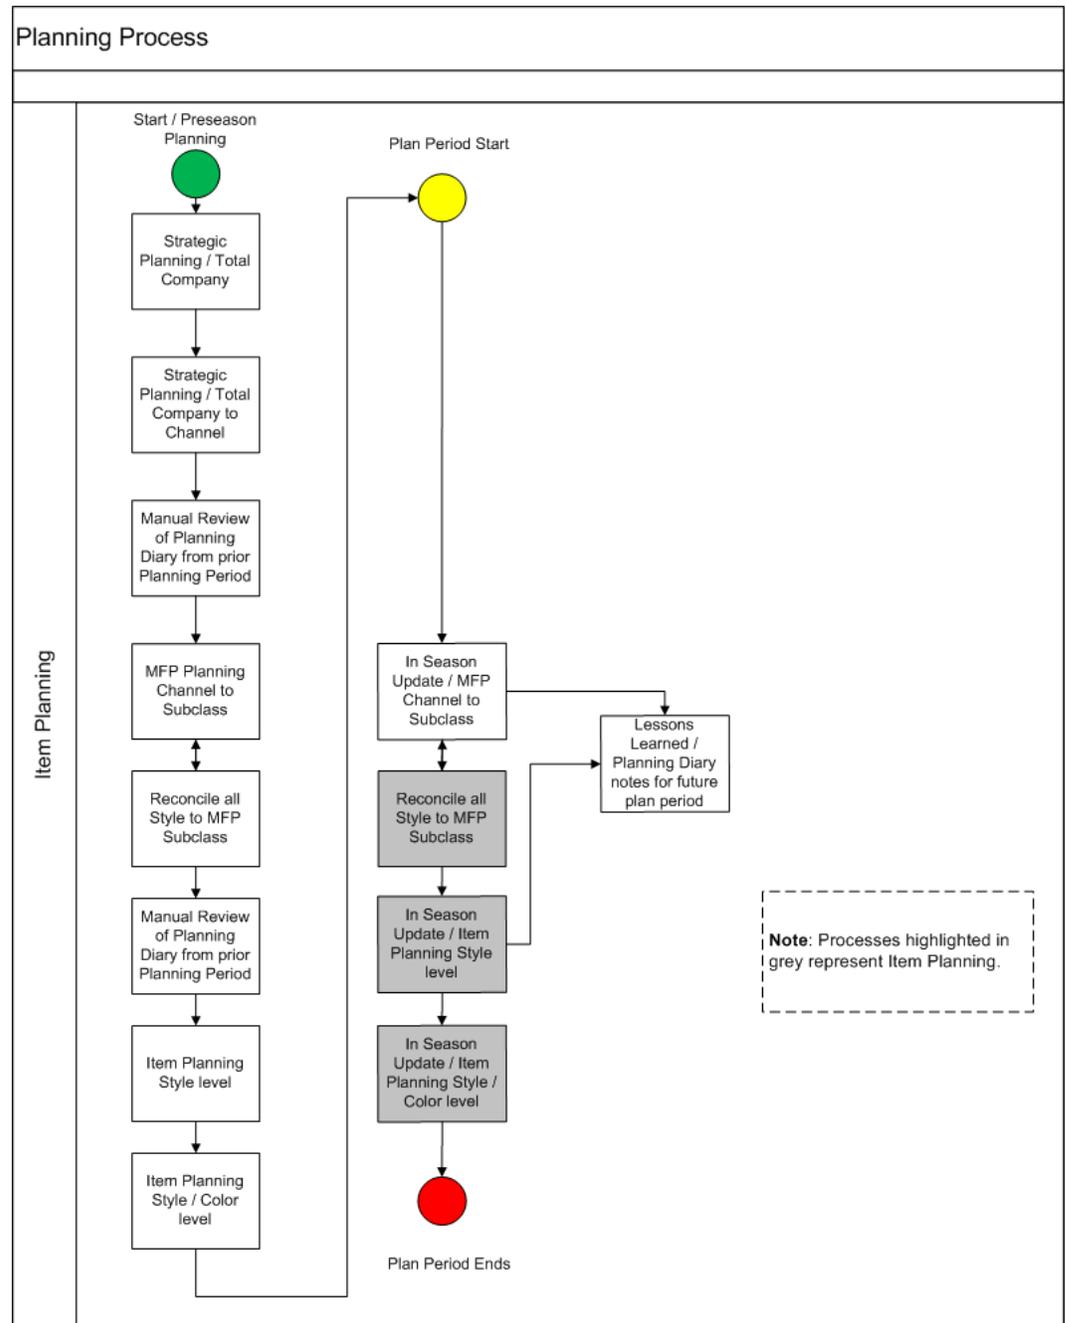

- Quantified financial plans
- Unified financial and item strategies
- A proactive approach towards business trends as opposed to reactive
- More efficient use of inventory
- Reduced markdowns
- Increased profits
- Increased return on investment

Item Planning Features

Item Planning provides the following features:

- Item/channel/week planning
- Multichannel support
- Unit plans converted into values
- Reconciliation to financial targets
- Preseason and in-season workflow process support
- Item demand forecast
- Promotional sales planning
- Like item functionality
- Placeholder functionality
- Worksheet-to-weekly marketing strategy for each item
- Self approval process
- Robust planning and assessment measure set

Figure 1-1 Item Planning Process Diagram

Preseason Planning

Prior to the beginning of the plan period, the preseason planning takes place. The process begins with the planner reviewing external and internal data, such as MFP targets, and input from their merchant partners. The planner then maps history as necessary for new items or those included in a hierarchy reclassification. The planner can specify which history should be utilized by specified items. Finally, the planner sets the exit strategy parameters, seeds the plan, and begins planning the measures.

Best practices show that planning the reductions measures first, and within that, planning the sales units first, allows for a logical and smooth planning process. The sales units set the tone by which the remainder of the planned measures are driven.

After the sales units and other reduction measures have been planned, the planner plans the receipts and inventory flow. If necessary, the planner can at this point move inventory to clearance and plan exit strategies.

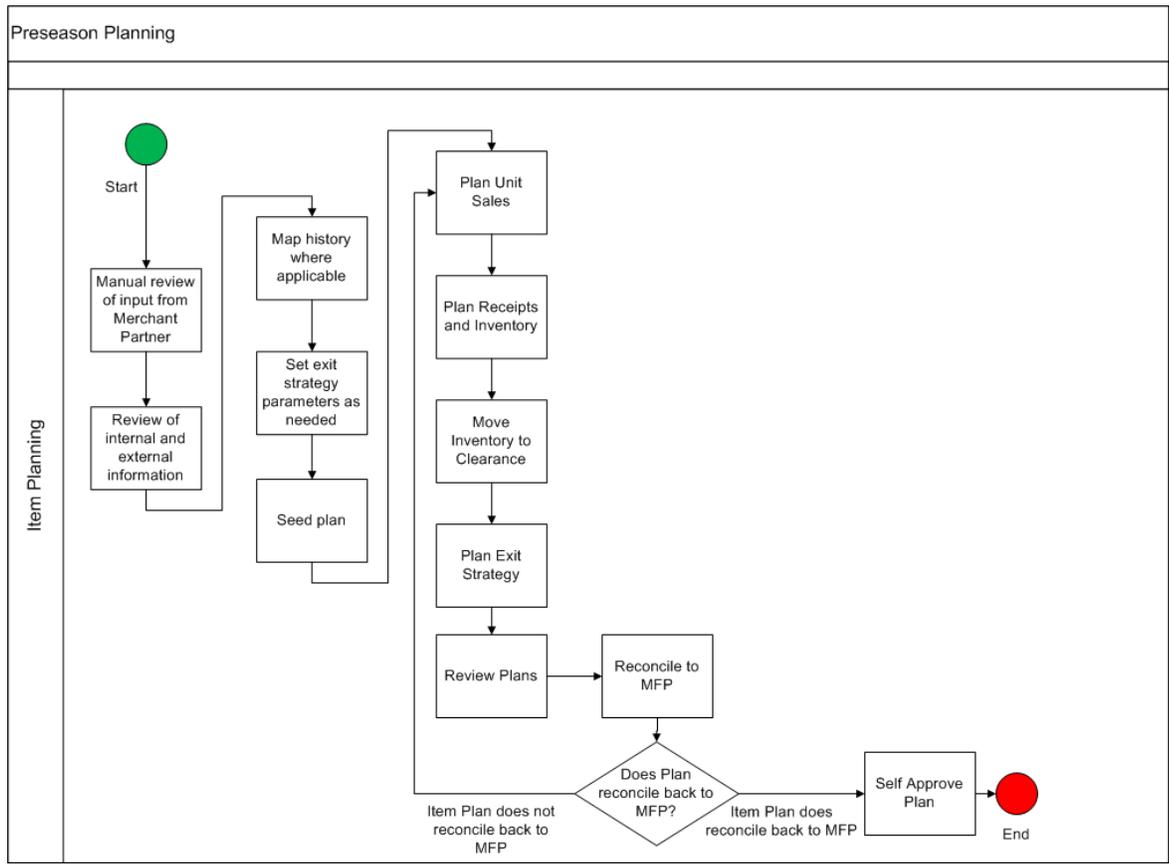

Next, the planner reviews plans to ensure that, when looking at the big picture and all measures, the plan represents the intentions initially set forth.

The planner then reconciles back to the MFP plans; if the plan is reconciled, the planner self-approves the plan.

If the plan does not reconcile back to the MFP plans, the planner returns to the plan's unit sales/reduction planning and adjusts areas of the plan that are required to select reconciliation back to the MFP plans.

Because this is an iterative process, clear communication to the planner's superior is integral to the efficiency and effectiveness of this process.

Figure 1-2 Preseason Planning Diagram

Plan Versions

The following are versions of the plan:

- Original Plan (Op): The benchmark against which to measure in season performance.
- Current Plan (Cp): The in season-updated plan to reflect actual and projected performance.
- Working Plan (Wp): The item planner's plan version to use while creating the Cp.

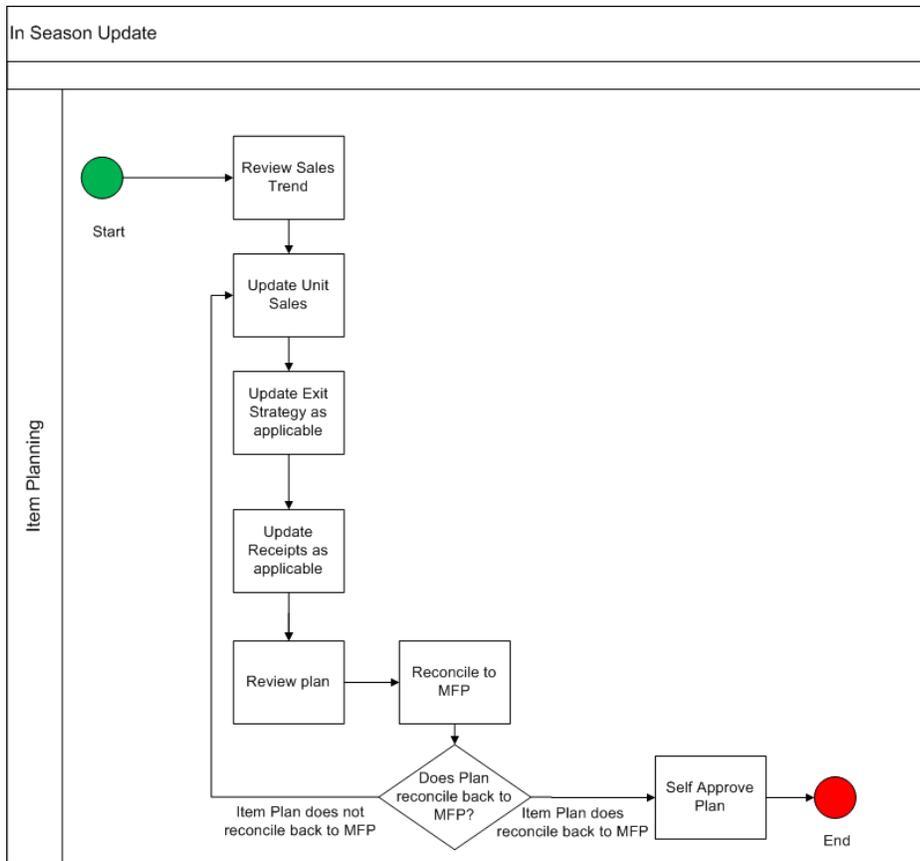

In-Season Management

After the plan period process has begun, in season planning begins. The item planner now uses the plan created in the preseason planning process as the benchmark for successful in-season planning. To begin the in-season planning process, the item planner first manually reviews the factors that affect sales.

Next, the planner begins by reviewing sales trends, promotional events, and holiday expectations. The planner determines whether these events will still be going, or whether they will behave as originally planned. If these special trends will not persist, the planner determines the differences and how they will affect the in-season planning process. After this process is complete, the planner updates unit sales if needed. As in the preseason planning process, in which planning sales first is the best way to approach a new plan, sales is the first measure that should be updated for in-season planning. All remaining measures are affected by sales.

Next, the planner adjusts future receipts (as needed) and reviews the effect of new sales and receipts on resulting inventory. Then the planner updates the exit strategy and reviews the result in the plans. If the plans are reconciled to MFP, the planner self-approves the plan to the current plan. If the plan is not reconciled, the planner goes back to unit sales and performs adjustments as necessary. This process continues until the item plan is reconciled to the MFP plan.

Figure 1-3 In-Season Planning

Workflow Overview

The following table describes the steps to creating an item plan.

Table 1-1 Workflow Overview

Tab	Purpose	User Activity
Dashboard	Provide Insight	Review specific potential issues for more investigation and follow up for: <ul style="list-style-type: none"> ■ Gross Profit ■ Markdowns ■ Sales ■ Sell Through % ■ Turnover
Getting Started	Seed Plan as Applicable	Seed plan using either LY, Adjusted LY, or AP data.

Table 1-1 (Cont.) Workflow Overview

Tab	Purpose	User Activity
Unit Sales	Review Unit Sales	<ul style="list-style-type: none"> ■ Review/revise weekly regular retail price. ■ Review/revise weekly cost price. ■ Review weekly marketing strategy. ■ Review weekly promotional price or % reduction. ■ Revise anticipated promotional sales lift. ■ Review resulting promotional unit sales. ■ Review resulting regular plus promotional unit sales. ■ Enter sales planning observations in the text field provided.
Inv Receipts	Review Inventory and Receipts	<ul style="list-style-type: none"> ■ Review current on order. ■ Plan additional receipts/cancellations. ■ Assess resulting inventories. ■ Re-project units to be sent to clearance status. ■ Revise receipts if necessary. ■ Enter inventory and receipt planning comments in text measure provided.
Exit Strategy	Review Exit Strategy	<ul style="list-style-type: none"> ■ Review/adjust weekly sell through to derive sales. ■ Revise clearance timing and pricing strategy. ■ Review impact on markdown dollars. ■ Apply markdown allowances. ■ Review resulting gross margin dollars and percent. ■ Adjust exit strategy as necessary. ■ Enter Exit Strategy comments in text measure provided.
Review Plans	Review Unit Plan	<ul style="list-style-type: none"> ■ Review compiled unit plan. ■ Return to initial planning processes to make pricing, sales, and receipt adjustments.
Review MFP Plan	Review Targets	<ul style="list-style-type: none"> ■ Compare results of the aggregated unit plans to the class level financial unit and value targets. ■ Return to initial planning process steps to make pricing, sales, and receipt adjustments.
Approval	Approval	Indicate approved plan week using Boolean check.
All Measures	Review all Measures	Review all Measures, or user can specify groups of measures to review using show/hide functionality.

Week Mapping

The Week Mapping workbook is used only by the administrator to adjust historical sales to accommodate calendar shifts. The adjusted sales then appear in the Item Planning workbook for reference while planning. This functionality is helpful when events shift from one week to another, or when there are different numbers of weeks from one calendar year to another.

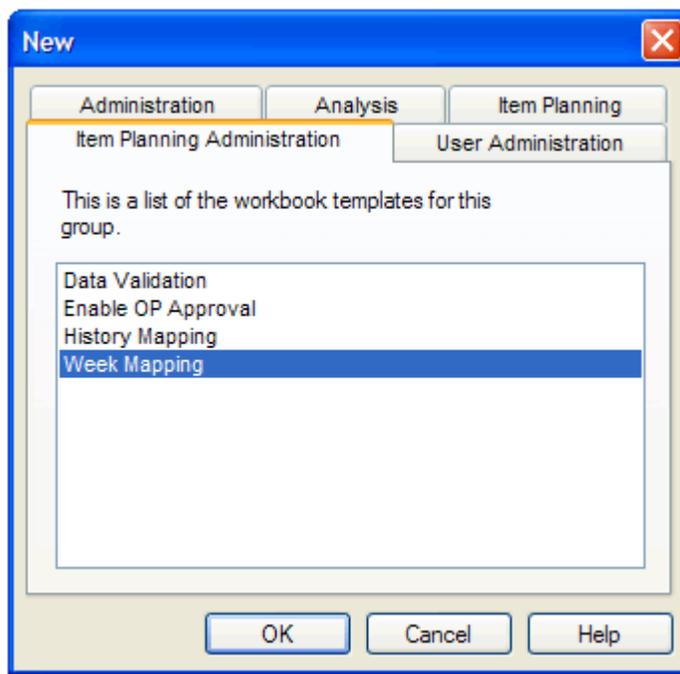

The Week Mapping workbook contains one worksheet: Week Mapping.

Building the Week Mapping Workbook

To build a Week Mapping workbook:

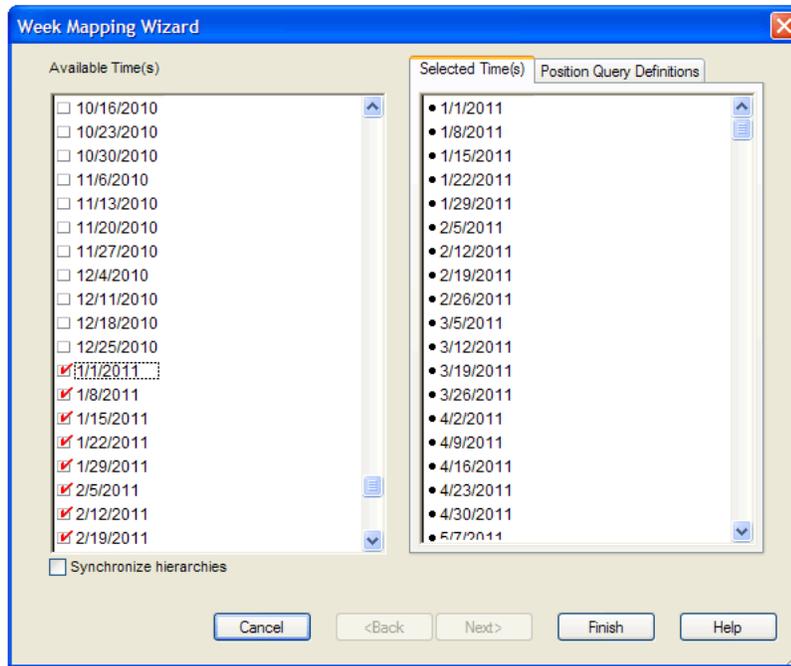

1. Click the **New** icon in the toolbar.
2. The New Workbook dialog box appears. On the Item Planning Administration tab, select **Week Mapping** and click **OK**.

Figure 2–1 New Workbook Dialog Box

- The Week Mapping wizard appears at the calendar step. Select the weeks you want to map and click **Finish**.

Figure 2–2 Week Mapping Wizard

The workbook is built.

Week Mapping

This tab contains a single worksheet called Set LY Mappings. Within this worksheet, you can set the mappings for last year and adjusted last year.

The week indicated in the Adj Ly Lag measure is where the performance data is retrieved when you look at Ly data.

Figure 2-3 Set LY Mappings Worksheet

	Ly Lag	Adj Ly Lag
1/1/2011	W49_2010	W49_2011
1/8/2011	W50_2010	W50_2011
1/15/2011	W51_2010	W51_2011
1/22/2011	W52_2010	W52_2011
1/29/2011

5/7/2011		

Table 2-1 Set LY Mappings Worksheet Measures

Measure	Description
Ly Lag	Identifies the week used for mapping as last year.
Adj Ly Lag	Identifies the week used for mapping as adjusted last year.

History Mapping

The History Mapping workbook allows you to map history and validate the results of mapping the history of a single item to a new item. This action provides a regular unit sales curve and quantity for reference when seeding and planning regular sales units.

The History Mapping workbook contains two tabs:

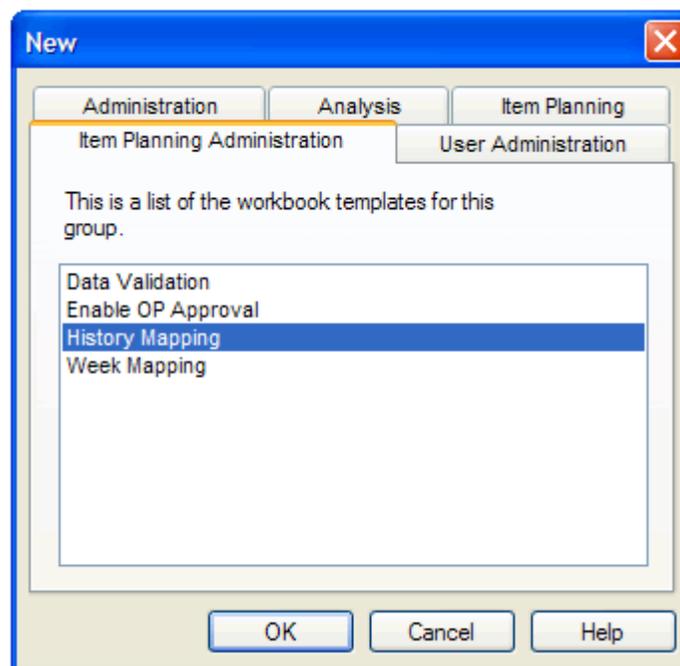

- [Map Items](#)
- [Validate Mapping](#)

Building the History Mapping Workbook

To build a History Mapping workbook, perform the following steps:

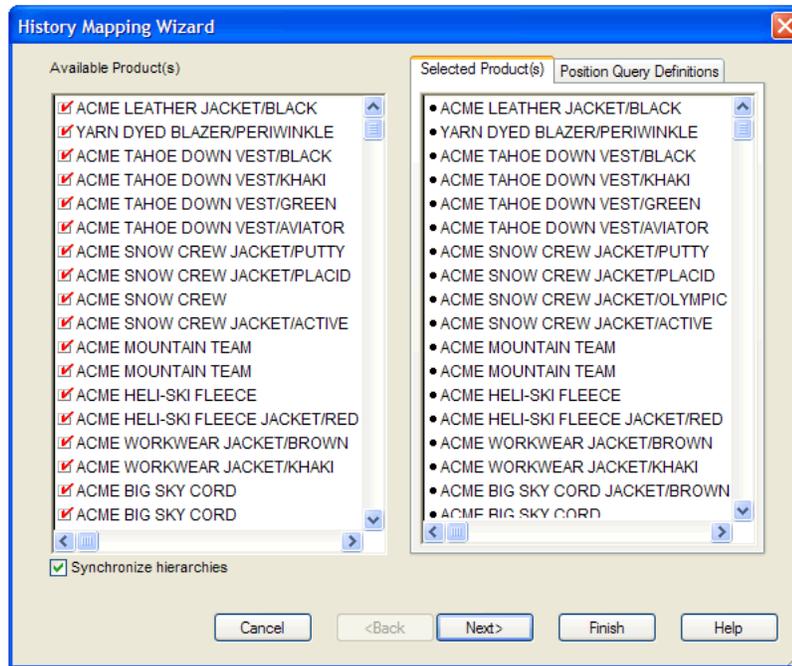

1. Click the **New** icon in the toolbar.
2. The New Workbook dialog box appears. On the Item Planning Administration tab, select **History Mapping** and click **OK**.

Figure 3–1 New Workbook Dialog Box

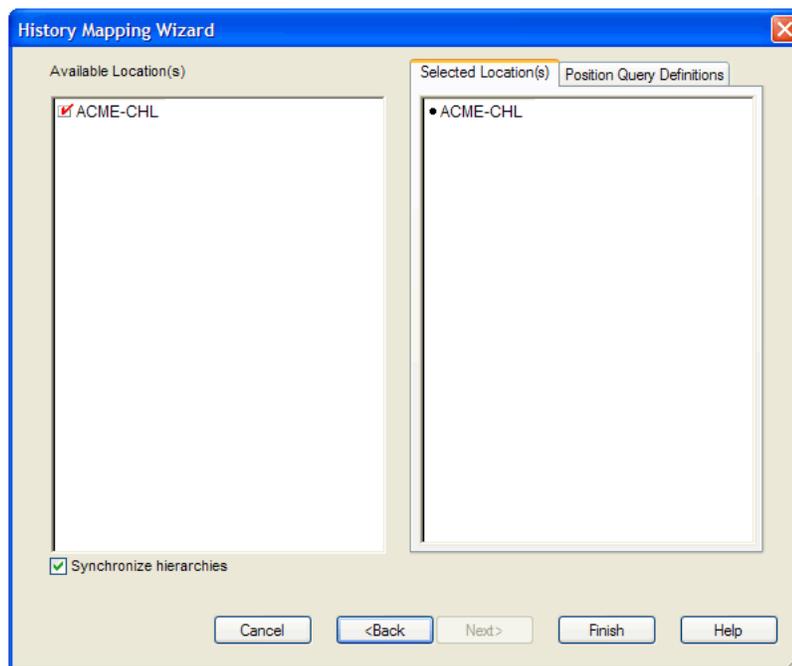

3. The History Mapping Workbook Wizard appears at the Select Products step. Select the products you want to map and click Next.

Figure 3–2 Week Mapping Workbook Wizard: Select Products

4. The Select Channel step appears. Select the channels you want to map and click Finish.

Figure 3–3 Week Mapping Workbook Wizard: Select Channel

The workbook is built.

Map Items

The Map Items tab contains a single worksheet called Map Items. In this worksheet, you can map one item to another.

Figure 3–4 Map Items Worksheet

Product	History Item
1977 APPLIQUE/PEARL	
21 WALE CORD MIN/HIGHLIGHT	
3/4 OPENNECK RAGLAN TEE/KELLY	3/4 SLEEVE BASEBALL

Table 3–2 Review Mapped Sales Worksheet Measures

Measure	Description
Mapped Sls Reg U	Mapped history for regular sales units.
Wp Sls Reg U	Working plan for regular sales units.

Item Planning

The Item Planning workbook allows you to create preseason unit plans at the style/color level. This workbook has nine tabs:

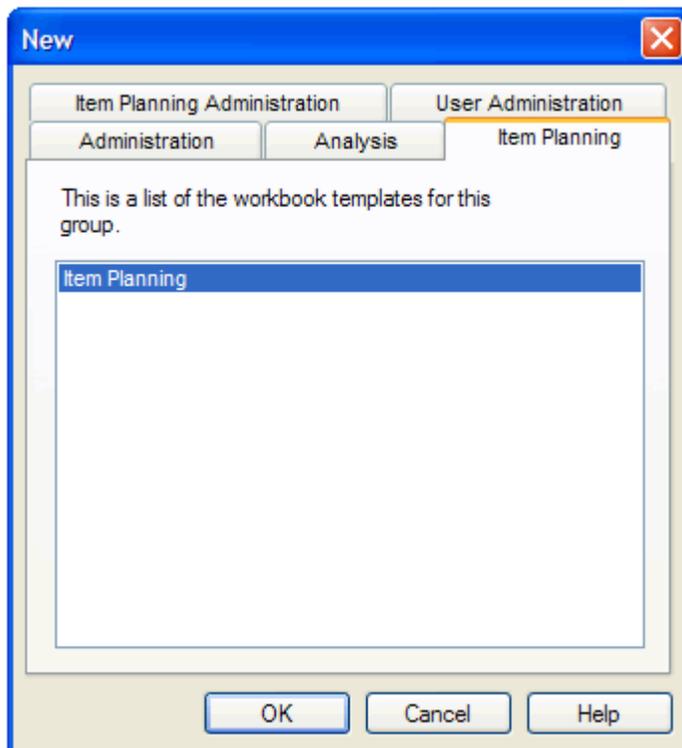

- [Dashboard](#)
- [Getting Started](#)
- [Unit Sales](#)
- [Inventory and Receipts](#)
- [Exit Strategy](#)
- [Review Plans](#)
- [Review MFP Plans](#)
- [Approval](#)
- [All Measures](#)

Building the Item Planning Workbook

To build the Item Planning workbook, perform the following steps.

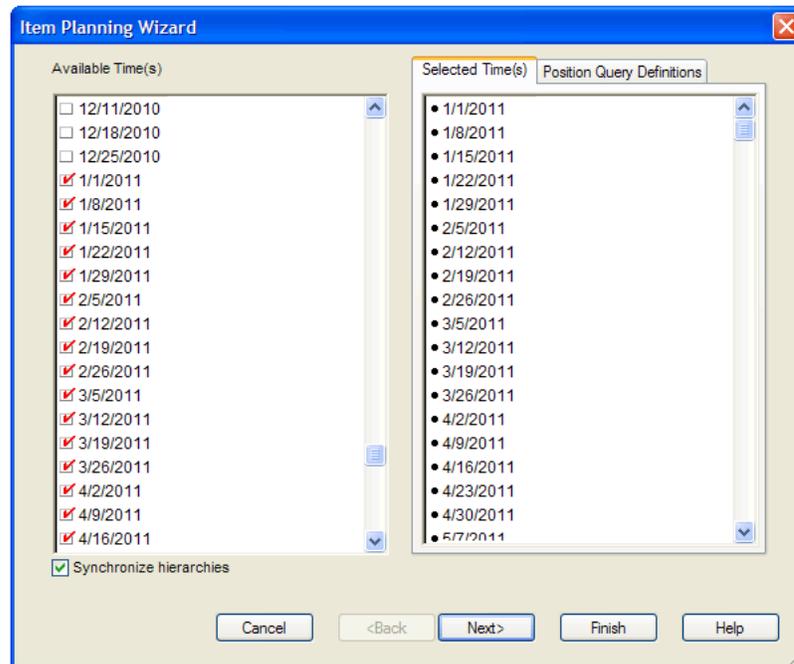

1. Click the **New** icon in the toolbar.
2. The New Workbook dialog box appears. On the Item Planning tab, select **Item Planning** and click **OK**.

Figure 4–1 New Workbook Dialog Box

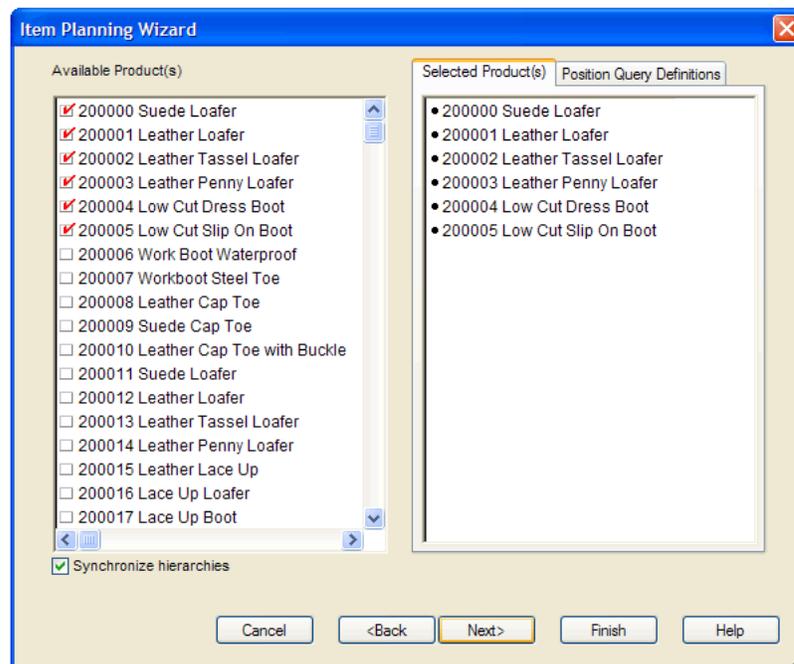

3. The workbook wizard opens at the Calendar Selection step. Select the weeks that you want to plan. Click **Next**.

Figure 4–2 Workbook Wizard: Calendar Selection

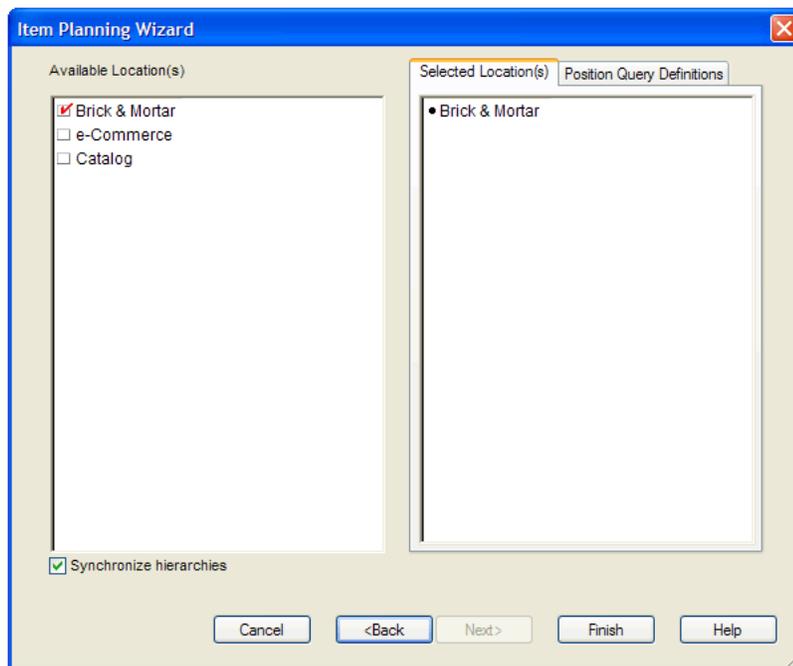

4. The Product Selection step of the workbook wizard appears. Select the styles you want to plan. Click **Next**.

Figure 4–3 Workbook Wizard: Product Selection

5. The Location Selection workbook of the workbook wizard appears. Select the channels you want to plan. Click **Finish**.

Figure 4–4 Workbook Wizard: Location Selection

The Item Planning workbook opens at the [Dashboard](#) tab.

Dashboard

In the dashboard tab, review the overall status of each style.

The Dashboard tab has two worksheets: [Dashboard Worksheet](#) and [Bounds Worksheet](#).

Dashboard Worksheet

Use the Dashboard worksheet for a quick overview of each style's data.

The exception measures in this worksheet highlight data that falls within or outside of the bounds set in the next worksheet.

Figure 4-5 Dashboard Worksheet

	01. Total Plan	02. Total Act/Proj	03. Total Act/Proj diff to Total Plan	04. Total Act/Proj var to Total Plan	05. LTD Plan
Sales Retail	0.00	0.00	0.00	0.00	0.00
Sales Exception					
Markdown	0.00	0.00	0.00	0.00	0.00
Markdown Exception					
Gross Margin	0.00	0.00	0.00	0.00	0.00
Gross Margin Exception					
Gross Margin %	0.00	0.00	0.00	0.00	0.00
Gross Margin % Exception					
Sell Thru %	0.00	0.00	0.00	0.00	0.00
Sell Thru % Exception					
Turn Retail	0.00	0.00	0.00	0.00	0.00
Turn Exception					

The following table lists the measures available on this worksheet.

Table 4-1 Dashboard Worksheet Measures

Measure	Description
Sales Retail	The Retail value of Sales.
Sales Exception	The Sales exception that is highlighted per the user defined upper and lower bound limits.
Markdown	Total Markdowns Retail.
Markdown Exception	The Markdown exception that is highlighted per the user defined upper and lower bound limits.
Gross Profit	Gross Profit Retail.
Gross Profit Exception	The Gross profit result that is highlighted per the user defined upper and lower bound limits.

Table 4-1 (Cont.) Dashboard Worksheet Measures

Measure	Description
Gross Profit %	Gross Profit Rate.
Gross Profit Exception	The Gross profit % result that is highlighted per the user defined upper and lower bound limits.
Sell Thru %	The rate at which sales units are moved through beginning of period inventory.
Sell Thru % Exception	The Sell through % exception that is highlighted per the user defined upper and lower bound limits.
Turn Retail	Cumulative Turnover representing the frequency which Inventory is sold and replaced over a stated time period Retail.
Turn Exception	The turn exception that is highlighted per the user defined upper and lower bound limits.

After you have reviewed the dashboard, continue to the [Bounds Worksheet](#).

Bounds Worksheet

The Bounds worksheet allows you to set the upper and lower bounds for sales, markdown, gross profit, sell through, and turn.

Figure 4-6 Bounds Worksheet

Product	Location	Measure_Status

Sell Thru % Lower Bound	0.00	0.00	0.00	0.00	0.00	0.00
Sell Thru % Upper Bound	0.00	0.00	0.00	0.00	0.00	0.00
Turn Lower Bound	0.00	0.00	0.00	0.00	0.00	0.00
Turn Upper Bound	0.00	0.00	0.00	0.00	0.00	0.00

The following table lists the measures available on this worksheet.

Table 4–2 *Bounds Worksheet Measures*

Measure	Description
Sales Lower Bound	User defined Sales lower limit that will initiate a highlighted result if reached.
Sales Upper Bound	User defined Sales upper limit that will initiate a highlighted result if reached.
Markdown Lower Bound	User defined Markdown lower limit that will initiate a highlighted result if reached.
Markdown Upper Bound	User defined Markdown upper limit that will initiate a highlighted result if reached.
Gross Profit Lower Bound	User defined Gross Profit lower limit that will initiate a highlighted result if reached.
Gross Profit Upper Bound	User defined Gross Profit upper limit that will initiate a highlighted result if reached.
Gross Profit % Lower Bound	User defined Gross Profit % lower limit that will initiate a highlighted result if reached.
Gross Profit % Upper Bound	User defined Gross Profit % upper limit that will initiate a highlighted result if reached.
Sell Thru % Lower Bound	User defined Sell Through % lower limit that will initiate a highlighted result if reached.
Sell Thru % Upper Bound	User defined Sell Through % upper limit that will initiate a highlighted result if reached.
Turn Lower Bound	User defined Turn lower limit that will initiate a highlighted result if reached.
Turn Upper Bound	User defined Turn upper limit that will initiate a highlighted result if reached.

After you have reviewed the Dashboard and Bounds worksheet, continue to the next tab: [Getting Started](#).

Getting Started

The Getting Started tab has five worksheets:

- [Seed Worksheet](#)
- [Review Assortment Plan Parameters Worksheet](#)
- [Set Parameters Worksheet](#)
- [Review Assortment Plan Details](#)
- [Review Trend](#)

Seed Worksheet

The first step you should perform in the Getting Started tab is to seed the plan with the Seed worksheet.

Figure 4–7 Seed Worksheet

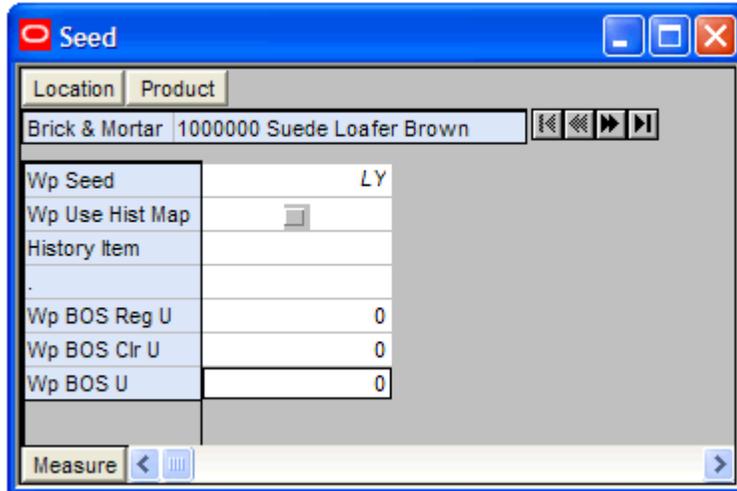

Table 4–3 Seed Worksheet Measures

Measure	Description
Wp Seed	The seed source used to seed the working plan. Use this option to seed or not seed the working plan. You can seed with Last Year's (Ly), Adjusted Last Year's (Adj Ly), or Assortment Plan (AP) data. Or, you can choose the No Action option if you do not want to seed the working plan.
Wp Use Hist Map	Select this option to use the history of the style that you mapped the current style to in the History Mapping workbook.
History Item	The style that you mapped the current style to in the History Mapping workbook.
Wp BOS Reg U	The planned Beginning of Season units at regular price.
Wp BOS Clr U	The planned Beginning of Season units at clearance price. Initializes Beginning of Period Inventory in the first period.
Wp BOS U	The planned Beginning of Season total units. Initializes Beginning of Period Inventory in the first period.

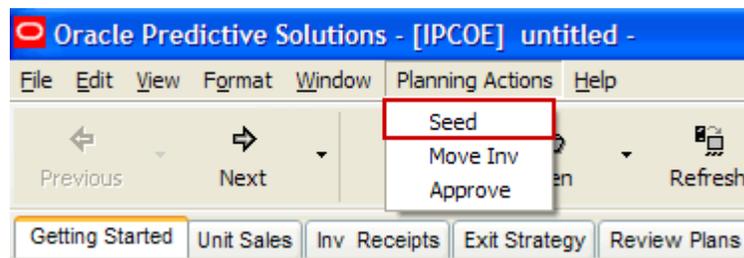

With this worksheet, you can choose to seed your plan with Last Year (Ly), Adjusted Last Year (Adj Ly), or Assortment Planning (AP) data to create a demand curve on which to spread the new plan's initial targets. Or, you can instead choose to not seed the plan, which allows you to create a plan that is not influenced by last year's performance.

Seeding the Plan

When seeding the plan, you can choose which information is seeded. For instance, you can seed just one, some, or all styles in the workbook, as shown in [Figure 4-7](#).

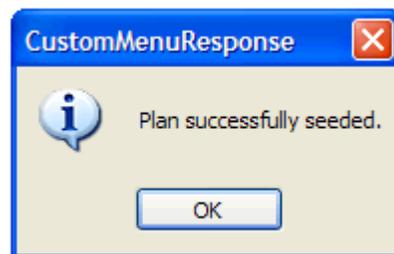

1. Select the style you want to seed.
2. Select the data you want to seed with in the Wp Seed measure. Choose **No Action**, **Ly**, **Adj Ly**, or **AP**.
3. Select **Wp Use Hist Map** if you want to use the data of the style's history item.
4. Enter data for the BOS measures.
5. When you have selected all the data you want to seed, click **Seed** in the Planning Actions menu.

Figure 4-8 Seed Option in the Planning Actions Menu

6. A confirmation message appears, stating that the data has been successfully seeded. Click **OK**.

Figure 4-9 Seeding Success Message

Once you have seeded the styles you want to plan, continue to the next worksheet: [Review Assortment Plan Parameters Worksheet](#).

Review Assortment Plan Parameters Worksheet

Use the Review Assortment Plan Parameters worksheet to reference the parameters that the Assortment Planning user set for the same styles you are planning.

Figure 4–10 Review Assortment Plan Parameters Worksheet

Measure	1977 APPLIQUE/PEARL	21 WALE CORD MINVHIGH
Product Original Ticket Price	0.00	0.00
Product Cost	0.00	0.00
Start Sales Date		
Number of weeks at Clearance Price	0	0
Number of Weeks at Regular Price	0	0
Exit Date		

Table 4–4 Review Assortment Plan Parameters Worksheet Measures

Measure	Description
Product Original Ticket Price	Initial retail of product.
Product Cost	The cost of the product.
Start Sales Date	The date the product is expected to start selling.
Number of weeks at Clearance Price	Number of weeks the item is expected to sell at Clearance Price.
Number of Weeks at Regular Price	Number of weeks the item is expected to sell at Regular Price.
Exit Date	The date that the product should be removed from the sales floor.

After you have reviewed the parameters provided by Assortment Planning, continue to the [Set Parameters Worksheet](#) to set your own parameters.

Set Parameters Worksheet

In this worksheet, set the parameters for the styles you are planning.

Figure 4–11 *Set Parameters*

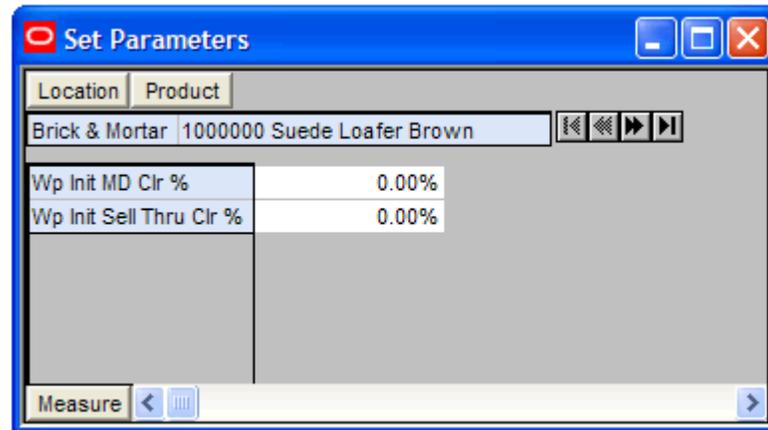

Table 4–5 *Set Parameters Worksheet Measures*

Measure	Description
Wp Init MD Clr %	The planned initial markdown rate for clearance items.
Wp Init Sell Thru Clr %	The planned initial sell through rate for clearance items.

After you have set your parameters review the trend in the [Review Trend](#) worksheet.

Review Trend

Use the Review Trend worksheet to find trends.

Figure 4–12 Review Trend Worksheet

After you have planned the unit sales, plan the inventory and receipts in the next tab: [Inventory and Receipts](#).

Inventory and Receipts

After you have planned the unit sales, develop the inventory and receipts for the styles. A critical part of planning the inventory and receipts is planning when the style moves to clearance. To move a style to clearance, see [Moving Inventory](#).

This tab has one worksheet: Inventory and Receipts.

Wp Move Inv	Working Plan Move Inventory into Clearance from Regular.
Wp Inv Moved U	Working Plan Regular Inventory stock moving into clearance from regular status Units.
Wp EOP Reg U	Working Plan End of Period Regular Inventory Units.
Wp EOP Reg var Ly U%	Working Plan End of Period Regular Inventory variance to Last Year Unit %.
Ly EOP Reg U	Last Year End of Period Regular Inventory Units.
Op EOP Reg U	Original Plan End of Period Regular Inventory Units.
Cp EOP Reg U	Current Plan End of Period Regular Inventory Units.
Wp Cum Avg Inv U	Working Plan Cumulative Average Inventory Units.
Wp Sell Thru Reg %	Working Plan Regular Sell Thru representing the percent of available Regular Inventory sold in a period of time Unit Ratio.
Wp Cum Turn Reg U	Working Plan Cumulative Turnover representing the frequency which Regular Inventory is sold and replaced over a stated time period Unit Ratio.
Wp Inv & Rcpt Comments	Working Plan Inventory & Receipt Comments.

Moving Inventory

To move inventory to clearance from regular price, use the move of inventory feature. When a style/color is ready to move from regular to clearance merchandise, all units on hand must be moved at the same time. A given style/color should never have both regular and clearance inventory at the same time in any single channel.

The Move Inventory feature partially automates the movement of inventory from regular to clearance, sets the initial clearance price, calculates the clearance markdown, and calculates the initial clearance sales units. The initial clearance parameters must be defined before using the Move Inventory feature.

To move the regular inventory units of a style/color to clearance, perform the following steps:

1. Enter the initial clearance markdown percentage that should be taken when units are first moved from regular to clearance.
2. Enter the initial clearance sell-through percentage the system should use to calculate the initial clearance sales units.
3. Ensure that all plans for the regular priced inventory have been created. This includes regular and promotional sales, permanent price changes, receipts, and relevant inventory adjustments.
4. Determine which week is the correct week to move inventory. Select a week after which there are no more regular sales or receipts. Depending on the week is selected, the BOP (Beginning of Period) Reg Units are moved to clearance, clearance markdowns are booked based on those BOP units, and sales for that week going forward are considered clearance sales.
5. In the appropriate week, select **Move to Clr** in the Wp Move Inv measure.

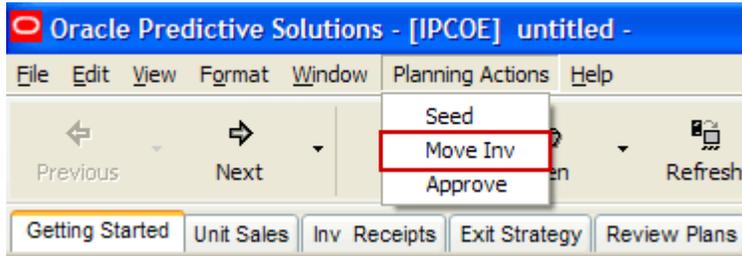

Figure 4–16 Wp Move Inv Measure

.					
Wp Inv Adj Reg U	0	0	0	0	0
Wp Move Inv	Move to Clr	Move to Clr	Move to Clr		
Wp Inv Moved U	0	0	0	0	0
.					

6. Repeat step 1 for other styles if necessary.

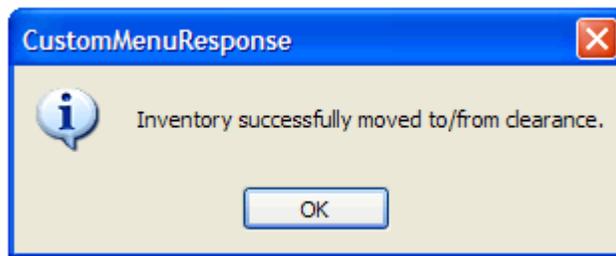

- When finished, click **Move Inv** in the Planning Actions menu.

Figure 4–17 Move Inv Option in the Planning Actions Menu

- A success message appears, informing you that the inventory was successfully moved to or from clearance. Click **OK** to close.

Figure 4–18 Move Inventory Success Message

- Click **Commit Now** or **Commit ASAP** in the File menu to save the data to the database.

The same process is used to move inventory from clearance.

After you have created an inventory and receipts plan and moved inventory to clearance, continue to the [Review Plans](#) tab.

Review Plans

After you have developed the unit, inventory, receipts, and exit plans review them in the Review Plans tab. Depending upon what you reconcile to, use one of these worksheets:

- [Review Unit Plan](#)
- [Review Retail Plan](#)
- [Review Cost Plan](#)

Wp Target Comments	Working Plan Target Comments.

After you have reviewed the MFP Op and Cp plans, continue to the [Approval](#) tab.

Approval

After you have reviewed the plans, approve them in the Approval tab. This tab has one worksheet: Approval.

The approval process is self-approved and executed by the item planner. The versions to be updated are determined during the approval process. During preseason, it is recommended that Op and Cp are updated together to ensure synchronization. When in-season planning begins, only the Cp version is updated. If for some reason the Op needs to be updated after in-season planning has begun, you have the option to approve to the Op version only. Note that in this case, only unelapsed time periods are approved from Wp to Op.

By default, all quarters are disabled for Op approval. If the administrator allows users to approve to Op, you can approve the Op.

To approve the plans, perform the following steps:

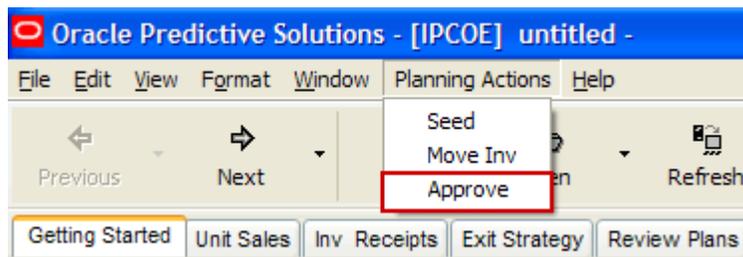

1. Use the Wp Approve measure to approve the plan. You can approve just the current plan, just the original plan, or both plans.
2. Optional: Enter comments in the the Wp Approval Comments measure.

Figure 4–24 Approval Worksheet

Location	Product	Calendar

- When ready to approve, click **Approve** in the Planning Actions menu [Figure 4-25](#).

Figure 4-25 Approve Option in the Planning Actions Menu

- A success message appears, informing you that the plan was successfully approved. Click **OK** to close it.

Figure 4-26 Plan Approved Message

The worksheet refreshes and the Wp Approve and Wp Approval Comments measures are cleared. The Wp Last Approval Action measure along with the associated Op and Cp measures are populated ([Figure 4-27](#)).

Figure 4-27 Approved Plans

The screenshot shows the "Approval" dialog box with a table of approved plans. The table has columns for Location, Product, and three quarters of FY 2011. The table contains the following data:

Location	Product	Quarter 1, FY 2011	Quarter 2, FY 2011	Quarter 3, FY 2011
ACME-CHL	1977 APPLIQUE/PEARL			
Wp Approve				
Wp Approval Comments				
Wp Last Approval Action		Approve Cp only	Approve Op and Cp	Approve Op only
Op Last Approved Date			6/27/2010	6/27/2010

Op Last Approved Comments				
Cp Last Approved Date		6/27/2010	6/27/2010	
Cp Last Approved By		adm	adm	
Cp Last Approved Comments		10 Percent GP		

At the bottom of the dialog, there is a "Measure" field with a dropdown arrow and a refresh button.

The following table lists the measures available on this worksheet.

Table 4–12 Approval Worksheet Measures

Measure	Description
Wp Approve	Use this measure to approve the plan to the current plan, original plan, or both.
Wp Approval Comments	Use this measure to enter comments about the plan.
Wp Last Approval Action	Displays the last type of approval for the time period. The choices are Approve Op and Cp, Approve Op Only, and Approve Cp Only.
Op Last Approved Date	The date that the last original plan was approved.
Op Last Approved By	The username of the person who last approved the original plan.
Op Last Approved Comments	The comments about the original plan approval made by the user.
Cp Last Approved Date	The date that the last current plan was approved.
Cp Last Approved By	The username of the person who last approved the current plan.
Cp Last Approved Comments	The comments about the current plan approval made by the user.

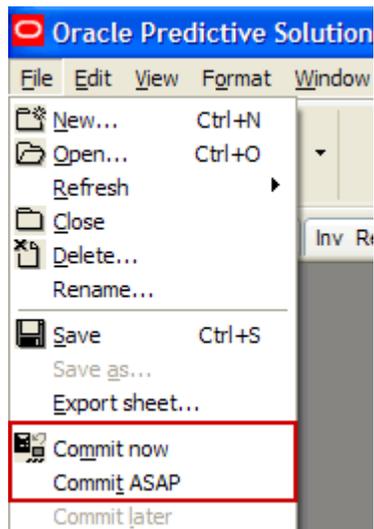

Commit Targets

When you are ready to share your plan with other users, you should commit your workbook to the domain. This shares your plan with others. For more information about committing, see the *Oracle Retail Predictive Application Server User Guide for the Classic Client*.

To commit your plan, perform the following steps:

1. Approve your plans using the instructions in [Approval](#) section.
2. In the workbook that you have approved the plans, click **Commit Now** or **Commit ASAP** in the File menu.

Figure 4–28 Commit a Workbook

Once the commit has occurred, the commit status changes to committed.

Exit Strategy

After you have approved your plan, plan your exit strategy. This tab has one worksheet: Exit Strategy.

Like the [Inventory and Receipts](#) worksheet, the Exit Strategy worksheet allows you to move inventory to and from clearance with the Mp Move Inv measure. To move inventory, follow the directions in [Moving Inventory](#).

Figure 4–29 Exit Strategy

The following table lists the measures available on this worksheet.

Table 4–13 Target Setting Worksheet Measures

Measure	Description
WP BOP Clr U	Working Plan Clearance Beginning of Period Inventory Units.
Ly BOP Clr U	Last Year Clearance Beginning of Period Inventory Units.
Op BOP Clr U	Original Plan Clearance Beginning of Period Inventory Units.
Cp BOP Clr U	Current Plan Clearance Beginning of Period Inventory Units.
Wp Price Clr AUR	Clearance Sales Average Unit Retail Price.
Wp MD Clr %	Working Plan Reduction of Clearance Price Average Unit Retail taken as the first markdown Retail %.
Wp Sell Thru Clr %	Working Plan Clearance Sell Thru representing the percent of available Clearance Inventory sold in a period of time Unit Ratio.
Wp Sls Clr U	Working Plan Clearance Sales Units.
Ly Sls Clr U	Last Year Clearance Sales Units
Op Sls Clr U	Original Plan Clearance Sales Units.
Cp Sls Clr U	Current Plan Clearance Sales Units.
Wp Move Inv	Working Plan Move Inventory into Clearance from Regular.
Wp Inv Moved U	Working Plan Regular Inventory stock moving into clearance from regular status Units.
Wp Inv Adj Clr U	Working Plan Clearance Inventory Adjustments Units.
WP EOP Clr U	Working Plan End of Period Clearance Inventory Units.
Ly EOP Clr U	Last Year End of Period Clearance Inventory Units.
Op EOP Clr U	Original Plan End of Period Clearance Inventory Units.
Cp EOP Clr U	Current Plan End of Period Clearance Inventory Units.
Wp MD Init Clr R	The planned initial markdown for clearance.
Wp MD Add Clr R	Working Plan Reduction of Clearance Price Average Unit Retail for second / subsequent markdowns Retail.
Wp MD Clr R	Working Plan Clearance Markdowns - Price reduction used to clear aged or slow moving inventory at Retail.
Wp MD Perm R	Working Plan Permanent Markdowns representing a permanent retail decrease to the owned inventory price of merchandise for strategic downward re-pricing decisions at Retail.
Wp MD Promo R	Working Plan Promotional Markdowns representing the temporary reduction to the owned inventory price for promotional purposes expressed at Retail.
Wp MD R	Working Plan Total Markdowns (Clearance + Promotional + Regular) Retail.
Ly MD R	Last Year Markdown Retail.
Wp MD Allowance R	Working Plan Markdown Allowances Retail.
Wp MkUp Clr R	Working Plan Clearance Markup Retail.
WP Exit Strategy Comments	Use this measure to enter comments about the planned exit strategy.

All Measures

The All Measures worksheet contains all the measures contained in the workbook; however, only the Wp Sls U measure is visible in the default measure profile. The purpose of this workbook is to allow you to create a worksheet of workbook measures that you may not be able to worksheet all at once in other worksheets.

Figure 4-30 All Measures

The screenshot shows a window titled 'All Measures' with a blue border. Inside, there's a table with columns for dates and a row for the 'Wp Sls U' measure. The table data is as follows:

Location	Product	Calendar					
ACME-CHL	1977 APPLIQUE/PEARL	1/1/2011	1/8/2011	1/15/2011	1/22/2011	1/29/2011	2/5/2011
Wp Sls U		10	33	12	7	23	7

At the bottom of the window, there is a 'Measure' dimension tile with a left arrow and a right arrow.

To see the other measures in this worksheet, perform the following steps:

1. Right-click the **Measure** dimension tile and click **Select Display and Sort Attributes**. The All Measures - Measure window appears.
2. The Tree Options window appears. Click the **Show/Hide** tab.
3. Move measures you want to see in the worksheet from the Hidden Measures box to the Visible Measures box.
4. When finished, click **OK**.

For more information about hidden and visible measures, see the *Oracle Retail Predictive Application Server User Guide for the Classic Client*.

Enable Op Approval Workbook

The Enable Op Approval step is used by planning administrators only. They use the workbook to enable and disable the ability of users to approve a quarterly original plan (Op). If the planning administrator disables the Op approval, users cannot approve plans to Op status.

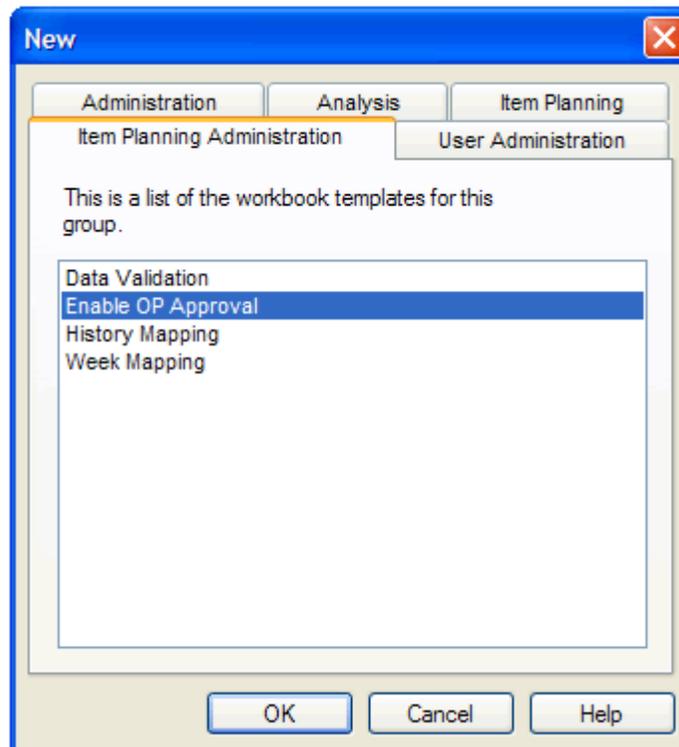

By default, the Op approval is set to enabled.

Building the Enable Op Approval Workbook

To build a new Enable Op Approval workbook, perform the following steps:

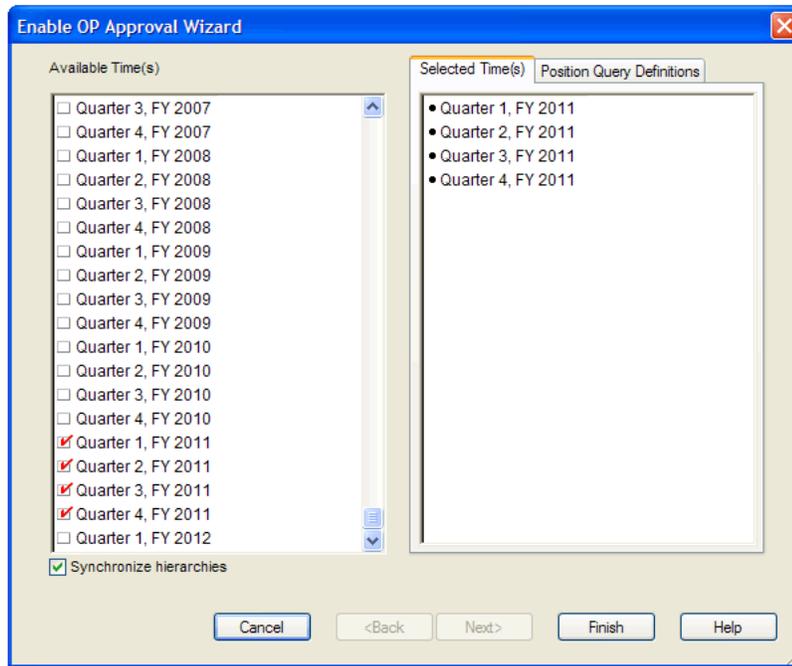

1. Click the New icon in the toolbar.
2. The New Workbook dialog box appears. On the Item Planning Administration tab, select **Enable Op Approval** and click **OK**.

Figure 5-1 New Workbook Dialog Box

3. The Enable Op Approval Wizard appears at the Select Calendar step. Select the quarters you want to enable and click **Finish**.

Figure 5–2 Enable Op Approval Wizard: Select Calendar

The Enable Op Approval workbook is built and opens at the [Allow Op Approval](#) worksheet.

Allow Op Approval

The Allow Op Approval tab has one worksheet: Allow OP Approval.

Select the quarters that you want to enable users to approve plans to the original plan.

Figure 5–3 Allow OP Approval Worksheet

The following table lists the measures available on this view.

Table 5–1 Allow Op Approval Worksheet Measures

Measure	Description
Op Approval Enabled	Select this measure to enable users to approve plans to the original plan for the quarter.

Data Validation

The Data Validation workbook contains all measures that are either loaded or touched during the batch calculation process. This template is used by the administrator only to verify the results of data loads and batch processes.

The Data Load Validation workbook contains the following tabs:

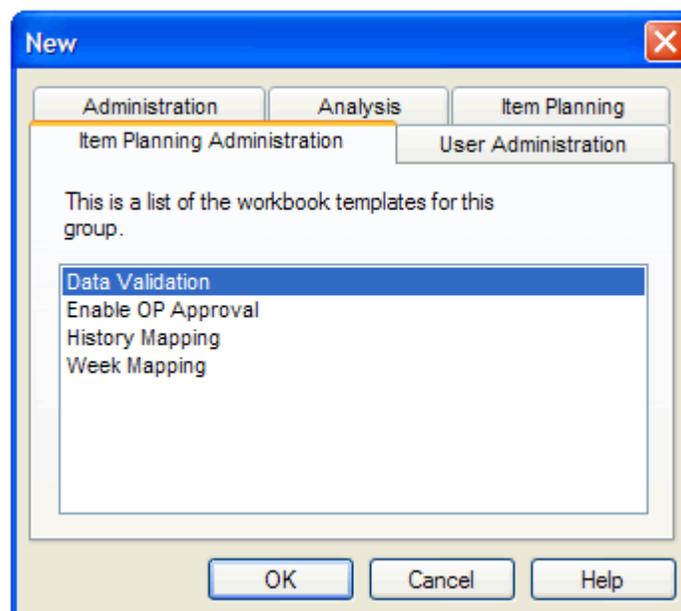

- Assortment Planning Measures
- Default Measures
- Item Planning Measures
- MFP Measures

Building the Data Load Validation Workbook

To build a Data Load Validation workbook, perform the following steps:

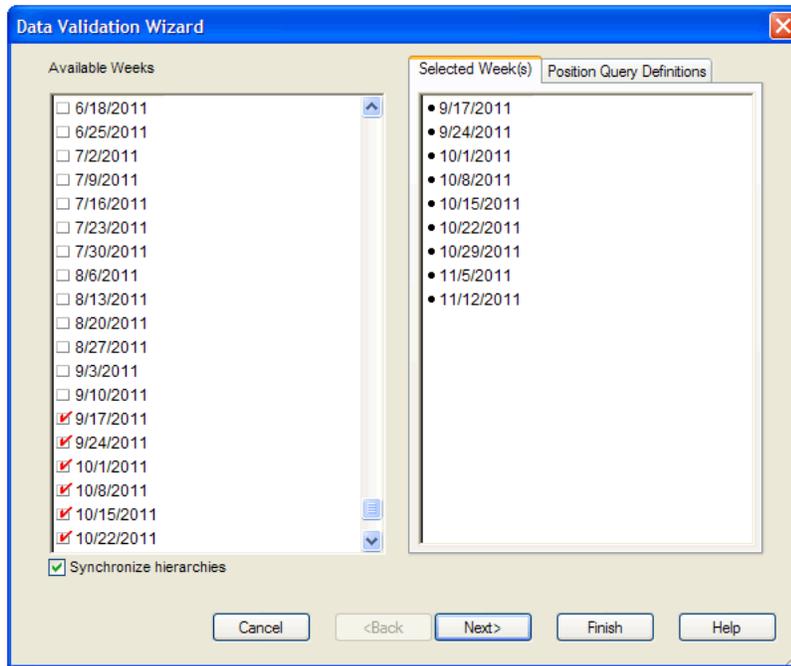

1. Click the **New** icon in the toolbar.
2. The New Workbook dialog box appears. On the Item Planning Administration tab, select **Data Validation** and click **OK**.

Figure 6–1 New Workbook Dialog Box

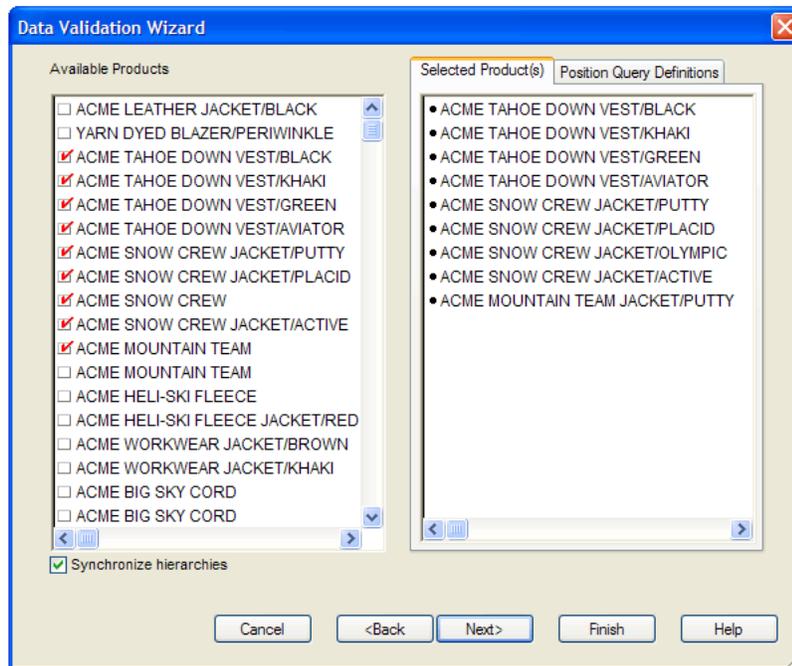

- The Data Validation Wizard appears at the Select Calendar step. Select the weeks you want to validate and click **Next**.

Figure 6–2 Data Validation Wizard: Select Calendar

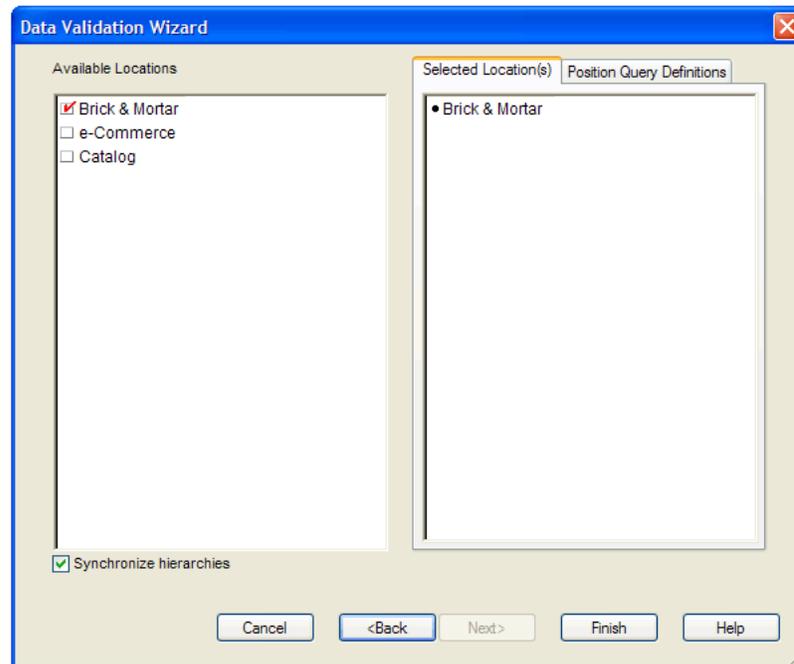

- The Select Product step appears. Select the products you want to validate and click **Next**.

Figure 6–3 Data Validation Wizard: Select Product

5. The Select Location step appears. Select the channels you want to validate and click **Finish**.

Figure 6–4 Data Validation Wizard: Select Location Step

The Data Load Validation workbook is built.

Assortment Planning Measures

Use the Assortment Planning Measures view to validate that the Assortment Planning data was updated in the batch process.

Table 6–1 Assortment Planning Measures

Measure	Description
BOP Inv Cost	Assortment Planning Current Plan Beginning of Period Inventory Cost.
BOP Inv Retail	Assortment Planning Current Plan Beginning of Period Inventory Retail.

Table 6-1 (Cont.) Assortment Planning Measures

Measure	Description
BOP Inv Units	Assortment Planning Current Plan Beginning of Period Inventory Units.
Product Cost	The cost of the product.
EOP Inv Cost	End of Period Inventory Cost.
AP Cp EopPerStr U%	Assortment Planning Current Plan EOP Per Store Unit %.
EOP Inv Retail	End of Period Inventory Retail.
EOP Inv Units	End of Period Inventory Units.
Exit Date	Date that inventory should be removed from sales floor.
AP Cp Gross Margin	Assortment Planning Current Plan Gross Margin.
AP Cp GP R%	Assortment Planning Current Plan Gross Profit Retail %.
Clearance Markdown Retail	Assortment Planning Current Plan Clearance Markdowns - Price reduction used to clear aged or slow moving inventory at Retail.
Perm Markdown Retail	Permanent Markdowns representing a permanent retail decrease to the owned inventory price of merchandise for strategic downward re-pricing decisions at Retail.
Promo Markdown Retail	Promotional Markdowns representing the temporary reduction to the owned inventory price for promotional purposes expressed at Retail.
Pack Size	Quantity of style / color or styles purchased from Supplier as a pack.
AP Cp Price AUC	Assortment Planning Current Plan Average Unit Cost.
AP Cp Price AUR	Assortment Planning Current Plan Average Unit Retail.
AP Cp Price Clr AUC	Assortment Planning Current Plan Price Clearance Average Unit Cost.
AP Cp Price Clr AUR	Assortment Planning Current Plan Price Clearance Average Unit Retail.
Clearance Price Change %	Assortment Planning Current Plan Clearance Price Change %.
Clearance Price Retail	Assortment Planning Current Plan Clearance Price Retail.
Perm Price Change %	Permanent Price Change expressed as a rate.
Product Original Ticket Price	Initial retail of product.
Promo Price Change %	Assortment Planning Current Plan Promotional Price Change %.
Promo Price Retail	Promotional Price Average Unit Retail.
Perm Price Retail	Average Unit Retail resulting from a Permanent Price Change.
AP Cp Price Reg AUC	Assortment Planning Current Plan Price Regular Average Unit Cost.
AP Cp Price Reg AUR	Assortment Planning Current Plan Price Regular Average Unit Retail.
AP Cp Receipts AUC	Assortment Planning Current Plan Receipts Average Unit Cost.
AP Cp Receipts AUR	Assortment Planning Current Plan Receipts Average Unit Retail.

Table 6-1 (Cont.) Assortment Planning Measures

Measure	Description
Receipts Cost	Assortment Planning Current Plan Receipts Cost.
AP Cp Average Recpts Per Str	Assortment Planning Current Plan Average Receipts per store.
Receipts Retail	Assortment Planning Current Plan Receipts Retail.
Receipts Units	Receipts expressed as Units.
AP Cp Receipts U%	Assortment Planning Current Plan Receipts Units rate.
AP Cp Sls C	Assortment Planning Current Plan Sales Cost.
Clearance Sales Cost	Assortment Planning Current Plan Clearance Sales Cost.
Clearance Sales Retail	Assortment Planning Current Plan Clearance Sales Retail.
Clearance Sales Units	See Clearance Sell Thru %.
AP Cp Avg Sls Per Str U	Assortment Planning Current Plan Average Sales per store represented in units.
AP Cp Sls R	Assortment Planning Current Plan Sales Retail.
Regular Sales Cost	Assortment Planning Current Plan Regular Sales Cost.
Regular Sales Retail	Assortment Planning Current Plan Regular Sales Retail.
Regular Sales Units	Assortment Planning Current Plan Regular Sales Units.
Start Sales Date	The date the product is expected to start selling.
AP Cp Sls U	Assortment Planning Current Plan Sales Units.
Sell Thru %	Assortment Planning Current Plan Sell Thru representing the percent of total available Inventory sold in a period of time Change %.
Store Count	Count of Stores.
Number of weeks at Clearance Price	Number of weeks the item is expected to sell at Clearance Price.
Number of Weeks at Regular Price	Number of weeks the item is expected to sell at Regular Price.

Default Measures

Use the Default Measures view to validate that the default measure data was updated in the batch process.

Figure 6–6 *Default Measures Worksheet*

The screenshot shows a software window titled "Default Measures". It contains a table with columns for "Location", "Product", and "Calendar". The location is "1220 WISCONSIN AVE, NW" and the product is "ACME MOUNTAIN". The calendar dates are 9/17/2011, 9/24/2011, 10/1/2011, and 10/8/2011. The table lists 20 different measures, each with a value of 0.00 or 0 for all dates.

Measure	9/17/2011	9/24/2011	10/1/2011	10/8/2011
