

# Oracle® Configuration Manager

Prerequisites

Release 10.3.0

E12883-01

August 2008

---

Before installing Oracle Configuration Manager (OCM), ensure that all the prerequisites are met:

**1. Internet connection information is available, if using OCM in connected mode.**

If you configure OCM in connected mode, you will need to know how OCM can connect to the Internet. OCM supports both a direct connection (using port 443), and connection using a proxy server (either with or without user authentication). If a proxy server is being used, you must supply the host name (or IP address) and port number of the proxy server. If the proxy server requires authentication, you will also need the connection credentials for the proxy (user name and password). Note that if you configure OCM in disconnected mode, Internet connection information is not required.

**2. A supported JDK has been installed.**

OCM requires JDK 1.2.2 or greater on UNIX platforms (including Linux), and JDK 1.3.1 or greater on Windows. If a supported JDK is not present in the ORACLE\_HOME, but a valid JDK is present in another directory, you must define the JAVA\_HOME environment variable to point to that directory.

**3. If installing OCM 10.3 or higher: You have your Oracle MetaLink ID and either (a) the associated password for that MetaLink ID, or (b) a Customer Support Identifier (CSI) registered for that MetaLink account along with the country code for that CSI.**

**If installing OCM 10.2.7 or earlier: You have your Oracle MetaLink ID and a Customer Support Identifier (CSI) registered for that MetaLink account along with the country code for that CSI.**

When configuring Oracle Configuration Manager 10.3, the default setup method requires your Oracle MetaLink ID and password in order for the configuration data collected to be accessible or usable by you in Oracle MetaLink.

Optionally (recommended for MetaLink accounts with more than one CSI in their profile), you may specify a MetaLink ID, CSI, and the country code associated with that CSI (the country in which the CSI was issued); note that if configuring OCM 10.2.7 or earlier, this is the only supported method. If using this method of configuring OCM, you must specify the correct country code; if you have any problems with registration or are uncertain about your country code, log into Oracle MetaLink for assistance.

For more information on installing or configuring OCM, see:

<http://www.oracle.com/technology/documentation/ocm.html>

**4. Ensure that you are using OCM on a supported platform and supported software.**

As of release 10.3, Oracle Configuration Manager supports installation on the following platforms and collecting configuration data for the following software versions:

Platforms	<ul style="list-style-type: none"> <li>■ Sun SPARC Solaris (32-bit and 64-bit)</li> <li>■ Linux x86 (32-bit and 64-bit)</li> <li>■ Linux Itanium</li> <li>■ Linux on PowerPC</li> <li>■ IBM zSeries Based Linux</li> <li>■ HP-UX PA-RISC (32-bit and 64-bit)</li> <li>■ HP-UX Itanium</li> <li>■ IBM AIX5L Based Systems (32-bit and 64-bit)</li> <li>■ Microsoft Windows: 2000, XP, Server 2003 (32-bit and 64-bit), Vista, NT, other Win 32 platforms</li> </ul>
Oracle Software	<ul style="list-style-type: none"> <li>■ Oracle Database releases 8.1.7 and higher</li> <li>■ Oracle Application Server releases 9.0.3 and higher (note that 1.0.2.2 is only supported in an E-Business Suite configuration)</li> <li>■ Oracle E-Business Suite 11.5.4 and higher</li> <li>■ Oracle Enterprise manager Grid Control versions 9i and 10g</li> <li>■ Oracle Collaboration Suite version 10.1.0.2 and higher</li> <li>■ Peoplesoft version 8.4.8 and higher</li> <li>■ JD Edwards Enterprise One 8.97</li> <li>■ Oracle Business Intelligence Enterprise Edition/Siebel Analytics versions 7.8.4/10.1.3.2</li> <li>■ Siebel CRM versions 7.7, 7.8, 8.0</li> <li>■ Oracle Retail version 13.0</li> </ul>

## Documentation Accessibility

Our goal is to make Oracle products, services, and supporting documentation accessible, with good usability, to the disabled community. To that end, our documentation includes features that make information available to users of assistive technology. This documentation is available in HTML format, and contains markup to facilitate access by the disabled community. Accessibility standards will continue to evolve over time, and Oracle is actively engaged with other market-leading technology vendors to address technical obstacles so that our documentation can be accessible to all of our customers. For more information, visit the Oracle Accessibility Program Web site at <http://www.oracle.com/accessibility/>.

### Accessibility of Code Examples in Documentation

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

## Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

## TTY Access to Oracle Support Services

Oracle provides dedicated Text Telephone (TTY) access to Oracle Support Services within the United States of America 24 hours a day, 7 days a week. For TTY support, call 800.446.2398. Outside the United States, call +1.407.458.2479.

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software--Restricted Rights (June 1987). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.
