BEA WebLogic Adapter for Manugistics Release Notes

BEA WebLogic Adapter for Manugistics Release 7.0.3
Date: April 2003

This document includes the following topics:

- About the BEA WebLogic Adapter for Manugistics Release
- Supported Sub-Platforms
- Software Requirements
- Determining the Adapter Version
- Contacting BEA Customer Support

About the BEA WebLogic Adapter for Manugistics Release

The corporate world has already realized the value of supply chain management software, but having a powerful suite of supply chain management software is only a start. The real challenge is the integration of the software suite with the rest of your enterprise and other organizations. The BEA WebLogic Adapter for Manugistics allows an organization to fully integrate their Manugistics application systems with virtually any other legacy mainframe system, DBMS, data warehouse, EDI, B2B, ERP, SCM, CRM or financial application on any platform. High-speed, low-impact, non-intrusive access to and from Manugistics exposes the critical business logic and data contained with Manugistics for immediate integration with other applications.

Supported Sub-Platforms

As of the release date, the BEA WebLogic Adapter for Manugistics is available on the following sub-platforms:

- Microsoft Windows 2000 Professional with Service Pack 2
- Microsoft Windows 2000 Server with Service Pack 2
- Microsoft Windows 2000 Advanced Server with Service Pack 2
- Microsoft Windows NT 4.0 with Service Pack 6 or later

We are working to certify the adapter on additional platforms. Up-to-date information on supported platforms is available at the following URL:

<http://edocs.bea.com/wladapters/docs70/support/index.html>

Software Requirements

Before you install the BEA WebLogic Adapter for File, ensure that you have the following software installed:

- BEA WebLogic Server and WebLogic Integration.

The software can be downloaded for from the BEA Web site at

<http://commerce.bea.com/downloads/products.jsp>

As of the release date, the following versions are supported:

- WebLogic Platform 7.0 with Service Pack 2 (WebLogic Server and WebLogic Integration components must be installed)

The information required to install WebLogic Platform 7.0 can be found at

<http://edocs.bea.com/platform/docs70/install/index.html>

Caution: You must apply patch CR095687 to your WebLogic Platform before installing this adapter. Contact BEA Customer Support for this required patch.

- Manugistics version 6.1
- Java Runtime environment 1.3.1 or higher
- Web browser
 - Netscape 6.2 or higher
 - Internet Explorer 5.x or higher

Determining the Adapter Version

To allow you to easily determine the version of the BEA WebLogic Adapter for Manugistics, identifying information has been added to the `Manifest.mf` file.

For example, the `Manifest.mf` file for BEA WebLogic Adapter for Manugistics 7.0.3 contains the following:

```
Manifest-Version: 1.0
Created-By: Apache Ant 1.5
Label: BEARG3.0003
Implementation-Vendor: BEA Systems
Implementation-Version: 7.0.3.0003
Implementation-Title: BEA Manugistics Adapter RG3 April 7 2003
```

The `Implementation-Version` is provided in the following format: `w.x.y.zzzz`:

- `w.x` represents the major and minor release number (in this case, 7.0)
- `y` represents the service pack number (in this case, 2)
- `zzzz` represents the build number of the release (in this case, 0008)

If you obtain a patch subsequent to a release, identifying information specific to the patch is included in the `Manifest.mf` file.

Miscellaneous Issues

When using the BEA WebLogic Adapter for Manugistics, you might encounter some of the following issues that can make the adapter or an adapter component inoperable. The following table describes these issues and provides a workaround, where possible.

If an entry includes a CR (Change Request) number, a possible solution may exist in a future BEA WebLogic Adapter for Manugistics release where BEA will provide vendor-specific code to fix the problem. Refer to this number to conveniently track the solution as the problems are resolved.

Please contact BEA Customer Support for assistance in tracking the unresolved problems identified with a CR number. For contact information, see the “Contacting BEA Customer Support” on page 5.

Table 1. Miscellaneous Issues

1	Namespace Prefix in manifest.xml
Problem	Each schema repository has a manifest that describes the repository and its schemas. This repository manifest is stored as an XML file named <code>manifest.xml</code> . If you manually create an XML schema, the namespace prefix must be <code>xsd:</code> rather than <code>xs:</code> in the manifest file.
Platform	All

Table 1. Miscellaneous Issues

Workaround	<p>Use the <code>xsd:</code> namespace prefix for XML schemas as shown in the following listing:</p> <pre><?xml version="1.0" encoding="UTF-8"?> <xsd:schema xmlns:xsd="http://www.w3.org/2001/XMLSchema" elementFormDefault="qualified"> <xsd:element name="OrderIn"> <xsd:complexType> <xsd:sequence> <xsd:element ref="Store_Code"/> <xsd:element ref="LineItem" maxOccurs="unbounded"/> </xsd:sequence> </xsd:complexType> </xsd:element></pre>
-------------------	---

Contacting BEA Customer Support

If you have any questions about this version of the BEA WebLogic Adapter for Manugistics, or if you have problems installing and running the BEA WebLogic Adapter for Manugistics, contact BEA Customer Support through BEA WebSupport at www.beasys.com. You can also contact Customer Support by using the contact information provided on the Customer Support Card, which is included in the product package.

When contacting Customer Support, be prepared to provide the following information:

- Your name, e-mail address, phone number, and fax number
- Your company name and company address
- Your machine type and authorization codes
- The name and version of the product you are using
- A description of the problem and the content of pertinent error messages
