Oracle® Communications Billing and Revenue Management

Licensing Information User Manual

Release 7.5

E62353-11

December 2019

ORACLE®

Contents

Introduction

This Licensing Information document is a part of the product or program documentation under the terms of your Oracle license agreement and is intended to help you understand the program editions, entitlements, restrictions, prerequisites, special license rights, and/or separately licensed third party technology terms associated with the Oracle software program(s) covered by this document (the "Program(s)"). Entitled or restricted use products or components identified in this document that are not provided with the particular Program may be obtained from the Oracle Software Delivery Cloud website (https://edelivery.oracle.com) or from media Oracle may provide. If you have a question about your license rights and obligations, please contact your Oracle sales representative, review the information provided in Oracle's Software Investment Guide (http://www.oracle.com/us/corporate/pricing/software-investment-guide/index.html), and/or contact the applicable Oracle License Management Services representative listed on http://www.oracle.com/us/corporate/license-management-services/index.html.

Licensing Information

Product	Subproduct	Licensing Description
Oracle Communications Billing and Revenue Management Server Products	All Oracle Communications Advanced Billing and Revenue Management Products	**Included products:** The following modules are included: • Balance Management • Balance Monitoring • Billing • Convergent Subscriber Management • Financial Management • Business Operations Center • Invoicing • Order Inventory Framework • Partner Relationship Management • Pipeline Configuration Center • Pricing Center • Real-time Rating • Reporting • Self-Care Manager • Subscriber and Hierarchy Management • Subscriber Groups Management • Resource Reservation Manager • Advanced Discounting • Elastic Charging Engine • Oracle Communications Batch Rating • Oracle Communications Offline Mediation Controller **Restrictions:** Use of Oracle Communications Offline Mediation Controller is restricted to development of, management of, and access to end user services managed by Oracle Communications Advanced Billing and Revenue Management when using the Elastic Charging Engine. The license for Oracle Communications Offline Mediation Controller is restricted for use with Oracle Communications Advanced Billing and Revenue Management and includes the Offline Mediation Controller Elastic Charging Engine Bundle and Suspense Management Cartridge Bundle. Any need to use Offline Mediation Controller Cartridges outside of Oracle Communications Advanced Billing and Revenue Management requires a separate purchase of a full use license of Offline Mediation Controller. Offline Mediation Controller Cartridges can be used with the restricted use license of Offline Mediation Controller for use with Oracle Communications Advanced Billing and Revenue Management only. Additional cartridges and cartridge bundles for use with Oracle Communications Advanced Billing and Revenue Management can be purchased separately. See the supplemental information of each Offline Mediation Controller Cartridge for additional restrictions. **Prerequisites:** • Oracle Database Enterprise Edition

Product	Subproduct	Licensing Description

		• Oracle Database Enterprise Edition Option: Partitioning
		
		• Oracle Communications Pricing Design Center
		
		• Customer must be licensed to use Oracle Business Intelligence Publisher for Oracle Applications:
		
		    o To use out-of-the-box reports shipped with Oracle Communications Advanced Billing and Revenue Management or build additional reports against the Oracle Communications Billing and Revenue Management schema. Oracle Business Intelligence Publisher is the reporting platform for Oracle Communications Billing and Revenue Management.
		
		    o To leverage the Oracle Communications Advanced Billing and Revenue Management integration with Oracle Business Intelligence Publisher for generating invoice documents.
		
		The following are required only when deploying Elastic Charging Engine:
		
		• Oracle Coherence Enterprise Edition for Oracle Applications or Oracle Coherence Grid Edition if active site redundancy is required.
		
		• NoSQL Database Enterprise Edition
		
		The following is a prerequisite for using Business Operations Center and Elastic Charging Engine:
		
		• Oracle WebLogic Suite for Oracle Applications or Oracle WebLogic Enterprise Edition
		
		The following is a prerequisite for using Oracle Communications Offline Mediation Controller and Business Operations Center:
		
		• Oracle Identity and Access Management Suite Plus for Oracle Applications

	Oracle Communications Advanced Billing and Revenue Management	The license for Oracle Communications Advanced Billing and Revenue Management includes the ability and rights to use real time rating, core billing and revenue management functionality. **Included product and prerequisites:** See All Oracle Communications Billing and Revenue Management Server Products.
	Oracle Communications Advanced Billing and Revenue Management for Convergent Rating	Oracle Communications Advanced Billing and Revenue Management for Convergent Rating entitles customers to use the Oracle Communications Advanced Billing and Revenue Management for batch and real-time rating applications. **Included product and prerequisites:** In addition to the listing in All Oracle Communications Billing and Revenue Management Server Products, Oracle Identity and Access Management Suite Plus for Oracle Applications is a prerequisite for using Offline Mediation Controller. **Included licenses:** This license includes the right to use the Oracle Communications Billing and Revenue Management Server Extensions Batch Rating module and Oracle Communications Offline Mediation Controller. **Restrictions:** The license for Oracle Communications Advanced Billing and Revenue Management for Convergent Rating includes the ability and rights to use Oracle Communications Advanced Billing and Revenue Management functionality for both real-time rating and batch rating of

Product	Subproduct	Licensing Description
		Call Detail Records (CDRs) or Event Data Records (EDRs). It does not include the right to use Oracle Communications Advanced Billing and Revenue Management for billing and invoicing.
		Use of Oracle Communications Offline Mediation Controller is restricted to development of, management of, and access to end user services managed by Oracle Communications Advanced Billing and Revenue Management for Convergent Rating when using the Elastic Charging Engine.
		The license for Oracle Communications Offline Mediation Controller is restricted for use with Oracle Communications Advanced Billing and Revenue Management for Convergent Rating and includes the Offline Mediation Controller Elastic Charging Engine Bundle and Suspense Management Cartridge Bundle. Any need to use Offline Mediation Controller Cartridges outside of Oracle Communications Advanced Billing and Revenue Management for Convergent Rating requires a separate purchase of a full use license of Offline Mediation Controller. Offline Mediation Controller Cartridges can be used with the restricted use license of Offline Mediation Controller for use with Oracle Communications Advanced Billing and Revenue Management for Convergent Rating only. Additional cartridges and cartridge bundles for use with Oracle Communications Advanced Billing and Revenue Management for Convergent Rating can be purchased separately. See the supplemental information of each Offline Mediation Controller Cartridge for additional restrictions.
	Oracle Communications Billing and Revenue Management for Billing	Oracle Communications Billing and Revenue Management for Billing entitles customers to use the Oracle Communications Billing and Revenue Management for billing and invoicing applications. **Included product and prerequisites:** See All Oracle Communications Billing and Revenue Management Server Products. **Restrictions:** The license for Oracle Communications Billing and Revenue Management for Billing includes the ability and rights to use all Oracle Communications Advanced Billing and Revenue Management functionality for billing, invoicing, and bill time discounts with Advanced Discounting. It does not include the right to use Oracle Communications Advanced Billing and Revenue Management for any rating functions.
	Oracle Communications Billing and Revenue Management Advanced Server for Value-Add Services	Oracle Communications Advanced Billing and Revenue Management for Value-Add Services entitles customers to use the Oracle Communications Advanced Billing and Revenue Management for non-voice wireless services. **Included product and prerequisites:** In addition to the listing in All Oracle Communications Billing and Revenue Management Server Products, Oracle Identity and Access Management Suite Plus for Oracle Applications is a prerequisite for using Offline Mediation Controller. **Included licenses:** This license includes the right to use the Oracle Communications Billing and Revenue Management Server Extensions Batch Rating module and Oracle Communications Offline Mediation Controller. **Restrictions:** The license for Oracle Communications Advanced Billing and Revenue Management for Value-Add Services includes the ability and rights to use Oracle Communications Advanced Billing and Revenue Management functionality specific to processing of value-add services. Any use of Oracle Communications Advanced Billing and Revenue Management for processing of any data related to

Product	Subproduct	Licensing Description
		wireless voice services requires purchase of a separate Oracle Communications Advanced Billing and Revenue Management license.
		Use of Oracle Communications Offline Mediation Controller is restricted to development of, management of, and access to end user services managed by Oracle Communications Advanced Billing and Revenue Management for Value-Add Services when using the Elastic Charging Engine.
		The license for Oracle Communications Offline Mediation Controller is restricted for use with Oracle Communications Advanced Billing and Revenue Management for Value-Add Services and includes the Offline Mediation Controller Elastic Charging Engine Bundle and Suspense Management Cartridge Bundle. Any need to use Offline Mediation Controller Cartridges outside of Oracle Communications Advanced Billing and Revenue Management for Value-Add Services requires a separate purchase of a full use license of Offline Mediation Controller. Offline Mediation Controller Cartridges can be used with the restricted use license of Offline Mediation Controller for use with Oracle Communications Advanced Billing and Revenue Management for Value-Add Services only. Additional cartridges and cartridge bundles for use with Oracle Communications Advanced Billing and Revenue Management for Value-Add Services can be purchased separately. See the supplemental information of each Offline Mediation Controller Cartridge for additional restrictions.
Oracle Communications Advanced Billing and Revenue Management Suite	Oracle Communications Advanced Billing and Revenue Management Suite	Oracle Communications Advanced Billing and Revenue Management Suite includes the ability and rights to use Oracle Communications Advanced Billing and Revenue Management, all modules in Oracle Communications Billing and Revenue Management Server Extensions, and all modules in Oracle Communications Billing and Revenue Management Market Extensions. **Prerequisites:** • Oracle Database • Oracle Communications Pricing Design Center • Customer must be licensed to use Oracle Business Intelligence Publisher: o To use out-of-the-box reports shipped with Oracle Communications Advanced Billing and Revenue Management or build additional reports against the Oracle Communications Billing and Revenue Management schema. Oracle Business Intelligence Publisher is the reporting platform for Oracle Communications Billing and Revenue Management. o To leverage the Oracle Communications Advanced Billing and Revenue Management integration with Oracle Business Intelligence Publisher for generating invoice documents. The following are required only when deploying Elastic Charging Engine: • Oracle Coherence Enterprise Edition for Oracle Applications or Oracle Coherence Grid Edition if active site redundancy is required • NoSQL Database Enterprise The following is a prerequisite for using Business Operations Center and Elastic Charging Engine: • Oracle WebLogic Suite for Oracle Applications or Oracle WebLogic Enterprise Edition The following is a prerequisite for using Oracle Communications

Product	Subproduct	Licensing Description
		Offline Mediation Controller and Business Operations Center: • Oracle Identity and Access Management Suite Plus for Oracle Applications **Included licenses:** This license includes the right to use Oracle Communications Offline Mediation Controller. **Restrictions:** Oracle Communications Billing and Revenue Management Application User-Based Products are not included in the Oracle Communications Advanced Billing and Revenue Management Suite and should be purchased additionally. Use of Oracle Communications Offline Mediation Controller is restricted to development of, management of, and access to end user services managed by Oracle Communications Advanced Billing and Revenue Management Suite when using the Elastic Charging Engine. The license for Oracle Communications Offline Mediation Controller is restricted for use with Oracle Communications Advanced Billing and Revenue Management Suite and includes the Offline Mediation Controller Elastic Charging Engine Bundle and Suspense Management Cartridge Bundle. Any need to use Offline Mediation Controller Cartridges outside of Oracle Communications Advanced Billing and Revenue Management Suite requires a separate purchase of a full use license of Offline Mediation Controller. Offline Mediation Controller Cartridges can be used with the restricted use license of Offline Mediation Controller for use with Oracle Communications Advanced Billing and Revenue Management Suite only. Additional cartridges and cartridge bundles for use with Oracle Communications Advanced Billing and Revenue Management Suite can be purchased separately. Please see supplemental info of each Offline Mediation Controlled Cartridges for restrictions.
Oracle Communications Elastic Charging Engine	Oracle Communications Elastic Charging Engine	Oracle Communications Elastic Charging Engine includes the ability and rights to use online rating, reservation and charging functionality, including account, balance and quota management for both prepaid and postpaid subscribers in simple to complex account hierarchies. The license allows for network integration to the Oracle Communications Elastic Charging Engine via Diameter Gy, Sy and Sh protocols. **Included functionality:** The following modules are included: • Online Rating • Balance Management • Balance Monitoring • Subscriber Management • Financial Management • Reporting • Self-Care Manager • Subscriber and Hierarchy Management • Subscriber Groups Management • Resource Reservation Manager • Advanced Discounting **Prerequisites:** • Oracle Database Enterprise Edition

Product	Subproduct	Licensing Description
		• Oracle Database Enterprise Edition Option: Partitioning • Oracle WebLogic Suite for Oracle Applications or Oracle WebLogic Enterprise Edition • Oracle Identity and Access Management Suite Plus for Oracle Applications • Oracle Coherence Enterprise Edition for Oracle Applications or Oracle Coherence Grid Edition if active site redundancy is required • NoSQL Database Enterprise Edition • Oracle Database Enterprise Edition Option: RAC – Optional for the customer to deploy the Oracle Communications Elastic Charging Engine Database in a Highly Available architecture • Oracle Business Intelligence Publisher for Oracle Applications – Optional for the customer to use out-of-the-box reports shipped with Oracle Communications Elastic Charging Engine or build additional reports against the Oracle Communications Elastic Charging Engine Database schema **Inclusions:** A license to Oracle Communications Elastic Charging Engine includes the following restricted-use licenses to Oracle Communications Pricing Design Center, Oracle Communications Billing Care, Oracle Communications Developer Suite, and Oracle Communications Web Services Manager, Oracle Communications Offline Mediation Controller, and Oracle Communication Radius Manager. The quantity of named user plus restricted-use licenses are limited to: • 5 Named User Plus for Oracle Communications Pricing Design Center • 10 Named User Plus for Oracle Communications Billing Care • 3 Named User Plus for Oracle Communications Developer Suite. Use of Oracle Communications Pricing Design Center, Oracle Communications Billing Care, Oracle Communications Developer Suite, Oracle Communications Offline Mediation Controller, and Oracle Communications Web Services Manager is restricted to development and management of and access to end user services managed by Oracle Communications Elastic Charging Engine. The license for Oracle Communications Offline Mediation Controller is restricted for use with Oracle Communications Elastic Charging Engine and includes the Offline Mediation Controller Elastic Charging Engine Bundle and Suspense Management Cartridge Bundle. Any need to use Offline Mediation Controller Cartridges outside of Oracle Communications Elastic Charging Engine requires a separate purchase of a full use license of Offline Mediation Controller. Offline Mediation Controller Cartridges can be used with the restricted use license of Offline Mediation Controller for use with Oracle Communications Elastic Charging Engine only. Additional cartridges and cartridge bundles for use with Oracle Communications Elastic Charging Engine can be purchased separately. Please see supplemental info of each Offline Mediation Controlled Cartridges for restrictions.
Oracle Communications Billing and Revenue Management	All Products	**Prerequisites:** All Oracle Communications Billing and Revenue Management Server Extensions require that customers also be licensed to use one of the following products: • Oracle Communications Advanced Billing and Revenue

Product	Subproduct	Licensing Description
Server Extensions		Management
		• Oracle Communications Advanced Billing and Revenue Management for Convergent Rating
		• Oracle Communications Billing and Revenue Management for Billing
		• Oracle Communications Advanced Billing and Revenue Management Server for Value-Add Services
		• Oracle Communications Elastic Charging Engine
	Oracle Communications Batch Rating	Oracle Communications Batch Rating leverages the batch pipeline architecture and processes events that include call assembly, sequence checking, guiding, zone analysis, rating, balance updates, and synchronization as well as re-rating. Batch rating is generally used for processing high-volume usage events.
		Prerequisites:
		See prerequisites for Oracle Communications Billing and Revenue Management Server Extensions – All Products.
		Licensing notes:
		An Oracle Communications Batch Rating license is included with the purchase of the following product:
		• Oracle Communications Advanced Billing and Revenue Management for Convergent Rating
	Oracle Communications Brand Manager	Oracle Communications Brand Manager provides the ability to create an environment in which Oracle Communications Billing and Revenue Management is divided and managed as multiple separate and distinct brands. Each brand may have its own user access control, customer subscriber data, product catalog, general ledger accounts, and controlled access to other system data.
		Prerequisites:
		See prerequisites for Oracle Communications Billing and Revenue Management Server Extensions – All Products.
	Oracle Communications Collections Manager	Oracle Communications Collections Manager provides full management of overdue receivables including assigning tasks to collections agents, customer profiling, debt aging, and multiple collections scenarios. It is fully integrated to Oracle Communications Billing and Revenue Management A/R and G/L and includes a GUI for configuration and operation.
		Prerequisites:
		See prerequisites for Oracle Communications Billing and Revenue Management Server Extensions – All Products.
	Oracle Communications EAI Manager	Oracle Communications Enterprise Application Integration (EAI) Manager facilitates integrations between Oracle Communications Billing and Revenue Management and other enterprise applications. The Oracle Communications EAI Manager assembles and publishes business events through a consistent interface and includes a default set of business events to be published.
		Prerequisites:
		See prerequisites for Oracle Communications Billing and Revenue Management Server Extensions – All Products.
	Oracle Communications MultiDB Manager	Oracle Communications MultiDB Manager provides support for running a single instance of Oracle Communications Billing and Revenue Management within a multi-database environment. The Oracle Communications MultiDB Manager allows customer accounts

Product	Subproduct	Licensing Description
		to be distributed across several databases. This enables Oracle Communications Billing and Revenue Management to scale in order to handle extremely large workloads, both in terms of throughput and subscribers. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Server Extensions – All Products.
	Oracle Communications Payment Manager for Paymentech	Oracle Communications Payment Manager for Paymentech provides a packaged integration to Paymentech, a third-party payment gateway integrated to a number of financial institutions in Canada, United States, and Europe. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Server Extensions – All Products.
	Oracle Communications Payment Suspense Manager	Oracle Communications Payment Suspense Manager allows suspending payments that fail validation rules and managing suspended payments. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Server Extensions – All Products.
	Oracle Communications Revenue Assurance Manager	Oracle Communications Revenue Assurance Manager provides support for verifying the end-to-end completeness, accuracy, and integrity of all revenue- generating events as they flow through Oracle Communications Billing and Revenue Management. Oracle Communications Revenue Assurance Manager provides a framework for collecting audit information for rating and billing business owners to ensure data integrity. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Server Extensions – All Products.
	Oracle Communications Suspense Manager	Oracle Communications Suspense Manager provides support for managing usage records that have been suspended during processing. This allows the user to analyze, edit, recycle, write-off, and delete suspended CDRs. Oracle Communications Suspense Manager consists of a server-side component (Suspense Manager) and a GUI (Suspense Management Center) which enables users to perform these tasks individually or in bulk. When using the Oracle Communications Advanced Billing and Revenue Management with Oracle Communications Offline Mediation Controller for processing CDRs the Suspense Manager License allow for use of the Offline Mediation Controller Suspense Management Cartridge Bundle. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Server Extensions – All Products.
	Oracle Communications Taxation Manager for Vertex	Oracle Communications Taxation Manager for Vertex provides a packaged integration to Vertex, a third-party software package for calculating taxes. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Server Extensions – All Products. A separate license must be purchased from Vertex for the Vertex

Product	Subproduct	Licensing Description
		product.
		Licensing notes:
		Customers should choose Vertex Taxation Manager for complex taxation requirements
	Oracle Communications Voucher and Top-up Manager	Oracle Communications Voucher and Top-up Manager provides support for securely adjusting funds to customer's monetary balances and is integrated with Oracle Communications Billing and Revenue Management audit tracking and G/L processes. Oracle Communications Voucher and Top-up Manager also supports handling the full voucher lifecycle and the management of vouchers against account balances. This includes securely creating, ordering, processing, and distributing voucher cards or virtual vouchers as a newly supported inventory and payment capability items.
		Prerequisites:
		See prerequisites for Oracle Communications Billing and Revenue Management Server Extensions – All Products.
	Oracle Communications Web Services Manager	Oracle Communications Web Services Manager provides a standards-based interface to Oracle Communications Billing and Revenue Management's most commonly used APIs. The Oracle Communications Web Services Manager uses Web Services standards and accepts and returns SOAP messages sent over HTTP.
		The Web Services Manager includes the Oracle Communications Billing and Revenue Management JCA Resource Adapter, which enables connectivity between Oracle Communications Billing and Revenue Management and external J2EE-compliant applications
		Prerequisites:
		See prerequisites for Oracle Communications Billing and Revenue Management Server Extensions – All Products.
Oracle Communications Billing and Revenue Management Market Extensions	All Products	**Prerequisites:**
		All Oracle Communications Billing and Revenue Management Server Extensions require that customer also be licensed to use one of the following products:
		• Oracle Communications Advanced Billing and Revenue Management
		• Oracle Communications Advanced Billing and Revenue Management for Convergent Rating
		• Oracle Communications Billing and Revenue Management for Billing
		• Oracle Communications Advanced Billing and Revenue Management Server for Value-Add Services
		• Oracle Communications Elastic Charging Engine
	Oracle Communications Billing and Revenue Management Services Framework	Oracle Communications Billing and Revenue Management Services Framework is a collection of storable classes, opcodes, and utilities that enable further development of Oracle Communications Billing and Revenue Management support for any wireless or wireline service, such as GSM or CDMA that can be deployed in production.
		Prerequisites:
		See prerequisites for Oracle Communications Billing and Revenue Management Market Extensions – All Products.
	Oracle Communications	Oracle Communications Content Manager enables content providers to use Oracle Communications Billing and Revenue Management application hosted by service providers or content aggregators to

Product	Subproduct	Licensing Description
	Content Manager	authenticate and authorize customer's content purchases, rate those content purchases through a variety of options, and to track customer usage patterns in order to gain valuable insight into the types of content customers are buying. **Prerequisites:** See Prerequisites for Oracle Communications Billing and Revenue Management Market Extensions – All Products.
	Oracle Communications Email Manager	Oracle Communications Email Manager integrates Oracle Communications Billing and Revenue Management with the UNIX Sendmail mail transfer agent. Oracle Communications Email Manager works in conjunction with Sendmail to authenticate users to login into the email service and retrieve email. Oracle Communications Email Manager also provides real-time authorization of incoming mail messages to determine whether email can be accepted by a user's account. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Market Extensions – All Products.
	Oracle Communications GPRS Manager	Oracle Communications GPRS Manager offers a complete solution for creating, managing, billing, and settlement for GPRS services. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Market Extensions – All Products.
	Oracle Communications GSM Manager	Oracle Communications GSM Manager enables service providers to manage GSM services. The Oracle Communications GSM Manager includes the Oracle Communications GSM AAA Manager, which enables service providers to integrate directly with their prepaid network elements for user authentication, service authorization, and session accounting. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Market Extensions – All Products.
	Oracle Communications Interconnect Manager	Oracle Communications Interconnect Manager is an add-on component to the Oracle Communications Batch Rating and facilitates interconnection, which is the process of handling usage events over physical lines between two or more network operators. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Market Extensions – All Products. It is required that customer also be licensed to use Oracle Communications Batch Rating. **Licensing notes:** An Oracle Communications Interconnect Manager license is included with the purchase of one of Oracle Communications Billing and Revenue Management Server for Interconnect.
	Oracle Communications IP Device Manager	Oracle Communications IP Device Manager facilitates the administration of IP address and APN inventories. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Market Extensions – All Products.
	Oracle	Oracle Communications Lightweight Directory Access Protocol (LDAP) Manager provides a centralized way of administering data

Product	Subproduct	Licensing Description
	Communications LDAP Manager	between Oracle Communications Billing and Revenue Management and LDAP directory servers, required for accurate and timely data translation and exchange between systems. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Market Extensions – All Products.
	Oracle Communications Number Manager	Oracle Communications Number Manager enables service providers with the ability to generate, manage, and report on phone number inventory. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Market Extensions – All Products.
	Oracle Communications Radius Manager	Oracle Communications Radius Manager provides a complete RADIUS server solution for real-time authentication, authorization, and accounting using the standard RADIUS protocol. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Market Extensions – All Products.
	Oracle Communications Roaming Manager – CIBER	Oracle Communications Roaming Manager – CIBER provides support for roaming processing. Oracle Communications Roaming Manager - CIBER provides support for validating and processing roaming records (inbound) and generating roaming records (outbound) according to the CIBER standards. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Market Extensions – All Products. It is required that customer also be licensed to use Oracle Communications Batch Rating. **Licensing notes:** • Customers should choose one of the two options - either Oracle Communications Roaming Manager – CIBER or Oracle Communications Roaming Manager – TAP.
	Oracle Communications Roaming Manager – TAP	Oracle Communications Roaming Manager – TAP provides support for roaming processing. Oracle Communications Roaming Manager – TAP provides support for validating and processing roaming records (inbound) and generating roaming records (outbound) according to the TAP3 standards. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue Management Market Extensions – All Products. It is required that customer also be licensed to use Oracle Communications Batch Rating. **Licensing notes:** • Customers should choose one of the two options: either Oracle Communications Roaming Manager – CIBER or Oracle Communications Roaming Manager – TAP.
	Oracle Communications SIM Manager	Oracle Communications SIM Manager enables service providers with the ability to order, receive, manage, and report on SIM card inventory. **Prerequisites:** See prerequisites for Oracle Communications Billing and Revenue

Product	Subproduct	Licensing Description
		Management Market Extensions – All Products.
Oracle Communications Billing and Revenue Management Application User-Based Products	All Products	**Prerequisites:** All Oracle Communications Billing and Revenue Management Application User-Based Product require that customers also be licensed to one of the following product: • Oracle Communications Advanced Billing and Revenue Management • Oracle Communications Advanced Billing and Revenue Management for Convergent Rating • Oracle Communications Billing and Revenue Management for Billing • Oracle Communications Advanced Billing and Revenue Management for Value-Add Services • Oracle Communications Advanced Billing and Revenue Management Suite • Oracle Communications Elastic Charging Engine
	Oracle Communications Conversion Manager	Oracle Communications Conversion Manager provides the capability to transfer customer data from legacy systems to Oracle Communications Billing and Revenue Management applications. Customer data may include information on customer profile, account, service, product, or billing. **Prerequisites:** See Prerequisites for Oracle Communications Billing and Revenue Management Application User-Based Products – All Products.
	Oracle Communications Customer Center Manager	Oracle Communications Customer Center Manager is a GUI-based application for managing subscriber accounts in Oracle Communications Billing and Revenue Management including account setup and maintenance, service and product purchase and cancellation, A/R activities, and bill and payment set-up. **Prerequisites:** See Prerequisites for Oracle Communications Billing and Revenue Management Application User-Based Products – All Products.
	Oracle Communications Developer Suite	Oracle Communications Developer Suite includes these products: • Oracle Communications Developer Center • Software Developer Kit (SDK) Oracle Communications Developer Center is a Java-based application that allows developers to manage storable objects, to test custom applications, and to specify how event data is loaded into the Oracle Communications Billing and Revenue Management database. The SDK provides a framework as well as a set of tools and libraries for programmers to not only customize business policies, but to also develop custom applications, standard facilities modules, and custom data managers. **Prerequisites:** See Prerequisites for Oracle Communications Billing and Revenue Management Application User-Based Products – All Products.
	Oracle Communications Permissioning Center	Oracle Communications Permissioning Center is a GUI-based application for managing and assigning reusable roles and permissions for users of applications such as Customer Center and Pricing Center. Roles can be hierarchical to further enhance or restrict

Product	Subproduct	Licensing Description
		permissions for a specific set of users.
		Prerequisites:
		See Prerequisites for Application User-Based Products – All Products.
	Oracle Communications Billing Care	Oracle Communications Billing Care is a Web-based UI and a companion product for BRM. The application represents the primary user interface through which business users (CSRs) access subscriber centric information in BRM. The application accesses and manipulates financial data like subscriber's credit card numbers, bills, and transactions (usage records etc…); subscribed offerings; hierarchies; financial transactions.
		Oracle Communications Billing Care comes with an SDK kit, Billing Care customers can add new functionality into the product or alter certain aspects of existing functionality in a controlled and upgrade safe manner.
		Prerequisites:
		• See Prerequisites for Application User-Based Products – All Products.
		• Oracle WebLogic Enterprise Edition or Oracle WebLogic Suite for Oracle Applications
		• Oracle Identity and Access Management Suite Plus for Oracle Apps

Third-Party Notices

Commercial Software

Commercial software used in Oracle Communications Billing and Revenue Management is identified in the following table with the following license notes, restrictions, and disclaimers.

Commercial software products or components distributed in Oracle Communications Billing and Revenue Management are identified in the following table along with the applicable licensing information.

Provider	Component(s)	Functionality	Licensing Information

ACE Software Support Terms and Conditions

Copyright and Licensing Information for ACE(TM), TAO(TM), CIAO(TM), DAnCE(TM), and CoSMIC(TM)

ACE(TM), TAO(TM), CIAO(TM), DAnCE>(TM), and CoSMIC(TM) (henceforth referred to as "DOC software") are copyrighted by Douglas C. Schmidt and his research group at Washington University, University of California, Irvine, and Vanderbilt University, Copyright (c) 1993-2017, all rights reserved. Since DOC software is open-source, freely available software, you are free to use, modify, copy, and distribute--perpetually and irrevocably--the DOC software source code and object code produced from the source, as well as copy and distribute modified versions of this software. You must, however, include this copyright statement along with any code built using DOC software that you release. No copyright statement needs to be provided if you just ship binary executables of your software products.

You can use DOC software in commercial and/or binary software releases and are under no obligation to redistribute any of your source code that is built using DOC software. Note, however, that you may not misappropriate the DOC software code, such as copyrighting it yourself or claiming authorship of the DOC software code, in a way that will prevent DOC software from being distributed freely using an open-source development model. You needn't inform anyone that you're using DOC software in your software, though we encourage you to let us know so we can promote your project in the DOC software success stories.

The ACE, TAO, CIAO, DAnCE, and CoSMIC web sites are maintained by the DOC Group at the Institute for Software Integrated Systems (ISIS) and the Center for Distributed Object Computing of Washington University, St. Louis for the development of open-source software as part of the open-source software community. Submissions are provided by the submitter ``as is'' with no warranties whatsoever, including any warranty of merchantability, noninfringement of third party intellectual property, or fitness for any particular purpose. In no event shall the submitter be liable for any direct, indirect, special, exemplary, punitive, or consequential damages, including without limitation, lost profits, even if advised of the possibility of such damages. Likewise, DOC software is provided as is with no warranties of any kind, including the warranties of design, merchantability, and fitness for a particular purpose, noninfringement, or arising from a course of dealing, usage or trade practice. Washington University, UC Irvine, Vanderbilt University, their employees, and students shall have no liability with respect to the infringement of copyrights, trade secrets or any patents by DOC software or any part thereof. Moreover, in no event will Washington University, UC Irvine, or Vanderbilt University, their employees, or students be liable for any lost revenue or profits or other special, indirect and consequential damages.

DOC software is provided with no support and without any obligation on the part of Washington University, UC Irvine, Vanderbilt University, their employees, or students to assist in its use, correction, modification, or enhancement. A number of companies around the world provide commercial support for DOC software, however. DOC software is Y2K-compliant, as long as the underlying OS platform is Y2K-compliant. Likewise, DOC software is compliant with the new US daylight savings rule passed by Congress as "The Energy Policy Act of 2005," which established new daylight savings times (DST) rules for the United States that expand DST as of March 2007. Since DOC software obtains time/date and calendaring information from operating systems users will not be affected by the new DST rules as long as they upgrade their operating systems accordingly.

The names ACE(TM), TAO(TM), CIAO(TM), DAnCE(TM), CoSMIC(TM), Washington University, UC Irvine, and Vanderbilt University, may not be used to endorse or promote products or services derived from this source without express written permission from Washington University, UC Irvine, or Vanderbilt University. This license grants no permission to call products or services derived from this source ACE(TM), TAO(TM), CIAO(TM), DAnCE(TM), or CoSMIC(TM), nor does it grant permission for the name Washington University, UC Irvine, or Vanderbilt University to appear in their names.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. **Definitions**.

   "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.
   "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.
   "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.
   "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.
   "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.
   "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.
   "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).
   "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.
   "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."
   "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. **Grant of Copyright License**. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. **Grant of Patent License**. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. **Redistribution**. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

    a.   You must give any other recipients of the Work or Derivative Works a copy of this License; and

    b.   You must cause any modified files to carry prominent notices stating that You changed the files; and

    c.   You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

    d.   If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. **Submission of Contributions**. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. **Trademarks**. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. **Disclaimer of Warranty**. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. **Limitation of Liability**. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. **Accepting Warranty or Additional Liability**. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

Eclipse Public License

All past Contributors to AspectJ v1.6.11 disclaim all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose. In addition, such Contributors are not liable for any damages, including direct, indirect, special, incidental and consequential damages, such as lost profits.

Any provisions of the Oracle license agreement that differ from the Eclipse Public License are offered by Oracle alone and not by any other party.

Eclipse Public License - v 1.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. **DEFINITIONS**

    "Contribution" means:

    a. in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and

    b. in the case of each subsequent Contributor: (i) changes to the Program, and (ii) additions to the Program;

    where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program.
    "Contributor" means any person or entity that distributes the Program.
    "Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.
    "Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a. Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b. Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c. Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d. Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

When the Program is made available in source code form:

a. it must be made available under this Agreement; and

b. a copy of this Agreement must be included with each copy of the Program.

Contributors may not remove or alter any copyright notices contained within the Program. Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

3. REQUIREMENTS

A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that:

a. it complies with the terms and conditions of this Agreement; and

b. its license agreement:

i. effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

ii. effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii. states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and

iv. states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version.

Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.

This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

Joda Time License

This product includes software developed by Joda.org (http://www.joda.org/).

Perl Licensing

Portions of this program use Perl, the open source version is made available by Perl Organization under the terms of the below version of the Artistic License. As such, Oracle is required to provide the following notices. Note, however, that the Oracle program license that accompanied this program determines your right to use the Oracle program, including Perl, and the terms contained in the following notices do not change those rights.

The current open source version of Perl can be downloaded at: https://www.perl.org/get.html

Oracle elects to license this file available under the Artistic License as expressly permitted by the Perl licensing terms.

"

   The ""Artistic License""

   Preamble

The intent of this document is to state the conditions under which a Package may be copied, such that the Copyright Holder maintains some semblance of artistic control over the development of the package,while giving the users of the package the right to use and distribute the Package in a more-or-less customary fashion, plus the right to make reasonable modifications.

Definitions:

 ""Package"" refers to the collection of files distributed by the Copyright Holder, and derivatives of that collection of files created through textual modification.

 ""Standard Version"" refers to such a Package if it has not been modified,or has been modified in accordance with the wishes of the Copyright Holder as specified below.

 ""Copyright Holder"" is whoever is named in the copyright or copyrights for the package.

 ""You"" is you, if you're thinking about copying or distributing this Package.

 ""Reasonable copying fee"" is whatever you can justify on the basis of media cost, duplication charges, time of people involved, and so on. (You will not be required to justify it to the Copyright Holder, but only to the computing community at large as a market that must bear the fee.)

 ""Freely Available"" means that no fee is charged for the item itself, though there may be fees involved in handling the item. It also means that recipients of the item may redistribute it under the same conditions they received it.

1. You may make and give away verbatim copies of the source form of the Standard Version of this Package without restriction, provided that you duplicate all of the original copyright notices and associated disclaimers.

2. You may apply bug fixes, portability fixes and other modifications derived from the Public Domain or from the Copyright Holder. A Package modified in such a way shall still be considered the Standard Version.

3. You may otherwise modify your copy of this Package in any way, provided that you insert a prominent notice in each changed file stating how and when you changed that file, and provided that you do at least ONE of the following:

   a) place your modifications in the Public Domain or otherwise make them Freely Available, such as by posting said modifications to Usenet or an equivalent medium, or placing the modifications on a major archive site such as uunet.uu.net, or by allowing the Copyright Holder to include your modifications in the Standard Version of the Package.

b) use the modified Package only within your corporation or organization.

c) rename any non-standard executables so the names do not conflict with standard executables, which must also be provided, and provide a separate manual page for each non-standard executable that clearly documents how it differs from the Standard Version.

d) make other distribution arrangements with the Copyright Holder.

4. You may distribute the programs of this Package in object code or executable form, provided that you do at least ONE of the following:

a) distribute a Standard Version of the executables and library files, together with instructions (in the manual page or equivalent) on where to get the Standard Version.

b) accompany the distribution with the machine-readable source of the Package with your modifications.

c) give non-standard executables non-standard names, and clearly document the differences in manual pages (or equivalent), together with instructions on where to get the Standard Version.

d) make other distribution arrangements with the Copyright Holder.

5. You may charge a reasonable copying fee for any distribution of this Package. You may charge any fee you choose for support of this Package. You may not charge a fee for this Package itself. However, you may distribute this Package in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution provided that you do not advertise this Package as a product of your own. You may embed this Package's interpreter within an executable of yours (by linking); this shall be construed as a mere form of aggregation, provided that the complete Standard Version of the interpreter is so embedded.

6. The scripts and library files supplied as input to or produced as output from the programs of this Package do not automatically fall under the copyright of this Package, but belong to whoever generated them, and may be sold commercially, and may be aggregated with this Package. If such scripts or library files are aggregated with this Package via the so-called ""undump"" or ""unexec"" methods of producing a binary executable image, then distribution of such an image shall neither be construed as a distribution of this Package nor shall it fall under the restrictions of Paragraphs 3 and 4, provided that you do not represent such an executable image as a Standard Version of this Package.

7. C subroutines (or comparably compiled subroutines in other languages) supplied by you and linked into this Package in order to emulate subroutines and variables of the language defined by this Package shall not be considered part of this Package, but are the equivalent of input as in Paragraph 6, provided these subroutines do not change the language in any way that would cause it to fail the regression tests for the language.

8. Aggregation of this Package with a commercial distribution is always permitted provided that the use of this Package is embedded; that is, when no overt attempt is made to make this Package's interfaces visible to the end user of the commercial distribution. Such use shall not be construed as a distribution of this Package.

9. The name of the Copyright Holder may not be used to endorse or promote products derived from this software without specific prior written permission.

10. THIS PACKAGE IS PROVIDED ""AS IS"" AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTIBILITY AND FITNESS FOR A PARTICULAR PURPOSE.
