

# Oracle® Retail Macro Space Management

Release Notes

Release 13.2.2

March 2011

---

The 13.2.2 Release of Oracle Retail Macro Space Management is a documentation only release. There is no code associated with this release identifier. The current release of the Oracle Retail Macro Space Management code remains 13.2.1.

## Product Overview

The Oracle Retail Macro Space Planning family consists of two products:

1. Oracle Retail Macro Space Management
2. Oracle Retail In-Store Space Collaboration

Oracle Retail Macro Space Management is the 'core' application and must be installed. Oracle Retail In-Store Space Collaboration is optional and may or may not be installed depending on the user's preference.

Oracle Retail Macro Space Management (MSM) is a complex, integrated program that allows users to carry out highly sophisticated store planning, fixturing, and merchandising operations. It also allows them to measure retail performance using KPIs and reports. MSM is primarily intended for centralized planning, must be on a local area network (LAN) and is typically located at head or regional offices.

These operations can either be carried out in a Computer Aided Design environment (Planner), or in 3D Virtual Reality Environment (Merchandiser).

**Note:** The Planner and Fixture Studio modules in Oracle Retail Macro Space Management require the use of Autodesk AutoCAD software. Before installing these applications, you must purchase and install Autodesk AutoCAD.

Oracle does not ship the Autodesk AutoCAD licenses along with these products. You must purchase the Autodesk AutoCAD license directly from Autodesk or the recognized resellers.
