Oracle Insurance Insbridge Rating and Underwriting Release Notes Version 4.1

The purpose of this document is to:

Describe the new features and resolved issues offered in the Insbridge Rating and Underwriting system Release 4.1. This document also provides a history of enhancements and bug fixes from past releases.

NEW FEATURES

ORACLE Feature #	Product	Description
RateManager Tutorials	RateManager	<p>New Tutorials for 4.1: There are two new tutorial videos in Release 4.1 that can be accessed on the Tutorials snap found on the RateManager Home tab. To activate the Tutorial snap, select tools-->Preferences. Check the Tutorial snap and click OK. The tutorial snap will be visible on the Home tab.</p> <ol style="list-style-type: none"> What's New in Release 4.1 – This tutorial highlights the new features in Release 4.1. Releases – This tutorial explains the usage of Releases to more easily manage deployments to SoftRater.
INSB-5731	IBFA	<p>Impacted Area: Subscribers</p> <p>Retirement Notice: The portal option for subscriber creation has been retired. System administrators will no longer be able to create this type of subscriber.</p>
INSB-5819	SoftRater Native	<p>Impacted Area: New Product Module - SoftRater Native</p> <p>Enhancement: The rating engine for the IBRU system, SoftRater, is now available for inclusion in a custom UI or data capture system that would allow for a remote instance of SoftRater to be utilized. This will assist customers in rating where connection to the main IBRU system is not desired or possible.</p>
INSB-5712	IBFA	<p>Impacted Area: Environments</p> <p>Enhancement: An Oracle XE (10g) database can now be used in an IBFA environment, as well as with the new SoftRater Native module.</p>
INSB-5718	IBFA	<p>Impacted Area: IBFA Environment Backups</p> <p>Enhancement: IBFA now allows for database backups to be created for any configured environment. Environment backups can be created for disaster recovery processes, SoftRater migration, customer support inquiry or for use in a SoftRater Native environment.</p>
INSB-4161	IBFA	<p>Impacted Area: User Interface Changes</p> <p>Enhancement: Some areas of IBFA have been renamed to more easily identify their function.</p> <ul style="list-style-type: none"> The Explorer page is now the Configuration page. The Subscriber Name in SR Explorer is now labeled Environments.

ORACLE Feature #	Product	Description
INSB-5898	IBRU	<p>Impacted Area: SDK – Software Development Kit</p> <p>Enhancement: A SoftRater Native component has been added to the IBRU SDK. The purpose of the SDK is to enable customers and integrators to obtain pre-built system components in order to speed up development and consumption of technologies or system functionality.</p> <ul style="list-style-type: none"> • ESI (Extended Service Interface) <ul style="list-style-type: none"> ○ API and tester for .NET ○ API and tester (with source code) for Java ○ Documentation • SoftRater Native <ul style="list-style-type: none"> ○ API for Java ○ Admin Console ○ Documentation
INSB-5812	ESI	<p>Impacted Area: ESI for Java</p> <p>Enhancement: Oracle Insurance Insbridge Rating and Underwriting Extended Services Interface (ESI), a library module that provides remote services to the Insbridge Rating and Underwriting (IBRU) business services without utilizing the system User Interfaces (UI), can now be done using Java.</p>
INSB-5777	RateManager	<p>Impacted Area: Program Version Folders</p> <p>Enhancement: Users will have the ability to create and manage folders at the version level, allowing program version to be better organized.</p>
INSB-5782	RateManager	<p>Impacted Area: Program Version Names</p> <p>Enhancement: Users now have the ability to assign custom names to Program Versions This will allow users to better identify the specific program version.</p>
INSB-5740	RateManager	<p>Impacted Area: Notes</p> <p>Enhancement: When copying a program version or creating a new version from an existing version, a note will be created on the new program version that details from where the new program version was copied or created.</p>
INSB-5743	RateManager	<p>Impacted Area: System</p> <p>Enhancement: The Locator Links underneath the Toolbar have been updated to a format that is easier to read.</p>
INSB-5372	RateManager	<p>Impacted Area: Program Explorer</p> <p>Name Change: Program right click menu option, Edit Versioning Criteria has been renamed to Program Properties. This change provides a clearer definition of what options and properties are available to the user.</p>

ISSUE RESOLUTION

ORACLE Issue #	Product	Description
10070770	IBFA	<p>Impacted Area: Packaging</p> <p>Issue Impact: A customer reported an issue when loading larger packages.</p> <p>Resolved by: An update was done to the system to allow for faster processing of larger files.</p>
8506805	RateManager	<p>Impacted Area: Quick Reports</p> <p>Issue Impact: A Quick Report with more than 75 linked variables was not displaying correctly.</p> <p>Resolved by: This issue has been resolved and Quick Reports with larger linked variables now display properly.</p>
8535745	RateManager	<p>Impacted Area: Callouts</p> <p>Issue Impact: A program with a P2P callout was packaging incorrectly.</p> <p>Resolved by: This issue has been resolved and program to program callouts are packaging correctly.</p>
9716209	RateManager	<p>Impacted Area: Testing</p> <p>Issue Impact: Test case data from the previous test case was being displayed in the Debug Report.</p> <p>Resolved by: This issue has been resolved and previous test case data is now cleared from the Debug Report.</p>
