# Where to Find Sun Blade™ X6220 Server Module Documentation

Sun Blade X6220 Server Module Documentation Flowchart

The flowchart below lists the documentation in the approximate order of the tasks that you might perform when installing a new system. Review the tasks on the left, then refer to the corresponding documents on the right. The most up-to-date versions of all the documents can be found at:

http://docs.sun.com/app/docs/prod/blade.x6220

Note – Documents that are designated as orderable printed options will not automatically be included with the system. These documents must be specified as options when ordering the system. This documentation is also available on the product documentation web site.

For this task...	Refer to this document
Review safety information.	*Safety and Compliance Guide* 820-1706 (online)
	Important Safety Information About Sun Hardware 816-7190 (printed)

Viewing Current Documentation

To see the most current version of a document, go to this web site:

http://docs.sun.com/app/docs/prod/blade.x6220

This web site contains the most recent information. For critical updates to product information, see the product notes or release notes. To verify if a document is more recent than the document that you have, refer to the final two digits of the part number for that document. (For example XXX-XXXX-12 is newer than XXX-XXXX-10.)

Translated versions of some documents might be available at: http://docs.sun.com

Select a language from the drop-down list and navigate to the Sun Blade X6220 server module document collection. Available translations for the Sun Blade X6220 server module documentation include Simplified Chinese, Traditional Chinese, French, Japanese, and Korean. English documentation is revised more frequently and might be more up-to-date than the translated documentation.
