Solaris 2.6

Sun Microsystems
2550 Garcia Avenue
Mountain View, CA 94043
U.S.A. 415-960-1300

Part No. 802-7293-10
August 1997, Revision A

Copyright 1997 Sun Microsystems, Inc. 2550 Garcia Avenue, Mountain View, California 94043-1100 U.S.A. All rights reserved.

This product or document is protected by copyright and distributed under licenses restricting its use, copying, distribution, and decompilation. No part of this product or document may be reproduced in any form by any means without prior written authorization of Sun and its licensors, if any. Third-party software, including font technology, is copyrighted and licensed from Sun suppliers.

Parts of the product may be derived from Berkeley BSD systems, licensed from the University of California. UNIX is a registered trademark in the U.S. and other countries, exclusively licensed through X/Open Company, Ltd.

Sun, Sun Microsystems, the Sun logo, SunSoft, SunDocs, SunExpress, Solaris, AnswerBook, Solstice, SyMON, SunVTS, Sun MediaCenter, Voyager, Ultra, Ultra Enterprise, SunSwift, SunFastEthernet, TurboGXplus, OpenBoot, and NFS are trademarks, registered trademarks, or service marks of Sun Microsystems, Inc. in the U.S. and other countries. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. in the U.S. and other countries. Products bearing SPARC trademarks are based upon an architecture developed by Sun Microsystems, Inc.

The OPEN LOOK and Sun™ Graphical User Interface was developed by Sun Microsystems, Inc. for its users and licensees. Sun acknowledges the pioneering efforts of Xerox in researching and developing the concept of visual or graphical user interfaces for the computer industry. Sun holds a non-exclusive license from Xerox to the Xerox Graphical User Interface, which license also covers Sun's licensees who implement OPEN LOOK GUIs and otherwise comply with Sun's written license agreements.

RESTRICTED RIGHTS: Use, duplication, or disclosure by the U.S. Government is subject to restrictions of FAR 52.227-14(g)(2)(6/87) and FAR 52.227-19(6/87), or DFAR 252.227-7015(b)(6/95) and DFAR 227.7202-3(a).

DOCUMENTATION IS PROVIDED "AS IS" AND ALL EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS AND WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, ARE DISCLAIMED, EXCEPT TO THE EXTENT THAT SUCH DISCLAIMERS ARE HELD TO BE LEGALLY INVALID.

Copyright 1997 Sun Microsystems, Inc., 2550 Garcia Avenue, Mountain View, California 94043-1100 Etats-Unis. Tous droits réservés.

Ce produit ou document est protégé par un copyright et distribué avec des licences qui en restreignent l'utilisation, la copie, la distribution, et la décompilation. Aucune partie de ce produit ou document ne peut être reproduite sous aucune forme, par quelque moyen que ce soit, sans l'autorisation préalable et écrite de Sun et de ses bailleurs de licence, s'il y en a. Le logiciel détenu par des tiers, et qui comprend la technologie relative aux polices de caractères, est protégé par un copyright et licencié par des fournisseurs de Sun.

Des parties de ce produit pourront être dérivées des systèmes Berkeley BSD licenciés par l'Université de Californie. UNIX est une marque déposée aux Etats-Unis et dans d'autres pays et licenciée exclusivement par X/Open Company, Ltd.

Sun, Sun Microsystems, le logo Sun, SunSoft, SunDocs, SunExpress, Solaris, AnswerBook, Solstice, SyMON, SunVTS, Sun MediaCenter, Voyager, Ultra, Ultra Enterprise, SunSwift, SunFastEthernet, TurboGXplus, OpenBoot, et NFS sont des marques de fabrique ou des marques déposées, ou marques de service, de Sun Microsystems, Inc. aux Etats-Unis et dans d'autres pays. Toutes les marques SPARC sont utilisées sous licence et sont des marques de fabrique ou des marques déposées de SPARC International, Inc. aux Etats-Unis et dans d'autres pays. Les produits portant les marques SPARC sont basés sur une architecture développée par Sun Microsystems, Inc.

L'interface d'utilisation graphique OPEN LOOK et Sun™ a été développée par Sun Microsystems, Inc. pour ses utilisateurs et licenciés. Sun reconnaît les efforts de pionniers de Xerox pour la recherche et le développement du concept des interfaces d'utilisation visuelle ou graphique pour l'industrie de l'informatique. Sun détient une licence non exclusive de Xerox sur l'interface d'utilisation graphique Xerox, cette licence couvrant également les licenciés de Sun qui mettent en place l'interface d'utilisation graphique OPEN LOOK et qui en outre se conforment aux licences écrites de Sun.

CETTE PUBLICATION EST FOURNIE "EN L'ETAT" ET AUCUNE GARANTIE, EXPRESSE OU IMPLICITE, N'EST ACCORDEE, Y COMPRIS DES GARANTIES CONCERNANT LA VALEUR MARCHANDE, L'APTITUDE DE LA PUBLICATION A REpondre A UNE UTILISATION PARTICULIERE, OU LE FAIT QU'ELLE NE SOIT PAS CONTREFAISANTE DE PRODUIT DE TIERS. CE DENI DE GARANTIE NE S'APPLIQUERAIT PAS, DANS LA MESURE OU IL SERAIT TENU JURIDIQUEMENT NUL ET NON AVENU.

Solaris 2.6 on Sun Hardware Documentation Guide

This documentation guide describes the manuals that are part of the *Solaris 2.6 on Sun Hardware AnswerBook* set. This is a supplement to the descriptions of manuals in the *About Solaris 2.6 Documentation* manual contained in the *Solaris 2.6 System Administrator Collection Vol 1*.

The software for this AnswerBook™ set is provided on the SMCC Supplement CD included in the media kit that contains other Solaris™ 2.6 software. This SMCC-specific AnswerBook set is titled *Solaris 2.6 on Sun Hardware AnswerBook*, and is provided in a software package named SUNWabhdw. Refer to the *SMCC SPARC Hardware Platform Guide* in the media kit that accompanies the SMCC Supplement CD for information about installing the *Solaris 2.6 on Sun Hardware AnswerBook* set.

Note – For information about using and administering AnswerBook sets, see *Using Online Documentation* in the *Information Library for Solaris 2.6 (SPARC Platform Edition)*. A printed version of that document is included in the box that contained your Solaris 2.6 CD.

Contents of Solaris 2.6 on Sun Hardware Documentation Set

General Manuals

The following manuals may be of interest to users of any SMCC systems.

- *Solaris Reference Manual for SMCC-Specific Software*

Read this to find a compilation of manual pages (man pages) provided in packages on the SMCC Updates CD. This includes man pages that cover SunVTST[™], Solstice[™] SyMON[™], and Sun MediaCenter[™] One software.

The *Vendor Value-Added Software* section of the printed *Information Library for Solaris 2.6 (SPARC Platform Edition)* provides instructions for installing these additional man pages on your system.

- *Solaris Handbook for SMCC Peripherals*

Read this if you are installing SMCC drives that are used with this release of the Solaris operating environment. This manual covers issues such as configuring SCSI addresses for each drive on your system.

- *Solaris Handbook for SMCC Frame Buffers*

Read this for information on using features of the TurboGXplus[™], ZX, SX, PGX (m64), and Creator Graphics Accelerator frame buffers. This manual also explains how to configure multiple monitors on a system. (In some past Solaris releases, this manual was titled *Platform Notes: SMCC Frame Buffers*.)

- *SunVTS 2.1 User's Guide*

Read this for general instructions on using the SunVTS[™] diagnostic software.

- *SunVTS 2.1 Test Reference Manual*

Read this for detailed information about each test that is provided with the SunVTS diagnostic software.

- *SunVTS 2.1 Quick Reference Card*

Read this as a reminder of the commands used to start the SunVTS software and the options available through the graphical user interface or command line.

- *Solstice SyMON 1.4 User's Guide*

Read this to install and operate the Solstice™ SyMON™ administrative tool (supplied on the SMCC Updates CD), which monitors the performance of a server and runs SunVTS tests.

- *SMCC NFS Server Performance and Tuning Guide*

Read this if you are the system administrator of SMCC hardware that is used as an NFS™ server.

- *PCI: SBus Comparison*

Read this if you are a developer familiar with the SBus wanting new information about PCI bus differences.

- *Sun MediaCenter One Software Guide*

Read this to use the Sun MediaCenter™ software, which facilitates display of video data.

Note – The *Using Power Management* manual is now located in the *Solaris 2.6 User Collection*.

Platform Notes

The following manuals apply to specific SMCC hardware systems and devices. Examine this list to determine which manuals provide supplemental information relevant to the hardware you use.

- *Platform Notes: The hme FastEthernet Device Driver*

Read this to configure the hme device driver for use with hardware such as the Ultra series workstations, the Ultra Enterprise servers, the SunSwift™ adapters, and SunFastEthernet™ adapters.

- *Platform Notes: Ultra Enterprise 3000, 4000, 5000 and 6000 Systems*

Read this for information specific to these Ultra™ Enterprise™ servers, such as board “hot plugging” procedures and new OpenBoot™ commands that can be used with the firmware in those machines.

- *Platform Notes: Sun Ultra 450 Workstation and Ultra Enterprise 450 Server*

Read this for information about software configuration of this system and its disk drives. It includes procedures for hot-plug replacement of disk drives.

- *Platform Notes: SPARCstation 10SX and SPARCstation 20 System Configuration Guide*

Read this if you are a developer who wants to take advantage of the graphics memory features of these systems.

- *Platform Notes: SPARCstation Voyager Software Guide*

Read this for information about using software provided on the SMCC Updates CD for use with this nomadic computer. Also refer to this if you are a system administrator supporting users with SPARCstation Voyager systems.

- *Platform Notes: Using luxadm Software*

Read this to use the Sun Enterprise Network Array and the SPARCstorage™ Array `luxadm` administrative program provided in this Solaris release.

- *Platform Notes: Using the Standard SPARCstorage Array Software*

Read this to use the SPARCstorage™ Array with the `ssaadm` software provided in this Solaris release.

Manuals Organized by Primary Audience

Solaris manuals are aimed at three main categories of readers:

- End Users
- Administrators
(who also refer to manuals for End Users)
- Developers
(who also refer to manuals for End Users and Administrators)

Each of the manuals in this documentation set is listed under its primary audience.

Manuals for End Users

- *Solaris Handbook for SMCC Peripherals*
- *Solaris Handbook for SMCC Frame Buffers*
- *Sun MediaCenter One Software Guide*
- *Platform Notes: The hme FastEthernet Device Driver*
- *Platform Notes: SPARCstation Voyager Software Guide*

Manuals for Administrators

- *Solaris Reference Manual for SMCC-Specific Software*
- *SunVTS 2.1 User's Guide*
- *SunVTS 2.1 Test Reference Manual*
- *SunVTS 2.1 Quick Reference Card*
- *Solstice SyMON 1.4 User's Guide*
- *SMCC NFS Server Performance and Tuning Guide*
- *Platform Notes: Sun Ultra 450 Workstation and Ultra Enterprise 450 Server*
- *Platform Notes: Ultra Enterprise 3000, 4000, 5000 and 6000 Systems*
- *Platform Notes: Using luxadm Software*
- *Platform Notes: Using the Standard SPARCstorage Array Software*

Manuals for Developers

- *PCI: SBus Comparison*
- *Platform Notes: SPARCstation 10SX and SPARCstation 20 System Configuration Guide*

Additional Information Sources

For information about installing the Solaris operating environment on SMCC hardware, see the *SMCC SPARC Hardware Platform Guide*, the *Information Library for Solaris 2.6 (SPARC Platform Edition)*, and other documentation provided with your Solaris media. Some of these documents are provided as PostScript™ files or in AnswerBook documentation sets, as well as in printed form.

Be sure to check these documents to determine if there are special instructions for installing or using your SMCC hardware with this Solaris release.

Ordering Sun Documents

SunDocsSM is a distribution program for Sun Microsystems technical documentation. Contact SunExpress for easy ordering and quick delivery. You can find a listing of available Sun documentation on the World Wide Web.
