## Introduction

The Sun StorEdge Intelligent Storage Server software suite is an integrated set of software tools that enable network administrators to more efficiently manage, scale, and optimize storage resources according to changing user and application needs.

The following components make up the Sun StorEdge Intelligent Storage Server software suite:

- Sun StorEdge Target Emulation™ (STE)
- Fast Write Cache
- Instant Image

The Intelligent Storage Server software components require the following companion applications:

- VERITAS Volume Manager
- Component Manager
- Sun Management Center

The Intelligent Storage Server software runs on a Sun Enterprise™ 4500 server that is configured as described in *Sun StorEdge Intelligent Storage Server Reference Hardware Configuration Guide*.
