Copyright 2008 Sun Microsystems, Inc., 4150 Network Circle, Santa Clara, California 95054, U.S.A. All rights reserved.

Sun Microsystems, Inc. has intellectual property rights relating to technology embodied in the product that is described in this document. In particular, and without limitation, these intellectual property rights may include one or more of the U.S. patents listed at <http://www.sun.com/patents>, and one or more additional patents or pending patent applications in the U.S. and in other countries.

This document and the product to which it pertains are distributed under licenses restricting their use, copying, distribution, and decompilation. No part of the product or of this document may be reproduced in any form by any means without prior written authorization of Sun and its licensors, if any.

Third-party software, including font technology, is copyrighted and licensed from Sun suppliers.

Parts of the product may be derived from Berkeley BSD systems, licensed from the University of California. UNIX is a registered trademark in the U.S. and other countries, exclusively licensed through X/Open Company, Ltd.

Sun, Sun Microsystems, the Sun logo, AnswerBook2, docs.sun.com, SunVTS, Sun Enterprise Authentication Mechanism, and Solaris are trademarks, registered trademarks, or service marks of Sun Microsystems, Inc. in the U.S. and other countries.

All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. in the U.S. and other countries. Products bearing SPARC trademarks are based upon an architecture developed by Sun Microsystems, Inc.

The OPEN LOOK and Sun trademark Graphical User Interface was developed by Sun Microsystems, Inc. for its users and licensees. Sun acknowledges the pioneering efforts of Xerox in researching and developing the concept of visual or graphical user interfaces for the computer industry. Sun holds a non-exclusive license from Xerox to the Xerox Graphical User Interface, which license also covers Sun's licensees who implement OPEN LOOK GUIs and otherwise comply with Sun's written license agreements.

DOCUMENTATION IS PROVIDED "AS IS" AND ALL EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS AND WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, ARE DISCLAIMED, EXCEPT TO THE EXTENT THAT SUCH DISCLAIMERS ARE HELD TO BE LEGALLY INVALID.

Sun Microsystems, Inc. a les droits de propriété intellectuels relatants à la technologie incorporée dans le produit qui est décrit dans ce document. En particulier, et sans la limitation, ces droits de propriété intellectuels peuvent inclure un ou plus des brevets américains énumérés à <http://www.sun.com/patents> et un ou les brevets plus supplémentaires ou les applications de brevet en attente dans les Etats-Unis et dans les autres pays.

Ce produit ou document est protégé par un copyright et distribué avec des licences qui en restreignent l'utilisation, la copie, la distribution, et la décompilation. Aucune partie de ce produit ou document ne peut être reproduite sous aucune forme, parquelque moyen que ce soit, sans l'autorisation préalable et écrite de Sun et de ses bailleurs de licence, s'il y ena.

Le logiciel détenu par des tiers, et qui comprend la technologie relative aux polices de caractères, est protégé par un copyright et licencié par des fournisseurs de Sun.

Des parties de ce produit pourront être dérivées des systèmes Berkeley BSD licenciés par l'Université de Californie. UNIX est une marque déposée aux Etats-Unis et dans d'autres pays et licenciée exclusivement par X/Open Company, Ltd.

Sun, Sun Microsystems, le logo Sun, AnswerBook2, docs.sun.com, SunVTS, Sun Enterprise Authentication Mechanism, et Solaris sont des marques de fabrique ou des marques déposées de Sun Microsystems, Inc. aux Etats-Unis et dans d'autres pays.

Toutes les marques SPARC sont utilisées sous licence et sont des marques de fabrique ou des marques déposées de SPARC International, Inc. aux Etats-Unis et dans d'autres pays. Les produits protant les marques SPARC sont basés sur une architecture développée par Sun Microsystems, Inc.

L'interface d'utilisation graphique OPEN LOOK et Sun trademark a été développée par Sun Microsystems, Inc. pour ses utilisateurs et licenciés. Sun reconnaît les efforts de pionniers de Xerox pour la recherche et le développement du concept des interfaces d'utilisation visuelle ou graphique pour l'industrie de l'informatique. Sun détient une licence non exclusive do Xerox sur l'interface d'utilisation graphique Xerox, cette licence couvrant également les licenciées de Sun qui mettent en place l'interface d'utilisation graphique OPEN LOOK et qui en outre se conforment aux licences écrites de Sun.

LA DOCUMENTATION EST FOURNIE "EN L'ÉTAT" ET TOUTES AUTRES CONDITIONS, DECLARATIONS ET GARANTIES EXPRESSES OU TACITES SONT FORMELLEMENT EXCLUES, DANS LA MESURE AUTORISEE PAR LA LOI APPLICABLE, Y COMPRIS NOTAMMENT TOUTE GARANTIE IMPLICITE RELATIVE A LA QUALITE MARCHANDE, A L'APTITUDE A UNE UTILISATION PARTICULIERE OU A L'ABSENCE DE CONTREFAÇON.

# SunVTS 7.0 Patch Set 4 Release Notes

---

The SunVTS™ 7.0 Patch Set 4 software is designed for the Solaris™ 10 10/08 or later operating system (OS).

Topics include:

- “SunVTS Support for the Solaris OS on x86-Based Systems” on page 2
- “Test Mode Default Values” on page 3
- “Software Notes” on page 4
- “Feedback and Support” on page 4

---

**Note** – All tests released in SunVTS 7.0 are documented in the *SunVTS 7.0 Software User’s Guide*.

---

For the latest version of this document (820-6370) and other SunVTS documentation, go to: <http://docs.sun.com/app/docs/prod/test.validate>

---

# SunVTS Support for the Solaris OS on x86-Based Systems

---

**Note** – In this document these x86 related terms mean the following: “x86” refers to the larger family of 64-bit and 32-bit x86 compatible products, “x64” points out specific 64-bit information about AMD64 or EM64T systems.

---

SunVTS 7.0 Patch Set 4 supports all Sun manufactured x86/x64 systems. Non-Sun systems are not supported.

---

**Note** – If you run SunVTS on unsupported platforms, a warning message will be displayed stating that the platform is not supported. Nevertheless, testing would be allowed to move forward.

---

You must install the x86 version of the SunVTS packages to perform SunVTS on x86 platforms. The software packages use the same names as in the SPARC® environment. The SunVTS packages delivered separately for both x86 and SPARC Solaris platforms are as follows:

- `SUNWvts` – Contains the SunVTS core framework that includes the kernel and user interface.
- `SUNWvtsmn` – Contains the SunVTS online manual pages
- `SUNWvtsr` – Contains the SunVTS framework configuration files in the root partition (superuser).
- `SUNWvtss` – Contains SunVTS server and browser user interface (BUI).
- `SUNWvtsts` – Contains the SunVTS test binaries.

The SunVTS components available for x86 Solaris platforms are as follows.

Infrastructure:

- `startsunvts`
- `vtsk`
- `vts_cmd`
- `vtstty`
- `vtsui`
- `vtsprobe`

There are two bootable versions of SunVTS on x86 available for download. One contains SunVTS with all user interfaces, including the Browser User Interface (BUI) and the other (which does not include the BUI) instead relies on `vtstty` for user interface.

---

# Test Mode Default Values

Starting with SunVTS 7.0 Patch Set 4, the default value for Test Time, Test Pass and Scheduling Policy for all three test modes has been changed. Test options are selected from the Test Options Screen of the SunVTS 7.0 browser user interface (BUI) (see the *SunVTS 7.0 Software User's Guide*, Chapter 3, "Using the SunVTS Browser User Interface"). The following default values are:

- Online Stress
  - Default policy: Test Pass
  - Default value: 1
- System Exerciser
  - Default policy: Test Time
  - Default value: 4 hours or 240 minutes
- Component Stress
  - Default policy: Test Pass
  - Default value: 5

## ▼ To Change the Scheduling Policy Default Test Time

1. **Select options for each Test and modify the Scheduling Policy Test Time option.**

(See Table 3-14, Test Options Screen, Chapter 3, "Using the SunVTS Browser User Interface" of the *SunVTS 7.0 Software User's Guide*).

2. **Select the time in minutes that you wish to be the default.**

Scheduling	Test Time (min) <i>test time field</i>
Policy	

In the *test time field*, specify the number of desired default in minutes.

3. **Once the options for all Tests are modified, start the tests.**

---

# Software Notes

## Install and Uninstall Using the Same Program

Use `pkgadd` for installation and `pkgrm` to uninstall.

## Open Issues

### CR 6694279: `e1000g` Driver: Internal Loopback Mode Support Needed for nic ESB-2 (Intel® 82564EBt, Intel® 82563EB)

When a user runs Bootable CD on Sun Fire x4150/x4250 and Sun Fire x4450 systems, the Network Test appears disabled by default. If the user enables the Network Test and starts testing, they might notice a test failure since the `e1000g` driver does not provide internal loopback mode support.

### CR 6764833: `aioread`, `pread64` Calls Fails With 128 Kbyte Block Size on 32-bit x86 Systems

`aioread` and `pread64` calls fail with 128 Kbyte block size on 32-bit x86 systems.

Workaround: Do not run `disktest` in Exerciser mode (SL-4) at default settings.

---

# Feedback and Support

You can request Sun support and provide feedback to Sun at the following email address:

[ndps-feedback@sun.com](mailto:ndps-feedback@sun.com)
