Restricted Rights Notice

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS

Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, duplication, disclosure, modification, and adaptation shall be subject to the restrictions and license terms set forth in the applicable Government contract, and, to the extent applicable by the terms of the Government contract, the additional rights set forth in FAR 52.227-19, Commercial Computer Software License (December 2007). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

Hazardous Applications Notice

This software is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications which may create a risk of personal injury. If you use this software in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of this software. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software in dangerous applications.

Third Party Content, Products, and Services Disclaimer

This software and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third party content, products and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third party content, products or services.

About This Documentation

This preface discusses:

- Understanding This Documentation
- Audience
- Typographical Conventions
- Products
- Related Information
- Comments and Suggestions

Note. This documentation is a supplement to the PeopleSoft Enterprise PeopleTools Hardware and Software Requirements guide and discusses the additional requirements specific to this PeopleSoft application. Use this guide along with your PeopleSoft PeopleTools and your licensed PeopleSoft application installation guides. You can access all PeopleSoft application and hardware and software guides on My Oracle Support.

See *PeopleSoft Enterprise PeopleTools 8.5x Hardware and Software Requirements for your database platform*

See My Oracle Support

Understanding This Documentation

This PeopleSoft Enterprise Financials/Supply Chain Management 9.1 Mobile Inventory Management Hardware and Software Requirements guide reflects what Oracle supports for PeopleSoft Enterprise when the guide is posted. However, our certification support levels are continually evolving. In addition, this document purposely provides a high-level view to avoid too many specifics such as version numbers that may quickly become out of date.

To obtain the up-to-date details about supported platforms, version numbers, and the like, use My Oracle Support.

This guide includes the hardware and software requirements for Oracle's PeopleSoft Enterprise Financials/Supply Chain Management 9.1 Mobile Inventory Management. To carry out your installation, you also need the PeopleSoft Enterprise PeopleTools hardware and software requirements, provided separately. For example, if you are installing Oracle's PeopleSoft Enterprise Customer Relationship Management (CRM), you need both the PeopleSoft CRM hardware and software requirements guide and the PeopleSoft PeopleTools hardware and software requirements guide.

Note. Check My Oracle Support periodically for updated addendums to this documentation.

My Oracle Support is an online customer support center and information exchange service that enables you to get up-to-the-minute PeopleSoft Enterprise information, search for documentation and problem solutions, and receive PeopleSoft application updates and fixes.

To access My Oracle Support you must have the following:

- Any browser that is supported for PeopleSoft PeopleTools and your PeopleSoft application.
- To login, you must have a valid Support Identifier.

For information on getting a Support Identifier, go to <https://support.oracle.com>, and read the information under Register here.

- My Oracle Support requires Adobe® Flash® Player 9.0.115 or higher.

You can download Adobe Flash Player from the Adobe web site: <http://www.adobe.com/support/flashplayer/downloads.html>.

- FTP capability.

FTP is the delivery mechanism for PeopleSoft “patches” and “Fixes Required at Install,” as well as other PeopleSoft maintenance. You need FTP capability to take advantage of these updates.

Another way to get current information is to take classes. Oracle offers training classes for Oracle’s PeopleSoft Enterprise PeopleTools and all Oracle’s PeopleSoft Enterprise applications at Oracle University (OU). If you are planning an installation or upgrade, OU also offers classes specific to those topics.

Note. Oracle University offers CDs and online self-paced courses, as well as instructor led courses. Not all topics are available as instructor led courses.

Audience

This documentation is written for the individuals responsible for installing and administering the PeopleSoft environment. This documentation assumes that you have a basic understanding of the PeopleSoft system. One of the most important components in the installation and maintenance of your PeopleSoft system is your on-site expertise.

You should be familiar with your operating environment and RDBMS and have the necessary skills to support that environment. You should also have a working knowledge of:

- SQL and SQL command syntax.
- PeopleSoft system navigation.
- PeopleSoft windows, menus, and pages, and how to modify them.
- Microsoft Windows.

Oracle recommends that you complete training, particularly the PeopleSoft Server Administration and Installation course, before performing an installation.

See Oracle University <http://education.oracle.com>

Typographical Conventions

To help you locate and understand information easily, the following conventions are used in this documentation:

Convention	Description
Monospace	Indicates a PeopleCode program or other code, such as scripts that you run during the install. Monospace is also used for messages that you may receive during the install process.
<i>Italics</i>	Indicates field values, emphasis, and book-length publication titles. Italics is also used to refer to words as words or letters as letters, as in the following example: Enter the letter <i>O</i> .
Initial Caps	Field names, commands, and processes are represented as they appear on the window, menu, or page.
lower case	File or directory names are represented in lower case, unless they appear otherwise on the interface.
Menu, Page	A comma (,) between menu and page references indicates that the page exists on the menu. For example, “Select Use, Process Definitions” indicates that you can select the Process Definitions page from the Use menu.
Cross-references	Cross-references that begin with <i>See</i> refer you to additional documentation that will help you implement the task at hand. We highly recommend that you reference this documentation. Cross-references under the heading <i>See Also</i> refer you to additional documentation that has more information regarding the subject.
“” (quotation marks)	Indicate chapter titles in cross-references and words that are used differently from their intended meaning.
Note. Note text.	Text that begins with <i>Note.</i> indicates information that you should pay particular attention to as you work with your PeopleSoft system.
Important! Important note text.	A note that begins with <i>Important!</i> is crucial and includes information about what you need to do for the system to function properly.
Warning! Warning text.	A note that begins with <i>Warning!</i> contains critical configuration information or implementation considerations; for example, if there is a chance of losing or corrupting data. Pay close attention to warning messages.

Products

This documentation may refer to these products and product families:

- Oracle® BPEL Process Manager
- Oracle® Enterprise Manager

- Oracle® Tuxedo
- Oracle® WebLogic Server
- Oracle's PeopleSoft Application Designer
- Oracle's PeopleSoft Change Assistant
- Oracle's PeopleSoft Change Impact Analyzer
- Oracle's PeopleSoft Data Mover
- Oracle's PeopleSoft Process Scheduler
- Oracle's PeopleSoft Pure Internet Architecture
- Oracle's PeopleSoft Enterprise Customer Relationship Management
- Oracle's PeopleSoft Enterprise Financial Management
- Oracle's PeopleSoft Enterprise Human Resources Management Systems
- Oracle's PeopleSoft Enterprise Learning Management
- Oracle's PeopleSoft Enterprise Pay/Bill Management
- Oracle's PeopleSoft Enterprise PeopleTools
- Oracle's PeopleSoft Enterprise Performance Management
- Oracle's PeopleSoft Enterprise Portal Solutions
- Oracle's PeopleSoft Enterprise Staffing Front Office
- Oracle's PeopleSoft Enterprise Supply Chain Management

Note. This documentation may refer to both Oracle's PeopleSoft Enterprise Portal Solutions and to PeopleSoft PeopleTools portal or portal technologies. PeopleSoft Enterprise Portal Solutions is a separate application product. The PeopleSoft PeopleTools portal technologies consist of PeopleSoft Pure Internet Architecture and the PeopleSoft PeopleTools portal technology used for creating and managing portals.

See <http://www.oracle.com/applications/peoplesoft-enterprise.html> for a list of PeopleSoft Enterprise products.

Related Information

Oracle provides reference information about PeopleSoft PeopleTools and your particular PeopleSoft application. The following documentation is available on My Oracle Support:

- Release Notes.
These are documentation updates that are delivered with every PeopleSoft application and PeopleSoft PeopleTools maintenance release and explain new features, changes and summarize resolved incidents (fixes).
- Enterprise PeopleTools PeopleBook: Getting Started with PeopleTools for your release.
This documentation provides a high-level introduction to PeopleSoft PeopleTools technology and usage.
- PeopleSoft Enterprise Application Fundamentals PeopleBook for your PeopleSoft application and release.

This documentation provides essential information about the setup, design, and implementation of your PeopleSoft application.

- Installation guides.

Search for the installation guides for PeopleSoft applications and PeopleSoft PeopleTools on My Oracle Support.

- Hardware and software requirements

Search for the hardware and software guides for PeopleSoft applications and PeopleSoft PeopleTools on My Oracle Support.

- Oracle Software and Documentation

In addition to My Oracle Support, you can download Oracle software products and documentation, including PeopleSoft PeopleBooks, from the following web sites:

- Oracle® E-Delivery, at URL <http://edelivery.oracle.com>
- Oracle Technology Network (OTN), at URL <http://www.oracle.com/technology/index.html>

- Upgrade information

Documentation and supporting files for performing upgrades from previous releases are available on My Oracle Support.

- Certifications

For current information on certified database, operating system, and additional component configurations, see the PeopleSoft certifications on My Oracle Support. Go to My Oracle Support and select the Certifications tab.

- Additional Component Patches

The document “Operating System, RDBMS & Additional Component Patches Required for Installation” on My Oracle Support contains all required patches for additional software components.

To install additional component software products for use with PeopleSoft products, including those products that are packaged with your PeopleSoft products, you should refer to the documentation provided with those products, as well as this documentation.

Comments and Suggestions

Your comments are important to us. We encourage you to tell us what you like, or what you would like changed about our documentation, PeopleSoft PeopleBooks, and other Oracle reference and training materials. Please send your suggestions to:

PSOFT-Infodev_US@oracle.com

While we cannot guarantee to answer every email message, we pay careful attention to your comments and suggestions. We are always improving our product communications for you.

CHAPTER 1

Defining PeopleSoft FSCM 9.1 Mobile Inventory Management Hardware and Software Requirements

This chapter discusses:

- Defining PeopleSoft FSCM 9.1 Mobile Inventory Management Software Requirements
- Defining PeopleSoft Mobile Inventory Management Operating Systems and Browsers
- Defining PeopleSoft Mobile Inventory Management Devices

Defining PeopleSoft FSCM 9.1 Mobile Inventory Management Software Requirements

The PeopleSoft Mobile Inventory Management product enables the mobile user to perform their work wherever the work is being done. The PeopleSoft Mobile Inventory Management product uses Oracle Application Developer Framework (ADF) to extend the PeopleSoft Inventory functionality to the mobile device. To use mobile applications you need the following Oracle Products:

- Oracle WebLogic Server for Mobile
- Oracle Application Developer Framework

For more information and prerequisite details:

See *PeopleSoft Enterprise FSCM 9.1 Mobile Inventory Management Installation: "Prerequisites."*

Defining PeopleSoft Mobile Inventory Management Operating Systems and Browsers

The Oracle Application Developer Framework supports most consumer mobile browsers. Oracle tested the PeopleSoft Mobile Inventory Management product using the following browsers and operating systems in combination with the devices listed in the following section.

Important! Newer versions of these hand held devices, browsers and operating systems could result in additional configuration requirements by you.

- Microsoft Windows Mobile 6.1 Classic, running on the windows mobile CE OS5.2.20963.

Processor: PXA32X-806MHz

- Microsoft Windows Mobile 6.1 Professional, running on the windows mobile CE OS 5.2.20963.

Processor: PXA32X-806MHz

- Microsoft Windows Mobile 6.1 Professional, running on the windows mobile CE OS 5.2.20758.

Processor: PXA270-520MHz

Defining PeopleSoft Mobile Inventory Management Devices

The following lists the devices that Oracle used to develop the PeopleSoft Mobile Inventory Management product. Oracle tested using the following devices in combination with the preceding browsers and operating systems.

Important! Newer versions of these hand held devices, browsers and operating systems could result in additional configuration requirements by you.

- Motorola – MC9500
- Motorola – MC55

For more information on device set up, configuration and implementation details, refer to the *PeopleSoft Enterprise FSCM 9.1 Mobile Inventory Management* user document, available on My Oracle Support.
