Preface

This net change document describes additions to the JD Edwards World implementation guides due to software updates and documentation corrections after the general availability of Release A9.3.

How to Use this Document

As changes are made to A9.3 implementation and reference guides, this net change document is updated to identify those changes, and to provide a reference to where the changes are available. When you access the updated guides in the JD Edwards World library, you will see release designation information on the updated content. For example, you will see (Release A9.3 Update) next to content that has changed after the general availability release of A9.3.

This net change document is updated periodically as new information becomes available. To ensure that you are reading the latest version of this document, check the JD Edward World Documentation Library. The most current version of the *JD Edwards World Net Change for the Documentation Library* is available on Oracle Technology Network at:
