Oracle Tuxedo Application Runtime for IMS Installation Guide

This chapter contains the following topics:

- [Overview](#)
- [System Requirements](#)
- [Supported Platforms](#)
- [Installing on UNIX Platforms in Graphics Mode](#)
- [Installing on UNIX Platforms in Console Mode](#)
- [Installing on UNIX Platforms in Silent Mode](#)

Overview

Oracle Tuxedo Application Runtime for IMS software is distributed as an installer file which can be executed on UNIX platforms using any of the following three methods:

- Graphical user interface (GUI) installation.
- Console installation.
- Silent installation.

Oracle Tuxedo Application Runtime for IMS 11g Release 1 (11.1.1.3.0) distribution contains the following key components:

- Oracle Tuxedo Application Runtime for IMS administrative utilities

- Oracle Tuxedo Application Runtime for IMS sample applications (optionally installed)

Oracle Tuxedo Application Runtime for IMS is installed in the <ORACLEHOME>/artims_11gR1 directory by default.

System Requirements

- JRE version 1.5.0 or above

Supported Platforms

- AIX 6.1 64-bit on Power
- Linux 64-bit on x86_64 (Oracle Enterprise Linux 5.4 or Redhat Linux 5)
- Oracle Linux 5.6 (64-bit) on Exalogue 2.0
- Oracle Linux 5.6 (64-bit) on Non Exalogue Hardware
- Solaris 10 64-bit on Sparc

Installing on UNIX Platforms in Graphics Mode

To run GUI-mode installation, the computer console on which you are installing the software must support a Java-based GUI.

To install the Oracle Tuxedo Application Runtime for IMS software on UNIX systems in graphics mode, do the following steps:

1. Launch the Oracle Tuxedo Application Runtime for IMS installation program.
 - a. Log on as root or another user with sufficient permissions.
 - b. Execute the installation program: `./installer_name.bin`

The Introduction screen appears.

2. Click *Next* to proceed with the installation. The Choose Oracle Home Directory screen appears. You can select from the following options:
 - a. Choose existing Oracle Home directory

Click the **Choose an Oracle Home directory** option button if you already have one or more Oracle Home directories on your system. Select an Oracle Home directory from the list displayed to the right of the option buttons.

All valid Oracle Home directories are displayed in this list. Valid Oracle Home directories are directories where Oracle products have been installed using the standard installation program.

b. Specify Oracle Home directory

Click the **Specify an Oracle Home directory button** to enter a valid directory.

Note: Oracle Tuxedo Application Runtime for IMS installation will report an error and will not proceed in the event of the following:

If an existing Oracle Tuxedo Application Runtime for IMS 11g Release 1 (11.1.1.3.0) installation is detected, you are prompted to overwrite it or not. Select “**yes**” to overwrite the existing installation.

3. Click **Next** to proceed with the installation. The Choose Install Folder screen appears.

If the selected Oracle Home does not have Oracle Tuxedo Application Runtime for IMS 11gR1 installed, you can modify the default install directory; otherwise the detected directory name is suggested. The default install directory is

<ORACLEHOME>/artims_11gR1.

4. Click **Next** to proceed with the installation. The Sample Install Confirm screen appears.

You are prompted to choose install samples or not.

5. If the installation process continues, the Pre-Installation Summary screen appears.

Review the summary information and click **Install** if the information is correct.

Click **Previous** to go back and modify any input that you want to change.

Click **Cancel** to terminate the installation process. This is the last chance you have to cancel your installation without copying any files on your target machine.

6. The Install Complete screen appears when the installation is finished.

Click **Done** to exit the installation program.

Uninstall GUI Mode

Under `<INSTALL_DIR>` there is a directory named 'uninstaller', which contains the uninstaller and resources specific to the un-installation of the product. To uninstall Oracle Tuxedo Application Runtime for IMS 11gR1 in GUI mode, use the `./uninstall` command.

Installing on UNIX Platforms in Console Mode

To install Oracle Tuxedo Application Runtime for IMS software in console mode on a certified UNIX platform, do the following steps:

1. Log on as root or another user with sufficient permissions.
2. Execute the installation program in character-based mode: `/installer_name.bin -i console`
3. The installation program runs and prompts you for responses as shown in [Listing 1](#).

Introduction
-----

InstallAnywhere will guide you through the installation of

Oracle Tuxedo Application Runtime for IMS 11gR1(11.1.1.3.0).
```

It is strongly recommended that you quit all programs before continuing with this installation.

Respond to each prompt to proceed to the next step in the installation. If you want to change something on a previous step, type 'back'.

You may cancel this installation by typing 'quit'.

WARNING: "Quitting" creates an incomplete Oracle Tuxedo Application Runtime for IMS 11gR1 (11.1.1.3.0) installation. You must re-install Oracle Tuxedo Application Runtime for IMS 11gR1 (11.1.1.3.0).

```
=====
=====
```

Choose Oracle Home

- 1- Choose existing Oracle Home directory
- 2- Specify Oracle Home directory

Enter a number: 2

Specify an Oracle Home directory: /home/user/oracle

```
=====
=====
```

Choose Product Directory

- 1- Modify Current Selection (/home/user/oracle/artims_11gR1)
- 2- Use Current Selection (/home/user/oracle/artims_11gR1)

Enter a number: 2

Uninstall Complete screen: After un-installation finishes, this screen appears, and reports the un-installation summary.

```
Uninstall Complete
```

```
-----
```

```
All items were successfully Uninstall.
```

Installing on UNIX Platforms in Silent Mode

Preparing for Silent Mode Installation

Before you install Oracle Tuxedo Application Runtime for IMS, complete the following tasks:

- Verify that enough disk space is available.
- Verify the login ID has proper permission for silent installation.
- Create a template file containing the required keyword settings.

Creating a Silent Mode Installation Template File

To create a template file for use in the silent installation process, you must use keywords as shown in [Table 1](#).

Table 1 Silent Mode Installation Template File

For This Keyword...	Enter The Following Value...
INSTALLER_UI=	The mode of installation. The default is silent; do not modify this value.
ORACLEHOME=	The full pathname of the Oracle Home directory of your choice.
USER_INSTALL_DIR	The full pathname of the installation directory.

Table 1 Silent Mode Installation Template File

For This Keyword...	Enter The Following Value...
INSTALL_SAMPLES=Y N	Specifies whether sample applications are installed or not.
OVERWRITE=Y N	<p>If you are using silent mode installation over an existing version of Oracle Tuxedo Application Runtime for IMS, you must add this line to your template file.</p> <p>Any value other than "y" or "Y" will not overwrite the existing Oracle Tuxedo Application Runtime for IMS version and cancels the installation.</p>

Sample UNIX Template

```

INSTALLER_UI=silent

ORACLEHOME=/home/user/oracle

USER_INSTALL_DIR=/home/user/oracle/artims_11gR1

INSTALL_SAMPLES=Y

OVERWRITE=Y

```

Installing in Silent Mode

To use silent mode installation on a UNIX system, you must do the following steps:

1. Create a file containing the required variables set to valid data.
2. At the command line prompt, go to the directory containing the installer executable.
3. Enter the following command: `Installer_name.bin -f path/installer.data`

Note: `path` is the full path to the variable data file and `installer.data` is the data file containing the required variables.

Verifying Silent Mode Installation

You can verify successful silent mode installation by checking the installation directory to see if all the Oracle Tuxedo Application Runtime for IMS binaries are listed.

If silent mode installation fails, check the following log file:

```
$HOME/ARTIMS_silent_install.log.
```

Uninstall Silent Installation

Under <INSTALL_DIR> there is a directory named 'uninstaller', which contains the uninstaller and resources specific to the un-installation of the product. To uninstall Oracle Tuxedo Application Runtime for IMS in silent mode, use the `./uninstall -i silent` command.

Supported Platforms

[Table A-1](#) lists Oracle Tuxedo Application Runtime for IMS 11g Release 1 (11.1.1.3.0) supported platforms.

Table A-1 Oracle Tuxedo Application Runtime for IMS 11g Release 1 (11.1.1.3.0) Supported Platforms

Platform	GA Port/ Post-GA Port & Certification	Release Date	OS EOL Date
AIX 6.1 64-bit on Power	GA	2011.12	TBD
Linux 64-bit on x86_64 (Oracle Enterprise Linux 5.4 or Redhat Linux 5)	GA	2011.12	TBD
Oracle Linux 5.6 (64-bit) on Exalogic 2.0	GA	2011.12	TBD
Oracle Linux 5.6 (64-bit) on non Exalogic hardware	GA	2011.12	TBD
Solaris 10 64-bit on Sparc	GA	2011.12	TBD

Supported Platform Data Sheets

AIX 6.1 64-bit on Power

The software requirements for AIX 6.1 64-bit on Power are as follows:

- MicroFocus COBOL 5.1
- COBOL-IT 2.9.5
- IBM XL C/C++ 9

Linux 64-bit on x86_64 (Oracle Enterprise Linux 5.4 or Redhat Linux 5)

The software requirements for Linux 64-bit on x86_64 are as follows:

- MicroFocus COBOL 5.1
- COBOL-IT 2.9.5
- gcc/g++ 4.1.2

Oracle Linux 5.6 (64-bit) on Exallogic 2.0

The software requirements for Oracle Linux 5.6 (64-bit) on Exallogic 2.0 are as follows:

- MicroFocus COBOL 5.1
- COBOL-IT 2.9.5
- gcc 4.1.2

Oracle Linux 5.6 (64-bit) on Non Exallogic Hardware

The software requirements for Oracle Linux 5.6 (64-bit) on non Exallogic hardware are as follows:

- MicroFocus COBOL 5.1
- COBOL-IT 2.9.5
- gcc 4.1.2

Oracle Solaris 10 64-bit on Sparc

The software requirements for Oracle Solaris 10 64-bit on Sparc are as follows:

- MicroFocus COBOL 5.1
- COBOL-IT 2.9.5
- C/C++ Sun Studio 12

Supported Platforms
