Preface

This guide provides an overview of installing Oracle Utilities Meter Data Management.

This preface contains these topics:

• Audience
• Related Documents
• Conventions

Audience

Oracle Utilities Meter Data Management Quick Install Guide is intended for anyone interested in the process of installing Oracle Utilities Meter Data Management.

If you are interested in the process of installing a service pack of Oracle Utilities Meter Data Management, for specific installation instructions please refer to the Readme.txt included with the service pack installation package.

Related Documents

• Oracle Utilities Meter Data Management Database Administrator’s Guide

Conventions

The following text conventions are used in this document:

<table>
<thead>
<tr>
<th>Convention</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>boldface</strong></td>
<td>Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.</td>
</tr>
<tr>
<td><em>italic</em></td>
<td>Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.</td>
</tr>
<tr>
<td>Convention</td>
<td>Meaning</td>
</tr>
<tr>
<td>------------</td>
<td>---------</td>
</tr>
<tr>
<td>monospace</td>
<td>Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.</td>
</tr>
</tbody>
</table>
This section provides a high-level overview of the installation steps for Oracle Utilities Meter Data Management (MDM) V2.0.1 and selected additional software. For more information, see Oracle Utilities Meter Data Management Installation Guide.

Refer to My Oracle Support for up-to-date additional information on Oracle Utilities Meter Data Management installation.
Oracle Utilities Meter Data Management
Media Pack Contents

The Oracle Utilities Meter Data Management Media Pack consists of the following packages:

- Oracle Utilities Meter Data Management V2.0.1 Release Notes
- Oracle Utilities Meter Data Management V2.0.1 Quick Install Guide
- Oracle Utilities Meter Data Management V2.0.1 Install Documentation
- Oracle Utilities Meter Data Management V2.0.1 User Documentation
- Oracle Utilities Meter Data Management V2.0.1 Supplemental Documentation
- Oracle Utilities Application Framework V4.1.0 Multiplatform
- Oracle Utilities Application Framework V4.1.0 Single Fix Prerequisite Rollup for MDM V2.0.1
- Oracle Utilities Meter Data Framework V2.0.1 Multiplatform
- Oracle Utilities Meter Data Management V2.0.1 Multiplatform
- Oracle Utilities Meter Data Management V2.0.1 Oracle Database
Components for Oracle Utilities Meter Data Management

The system includes the following components:

• All application processes and HTML/JSP pages that make up the user interface
• This Installation Guide, which describes the installation/upgrade process
• The latest User Documentation
• Release Notes describing functional changes for this version
• Database installation
• Data Dictionary
• System Table Guide
• XAI Client Software
Network Environment Overview

The application is split into multiple tiers:

**Tier 1: Browser-Based Client**

The central facility in the Oracle Utilities Meter Data Management browser-based client is Internet Explorer.

Operating System: Windows XP, Windows 7

The following Operating System / Web Browser software is supported:

- Windows XP SP3 or higher with Internet Explorer 7.x or 8.x
- Windows 7 (32-bit or 64-bit) with Internet Explorer 8.x

**Tier 2: Web Application Server**

Oracle Utilities Meter Data Management supports the following Web application servers:

- Oracle WebLogic 11gR1 (10.3.3 or 10.3.4)
- IBM WebSphere 7.0.0.11

**Tier 3: Database Server**

Oracle Utilities Meter Data Management supports the following databases:

- Oracle 11gR2 (11.2.0.1) Enterprise Edition
- Oracle 11gR2 (11.2.0.1) Standard Edition

**Note:** Oracle Database Enterprise Edition and the Partitioning and Advanced Compression options are not mandatory but recommended. Standard Edition should only be considered suitable for very small, pilot projects or development environments where scalability, performance, and database size-on-disk are not important considerations. Oracle Database Enterprise Edition, including the Advanced Compression and Partitioning options, is strongly recommended in all other situations.
Certified and Supported Platforms

The installation has been certified to operate on many operating system, application server, and database server combinations. For the software requirements for each of these combinations, see the Oracle Utilities Meter Data Management Installation Guide.

The following table details the browser, operating system and application server combinations on which Oracle Utilities Meter Data Management 2.0.1 has been tested and certified.

<table>
<thead>
<tr>
<th>Operating System and Web Browser (Client)</th>

<td>Windows Server 2008 R2 (64-bit)</td>
<td>x86_64</td>
<td>WebLogic 10.3.5</td>
<td>Oracle 11.2.0.1</td>
</tr>
</tbody>
</table>

Note: In addition to the above certified server platforms, a 32-bit Windows version of Oracle Utilities Meter Data Management 2.0.1 is available for demonstration purpose and for implementation customizations using the Software Development Kit.

Oracle Database Servers

Oracle Utilities Meter Data Management version 2.0.1 is supported with Oracle Database Server 11.2.0.1 on all of the operating systems listed above.

The following Oracle Database Server Editions are supported:

- Oracle Database Enterprise Edition
- Oracle Database Standard Edition

Note: Oracle Database Enterprise Edition and the Partitioning and Advanced Compression options are not mandatory but recommended. Standard Edition should only be considered suitable for very small, pilot projects or development environments where scalability, performance, and database size-on-disk are not important considerations. Oracle Database Enterprise Edition, including the Advanced Compression and Partitioning options, is strongly recommended in all other situations.

The Oracle 11.2.0.1 client is required for these versions of the database server.
Certified and Supported Platforms

Oracle WebLogic Server Information

The following Oracle WebLogic Server Editions are supported:

- Oracle WebLogic Server Standard Edition
- Oracle WebLogic Server Enterprise Edition

Supported Versions

Oracle Utilities Meter Data Management is supported on the following software versions:

- Oracle Utilities Application Framework (F1) version 4.1.0.1
- Oracle Utilities Meter Data Framework (D1) version 2.0.1.8

Application Dependencies for Oracle Business Intelligence for Utilities

When using Oracle Utilities Meter Data Management version 2.0.1.8 with Oracle Business Intelligence for Utilities, you must upgrade to Oracle Utilities Advanced Spatial and Operational Analytics version 2.4.0 Service Pack 4. This release is not compatible with previous releases of Oracle Utilities Advanced Spatial and Operational Analytics. For more information, see the release notes and installation documentation for Oracle Utilities Advanced Spatial and Operational Analytics, version 2.4.0 Service Pack 4.

Installing Oracle Utilities Meter Data Management

For additional information on installing Oracle Utilities Meter Data Management, see the Oracle Utilities Meter Data Management Installation Guide.

To install Oracle Utilities Meter Data Management 2.0.1:

1. Install all required third-party software.
3. Install Oracle Utilities Application Framework V4.1.0 (Application server only).
4. Install Oracle Utilities Application Framework V4.1.0 Single Fix Prerequisite Rollup
   For more details about installing the single fix rollup, see the Readme.txt that is included with the rollup.
5. Install Oracle Utilities Meter Data Framework V2.0.1 (Application server only).
6. Install Oracle Utilities Meter Data Management V2.0.1 (Application server only).
7. Generate Application Viewer items (this includes the Data Dictionary).

Oracle VM Support

Oracle Utilities Meter Data Management V2.0.1 is supported on Oracle VM 2.2.1 for supported releases of Oracle Enterprise Linux and Microsoft Windows operating systems.

Oracle Support Policy Regarding VMware

Please refer to My Oracle Support knowledge base article 249212.1 for Oracle’s support policy regarding VMWare.
Installation and Configuration Overview

The following diagram provides an overview of the steps that need to be taken to install and configure Oracle Utilities Meter Data Management:

[Diagram showing the installation and configuration steps]
Additional Information for Installing Other Oracle Software

Please read this section and follow directions if you purchased a license from Oracle for any of the following products:

- Oracle WebLogic 11gR1 (10.3.3 or 10.3.4)

Oracle WebLogic 11gR1 (10.3.3 or 10.3.4)

Customers must download Oracle WebLogic Server from the Oracle Software Delivery Cloud. The version of Oracle WebLogic Server is listed in the Oracle Utilities Meter Data Management V2.0.1 Supported Platforms Summary section.

Note: If you install a temporary license for Oracle WebLogic, please note that this license is limited to 5 non-current users. You will need to install the full license.

Install the Oracle WebLogic license

To apply a full license you will need to complete the following steps:

1. The license keys for Oracle WebLogic products are located at - http://licensecodes.oracle.com/bea.html
4. Shut down the Oracle Utilities Meter Data Management application server.
5. Follow the instructions from the Oracle WebLogic installation document to install the license key.
6. Start the Oracle Utilities Meter Data Management application server.
