---

This guide provides reference information for the InQuira Intent Libraries. This guide is intended for Dictionary and application developers who need access to detailed information about InQuira language processing components.

This preface includes information on:

- The general organization of this guide
- The support services available from InQuira Customer Support
- The available product documentation

## In This Guide

---

The *Intelligent Search Language Reference* is divided into the following sections:

<a href="#">Chapter 1, IML and VIL Reference</a>	This chapter describes the InQira Match Language (IML) and Variable Instantiation Language (VIL).
<a href="#">Chapter 2, The General Intent Library Hierarchy</a>	This chapter provides descriptions of the Intents and Concept Parameters in the standard General Application Intent Library.
<a href="#">Chapter 3, The Automotive Intent Library Hierarchy</a>	This chapter provides descriptions of the Intents and Concept Parameters in the standard Automotive Intent Library.
<a href="#">Chapter 4, The Telecommunications Intent Library Hierarchy</a>	This chapter provides descriptions of the Intents and Concept Parameters in the standard Telecommunications Intent Library.

## Contacting InQira

---

You can contact InQira by mail, telephone, fax, and email.

<b>Address:</b>	851 Traeger Ave. Suite 125 San Bruno, CA 94066
<b>Telephone:</b>	(650) 246-5000
<b>InQira Customer Support Hotline:</b>	(888) 947-8324
	NOTE: See <a href="#">InQira Customer Support on page 2</a> for more information on reporting incidents to InQira Customer Support.
<b>Fax:</b>	(650) 264-5036
<b>Email:</b>	For sales information, send email to <a href="mailto:sales@inquiracom">sales@inquiracom</a> . For product support, send email to <a href="mailto:support@inquiracom">support@inquiracom</a> .
<b>World Wide Web:</b>	Learn more about InQira products, solutions, services, and support on the world wide web at: <a href="http://www.inquiracom">www.inquiracom</a> .

## InQuira Customer Support

---

InQuira Customer Support is available from 6:30 am to 4:30 pm PST, excluding InQuira holidays.

For Priority 1 incidents, such as when a production system hangs or crashes, or when continued use of the product is impossible, please use the support hotline: (888) 947-8324.

---

**IMPORTANT:** We accept Priority 1 requests only by telephone. We recommend that you send a follow-up email for Priority 1 requests after contacting InQuira Customer Support using the support hotline.

---

For Priority 2, 3, and 4 incidents, as described below, please contact InQuira Customer Support by email at: [support@inquira.com](mailto:support@inquira.com).

Incident response times are determined by the following priority definitions:

Priority	Contact	Response Time	Definition
1	The InQuira Customer Support hotline: (888) 947-8324	1 business hour	A production system hangs or crashes, or continued use of the product is impossible.
2	<a href="mailto:support@inquira.com">support@inquira.com</a>	8 business hours	The product is usable with major restrictions on functionality.
3	<a href="mailto:support@inquira.com">support@inquira.com</a>	16 business hours	The product is usable with minor restrictions on functionality.
4	<a href="mailto:support@inquira.com">support@inquira.com</a>	3 business days	You have a question or an enhancement request pertaining to the software or the documentation.

## InQuira Product Documentation

---

InQuira documentation is available only to licensed users of our software products and may not be redistributed in any form without express permission from InQuira, Inc.

The InQuira documentation is available in PDF format. It is packaged in the `/docs` directory, within the `/inquiry` directory, for example:

```
<InQuira_install_dir>/inquiry/docs
```

---

**NOTE:** You need a PDF reader application installed on each processor on which you plan to view the InQuira product documentation. The Adobe Acrobat reader is available from Adobe Systems at: <http://www.adobe.com>.

---

Detailed information about each product document set is available in:

- [Intelligent Search Documentation on page 1](#)
- [Intelligent Search Analytics Documentation on page 1](#)
- [Information Manager Documentation on page 1](#)
- [Contact Center Documentation on page 1](#)

If you encounter a problem, need help using the documentation, or want to report an error in the content, please contact InQuira Customer Support as described in [InQuira Customer Support on page 1](#).

If you need help obtaining InQuira product documentation, or want to obtain permission to redistribute a portion of the contents, please contact your InQuira account representative.

## Intelligent Search Documentation

Intelligent Search is distributed with the following documentation.

Document	Number	Description
<b>Intelligent Search Installation Guide</b>	IS80-IG-00	This guide is intended for technical staff who are responsible for installing InQuira 8.1. It provides detailed information on installing InQuira 8.1 and configuring the application on a single processor using the Installation Configuration Environment facility.
<b>Intelligent Search Administration Guide</b>	IS80-CA-00	This guide is intended for system and application administrators who need to configure an InQuira 8.1 application in an enterprise environment. It describes InQuira 8.1 integration, development, configuration, and maintenance processes and tasks.
<b>Intelligent Search Language Administration Guide</b>	IS80-LA-00	This guide is intended for business users and subject matter experts who need to create and maintain the language processing elements of a InQuira 8.1 application using the System Manager. This book provides usage information about the System Manager, conceptual information about the InQuira 8.1 language objects, and task information about the process of managing the user experience provided by the InQuira 8.1 application.
<b>Intelligent Search Language Tuning Guide</b>	IS80-LD-00	This guide is intended for application developers who need to create and maintain advanced InQuira 8.1 language-processing elements using the Dictionary and other InQuira Language Workbench applications.
<b>Intelligent Search Optimization Guide</b>	IS80-AG-00	This guide is intended for application developers who need to implement InQuira 8.1 advanced features, including Personalized Navigation and Process Wizards.
<b>Intelligent Search Application Development Guide</b>	IS80-API-00	This guide provides information about integrating and customizing the InQuira 8.1 Personalized Response User Interface.

<b>Intelligent Search Language Reference</b>	IS80-LRG-00	This guide is for language developers implementing InQuira 8.1 applications that utilize the intent libraries and advanced language processing functions. These guides are published as separate documents that provide reference information for each industry-specific intent library. Each reference also contains complete descriptions of InQuira Match Language and Variable Instantiation Language.
<b>Intelligent Search User Interface Guide</b>	IS80-UI-00	This guide is intended for application developers who need to customize the InQuira 8.1 Personalized Response User Interface, and integrate it with a production web application. It contains information about the elements and features of the User Interface, and provides guidelines for integrating it into an enterprise web architecture, customizing its appearance and functionality, and implementing various special features.

## Intelligent Search Analytics Documentation

Intelligent Search Analytics is distributed with the following documentation.

<b>Document</b>	<b>Number</b>	<b>Description</b>
<b>InQuira Analytics Installation Guide</b>	IA80-IG-00	This guide is intended for technical staff who are responsible for installing Intelligent Search Analytics. It provides detailed information on installing and configuring the Intelligent Search Analytics product for use with an InQuira 8.1 application.
<b>Analytics User Guide</b>	IA80-CA-00	This guide is intended for systems and application administrators who need to configure the Intelligent Search and Information Manager Analytics components to report on InQuira 8.1 application performance.

## Information Manager Documentation

InQuira Information Manager is distributed with the following documentation.

Document	Number	Description
<b>Information Manager Installation Guide</b>	IM80-IG-00	This guide is intended for technical staff who are responsible for installing InQuira Information Manager. It provides detailed information on installing and configuring the Information Manager product.
<b>Information Manager Administration Guide</b>	IM80-CA-00	This guide is intended for systems and application administrators who need to configure and administer an InQuira Information Manager application, and integrate it with an InQuira 8.1 application. It also contains information for general business users who need to use the Information Manager to create and manage content.
<b>Information Manager Content Authoring Guide</b>	IM80-AG-00	This guide is intended for technical staff who are responsible for authoring content in InQuira Information Manager. It provides detailed information on creating content and managing workflow tasks in the Information Manager console.
<b>Information Manager Developer's Guide</b>	IM80-WSR-00	This guide is intended for application developers who need to integrate Information Manager content, content category, and user and security functions with external applications. It contains reference information and examples for all packages, classes, methods, and interfaces of the Information Manager Web Services API.

## Contact Center Documentation

---

The InQuira 8.1 contact center products are distributed with the following documentation.

Document	Number	Description
<b>Contact Center Advisor Integration Guide</b>	CA80-IG-00	This guide is intended for application developers and systems administrators who need to plan for and integrate the InQuira Contact Center Advisor with an InQuira application and a supported CRM application.
<b>Intelligent Search Siebel Integration Guide</b>	CAS80-IG-00	This guide is intended for application developers and systems administrators who need to plan for and integrate InQuira 8.1 with Siebel 7 Enterprise Applications using the Siebel Adapter for InQuira 8.1.

## Screen and Text Representations

---

The product screens, screen text, and file contents depicted in the documentation are examples. We attempt to convey the product's appearance and functionality as accurately as possible; however, the actual product contents and displays may differ from the published examples.

## References to World Wide Web Resources

---

For your convenience, we refer to Uniform Resource Locators (URLs) for resources published on the World Wide Web when appropriate. We attempt to provide accurate information; however, these resources are controlled by their respective owners and are therefore subject to change at any time.

---

## Chapter 1 IML and VIL Reference

InQuira Match Language (IML) is a language for specifying conditions and actions based on matching words, phrases, and concepts in user requests and application content. IML consists of a set of symbols that define various functions and operations. You specify these symbols in combination with words of interest to form IML expressions. The set of characters, their functions, and the rules for using them to create IML expressions are described in [IML Syntax on page 13](#).

IML provides a flexible means of matching the words in a user request. IML can match a literal word, multiple forms of a word, or even concepts that match or relate to a specified word in some way. You can create IML expressions that match very specifically-worded requests, or that match many general requests that express the same purpose, or intent.

IML expressions are components of Rules; the pre-defined Rules in the Dictionary contain IML expressions that specify both conditions and actions.

You can add and modify IML expressions in question patterns that set conditions and in Search Components that specify search criteria within Actions.

During request processing, the Rules Engine processes the IML within Rule conditions and actions, as described in [IML Processing on page 12](#).

Please see [The Variable Instantiation Language \(VIL\) on page 40](#) for more information on VIL.

## IML and VIL Quick Reference

---

### *IML Syntax on page 13*

- *“...” (Double Quotes) Literal Expressions on page 14*
- *‘...’ (Single Quotes) Canonical Form Expressions on page 15*
- *<...> (Angle Brackets) Concept Expressions on page 16*
- *NEAR Proximity Operator on page 20*
- *DOC Document Operator on page 20*
- *SENT Sentence Operator on page 21*
- *TITLE Title Operator on page 21*
- *SUBTITLE Subtitle Operator on page 22*
- *SECTION Section Operator on page 22*
- *REFERENCE Reference Operator on page 23*
- *FACET Facet Operator on page 23*
- *CHARMATCH Character Match Operator on page 23*
- *ALLCHILDREN All Children Operator on page 24*
- *IS Intersection Operator on page 25*
- *X,Y(comma) or X AND Y on page 26*
- *OR Union Operator on page 26*

### *VIL Syntax on page 41*

- *-> || VIL Operators and Delimiters on page 44*
- *ALIAS The Alias Function on page 46*
- *INHERIT The Inherit Function on page 47*
- *MORPH The Morphology Function on page 50*
- *NOVAR The Novar Function on page 51*
- *ONTOLOGY The Ontology Function on page 52*
- *REPLACE The Replace Function on page 54*
- *STRING The String Function on page 55*
- *TEXT The Text Function on page 57*
- *USERDATA The User Data Function on page 64*
- *DATE The Date Function on page 65*

- *ISNT Difference Operator* on page 27
- *WITHOUT Difference Offset Operator* on page 27
- *OVERLAP Offset Intersection Operator* on page 28
- *NOOVERLAP Difference Intersection Operator* on page 28
- *WORD Keyword* on page 29
- *BEGIN Keyword* on page 30
- *END Keyword* on page 30
- *THIS Keyword* on page 31
- *+ \* Macros* on page 35
- *(...-...)Simple Range* on page 32
- *(...-) Ascending Range* on page 34
- *==VARIABLE, =#VARIABLE Specifying Variables* on page 37
- *(-...) Descending Range* on page 35
- */\*...\*/ Comments* on page 40

## IML Processing

---

The Rules Engine processes IML during request processing. You can specify IML expressions to match words and phrases in both user requests and application content.

To match words, phrases, and intents within user requests, you specify IML expressions to create question patterns within Rules. To match words and phrases within unstructured application content, you can:

- Use the Dictionary's pre-defined Search Components, which are written in IML
- Specify IML expressions within custom Search Components
- Specify IML expressions to retrieve specific answers
- Specify IML expressions to restrict the results of SQL queries to configured sources of structured information

## Direct IML Expressions

---

You can specify IML expressions to perform direct retrieval of excerpts from unstructured content. The Rules Engine's default ranking process uses IML to match indexed unstructured content to the user requests. In some cases, you may want to specify an explicit IML expression instead of using the default ranking function.

To specify a direct IML expression for document retrieval, you enter an IML expression in the Answer Section tab in the Actions section of the Dictionary Manager Rule window.

## Question Patterns

---

A Question Pattern is an IML expression that is designed to match the intent of a user request. Question Patterns are one of the components of Rules that you can use to set conditions. Question Patterns range from simple, general expressions to complex, specific ones.

You specify Question Patterns using the various elements of IML to match the words and phrases that occur in user requests.

During request processing, the Rules Engine compares the request to the specified Question Pattern, and evaluates it as true or false. If a Rule is true, the Actions that it specifies will be added to the action list.

To use a Question Pattern within a Rule, you enter an IML expression in the Question Patterns tab in the Conditions section of the Dictionary Manager Rule window, as described in [Intelligent Search Optimization Guide](#).

## IML Syntax

---

The IML syntax defines multiple elements that you can use to create IML expressions within question patterns, search components, and direct index queries. You create IML expressions by combining the various elements according to the syntax rules.

### General IML Syntax Rules

---

There are no special delimiters to indicate the beginning or end of IML expressions. You generally specify IML expressions in designated fields within Dictionary Manager windows.

You can organize IML expressions in Dictionary Manager fields in any way that you choose. The Rules Engine reads IML expressions from left to right, top to bottom. Line breaks and spaces do not have any function.

---

**NOTE:** The AND separator is a functionally identical alternative to the comma separator, and is not an operator. It separates arguments, but does not specify any operation.

---

Arguments for expressions are delimited by parentheses, and separated by commas, or by the string AND if preferred for clarity. You can create nested expressions using parentheses to delimit the enclosed expressions, and there is no limit to the levels of nesting.

### IML Elements

---

IML supports the following types of elements:

- [Basic Expressions on page 14](#)
- [Operators on page 18](#)
- [Keywords on page 29](#)
- [+ \\* Macros on page 35](#)
- [Number Expressions on page 31](#)
- [IML Variables on page 37](#)
- [/\\*...\\*/ Comments on page 40](#)

Some IML elements allow additional arguments that specify or modify their behavior.

## Basic Expressions

---

Basic IML expressions are the means of specifying semantic matching for words and phrases in user requests and in the indexed content. Basic expressions generally resolve to single units of meaning within user requests or application content. Within indexed application content, single units of meaning occupy a designated position, and are referred to as *offsets*.

The various types of base expressions enable you to match words and phrases as literal character strings, canonical forms that include variations in wordform and punctuation, and concepts that include semantic relations as defined in the Ontology.

You can combine basic expressions with other IML elements to describe and match complex semantic structures. The following basic expressions are valid in IML:

- “...” (*Double Quotes*) *Literal Expressions* on page 14
- ‘...’ (*Single Quotes*) *Canonical Form Expressions* on page 15
- <...> (*Angle Brackets*) *Concept Expressions* on page 16
- [...] (*Square Brackets*) *Cluster Expressions* on page 18

### “...” (Double Quotes) Literal Expressions

A literal expression matches only the exact specified character string. Literal expressions are sensitive to punctuation and spacing.

#### **Syntax:**

Enclose the word or phrase within double quotes, in the form:

"expression"

#### **Example:**

The expression...	matches...	and does not match...
"cat "	Cat cat	cats

## ‘...’ (Single Quotes) Canonical Form Expressions

Canonical form expressions match the specified string and any variations in inflection or form, such as capitalization, tense, or other valid morphological variations as defined by the Language Analyzer.

### **Syntax:**

Specify canonical form expressions using either of the following forms:

expression  
‘expression’

where:

expression	Is a non-quoted string beginning with a lower case letter, succeeded by any alphanumeric characters, with no punctuation or spaces
‘expression’	Is any alphanumeric string enclosed within single quotes, including punctuation and spaces

### **Example:**

The expression...	matches...	and does not match...
cat ‘cat’	Cat cats Cats cat’s catty	catalog

## <...> (Angle Brackets) Concept Expressions

Concept expressions match occurrences of the specified concept and its synonyms. Concept expressions refer to the sense of the specified concept that is currently defined in the Dictionary. See the [Intelligent Search Language Tuning Guide](#) for information on defining concepts in the Dictionary.

### Syntax:

Specify the concept name as defined in the Dictionary, within angle brackets. The Rules Engine assigns default values to the first two identifiers within a concept reference if they are not specified. You can omit one or both of these identifiers to apply the default values to the specified concept. The complete form of the concept reference is:

<pos.domain.name>

Other valid forms are:

<name>

where:

pos	Specifies the concept's <i>part of speech</i> . Valid values are <code>noun</code> , <code>adj</code> (adjective), <code>verb</code> , and <code>adv</code> (adverb). This identifier is optional. The default part of speech value is <code>noun</code> .
domain	Specifies the <i>domain</i> that the concept is assigned to. This identifier is optional. The default domain is the application domain name, as specified in the Dictionary.
name	Specifies the concept name, which is an indicator for the collection of specified synonyms and other relationships that define the concept

### Example:

The expressions...	match...	and do not match...
<noun.animal.cat> <animal.cat>	Cat cats kitten	catalog

*Default Concept Reference Values*

The following table describes the default values that the Rules Engine assigns when processing concept references.

<b>If you specify...</b>	<b>the Rules Engine assigns...</b>
<code>&lt;pos.domain.headword&gt;</code>	No default values.
<code>&lt;headword&gt;</code>	The part of speech value noun and the default domain value <code>application name</code> , as specified on the Application Instance page of the Advanced Configuration Facility.

## [...] (Square Brackets) Cluster Expressions

Cluster expressions match occurrences of the specified Cluster Object. Cluster expressions refer to the sense of the specified Cluster that is currently defined in the Dictionary. See the [Intelligent Search Language Tuning Guide](#) for information on defining Cluster in the Dictionary.

### Syntax:

Specify the Cluster name as defined in the Dictionary, within square brackets. The Rules Engine assigns default values to the first two identifiers within a Cluster reference if they are not specified. You can omit one or both of these identifiers to apply the default values to the specified Cluster. The complete form of the concept reference is:

[name]

### Example:

The expressions...	match...	and do not match...
[house pet]	Cat dog feline	catalog

## Operators

You can specify IML operators to define the portion, or *range*, of a request or document that you want an IML expression to match.

For example, you can specify operators to apply expressions to:

- Sentences within documents
- Entire documents
- Sentences within documents having titles that match a specified expression

### Types of Operators

The following types of operators are available in IML:

- Range operators
- Combining operators

Range operators specify the scope of the matching criteria set by a specified expression. For example, you could specify IML expressions to match the words cat and hat occurring within a single sentence, or within 5 words of each other. Some range operators apply to both conditions (requests) and actions (documents); others apply only to actions.

Combining operators specify operations on specified ranges to further define matching criteria. Examples of combinations include intersections, unions, and overlaps.

## Range Operators

---

Range operators specify the scope of a matched expression. You can use range operators to specify the amount of content that the Rules Engine will associate with the matched expression.

For example, a literal expression "cat" will match any occurrences of the string cat. A sentence range operator specifies that this expression will apply to, or match, sentences that contain the string cat. A document range operator specifies that this expression will match documents that contain the string cat.

You specify range operators as prefixes to the expressions that they operate on. You specify the expressions that the range operator applies to as arguments enclosed within parentheses. You must specify at least one argument for an operator.

You separate arguments with a , (comma) or the string AND. The expressions that you specify as arguments can be any valid IML expressions.

You can use range operators within IML expressions that specify conditions and actions within Rules; however, not all range operators are valid in both contexts.

The following IML range operators apply to both conditions (requests) and actions (documents):

- Proximity (NEAR), as described in [NEAR Proximity Operator on page 20](#)
- Document (DOC), as described in [DOC Document Operator on page 20](#)

The following IML range operators apply only to actions:

- Sentence (SENT), as described in [SENT Sentence Operator on page 21](#)
- Title (TITLE), as described in [TITLE Title Operator on page 21](#)
- Subtitle (SUBTITLE), as described in [SUBTITLE Subtitle Operator on page 22](#)
- Section (SECTION), as described in [SECTION Section Operator on page 22](#)
- Reference (REFERENCE), as described in [REFERENCE Reference Operator on page 23](#)

## NEAR Proximity Operator

The proximity (NEAR) operator returns a range of words that contains all of the expressions specified as arguments. You specify the size of the range as a parameter, n.

NEAR is valid within conditions and actions.

### Syntax:

NEAR\_n([expression]{separator[expression]}...)

where:

n	Specifies the number of words (offsets) that defines the range. Offsets indicate unique index positions, approximately equal to single words.
expression	Specifies a valid IML expression
separator	Specifies a separator, if required ( , or AND)

### Example:

<b>Specify</b>	NEAR_5 ( <cat> , <hat> )
<b>To match</b>	Content having both of the concepts (synonyms for) cat and hat within a 5 word range

## DOC Document Operator

The document (DOC) operator returns documents containing all of the expressions specified as arguments. Documents are identified during content processing. The sentence object, which contains the user request, is considered to be a document. See [Intelligent Search Optimization Guide](#) for more information about the sentence object.

DOC is valid within conditions and actions.

### Syntax:

DOC([expression]{separator[expression]}...)

where:

expression	specifies a valid IML expression
separator	specifies a separator, if required ( , or AND)

### Example:

<b>Specify</b>	DOC ( <cat> , <hat> )
<b>To match</b>	documents containing both of the concepts (synonyms of) cat and hat

## SENT Sentence Operator

The sentence (SENT) operator returns sentences that contain the specified expressions. Sentences are identified during content processing and are stored in the Content Store.

SENT is valid only within actions.

### Syntax:

SENT([expression]{separator[expression]} }...}

where:

expression	Specifies a valid IML expression
separator	Specifies a separator, if required ( , or AND)

### Example:

<b>Specify</b>	SENT ( <cat> , <hat> )
<b>To match</b>	Sentences containing both of the concepts cat and hat

## TITLE Title Operator

The title (TITLE) operator returns document titles that contain the expressions specified as arguments. Document titles are identified during content processing and are stored in the Content Store.

TITLE is valid only within actions.

### Syntax:

TITLE([expression]{separator[expression]} }...}

where:

expression	specifies a valid IML expression
separator	specifies a separator, if required ( , or AND)

### Example:

<b>Specify</b>	TITLE ( <cat> , <hat> )
<b>To match</b>	document titles that contain both of the concepts (synonyms of) cat and hat

## SUBTITLE Subtitle Operator

The subtitle (SUBTITLE) operator returns document subtitles that contain all of the expressions specified as arguments. Document subtitles are determined by content processing.

SUBTITLE is valid only within actions.

### Syntax:

```
SUBTITLE([expression]{separator[expression]} }...}
```

where:

expression	Specifies a valid IML expression
separator	Specifies a separator, if required ( , or AND)

### Example:

<b>Specify</b>	SUBTITLE( <cat> , <hat> )
<b>To match</b>	Document sections having subtitles that contain both of the concepts (synonyms of) cat and hat

## SECTION Section Operator

The section (SECTION) operator returns document sections that contain all of the expressions specified as arguments. Document sections are determined by content processing.

SECTION is valid only within actions.

### Syntax:

```
SECTION([expression]{separator[expression]} }...}
```

where:

expression	specifies a valid IML expression
separator	specifies a separator, if required ( , or AND)

### Example:

<b>Specify</b>	SECTION( <cat> , <hat> )
<b>To match</b>	Document sections that contain both of the concepts (synonyms of) cat and hat

## REFERENCE Reference Operator

The reference (REFERENCE) operator returns references to documents, such as hypertext links, that contain the expressions specified as arguments.

REFERENCE is valid only within actions.

---

**NOTE:** Only use the REFERENCE operator if the reference index has been enabled. The reference index is disabled by default, to enable it modify the #.xml file from `<referenceNamespace>false</referenceNamespace>` to `<referenceNamespace>true</referenceNamespace>`.

---

### Syntax:

REFERENCE({expression} separator {expression})

where:

expression	specifies a valid IML expression
separator	specifies a separator, if required ( , or AND)

### Example:

<b>Specify</b>	REFERENCE ( <cat> , <hat> )
<b>To match</b>	references that contain both of the concepts (synonyms of) cat and hat

## FACET Facet Operator

The facet (FACET) operator returns documents assigned to a particular facet setup in the Personalized Navigation Facility.

### Syntax:

FACET("name")

### Example:

<b>Specify</b>	FACET ( "manual " )
<b>To match</b>	returns documents assigned to the Manual facet as specified in the Personalized Navigation Setup.

## CHARMATCH Character Match Operator

The character match (CHARMATCH) operator matches the query against the regular expression argument.

CHARMATCH assumes implicit BEGIN and END markers to its argument.

CHARMATCH sends its argument to the JAVA regular rxpression engine, so it uses the

Java regex syntax. Operators like “\*” or “+” are fulfilled to the maximum stretch. “?” makes the preceeding character optional. For more information, search for Java Regex guides online.

### **Syntax:**

CHARMATCH(regular expression)

### **Example:**

The expression...	matches...	and does not match...
CHARMATCH( "c+ ?t" )	cat Conneticut	cats

## **CHILDREN Children Operator**

The Children operator matches on the Concept and the first level Concepts related to the specified Concept with a “is this type” relationship. The Concept name used with the the CHILDREN operator will be the “Parent” Concept, and will return the “children” of the Concept.

### **Syntax:**

CHILDREN(<conceptname>)

### **Example:**

The expression...	matches...	and does not match...
CHILDREN(<animal>)	cat dog	Garfield Odie

## **ALLCHILDREN All Children Operator**

The All Children operator matches on the Concept and all the Concepts related to the specified Concept with a “is this type” relationship. The Concept name used with the the CHILDREN operator will be the “Parent” Concept, and will return all the “children” of the Concept.

**Syntax:**

`ALLCHILDREN(<conceptname>)`

**Example:**

The expression...	matches...	and does not match...
<code>ALLCHILDREN(&lt;animal&gt;)</code>	cat dog garfield odie	sink

## Combining Operators

---

Combining operators specify operations on expressions or their associated ranges.

You can use combining operators to match an area of content that you define as the result of an operation on two or more specified ranges. You specify combining operators inline, between the expressions that they operate on. The expressions that you combine can be any valid IML expressions.

The following combining operators are valid in IML:

- `IS`, which specifies the intersection of two ranges, as described in [IS Intersection Operator on page 25](#)
- `OR`, which specifies the union of two ranges, as described in [OR Union Operator on page 26](#)
- `ISNT`, which specifies the difference of two ranges, as described in [ISNT Difference Operator on page 27](#)
- `WITHOUT`, which specifies the difference of two specified ranges, as described in [WITHOUT Difference Offset Operator on page 27](#)
- `OVERLAP`, which specifies a range representing the overlap of two ranges, as described in [OVERLAP Offset Intersection Operator on page 28](#)

**IS Intersection Operator**

The intersection (`IS`) combining operator specifies the intersection of the ranges of the specified expressions.

### **Syntax:**

You specify the intersection combining operator in the form:

{expression} IS {expression}

where:

expression                      Specifies a valid IML expression

### **Example:**

**Specify**                      SENT(<cat> IS <hat>)

**To match**                      Sentences that contain the concepts (synonyms of) both cat and hat

### **OR Union Operator**

The union (OR) combining operator specifies the union of the ranges of the specified expressions.

### **Syntax:**

{expression} OR {expression}

where:

expression                      Specifies a valid IML expression

### **Example:**

**Specify**                      SENT(<cat> OR <hat>)

**To match**                      Sentences that contain the either of the concepts (synonyms of) cat or hat

### **X,Y(comma) or X AND Y**

Using the comma or AND requires that all terms must be matched in order for the question pattern to be satisfied. “,” and AND must be used in conjunction with [Range Operators on page 19](#), for example DOC.

### **Syntax:**

RANGE OPERATOR ({expression}, {expression})

RANGE OPERATOR ({expression} AND {expressions})

**Example:**

The expression...	matches...	and does not match...
DOC(cat, dog)	cat dog	cat
SENT(cat AND dog)	dog with cat cat with a fat dog	dog

**ISNT Difference Operator**

The difference (ISNT) combining operator specifies the difference of ranges of the specified expressions.

**Syntax:**

{expression} ISNT {expression}

where:

expression                      Specifies a valid IML expression

**Example:**

**Specify**                      SENT(<cat>) ISNT SENT(<hat>)

**To match**                      Sentences that contain the concept (synonyms of) cat, excluding sentences that also include the concept hat

**WITHOUT Difference Offset Operator**

The difference offset (WITHOUT) combining operator specifies the range of difference of the specified expressions.

**Syntax:**

{expression} WITHOUT {expression}

where:

expression                      Specifies a valid IML expression

### **Example:**

<b>Specify</b>	<code>DOC(&lt;cat&gt;) WITHOUT SENT(&lt;hat&gt;)</code>
<b>To return</b>	Documents that contain the concept (synonyms of) <code>cat</code> , excluding sentences that include the concept <code>hat</code>

---

**NOTE:** This example may return multiple matches within a single document.

---

## **OVERLAP Offset Intersection Operator**

The offset intersection (**OVERLAP**) combining operator specifies the ranges representing the overlap of all arguments. The overlap operator returns the portion of the text that the specified expressions have in common.

### **Syntax:**

`{expression}OVERLAP{expression}`

where:

`expression` Specifies a valid IML expression that the operator will apply to.

### **Example:**

<b>Specify</b>	<code>SUBTITLE(cat) OVERLAP hat</code>
<b>To match</b>	Occurrences of <code>hat</code> located within sections that have <code>cat</code> in their subtitles

## **NOOVERLAP Difference Intersection Operator**

The difference offset (**NOOVERLAP**) combining operator specifies the difference of all ranges returned by a specified expression that are overlapped by the range of the following expression.

### **Syntax:**

`{expression} NOOVERLAP {expression}`

where:

`expression` Specifies a valid IML expression

**Example:**

<b>Specify</b>	DOC(<cat>) WITHOUT SENT(<hat>)
<b>To return</b>	Documents that contain the concept (synonyms of) cat, excluding sentences that contain the concept hat

---

**NOTE:** This example may return multiple matches within a single document.

---

## Keywords

---

Keywords perform specific matching functions. You can use keywords to limit matching for an expression to the specified characteristic. For example, you can specify keywords to represent any single word, or to match an expression only if the matching offset is the first word in a document.

You specify keywords inline within the expression that they apply to.

The following keywords are valid in IML:

- **WORD**, which matches any, but exactly one, token, as described in [WORD Keyword on page 29](#).
- **BEGIN**, which matches before the first word in a document, as described in [BEGIN Keyword on page 30](#).
- **END**, which matches after the last word in a document, as described in [END Keyword on page 30](#).
- **THIS**, which assigns a concept sense to one or more tokens in IML expressions within the Dictionary, as described in [THIS Keyword on page 31](#).

### WORD Keyword

The **WORD** keyword matches any, and exactly one word.

**Syntax:**

[expression] WORD [expression]

where:

expression                      Specifies a valid IML expression

### **Example:**

<b>Specify</b>	this WORD house
<b>To match</b>	Any single word within a matched expression, for example:  this old house this red house
<b>And not match</b>	this big old house this house

---

NOTE: You can modify the WORD keyword to match multiple words using number expressions, as described in [Number Expressions on page 31](#).

---

### **BEGIN Keyword**

The BEGIN keyword specifies the beginning of a document, prior to the first word. Use the BEGIN keyword to limit matching for an expression to the first word in a document.

#### **Syntax:**

BEGIN {expression}

where:

BEGIN	Specifies to match immediately before the first word in a document
expression	Specifies any valid IML expression

### **Example:**

<b>Specify</b>	DOC (BEGIN <cat>)
<b>To match</b>	Documents having the concept (synonyms of) cat as the first word in the body of the document

### **END Keyword**

The END keyword specifies the end of a document, after the last word. Use the END keyword to limit matching for an expression to the last word in a document.

#### **Syntax:**

END expression

where:

END	Specifies to match immediately after the last word in a document
expression	Specifies any valid IML expression

**Example:**

<b>Specify</b>	DOC (END <cat>)
<b>To match</b>	Documents having the concept (synonyms of) <code>cat</code> as the last word in the body of the document

**THIS Keyword**

The THIS keyword is valid only in IML expressions within concept definitions in the Dictionary. The THIS keyword specifies a part of an IML expression that represents the defined concept. You can use THIS to limit the part of expression that the Rules Engine will use as the concept in subsequent operations.

**Syntax:**

expression=THIS	
where:	
THIS	Specifies the portion of the expression to use as the concept in subsequent operations
expression	Specifies any valid IML expression that defines the concept

**Example:**

<b>Specify</b>	(online OR virtual) NEAR_5 banking=THIS
<b>To define</b>	A concept <online banking>
<b>That matches</b>	Portions of text like:  banking online is fun and easy... try banking the virtual way with our...
<b>And specifies that</b>	The Rules Engine will use the word <code>banking</code> in subsequent operations on this concept

**Number Expressions**

---

Number expressions specify a number or range of occurrences to match for the expression they apply to. You can use number expressions to apply numeric ranges to any valid IML expressions.

For example, you can specify to match one or more occurrences of an expression, or up to five occurrences of a specified expression.

The following number expressions are valid in IML:

- Simple range number expressions, as described in [\(...-...\)Simple Range on page 32](#)

- Ascending range number expressions, as described in [\(...-\) Ascending Range on page 34](#)
- Descending range number expressions, as described in [\(-...\) Descending Range on page 35](#)

## General Rules for Specifying Number Expressions

You specify number expressions as a single range of integers separated by a hyphen and enclosed within parentheses. Number expressions follow the expression they apply to.

### Syntax:

expression(number\_expression)

where:

expression	Specifies a valid IML expression
number_ expression	Specifies a valid number expression of the following type: <ul style="list-style-type: none"> <li>• <a href="#">(...-...)Simple Range on page 32</a></li> <li>• <a href="#">(...-) Ascending Range on page 34</a></li> <li>• <a href="#">(-...) Descending Range on page 35</a></li> </ul>

### (...-...)Simple Range

The simple range number expression specifies a range that spans the specified lower and upper boundaries.

### Syntax:

expression(n-m)

where:

n	Specifies the lower limit of the range
m	Specifies the upper limit of the range. The value of m must be greater than the value of n
expression	Specifies any valid IML expression

**Example:****Specify**

&lt;hat&gt;(2-3)

**To match**Occurrences of the concept (synonyms of) `hat` in a series of two or three:`hat hat``hat hat hat`**And not match**Single occurrences of the term `hat`, or a series of four or more hats

---

NOTE: In the match example, the Rules Engine would produce a total of four matches:

- a match for the series of two hats on the first line: {`hat hat`}
  - a match for the first series of two hats on the second line: {`hat hat`} `hat`
  - a match for the second series of two hats on the second line: `hat` {`hat hat`}
  - a match for the series of three hats on the first line: {`hat hat hat`}
-

## (...-) Ascending Range

The ascending range number expression specifies all integers greater than or equal to the specified lower boundary.

### **Syntax:**

expression (n-) expression

where:

n	Specifies the lower limit of the range
expression	Specifies any valid IML expression

### **Example:**

<b>Specify</b>	cat WORD(2-) hat
<b>To match</b>	Occurrences of the specified expressions <code>cat</code> and <code>hat</code> having intervening words within the specified range or two or more:  cat and the hat cat and the red hat
<b>And not match</b>	Occurrences of the specified expressions <code>cat</code> and <code>hat</code> having intervening words beyond the specified range or two or more:  cat and hat

## (-...) Descending Range

The descending range number expression specifies all integers less or equal to than the specified upper boundary, including 0.

### Syntax:

expression(-n)

where:

n	Specifies the upper limit of the range
expression	Specifies any valid IML expression

### Example:

<b>Specify</b>	cat WORD(-2) hat
<b>To match</b>	Occurrences of the specified expressions <code>cat</code> and <code>hat</code> having intervening words within the specified range or two or fewer:  cat hat cat and hat cat and the hat
<b>And not match</b>	Occurrences of the specified expressions <code>cat</code> and <code>hat</code> having intervening words beyond the specified range or two or fewer:  cat and the red hat

## + \* Macros

---

Macros are assigned character substitutions for commonly specified IML expressions. You can use macros to specify 0 or more occurrences of any word, and 1 or more occurrences of any word. The following macros are defined in IML:

- \* Specifies 0 or more occurrences of a word. See [Zero or More Words Macro on page 36](#)
- + Specifies 1 or more occurrences of an expression. See [One or More Words Macro on page 36](#)

You specify macros inline within IML expressions, in the form:

```
{expression}macro{expression}
```

## Zero or More Words Macro

You can specify the macro \* to match occurrences of zero or more words, in the following form:

`{expression}*{expression}`

where:

<code>*</code>	Matches occurrences of zero or more words
<code>expression</code>	Specifies any valid IML expression

---

**NOTE:** The \* macro can be expressed in IML as the following keyword and number  
 expression: `WORD( 0 - )`

---

## One or More Words Macro

You can specify the macro + to match occurrences of one or more words, in the following form:

`{expression}+{expression}`

where:

<code>+</code>	Matches occurrences of one or more words
<code>expression</code>	Specifies any valid IML expression

---

**NOTE:** The + macro can be expressed in IML as the following keyword and number  
 expression: `WORD( 1 - )`

---

## IML Variables

---

A variable is a symbol that represents a contiguous set of words in a user request. Variables are a method of associating a part of the user request with an expanded (more general) or reduced (more specific) set of meanings.

There are local and global variables. Local variables apply only within the Rule in which they are specified. Global variables apply within the Rule in which they are set, and also within subsequent Rules.

The Rules Engine processes variables during request processing. When the Rules Engine evaluates a Rule as true, it sets any variables specified within the Rule. Once a variable is set, its value is substituted when it is referenced from another expression using a Variable Instantiation Language (VIL) expression. Local variables can be referenced only by expressions within the same Rule (but not from within the expression in which they are set). Global variables can be referenced by any subsequent Rules.

---

**NOTE:** You cannot refer to a global variable in a Rule that precedes the Rule in which it is set. The Dictionary Manager automatically checks global variables for validity when you update Dictionary data, and will issue a warning if this occurs.

---

You use variables by:

- Specifying them within IML expressions, as described in [==\*VARIABLE\*,  
=#\*VARIABLE\* Specifying Variables](#) on page 37
- Assigning their values, as described in [Assigning Values to Variables](#) on page 38
- Referring to them, as described in [Referring to Variables](#) on page 38

### **=*VARIABLE*, =#*VARIABLE* Specifying Variables**

You specify a variable within an IML expression in the format:

(expression)=variable

or

(expression)=#variable

where:

- |   |   |
|---|---|
| # | Specifies a global variable, which applies to all subsequent rules. Omitting the # prefix specifies a local variable, which applies only to the current rule. |
|---|---|

variable	<p>Can be any alphanumeric string. The first character in the string must be a letter (alpha) character. Letter characters can be upper and lower case.</p> <p>If you specify only upper case characters, you can also use the – (hyphen) character.</p> <p>Global variables can also include the characters:</p> <ul style="list-style-type: none"> <li>• _ (underscore)</li> <li>• – (hyphen)</li> <li>• \$</li> <li>• %</li> </ul> <p>You can specify the same string for multiple variables. If you specify the same string for multiple global variables, the Rules Engine adds each assignment as it is processed.</p>
----------	--

### ***Local Variable Example:***

(man OR guy OR male)=A

### ***Global Variable Example:***

(man OR guy OR male)=#male

## **Assigning Values to Variables**

You assign the value of a variable using Variable Instantiation Language (VIL) functions. When you set a variable within an IML expression, you use various VIL functions to *instantiate*, or set its value in the context of an individual user request. You specify these functions using VIL expressions, usually within a Rule action. VIL expressions contain one or more function calls, and each function call has one or more optional parameters, as described in [VIL Syntax on page 41](#).

## **Referring to Variables**

You can include VIL expressions to refer to variables from within index queries, custom content, SQL queries, or other expressions. You specify references to variables within curly brackets { }, in the form:

{ VIL\_expression }

where { } delimits VIL expressions within surrounding text such as IML expressions or custom content.

**Example:**

You can use VIL expressions to refer to variables from within custom content specified in the answer section of a Rule:

You can buy a {VIL\_expression\_1} today for {VIL\_expression\_2}.

where:

VIL_expression_1	Refers to a variable set in a Rule condition that resolves to a product name or type of product mentioned in a user request that matched a price of product Rule.
VIL_expression_2	Refers to a variable instantiated from a database query for the price of the product mentioned in the user request.

The instantiated statement displayed by the User Interface might be:

You can buy the *Model 500 washer/dryer* today for \$900.

You can also specify a variable to resolve to a valid IML expression, which the Rules Engine then evaluates as an action.

## /\*...\*/ Comments

---

You can include comments within IML expressions. Comments are words or phrases, usually explanatory, that are present in the IML expression, but which are ignored by the Rules Engine. Comments are useful to provide inline explanation of some aspect of the IML function, and can also be used to isolate a portion of an expression for testing purposes.

You specify comments using special character strings as delimiters to define the beginning and end of the comment.

### Syntax:

```
/* comment */
```

where:

/*	Specifies the beginning of the comment
comment	Specifies the comment, which can be any characters that you want the Rules Engine to ignore
*/	Specifies the end of the comment

### Example:

<b>Specify</b>	<code>SENT(&lt;cat&gt;,&lt;hat&gt;)/*</code> matches sentences that contain either cat or hat
<b>To add</b>	An explanation to the IML expression
<b>And ensure that</b>	The Rules Engine will process only the IML expression <code>SENT( &lt;cat&gt; , &lt;hat&gt; )</code>

## The Variable Instantiation Language (VIL)

---

InQuira uses a special language, called the Variable Instantiation Language (VIL) to resolve, or *instantiate*, variables set within Rules. The Rules Engine uses VIL to generate and manipulate strings that ultimately determine values for variables.

You use VIL by specifying expressions within Rule conditions and actions. Within conditions, you can use VIL expressions to describe IML conditions based on request content. Within actions, you can specify VIL expressions within search components, custom content, or other text fields.

You specify VIL expressions in the form described in [VIL Syntax on page 41](#). The Rules Engine processes VIL expressions, as described in [VIL Function Processing on page 41](#).

## VIL Syntax

---

The Variable Instantiation Language consists of functions, parameters, operators, and delimiters that you combine to create valid VIL expressions.

You specify VIL expressions in the form:

```
{variable}{operator}function([parameter=value, parameter=value, ...]){operator}function(...)
```

where:

variable	Is an optional variable passed to the function for instantiation
operator	Is a valid VIL operator, as described in <a href="#">-&gt;    VIL Operators and Delimiters on page 44</a>
function	Is a valid VIL function, as described in <a href="#">VIL Functions on page 46</a>
parameter	Is a valid parameter of the function. Parameters are described within the function descriptions to which they apply.
value	Is a specified value of the parameter

## VIL Function Processing

---

VIL functions take information as input, and pass information as output. They can also refer to various services and data. Input is in the form of sets of strings, which are associated with words in user requests, as described in [VIL Function Input on page 42](#).

Most VIL functions manipulate input according to specified parameters before passing them as output.

The Rules Engine generally applies functions to the input strings in sequence; however, it sometimes applies functions only to some strings, or to a combination of strings, depending on the functions and parameters that are specified.

VIL functions can refer to any of the strings in any of the input sets (corresponding to any word in the question) as they calculate their output.

## VIL Function Input

The input to VIL functions is a set. Each input set refers to a wordform in the user request. The input set is composed of subsets, and the subsets are sets of strings.

The literal string contains disambiguation information for the wordform occurring in the user request. For each disambiguated wordform, the set of strings will be a single string, which is a normalized form (token) of the word, as determined by the Language Analyzer.

For example, consider a user request:

What does a hot dog cost?

and a Rule that assigns a variable A to the portion of the request `hot dog cost`.

The string-set associated with the words `hot dog` would contain a single string, `hot dog`. The string-set associated with the word `cost` would contain a single string, `cost`.

If, for the purpose of this example, the Rules Engine sends these strings to the following MORPH function, which generates morphological variants, as described in [MORPH The Morphology Function on page 50](#):

A-> MORPH(FORMS=OP)

the MORPH function will generate the strings in their original forms (O) and in their plural form (P), resulting in the string sets:

hot dog  
hot dogs

and

cost  
costs

---

**NOTE:** The strings in these sets are always wordforms, and always occur in the Ontology, even if as the unknown wordform.

---

## VIL Function Output

VIL function output is a set of sets of strings, where each of the higher order of sets corresponds to a wordform in the user request, except for the output of the STRING function.

The output of the STRING function is a single string that concatenates all of its input strings. The STRING function is always the last function in a VIL expression, either as an implied function, using the default values, or using explicitly specified values. See [STRING The String Function on page 55](#) for more information.

## Combining VIL Functions

You can specify multiple functions within a VIL expression. The Rules Engine performs the specified functions serially, in the order that it reads them, using the output from the preceding function as the input for the next.

Input and output strings may not always apply to the specified functions in a VIL expression.

---

**NOTE:** A non-applicable string is different than an applicable string that produces a null output. See [Non-Applicable and Null Output Strings on page 44](#) for an explanation of the implications of this difference.

---

If a function receives a non-applicable input string, it will either pass that string, unprocessed, as input to the next function, or not, depending on the specified operator. Operators specify the ways in which function outputs will be used as input by subsequent functions, as described in [-> // VIL Operators and Delimiters on page 44](#).

You can specify any number of VIL functions and operators in any order, except the STRING function. The STRING function must be the last specified function in a VIL expression. The Rules Engine assumes the STRING function's default values unless you explicitly specify the STRING function within a VIL expression.

## -> || VIL Operators and Delimiters

---

VIL uses the following operators to specify how the Rules Engine will pass data between specified functions.

-> Specifies to pass function output as input to a subsequent function. For example:

`function_1(parameter) -> function_2(parameter)`

Specifies that the Rules Engine will send the output of `function_1` as input to `function_2`.

|| Specifies to pass function output as input to a subsequent function that will act on the input only if it is null. For example:

`function_1||function_2`

Specifies that the Rules Engine will pass the output to `function_2`, and that `function_2` will act on the input only if it is null.

### Non-Applicable and Null Output Strings

In VIL processing, there is an important difference between strings that do not apply to functions and applicable strings that return null values. The Rules Engine passes non-applicable strings to the next specified function, depending on the type intervening operator. The operators within VIL functions process strings that return null values differently than non-applicable strings, as described in the following table:

If a string...	And the operator is...	The Rules Engine...
does not apply	-> or	passes the string directly to the next function
returns a null value	->	passes the string resulting from the function (null) to the next function
returns a null value		passes no string to the next function and uses the latter function on the input that returned a null value for the earlier function

For example, the function:

```
ALIAS(LIST="skipwords")
```

specifies that every string will be compared to a list of skipwords. The skipwords list refers to a data table that specifies a replacement string value of no-output.

If the next function is specified with the `||` combining operator, as follows:

```
ALIAS(LIST="skipwords") || function_2(parameter)
```

then:

- Strings that have no entry in the skipwords data table will be sent to `function_2`
- Strings that appeared in the skipwords table, and therefore produced no output will not be sent to `function_2`

## VIL Parameters

---

You can specify parameters to control the behavior of VIL functions. Each parameter has a set or range of valid values.

For example, the `STRING` function has the following parameters that you can use to add additional contents to the string that is passed as input:

- `BEGIN`
- `END`
- `SEP`

Each of the parameters accepts a string as its value, so that if you specify:

```
cat hat -> STRING(BEGIN=">>> ", END=" <<<", SEP=" --- ")
```

The Rules Engine will produce the string:

```
>>> cat --- hat <<<
```

## VIL Functions

---

You specify VIL functions within VIL expressions, along with the various parameters and operators that control how the Rules Engine processes the functions and passes data between them. The available VIL functions are:

- [ALIAS The Alias Function on page 46](#)
- [INHERIT The Inherit Function on page 47](#)
- [MORPH The Morphology Function on page 50](#)
- [NOVAR The Novar Function on page 51](#)
- [ONTOLOGY The Ontology Function on page 52](#)
- [REPLACE The Replace Function on page 54](#)
- [STRING The String Function on page 55](#)
- [TEXT The Text Function on page 57](#)
- [USERDATA The User Data Function on page 64](#)
- [DATE The Date Function on page 65](#)

### ALIAS The Alias Function

---

The ALIAS function replaces strings based on configured Alias Lists that are stored in the Dictionary. Alias Lists enable transformations, such as conversion of text strings to corresponding database values to support SQL queries. For more information on Alias Lists, see [Intelligent Search Optimization Guide](#).

#### **Syntax:**

ALIAS(LIST="list\_name",[CASESENSITIVE=value])

where:

LIST	Specifies the name of the list, as defined in the Dictionary, enclosed in double quotes. There is no default value.
CASESENSITIVE	Specifies that the Rules Engine will perform transformations only when capitalization of terms matches. This parameter is optional. The default is FALSE.
KEYOUTONLY	Copies the list of keys in the alias list. (Intended for the query side to be used in rule conditions to provide a match.) This parameter is optional. The default is FALSE.

**Example:**

The following expression:

```
ALIAS(LIST="skipwords")
```

specifies that every input string will be compared to the entries in the skipwords alias list for processing.

**Example:**

Consider a Rule that assigns the variable A to the word Accounting:

```
Accounting=A
```

and an Alias List named PROGRAMS that specifies the alias entry:

```
"Accounting", "ACCT"
```

If a VIL function call within a Rule action specifies:

```
A->ALIAS(LIST="PROGRAMS")
```

the Rules Engine uses the VIL functions to transform the value of the variable A to the value ACCT.

**Example:**

The following expression:

```
{A->ALIAS(LIST="US state abbreviation", KEYOUTONLY=TRUE)} and  
"alabama "=A
```

produces:

```
<noun.location.nevada> <noun.location.oregon>  
<noun.location.nebraska> <noun.location.wyoming>  
<noun.location.connecticut>, etc
```

## INHERIT The Inherit Function

---

The INHERIT function specifies inheritance criteria for Search Components. See [Intelligent Search Optimization Guide](#) for more information on Search Components and how they are assigned. The INHERIT function creates a string containing all assigned Search Components.

## Syntax:

INHERIT(TYPE=value,SUBTYPE=value,[SCORE=number],[SEP=string],[EXACT=value],[NODUPS=value])

where:

TYPE	<p>specifies the required type of search components to be inherited. Possible values are:</p> <p><b>Index</b> Index Search Components use IML expressions to define criteria for searching the indexes of unstructured content in the Content Store.</p> <p><b>SQL</b> SQL Search Components use SQL queries to define criteria for retrieving information from configured structured data sources.</p> <p>The default value is ALL. See <a href="#">Intelligent Search Optimization Guide</a> for more information.</p>
SUBTYPE	<p>Specifies a Search Component subtype to be inherited. The default value is ALL. See <a href="#">Intelligent Search Optimization Guide</a> for more information.</p>
SCORE	<p>Specifies the allowed score range of search component levels to be inherited. The default value is 0.</p>
SEP	<p>Specifies an optional separator string to insert between output strings. This parameter is optional. The default value is null (" ").</p>
EXACT	<p>Specifies whether Search Components are inherited only if the variable range is also the exact range over which the Search Component is assigned. See <a href="#">Intelligent Search Optimization Guide</a> for information on search components ranges.</p> <p>Valid values are true and false. True specifies that the variable range and the search component range must match exactly. The default value is FALSE.</p>
NODUPS	<p>Specifies whether identical search component levels will be inherited more than once. The default value is FALSE.</p>

## Example:

A->INHERIT(SCORE="20")

creates a string consisting of all search components already assigned to A, and having a score of 20.

---

**NOTE:** The Evaluator translates importance and quality values into absolute scores associated with each entry in a Search Component. See [Intelligent Search Optimization Guide](#) for more information.

---

When the Search Component covers only one string set, the inherited Search Component uses exactly that string set.

In cases where the Search Component covers more than one string set, the string sets are combined, separated by the value of the SEP argument.

**Example:**

Consider a query:

april shower

that has a variable A assigned to it, and that a search component is assigned to the portion "april":

(apr OR april)

with a score of 10.

Consider the VIL expression:

{{april} {shower}} -> INHERIT(SCORE=10) || MORPH(FORMS="O")

which produces the string:

(apr OR april) shower

If the original string has an additional search component assigned to the portion april shower:

(rain)

that has a score of 10 :

{{april} {shower}} -> INHERIT(SCORE=10) || MORPH(FORMS="O") => {{{rain}} {}}

**Example:**

Consider a Rule that assigns the search component variable A to the word Accounting:

Accounting=A

and the corresponding standard index search components:

1000 ("Accounting") IS (<verb.possession:account>

1000 <noun.possession:account2>

1000 <noun.state:account>

If a VIL function call within a Rule action specifies:

A-> INHERIT( EXACT=TRUE,SCORE=1000,SEP = ") OR (",TYPE = "index",SUBTYPE = "standard" )

The Rules Engine uses the VIL functions to transform the value of the variable A to:

((("Accounting") IS (<verb.possession:account> OR <noun.possession:account2> OR <noun.state:account>))

## MORPH The Morphology Function

---

The MORPH function creates specific morphological inflections of wordforms. The MORPH function can create the following forms:

**B** generates base (stem) wordforms

---

**NOTE:** If the MORPH function is not called, the Rules Engine uses the stem of each wordform, as determined by the Language Analyzer.

---

### **Syntax:**

MORH([FORMS="|B|\*",[SEP=<string>])

where:

FORMS	Specifies one or more of the valid morphological forms. The default is O, which generates the original wordform used in the request.
SEP	Specifies an optional separator string to insert between output strings. This parameter is optional. The default value is OR.

### **Example:**

Consider a Rule that assigns the search component variable A to the word `Accounting`:

A="Accounting"

and a VIL function call within a Rule action to generate the infinitive and plural forms of the stem word:

A->MORPH(FORMS="IP")

The Rules Engine processes the MORPH function and generates:

account OR accounts

## NOVAR The Novar Function

---

NOVAR is a special function designed to handle cases in which there is no match for a variable. You specify the NOVAR function in the form:

```
NOVAR([ACTION="DROP" | <string>])
```

where:

ACTION	Specifies the action to perform. Valid values are a specified string to use as output, and DROP, which specifies to stop processing and discard this expression. The default is to output a null string ( " ").
--------	---

### **Example:**

Consider an IML expression to match a user name or account ID:

```
(<username>=username OR <account_id>)
```

and a request that contains an account ID. The username variable will be instantiated using the NOVAR function,

```
username -> NOVAR(ACTION="Valued Customer")
```

which generates the string Valued Customer.

## ONTOLOGY The Ontology Function

---

The ONTOLOGY function generates Ontology entities by traversing the Ontology hierarchy using a starting point defined by the input, and a direction and distance defined by the ONTOLOGY function parameters.

### **Syntax:**

ONTOLOGY([EXACT=value],[CONTAINED=value],[TRAVERSAL=value],[SEP=<string>])

where:

EXACT	Specifies to use only concepts that encompass the exact range of tokens as the instantiated variable; the concept is therefore an exact match for the variable. Valid values are TRUE and FALSE. The default is FALSE.
CONTAINED	Specifies to use concepts that are contained within the range of tokens that make up the instantiated variable, for example a variable consisting of four tokens where tokens 2 and 3 denote a concept.
TRAVERSAL	Specifies the option that determines the direction and distance that the function will travel to generate output. See <a href="#">Ontology Traversal Functions on page 53</a> for valid traversal options.
SEP	Specifies an optional separator string to insert between output strings. This parameter is optional. The default value is null ( " " ).

### **Example:**

Consider a Rule that assigns a variable A with a value Account.

A="Account"

and a VIL function call within a Rule action to generate the immediate parent noun concepts:

A->ONTOLOGY(EXACT=TRUE,CONTAINED=TRUE,TRAVERSAL="isaUpOneNoun",SEP="OR " )

The Rules Engine uses the ONTOLOGY function to locate the specified Ontology relations and generate the parent concepts for Account:

(<noun.communication:statement1> OR <noun.state:account>)

## Ontology Traversal Functions

The Ontology traversal functions travel a specified number of links of a specified type within the Ontology hierarchy.

The Ontology traversal functions take a set of string-sets (wordforms) as input, locate the relevant link type for the specified function, and return the set of wordforms associated with the specified traversal options.

Option	Description
<b>isaDnAllNoun</b>	This option takes concepts as input and returns all child noun concepts that descend from the input concept.
<b>isaSynDnAllNoun</b>	This option takes concepts as input and returns the noun synonyms of all of their children.
<b>isaDnAllVerb</b>	This option takes concepts as input and returns all child verb concepts that descend from the input concept.
<b>isaSynDnAllVerb</b>	This option takes concepts as input and returns the verb synonyms of all of their children as a set of stem words.
<b>isaUpOneNoun</b>	This option takes concepts as input and returns the immediate parent noun concepts.
<b>isaSynUpOneNoun</b>	This option takes concepts as input and returns the immediate parent noun concepts as sets of stem words.
<b>isaDnOneNoun</b>	This option takes concepts as input and returns the immediate child noun concepts.
<b>isaDnTwoNoun</b>	This option takes concepts as input and returns the two levels of child noun concepts.
<b>isaSynDnOneNoun</b>	This option takes concepts as input and returns the immediate child noun concepts as sets of stem words.
<b>isaSynDerDnAllNoun</b>	This option takes concepts as input and returns the noun synonyms of all of their children as a set of stem words.
<b>attrUpOneAdj</b>	This option takes concepts as input and returns the immediate parent adjective concepts, for example, <i>hot</i> -> <i>temperature</i> .
<b>attrSynUpOneAdj</b>	This option takes concepts as input and returns the immediate parent adjective concepts as a set of stem words.
<b>attrUpOneNoun</b>	This option takes concepts as input and returns the immediate parent noun concepts.
<b>partofUpOneNoun</b>	This option takes concepts as input and returns the immediate <i>part-of</i> parent noun concepts.
<b>partofSynUpOneNoun</b>	This option takes concepts as input and returns the immediate <i>part-of</i> parent noun concepts as sets of stem words.
<b>partofSynDnAllNoun</b>	This option takes concepts as input and returns the noun synonyms of all descendant concepts having <i>part-of</i> relations as a set of stem words.

**partofDnAllNoun**

This option takes concepts as input and returns all of the descendant concepts having *part-of* relations.

## REPLACE The Replace Function

---

The REPLACE function replaces a specified string or a substring with a specified replacement string based on a specified pattern match.

The REPLACE function operates on single tokens; you can use REPLACE to match a multi-word string only if the words have been combined into a single token by a previous VIL operation.

### **Syntax:**

You specify the REPLACE function in the form:

REPLACE(FIND=<string>,REPLACE=<string>,CASESENSITIVE=value,CONTAINS=value)

where:

FIND	Specifies the string or substring to match. This is a required parameter. The default is " ".
REPLACE	Specifies a replacement string for the matched string or substring. This is a required parameter. The default is " ".
CASESENSITIVE	Specifies whether the Rules Engine will match strings only if upper- and lowercase characters match. Valid values are TRUE and FALSE. The default is FALSE.
CONTAINS	Specifies whether to match a substring of the input string. Valid values are TRUE and FALSE. The default is FALSE.

**Example:**

Consider a rule that assigns the variable `A` to the string `Account`.

```
(Account)=A
```

and a VIL function call within a rule action to replace strings containing the substring `Acc` with the string `ACCT`:

```
A->REPLACE( FIND="cc" REPLACE="CCT" CONTAINS=TRUE )
```

The Rules Engine uses the `REPLACE` function to produce:

```
ACCT
```

## STRING The String Function

---

The `STRING` function concatenates a set of input strings to create a single string. You can also specify parameters to:

- add strings to the beginning of the input strings
- add strings to the end of the input strings
- separate sets of input strings
- remove redundant strings from the final concatenated string

The `STRING` function is implied in any VIL expression. You do not need to specify the `STRING` function unless you want to use parameters other than the defaults.

You specify the `STRING` function in the following form:

```
STRING(BEGIN="string" | SEP="string" | END="string" | NODUPS=value | LOWERCASE=value  
| ALWAYSUFFIX=value, |ESCAPE=<string>)
```

where:

BEGIN	Specifies to insert a specified string at the beginning of each substring in the concatenated string. The default value is " ( " .
SEP	Specifies an optional separator string to insert between output strings. This parameter is optional. The default value is " " .
END	Specifies to insert a specified string at the end of each substring in the concatenated string. The default value is " ) " .
NODUPS	Specifies whether to remove redundant strings within the concatenated string. Valid values are <code>TRUE</code> , which specifies to remove redundant strings, and <code>FALSE</code> , which specifies to preserve redundant strings. The default value is <code>FALSE</code> .
LOWERCASE	Specifies to transform the output string to lowercase characters. Valid values are <code>TRUE</code> and <code>FALSE</code> . The default is <code>FALSE</code> .

ALWAYSUFFIX	Specifies whether the Rules Engine will add the specified BEGIN and END values to null strings. Valid values are TRUE and FALSE. The default is FALSE.
ESCAPE	Specifies a character for escape processing, so that characters immediately following the ESCAPE character will be processed as literal strings, not as syntax elements.

### ***Example:***

Consider a Rule that assigns the variable A to the string `cat dog`.

`(cat dog)=A`

and a VIL function call within a Rule action to add the specified elements to the input string:

`A->STRING(BEGIN=">>>", END="<<<", SEP="---")`

The Rules Engine uses the STRING function to produce:

`>>> cat --- dog <<<`

## TEXT The Text Function

---

The TEXT function performs text editing operations on the input string according to specified parameters.

### **Syntax:**

You specify the TEXT function in the form:

TEXT([ARG1=<string>],[ARG2=<string>],[OPERATION=operator])

where:

ARG1	Specifies an argument to the specified operation.
ARG2	Specifies an argument to the specified operation.
OPERATION	Specifies one of the following operations: <ul style="list-style-type: none"> <li>• <a href="#">The Capitalize Operation on page 58</a></li> <li>• <a href="#">The Concatenate Operation on page 59</a></li> <li>• <a href="#">The Count Operation on page 59</a></li> <li>• <a href="#">The Lowercase Operation on page 60</a></li> <li>• <a href="#">The Replace Character Operation on page 61</a></li> <li>• <a href="#">The Sort Operation on page 61</a></li> <li>• <a href="#">The Tokenize Operation on page 62</a></li> <li>• <a href="#">The Trim Operation on page 63</a></li> <li>• <a href="#">The Unique Operation on page 63</a></li> <li>• <a href="#">The Uppercase Operation on page 63</a></li> </ul>

### **Example:**

Consider a Rule that sets the variable A to the string:

"This is an Account"=A

and a VIL function call within a Rule action to replace the matching substring *i* with the specified string *I*:

A->TEXT(ARG1="i", ARG2="I", OPERATION="replacechar")

The Rules Engine uses the TEXT function to edit the input string and produce:

ThIs Is an Account

## The Capitalize Operation

The Capitalize operation of the TEXT function capitalizes (transforms the initial character to uppercase) specified characters within the input string.

### Syntax:

You specify the Capitalize operation in the form:

```
TEXT([delimiter="delimiter"],OPERATION="capitalize")
```

where:

Argument	Description
----------	-------------

<b>delimiter</b>	Specifies one or more characters to delimit capitalization. The default is the set of non-alphanumeric characters (for example, ~!@#\$%^&*()_+=[]\{ ;':",./<>?).
------------------	--

The Capitalize operation capitalizes the character immediately following the delimiters, and preserves the delimiter character in the result string.

### Examples:

**Specify:** `TEXT(OPERATION="capitalize")`

**To process the input:** `this is the answer`

**And return the value:** `This Is The Answer`

**Specify:** `TEXT(delimiter="T",OPERATION="capitalize")`

**To process the input:** `this is the answer`

**And return the value:** `tHis is tHe answer`

## The Concatenate Operation

The Concatenate (`concat`) operation of the TEXT function adds specified strings as prefixes or suffixes to each word in the input string. The Concatenate operation has the following arguments:

Argument	Description
<b>ARG1</b>	specifies a prefix string to add to each word in the input string
<b>ARG2</b>	specifies a suffix string to add to each word in the input string

### **Example:**

```
TEXT(ARG1="PREFIX", ARG2="SUFFIX", OPERATION="concat")
```

### **Input String:**

```
This is the Answer
```

### **Result:**

```
PREFIXThisSUFFIX PREFIXisSUFFIX PREFIXtheSUFFIX PREFIXAnswerSUFFIX
```

## The Count Operation

The Count operation of the TEXT function transforms the input string to an integer corresponding to the number of tokens (words) in the string. The Count operation has no arguments.

### **Example:**

```
TEXT(OPERATION="count")
```

### **Input String:**

```
This is the Answer
```

### **Result:**

```
4
```

## The Lowercase Operation

The Lowercase operation of the TEXT function transforms specified characters within the input string to lowercase.

### **Syntax:**

You specify the Lowercase operation in the form:

```
TEXT([delimiter="delimiter"],OPERATION="lowercase")
```

where:

Argument	Description
<b>delimiter</b>	Specifies a character or string within the input to transform to lowercase. The default is the set of non-alphanumeric characters (for example, ~!@#\$%^&*()_+=[]\{} ;'":',./<>?).  The Lowercase operation transforms the character immediately following the specified delimiters, and preserves the delimiter character in the result string.

### **Example:**

<b>Specify:</b>	TEXT(OPERATION="lowercase")
<b>To process the input:</b>	This is the Answer
<b>And return the value:</b>	this is the answer
<b>Specify:</b>	TEXT(delimiter="T",OPERATION="lowercase")
<b>To process the input:</b>	THIS IS THE ANSWER
<b>And return the value:</b>	ThIS IS ThE ANSWER

## The Replace Character Operation

The Replace Character (`replacechar`) operation of the TEXT function replaces a character specified as the initial argument with an alternate specified as the second argument. The Replace Character operation has the following arguments:

Argument	Description
<b>ARG1</b>	specifies the character to replace within the input string
<b>ARG2</b>	specifies a character to replace the specified character with

### Example:

```
TEXT(ARG1="s", ARG2="t", OPERATION="replacechar")
```

### Input String:

```
This is the Answer
```

### Result:

```
Thit it the Antwer
```

## The Sort Operation

The Sort operation of the TEXT function sorts the tokens (words) within the input string in alphabetical order. The Sort operation has the following arguments:

Argument	Description
<b>ARG1</b>	<code>true</code> specifies case-sensitive sorting. <code>false</code> specifies case-insensitive sorting. <code>false</code> is the default. Case-sensitive sorting is conducted according to ASCII sort standards (uppercase letters precede lowercase letters).
<b>ARG2</b>	<code>reverse</code> specifies reverse (z-a) sorting. <code>normal</code> (or any value other than <code>reverse</code> ) specifies a-z sorting.

### Example:

```
TEXT(OPERATION="sort")
```

### Input String:

```
This is the Answer
```

### Result:

```
Answer is the This
```

### Example:

```
text(ARG1="true", OPERATION="sort")
```

### ***Input String:***

This is the Answer

### ***Result:***

Answer This is the

## **The Tokenize Operation**

The Tokenize TEXT operation transforms an input string into separate words, or tokens. You can use the Tokenize operation to break single entities into their constituent parts. For example, the Tokenize operation can separate a single multiword value (InQuira Corporation) into separate words (InQuira, Corporation) to enable further processing of the individual words.

### ***Syntax:***

You specify the Tokenize operation in the form:

TEXT([delimiter="delimiter"],OPERATION="tokenize")

where:

<b>Argument</b>	<b>Description</b>
<b>delimiter</b>	Specifies a character or string within the input to use as a boundary between tokens. The default is the set of non-alphanumeric characters (for example, ~!@#\$%^&*()_+=[]\{} ;':",./<>?) which results in token differentiation at any of the default characters.  The tokenization process preserves the delimiter character in the tokenized result.

### ***Examples:***

<b>Specify:</b>	TEXT(delimiter=".",OPERATION="tokenize")
<b>To process the input:</b>	www.inquiracom
<b>And return the value:</b>	www . inquiracom
<b>Specify:</b>	TEXT(OPERATION="tokenize")
<b>To process the input:</b>	The_quick?brown{fox}
<b>And return the value:</b>	The _ quick ? brown { fox }

### The Trim Operation

The Trim operation of the TEXT function removes white space from before and after the string.

**Example:**

```
TEXT(OPERATION="trim")
```

**Input String:**

```
"  This is the Answer  "
```

**Result:**

```
"This is the Answer"
```

### The Unique Operation

The Unique operation of the TEXT function removes duplicate tokens (words) within the input string. The Unique operation has no arguments.

**Example:**

```
TEXT(OPERATION="unique")
```

**Input String:**

```
This is the the Answer
```

**Result:**

```
This is the Answer
```

### The Uppercase Operation

The Uppercase operation of the TEXT function transforms the input string to uppercase characters. The Uppercase operation has no arguments.

**Example:**

```
TEXT(OPERATION="uppercase")
```

**Input String:**

```
This is the Answer
```

**Result:**

```
THIS IS THE ANSWER
```

## USERDATA The User Data Function

---

The USERDATA function returns the value of a configured preference.

### **Syntax:**

You specify the USERDATA function in the form:

```
USERDATA(KEY=<string>)
```

where:

KEY	Specifies the key configured in the application associated with the defined preference. The default key is Date.
-----	--

### **Example:**

Consider a preference that obtains the user's name from a login process:

```
customer_name = Edwin
```

a VIL function call within a Rule action to retrieve that preference value:

```
A->USERDATA(KEY=customer_name)
```

and a managed response that includes the phrase:

```
Thank you for asking, <customer_name>
```

The Rules Engine uses the USERDATA function to transform the variable to the value associated with key `customer_name` in the Preference Service:

```
Thank you for asking, Edwin
```

## DATE The Date Function

---

The DATE function returns the current date in a specified format, which is used to call `java.text.SimpleDateFormat`.

### **Syntax:**

You specify the DATE function in the form:

`DATE(FORMAT=...)`

where:

**FORMAT**            The desired date format. The default format is `MMM d, yyyy`.

### **Example:**

<b><i>Specifying...:</i></b>	<b><i>Results in:</i></b>
<code>DATE(FORMAT=yyyy.MM.dd G 'at' HH:mm:ss z)</code>	2001.07.04 AD at 12:08:56 PDT
<code>DATE(FORMAT=EEE, MMM d, ''yy)</code>	Wed, Jul 4, '01
<code>DATE(FORMAT=h:mm a)</code>	12:08 PM
<code>DATE(FORMAT=hh 'o''clock' a, zzzz)</code>	12 o'clock PM, Pacific Daylight Time
<code>DATE(FORMAT=K:mm a, z)</code>	0:08 PM, PDT
<code>yyyyy.MMMMM.dd GGG hh:mm aaa</code>	02001.July.04 AD 12:08 PM
<code>EEE, d MMM yyyy HH:mm:ss Z</code>	Wed, 4 Jul 2001 12:08:56 -0700

## Chapter 2      The General Intent Library Hierarchy

The General Application Intents are intended for use in applications for which no specific industry-based Intent Library exists.

The sections in this guide are arranged to reflect the structure of the General Intent Library Hierarchy. For each Intent, the document includes information on:

- The parents of the Intent
- A description of its purpose
- Recommendations for configuring the Intent, where available
- Any Concept Parameters defined within the standard Intent Library
- A list of standard questions that the Intent should match, where available

The General Application Intent Library contains the following top-level intents and their children:

- [\*General Application Product Ordering and Sales Support Intents on page 67\*](#)
- [\*General Application Account Support Intents on page 71\*](#)
- [\*General Application Customer Service Inquiry Intents on page 75\*](#)
- [\*General Application Billing Inquiry and Support Intents on page 77\*](#)
- [\*General Application General Company Inquiry Intents on page 82\*](#)
- [\*General Application Website Inquiry Intents on page 85\*](#)

## General Application Product Ordering and Sales

## Support Intents

---

The following hierarchy contains the General Application Product Ordering and Sales Support intents:

*Product Ordering and Sales Support on page 68*

 *Make Order on page 69*

 *Track Order on page 69*

 *Product Rebates Inquiry on page 70*

 *Warranty Inquiry on page 70*

 *Product Insurance Inquiry on page 71*

## Product Ordering and Sales Support

---

### **Description:**

Matches on questions on the company's product ordering and sales process. This intent is also designed to be default match for support questions on that process that do not have a more specific intent in place.

### **Configuration Recommendations:**

This intent allows the configuration of answers that should be applied to all of the intents. Or, if desired, it can also be used to provide answers based on a specific returned parameterized value.

### **Parameters:**

n/a

### **Standard Questions:**

n/a

## Make Order

---

[Product Ordering and Sales Support on page 68](#)

### Make Order

#### **Description:**

Matches on questions from customers looking to order products and/or services, whether online or not. Also matches on questions around the process of ordering those products and services.

#### **Configuration Recommendations:**

Answers should be content directed at customers who are ready to purchase a product or service. Also consider adding content for supporting the customer through the process of purchasing products and services.

#### **Parameters:**

n/a

#### **Standard Questions:**

n/a

## Track Order

---

[Product Ordering and Sales Support on page 68](#)

### Track Order

#### **Description:**

Matches on questions from customers looking to find more about the status of their order (including shipping and delivery status).

#### **Configuration Recommendations:**

Answers should be content directed at customers who are ready to purchase a product or service. Also consider adding content for supporting the customer through the process of purchasing products and services.

#### **Parameters:**

n/a

**Standard Questions:**

n/a

## Product Rebates Inquiry

---

[Product Ordering and Sales Support on page 68](#)

**Product Rebates Inquiry****Description:**

Matches on questions from customers looking to find more information on product rebates, including downloading rebate application forms, rebate credits status and rebates available.

**Configuration Recommendations:**

Answers should be content directed at customers who are looking to find out how to apply for rebates. Also include content on tracking rebate credits and how to download rebate forms.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Warranty Inquiry

---

[Product Ordering and Sales Support on page 68](#)

**Warranty Inquiry****Description:**

Matches on questions from customers looking to find more information on product warranties, including the various warranty offerings available for a product, and how to use the warranty to repair, refund or replace previously purchased product.

**Configuration Recommendations:**

Answers should be content directed at customers who are looking to find more information on product warranties, including available offerings, how to make use of them, and the warranty details for a previously purchased product.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Product Insurance Inquiry

---

[Product Ordering and Sales Support on page 68](#)**Product Insurance Inquiry****Description:**

Matches on questions from customers looking to find more information on product insurance, including the various insurance offerings available for a product, and how to use the insurance to repair, refund or replace previously purchased product.

**Configuration Recommendations:**

Matches on questions from customers looking to find more information on product insurance, including the various insurance offerings available for a product, and how to use the insurance to repair, refund or replace previously purchased product.

**Parameters:**

n/a

**Standard Questions:**

n/a

## General Application Account Support Intents

---

The following hierarchy contains the General Application Account Support Intents:

[Account Support on page 72](#)[Update Account Profile on page 72](#)[Close Account on page 73](#)[Account Information Inquiry on page 73](#)[Account Setup Support on page 74](#)

[Account Sign In Help on page 74](#)

## Account Support

---

### **Description:**

Matches on support questions from customers looking for assistance in managing their accounts. This intent is also designed to be default match for support questions on account management that do not have a more specific intent in place.

### **Configuration Recommendations:**

Answer configuration for this intent should be to provide top level information (or links) on all online account support services available. Also use this intent for setting general help and other support information, and guidelines for browsing through the account support pages.

### **Parameters:**

n/a

### **Standard Questions:**

n/a

## Update Account Profile

---

[Account Support on page 72](#)

**User Account Profile**

### **Description:**

Matches on support questions from customers looking to update their account information and/or preferences; for example, address, email.

### **Configuration Recommendations:**

Answer should be contents or links directed at customers looking to update their account profile. Consider also providing content that assists the customers through that process.

### **Parameters:**

n/a

**Standard Questions:**

n/a

**Close Account**

---

[Account Support on page 72](#)**Close Account****Description:**

Matches on questions on customers who are looking to close their account(s). This intent will only match questions where the concept "account" has been identified.

**Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking to close their account(s). Also consider providing answers for customers who are only looking to terminate their billing account, or components of their plans/accounts.

**Parameters:**

n/a

**Standard Questions:**

n/a

**Account Information Inquiry**

---

[Account Support on page 72](#)**Account Information Inquiry****Description:**

Matches on questions on customers who are looking information about their accounts, including confirming existing plans and services under contract, phone numbers, etc.

**Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking for detail information on their account(s). Consider providing them with links to accessing their account information, service plan contracts in place, etc.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Account Setup Support

---

[Account Support on page 72](#)

**Account Setup Support**

**Description:**

Matches on questions on customers who are looking to setup their accounts online. It also matches on customers looking for support during the process of opening up an online account.

**Configuration Recommendations:**

Answer configuration for this intent should be content directed at supporting the account setup process. Consider including links to web pages where the customer can open an account online (or an online account). Also consider adding links for customer needing sign in support in a secondary portlet.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Account Sign In Help

---

[Account Support on page 72](#)

**Account Sign In Help**

**Description:**

Matches on questions on customers who are need help login in to their accounts, including errors in the sign-in process, password resets, etc.

**Configuration Recommendations:**

Answer configuration for this intent should be content directed at supporting the account sign in process. Consider including links to the sign up page or tool. Also consider adding links for customer looking to setup their accounts in a secondary portlet.

**Parameters:**

n/a

**Standard Questions:**

n/a

## General Application Customer Service Inquiry Intents

---

The following hierarchy contains the General Customer Service Inquiry Intents:

[Customer Service Inquiry on page 75](#)

↳ [Contact Customer Service on page 76](#)

↳ [Escalate Customer Help on page 76](#)

## Customer Service Inquiry

---

**Description:**

Matches on support questions from customers looking for assistance from or information about the customer service department. This intent and its children do not match on questions specifically at getting product, account or billing support (see other intents for these). Rather, they are designed to match questions where the customer is looking to communicate to the customer department. This intent is also designed to be default match for support questions on customer services that do not have a more specific intent in place.

**Configuration Recommendations:**

Answer configuration for this intent should be to provide top level information (or links) on communicating with Customer Services. Also use this intent for setting general help and other support information, and guidelines for browsing through the customer services pages.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Contact Customer Service

---

[Customer Service Inquiry on page 75](#)

**Contact Customer Service**

**Description:**

Matches on support questions from customers looking to contact customer services through available communication channels (email, chat, phone, etc.)

**Configuration Recommendations:**

Answer configuration for this intent should be to provide all available means for communicating with customer services. Consider also providing information in contacting other departments (e.g. billing, system administration). Also consider re-displaying the available self-services tools and support content information.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Escalate Customer Help

---

[Customer Service Inquiry on page 75](#)

**Escalate Customer Help**

**Description:**

Matches on questions where the customer is looking to escalate an issue within customer services. It also matches on questions that were deemed to require intervention by a customer services representative; for example, the customer is identified as frustrated or unhappy with the services they have received online or otherwise.

**Configuration Recommendations:**

Answers configuration for this intent should be to provide the means for customers to reach a live representative or to provide them with an escalation vehicle or tool. Carefully consider ensuring that the content presented is appropriate with the state of mind of the customer and that the customer is not presented with content that may be interpreted as uncaring and/or ineffective.

**Parameters:**

n/a

**Standard Questions:**

n/a

## General Application Billing Inquiry and Support Intents

---

The following hierarchy contains the General Application Billing and Support Intents:

[Billing Inquiry and Support on page 77](#)

☐ [Payment Options and Payment Support on page 78](#)

☐ [Dispute Bill on page 79](#)

☐ [Balance Inquiry on page 79](#)

☐ [View Bill Details on page 80](#)

☐ [Understanding a Bill on page 80](#)

☐ [Request Bill Copy on page 81](#)

☐ [Billing Refund Inquiry on page 82](#)

## Billing Inquiry and Support

---

**Description:**

Matches on support questions from customers looking for assistance in managing their accounts. This intent is also designed to be default match for support questions on account management that do not have a more specific intent in place.

**Configuration Recommendations:**

Answer configuration for this intent should be to provide top level information (or links) on all online account support services available. Also use this intent for setting general help and other support information, and guidelines for browsing through the account support pages.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Payment Options and Payment Support

---

[Billing Inquiry and Support on page 77](#)

**Payment Options and Payment Support**

**Description:**

Matches on support questions from customers looking for assistance in making payments and/or changing and verifying their payment schedule or options.

**Configuration Recommendations:**

Answer configuration for this intent should be to provide information on available options, how to configure/manage their payment schedules, and how to make payments using these options. Consider including additional customer service contact information should the customer need further assistance with their questions.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Dispute Bill

---

[Billing Inquiry and Support on page 77](#)

### Dispute Bill

#### **Description:**

Matches on questions from customers who are disputing the charges or believe there are discrepancies on their bills.

#### **Configuration Recommendations:**

Answer configuration for this intent should be to provide information on the process for disputing a billing charge and/or reporting discrepancies on their bills. Consider providing content describing how to read a bill, and the explanation for the different fees and charges.

#### **Parameters:**

n/a

#### **Standard Questions:**

n/a

## Balance Inquiry

---

[Billing Inquiry and Support on page 77](#)

### Balance Inquiry

#### **Description:**

Matches on questions from customers who are looking to find the current balance on their account. This intent does not match on questions on view or understanding a bill or looking for a copy of a current bill (see other intents for these questions).

#### **Configuration Recommendations:**

Answer configuration for this intent should be to provide links for online accessing the balance on their accounts. Consider providing links for setting up for a online account and for signing in to an existing account. If possible, use the profile information to automatically provide the balance, if the customer has already logged in.

#### **Parameters:**

n/a

### **Standard Questions:**

n/a

## View Bill Details

---

[Billing Inquiry and Support on page 77](#)

**View Bill Details**

### **Description:**

Matches on questions from customers who are looking to view the details of a current bill, including the different credits, fees and charges. This intent will not match on questions about understanding the bill, checking the current balance or disputing a bill (see other intents for those questions).

### **Configuration Recommendations:**

Answer configuration for this intent should be to provide links for online accessing the bill details linked to their accounts. Consider providing links for setting up for a online account and for signing in to an existing account, so they can view the bill online. If possible, use the profile information to automatically bring up the bill details, if the customer has already logged in.

### **Parameters:**

n/a

### **Standard Questions:**

n/a

## Understanding a Bill

---

[Billing Inquiry and Support on page 77](#)

**Understanding a Bill**

### **Description:**

Matches on questions from customers who are looking to understanding the details of a bill, including the different credits, fees and charges. This intent will not match on questions about viewing the bill or disputing a bill (see other intents for those questions).

**Configuration Recommendations:**

Answer configuration for this intent should be to provide information on how to read a bill, and the explanation for the different fees and charges. Also consider adding information to the process for disputing a billing charge and/or reporting discrepancies on their bills.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Request Bill Copy

---

[Billing Inquiry and Support on page 77](#)

**Request Bill Copy**

**Description:**

Matches on questions from customers who are looking for a copy of their current or previous bills.

**Configuration Recommendations:**

Answer configuration for this intent should be to provide information on how to request for a copy of a current or a previous bill. Consider also providing links and/or instructions to view a current or previous bill online.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Billing Refund Inquiry

---

[Billing Inquiry and Support on page 77](#)

### Billing Refund Inquiry

#### **Description:**

Matches on questions from customers who are looking for a status on receiving a refund or credit or how to apply for a refund or credit.

#### **Configuration Recommendations:**

Answer configuration for this intent should be to provide information on how to request for a copy of a current or a previous bill. Consider also providing links and/or instructions on the process for disputing a billing charge and/or reporting discrepancies on their bills.

#### **Parameters:**

n/a

#### **Standard Questions:**

n/a

## General Application General Company Inquiry Intents

---

The following hierarchy contains the General Application General Company Inquiry Intents:

[General Company Inquiry on page 83](#)

[Office Location Inquiry on page 83](#)

[Job Employment Inquiry on page 84](#)

[Privacy Inquiry on page 84](#)

[Company Business Hours Inquiry on page 85](#)

## General Company Inquiry

---

### **Description:**

Matches on questions from customers looking for general corporate information about the company (rather than products or services). This intent is also designed to be default match for questions on the company that do not have a more specific intent in place.

### **Configuration Recommendations:**

Answer configuration for this intent should be to provide top level information (or links) on the company; for example, location, management, contact information, investor relations, human resources, partners and affiliates. Also use this intent for setting general help and other support information, and guidelines for browsing through these pages.

### **Parameters:**

n/a

### **Standard Questions:**

n/a

## Office Location Inquiry

---

[General Company Inquiry on page 83](#)

**Office Location Inquiry**

### **Description:**

Matches on questions from customers looking for location information on the company's offices, branches, stores or dealerships.

### **Configuration Recommendations:**

Answer configuration for this intent should be to provide tools or content for locating the company's various offices, branches, dealership and/or stores. Consider also providing links for other important addresses and phone numbers.

### **Parameters:**

n/a

### **Standard Questions:**

n/a

## Job Employment Inquiry

---

[General Company Inquiry on page 83](#)

### Job Employment Inquiry

#### **Description:**

Matches on questions from individuals looking for employment information or looking to apply for a job opening.

#### **Configuration Recommendations:**

Answer configuration for this intent should be to provide links or tools for employment information or the job application process. Consider providing links to job openings descriptions and to general information on recruiting and/or human resources.

#### **Parameters:**

n/a

#### **Standard Questions:**

n/a

## Privacy Inquiry

---

[General Company Inquiry on page 83](#)

### Privacy Inquiry

#### **Description:**

Matches on questions from individuals looking for information on the company's policies around data privacy and security. This intent does not match to product related privacy questions.

#### **Configuration Recommendations:**

Answer configuration for this intent should be to provide information around the company's policies for safe-guarding customer information and protecting the privacy of their customers. Consider also providing content around the company's position around using customer information for marketing purposes and processes for opting out from these programs.

#### **Parameters:**

n/a

**Standard Questions:**

n/a

**Company Business Hours Inquiry**

---

[General Company Inquiry on page 83](#)**Company Business Hours Inquiry****Description:**

Matches on questions from individuals looking for company's business hours (including those from specific departments, such as billing and customer services).

**Configuration Recommendations:**

Answer configuration for this intent should be to provide business hours information (workdays, weekends, holidays) for the company and all relevant departments. Consider also adding contact information and the various ways/means available for getting support and services.

**Parameters:**

n/a

**Standard Questions:**

n/a

**General Application Website Inquiry Intents**

---

The following hierarchy contains the General Application Website Inquiry Intents:

[Website Inquiry on page 86](#)[Website Spanish Language Support on page 86](#)[Website Sitemap Inquiry on page 87](#)

## Website Inquiry

---

### **Description:**

Matches on questions from customers looking for general assistance with using the company website. It will not match questions from customers looking for support on using the company products and services (e.g., account sign in). See other intents for those questions. This intent is also designed to be default match for questions on the website that do not have a more specific intent in place.

### **Configuration Recommendations:**

Answer configuration for this intent should be to provide top-level information around how to use the company's website and to deal with the most common errors encountered in using the website. Consider including sign-in help information and other online transactional support content for the more frequent questions; for example, online banking, online payment, etc., as content on secondary portlets.

### **Parameters:**

n/a

### **Standard Questions:**

n/a

## Website Spanish Language Support

---

[Website Inquiry on page 86](#)

**Website Spanish Language Support**

### **Description:**

Matches on questions from customers looking for spanish content or support on the website.

### **Configuration Recommendations:**

Answer configuration for this intent should be to provide links or information on obtaining spanish content or support, whether available on the website or other channels.

### **Parameters:**

n/a

### **Standard Questions:**

n/a

## Website Sitemap Inquiry

---

[Website Inquiry on page 86](#)

### Website Sitemap Inquiry

#### **Description:**

Matches on questions from customers looking a map of the website. This intent matches only questions where the customer explicitly asked for the website map and not for the specific location of a particular content set.

#### **Configuration Recommendations:**

Answer configuration for this intent should be to provide links to the site map.

#### **Parameters:**

n/a

#### **Standard Questions:**

n/a

## General Application Intent Parameters

---

The following parameters are used within the Automotive intents:

[Products Parameter on page 87](#)

[Your\\_Company\\_Name Parameter on page 88](#)

### Products Parameter

---

#### **Used In:**

[Product Ordering and Sales Support on page 68](#)

[Product Rebates Inquiry on page 70](#)

#### **Description:**

The range of the products offered by the company.

**Root Concept:**

noun.artifact:merchandise

Your\_Company\_Name Parameter

---

**Used In:**

 [General Company Inquiry](#) on page 83

**Description:**

Name of company and associated synonyms.

**Root Concept:**

noun.customerhelp:Your\_Company\_Name

## Chapter 3 The Automotive Intent Library Hierarchy

The sections in this guide are arranged to reflect the structure of the Telecommunications Intent Library Hierarchy. For each Intent, the document includes information on:

- The parents of the Intent
- A description of its purpose
- Recommendations for configuring the Intent, where available
- Any Concept Parameters defined within the standard Intent Library
- A list of standard questions that the Intent should match, where available

The Automotive Intent Library contains the following top-level Intents and their children:

- └─ [Automotive Product Research Intents on page 89](#)
- └─ [Automotive Marketing Program Intents on page 105](#)
- └─ [Automotive Financing and Sales Support Intents on page 108](#)
- └─ [Automotive Support and Maintenance Intents on page 110](#)
- └─ [Automotive Customer Service Inquiry Intents on page 115](#)
- └─ [Automotive General Company Inquiry Intents on page 116](#)
- └─ [Automotive Website Inquiry Intents on page 118](#)

### Automotive Product Research Intents

---

The following hierarchy describes the Automotive Product Research intents:

[Product Research on page 91](#)

-  [Vehicle Adaptive Equipment on page 92](#)
-  [Competitive Comparison on page 92](#)
-   [Concept Vehicle Inquiry on page 93](#)
-  [Fuel Efficiency Research on page 93](#)
-   [Environmental Impact Research on page 94](#)
-  [Model Price Research on page 94](#)
-   [Used Vehicle Research on page 95](#)
-  [Certified Vehicle Research on page 95](#)
-   [Vehicle Engineering Research on page 96](#)
-  [Vehicle Media Information on page 96](#)
-   [Model Picture Research on page 97](#)
-  [Vehicle Brochure Request on page 97](#)
-   [Vehicle Configuration Research on page 98](#)

## Product Research

---

### **Description:**

Matches on research questions on the company's products and service offerings. This intent is also designed to be the default match for research questions on products that do not have a more specific intent in place.

### **Parameters:**

[Accessory Parameter on page 121](#)

[Car Type Parameter on page 121](#)

[Competitor Make Parameter on page 122](#)

[Competitor Model Parameter on page 123](#)

[Concept Car Parameter on page 123](#)

[Engineering Feature Parameter on page 124](#)

[Forthcoming Model Parameter on page 125](#)

[Model Parameter on page 126](#)

[Option Package Parameter on page 127](#)

[Specification Parameter on page 128](#)

[Standard Option Parameter on page 129](#)

[Trim Parameter on page 129](#)

[Year Parameter on page 130](#)

### **Standard Questions:**

n/a

## Vehicle Adaptive Equipment

---

[Product Research on page 91](#)

### Vehicle Adaptive Equipment

#### **Description:**

Matches on questions about access to the company's products and services for people with disabilities or people with restricted accessibility.

#### **Parameters:**

n/a

#### **Standard Questions:**

n/a

## Competitive Comparison

---

[Product Research on page 91](#)

### Competitive Comparison

#### **Description:**

Matches questions about other car brands or models, as well as questions directly asking for a comparison between the company's product line and that of competitors.

#### **Parameters:**

[Competitor Make Parameter on page 122](#)

[Competitor Model Parameter on page 123](#)

#### **Standard Questions:**

n/a

## Concept Vehicle Inquiry

---

[Product Research on page 91](#)

### Concept Vehicle Inquiry

#### **Description:**

Matches inquiries about concept cars or other vehicles that have been announced by the company, or that are related to the company's future offerings. Concept cars should be defined as future models not scheduled for production in the forthcoming year. For the latter types of questions, use [Vehicle Model Research on page 101](#).

#### **Parameters:**

[Concept Car Parameter on page 123](#)

#### **Standard Questions:**

n/a

## Fuel Efficiency Research

---

[Product Research on page 91](#)

### Fuel Efficiency Research

#### **Description:**

Matches questions aimed at realizing the savings in fuel consumption associated with a model, model type for the current or forthcoming year. Also covers a non-model/year specific inquiry, and inquiries about low-fuel consumption type of cars, such as hybrid vehicles. This intent does not include questions expressing concerns about the environment or energy policies, nor questions about mileage that don't reflect an interest in reducing cost of ownership.

#### **Parameters:**

n/a

#### **Standard Questions:**

n/a

## Environmental Impact Research

---

[Product Research on page 91](#)

### Environmental Impact Research

#### **Description:**

Matches questions about environmental impact, such as emissions control, "clean" cars, or types of engines that are designed to minimize pollution, such as fuel cell, electric engines, etc. The focus of these questions is not on fuel economy but on environmental concerns and/or energy policies.

#### **Parameters:**

n/a

#### **Standard Questions:**

## Model Price Research

---

[Product Research on page 91](#)

### Model Price Research

#### **Description:**

Matches requests for pricing information, whether regarding MSRP, price ranges, or inexpensive models. This intent is designed for currently marketed models only.

#### **Parameters:**

[Model Parameter on page 126](#)

[Year Parameter on page 130](#)

#### **Standard Questions:**

n/a

## Used Vehicle Research

---

[Product Research on page 91](#)

**Used Vehicle Research**

### **Description:**

Matches on research questions about car models manufactured in any year prior to the current year. It is distinct from [Certified Vehicle Research on page 95](#), as it does not convey an interest in the certification process.

### **Parameters:**

[Model Parameter on page 126](#)

[Previous Year Parameter on page 128](#)

[Non-Certified Year Parameter on page 127](#)

[Certified Year Parameter on page 122](#)

### **Standard Questions:**

n/a

## Certified Vehicle Research

[Product Research on page 91](#)

[Used Vehicle Research on page 95](#)

**Certified Vehicle Research**

### **Description:**

Matches on all research questions pertaining to car models manufactured in years prior to the current year, and which are covered by the company's certified car program(s). It is only matched when concepts clustered around "certified" and/or "pre-owned" are in the question; when these concepts are not present, [Vehicle Model Research on page 101](#) is matched instead.

### **Parameters:**

[Model Parameter on page 126](#)

[Certified Year Parameter on page 122](#)

## **Standard Questions:**

n/a

## Vehicle Engineering Research

---

[Product Research on page 91](#)

**Vehicle Engineering Research**

## **Description:**

Matches on questions about the company's distinctive engineering features and/or innovations in the automotive engineering field. Since these are a specific set of features, this intent differs from [Vehicle Specs Research on page 104](#). Also, it does not apply to questions about concept cars, which instead match [Concept Vehicle Inquiry on page 93](#).

## **Parameters:**

[Engineering Feature Parameter on page 124](#)

## **Standard Questions:**

n/a

## Vehicle Media Information

---

[Product Research on page 91](#)

**Vehicle Media Information**

## **Description:**

Matches questions about the company's products (and possibly, image) in the media. This is the parent intent of more targeted inquiries about model pictures, videos, or printed promotional materials.

## **Parameters:**

[Model Parameter on page 126](#)

[Car Type Parameter on page 121](#)

[Year Parameter on page 130](#)

## **Standard Questions:**

n/a

## Model Picture Research

[Product Research on page 91](#)

 [Vehicle Media Information on page 96](#)

 **Model Picture Research**

### **Description:**

Matches requests for pictures (including videos) of the currently available (or forthcoming) models. It specifies parameters for model, model type, and current or forthcoming year.

### **Parameters:**

[Model Parameter on page 126](#)

[Car Type Parameter on page 121](#)

[Year Parameter on page 130](#)

### **Standard Questions:**

n/a

## Vehicle Brochure Request

---

[Product Research on page 91](#)

 [Vehicle Media Information on page 96](#)

 **Vehicle Brochure Request**

### **Description:**

Matches questions about obtaining a brochure for the current or forthcoming model. It also supports a generic question. This intent is distinct from [Model Picture Research on page 97](#).

### **Parameters:**

[Model Parameter on page 126](#)

[Year Parameter on page 130](#)

### **Standard Questions:**

n/a

## Vehicle Configuration Research

---

[Product Research on page 91](#)

### Vehicle Configuration Research

#### **Description:**

This is the parent of the [Vehicle Accessory Research on page 99](#), [Model Exterior Color Research on page 99](#), [Model Interior Color Research on page 100](#) and [Vehicle Option Research on page 100](#) intents.

#### **Parameters:**

[Model Parameter on page 126](#)

[Year Parameter on page 130](#)

[Accessory Parameter on page 121](#)

[Standard Option Parameter on page 129](#)

[Option Package Parameter on page 127](#)

#### **Standard Questions:**

n/a

## Vehicle Accessory Research

[Product Research on page 91](#)

[Vehicle Configuration Research on page 98](#)

**Vehicle Accessory Research**

### **Description:**

Matches all questions concerning accessories. Accessories are defined by the associated concept tree, and cover broadly dealer-installed car components (as opposed to factory-installed ones, which are options). This intent also applies to a generic request.

### **Parameters:**

[Model Parameter on page 126](#)

[Year Parameter on page 130](#)

[Accessory Parameter on page 121](#)

### **Standard Questions:**

n/a

## Model Exterior Color Research

[Product Research on page 91](#)

[Vehicle Configuration Research on page 98](#)

**Model Exterior Color Research**

### **Description:**

Matches questions about available body color choices for a particular model, and also applies to generic questions about colors.

### **Parameters:**

[Model Parameter on page 126](#)

[Year Parameter on page 130](#)

### **Standard Questions:**

n/a

## Model Interior Color Research

[Product Research on page 91](#)

 [Vehicle Configuration Research on page 98](#)

 **Model Interior Color Research**

### **Description:**

Matches questions about available interior color choices for a particular model, and also applies to generic questions about interior colors. Questions about leather seats (that are not about the color of the leather) are covered by [Vehicle Option Research on page 100](#).

### **Parameters:**

[Model Parameter on page 126](#)

[Year Parameter on page 130](#)

### **Standard Questions:**

n/a

## Vehicle Option Research

[Product Research on page 91](#)

 [Vehicle Configuration Research on page 98](#)

 **Vehicle Option Research**

### **Description:**

Matches questions about vehicle options. These are defined in the associated concept tree. Broadly, an option is a factory-installed component that is selected during the sales process.

### **Parameters:**

[Model Parameter on page 126](#)

[Year Parameter on page 130](#)

[Standard Option Parameter on page 129](#)

[Option Package Parameter on page 127](#)

### **Standard Questions:**

n/a

## Vehicle Model Line Research

---

[Product Research on page 91](#)

### Vehicle Model Line Research

#### **Description:**

Matches questions that pertain to the entire model line. If a model is specified, then [Vehicle Model Research on page 101](#) matches instead.

#### **Parameters:**

[Brand Parameter on page 121](#)

#### **Standard Questions:**

n/a

## Vehicle Model Research

---

[Product Research on page 91](#)

### Vehicle Model Research

#### **Description:**

Matches on research questions pertaining to models available on the domestic market. This intent usually applies only to models available in the current or forthcoming year.

#### **Parameters:**

[Current Model Parameter on page 123](#)

[Discontinued Model Parameter on page 124](#)

[Year Parameter on page 130](#)

#### **Standard Questions:**

n/a

## Vehicle Model Trim Research

[Product Research on page 91](#)

[Vehicle Model Research on page 101](#)

**Vehicle Model Trim Research**

### **Description:**

Similar to [Vehicle Model Research on page 101](#), but matches on research questions about car models where only the trim is specified.

### **Parameters:**

[Trim Parameter on page 129](#)

### **Standard Questions:**

n/a

## Forthcoming Model Research

[Product Research on page 91](#)

 [Vehicle Model Research on page 101](#)

 **Forthcoming Model Research**

### **Description:**

Matches on research questions pertaining to models that will be available on the domestic market in the near future.

### **Parameters:**

[Forthcoming Model Parameter on page 125](#)

[Year Parameter on page 130](#)

### **Standard Questions:**

n/a

## Vehicle Safety Research

---

[Product Research on page 91](#)

 **Vehicle Safety Research**

### **Description:**

Matches questions about the overall safety features associated with a model or model type. Also covers a non-model/year specific inquiry. This intent does not cover questions about parts, specs or accessories related to safety, such as air bags, brakes, ABS, etc.

### **Parameters:**

[Model Parameter on page 126](#)

[Car Type Parameter on page 121](#)

[Year Parameter on page 130](#)

### **Standard Questions:**

n/a

## Vehicle Specs Research

---

[Product Research on page 91](#)

**Vehicle Specs Research**

### **Description:**

Matches questions about car specifications. Specifications are defined in the "automotive spec" concept tree. Covers also a generic inquiry.

### **Parameters:**

[Model Parameter on page 126](#)

[Year Parameter on page 130](#)

[Specification Parameter on page 128](#)

### **Standard Questions:**

n/a

## Towing Capacity Specs Research

[Product Research on page 91](#)

[Vehicle Specs Research on page 104](#)

**Towing Capacity Specs Research**

### **Description:**

Matches questions about towing capacity. This is a child of [Vehicle Specs Research on page 104](#); when no towing capacity information is available, this intent will degrade (match its parent) to the latter.

### **Parameters:**

[Model Parameter on page 126](#)

[Year Parameter on page 130](#)

### **Standard Questions:**

n/a

## Vehicle Type Research

---

[Product Research on page 91](#)

**Vehicle Type Research**

### **Description:**

Matches on research questions pertaining to categories of models for the current (or forthcoming) year. If a car model is specified, then the [Vehicle Model Research on page 101](#) intent will match instead. Model types typically include sports-utility-vehicles, vans, minivans, trucks, pickup-trucks; but may also include convertibles, sports-cars, sedans, coupes, or wagons.

### **Parameters:**

[Car Type Parameter on page 121](#)

### **Standard Questions:**

n/a

## Automotive Marketing Program Intents

---

The following hierarchy describes the Automotive Marketing Program intents:

[Marketing Programs on page 105](#)

[Merchandise Research on page 106](#)

[Racing Sponsorships Inquiry on page 106](#)

[Special Offer Inquiry on page 107](#)

[Vehicle Show Information on page 107](#)

## Marketing Programs

---

### **Description:**

Parent intent of the marketing research intents, such as [Merchandise Research on page 106](#), [Racing Sponsorships Inquiry on page 106](#), [Special Offer Inquiry on](#)

page 107, and [Vehicle Show Information on page 107](#). This intent matches questions about marketing and promotions that are not covered by these more specific intents.

**Parameters:**

[Merchandise Parameter on page 125](#)

[Model Parameter on page 126](#)

[Year Parameter on page 130](#)

**Standard Questions:**

n/a

## Merchandise Research

---

[Marketing Programs on page 105](#)

**Merchandise Research**

**Description:**

Matches inquiries about brand merchandise or merchandise bearing the brand logo. A merchandise concept tree is defined to support this intent. It covers clothing, personal accessories, screen-savers, games, etc.

**Parameters:**

[Merchandise Parameter on page 125](#)

**Standard Questions:**

n/a

## Racing Sponsorships Inquiry

---

[Marketing Programs on page 105](#)

**Racing Sponsorships Inquiry**

**Description:**

Matches all questions about the company's involvement in racing and other automotive sporting events, and by extension, about the sporting events themselves and the car racing world.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Special Offer Inquiry

---

[Marketing Programs on page 105](#)**Special Offer Inquiry****Description:**

Matches inquiries about incentive sales programs, whether targeted at types of customers, models, and/or years.

**Parameters:**[Special Offer Parameter on page 128](#)**Standard Questions:**

n/a

## Vehicle Show Information

---

[Marketing Programs on page 105](#)**Vehicle Show Information****Description:**

Matches questions regarding vehicle shows.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Automotive Financing and Sales Support Intents

---

The following hierarchy describes the Automotive Financing and Sales Support intents:

[Financing and Sales Support on page 108](#)

└ [Trade In Sales Inquiry on page 108](#)

└ [Vehicle Financing Sales Inquiry on page 109](#)

└ [Vehicle Leasing Research on page 109](#)

└ [Vehicle Warranty Research on page 110](#)

└ [Vehicle Extended Warranty Research on page 110](#)

## Financing and Sales Support

---

### **Description:**

Parent intent that covers all sales support questions dealing with financial contracts between the company and the customer. Includes financing, leasing, trade-ins, warranty and extended warranty.

### **Parameters:**

n/a

### **Standard Questions:**

n/a

## Trade In Sales Inquiry

---

[Financing and Sales Support on page 108](#)

└ **Trade In Sales Inquiry**

### **Description:**

Matches questions about whether trade-in programs are available, or about the value of a vehicle as trade-in.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Vehicle Financing Sales Inquiry

---

[Financing and Sales Support on page 108](#)

**Vehicle Financing Sales Inquiry****Description:**

Matches questions about car loans and vehicle financing, including how to calculate payments given a certain model. This intent is distinct from [Vehicle Leasing Research on page 109](#).

**Parameters:**

n/a

**Standard Questions:**

n/a

## Vehicle Leasing Research

---

[Financing and Sales Support on page 108](#)

**Vehicle Leasing Research****Description:**

Matches questions about leasing, rate comparisons with respect to financing, terms and conditions of the lease, total cost of ownership, etc.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Vehicle Warranty Research

---

[Financing and Sales Support on page 108](#)

### Vehicle Warranty Research

#### **Description:**

Matches questions about warranty. This intent does not apply to part- or accessory-warranty questions. It is also distinct from extended warranty and maintenance contract inquiries, which will match [Vehicle Extended Warranty Research on page 110](#).

#### **Parameters:**

n/a

#### **Standard Questions:**

n/a

## Vehicle Extended Warranty Research

[Financing and Sales Support on page 108](#)

[Vehicle Warranty Research on page 110](#)

### Vehicle Extended Warranty Research

#### **Description:**

Matches questions about extended warranty and maintenance contracts.

#### **Parameters:**

n/a

#### **Standard Questions:**

n/a

## Automotive Support and Maintenance Intents

---

The following hierarchy describes the Automotive Support and Maintenance intents:

[Owner Support and Maintenance on page 111](#)

-  [Used Vehicle Market Value Support on page 111](#)
-  [Owner Manual Request on page 112](#)
-  [Radio Security Code Support on page 112](#)
-  [Scheduled Maintenance Support on page 113](#)
-  [Scheduled Maintenance Support on page 113](#)
-  [Vehicle Recall Inquiry on page 114](#)
-  [Vehicle Troubleshooting Support on page 114](#)

## Owner Support and Maintenance

---

### **Description:**

This is the parent intent for requests for information or support from owners, including [Scheduled Maintenance Support on page 113](#), [Vehicle Recall Inquiry on page 114](#), [Radio Security Code Support on page 112](#), [Owner Manual Request on page 112](#), and [Scheduled Maintenance Support on page 113](#).

### **Parameters:**

-  [Model Parameter on page 126](#)
- [Year Parameter on page 130](#)
- [Maintenance Activity Parameter on page 125](#)
- [Part Parameter on page 127](#)

### **Standard Questions:**

## Used Vehicle Market Value Support

---

- [Owner Support and Maintenance on page 111](#)
-  **Used Vehicle Market Value Support**

### **Description:**

Matches questions aimed at finding out the current market value of a used vehicle. It is distinct from [Trade In Sales Inquiry on page 108](#), which is about determining the

availability of trade-in programs and/or the value of a used car as a trade-in, and from [Model Price Research on page 94](#), which is about the current year's models.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Owner Manual Request

---

[Owner Support and Maintenance on page 111](#)

**Owner Manual Request**

**Description:**

Matches questions regarding the availability of owner manuals. This intent is distinct both from a request for specifications, and for a brochure or photo pamphlet.

**Parameters:**

[Model Parameter on page 126](#)

[Year Parameter on page 130](#)

**Standard Questions:**

n/a

## Radio Security Code Support

---

[Owner Support and Maintenance on page 111](#)

**Radio Security Code Support**

**Description:**

Matches questions about codes that can be entered through the radio or another communication device to disable security devices that control car components.

**Parameters:**

n/a

**Standard Questions:**

n/a

**Scheduled Maintenance Support**

---

[Owner Support and Maintenance on page 111](#)**Scheduled Maintenance Support****Description:**

Matches on questions about scheduled maintenance activities and intervals. In addition to the generic question, this intent covers a specific set of service activities, making it distinct from [Vehicle Troubleshooting Support on page 114](#).

**Parameters:**[Model Parameter on page 126](#)[Year Parameter on page 130](#)[Maintenance Activity Parameter on page 125](#)**Standard Questions:**

n/a

**Vehicle Parts Research**

---

[Owner Support and Maintenance on page 111](#)**Vehicle Parts Research****Description:**

Matches all questions concerning car parts. Parts are defined via the "automotive part" concept tree. They are automotive replacement components that can be purchased individually through a dealership. Parts are distinct from accessories and options, as these are not replacement components.

**Parameters:**[Model Parameter on page 126](#)[Year Parameter on page 130](#)[Part Parameter on page 127](#)

**Standard Questions:**

n/a

## Vehicle Recall Inquiry

---

[Owner Support and Maintenance on page 111](#)

**Vehicle Recall Inquiry****Description:**

Matches questions about recalls.

**Parameters:**

[Model Parameter on page 126](#)

[Year Parameter on page 130](#)

**Standard Questions:**

n/a

## Vehicle Troubleshooting Support

---

[Owner Support and Maintenance on page 111](#)

**Vehicle Troubleshooting Support****Description:**

Matches on all questions about repair, trouble-shooting, and diagnostics, which are distinct from questions about scheduled maintenance.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Automotive Customer Service Inquiry Intents

---

The following hierarchy describes the Automotive Customer Service intents:

[Model Price Research on page 94](#)

↳ [Contact Customer Service on page 115](#)

↳ [Escalate Customer Service on page 116](#)

## Customer Service Inquiry

---

### **Description:**

Matches on support questions from customers looking for assistance from or information about the customer service department. This intent and its children are designed to match questions about communicating with the customer service department. It is also designed as the default match for customer service support questions that do not match a more specific intent. This intent and its children do not match on questions specifically about product, account, or billing support.

### **Parameters:**

n/a

### **Standard Questions:**

n/a

## Contact Customer Service

---

[Model Price Research on page 94](#)

↳ **Contact Customer Service**

### **Description:**

Matches support questions from customers desiring to contact customer services through available communication channels (email, chat, phone, etc.)

### **Parameters:**

n/a

**Standard Questions:**

n/a

## Escalate Customer Service

---

[Model Price Research on page 94](#)

**Escalate Customer Service**

**Description:**

Matches on questions about escalating an issue within customer services. It also matches on questions that require intervention by a customer services representative (for example, if the customer uses language that indicates frustration or dissatisfaction with the services they have received online or otherwise).

**Parameters:**

n/a

**Standard Questions:**

n/a

## Automotive General Company Inquiry Intents

---

The following hierarchy describes the Automotive General Company intents:

[General Company Inquiry on page 116](#)

[Dealer Locator Inquiry on page 117](#)

[Job Employment Inquiry on page 117](#)

## General Company Inquiry

---

**Description:**

Matches on questions from customers looking for general corporate information (rather than products or services). This intent is also designed as the default match for questions about the company that do not match a more specific intent.

**Parameters:**

[State Parameter on page 129](#)

[City Parameter on page 122](#)

[Zip Code Parameter on page 131](#)

**Standard Questions:**

n/a

## Dealer Locator Inquiry

---

[General Company Inquiry on page 116](#)

**Dealer Locator Inquiry****Description:**

Matches inquiries about locations of dealerships and service locations.

**Parameters:**

[State Parameter on page 129](#)

[City Parameter on page 122](#)

[Zip Code Parameter on page 131](#)

**Standard Questions:**

n/a

## Job Employment Inquiry

---

[General Company Inquiry on page 116](#)

**Job Employment Inquiry****Description:**

Matches on requests for employment or job application information.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Automotive Website Inquiry Intents

---

The following hierarchy contains the Automotive Website Inquiry intents:

[Website Inquiry on page 118](#)

 [Website Sitemap Inquiry on page 119](#)

 [Website Spanish Language Support on page 119](#)

## Website Inquiry

---

**Description:**

Matches on questions from customers looking for general assistance with using the company website. It will not match questions from customers looking for on using the company products and service support (for example, account sign in, company network and connectivity issues, internet services support). See other intents for those questions. This intent is also designed to be default match for questions about the website that do not match a more specific intent.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Website Sitemap Inquiry

---

[Website Inquiry on page 118](#)

### Website Sitemap Inquiry

#### **Description:**

Matches on questions from customers looking a map of the website. This intent matches only questions in which the customer explicitly asks for the website map and not for the specific location of a particular content set.

#### **Parameters:**

n/a

#### **Standard Questions:**

n/a

## Website Spanish Language Support

---

[Website Inquiry on page 118](#)

### Website Spanish Language Support

#### **Description:**

Matches all questions in Spanish or about the availability of Spanish language services.

#### **Parameters:**

n/a

#### **Standard Questions:**

n/a

## Automotive Intent Parameters

---

The following parameters are used within the Automotive intents:

[Accessory Parameter on page 121](#)

[Brand Parameter on page 121](#)

[Car Type Parameter on page 121](#)

*Certified Year Parameter* on page 122  
*City Parameter* on page 122  
*Competitor Make Parameter* on page 122  
*Competitor Model Parameter* on page 123  
*Concept Car Parameter* on page 123  
*Current Year Parameter* on page 124  
*Discontinued Model Parameter* on page 124  
*Engineering Feature Parameter* on page 124  
*Forthcoming Model Parameter* on page 125  
*Current Model Parameter* on page 123  
*Maintenance Activity Parameter* on page 125  
*Merchandise Parameter* on page 125  
*Model Parameter* on page 126  
*Non-Certified Year Parameter* on page 127  
*Option Package Parameter* on page 127  
*Part Parameter* on page 127  
*Previous Year Parameter* on page 128  
*Special Offer Parameter* on page 128  
*Specification Parameter* on page 128  
*Standard Option Parameter* on page 129  
*State Parameter* on page 129  
*Trim Parameter* on page 129  
*Year Parameter* on page 130  
*Zip Code Parameter* on page 131

## Accessory Parameter

---

**Used In:**

[Product Research on page 91](#)

[Vehicle Configuration Research on page 98](#)

[Vehicle Accessory Research on page 99](#)

**Description:**

Names of vehicle accessories.

**Root Concept:**

noun.artifact:accessory

## Brand Parameter

---

**Used In:**

[Vehicle Model Line Research on page 101](#)

**Description:**

The brand name(s) of the company(ies).

**Root Concept:**

noun.auto.model:parent\_company\_make

## Car Type Parameter

---

**Used In:**

[Product Research on page 91](#)

[Vehicle Media Information on page 96](#)

[Model Picture Research on page 97](#)

[Vehicle Safety Research on page 103](#)

[Vehicle Type Research on page 105](#)

**Description:**

The vehicle type (for example, SUV, pickup, convertible).

**Root Concept:**

noun.auto.model:car\_type

## Certified Year Parameter

---

**Used In:**

[Used Vehicle Research](#) on page 95

[Certified Vehicle Research](#) on page 95

**Description:**

Any year prior to the current, covered by the certified vehicle program.

**Root Concept:**

noun.auto:model\_year

## City Parameter

---

**Used In:**

[General Company Inquiry](#) on page 116

[Dealer Locator Inquiry](#) on page 117

**Description:**

The city.

**Root Concept:**

noun.location:city

## Competitor Make Parameter

---

**Used In:**

[Product Research](#) on page 91

[Competitive Comparison](#) on page 92

**Description:**

A make of car manufactured by a competing company.

**Root Concept:**

noun.auto:competitor\_make

## Competitor Model Parameter

---

**Used In:**

[Product Research on page 91](#)

[Competitive Comparison on page 92](#)

**Description:**

A model of car manufactured by a competing company.

**Root Concept:**

noun.auto:competitor\_model

## Concept Car Parameter

---

**Used In:**

[Product Research on page 91](#)

[Concept Vehicle Inquiry on page 93](#)

**Description:**

A model name or code name of a "concept car".

**Root Concept:**

noun.auto:concept\_car

## Current Model Parameter

---

## Chapter 4      The Telecommunications Intent Library Hierarchy

The sections in this guide are arranged to reflect the structure of the Telecommunications Intent Library Hierarchy. For each Intent, the document includes information on:

- The parents of the Intent
- A description of its purpose
- Recommendations for configuring the Intent, where available
- Any Concept Parameters defined within the standard Intent Library
- A list of standard questions that the Intent should match, where available

The Telecommunications Intent Library contains the following top-level Intents and their children:

- ↳ [Telecom Product Research Intents on page 134](#)
- ↳ [Telecom Product Support Intents on page 153](#)
- ↳ [Telecom Product Ordering and Sales Support Intents on page 182](#)
- ↳ [Telecom Account Support Intents on page 185](#)
- ↳ [Telecom Customer Service Intents on page 189](#)
- ↳ [Telecom Billing and Support Intents on page 193](#)
- ↳ [Telecom General Company Inquiry Intents on page 199](#)
- ↳ [Telecom Website Inquiry Intents on page 202](#)

## Using Product Research and Product Support Intents

---

Product Research and Product Support Intents and their children are designed to match questions exclusively; a given question will match either a research intent or a support intent, but never both.

Product Support Intents address a more specific class of questions than Product Research Intents. Every Product Research intent has a counterpart Product Support intent; however, the opposite is not true. There are Product Support intents that have no corresponding Product Research counterpart.

The Product Support Intents are, by design, more strictly matched than the Product Research counterparts. Product Support intents will match a question only if there are strong indications in the question that the customer is looking for assistance with an existing product or support they have acquired and/or contracted with the company.

Product Research intents are more generic, and designed to match the set of questions where the purpose (support vs. research) was not determined or where there is ambiguity in interpreting the customer's question.

Answers to these product research and support intent pairs should reflect this design strategy.

Product Research intents should be broad in nature, and not assume that customers are asking only pre-sales or sales questions. Consideration in the user responses (either in the primary or secondary portlets) should be given to providing information that also cover the support of those products.

Product Support intents, however, should reflect a much higher level of confidence that the customer is looking for support. Providing content research answers is not considered necessary (although links to the information in a secondary portlet is advisable/optional).

## Telecom Product Research Intents

---

The following hierarchy contains the Telecom Product Research Intents:

- [\*Product Research on page 136\*](#)
  -  [\*Service Plan Research on page 136\*](#)
    -  [\*Internet Services Research on page 137\*](#)
    -  [\*Prepaid Services Research on page 137\*](#)
  -  [\*Service Feature Research on page 138\*](#)

-  [Text Messaging Research on page 139](#)

-  [Calling Card Research on page 152](#)
-  [Disabled Services Research on page 153](#)

## Product Research

---

### **Description:**

Matches on research questions on the company's products and service offerings. This intent is also designed to be default match for research questions on products that do not have a more specific intent in place.

### **Configuration Recommendations:**

This intent allows the configuration of answers that should be applied to all of the intents. Or, if desired, it can also be used to provide answers based on a specific returned parameter value.

### **Parameters:**

n/a

### **Standard Questions:**

[Product Research Standard Questions on page 276](#)

## Service Plan Research

---

[Product Research on page 136](#)

**Service Plan Research**

### **Description:**

Matches on research questions on the company's service plan offerings. Plans may be referred by their brand names or by popular categories (e.g., "Family Plans"). Whenever those appear in the question, parameter(s) will be set with this intent. This intent is also designed to be the default match for research questions on service plans that do not have a more specific intent in place.

### **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Also, use "parent" parameters to setup answers for the ancillary portlets.

### **Parameters:**

[Telecom Service Plans Parameter on page 208](#)

### **Standard Questions:**

[Service Plan Research Standard Questions on page 288](#)

## Internet Services Research

[Product Research on page 136](#)

 [Service Plan Research on page 136](#)

 **Internet Services Research**

### **Description:**

Matches on research questions on the company's internet service plan offerings. Internet Plans may be referred by their brand names or by popular categories (e.g., "DSL"). Whenever those appear in the question, parameter(s) will be set with this intent. Definitions of plans that belong in this category can be customized by manipulating the variables for this intent.

### **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Also, consider configuring answers with no parameter settings to setup broad answers on internet services for the ancillary portlets.

### **Parameters:**

- [Internet Plans Parameter on page 205](#)
- [Internet Services Parameter on page 205](#)

### **Standard Questions:**

[Internet Services Research Standard Questions on page 252](#)

## Prepaid Services Research

[Product Research on page 136](#)

 [Service Plan Research on page 136](#)

 **Prepaid Services Research**

### **Description:**

Matches on research questions on the company's prepaid service offerings (e.g., phone cards, prepaid plans). Plans may be referred by their brand names or by popular categories (e.g., "Phone Card"). Whenever those appear in the question, parameter(s) will be set with

this intent. Definitions of plans that belong in this category can be customized by manipulating the variables for this intent.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are interested in knowing more about prepaid services offerings and their details.

### **Parameters:**

[Pay As You Go Plans Parameter on page 206](#)

### **Standard Questions:**

[Prepaid Services Research Standard Questions on page 272](#)

## **Service Feature Research**

---

[Product Research on page 136](#)

**Service Feature Research**

### **Description:**

Matches on research questions on the features offered by the company with a service plan. Features may be referred by their brand names or by popular categories (e.g., "mobile-to-mobile minutes"). This intent is also designed to be default match for research questions on service features that do not have a more specific intent in place. Answers can be configured for these using the available parameter values.

### **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Also, use "parent" parameters to setup answers for the ancillary portlets.

### **Parameters:**

n/a

### **Standard Questions:**

[Service Feature Research Standard Questions on page 285](#)

## Text Messaging Research

[Product Research on page 136](#)

 [Service Feature Research on page 138](#)

 **Text Messaging Research**

### **Description:**

Matches on research questions on the different types of text messaging (with the exception of instant messaging, which is its own intent). This intent is also designed to be default match for research questions when the more generic "message" term is used.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are interested in knowing more about text messaging features. In addition, consider providing links for web-based text messaging tools and instructions on how to use text messaging. Since this intent is also the catch-all for questions using generic "message" term, consider providing related answers/links on ancillary portlets on instant messaging.

### **Parameters:**

n/a

### **Standard Questions:**

[Text Messaging Research Standard Questions on page 292](#)

## Instant Messaging Research

[Product Research on page 136](#)

 [Service Feature Research on page 138](#)

 **Instant Messaging Research**

### **Description:**

Matches on research questions on the different types of instant messaging. This intent is specifically designed to match only when it is clear that the question was about instant messaging. If the question is ambiguous about the messaging feature being asked (e.g. "Can I send a message?"), the intent will not match the question. Instead, it will match the Text Messaging Research Intent.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are interested in knowing more about instant messaging features. In addition, consider providing links for web-based instant messaging tools, software downloads and instructions on how to use instant messaging.

### **Parameters:**

n/a

### **Standard Questions:**

[Instant Messaging Research Standard Questions on page 248](#)

## **Email Management Research**

[Product Research on page 136](#)

 [Service Feature Research on page 138](#)

 **Email Management Research**

### **Description:**

Matches on research questions on email feature offerings and email management options. This intent will be triggered for both wireless and non-wireless email service features and management questions.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are interested in knowing more about email features and how to manage and maintain emails. In addition, consider providing links for email management tutorials and web-based email tool(s).

### **Parameters:**

n/a

### **Standard Questions:**

[Email Management Research Standard Questions on page 246](#)

## Calling Areas / Coverage Research

[Product Research on page 136](#)

 [Service Feature Research on page 138](#)

 **Calling Areas / Coverage Research**

### **Description:**

Matches on research questions on a service plan's coverage or calling areas and questions around service availability. This intent applies to both wireless and non-wireless plans.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are interested in knowing more about cell networks, including definition, comparisons and availability. Content around roaming charges and applicability should also be considered. In addition, consider providing links to coverage area maps and network layouts.

### **Parameters:**

n/a

### **Standard Questions:**

[Calling Areas And Coverage Research Standard Questions on page 232](#)

## Roaming and Cell Phone Network Research

[Product Research on page 136](#)

 [Service Feature Research on page 138](#)

 **Roaming and Cell Phone Network Research**

### **Description:**

Matches on research questions on voicemail feature offerings and voicemail management options. This intent will be triggered for both wireless and non-wireless voicemail service features and management questions.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are interested in knowing more about voicemail features and how to manage and maintain voicemail. In addition, consider providing links for voicemail management tutorials and web-based voicemail tool(s).

### **Parameters:**

n/a

### **Standard Questions:**

[Roaming and Cell Phone Network Research Standard Questions on page 283](#)

## **Voicemail Management Research**

[Product Research on page 136](#)

 [Service Feature Research on page 138](#)

 **Voicemail Management Research**

### **Description:**

Matches on research questions on voicemail feature offerings and voicemail management options. This intent will be triggered for both wireless and non-wireless voicemail service features and management questions.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are interested in knowing more about voicemail features and how to manage and maintain voicemail. In addition, consider providing links for voicemail management tutorials and web-based voicemail tool(s).

### **Parameters:**

n/a

### **Standard Questions:**

[Voicemail Management Research Standard Questions on page 300](#)

## **Personalization and Content Management Research**

[Product Research on page 136](#)

 [Service Feature Research on page 138](#)

 **Personalization and Content Management Research**

### **Description:**

Matches on personalization feature research questions on the features offered by the company with a service plan. Personalization Features may be referred by their brand

names or by popular categories (e.g., "alerts", "themes"). This also refers to feature/content provided and/or managed by the company (e.g., "album", "games", "themes"). This intent is designed to be default match for research questions on personalization and content management features that do not have a more specific intent in place. Answers can be configured for these using the available parameter values.

### **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Answers should be content directed at customers who are interested in a particular personalization feature. Consider adding links for download of content and/or managing/storing content. In addition, a non-parameterized answer presenting a top-level view of all the personalization features, content, and content management available should be considered.

### **Parameters:**

[Personalized Content Parameter on page 207](#)

### **Standard Questions:**

[Personalization and Content Management Research Standard Questions on page 261](#)

*Ringtones Research*

[Product Research on page 136](#)

 [Service Feature Research on page 138](#)

 [Personalization and Content Management Research on page 142](#)

 **Ringtones Research**

### **Description:**

Matches on research questions on phone ring tones personalization offerings and configuration options.

### **Configuration Recommendations:**

Answers should be content directed at customers who are interested in a ring tones and ring tones configuration. Consider adding links for download or purchasing ring tones as well as configuring and managing them. In addition, consider ancillary portlets on popular ring tones, ring tones player(s), and promotional ring tones or ring tone themes.

### **Parameters:**

n/a

## **Standard Questions:**

*Ringtone Research Standard Questions on page 279*

## **Service Plan Minutes Research**

*Product Research on page 136*

 *Service Feature Research on page 138*

 **Service Plan Minutes Research**

## **Description:**

Matches on research questions on minutes (e.g., night and weekends, mobile-to-mobile, etc.) feature offerings, details and management options available with a customer plan. This intent is also designed to be default match for research questions on minutes that do not have a more specific intent in place.

## **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Also, use "parent" parameters to setup answers for the ancillary portlets.

## **Parameters:**

n/a

## **Standard Questions:**

*Service Plan Minutes Research Standard Questions on page 287*

## *Purchasing Minutes Research*

*Product Research on page 136*

 *Service Feature Research on page 138*

 *Service Plan Minutes Research on page 144*

 **Purchasing Minutes Research**

## **Description:**

Matches on research questions on acquiring or adding minutes to any service plan.

**Configuration Recommendations:**

Answers should be content directed at customers who are interested in purchasing, adding or finding more information on the different minutes categories available. Consider adding links for changing plans, purchasing minutes on pre-paid plans.

**Parameters:**

n/a

**Standard Questions:**

*[Purchasing Minutes Research Standard Questions on page 276](#)*

**Call Services Research (including Star Keys)**

[Phone Equipment Accessory and Parts Research Standard Questions on page 264](#)

## Other Telco Services Research

---

[Product Research on page 136](#)

 **Other Telco Services Research**

### **Description:**

This intent is the parent intent for a collection of intents around other services provided by the company. Note that this intent is strictly a parent intent and will be triggered every time a child intent is triggered and will not be triggered otherwise.

### **Configuration Recommendations:**

Consider using this intent for setting secondary portlets or answers which are common to all its children intents. Otherwise, this intent should not be configured.

**Parameters:**

n/a

**Standard Questions:**

n/a

**International Calling Research**

[Product Research on page 136](#)

 [Other Telco Services Research on page 151](#)

 **International Calling Research**

**Description:**

Matches on research questions on the company's on making or receiving international calls, and making or receiving calls or using phones and services in foreign countries.

**Configuration Recommendations:**

As this intent covers a myriad of international services research questions, consider providing content that covers all possible internationally related information, including international features or components of plans, calling and receiving international calls, and using services internationally.

**Parameters:**

n/a

**Standard Questions:**

 [International Calling Research Standard Questions on page 250](#)

**Calling Card Research**

[Product Research on page 136](#)

 [Other Telco Services Research on page 151](#)

 **Calling Card Research**

**Description:**

Matches on research questions on the company's calling card offerings, including applying, ordering and pricing, whether as part of the plan or as a separate offering. Note

that this intent will not match on research questions on prepaid phone card or credit card offerings.

### **Configuration Recommendations:**

Answers should be content directed at customers who are interested in acquiring or finding more information on calling cards and calling card features.

### **Parameters:**

n/a

### **Standard Questions:**

[Calling Card Research Standard Questions on page 234](#)

## **Disabled Services Research**

[Product Research on page 136](#)

 [Other Telco Services Research on page 151](#)

 **Disabled Services Research**

### **Description:**

Matches on research questions on the company's phone services or service features for disabled customers, whether as part of a company's plans or not.

### **Configuration Recommendations:**

Answers should be content directed at customers who are interested in using or finding more information on the company's phone services and service features for the disabled.

### **Parameters:**

n/a

### **Standard Questions:**

## Product Support

---

### **Description:**

Matches on support questions on the company's products and service offerings. This intent is also designed to be default match for support questions on products that do not have a more specific intent in place.

## **Configuration Recommendations:**

Answer configuration for this intent should be to provide top level information (or links) on all the products and services support provided. Also use this intent for setting general help and other support information, and guidelines for browsing through the products and service support tools.

## **Parameters:**

[Telecom Products Parameter on page 208](#)

## Service Plan Support

---

[Product Support on page 155](#)

**Service Plan Support**

## **Description:**

Matches on support questions on the company's service plans. Plans may be referred by their brand names or by popular categories (e.g., "Family Plans"). Whenever those appear in the question, parameter(s) will be set with this intent. This intent is also designed to be the default match for support questions on service plans that do not have a more specific intent in place.

## **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Also, use "parent" parameters to setup answers for the ancillary portlets.

## **Parameters:**

[Telecom Service Plans Parameter on page 208](#)

## **Standard Questions:**

[Service Plan Support Standard Questions on page 291](#)

## Internet Services Support

[Product Support on page 155](#)

 [Service Plan Support on page 156](#)

 **Internet Services Support**

### **Description:**

Matches on support questions on the company's internet service plans. Internet Plans may be referred by their brand names or by popular categories (e.g., "DSL"). Whenever those appear in the question, parameter(s) will be set with this intent. Definitions of plans that belong in this category can be customized by manipulating the variables for this intent.

### **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Also, consider configuring answers with no parameter settings to setup broad answers on internet services for the ancillary portlets.

### **Parameters:**

[Internet Plans Parameter on page 205](#)

[Internet Services Parameter on page 205](#)

### **Standard Questions:**

[Internet Services Support Standard Questions on page 254](#)

## Prepaid Services Support

[Product Support on page 155](#)

 [Service Plan Support on page 156](#)

 **Prepaid Services Support**

### **Description:**

Matches on support questions on the company's prepaid services (e.g., phone cards, prepaid plans). Plans may be referred by their brand names or by popular categories (e.g., "Phone Card"). Whenever those appear in the question, parameter(s) will be set with this intent. Definitions of plans that belong in this category can be customized by manipulating the variables for this intent.

## **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking for support on prepaid services offerings and their details.

## **Parameters:**

[Prepaid Phone Cards Parameter on page 207](#)

## **Standard Questions:**

[Prepaid Services Support Standard Questions on page 272](#)

## **Change Plans**

[Product Support on page 155](#)

 [Service Plan Support on page 156](#)

 **Change Plans**

## **Description:**

Matches on questions about changing an existing plan (either to another plan or making a modification to the existing plan). This intent does not include changing from or to another service provider (see Change Service Provider, for those questions).

## **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking to make changes to their current plan(s) or downgrade/upgrade to another plan. Also, consider adding links for changing to/from another service provider, as customers are occasionally confused about their intentions.

## **Parameters:**

n/a

## **Standard Questions:**

[Change Plans Standard Questions on page 236](#)

## Change Service Providers

[Product Support on page 155](#)

 [Service Plan Support on page 156](#)

 **Change Service Providers**

### **Description:**

Matches on questions about changing to/from another service provider. This intent does not include questions about changing an existing plan. (see Change Plans, for those questions).

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking at changing to/from another service provider. Also, consider adding links for information on how to make changes to their current plan(s) or downgrade/upgrade to another plan, as customers are occasionally confused about their intentions.

### **Parameters:**

 [Telecom Service Providers Parameter on page 209](#)

### **Standard Questions:**

 [Change Service Providers Standard Questions on page 238](#)

## Relocation Support

[Product Support on page 155](#)

 [Service Plan Support on page 156](#)

 **Relocation Support**

### **Description:**

Matches on questions about customers who looking to relocate their services to a new address or area. This intent does not include questions about changing features of an existing plan, or making changes to their account information. (see Change Plans and Update Account Profile, respectively, for those questions).

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at supporting customers who are moving to a new area or address. Consider adding secondary answers on changing account profile, as customers sometimes confuse these two activities.

### **Parameters:**

n/a

### **Standard Questions:**

n/a

## **Service Suspension / (Re-)Activation Support**

[Product Support on page 155](#)

 [Service Plan Support on page 156](#)

 **Service Suspension / (Re-)Activation Support**

### **Description:**

Matches on questions about customers who are looking for support in suspending or (re-)activating their phone services. It also matches on questions on company initiated service suspension.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at supporting customers who are looking at suspending or (re-) activating their services, and answering questions on company initiated suspensions. Also consider providing links for managing the temporary stoppage of services (and reactivation), if these are available on line.

### **Parameters:**

n/a

### **Standard Questions:**

 [Service Suspension Or Reactivation Support Standard Questions on page 291](#)

## **Cancel Plan**

[Product Support on page 155](#)

 [Service Plan Support on page 156](#)

 **Cancel Plan**

### **Description:**

Matches on questions on customers who are looking to cancel their service plan(s). This intent will only match questions where the concept "plan" has been identified. Another

intent, Close Account, will match questions where the term "account" has been identified. This has been done in this manner for companies where these intents are considered different.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking to cancel their plan(s). Also consider providing answers for customers who are only looking to terminate their billing account, or components of their plans/accounts. Also, consider keeping the content similar between this intent and "Close Account", if both intents are considered to be the same.

### **Parameters:**

n/a

### **Standard Questions:**

[Cancel Plan Standard Questions on page 236](#)

## **Contract Expiration Support**

[Product Support on page 155](#)

 [Service Plan Support on page 156](#)

 **Contract Expiration Support**

### **Description:**

Matches on support questions from customers looking to learn more about their contract termination dates, what happens once a contract terminates and how to extend their contract. It will not match questions on terminating contract (see Cancel Plans) or modifying contracts (see Change Plans).

### **Configuration Recommendations:**

n/a

### **Parameters:**

n/a

### **Standard Questions:**

[Contract Expiration Support Standard Questions on page 243](#)

## Service Feature Support

---

[Product Support on page 155](#)

**Service Feature Support**

### **Description:**

Matches on support questions on the features offered by the company with a service plan. Features may be referred by their brand names or by popular categories (e.g., "mobile-to-mobile minutes"). This intent is also designed to be default match for support questions on service features that do not have a more specific intent in place. Answers can be configured for these using the available parameter values.

### **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Also, use "parent" parameters to setup answers for the ancillary portlets.

### **Parameters:**

n/a

### **Standard Questions:**

[Service Feature Support Standard Questions on page 285](#)

## Text Messaging Support

[Product Support on page 155](#)

[Service Feature Support on page 162](#)

**Text Messaging Support**

### **Description:**

Matches on support questions on the different types of text messaging (with the exception of instant messaging, which is its own intent). This intent is also designed to be default match for support questions when the more generic "message" term is used.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking for support in using text messaging features. In addition, consider providing links for web-based text messaging tools and instructions on how to use text messaging. Since

this intent is also the catch-all for questions using generic "message" term, consider providing related answers/links on ancilliary portlets on all messaging features.

**Parameters:**

n/a

**Standard Questions:**

*Text Messaging Support Standard Questions on page 294*

**Instant Messaging Support**

*Product Support on page 155*

*Service Feature Support on page 162*

**Instant Messaging Support**

**Description:**

Matches on support questions on the different types of instant messaging. This intent is specifically designed to match only when it is clear that the question was about instant messaging. If the question is ambiguous about the messaging feature being asked (e.g. "Can I send a message?"), the intent will not match the question. Instead, it will match the Text Messaging Support Intent.

**Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking for support in using instant messaging features. In addition, consider providing links for web-based instant messaging tools, software downloads and instructions on how to use instant messaging.

**Parameters:**

n/a

**Standard Questions:**

n/a

## Email Management Support

[Product Support on page 155](#)

 [Service Feature Support on page 162](#)

 Email Management Support

### **Description:**

Matches on support questions on email features and email management options. This intent will be triggered for both wireless and non-wireless email service features and management questions.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking for support in using, managing and maintaining email features. In addition, consider providing links for email management tutorials and web-based email tool(s).

### **Parameters:**

n/a

### **Standard Questions:**

[Email Management Support Standard Questions on page 246](#)

## Calling Areas / Coverage Support

[Product Support on page 155](#)

 [Service Feature Support on page 162](#)

 Calling Areas / Coverage Support

### **Description:**

Matches on support questions on a service plan's coverage or calling areas and questions around service availability. This intent applies to both wireless and non-wireless plans.

### **Configuration Recommendations:**

Answer configuration for this intent should be support content around service area availability and/or coverage area (within country and outside). In addition, consider providing links for coverage area maps and service availability verification tool(s).

### **Parameters:**

n/a

**Standard Questions:**

n/a

**Roaming and Cell Phone Network Support**[Product Support on page 155](#) [Service Feature Support on page 162](#) **Roaming and Cell Phone Network Support****Description:**

Matches on support questions on roaming and the different cell based network standards (e.g. GSM, GPRS) . This intent applies only to wireless questions.

**Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking for support in using cell networks. Content around roaming charges and applicability should also be considered. In addition, consider providing links to coverage area maps and network layouts

**Parameters:**

n/a

**Standard Questions:**[Roaming and Cell Phone Network Support Standard Questions on page 283](#)**Voicemail Management Support**[Product Support on page 155](#) [Service Feature Support on page 162](#) **Voicemail Management Support****Description:**

Matches on support questions on voicemail features and management options. This intent will be triggered for both wireless and non-wireless voicemail service features and management questions.

## **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking for support in using, managing and maintaining voicemail features. In addition, consider providing links for voicemail management tutorials and web-based voicemail tool(s).

## **Parameters:**

n/a

## **Standard Questions:**

[Voicemail Management Support Standard Questions on page 302](#)

## **Personalization and Content Management Support**

[Product Support on page 155](#)

 [Service Feature Support on page 162](#)

 **Personalization and Content Management Support**

## **Description:**

Matches on personalization feature support questions on the features offered by the company with a service plan. Personalization Features may be referred by their brand names or by popular categories (e.g., "alerts", "themes"). This also refers to feature/content provided and/or managed by the company (e.g., "album", "games", "themes"). This intent is designed to be default match for support questions on personalization and content management features that do not have a more specific intent in place. Answers can be configured for these using the available parameter values.

## **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Answers should be content directed at customers who are looking for support on a particular personalization feature. Consider adding links for download of content and/or managing/storing content. In addition, a non-parameterized answer presenting a top-level view of all support content for the personalization features, content, and content management available should be considered.

## **Parameters:**

[Personalized Content Parameter on page 207](#)

**Standard Questions:**

*Personalization and Content Management Support Standard Questions on page 264*

*Ringtones Support*

*Product Support on page 155*

*Service Feature Support on page 162*

*Personalization and Content Management Support on page 166*

**Ringtones Support**

**Description:**

Matches on research questions on phone ring tones personalization offerings and configuration options.

**Configuration Recommendations:**

Answers should be content directed at customers who are interested in a ring tones and ring tones configuration. Consider adding links for download or purchasing ring tones as well as configuring and managing them. In addition, consider ancillary portlets on popular ring tones, ring tones player(s), and promotional ring tones or ring tone themes.

**Parameters:**

n/a

**Standard Questions:**

*Ringtones Support Standard Questions on page 281*

**Service Plan Minutes Support**

*Product Support on page 155*

*Service Feature Support on page 162*

**Service Plan Minutes Support**

**Description:**

Matches on research questions on minutes (e.g., night and weekends, mobile-to-mobile, etc.) feature offerings, details and management options available with a customer plan. This intent is also designed to be default match for research questions on minutes that do not have a more specific intent in place.

## **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Also, use "parent" parameters to setup answers for the ancillary portlets.

### **Parameters:**

n/a

### **Standard Questions:**

[Service Plan Minutes Support Standard Questions on page 288](#)

*Purchasing Minutes Support*

[Product Support on page 155](#)

 [Service Feature Support on page 162](#)

 [Service Plan Minutes Support on page 167](#)

 **Purchasing Minutes Support**

### **Description:**

Matches on support questions on acquiring or adding minutes to any service plan.

## **Configuration Recommendations:**

Answers should be content directed at customers who are looking for support in purchasing and/or adding minutes to their current plan(s). Consider adding links for changing plans, purchasing minutes on pre-paid plans.

### **Parameters:**

n/a

### **Standard Questions:**

[Purchasing Minutes Support Standard Questions on page 276](#)

## Call Services Support (Star Keys)

[Product Support on page 155](#)

[Service Feature Support on page 162](#)

[Service Plan Minutes Support on page 167](#)

[Call Services Support \(Star Keys\)](#)

### **Description:**

Matches on support questions on the different call services (e.g., call forward, call waiting, 3-way calling, etc.) feature offerings, details and management options. This intent is also designed to be default match for support questions on Call Services that do not have a more specific intent in place.

### **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Consider adding links for changing and/or signing up for these service features. Also, use "parent" parameters to setup answers for the ancillary portlets.

### **Parameters:**

## Call Block Support

[Product Support on page 155](#)

[Service Feature Support on page 162](#)

[Call Services Support \(Star Keys\) on page 169](#)

[Call Block Support](#)

### **Description:**

Matches on support questions on the different types of call blocking services available.

### **Configuration Recommendations:**

Answers should be content directed at customers who are looking for support using the different call block services. Consider adding links for changing and/or signing up for these service features.

### **Parameters:**

n/a

### **Standard Questions:**

[Call Block Support Standard Questions on page 228](#)

*Caller ID Support*

[Product Support on page 155](#)

 [Service Feature Support on page 162](#)

 [Call Services Support \(Star Keys\) on page 169](#)

 **Caller ID Support**

### **Description:**

Matches on support questions on the different types of caller ID services available.

### **Configuration Recommendations:**

Answers should be content directed at customers who are looking for support using the different caller ID services. Consider adding links for changing and/or signing up for these service features.

### **Parameters:**

n/a

### **Standard Questions:**

[Caller ID Support Standard Questions on page 232](#)

## Additional Line or Phone Request Support

---

[Product Support on page 155](#)

### Additional Line or Phone Request Support

#### **Description:**

Matches on support questions on adding line(s) or phone(s) to an existing service plan.

#### **Configuration Recommendations:**

Answers should be content directed at customers who are looking for support in adding an additional line or phone for an existing customer account.

#### **Parameters:**

n/a

#### **Standard Questions:**

[Additional Line or Phone Request Support Standard Questions on page 219](#)

## Phone Equipment Support

---

[Product Support on page 155](#)

### Phone Equipment Support

#### **Description:**

Matches on support questions on the company's phone equipment. This intent is also designed to be default match for support questions on phone equipment that do not have a more specific intent in place. This intent is also designed to be default match for support questions when the more generic "phone" term is used.

#### **Configuration Recommendations:**

Answer configuration for this intent should be to provide top level information (or links) on all the phone equipment support provided. Also use this intent for setting general phone equipment help and other support information, and guidelines for browsing through the phone equipment support tools.

#### **Parameters:**

[Telephones Parameter on page 209](#)

## **Standard Questions:**

*Phone Equipment Support Standard Questions on page 270*

### **Wireless Phone Support**

*Product Support on page 155*

 *Phone Equipment Support on page 171*

 **Wireless Phone Support**

## **Description:**

Matches on support questions on the wireless phones offerings. Phone may be referred in the question by their model/manufacture or brand name or by popular categories and/or characteristics (e.g., "flip phones", "cheap cellphone"). Whenever the model/manufacture or brand name is specified, parameter(s) will be set with this intent.

## **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Also, use "parent" parameters to setup answers for the ancillary portlets. Answers should be content directed at customers who are looking for detail support on wireless phones.

## **Parameters:**

*Cell Phones Parameter on page 205*

## **Standard Questions:**

*Wireless Phone Support Standard Questions on page 305*

*Wireless Camera Phone Support*

*Product Support on page 155*

 *Phone Equipment Support on page 171*

 *Wireless Phone Support on page 172*

 **Wireless Camera Phone Support**

## **Description:**

Matches on support questions on camera phones or camera phone features. Note that this intent only matches on questions where the concept of "camera" is identified. If a model/

manufacturer and/or brand name is specified, it will be ignored by this intent (even if the model has a camera feature).

### **Configuration Recommendations:**

Answers should be content directed at customers who are looking for support on camera phones and using the camera features of the phone. Also consider providing content on managing pictures and video information on phones, and ways in which to find support pages/documentation on using specific camera phones.

### **Parameters:**

n/a

*Wireless PDA Support*

[Product Support on page 155](#)

 [Phone Equipment Support on page 171](#)

 [Wireless Phone Support on page 172](#)

 **Wireless PDA Support**

### **Description:**

Matches on support questions on PDA phones. Note that this intent ONLY matches on questions where the concept of "PDA" is identified. If a model/manufacture and/or brand name is specified, it will be ignored by this intent (even if the model is a PDA).

### **Configuration Recommendations:**

Answers should be content directed at customers who are looking for support on PDA phones and using its features. Also consider providing content on managing content on PDA phones, and ways in which to find support pages/documentation on using specific PDA phones.

### **Parameters:**

n/a

### **Standard Questions:**

[PDA Support Standard Questions on page 261](#)

## Non-Wireless Phone Support

[Product Support on page 155](#)

 [Phone Equipment Support on page 171](#)

 **Non-Wireless Phone Support**

### **Description:**

Matches on support questions on non-wireless phones offerings. Phone may be referred in the question by their model/manufacture or brand name or by popular categories and/or characteristics (e.g., "cordless phones"). Whenever the model/manufacture or brand name is specified, parameter(s) will be set with this intent.

### **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Also, use "parent" parameters to setup answers for the ancillary portlets. Answers should be content directed at customers who are looking for support on using non-wireless phones.

### **Parameters:**

 [Landline Phones Parameter on page 206](#)

### **Standard Questions:**

## Phone Equipment Accessory and Parts Support

[Product Support on page 155](#)

 [Phone Equipment Support on page 171](#)

 **Phone Equipment Accessory and Parts Support**

### **Description:**

Matches on support questions on the company's phone equipment accessories and phone equipment parts. Accessories and Parts may be referred by their brand names ("jabra") or by popular categories (e.g., "headphones", charges, batteries, etc.). Whenever those appear in the question, parameter(s) will be set with this intent.

**Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Also, use "parent" parameters to setup answers for the ancillary portlets.

**Parameters:**

[Telecom Accessories Parameter on page 207](#)

**Standard Questions:**

[Phone Equipment Accessory and Parts Support Standard Questions on page 266](#)

**Upgrade Phone**

[Product Support on page 155](#)

 [Phone Equipment Support on page 171](#)

 **Upgrade Phone**

**Description:**

Matches on questions from customers looking to upgrade their existing phones. This intent does not match on questions around customers looking to add a phone (see Additional Line or Phone Request Support or Research for those questions).

**Configuration Recommendations:**

Answers should be content directed at customers who are looking for support on upgrading their phones, including implications to their plans and additional costs they would incur. Consider also providing content on popular and/or recently released models and on special offers or discounts.

**Parameters:**

[Cell Phones Parameter on page 205](#)

**Standard Questions:**

[Upgrade Phone Standard Questions on page 299](#)

## Unlock Phone Password Codes

[Product Support on page 155](#)

 [Phone Equipment Support on page 171](#)

 **Unlock Phone Password Codes**

### **Description:**

Matches on support questions from customers looking for assistance on unlocking phone codes (PUK, PINs, etc.). This intent will not match on questions about online account, phone cards, calling cards or credit cards, and email/voicemail passwords (see other support intents for these questions).

### **Configuration Recommendations:**

As this intent covers a myriad of phone password code support questions, consider providing content that covers all possible phone password related support information, including how to reset, change or remove password feature on phones.

### **Parameters:**

n/a

### **Standard Questions:**

 [Unlock Phone Password Codes Standard Questions on page 296](#)

## Phone Equipment Documentation

[Product Support on page 155](#)

 [Phone Equipment Support on page 171](#)

 **Phone Equipment Documentation**

### **Description:**

Matches on questions from customers looking for operational manuals and technical spec information on phone offerings.

### **Configuration Recommendations:**

Answer configuration for this intent should be set based on the parameters that are returned, to provide the most optimal user experience. Also, use "parent" parameters to setup answers for the ancillary portlets and to setup more generic answers on how to retrieve phone documentation.

**Parameters:**

n/a

**Standard Questions:**[Phone Equipment Documentation Standard Questions on page 268](#)**Other Telco Services Support**

---

[Product Support on page 155](#)**Other Telco Services Support****Description:**

This intent is the parent intent for a collection of support intents around other services provided by the company. Note that this intent is strictly a parent intent and will be triggered every time a child intent is triggered and will not be triggered otherwise.

**Configuration Recommendations:**

Consider using this intent for setting secondary portlets or answers which are common to all its children intents. Otherwise, this intent should not be configured.

**Parameters:**

n/a

**Standard Questions:**

n/a

**International Calling Support**[Product Support on page 155](#)[Other Telco Services Support on page 177](#)**Unlock Phone Password Codes****Description:**

Matches on support questions on the company's on making or receiving international calls, and making or receiving calls or using phones and services in foreign countries.

## Telecom Account Support Intents

---

The following hierarchy contains the Telecom Account Support Intents:

[Account Support on page 186](#)

[Update Account Profile on page 186](#)

[Close Account on page 187](#)

[Account Information Inquiry on page 187](#)

[Account Setup Support on page 188](#)

[Account Sign In Help on page 189](#)

## Account Support

---

### **Description:**

Matches on support questions from customers looking for assistance in managing their accounts. This intent is also designed to be default match for support questions on account management that do not have a more specific intent in place.

### **Configuration Recommendations:**

Answer configuration for this intent should be to provide top level information (or links) on all online account support services available. Also use this intent for setting general help and other support information, and guidelines for browsing through the account support pages.

### **Parameters:**

n/a

### **Standard Questions:**

[Account Support Standard Questions on page 217](#)

## Update Account Profile

---

[Account Support on page 186](#)

**User Account Profile**

### **Description:**

Matches on support questions from customers looking to update their account information and/or preferences (e.g., address, email, etc.).

### **Configuration Recommendations:**

Answer should be contents or links directed at customers looking to update their account profile. Consider also providing content that assists the customers through that process.

### **Parameters:**

n/a

**Standard Questions:**

[Update Account Profile Standard Questions on page 296](#)

## Close Account

---

[Account Support on page 186](#)

**Close Account**

**Description:**

Matches on questions on customers who are looking to close their account(s). This intent will only match questions where the concept "account" has been identified. Another intent, Cancel Plan, will match questions where the term "plan" has been identified. This has been done in this manner for companies where these intents are considered different.

**Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking to close their account(s). Also consider providing answers for customers who are only looking to terminate their billing account, or components of their plans/accounts. Also, consider keeping the content similar between this intent and "Cancel Plan", if both intents are considered to be the same.

**Parameters:**

n/a

**Standard Questions:**

[Close Account Standard Questions on page 239](#)

## Account Information Inquiry

---

[Account Support on page 186](#)

**Account Information Inquiry**

**Description:**

Matches on questions on customers who are looking information about their accounts, including confirming existing plans and services under contract, phone numbers, etc.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at customers who are looking for detail information on their account(s). Consider providing them with links to accessing their account information, service plan contracts in place, etc.

### **Parameters:**

n/a

### **Standard Questions:**

[Account Information Inquiry Standard Questions on page 211](#)

## **Account Setup Support**

---

[Account Support on page 186](#)

**Account Setup Support**

### **Description:**

Matches on questions on customers who are looking to setup their accounts online. It also matches on customers looking for support during the process of opening up an online account.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at supporting the account setup process. Consider including links to web pages where the customer can open an account online (or an online account). Also consider adding links for customer needing sign in support in a secondary portlet.

### **Parameters:**

n/a

### **Standard Questions:**

[Account Setup Support Standard Questions on page 213](#)

## Account Sign In Help

---

[Account Support on page 186](#)

**Account Sign In Help**

### **Description:**

Matches on questions on customers who are need help login in to their accounts, including errors in the sign-in process, password resets, etc.

### **Configuration Recommendations:**

Answer configuration for this intent should be content directed at supporting the account sign in process. Consider including links to the sign up page or tool. Also consider adding links for customer looking to setup their accounts in a secondary portlet.

### **Parameters:**

n/a

### **Standard Questions:**

[Account Sign In Help Standard Questions on page 213](#)

## Telecom Customer Service Intents

---

[Customer Service Inquiry on page 190](#)

[Contact Customer Service on page 190](#)

[Schedule Service Appointment on page 191](#)

[Escalate Customer Help on page 191](#)

[Report Abuse/Fraud on page 192](#)

[Report Network/Signal Problem on page 192](#)

[Report Lost Phone on page 193](#)

## Customer Service Inquiry

---

### **Description:**

Matches on support questions from customers looking for assistance from or information about the customer service department. This intent and its children do not match on questions specifically at getting product, account or billing support (see other intents for these). Rather, they are designed to match questions where the customer is looking to communicate to the customer department. This intent is also designed to be default match for support questions on customer services that do not have a more specific intent in place.

### **Configuration Recommendations:**

Answer configuration for this intent should be to provide top level information (or links) on communicating with Customer Services. Also use this intent for setting general help and other support information, and guidelines for browsing through the customer services pages.

### **Parameters:**

n/a

### **Standard Questions:**

[Customer Service Inquiry Standard Questions on page 243](#)

## Contact Customer Service

---

[Customer Service Inquiry on page 190](#)

 **Contact Customer Service**

### **Description:**

Matches on support questions from customers looking to contact customer services through available communication channels (email, chat, phone, etc.)

### **Configuration Recommendations:**

Answer configuration for this intent should be to provide all available means for communicating with customer services. Consider also providing information in contacting other departments (e.g. billing, system administration). Also consider re-displaying the available self-services tools and support content information.

### **Parameters:**

n/a

**Standard Questions:**

[Contact Customer Service Standard Questions on page 241](#)

## Schedule Service Appointment

---

[Customer Service Inquiry on page 190](#)

**Schedule Service Appointment**

**Description:**

Matches on support questions from customers looking to schedule service appointments and/or make changes to them.

**Configuration Recommendations:**

Answer configuration for this intent should be to present them with information or tools for scheduling service visits. If available, it should also include information on accessing their appointments or making changes (online or otherwise).

**Parameters:**

n/a

**Standard Questions:**

[Schedule Service Appointment Standard Questions on page 283](#)

## Escalate Customer Help

---

[Customer Service Inquiry on page 190](#)

**Escalate Customer Help**

**Description:**

Matches on questions where the customer is looking to escalate an issue within customer services. It also matches on questions that were deemed to require intervention by a customer services representative (e.g, customer identified as frustrated or unhappy with the services they have received online or otherwise).

**Configuration Recommendations:**

Answers configuration for this intent should be to provide the means for customers to reach a live representative or to provide them with an escalation vehicle or tool. Carefully consider ensuring that the content presented is appropriate with the state of mind of the

customer and that the customer is not presented with content that may be interpreted as uncaring and/or ineffective.

**Parameters:**

n/a

**Standard Questions:**

[Escalate Customer Help Standard Questions on page 248](#)

## Report Abuse/Fraud

---

[Customer Service Inquiry on page 190](#)

**Report Abuse/Fraud**

**Description:**

Matches on questions where the customer is looking for assistance with or reporting fraudulent or abusive use of their services or account.

**Configuration Recommendations:**

Answers configuration for this intent should be to provide instructions or content for reporting or dealing with these cases. Consider also ways in which to identify the different types of fraudulent/abusive usage.

**Parameters:**

n/a

**Standard Questions:**

[Report Abuse Or Fraud Standard Questions on page 277](#)

## Report Network/Signal Problem

---

[Customer Service Inquiry on page 190](#)

**Report Network/Signal Problem**

**Description:**

Matches on questions where the customer has identified problems with their service reception, network issues, or dead/intermittent signal problems and would like to report them or find out more about the status of these issues.

**Configuration Recommendations:**

Answers configuration for this intent should be to provide instructions or content for reporting or dealing with these cases. Consider also , if available, providing links to the latest or current information on previously identified network outages or issues.

**Parameters:**

n/a

**Standard Questions:**

[Report Network Or Signal Problem Standard Questions on page 277](#)

## Report Lost Phone

---

[Customer Service Inquiry on page 190](#)

**Report Lost Phone**

**Description:**

Matches on questions where the customer has identified problems with their service reception, network issues, or dead/intermittent signal problems and would like to report them or find out more about the status of these issues.

**Configuration Recommendations:**

Answers configuration for this intent should be to provide instructions or content for reporting or dealing with these cases. Consider also , if available, providing links to the latest or current information on previously identified network outages or issues.

**Parameters:**

n/a

**Standard Questions:**

[Report Lost Phone Standard Questions on page 277](#)

## Telecom Billing and Support Intents

## Billing and Support Inquiry

---

### **Description:**

Matches on support questions from customers looking for assistance in managing their accounts. This intent is also designed to be default match for support questions on account management that do not have a more specific intent in place.

### **Configuration Recommendations:**

Answer configuration for this intent should be to provide top level information (or links) on all online account support services available. Also use this intent for setting general help and other support information, and guidelines for browsing through the account support pages.

### **Parameters:**

n/a

### **Standard Questions:**

-  [Billing and Support Inquiry Standard Questions on page 225](#)

## Payment Options and Payment Support

---

[Billing and Support Inquiry on page 194](#)

### Payment Options and Payment Support

#### **Description:**

Matches on support questions from customers looking for assistance in making payments and/or changing and verifying their payment schedule or options.

#### **Configuration Recommendations:**

Answer configuration for this intent should be to provide information on available options, how to configure/manage their payment schedules, and how to make payments using these options. Consider including additional customer service contact information should the customer need further assistance with their questions.

#### **Parameters:**

n/a

#### **Standard Questions:**

[Payment Options and Payment Support Standard Questions on page 257](#)

## Dispute Bill

---

[Billing and Support Inquiry on page 194](#)

### Dispute Bill

#### **Description:**

Matches on questions from customers who are disputing the charges or believe there are discrepancies on their bills.

#### **Configuration Recommendations:**

Answer configuration for this intent should be to provide information on the process for disputing a billing charge and/or reporting discrepancies on their bills. Consider providing content describing how to read a bill, and the explanation for the different fees and charges.

#### **Parameters:**

n/a

## Standard Questions:

[Dispute Bill Standard Questions on page 245](#)

## Balance Inquiry

---

[Billing and Support Inquiry on page 194](#)

### Balance Inquiry

## Description:

Matches on questions from customers who are looking to find the current balance on their account. This intent does not match on questions on view or understanding a bill or looking for a copy of a current bill (see other intents for these questions).

## Configuration Recommendations:

Answer configuration for this intent should be to provide links for online accessing the balance on their accounts. Consider providing links for setting up for a online account and for signing in to an existing account. If possible, use the profile information to automatically provide the balance, if the customer has already logged in.

## Parameters:

n/a

## Standard Questions:

[Balance Inquiry Standard Questions on page 221](#)

## View Bill Details

---

[Billing and Support Inquiry on page 194](#)

### View Bill Details

## Description:

Matches on questions from customers who are looking to view the details of a current bill, including the different credits, fees and charges. This intent will not match on questions about understanding the bill, checking the current balance or disputing a bill (see other intents for those questions).

**Configuration Recommendations:**

Answer configuration for this intent should be to provide links for online accessing the bill details linked to their accounts. Consider providing links for setting up for a online account and for signing in to an existing account, so they can view the bill online. If possible, use the profile information to automatically bring up the bill details, if the customer has already logged in.

**Parameters:**

n/a

**Standard Questions:**

[View Bill Details Standard Questions on page 299](#)

## Understanding a Bill

---

[Billing and Support Inquiry on page 194](#)

**Understanding a Bill**

**Description:**

Matches on questions from customers who are looking to understanding the details of a bill, including the different credits, fees and charges. This intent will not match on questions about viewing the bill or disputing a bill (see other intents for those questions).

**Configuration Recommendations:**

Answer configuration for this intent should be to provide information on how to read a bill, and the explanation for the different fees and charges. Also consider adding information to the process for disputing a billing charge and/or reporting discrepancies on their bills.

**Parameters:**

n/a
