PeopleSoft HRMS Portal Pack Preface

This preface discusses:

- PeopleSoft applications.
- PeopleSoft HCM application fundamentals.

PeopleSoft Applications

This PeopleBook refers to the following PeopleSoft application: PeopleSoft HRMS Portal Pack.

PeopleSoft HCM Application Fundamentals

Additional, essential information describing the setup and design of your system appears in a companion volume of documentation called PeopleSoft HCM Application Fundamentals PeopleBook. Each PeopleSoft line of applications has its own version of this documentation.

Note. One or more pages in HRMS Portal Pack operate in deferred processing mode. Deferred processing is described in the preface in the PeopleSoft HCM Application Fundamentals PeopleBook.

See Also

PeopleSoft HCM 9.1 Application Fundamentals PeopleBook, "PeopleSoft HCM Application Fundamentals Preface"

PeopleBooks and the PeopleSoft Online Library

A companion PeopleBook called PeopleBooks and the PeopleSoft Online Library contains general information, including:

- Understanding the PeopleSoft online library and related documentation.
- How to send PeopleSoft documentation comments and suggestions to Oracle.
- How to access hosted PeopleBooks, downloadable HTML PeopleBooks, and downloadable PDF PeopleBooks as well as documentation updates.
- Understanding PeopleBook structure.
- Typographical conventions and visual cues used in PeopleBooks.
- ISO country codes and currency codes.
• PeopleBooks that are common across multiple applications.
• Common elements used in PeopleBooks.
• Navigating the PeopleBooks interface and searching the PeopleSoft online library.
• Displaying and printing screen shots and graphics in PeopleBooks.
• How to manage the locally installed PeopleSoft online library, including web site folders.
• Understanding documentation integration and how to integrate customized documentation into the library.
• Application abbreviations found in application fields.

You can find *PeopleBooks and the PeopleSoft Online Library* in the online PeopleBooks Library for your PeopleTools release.
Chapter 1

Getting Started with HRMS Portal Pack

This chapter discusses:

• HRMS Portal Pack pagelets.
• HRMS Portal Pack integrations.
• HRMS Portal Pack implementation.

HRMS Portal Pack Pagelets

PeopleSoft HCM pagelets include:

• Birthday Alerts pagelet.
• Anniversary Alerts pagelet.
• Direct Reports pagelet.
• Employee Leave Summary pagelet.
• Manager Leave Summary pagelet.
• Stock Options pagelet.
• Paychecks pagelet.
• Company Directory pagelet.
• Organization Directory pagelet.
• Employee Performance pagelet.
• Upcoming Training pagelet.
• Schedule Training pagelet.
• Employee Expiring Licenses pagelet.
• Manager Expiring Licenses pagelet.
• Open Positions pagelet.
• Time Management Alerts pagelet.
• Workforce Availability pagelet.
• Direct Reports Phones pagelet.

PeopleSoft Recruiting Solutions pagelets include:
• Recruiter Alerts pagelet.
• My Job Openings pagelet.
• Find Job Openings pagelet.
• My Applicants pagelet.
• Job Openings pagelet.
• Quick Search pagelet.

PeopleSoft HCM to ELM On Demand pagelets include:
• Instructor Center pagelet.
• Manager Learning Center pagelet.
• My Learning pagelet.
• My Team Learning pagelet.

PeopleSoft HCM on Demand pagelets include:
• Administer Career Plans pagelet.
• Administer Succession Plans pagelet.
• Employee Profile pagelet.
• Manage Careers & Successions pagelet.
• Manager Profile Management pagelet.
• My Development Documents pagelet.
• My Performance Documents pagelet.
• Profile Administrator Home pagelet.
• Team Development Documents pagelet.
• Team Performance Documents pagelet.
• ePerformance Administration pagelet.
• My Career Plan pagelet.

PeopleSoft TalentLinks pagelets include:
• My Compensation Activities pagelet.
• eCompensation Admin Home pagelet.
• eCompensation Administration pagelet.

---

HRMS Portal Pack Integrations

The HRMS Portal Pack includes portal pagelets that provide access to key data from your PeopleSoft HCM system. The portal pack is intended to supplement the core business applications with pagelets for your portal's homepage.

The following graphic shows the PeopleSoft HCM applications that feed data to the HRMS Portal Pack:

![PeopleSoft HRMS Portal Pack data sources](image)

PeopleSoft HRMS Portal Pack data sources

This documentation discusses integration considerations in the implementation chapters in this PeopleBook.

---

HRMS Portal Pack Implementation

PeopleSoft Setup Manager enables you to generate a list of setup tasks for your organization based on the features that you are implementing. The setup tasks include the components that you must set up, listed in the order in which you must enter data into the component tables, and links to the corresponding PeopleBook documentation.
Other Sources of Information

In the planning phase of your implementation, take advantage of all PeopleSoft sources of information, including the installation documentation, table-loading sequences, data models, and business process maps.

Chapter 2

Understanding HRMS Portal Pack

This chapter discusses:

• HRMS Portal Pack overview.
• PeopleSoft pagelet activation and personalization.
• HRMS Portal Pack pagelets.

HRMS Portal Pack Overview

The PeopleSoft HRMS Portal Pack provides a collection of pagelets that you can individually select to appear on a corporate intranet or extranet homepage. The individual pagelets provide information gathered from various PeopleSoft HCM applications.

PeopleSoft Pagelet Activation and Personalization

HRMS Portal Pack includes portal pagelets that provide at-a-glance access to essential data from your system. The portal pack supplements other PeopleSoft HCM applications that provide the underlying data.

When you install HRMS Portal Pack, users can personalize their portal homepages by adding the pagelets that they need. Standard PeopleSoft role-based security ensures that users can access only the pagelets appropriate to their roles.

Users can configure their portal homepages with three narrow columns or one narrow and one wide column. What appears to the user is determined by the pagelets dynamically.

Note. Each pagelet can be configured to use any of the HCM access types. PeopleSoft recommends using the same access type for each pagelet. This ensures consistency when managers of direct reports view the different pagelets to help improve performance. To set up the access type, access the Direct Reports Setup component by selecting Set Up HRMS, Common Definitions, Direct Reports for Managers, Direct Reports Setup.

Some pagelets support personalization that enables individual users to configure content displayed in their pagelet; the Customize button in the pagelet title bar alerts you to this capability. Click the button to access the Personalization page.
See Also

HRMS Portal Pack Pagelets

This section lists the pagelets the make up HRMS Portal Pack and identifies:

- The name and object name of the pagelets.
- The audience for the pagelet: employees, customers, or suppliers.
- The functional role of the person who uses the pagelet.

These are business process functional roles not delivered as such by PeopleTools user security roles.

- The pagelet's enabling application.

The enabling application provides the data that appears in the pagelet. If the enabling application has not been licensed, the pagelet won't work.

This table lists the pagelets and their enabling applications:

Chapter 3

Setting Up HRMS Portal Pack

This chapter discusses how to:

- Define default settings for the Employee Performance Alerts pagelet.
- Define default settings for the Open Positions pagelet.
- Enable MapQuest for the Organization Directory pagelet.

Defining Default Settings for the Employee Performance Alerts Pagelet

To define default settings for the Employee Performance Alerts Settings page, use the Employee Performance Alerts Setup (EP_ALERT_SETUP) component.

This section discusses how to:

- Activate the Employee Performance pagelet.
- Define settings for the Employee Performance Alerts pagelet personalizations.

See Also

Chapter 4, "Using HRMS Portal Pack Pagelets," Viewing the Employee Performance Pagelet, page 38

Page Used to Define Default Settings for the Employee Performance Alert Pagelet

<table>
<thead>
<tr>
<th>Page Name</th>
<th>Definition Name</th>
<th>Navigation</th>
<th>Usage</th>
</tr>
</thead>
</table>
Activating the Employee Performance Pagelet

The Employee Performance pagelet is a self-service pagelet that managers can use to quickly check the status of the performance documents for which they are responsible. For a given document type, the pagelet lists each employee's name, the due date, and a color-coded button that identifies if the document is complete, on schedule, behind schedule, or cancelled.

To enable managers to use the pagelet, you must:

1. Activate the Employee Performance pagelet.
2. Define the default rules for the pagelet.

See Also

Defining Settings for the Employee Performance Alerts Settings Page

Access the Employee Performance Alerts Setup page (Set Up HRMS, Product Related, ePerformance, Pagelet Alerts).
Employee Performance Alerts Setup

**Doc Type** (document type)  Select the type of document to list on the Employee Performance pagelet. You define document types on the Document Types page.

**Period End Date >=** (period end greater than or equal to)  Select the end date for the performance period for which documents are to be listed. The system lists documents with the same period end date or later.

**Employees to display**  Enter the number of employees to list on the pagelet. If the number of employees with documents exceeds this number, the pagelet automatically includes a More link that enables the manager to list all employees with the selected document type.
Self Service Edits

Use this group box to define how much control managers can have over the appearance of their Employee Performance pagelet. If you select any of the check boxes here, the manager can change the selected default settings. To change the settings on the Employee Performance pagelet, click the Customize button on the pagelet to access the Employee Performance Alerts Settings page.

Allow changes to Type  Select to enable managers to pick a document type other than the one you selected in the Type field.

Allow changes to Date Range  Select to enable managers to enter a different date range.

Allow changes to Alert Levels  Select to enable managers to determine which alerts should appear on the pagelet.

Allow changes to Alert Days  Select to enable managers to change the number of days before the due date that triggers the alerts.

Allow changes to Nbr Employees(allow changes to number of employees)  Select to enable managers to change the number of employees that are listed on the pagelet when the pagelet is opened.

Display Alert Levels

Use this group box to select the types of alerts that should appear. Select the corresponding check box for each alert to display.

Alert Days Before Due Date

Use this group box to select the statuses that are to trigger alerts and the number of days prior to the due date that an alert is to be considered standard versus critical.

Sequence  Enter the order in which this document status is to appear on the Employee Performance Alerts Personalization page.

See PeopleSoft ePerformance 9.1 PeopleBook, "Using Inquiry Pages."
Critical Alerts and Standard Alerts

These fields apply only if you select Critical Alert and Standard Alert in the Display Alert Levels group box.

Enter the number of days before a document's due date that a critical alert button or a standard alert button is to appear if the document is still in the selected status.

For example, suppose that you select the status *In Progress*, and enter *30* in the Critical Alerts field and *60* in the Standard Alerts field. This causes the standard alert button to appear on the pagelet when a document is in progress from 31 to 60 days before its due date. The critical alert button appears if the document is still in progress 30 days or less before the due date.

---

Defining Default Settings for the Open Positions Pagelet

To set default settings for the Open Positions pagelet, use the Open Positions Setup (CO_PE_VACPOS_SETUP) component.

This section discusses how to:

• Activate the Open Positions pagelet.
• Define default rules for the Open Positions pagelet.

See Also

Chapter 4, "Using HRMS Portal Pack Pagelets," Personalizing the Open Positions Pagelet, page 28

Page Used to Define Default Settings for the Open Positions Pagelet

<table>
<thead>
<tr>

<th>Usage</th>
</tr>
</thead>
</table>
Activating the Open Positions Pagelet

The Open Positions pagelet is a self-service pagelet that managers can use to quickly check the status of open positions. The pagelet displays position information and links to other related position pages.

To enable managers to use the pagelet, you must:

1. Activate the Open Positions pagelet.
2. Define the default settings for the pagelet.

See Also

Defining Default Settings for the Open Positions Pagelet

![Setup Open Positions page](image)

**Display Position Description Link**

Select to display the Position Description link. This link provides access to the Position Description page where you can view the position description.

**Display/Create Job Req and Review Job Req links** (display/create job requisitions and review job requisitions links)

Select to display the job requisition links. This link provides access to the Job Requisition page where you can review existing job requisitions or create a new one.

Enabling MapQuest for the Organization Directory Pagelet

To enable MapQuest on the Organization Directory pagelet, use the Organization Directory (EO_PE_CDADMIN_CMP) component.

This section discusses how to enable MapQuest for locations on the Organization Directory pagelet.

Page Used to Enable MapQuest for Locations on the Organization Directory Pagelet

<table>
<thead>
<tr>
<th>Page Name</th>
<th>Definition Name</th>
<th>Navigation</th>
<th>Usage</th>
</tr>
</thead>
</table>

Enabling MapQuest for Locations on the Organization Directory Pagelet

Organization Directory - Pagelet Administration page

Select the Enable MapQuest for Locations check box to have the system provide a company location link that will open up a MapQuest window when performing a location search from the pagelet.

Chapter 4

Using HRMS Portal Pack Pagelets

This chapter lists common elements and discusses how to:

- Display portal pagelets.
- Personalize pagelets.
- View manager pagelets.
- View employee pagelets.
- View Recruiter Alerts for Talent Acquisition Manager
- View additional Talent Acquisition Manager pagelets.

Common Elements Used in This Chapter

<table>
<thead>
<tr>
<th>Common Element</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Number of Rows (1 to 99)</td>
<td>Enter the number of rows to display on the page.</td>
</tr>
<tr>
<td>Days to view in the future</td>
<td>Enter the number of days in the future that the system should use to display upcoming events.</td>
</tr>
<tr>
<td>Days to view in the past</td>
<td>Enter the number of days in the past that the system should use to display past events.</td>
</tr>
<tr>
<td>Maximum displayed rows</td>
<td>Enter the maximum number of rows that should appear on the page. This only limits the number of rows that appear and does not limit the amount of information that the system retrieves.</td>
</tr>
<tr>
<td>More</td>
<td>Click this link to view more information.</td>
</tr>
<tr>
<td>Indicate</td>
<td>Indicates that an approaching date is within the defined alert limit.</td>
</tr>
<tr>
<td>Customize</td>
<td>Click the Customize button to define the number of rows and columns you want to display on a pagelet. Not all pagelets can be personalized.</td>
</tr>
</tbody>
</table>

Displaying Portal Pagelets

You can control the pagelet selection and, optionally the layout, for your users by using the Portal homepage feature in PeopleTools. To make pagelets available for selection and display:
2. Select the Portal Objects link on the Structure and Content page.
3. Select the Homepage link.
4. Select the Tabs link.
5. Select the Edit link for My Page in the Content References grid.
6. Access the Tab Content page (select the Tab Content tab).
7. Use the Tab Content page to select pagelets and define their behavior. Select Required or Req-Fix to make the pagelets always appear on users' home pages. Using Req-Fix also prevents pagelets from being moved on the home page.
8. Use the Tab Layout page to arrange any required pagelets.

**Note.** Access to pagelets is also controlled by the standard PeopleTools component security. Even with the pagelet selected using the previous procedure, you cannot see the pagelet as a content choice unless you also have the PeopleTools security to access the component through your role and its permission lists.

See *PeopleTools: Portal Technologies PeopleBook, "Administering Portal Homepages and Pagelets."

The next example displays a personalized homepage using PeopleSoft HCM portal pagelets. After defining portal objects in PeopleTools, individual users can click the Content link in the upper left-hand corner to define pagelets for their homepage, and click the Layout link to arrange their homepage elements. The example uses a three-column layout.

By default, portal pagelets display action bars in the upper right-hand corner that, depending on the pagelet properties, enable you to minimize, personalize, or remove the pagelet from the homepage.
Portal pagelet example

**Personalizing Pagelets**

Each individual user can personalize the content for their pagelets by clicking the Customize (pencil) button on the pagelet headers. This section discusses how to:

- Personalize the Direct Reports pagelet.
- Personalize the Employee Leave Summary pagelet.
- Personalize the Manager Leave Summary pagelet.
- Personalize the Stock Options pagelet.
- Personalize the Employee Performance pagelet.
- Personalize the Upcoming Training pagelet.
- Personalize the Scheduled Training pagelet.
- Personalize the Setup Open Positions pagelet.
• Personalize the Time Management Alerts pagelet.
• Personalize the Workforce Availability pagelet.
• Personalize the Direct Reports Phones pagelet.
• Personalize the Recruiter Alerts pagelet.
• Personalize the My Job Openings pagelet.

Values include:

- *Display Business Phone*
- *Display Employee Id*
- *Display Job Title*
- *Display Location*

---

### Personalizing the Employee Leave Summary Pagelet

Access the Select Job Title page (click the Customize button on the Employee Leave Summary pagelet).
Personalizing the Manager Leave Summary Pagelet

Access the Select Job Title page (click the Customize button on the Manager Leave Summary pagelet).

**View Absences for the last**

**View Absences for the next**

Enter the number of weeks in the past and in advance for which you want to display absence information.

Note. This page is similar to the page used to personalize the Employee Leave Summary pagelet.

Personalizing the Stock Options Pagelet

Access the Personalize Stock Options page (click the Customize button on the Stock Options pagelet).
Personalize Stock Options page

**Display Preferences**

**Default Company Stock**  Select the company for which you want to display stock option information.

**Max Number of Displayed Rows** (maximum number of displayed rows)  For multiple stock option grants, select the number of rows to appear on the pagelet. If the number of grants exceeds the number of rows, the system automatically displays the More link.

**Sort By**  Define how the information is sorted. Values are: *Grant Date, Grant Number, Grant Price, and Option Type.*

**Display Fields - Select up to 4**

- **Grant Number**  Displays the grant issue number.
- **Grant Date**  Displays the issue date of each grant listed.
Option Type  Displays the type of option for each grant.
Grant Price  Displays the issue price for each grant.
Shares Granted  Displays the number of shares granted for each grant.
Shares Exercisable  Displays the number of shares currently exercisable for each grant listed.
Last Vesting Date  Displays only the last date that options vested and does not display any additional information about the options.

Personalizing the Employee Performance Pagelet

Access the Employee Performance Alerts Settings page (click the Customize button on the Employee Performance pagelet).

Employee Performance Alerts Settings page
### Document Type

### Period End Date >=
Select the end date of the performance period for which documents are to be listed. The system lists documents with the same date or later than the date entered here.

### Employees to display
Enter the number of employees to list on the pagelet.

### Use Default Settings
Click to reset the values on the page to the values that you defined when you last set up this page. Values are defaulted from product level.

**Note.** This button does not appear on the Employee Performance Alerts Setup (EP_ALERT_SETUP) page when you are defining the settings. It appears only on the Employee Performance Alerts Setup (EP_PE_OPR_ALERT) page, which is accessed when a user clicks Customize from the Employee Performance pagelet.

**Note.** Fields that display on this page are defined on the Employee Performance Alerts Setup page and may vary depending on the setup defined there.

### Alert Levels to Include
Select the desired alert levels to include on the Employee Performance page.

### Alert Days Before Due Date
For each document status type (**Acknowledged**, **Review Held**, **Available for Review**, **In Progress**, **Cancelled** and **Complete**), define the number of days before a document's due date that a critical or standard alert appears.

### See Also

**Personalizing the Upcoming Training Pagelet**

Access the Personalize Upcoming Training Page (click the Customize button on the Upcoming Training pagelet).
Personalize Upcoming Training

Indicate the maximum number of courses to display on the home page. Also, specify the number of days in the future you would like to see courses for.

**Display Preferences**

* Maximum displayed rows: 5
* Days to view in the future: 30

* Required Field

**Personalize Upcoming Training page**

**Maximum displayed rows**  Enter the number of rows of training information you want to display on the Upcoming Training pagelet.

**Days to view in the future**  Enter the number of days into the future for which you want to see upcoming training.

---

Personalizing the Scheduled Training Pagelet

Access the Personalize Scheduled Training page (click the Customize button on the Scheduled Training pagelet).

**Personalize Scheduled Training**

Indicate the maximum number of courses to display on the home page. Also, specify the number of days in the future you would like to see courses for.

**Display Preferences**

* Maximum displayed rows: 5
* Days to view in the future: 30

* Required Field

**Personalize Scheduled Training page**

**Maximum displayed rows**  Enter the number of rows of training information you want to display on the Scheduled Training pagelet.
Days to view in the future  Enter the number of days into the future for which you want to see scheduled training.

Personalizing the Open Positions Pagelet

Access the Personalize Open Positions page (click the Customize button on the Open Positions pagelet).

Personalize Open Positions page

Enter the number of positions that you want to display on the Open Positions pagelet.

Personalizing the Time Management Alerts Pagelet

Access the Personalize Time Management Alerts page (click the Customize button on the Time Management Alerts pagelet).

Personalize Time Management Alerts page

Use this page to select which time management alerts you want to make available on the Time Management Alert pagelet.
**Overtime Limit Reached**  Select to display those employees who have reached the overtime limit.

**Overtime Approval Required**  Select to display those employees who have requested overtime approval.

**Payable Time Approval Required**  Select to display those employees who have payable time which requires approval.

**Exceptions to Review**  Select to display time reporting exceptions that require review.

**Absence Approval Required**  Select to display requested Global Payroll absences which require approval.

**See Also**

*PeopleSoft Time and Labor 9.1 PeopleBook, "Managing Time"*

---

**Personalizing the Workforce Availability Pagelet**

Access the Personalize Workforce Availability page (click the Customize button on the Workforce Availability pagelet).

**Personalize Workforce Availability**

Use this page to select which workforce availability alerts you want to make available on the Workforce Availability pagelet.

**Currently Clocked In**  Select to display employees who are currently clocked in for the current punch shift.

**No Show for Current Shift**  Select to display employees who are scheduled for the current punch shift but have not clocked in.
Scheduled for Current Shift  Select to display employees who are scheduled for the current punch shift.

Reported Absent for Today  Select to display employees who are reported as absent.

If PeopleSoft Global Payroll is installed, the system determines if any absences are reported in the absence pages. In addition, the system detects any leave time reporting codes (TRCs) in the PeopleSoft Time and Labor application's reported elapsed time, which is not a Global Payroll absence.

Reported In Training for Today  Select to display employees who have scheduled, approved training for the day.

This count will include the attendance statuses from the Training Administration business process of currently attending, completed, enrolled, approved and authorized.

Personalizing the Direct Reports Phones Pagelet

Access the Personalize Phones page (click the Customize button on the Direct Reports Phones pagelet).

**Personalize Phones**

Specify the number of direct reports you would like to see on the pagelet. Select up to three columns to display in addition to employee name.

**Display Preferences**

- **Maximum displayed rows:**  5
- **Display Phone Type 1:**  Business
- **Display Phone Type 2:**  Home
- **Display Phone Type 3:**  Mobile

**Personalize Phones page**

**Display Phone Type 1**  Select up to three phone types and in the order in which you want them to appear.

Personalizing the Recruiter Alerts Pagelet

Access the Personalize Alerts page (click the Customize button on the Recruiter Alerts pagelet).
Personalize Alerts page

Use this page to select the alerts that you want to display on the Recruiter Alerts pagelet.

**New Applicants** and **Applied Within**
Select New Applicants to display the number of new applicants that have applied to your job openings within the time frame that you select in the Applied Within drop-down list box.

For example, you can select to view applicants that have applied within the last 30 days.

**Auto Match Results**
Select to display the number of applicants currently in the Auto Match results.

**Interviews Today**
Select to display the number of interviews scheduled for the user.

**Unconfirmed Interviews**
Select to display the number of interviews that have been scheduled but are not yet confirmed.

**Interview Evaluations**
Select to display the number of interview evaluations assigned to the user.

**Prepare Job Offer**
Select to display the number of applicants in the Prepare Job Offer queue.

**Approve Job Offer**
Select to display the number of applicants in the Approve Job Offer queue.
Prepare for New Hire  Select to display the number of new hire proceedings for applicants that have accepted job offers.

Approve Job Opening  Select to display the number of job openings waiting for approval.

Online Job Offer and Days Until Offer Expires  Select to display the number of open online job offers that you created that have expired or that will expire within the number of days that you enter. Open online job offers are offers that you posted to Candidate Gateway that have not been accepted or rejected. The offer status must be Extend.

Unevaluated Answers  Select to display the number of open-ended screening question evaluations that the user has requested but that the assigned evaluators have not yet completed.

Questionnaire Request  Select to display the number of applicants who have not completed the questionnaires for job openings to which they are linked.

Personalizing the My Job Openings Pagelet

Access the Personalize My Job Openings page (click the Customize button on the My Job Openings pagelet).
Personalize My Job Openings page

Use this page to define what information displays on the My Job Opening pagelet. Use the fields in the upper portion of the page to place parameters on the type of information you select in the lower portion of the page. To include a type of information on the pagelet, select the corresponding check box. The Job Opening check box is selected as a default, and you can select four more types of information to display on the pagelet.

**With Status of**
Select a specific status for which you want to view job openings. If you do not make a selection, job openings in all statuses that meet other criteria you specify on this page will be available using the My Job Opening pagelet.

**Created Within**
Select a point in time from which you want to view job openings. For example, select *Last Month* to display your job openings for the last 30 days or *Last Week* to see your openings for the last seven days. If you do not make a selection, the system does not display any results on the My Job Opening pagelet.

**Maximum displayed rows**
Enter the number of rows you want to display on the My Job Opening pagelet. You can enter up to 99 rows; however, the system will only display the number of job openings that meet the criteria you specify.

Viewing Manager Pagelets

This section discusses:

- Viewing the Birthday Alerts pagelet.
- Viewing the Anniversary Alerts pagelet.
- Viewing the Direct Reports pagelet.
- Viewing the Manager Leave Summary pagelet.
- Viewing the Company Directory pagelet.
- Viewing the Organization Directory pagelet.
- Viewing the Employee Performance pagelet.
- Viewing the Scheduled Training pagelet.
- Viewing the Manager Expiring Licenses pagelet.
- Viewing the Open Positions pagelet.
- Viewing the Time Management Alerts pagelet.
- Viewing the Workforce Availability pagelet.
- Viewing the Direct Reports Phones pagelet.

Note. You can personalize many of these pagelets, so they can appear differently in the application than described in this chapter.

See Also

Chapter 4, "Using HRMS Portal Pack Pagelets," Personalizing Pagelets, page 19

Viewing the Birthday Alerts Pagelet

The Birthday Alerts pagelet displays upcoming employee birthdays.
Birthday Alerts pagelet

Managers use this pagelet to view the birth dates for their direct reports.

Click an employee name to access the Employee Information page in PeopleSoft eProfile where you can view additional information about a specific employee and access links to pages with more specific employee information.

Click Employee Search to access the Employee Search page to look for a specific employee.

Viewing the Anniversary Alerts Pagelet

The Anniversary Alerts pagelet displays upcoming employee job anniversaries.

Anniversary Alerts pagelet

Managers use this pagelet to view the hire date for their direct reports.

Click an employee name to access the Employee Information page where you can view additional information about a specific employee and access links to pages with more specific employee information.

This pagelet uses time and labor group security or defaults to department security to determine the employees reporting to a manager. The reporting structure also depends on the association to the manager's row security permission list.

The date that appears in the First Start Date column is the current date, unless the time and labor date is enabled on the Time and Labor Permission List page for the manager's row security permission list.
Viewing the Direct Reports Pagelet

The Direct Reports pagelet displays information on direct reports.

<table>
<thead>
<tr>
<th>Employees</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Name</strong></td>
</tr>
<tr>
<td>Adland Chu</td>
</tr>
<tr>
<td>Diane Palmer</td>
</tr>
<tr>
<td>Susan Hoinck</td>
</tr>
</tbody>
</table>

**Direct Reports pagelet**

Managers use this pagelet to view a list of their direct reports.

**Name**
Click a link in the Name column to access the View Employee Personal Information page where you enter data and click Continue to access the Employee Information page in eProfile. On the Employee Information page in eProfile, you can view additional details for a specific employee. The Employee Information page also contains links to related employee data pages.

**More**
Click to access a wide version of the pagelet with multiple columns showing additional data.

The narrow version displays only the data specified in the Display Additional Information field on the Personalize Direct Reports page.

**Employee Search**
Click to access the Employee Search page where you can define search criteria to find a specific employee.

**Skill**
Click to access the Current Team Profiles page for profiles to which you have security access, where you can view detailed information regarding the skills of a selected employee.

**Note.** The Skill link appears only on the wide version of the Direct Reports pagelet.

**Training**
Click to access the Training Summary page where you can view detailed information regarding training for a specific employee.

**Note.** The Training link appears only on the wide version of the Direct Reports pagelet.
Viewing the Manager Leave Summary Pagelet

The Manager Leave Summary pagelet displays information about absence requests from employees.

This pagelet displays information for absence requests. Select a value in the Your Employee's Absence Request to access Absence Requests page. You use the page to review absence requests by status and to access absence requests details.

Click the More link to view additional requests if they exist.

Viewing the Company Directory Pagelet

The Company Directory pagelet displays search fields to locate employees by name, job title, department, or email. You also have the option to use an advanced search, where you can enter additional search criteria.

![Company Directory](Company%20Directory.png)

Company Directory pagelet

Employees use this pagelet to search for people using the Company Directory feature.

**Advanced Search**

Click this link to access the Company Directory - Search For People: Advanced Search page. Use the Advanced Search link to enter multiple criteria to search for an individual.

**My Profile**

Click this link to have the system display your information as the focus in the Company Directory component.

See PeopleSoft HR 9.1 PeopleBook: Administer Workforce, "Viewing Summary Workforce Information," Using the Org Chart Viewer.

Viewing the Organization Directory Pagelet

The Organization Directory pagelet displays search fields to locate employees by name and or location.
Organization Directory pagelet

Employees use this pagelet to search for people or locations.

**See Also**

**Viewing the Employee Performance Pagelet**

The Employee Performance pagelet displays summarized employee performance information.
Employee Performance pagelet

Managers use this pagelet to check the status of the performance document for which they are responsible. The pagelet lists the employees with performance documents, the dues dates, and an indicator that shows whether a document is complete, on schedule, behind schedule, or cancelled.

**Employee**

Click an employee name link to access the Maintain Performance Document page. The type of document that appears on the Maintain Performance Document page depends on the document types that you set up on the Employee Performance Alerts Settings page.

**More**

Click this link to access performance information for additional employees.

**See Also**

Viewing the Scheduled Training Pagelet

The Scheduled Training pagelet displays employee training that has been scheduled. The page also displays the course start date and the enrollment status.
Scheduled Training pagelet

Click an employee name link to access the Training Summary page where you can view details regarding the selected employee's training. The Training Summary page provides detailed information on training including internal and external training and courses that have been completed.

Click the More link to access the Scheduled Training page.

See Also

<tr>
<td>HR</td>
<td>Snr Mgr Human Resources</td>
<td>1</td>
</tr>
<tr>
<td>Sales Free</td>
<td>Sales Manager</td>
<td>1</td>
</tr>
</tbody>
</table>

More

**Position**
Displays the position title.

**Position Headcount**
Displays the number of open positions for the corresponding position.

**More**
Click to access the complete list of open positions.

**See Also**

Viewing the Time Management Alerts Pagelet

The Time Management Alerts pagelet displays time related events and occurrences alerts.
Time Management Alerts pagelet

Alert links on this pagelet are active only if there are occurrences to report and action to be taken.

The pagelet uses time and labor group security or defaults to department security to determine employees reporting to a manager, depending on the association to the manager's row security permission list. In addition, the date is determined as the current date, unless the time and labor system date is enabled on the Time and Labor Permission List page for the manager's row security permission list.

**Note.** This page requires implementation of Time and Labor.

**Overtime Limit Reached**  
Click to access the View Overtime Balances page where you can view detailed information regarding overtime limits reached by employees.

Click Get My Employees or Get Employees in Group on the View Overtime Balances page to view the overtime limits and balances.

The occurrences equal the count of the employees that are shown to have exceeded their overtime limit when you view overtime balances.

**Overtime Approval Required**  
Click to access the Approve Overtime Requests page where you can view and approve overtime requests for employees.

The occurrences indicate the number of requests to be approved. This value equals the count of the employees that appear on the Select an Employee Request page.

**Payable Time Approval Required**  
Click to access the Approve Payable Time page where you can view and approve reported payable time.

The occurrences indicate the number of rows of payable time to be approved.

**Exceptions to Review**  
Click to access the Manage Time Exceptions page where you can view time reporting exceptions generated through time reporting.

The occurrences indicate the number of exceptions to review.
Absence Approval Required  Click to view and approve Global Payroll absence requests for employees. This link only displays if Global Payroll is installed. The occurrences indicate the number of absence requests to be approved.

<tr>
<td>Reported In Training for Today</td>
<td>0</td>
</tr>
</tbody>
</table>

Daily Time Calendar
Weekly Time Calendar

Workforce Availability pagelet

Click the Customize button in the upper right-hand corner to define which statuses display in the Employee Status column.

To populate the Employee Count field for the Reported Absent for Today status, the system checks for any absences reported in PeopleSoft Absence Management whether they are designated for PeopleSoft Payroll for North America or for Global Payroll.

The system uses data from the PeopleSoft Enterprise Learning Management application to update the Employee Count field for the Reported in Training for Today status. However, you must enable the application to retrieve the data. To send the training data, the system uses the Scheduled Time Fullsync and Scheduled Time Sync messages. Training data is stored in the PS_SCH_EXT_DTL record.
Daily Time Calendar and Weekly Time Calendar

Click to access the Daily Time Calendar and Weekly Time Calendar pages to view current time-related information on employees. These time calendars provide more detailed information regarding availability details.

Select All  Deselect All

Send Reminder  Delete Request

Unevaluated Answers page

**Applicant**

Click this link to access applicant data on the Manage Applicant page.

**Job Opening**

Click this link to access the Job Opening page.

**Send Reminder**

Select the check box next to one or more of the applicants in the grid, then click the Send Reminder button to send a reminder to the evaluators who are assigned to evaluate answers for the selected applicants.

**Delete Request**

Select the check box next to one or more of the applicants in the grid, then click the Delete Request button to remove the selected rows from this grid. Removing rows from this grid does not change anything about the screening process; unevaluated answers are still included in screening. If there are no evaluations for the answer, then the applicant receives no points for the answer.

Viewing the Questionnaire Request Page

The Questionnaire Request page displays a list of applicants who have not completed an online questionnaire after being linked to one of the user's job openings and after being sent a request to complete the questionnaire.
Questionnaire Request

Listed below are the applicants who have not completed the questionnaires for your requisitions. Choose Send Reminder to send email to selected applicants to remind them to complete answers to the questionnaires.

Viewing the Find Job Openings Pagelet

The Find Job Openings pagelet displays search options for finding job openings.

![Find Job Openings pagelet](image)

Find Job Openings pagelet

Use this pagelet to choose filtering criteria for finding job openings. Filter based on the job opening’s status and when the job opening was created.

When you click the Search button, the Browse Job Openings page appears with the selected filters applied.

Viewing the My Applicants Pagelet

The My Applicants pagelet displays search options for your applicants (applicants that are attached to job openings where you are either the originator or part of the hiring team).

![My Applicants pagelet](image)

My Applicants pagelet

Only first 100 Job Openings are displayed in the Job Opening drop down. For a detailed search go to Find Applicants page.
Use this pagelet to perform an applicant search using a subset of the criteria that is available on the Find Applicants page. When you click the Search button, the Find Applicant page appears and shows the results of your search.

### Viewing the Job Openings Pagelet

The Job Openings pagelet displays job openings for all positions.

![Job Openings pagelet](image)

Use this pagelet to view and update job openings.

### Viewing the Quick Search Pagelet

The Quick Search pagelet displays search fields for applicants and job openings.
Quick Search pagelet

Use this pagelet to initiate a search for information about applicants and job openings. Select a search option, then enter a corresponding value in the lower field and click Search to view search results on the appropriate Talent Acquisition Manager page.

Search options include:

- **Applicant (Last, First Name)**: Enter the applicant's last name and then first name, then search to view the search results on the Find Applicants page.

- **Hiring Mgr (Name)**(hiring manager name): Enter the hiring manager's first and last name, then search to view the search results on the Find Job Openings page.

- **Job Opening Number**: Enter the job opening number, then search to view the search results on the Find Job Openings page.

- **Search Resume Text**: Enter text that you want to search for in a resume, then search to view the search results on the Find Applicants page.
