This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS

Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, duplication, disclosure, modification, and adaptation shall be subject to the restrictions and license terms set forth in the applicable Government contract, and, to the extent applicable by the terms of the Government contract, the additional rights set forth in FAR 52.227-19, Commercial Computer Software License (December 2007). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

This software is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications which may create a risk of personal injury. If you use this software in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure the safe use of this software. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software in dangerous applications.

Chapter 1: Hot Fixes

This chapter contains hot fixes included in Release 6.0.0.6 of Oracle Agile Product Lifecycle Management for Process.

Hot Fixes

The following table lists hot fixes that are included in the Oracle Agile Product Lifecycle Management for Process 6.0.0.6 release.

Table: 1-1 Hot Fixes

Patch Number		Resolved Issue
13526104	6.0.0.5.1	A collision with translation IDs in 6.0.0.5 and 6.1 scripts caused an application to crash
13513695	6.0.0.5.2	A business unit of shared ingredient varied depending on the business unit of the last formulation it was associated with
13563011	6.0.0.5.3	Behavior of tags in ingredient specifications was not consistent in 6.0.0.5
13599919	6.0.0.5.4	Water loss calculations were not functioning on multi-tiered formulas
13466937	6.0.0.5.4	Input quantity was not updated when the user edited a formulation
13605660	6.0.0.5.5	The user was able to edit team members and any other attribute of a previous stage which has already been approved
13624115	6.0.0.5.6	This fix makes OPLA 3.3.1 work with the 6.0.x release
13629007	6.0.0.5.7	Calculations were not working correctly in 6.0.0.5 for theoretical and override values
13724145	6.0.0.5.9	Support documents' security classifications were not appearing in dropdowns in 6.0.0.5
13770724	6.0.0.5.11	Specification-related sourcing approval search by taxonomy did not have equipment specifications
12550712	6.0.0.5.12	The system crashed using multiple tabs for specification edit simultaneously
13850229	6.0.0.5.13	Unauthenticated access to Supplier Portal attachment popup allowed any internet user to upload documents
13862403	6.0.0.5.14	LIO failed to observe moisture loss in nested formulations
13834630	6.0.0.5.15	Some parameters were vulnerable to cross site scripting
13800611	6.0.0.5.16	The date format was incorrect on an ingredient Summary tab
13909130	6.0.0.5.17	Formulation and Process tabs were unresponsive after 6.0.0.5.14 was deployed
13790780	6.0.0.5.18	The user received an unhandled error when attempting to open the formulation output popup
