Introduction to Data Integration Management

Data Integration Management is integrated with Informatica PowerCenter and with adapters for these products:

- Oracle Essbase
- Oracle Hyperion Financial Management, Fusion Edition
- Oracle's Hyperion Enterprise
- Oracle Hyperion Performance Scorecard, Fusion Edition
- Oracle Hyperion Planning, Fusion Edition
- Oracle's Hyperion Translation Manager

Data Integration Management provides a way of uniting disparate data sources across an enterprise. For example, it can integrate data stored in multiple warehouses and data marts, relational database management systems (RDBMS), and online analytical processing (OLAP) stores.

Components of Data Integration Management:

- PowerCenter applications:
 - PowerCenter Client
 - PowerCenter Server
- Data Integration Management Adapters:

- Oracle's Hyperion Data Integration Management Adapter for Essbase
- Oracle's Hyperion Data Integration Management Adapter for Financial Management
- Oracle's Hyperion Data Integration Management Adapter for Hyperion Enterprise
- Oracle's Hyperion Data Integration Management Adapter for Performance Scorecard
- Oracle's Hyperion Data Integration Management Adapter for Planning
- Oracle's Hyperion Data Integration Management Adapter for Translation Manager

Data Integration Management Adapters

When you have installed and configured Data Integration Management, you can install and configure adapters that enable you to retrieve and write data for these Oracle products:

- Essbase
- Financial Management
- Hyperion Enterprise
- Performance Scorecard
- Planning
- Oracle's Hyperion[®] Translation Manager

For adapter installation instructions, see the *Hyperion[®] Data Integration Management Installation Guide*.

Oracle Hyperion Enterprise Performance Management System Installation Start Here

Oracle Hyperion Enterprise Performance Management System Installation Start Here helps you plan your Enterprise Performance Management product's installation and configuration. This document should be read first and used in conjunction with the procedures for installation, configuration, post-configuration, and manual deployment provided in the individual installation guides. *Oracle Hyperion Enterprise Performance Management System Installation Start Here* is available from the Oracle E-delivery and Oracle Technology Network (OTN).

Oracle Hyperion Enterprise Performance Management System Installation Start Here provides information about system requirements, prerequisites, release compatibility, recommended installation sequence, and other information to help you plan your product installation and configuration.

Note: For installing Data Integration Management Adapters see, *Hyperion[®] Data Integration Management Installation Guide*.
