Tips and Troubleshooting

Excel does not launch.

Launch Excel by choosing one of the following:

- In Excel, select Tools, then Macros, and then Security. Go to Trusted Publishers and select Trust all installed add-ins and templates.
- Excel 2003 only: In Excel, select Help, then About Microsoft Excel and select Disabled Items for Ambassador. If it is already selected, select it again.
- In Add/Remove Programs, uninstall Oracle SOP Excel Control.
Hint: You may have to close all Microsoft Office applications including Outlook and Internet Explorer.
- In Internet Explorer, select Tools, then Internet Options, and then delete cookies and files.

Documentation Updates

Accessing EPM System Product Documentation

The most recent version of each EPM System product guide is available for download from the Enterprise Performance Management System Documentation area of the OTN Web site (<http://www.oracle.com/technology/documentation/epm.html>). For faster access to the documentation, you can also use the Enterprise Performance Management Documentation Portal (<http://www.oracle.com/us/solutions/ent-performance-bi/technical-information-147174.html>) which also links to EPM Supported Platform Matrices, My Oracle Support, and other information resources.

Deployment-related documentation is also available from the Oracle E-Delivery Web site (http://edelivery.oracle.com/EPD/WelcomePage/get_form).

Individual product guides are available for download on the Oracle Technology Network Web site only.

Copying and Pasting Code Snippets from PDFs

When you cut and paste code snippets from a PDF file, some characters can be lost during the paste operation, making the code snippet invalid.

Workaround: Cut and paste from the HTML version of the document.
