

# Release Notes

## AutoVue Integration SDK 20.2.1

### Interface for AutoVue

### Oracle Corporation

**Note:** For the most up-to-date version of this document, go to the AutoVue Documentation Web site on the Oracle Technology Network at <http://www.oracle.com/technetwork/documentation/autovue-091442.html>.

## Introduction

AutoVue Integration Software Development Kit (ISDK) is designed for Oracle partners and third-party integrators to develop new integrations between AutoVue server and enterprise systems like Document Management System (DMS) or Product Lifecycle Management (PLM). The purpose of the integration is to enable communication between AutoVue and the enterprise systems as well as to integrate AutoVue's capabilities into their environments. The ISDK includes a sample integration of a simplified file system management (filesys). This sample integration is a starting point for a new integration implementation and is a tool to help you become more familiar with the AutoVue Integration SDK.

## Platforms

Operating Systems that are certified in this release:

- Windows 2003 32-bit
- Windows 2003 64-bit (AutoVue running in 32-bit mode)
- Windows 2008 32-bit
- Windows 2008 64-bit (AutoVue running in 32-bit mode)
- Windows 2008 R2 64-bit (AutoVue running in 32-bit mode)
- Redhat Enterprise Linux 5.8 (x86) 32-bit and 64-bit (AutoVue running in 32-bit mode)
- Oracle Linux 5.8 (x86) 32-bit and 64-bit

## **System Requirements**

- Oracle AutoVue 20.2.1
- Java JDK 1.6 update 23, Java JDK 1.6 update 31 for Filesys Sample, Skeleton and Web Services Client
- Oracle WebLogic Server 11gR1(10.3.5)
- Any other application server that supports Servlet 2.5 may work but are not certified by Oracle
- JDeveloper 11gR1 (11.1.1x)
- Oracle Enterprise Pack for Eclipse 11gR1 (11.1.1.7.3) for Eclipse 3.6.2 Helios Edition
- Web browsers supported by Oracle AutoVue 20.2.1

## **What is New in this Release of AutoVue ISDK**

- Documentation
  - ISDK Security Guide (new document)
  - All ISDK documentation, except for the JavaDocs and Quick Start Document, can only be found on the AutoVue Documentation Web site on the Oracle Technology Network at <http://www.oracle.com/technetwork/documentation/autovue-091442.html>.

## **Documentation**

All ISDK documentation (with the exception of JavaDocs and Acknowledgments, which are included with the ISDK) can only be found on the AutoVue Documentation Web site on the Oracle Technology Network at <http://www.oracle.com/technetwork/documentation/autovue-091442.html>.

- ***Quick Start Document***

Describes the workflow of using the AutoVue Integration SDK and outlining main steps for building an integration using the skeleton provided with ISDK.

- ***Overview***

Provides an overview of ISDK components.

- ***Design Guide***

Provides a high-level overview of the ISDK.

- ***JavaDocs***

Describes Oracle AutoVue ISDK Framework API and Oracle AutoVue Web Services API. JavaDocs are included with the ISDK

- ***User Guide***

Describes various features supported by the Sample Integration for Filesys and how to use Real-Time Collaboration (RTC) and OEVF demo.

- ***Installation Guide***

Describes step by step procedure to set up a project in JDeveloper and Eclipse IDE and how to run the sample integration.

- ***Technical Guide***

Guides integrators when implementing a new integration or upgrading an existing integration.

- ***Security Guide***

Provides guidelines on how to secure the ISDK.

- ***Acknowledgments***

List of third-party components used in Oracle Corporation software.

- ISDK installers for running on Linux and Windows platforms.  
Refer to the *Overview* for a description about ISDK components after running the installer.

## **Upgrading**

- Refer to the *Technical Guide* for information on upgrading your integration to work with Oracle AutoVue 20.2.1.

## **Known Issues**

- Files checked into Filesys repository at the root level will not load in the AutoVue client.
- In the sample Filesys project, if saving a new workflow markup, the value of Markup Type on Markup Save dialog does not take effect.
- To initiate or join a meeting in RTC demo, user must enter login information in an Authentication dialog.
