

Oracle® Enterprise Manager

Application Management Pack for Oracle Enterprise Taxation and Policy Management

Release Notes

E28045-01

March 2012

This document describes known issues in Application Management Pack for Oracle Enterprise Taxation and Policy Management .

Preface

Related Documentation and Resources

The **Help** menu provides links to **Enterprise Manager Help**, **Oracle Online Documentation**, **Oracle Online Forums**, and the **Oracle Technology Network (OTN)**, where the complete documentation for Oracle Enterprise Manager 12c is available.

This document and other Application Management Pack for Oracle Enterprise Taxation and Policy Management-specific documentation is available in the **Oracle Tax Applications** section of the Oracle Software Delivery Cloud at <https://edelivery.oracle.com>.

Additional information on Oracle Enterprise Manager-specific features and functionality relating to this product is available in the [Enterprise Manager Cloud Control Documentation](http://docs.oracle.com/cd/E24628_01/index.htm) (http://docs.oracle.com/cd/E24628_01/index.htm).

Release Notes

Known Issues: Application Management Pack for Oracle Enterprise Taxation and Policy Management

The following are known issues in this release of Application Management Pack for Oracle Enterprise Taxation and Policy Management.

Batch Status

When the environment name is too long, batch status is not checked properly and the environment is reported as down. [bug 13605781]

Database Status/Connectivity Status

Database status/connectivity is not reported properly if `tnsping` is not in the path. When `splenvirom.sh` is run from the command line, `tnsping` must be in the path for the database status to be monitored correctly. [bug 13745169]

Permissions on Agent Installation

Permission issues occur if the agent installation user does not have the proper privileges. It is recommended that the agent be deployed using the same user name as the OUAF admin user. Alternatively, the agent user must have the same access rights as the OUAF admin user on the Oracle Utilities Framework environments to be monitored. [bug 13745186]

Authentication

This version of Application Management Pack for Oracle Enterprise Taxation and Policy Management supports form-based authentication only.

Known Issues: Related Products

The following are known issues in Oracle Utilities Applications Framework that impact this release of Application Management Pack for Oracle Enterprise Taxation and Policy Management.

Start Batch

The Start batch job issues a "Remote operation finished but process did not close its stdout/stderr" error message, although it does in fact start up properly. [bug 13573509, FW copy bug 13745207]

FW Group Fix 1 (12831936)

After installing FW group fix 1 (12831936), the patch still appears in the list of patches to install or migrate, since the patch does not add its own patch number to the installed fixes file. Workaround is to ignore this patch number after it has been installed. [bug 13695040]

Limited Support for non-WebLogic Environments (13771743)

Start/stop, cloning, and environment assessment fails for non-WebLogic environments, and viewing of WebLogic configuration and log files result in "file not found" messages.

Documentation Accessibility

Our goal is to make Oracle products, services, and supporting documentation accessible to all users, including users that are disabled. To that end, our documentation includes features that make information available to users of assistive technology.

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Accessibility of Code Examples in Documentation

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.
