Introduction

This document contains the specifications necessary to run the Oracle Financial Services Currency Transaction Reporting 1.2 release.

This chapter covers the following topics:

- Pre-requisite
- Release Highlights
- Components of the Release

Pre-requisite

1. Oracle Financial Services Behavior Detection must be installed and configured. Refer to *Oracle Financial Services Behavior Detection Platform Installation Guide Stage-1, Release 6.2.4*.
2. Oracle Financial Services Analytical Applications Infrastructure (OFSAAI) must be installed and configured. For assistance in configuring the OFSAAI Platform, refer to the *Oracle Financial Services Analytical Applications Infrastructure Installation and Configuration, Release 7.3.5*

Note: Administrator user, Infodom, Segment, and all the mapping related details (User, Infodom, and Segment mapping) are explained as a part of OFSAAI System Configuration and Administration User Manual.

Release Highlights

The Oracle Financial Services Currency Transaction Reporting (CTR) 1.2 solution has the following modules configured:

- Creation of CTR
- Creation of E-File
- Creation of Exemption
- Analytical Reports

Components of the Release

The documents accompanying the software in this release are as follows:

- *Oracle Financial Services Behavior Detection Platform Installation Guide - Stage 1*
- *Oracle Financial Services Currency Transaction Reporting Installation Guide - Stage 3*
- *Oracle Financial Services Currency Transaction Reporting Data Interface Specification Guide, Release 1.2*
- *Oracle Financial Services Currency Transaction Reporting Configuration Guide, Release 1.2*
- *Oracle Financial Services Currency Transaction Reporting Administration Guide, Release 1.2*
- *Oracle Financial Services Currency Transaction Reporting User Guide, Release 1.2*

This chapter describes known issues in this release.

Table 1 describes each known issue by subsystem and describes the current workarounds (where available) that you can use to address the issue.

Table 1. Known Issues

Defect ID	Description	Workaround
14327684	If the execution of a stored procedure ends in error while performing any action from the UI, the logs does not capture the ORA errors.	Contact Oracle Support for this patch.
14374522	When the user clicks on the <i>Create E-File</i> link under E-File tab, the list is displayed with the default criteria. If the user tries to search the E-File with some selected criteria and then navigates back to the default view, the E-File list does not get refreshed.	This issue will be addressed in the future release.
14376651	Under Create CTR page, when user searches for Transactions, the Transactions list does not display the column <i>Conductor Issuing Auth</i>	This issue will be addressed in the future release.
20083586	Exemption list icon is displayed twice in the priority exemptions tab on home page.	This issue will be addressed in the future release.
20022922	Horizontal scroll bar is not displaying in home page on laptop screen.	This issue will be addressed in the future release.

Resolved Issues and New Enhancements

This chapter describes resolved issues and new enhancements in this release.

Table 2 describes resolved issues and new enhancements.

Table 2. Resolved Issues and New Enhancements

Defect ID	Description
14243109	When the user tries to export the E-File List to an Office 2007 word document the file gets exported but user will not be able to open the file successfully.
14409997	Under Revoked Exemption drill down Report, if the user clicks on count hyperlink, a new page is displayed with <i>Page not found</i> error.
14477740	Few CTRs encounter secondary validation errors because when we move customer information to KDD_PERSON table, the values for the columns ID_ISSUING_STATE/COUNTRY are blank. (As there is no place placeholder in customer table)
14769334	FinCEN Revisions to the CTR E-File Specifications have been incorporated into the product.

Documentation Links
