1. Preface

1.1. Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2. Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3. Access to OFSS Support

<https://flexsupp.oracle.com/>

1.4. Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual

Transaction Host Integration Matrix provides information on host integration requirements for the transactions covered in the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual

Chapters post Introduction are dedicated to individual transactions and its details, covered in the User Manual

1.5. Related Information Sources

4. Logout

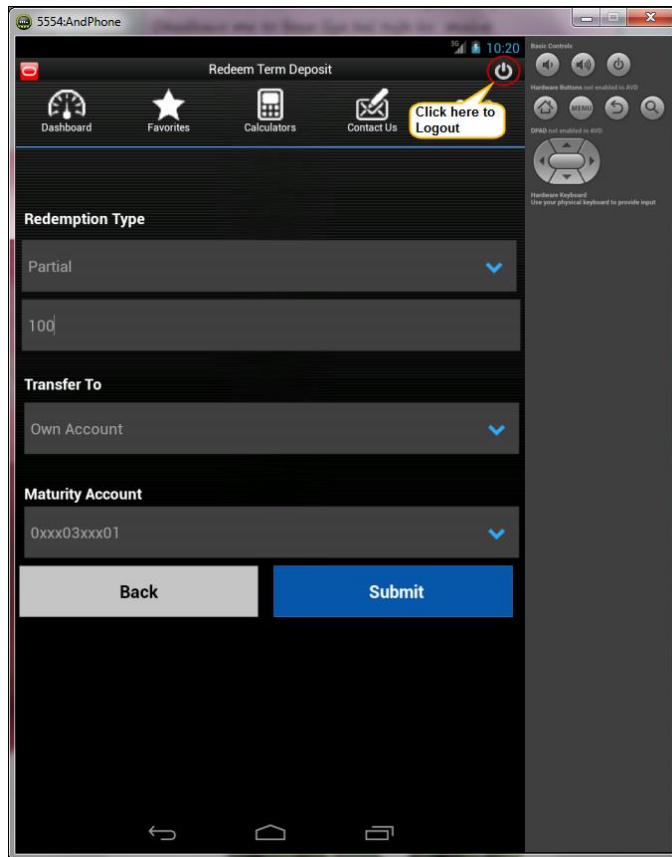

This option enables you to log off the application.

To log out of the Android browser based Mobile Banking

1. Log on to the android browser based Mobile Banking.
2. Click the Logout icon , as shown in the following screenshot:

Logout

Logout

The following alert pop-up is displayed.

Alert Message

3. Click OK. 0.

5. Force Change Password

The **Force Change Password** is the functionality where the user is forced to set a new password. This can be **Login password** as well as **Transaction Password**, depending upon the system configuration.

The **Force Change Password** activity is mandatory for the below scenarios:

- During First Time Login
- If there has been a change in the password policy, **Force change Password** is applicable. In this case it is applicable only if the checkbox for **Forced Reset of Password with Change in Policy** has been checked in the manage policy screen.
- On the expiry of the password.
- If the password has been reset by the **Administrator**.

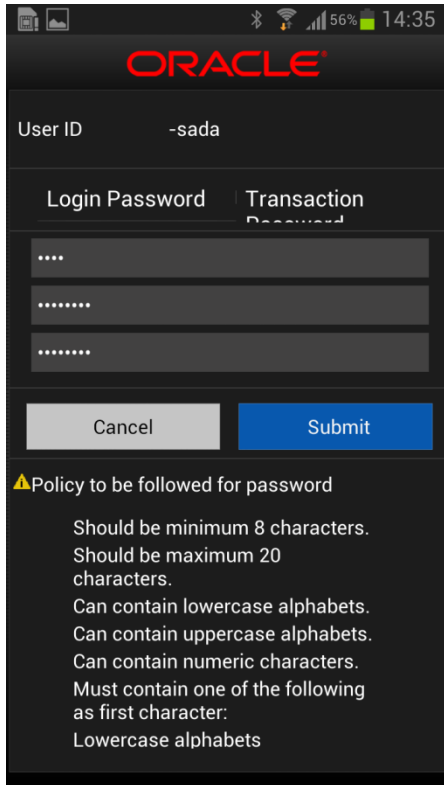

Force Change Password

Field Description

Field Name	Description
Force Change Password	
Existing Password	[Mandatory, Alphanumeric, Input Box, 20] Enter the appropriate Existing Password .
New Password	[Mandatory, Alphanumeric, Input Box, 20] Enter the desired new password as per <i>Password Policy</i> .
Enter New Password	[Mandatory, Alphanumeric, Input Box, 20] Re-enter the new password.
Submit	[Action Button] Click Submit to submit the new password.
Cancel	[Action Button] Click Cancel to cancel the process.

1. Enter the appropriate information in the respective fields.

With Require Details

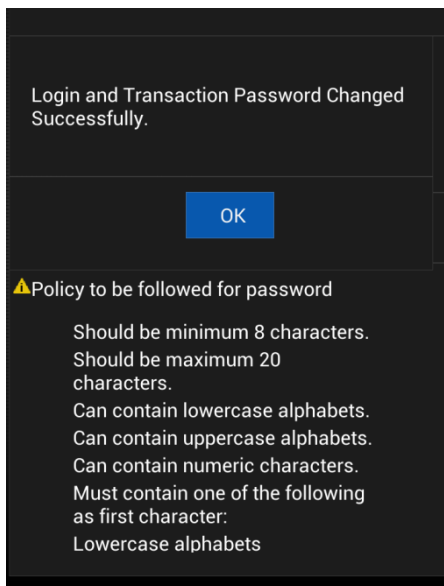

The screenshot shows the Oracle login interface. At the top, the Oracle logo is displayed. Below it, the 'User ID' field contains '-sada'. The 'Login Password' and 'Transaction Password' fields are visible, with the 'Login Password' field currently active and showing four dots. Below the password fields are 'Cancel' and 'Submit' buttons. A yellow warning icon precedes the password policy text.

Policy to be followed for password

- Should be minimum 8 characters.
- Should be maximum 20 characters.
- Can contain lowercase alphabets.
- Can contain uppercase alphabets.
- Can contain numeric characters.
- Must contain one of the following as first character:
 - Lowercase alphabets

2. Click Submit. The system displays the success message.

Success Message

The screenshot shows a success message dialog box. The message text is 'Login and Transaction Password Changed Successfully.' Below the message is an 'OK' button. Below the dialog box, the same password policy text is visible.

Policy to be followed for password

- Should be minimum 8 characters.
- Should be maximum 20 characters.
- Can contain lowercase alphabets.
- Can contain uppercase alphabets.
- Can contain numeric characters.
- Must contain one of the following as first character:
 - Lowercase alphabets

Once the user logs into the application, the system displays the *Dashboard / Landing* screen.

The same page includes the *Welcome* section.

The *Welcome* section displays the user logged on information with the *User ID* and the *Password Policy*.

Welcome

Field Description

Field Name	Description
Welcome	
Welcome <User Name>	[Display] Displays the user name with the welcome greetings.
Logged on info	[Display] Displays the user's current Login Date-Time in the below format – For Example, <i>Logged on 13th Aug 15:35 Hrs.</i>
User ID	[Display] Displays the User ID of the Logged in user.
Password Policy	[Display] Displays the <i>Password Policy</i> to be followed by the user for setting up a password.
Cancel	[Action Button] Click Cancel to cancel the process.

6. Dashboard / Landing Screen

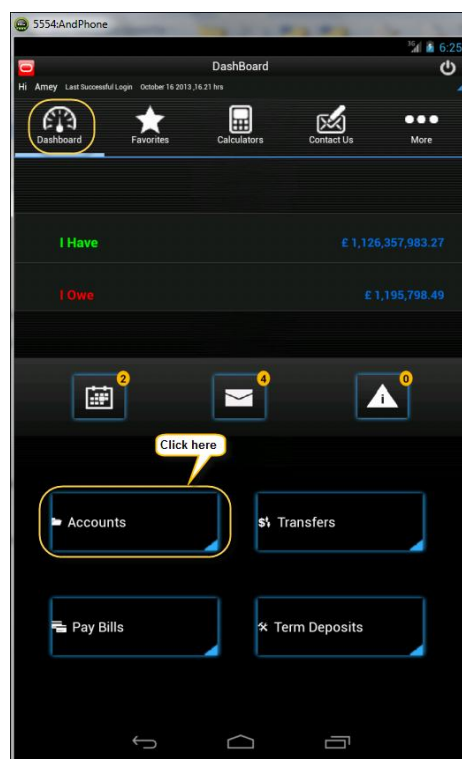

Landing Screen / Dashboard

7. Account Activity

The **Accounts** gives a summary of funds held by the user. The user should be able to view the list of accounts.

3. Click Accounts available on the Dashboard / Landing screen.

4. Click Accounts. The following page is displayed.

My Accounts

8. Account Details

The **Accounts** gives a summary of funds held by the user. The user should be able to view the list of accounts, account details, Fund Status and the activities of the respective account. It provides you the account overview.

1. Click Accounts available on the Dashboard / Landing screen.

2. Click Accounts. The following page is displayed.

My Accounts

3. Click any desired Account Type. It displays the respective account details.

9. Credit Card Details

25. P2P-QR Pay

Transfer of funds between the peers through an application based phones can be provided by scanning QR codes using the camera from the device.

A business user will be able to transfer funds from their account to another user of the same bank by scanning the QR code. Sender should be able to scan QR code from any flat surface and read the beneficiary account details.

The receiver of the payment should be able to generate the QR code by specifying the credit account no. The receiver will also be able to print and download the QR code for future reference. Once the sender scans the QR code, application should identify the beneficiary account details and initiate the transfer.

Note: Before proceeding further, please refer to the **P2P Beneficiaries** section.

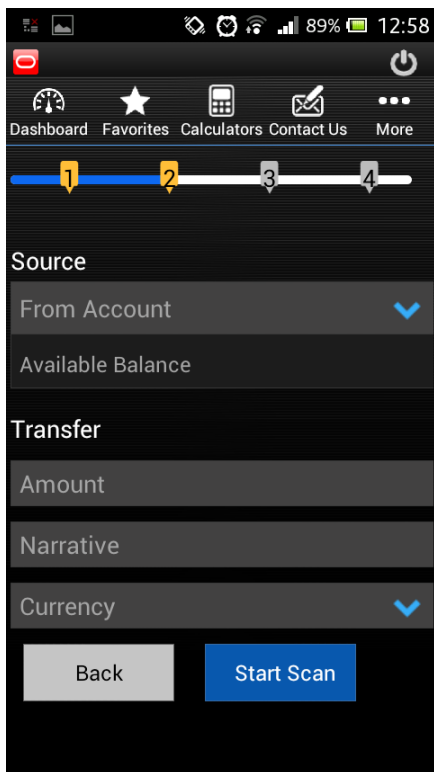

To Proximity Pay QR Based

1. Log on to the Android Phone Banking application.
2. Navigate through Transfers> P2P QR Pay from the menu. The system displays Proximity Pay-QR screen.
