This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications which may create a risk of personal injury. If you use this software in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure the safe use of this software. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software in dangerous applications.

Oracle and Java are registered trademarks of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Data Administration Toolkit Issues	11

Preface

This document describes issues that you may encounter with this release. Internal Tracking numbers that appear in the tables are used to identify issues reported by customers. You can use these numbers to identify the issue should you need to contact Oracle Support. Locator numbers that appear in parentheses after some notes are for Oracle internal use only.

Chapter 1: What's New in This Release

This chapter contains information on new product features for Extensibility Pack 3.7 of Oracle Agile Product Lifecycle Management for Process.

What's New in This Release?

This extensibility pack was focused on creating reports that leverage our new hierarchy denormalization service. You can now quickly see across an entire specification hierarchy reviewing suppliers, supporting documentation and even quality issues.

The following items are included in this release:

- Report: Where Used
- Report: Supporting Document Review
- Report: Supplier Review
- Report: Open Issues by Hierarchy
- Web Service: GSM And SCRM Attachments

Where Used Reports

New Where Used reports have been created. These reports are more robust and feature rich than the current core where used control. They include all specification associations like associated specifications, alternate inputs and master specifications.

The following reports are now available:

- Where Used - Parents
- Where Used - Parents and Children

Where Used – Parents lists all parent specifications where a specific specification was used. Quickly see how many hierarchies are affected by a single raw material. This report respects all application security, so if a user doesn't have read access to a specification they will not see that specification listed.

Where Used - Parents

Target Specification: **Mango Juice - Fresh - Unsweetened (5080158-001)** Report Date: 12/20/2013 07:10:27

Total Hierarchies Affected: **9**

Total Specifications Affected: **18**

Hierarchies Affected:

Spec Name	Spec #	Equivalent	Type	Category	Status	# of Items	Business Unit
Mozz/Cool 33156 Rainbow Pallet	5080621-001		Trade	Dairy » Cheese and Cheese Substitutes » TBD	Draft	6	CPI North America
Pallet, Mixed, Tropical Fruit Cooler	5080534-001		Trade	Beverages » Non Alcoholic Beverages - Ready to Drink » Non-Carbonated	Draft	6	CPI Asia CPI Australasia CPI North America
Pallet, Tropical Fruit Cooler Shippers	5080526-001		Trade	Beverages » Non Alcoholic Beverages - Ready to Drink » Non-Carbonated	Draft	8	CPI Asia CPI Australasia CPI North America
Party Wings 8 Pak	5080818-001		Trade	Beverages » Non Alcoholic Beverages - Ready to Drink » Non-Carbonated	Draft	6	CPI Australasia CPI Latin America CPI North America

All Specifications Affected Items:

Hierarchy	Level	Spec Name	Spec #	Equivalent	Type	Status	Category	Sub-Type	Context	Immediate Parent	Business Unit
Mozz/Cool 33156 Rainbow Pallet (5080621-001)	1	Mozz/Cool 33156 Rainbow Pallet	5080621-001		Trade	Draft	Dairy » Cheese and Cheese Substitutes » TBD	Traded Unit			CPI North America
	2	Tropical Fruit Cooler 12 oz 12 pk Case	5080528-001		Trade	Draft	Beverages » Non Alcoholic Beverages - Ready to Drink » Non-Carbonated	Traded Unit		trd 5080621-001	CPI Asia CPI Australasia CPI North America
		Tropical Fruit Cooler 12 oz 24 pk Case	5080529-001		Trade	Draft	Beverages » Non Alcoholic Beverages - Ready to Drink » Non-Carbonated	Traded Unit		trd 5080621-001	CPI Asia CPI Australasia CPI North America
3	Tropical Fruit Cooler 12 fl oz	5080508-001		Trade	Official	Beverages » Non Alcoholic Beverages - Ready to Drink » Non-Carbonated	Consumer Unit		trd 5080529-001	CPI Asia CPI Australasia	

Where Used – Parents and Children lists all parents and their children where a specific specification is used. However due to performance concerns this report does not respect application security so a user can see the existence of a specification even if they don't have full read access to it.

Where Used - Parents and Children

Target Specification: **Mango Juice - Fresh - Unsweetened (5080158-001)** Report Date: 12/20/2013 07:10:27

Total Hierarchies Affected: **9**

Total Specifications Affected: **71**

Hierarchies Affected:

Spec Name	Spec #	Equivalent	Type	Category	Status	# of Items	Business Unit
Mozz/Cool 33156 Rainbow Pallet	5080621-001		Trade	Dairy » Cheese and Cheese Substitutes » TBD	Draft	50	CPI North America

For more information see the *Agile Product Lifecycle Management for Process Reporting Guide*.

Supporting Document Review Report

The supporting document review report allows you to quickly see all supporting documents within a specification hierarchy including supplier documents stored in SCRM. For example, when you are on a finished good you can quickly review all SCRM supplier documents without leaving the trade specification.

Supporting Document Review

Total Attachments: 34 Report Date: 01/10/2014 05:18:55

Supplier Review Report

The supplier review report allows a user to quickly see all suppliers involved within a specification hierarchy. You can quickly see all of the suppliers involved, their status, when their next scheduled audit date is and even if they have quality issues reported against them.

Supplier Review

Target Specification: **Fresh Cheese Pizza, 12 9oz (5081784-001)** Report Date: 01/12/2014 15:44:46

For more information see the *Agile Product Lifecycle Management for Process Reporting Guide*.

Open Issues by Hierarchy

The open issues by hierarchy report allows a user to quickly see all outstanding and historical PQM issues associated with a specification hierarchy.

For more information see the *Agile Product Lifecycle Management for Process Reporting Guide*.

IMPORTANT: Hierarchy Denormalization Service is required for these reports. You can learn more about this service in the *Agile Product Lifecycle Management for Process Hierarchy Denormalization User Guide*.

Attachments Web Service

The AttachmentService web services provide operations to get attachment files and rich texts of GSM specifications, and SCRM companies, facilities, and sourcing approvals.

AttachmentService is different from previous web services in that it takes advantage of WCF RESTful Service framework in .NET 3.5. Unlike SOAP-based web services, RESTful services are called directly by HTTP requests and the results are returned as HTTP responses.

The following operations are supported by AttachmentService:

- GetAttachment
- GetAttachmentJson
- GetRichText
- GetRichTextJson

See the *Agile Product Lifecycle Management for Process Web Services Guide* for details.

Chapter 2: Resolved Issues

This chapter contains resolved issues for Extensibility Pack 3.7 of Oracle Agile Product Lifecycle Management for Process.

Resolved Issues

The following tables outline known issues that have been resolved for Extensibility Pack 3.7 of Agile Product Lifecycle Management for Process.

Data Administration Toolkit Issues

Table: 2-1 Data Administration Toolkit Issues

Bug/Enh ID	Issue	Resolution
14058029	Instructions for 64-bit installation were missing from the <i>Agile Product Lifecycle Management for Process Data Administration Toolkit Guide</i> .	The guide now includes 64-bit installation.
N/A	The user was unable to add a new line in Override translations in the Custom Translations widget.	A multi line feature has been added. (34439)
