This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, duplication, disclosure, modification, and adaptation shall be subject to the restrictions and license terms set forth in the applicable Government contract, and, to the extent applicable by the terms of the Government contract, the additional rights set forth in FAR 52.227-19, Commercial Computer Software License (December 2007). Oracle America, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

New Features

The items in the list below are new features introduced with this release of Mobility Server. For further information on any of the below features please refer to product documentation that accompanies and is provided with this release.

Feature	Description
Tab Groups DO	New Display Object for creating tab groups consisting of child DOs
Verbose Listing DO Options	The Listing Display Object now has many more options for styling listings, including image and image placement options
Dropdown Menu	New Display Object allowing for expandable menu options
Color Gradient support	Gradients can now be set in many display properties
Light Box/Image Zoom	Feature which allows for enlarging of images by the user for closer inspection
Social Media Sharing buttons	Feature which allows for sharing articles via Email, Twitter, Facebook, and Pinterest
Font Size Selector	Feature which allows for increasing and decreasing font size for articles
Margin properties	Feature which allows for setting spacing for any Display Object
Improved Carousel	Carousel has been improved to support images of different shapes, improved responsiveness and new display properties
Generic XML source types/ XPath mapping	RSS, Atom and other XML feeds can now be mapped directly to Display Objects
Touch as default device	Touch appears as the default device
Carousel Image Cropping Options	Carousel images can now be cropped dynamically to facilitate support for different image shapes
Duplicate Mapping Option	Feature which allows for one-click duplication of mappings
ListFilter on Basic/Smart	Filtered list support has been extended to the Basic/Smart device families

Known Issues

netomat Ref.	Type	Description
5107	Bug	In certain situations, the Tabgroup DO is not resized properly when tablet screens are switched from portrait to landscape mode. Please contact support for updated TabGroup DO resources.
5113	Bug	Two properties are listed as defaults for "Content Background Color". One is actually mislabeled and should be 'Tab Content Background Color'. Contact support for instructions on adjusting this property name or as a short-term workaround use the tooltip presented when hovering over the property to distinguish them.
4882	Bug	The child DO option 'label', used to label tabs in tab group, is case sensitive in mapper. If you call it 'Label' it doesn't register.
