1. Query

1.1. CLN50 - Search*

Using this option the collector can search the cases on different criteria's. The various search criteria's are customer short name, customer IC and customer ID. The system displays the account number and the name. Using the Follow-Up Query (Fast Path: CLN55) option, the collectors can follow up the accounts which are displayed at different priority level.

Definition Prerequisites

- 8053 - Customer Opening
- Accounts to be opened for the customers.

Modes Available

Not Applicable

To search the customer

1. Type the fast path **CLN50** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Query > Search**.
2. The system displays the **Search** screen.

Search

The screenshot shows the 'Search' screen for CLN50. At the top, there is a title bar with the word 'Search'. Below the title bar are four input fields: 'Search Criteria' (a dropdown menu), 'Search String' (a text input field), 'Cust ID' (a text input field), and 'Name' (a text input field). Below these input fields is a large, empty scrollable area with a header 'Customer Accounts'. At the bottom right of the screen, there are two buttons: 'Clear' and 'Close'.

Field Description

Field Name	Description
Search Criteria	<p>[Mandatory, Drop-Down]</p> <p>Select the search criteria from the drop-down list.</p> <p>It is the selection criteria for the account to be searched.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Customer Short Name • Customer Ic • Customer Id
Search String	<p>[Mandatory, Alphanumeric, 30]</p> <p>Type the value according to the search criteria selected in the corresponding field.</p>
Cust ID	<p>[Display]</p> <p>This field displays the customer ID.</p> <p>It is ID of the selected customer.</p>
Name	<p>[Display]</p> <p>This field displays the name of the selected customer.</p>
Customer Accounts	
Account #	<p>[Display]</p> <p>This field displays the account number of the customer.</p>
Name	<p>[Display]</p> <p>This field displays the name of the customer to whom the account belongs.</p>
<ol style="list-style-type: none"> 3. Select the search criteria from the drop down list. 4. Enter the search string and press the <Tab> key. 5. The system displays the records based on the search criteria.

Field Description

Column Name	Description
Accounts	
Account #	[Display] This column displays the account number of the customer.
Name	[Display] This column displays the name of the customer to whom the account belongs.
Queue code	[Display] This column displays the code of the queue to which the account belongs.
Action	[Display] This column displays the type of the action taken to execute an activity.
Action Date	[Display] This column displays the date on which the action is taken.
Result	[Display] This column displays the output of the action.
Result Date	[Display] This column displays the date of the output action.
Next Action	[Display] This column displays the next action taken on the basis of the results from the first action.
Next Action Date	[Display] This column displays the date for the next action.
Overdue Amount	[Display] This column displays the amount which is due for payment and is not paid till date.
Overdue Days	[Display] This column displays the number of overdue days for each account.

3. Click the account number whose follow-up is to be taken.
4. The system displays the **Followup By Collector** screen.
5. Enter the relevant information and click the **Follow-Up** button.
6. The system displays the **Follow-Up Sub screen**.
7. Enter the relevant information and click the **Ok** button.
8. The system displays the "Record successfully modified..Click Ok to continue". Click the **Ok** button.

2. Follow Up

1.3. CLN26 - Followup By Collector*

Follow up main form displays all the details of the account.

Using this option collector can also make the follow-up depending on the status of the account. If the customer has more than one account, the multiple account tab displays all the accounts of the customer. The system displays details on delinquency, collaterals, installments, payments, insurance etc.

Definition Prerequisites

- Account for follow-up

Modes Available

Not Applicable

To view the follow up main form

1. Login as a Collector.
2. Type the fast path **CLN26** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Follow Up > Followup By Collector**.
3. The system displays the **Followup By Collector** screen.

Followup By Collector

Select	Account No.	Loan Amount	Overdue Days	Installment Amount	Total Overdue Amount	Branch	Product	Account Balance	Cycle String (0-30 31-60 61-90 91-120 121-180 +180)	Delinquency String (For Last 12 Months)	Plan ID

Collateral Details

Asset detail is the detail description of the assets of the customer. These details are available in collection only if the asset details are captured at the time of Loan Application Processing in FCR.

The screenshot shows the 'Followup By Collector' application. At the top, there are search and filter fields, and buttons for 'Go' and 'Q'. Below these are fields for Account No, Status, Customer Id, Address, State, and Zip. To the right, there are fields for Collector, Supervisor, Workflow, Queue, and State. A table below these fields shows details for a specific collateral item. The table has columns for Collateral ID, Collateral Code, Collateral Desc, Type, Share%, Share Value, Collateral Value, and Priority. The 'Collateral Details' tab is selected in the navigation bar. On the left, a sidebar lists various collateral types: Non-Standard Coll., Automobile Coll., Financial Securities, Property Coll., Coll. Header, Coll. Valuation Data, Account Insurance, Coll. Deeds, and Guarantee. At the bottom right, there are buttons for 'Follow-Up', 'OK', and 'Close'.

Field Description

Field Name	Description
Collateral ID	[Display] This field displays the collateral ID. It is the unique identification number assigned to a security.
Collateral Code	[Display] This field displays the collateral code.
Collateral Desc	[Display] This field displays the collateral description.
Type	[Display] This field displays the collateral type.
Share %	[Display] This field displays the share percentage.
Share Value	[Display] This field displays the share value.
Collateral Value	[Display] This field displays the collateral value.
Priority	[Display] This field displays the priority of the collateral.
Details	
Collateral ID	[Display] This field displays the collateral ID.
Collateral Code	[Display] This field displays the collateral code.
Collateral Currency	[Display] This field displays the collateral currency.
Home Branch	[Display] This field displays the home branch.
Document Code	[Display] This field displays the document code.
Non-Standard Coll.	
Non-Standard Collateral	[Display] This field displays the non standard collateral.

Field Name	Description
Description 1	[Display] This field displays the primary description.
Description 2	[Display] This field displays the secondary description.
Automobile Coll.	
Chasis #	[Display] This field displays the chasis number. Chasis is a framework of an automobile.
Engine #	[Display] This field displays the engine number.
Registration #	[Display] This field displays the registration number.
Model Name	[Display] This field displays the model name.
Mfg Year Month (YYYYMM)	[Display] This field displays the manufacturing year and month of the automobile.
Description 1	[Display] This field displays the primary description.
Description 2	[Display] This field displays the secondary description.
Financial Securities	
Financial Security Code	[Display] This field displays the financial security code.
Financial Security Currency	[Display] This field displays the financial security currency.
Number of Units	[Display] This field displays the number of units.
Total Value of Securities	[Display] This field displays the total value of the security.
Series Number 1	[Display] This field displays the primary series number.

Field Name	Description
Series Number 2	[Display] This field displays the secondary series number.
Property Coll.	
Location	[Display] This field displays the location of the property.
Cost Price	[Display] This field displays the cost of the property.
Area Unit	[Display] This field displays the area unit. Area unit is the measurement parameter for the property. For e.g. hectares, square feet, etc.
Total Area	[Display] This field displays the area of the property.
Type of Property	[Display] This field displays the type of property. The type of property can be of various types. For e.g. apartments, bungalow, penthouse, land/plot, etc.
Date of Lease Expiry	[Display] This field displays the date of lease expiry.
Forced Sale Value	[Display] This field displays the forced sale value.
Quit Rent Value	[Display] This field displays the quit rent value.
Description 1	[Display] This field displays the primary description.
Description 2	[Display] This field displays the secondary description.
Coll. Header	
Type of Charge	[Display] This field displays the type of charge.
Name of Lender	[Display] This field displays the name of lender.

Field Name	Description
Asset Class	[Display] This field displays the asset class.
Make	[Display] This field displays the make.
Model	[Display] This field displays the model.
Coll. Valuation Data	
Original Value	[Display] This field displays the original value of the collateral.
Date of Valuation	[Display] This field displays the valuation date of the collateral.
Last Value	[Display] This field displays the last value.
Date of Valuation	[Display] This field displays the date of valuation.
Market Value	[Display] This field displays the market value
Valuation Source	[Display] This field displays the valuation source.
Valuation Edition	[Display] This field displays the valuation edition.
Valuation Supplement	[Display] This field displays the valuation supplement.
Account Insurance	
Insurance Plan Code	[Display] This field displays the insurance plan code.
Insurance Policy Number	[Display] This field displays the insurance policy number.
Assured Value	[Display] This field displays the assured value.
Amount Block Recovery	[Display] This field displays the amount block recovery.

Field Name	Description
Maturity Date	[Display] This field displays the maturity date.
Next Premium Due Date	[Display] This field displays the next premium due date.
Insurance Premium Billing	[Display] This field displays the insurance premium billing.
Manual	[Display] This field displays the manual.
Premium Billing Account	[Display] This field displays the premium billing account.
Percentage	[Display] This field displays the percentage.
Insurance Premium Amount	[Display] This field displays the insurance premium amount.
Coll. Deeds	
Status of Deeds	[Display] This field displays the status of deeds.
Name of Custodian	[Display] This field displays the name of custodian.
Date Deeds Sent	[Display] This field displays the date on which the deeds were sent.
Expected Return Date	[Display] This field displays the expected return date.
Deed Details	[Display] This field displays the deed details.
Registering Authority	[Display] This field displays the registering authority.
Guarantee	
Guarantor	[Display] This field displays the name of the guarantor of the collateral ID.

Field Name	Description
From Date	[Display] This field displays the date from which the guarantee is applicable for the collateral.
To Date	[Display] This field displays the date till which the guarantee is applicable for the collateral.
Status	[Display] This field displays the status of the guarantor.
Comments	[Display] This field displays the comments, if any.

Inst Details

Installment tab displays the details of the installment like installment schedule, Principal amount, interest amount etc.

Field Description

Column Name	Description
Stage No.	[Display] This column displays the stage number. If the loan amount is big, then the loan is disbursed in various stages. Each stage of disbursement has unique stage number.
Installment No.	[Display] This column displays the installment number. The repayment of loan is divided into number of installment. Each installment has a installment number.
Installment Date	[Display] This column displays the date on which the installment for loan is paid.
Principal Amount	[Display] This column displays the total amount of the loan. Interest is not included in the principal amount.
Interest Amount	[Display] This column displays the additional charge on the principal amount.
Installment Outstanding	[Display] This column displays the installment due for payment.
Charges Outstanding	[Display] This column displays the outstanding charges. These charges are due for payment.
Outstanding Principal	[Display] This column displays the principal amount due for payment.
Days	[Display] This column displays the number of days overdue for an installment.

Payment Details

Payment details tab displays the information about the payments made by the customer towards his account.

SYSOPER					15-01-2008 00:0						LOAN INTERE

Field Description

Column Name	Description
Collector	[Display] This column displays the name of the collector.
Collector Group	[Display] This column displays the name of the collector group to which the collector belongs.
Workflow Code	[Display] This column displays the workflow code attached to the account.
State Code	[Display] This column displays the state code of the workflow presently associated with the account.

Column Name	Description
Action	[Display] This column displays the action taken on the account in the workflow state.
Action Date	[Display] This column displays the date of the action taken.
Result	[Display] This column displays the result of the action.
Result Date	[Display] This column displays the date of the result.
Overridden Next Action	[Display] This column displays the automated action which was overridden by another action.
Next Action	[Display] This column displays the next action. It is the future action. It depends on the result of the action taken earlier.
Next Action Date	[Display] This column displays the next action date. It is the future date of the action.
Notes By Collector	[Display] This column displays the notes by collector. Notes by collector are comments added by collector during follow-up.
Authorizer	[Display] This column displays the authoriser for that action.

PTP History

This tab displays the history of the promises received by the collector for an account during the follow-up.

Field Description

Column Name	Description
PTP Plan#	[Display] This column displays the PTP plan number. A single plan can have multiple PTP.
Sr No#	[Display] This column displays the serial number displayed in the PTP details.
Promise Taken By	[Display] This column displays the name of the collector who has received the PTP from the customer.
Promise Date	[Display] This column displays the date on which the promise was received.

Column Name	Description
Promise Amount	[Display] This column displays the promise amount.
Status	[Display] This column displays the status of the PTP. The different statuses are PTP broken, PTP fulfilled and PTP unused.
Promise By	[Display] This column displays the customer ID who has promised to pay.

Coll Summary

Collection summary tab displays the delinquency details of the account.

The screenshot shows the 'Followup By Collector' application interface. At the top, there are search and filter fields, and a toolbar with buttons for 'Go' and 'Q'. Below this, the main content area is divided into several sections:

- Account Information:** Fields for Account No (09992050000210), Status (Regular), Customer Id (602949), Name (BALAKRISHNA B), Address (Flat No.102, Srikr Apartments Street No.8, Tarnaka Mum), State (MAHARASHTRA), Zip (400063), and Collector (TSURESH - SURESH TELLER).
- Collector Details:** Fields for Supervisor (SSURESH - SURESH SUPER), Workflow (WF1 - WorkFlow1), Queue (Q1 - QUEUE1), and Excp Collector (Q1 - -).
- State:** A dropdown menu showing 'NEW - New'.
- Special Code:** A field with a dropdown menu.
- Navigation:** A menu bar with links to 'Multiple A/c/s', 'Account Details', 'Demo Details', 'Collateral Details', 'Inst Details', 'Payment Details', 'Activity Hist', 'Coll Log', 'PTP History', 'Coll Summary' (which is highlighted in yellow), 'Auth/Esc Hist', and 'Insurance Details'.
- Delinquency Details:** A section with various statistics and checkboxes for 'Non Starter', 'Peak OD Days', 'Peak OD Amount', 'No. Of Times Delinquent', 'No. Of Times Self Cured', 'No. Of OD A/C (Self)', 'Total OD Amount (Self)', 'No. Of OD A/C (Group)', 'Total OD Amount (Group)', and 'Written Off'.
- Last Resolution:** A section with fields for 'Date', 'Collector Group', 'Collector', and 'Action Taken'.
- Action Summary:** A section with fields for 'Total Attempts', 'Success Attempts', 'No. Of PTs', 'No. Of PTs Kept', 'No. Of PTs Broken', and 'Consecutive Broken'.
- Next Bucket Movement:** A section with fields for 'Flow Date' and 'Flow Days'.

At the bottom right, there are buttons for 'Follow-Up', 'OK', and 'Close'.

Field Description

Field Name	Description
Delinquency Details	
Non Starter	[Display] This field displays the non starter status of the account. The check box is selected if the account is a non starter account. Non starter accounts are the accounts, wherein customers do not pay the first due installment.
Peak OD Days	[Display] This field displays the maximum number of overdue days of an account.
Peak OD Amount	[Display] This field displays the maximum amount overdue for an account.
No. Of Times Delinquent	[Display] This field displays the number of times the account is delinquent.
No. Of Times Self Cured	[Display] This field displays the number of times the account is delinquent and is cured on its own.
No. Of OD A/C (Self)	[Display] This field displays the number of times the account is overdue where the borrower is a account holder.
Total OD Amount (Self)	[Display] This field displays the total overdue amount. It is the total amount due by the loan account holder.
No. Of OD A/C (Group)	[Display] This field displays the number of overdue account. It displays the number of accounts, where the customer is a group customer.
Total OD Amount (Group)	[Display] This field displays the total overdue amount. It displays the total amount due as a group customer.
Written Off	[Display] This field displays the written off status of the account. The check box is selected if the account is marked as write off.

Last Resolution

Last resolution displays the details of the resolved account.

Date [Display]
This field displays the date of the resolution i.e. when the account was last resolved and moved out of collection.

Collector Group [Display]
This field displays the collector group.

Collector [Display]
This field displays the name of the collector who was working on it.

Action Taken [Display]
This field displays the details of the action taken, when the account was resolved.

Action Summary

Total Attempts [Display]
This field displays the number of attempts made to resolve the case.

Success Attempts [Display]
This field displays the success attempts for the action.
For e.g. If the customer promises to pay the amount and the PTP is not breached.

No. Of PTPs [Display]
This field displays the number of times the PTP is received as result.

No. Of PTPs Kept [Display]
This field displays the number of times the PTP is fulfilled.

No. Of PTPs Broken [Display]
This field displays the number of times the PTP is broken.

Consecutive Broken [Display]
This field displays the number of times the PTP is consecutively breached.

Next Bucket Movement

Flow Date [Display]
This field displays the flow date.

Flow Days [Display]
This field displays the flow days.

Auth/Esc Hist

Authorization/escalation tab display the history of authorizations and escalation that is performed on an account.

The screenshot shows the 'Followup By Collector' interface. At the top, there is a header with a 'Filter' input, a 'Go' button, and a magnifying glass icon. Below the header, there is a table with account details. The table includes fields for Account No (09992050000210), Status (Regular), Customer Id (602949), Address (Flat No.102, Srikar Apartments Street No.8, Tarnaka Mum), State (MAHARASHTRA), Collector (TSURESH - SURESH TELLER), Supervisor (SSURESH - SURESH SUPER), Workflow (WF1 - WorkFlow1), Queue (Q1 - QUEUE1), and State (NEW - New). Below the table, there is a navigation bar with links: Multiple A/c's, Account Details, Demo Details, Collateral Details, Inst Details, Payment Details, Activity Hist, Coll Log, PTP History, Coll Summary, Auth/Esc Hist (which is highlighted in blue), and Insurance Details. At the bottom, there is a row of buttons: Follow-Up, OK, and Close.

Field Description

Field Name	Description
Collector Code	[Display] This field displays the collector code. It is the unique code of the collector assigned to the account.
Authorizer	[Display] This field displays the name of authorisation authority for action.
Next Action Code	[Display] This field displays the future action code.
Activity	[Display] This field displays the activity performed on the account. The activity is a system activity or a user activity.

Field Name	Description
Next collector	[Display] This field displays the name of the next collector to whom the account is transferred.
Authorize Date	[Display] This field displays the authorise date.

Insurance Details

The screenshot shows a software interface for managing collector follow-ups. At the top, there are search and filter fields, and a toolbar with buttons for 'Go', 'Print', 'Phone(R): 23031389', 'Phone(O):', and 'Mobile No: 9849016256'. Below this is a main data entry area with several input fields for account details (Account No, Customer Id, Address, State, Status, Supervisor, Workflow, Queue, Collector, Excp Collector, State, Special Code), and a 'Multiple A/c' dropdown. A navigation bar at the bottom includes links for 'Multiple A/c', 'Account Details', 'Demo Details', 'Collateral Details', 'Inst Details', 'Payment Details', 'Activity Hist', 'Coll Log', 'PTP History', 'Coll Summary', 'Auth/Esc Hist', and 'Insurance Details'. The 'Insurance Details' tab is currently active. A large empty grid area is present below the navigation bar, likely for displaying insurance records. At the bottom right are buttons for 'Follow-Up', 'OK', and 'Close'.

Field Description

Field Name	Description
Insurance Type	[Display] This field displays the type of insurance.
Insurance Code	[Display] This field displays the code of the insurance type.
Amount Insured	[Display] This field displays the amount which is insured.

Field Name	Description
Tot. Prem. Billed	[Display] This field displays the total premium which is billed.
Tot. Prem. Paid	[Display] This field displays the total premium which is paid.
Tot. Prem. Remitted	[Display] This field displays the total premium which is remitted.

7. Click the **Follow-Up** button.
8. The system displays the **Follow-Up Sub** screen.

Follow-Up Sub

Collector can decide on the actions to be taken on the cases and based on the results decide on the next actions for the same.

Follow-Up Sub

Account No :	09995010000322	Action Date:	29/04/2004 00:00:12

Reason Code:	...		
Notes By Collector:	Promise to pay		
<input type="button" value="Back"/> <input type="button" value="OK"/> <input type="button" value="Clear"/>			

Field Description

Field Name	Description
Account No	[Display] This field displays the account number for the follow-up.
Action Code	[Display] This field displays the action applicable to the collector group for the case.
Action Date	[Display] This field displays the process date.
Result Code	[Display] This field displays the result applicable to the selected action.
Result Date	[Display] This field displays the process date.
Amount	[Display] This field displays the PTP amount that is paid in the followup.
Next Action Code	[Display] This field displays the future action applicable to the selected action/result.
Next Action Date	[Display] This field displays the future date for the action.
Reason Code	[Display] This field displays the code assigned to each reason. It gives the reason for delinquency.
Person Contacted	[Display] This field displays the name of the person contacted in the follow-up.
Notes By Collector	[Mandatory, Alphanumeric, 4000] Type the notes by collector. It is the brief description of the follow-up by the collector.

9. Enter the relevant information and click the **Ok** button.
10. The system displays the **Followup By Collector** screen.

1.4. CLN30 - Group Follow-Up*

Using this option field collectors can follow up on one or more cases. All the accounts are displayed, the collector can select the number of accounts and can take the appropriate action. On selecting the option Select all, the collector can follow-up all the accounts assigned.

Definition Prerequisites

- Collector should have open cases assigned

Modes Available

Not Applicable

To perform group follow up

- Type the fast path **CLN30** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Follow Up > Group Follow Up**.
- The system displays the **Group Follow-Up** screen.

Field Description

Field Name	Description
Select All	[Optional, Check Box] Select the Select All check box to select all the accounts in the list of collector accounts for follow-up.
<hr/>	
Column Name	Description
Account No.	[Display] This column displays the account number of the customer.
Name	[Display] This column displays the name of the customer.
Queue Code	[Display] This column displays the name and code of the queue to which the account belongs.
State	[Display] This column displays the state in which the account is currently lying.
Total Overdue Amount	[Display] This column displays the total overdue amount for each account.
Last Action Code	[Display] This column displays the code of the last action performed on the account.
Last Action Date	[Display] This column displays the date on which the last action was performed on the account.
Last Result Code	[Display] This column displays the last result code.
Last Result Date	[Display] This column displays the last result date.
Next Action Code	[Display] This column displays the future action code to be performed on the account.
Next Action Date	[Display] This column displays the future date for the action.

Column Name	Description
Note Collector	[Display] This column displays the note for the collector.
Select	[Optional, Check Box] Select the Select check box to pick a particular account in the list of collector accounts for follow-up. <ol style="list-style-type: none">3. Select the account number(s) by clicking the Select check box.4. Enter the relevant information and click the Follow-Up button.5. The system displays the Follow-Up Sub screen.

3. Authorization

1.5. CLN28 - Authorize By Supervisor*

Certain cases need the authorisation by supervisor for the next action chosen by the collector. e.g. VIP cases.

Using this option a supervisor can authorise the next action taken by the collector during the follow-up. All the accounts of the customers are displayed in the Multiple Account tab. The system displays details on delinquency, collaterals, installments, payments, insurance etc.

Definition Prerequisites

- Supervisor should have cases assigned to him for authorisation

Modes Available

Not Applicable

To authorize by supervisor

- Login as a supervisor.
- Type the fast path **CLN28** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Authorization > By Supervisor**.
- The system displays the **Authorize By Supervisor** screen.

Authorize By Supervisor

Select	Account No.	Loan Amount	Overdue Days	Installment Amount	Total Overdue Amount	Branch	Product	Account Balance	Cycle Status (0-30 31-60 61-90 91-120 121-180 +180)	Delinquency String (For Last 12 Months)	Plan ID
<input type="checkbox"/>											

Field Description

Field Name	Description
Filter	[Mandatory, Pick List] Select the appropriate filter/name from the pick list. This is disabled for supervisor authorisation.
Phone (R)	[Display] This field displays the residence phone number of the borrower.
Phone (O)	[Display] This field displays the office phone number of the borrower.
Mobile No	[Display] This field displays the mobile phone number (if available) of the borrower.
No. of A/Cs Pending for Authorization	[Display] This field displays the number of accounts which are pending for authorisation.
Account No	[Display] This field displays the account number selected by system or by collector for follow-up. The customer name is displayed in the corresponding field.
Status	[Display] This field displays the status of the account number.
Customer Id	[Display] This field displays the customer ID of the borrower. The customer ID is auto-generated by the system.
Address	[Display] This field displays the address of the borrower.
State	[Display] This field displays the state.
Zip	[Display] This field displays the zip code.
Collector	[Display] This field displays the name and code of collector to whom the case is allocated.

Field Name	Description
Supervisor	[Display] This field displays the name and code of the supervisor attached to the collector group.
Workflow	[Display] This field displays the name and code of the current work flow of the account number.
State	[Display] This field displays the state in which the account is lying currently.
Queue	[Display] This field displays the name and code of the queue to which the account belongs.
Excp Collector	[Display] This field displays the exception collector of the queue to which the case belongs.
Special Code	[Display] This field displays the special code attached to the case, if any.

4. Select the filter criteria.
5. Click on the **Go** button.
6. The system displays the first record to be authorized by the supervisor.

Multiple A/c s

Multiple accounts tab gets enabled only when the customer has multiple accounts. This tab displays the information about the multiple accounts of the same customer.

Follow-Up | OK | Close

Field Description

Column Name	Description
Select	[Optional, Check Box] Select the check box to follow up the account.
Account No.	[Display] This column displays the account number of the customer.
Loan Amount	[Display] This column displays the loan amount disbursed for each account.
Overdue Days	[Display] This column displays the overdue days for each account.
Installment Amount	[Display] This column displays the installment amount for each account.

Column Name	Description
Total Overdue Amount	[Display] This column displays the total overdue amount for each account.
Branch	[Display] This column displays the branch of the account.
Product	[Display] This column displays the type of the product.
Account Balance	[Display] This column displays the balance on the account.
Cycle String	[Display] This column displays the number of times an account falls in the cycle (0-30, 31-60, etc.).
Delinquency String (For Last 12 Months)	[Display] This column displays the delinquency string. Delinquency string for the last 12 months will display whether any installment was overdue that month (value will be 0 – if not overdue, 1- overdue).
Plan ID	[Display] This column displays the plan ID.

Account Details

Account details tab displays the account details of the delinquent customer.

Information available in this section is displayed from the host system and is non editable in collections. This information is used by collectors while they take follow - up actions.

Field Description

Field Name	Description
Product Details	
Product code	[Display] This field displays the product code.
Product Name	[Display] This field displays the product name.
CodCcy	[Display] This field displays the currency code. It is displayed on the basis of the loan product.

Field Name	Description
Term	[Display] This field displays the total number of days in which the loan amount is repaid.
Financial Details	
Loan Amount	[Display] This field displays the actual amount disbursed for loan.
Total Interest	[Display] This field displays the total interest on the loan amount.
Penalty	[Display] This field displays the over due charges on the loan levied as a penalty.
Fee	[Display] This field displays the processing fees for the loan.
Total Principal	[Display] This field displays the total principal as part of the loan amount.
Principal Paid	[Display] This field displays the total amount of the principal paid.
Penalty Paid	[Display] This field displays the amount of penalty charges paid.
Fee Paid	[Display] This field displays the amount of total fee paid.
Amount Paid Today	[Display] This field displays the amount paid today but not applied to the account.
Interest Paid	[Display] This field displays the total interest paid.
Overdue Amount	[Display] This field displays the amount which is due for payment and is not paid till date.
Overdue Days	[Display] This field displays the number of days the installment is due.
Min. Amount Due	[Display] This field displays the minimum amount which is due for payment.

Field Name	Description
Cycle String	[Display] This section displays the number of times an account falls in the cycle (0-30, 31-60, etc.).
Delinquency string (for last 12 months)	[Display] This section displays the delinquency string. Delinquency string for the last 12 months will display whether any installment was overdue that month (value will be 0 – if not overdue, 1- overdue).
Customer Notes	
Notes	[Display] This field displays the notes. It is the remark for the customer.
User	[Display] This field displays the user name.
Column Name	Description
Last Action/Result (Last 3 Action/Result)	
Action	[Display] This column displays the action taken for the recovery of the loan. For e.g. reminder to a customer.
Action Date	[Display] This column displays the day on which the action is taken.
Result	[Display] This column displays the output of the action.
Result Date	[Display] This column displays the result date.
Next Action	[Display] This column displays the next action taken on the basis of the results from the first action. For e.g. The result for the first action is, customer promised to pay, so the next action will be sending the reminder to the customer for the payment.
Next Action Date	[Display] This column displays the date for the next action.

Column Name	Description
Collector	[Display]
	This column displays the name of the collector.
Notes	[Display]
	This column displays the brief description or the remarks by the collector.
Auth Status	[Display]
	This column displays the status of authorisation if the next action needs authorisation.

Demo Details

Demo details tab displays the demographic details of the customer. Demographic details include Customer's Address details, Customer ID etc.

State	[Display] This field displays the state name.
Zip	[Display] This field displays the zip code.
Permanent Address	
Address Line1	[Display] This field displays the first line of the permanent address of the customer.
Address Line2	[Display] This field displays the second line of the permanent address of the customer.

Field Name	Description
Address Line3	[Display] This field displays the third line of the permanent address of the customer.
City	[Display] This field displays the city name.
State	[Display] This field displays the state name.
Zip	[Display] This field displays the zip code.
Phone Details	
Phone (R)	[Display] This field displays the residence phone number of the borrower.
Phone (O)	[Display] This field displays the office phone number of the borrower.
Mobile No	[Display] This field displays the mobile phone number of the borrower.
Email ID	[Display] This field displays the e-mail ID of the borrower.

Collateral Details

Asset detail is the detail description of the assets of the customer. These details are available in collection only if the asset details are captured at the time of Loan Application Processing in FCR.

The screenshot shows the 'Authorize By Supervisor' application interface. At the top, there are search and filter fields. Below that, a table displays account details: No. of A/Cs Pending for Authorization (1), Account No (06001265650010), Status (Regular), Customer Id (600126), Name (B ANUPAMA), Address (46, Canara Bank Colony, 6th Cross, Nagarabhavi Road, M), State (MAHARASHTRA), Zip (400063), Collector (TCOLL1999 - TCOLL1999), Supervisor (SQTP11999 - TQTP11 SUPER), Workflow (WK1 - WORKFLOW_1), Queue (Q3 - QUEUE_3), Excp Collector ([-]), State (NEW - New), and Special Code ([-]). Below this is a navigation bar with links: Multiple A/c's, Account Details, Demo Details, Collateral Details (highlighted in yellow), Inst Details, Payment Details, Activity Hist, Coll Log, PTP History, Coll Summary, Auth/Esc Hist, and Insurance Details. The 'Collateral Details' tab is active, showing a table with one row: Collateral ID (28), Collateral Code (100), Collateral Desc (AUTOMOBILE), Type (2), Share% (100.0), Share Value (300000), Collateral Value (270000), and Priority (1). On the left, a sidebar lists various collateral types: Non-Standard Coll., Automobile Coll., Financial Securities, Property Coll., Coll. Header, Coll. Valuation Data, Account Insurance, Coll. Deeds, and Guarantee. At the bottom right are buttons for Follow-Up, OK, and Close.

Field Description

Field Name	Description
Collateral ID	[Display] This field displays the collateral ID. It is the unique identification number assigned to a security.
Collateral Code	[Display] This field displays the collateral code.
Collateral Desc	[Display] This field displays the collateral description.
Type	[Display] This field displays the type.

Field Name	Description
Share %	[Display] This field displays the share percentage.
Share Value	[Display] This field displays the share value.
Collateral Value	[Display] This field displays the collateral value.
Priority	[Display] This field displays the priority of the collateral.
Details	
Collateral ID	[Display] This field displays the collateral ID.
Collateral Code	[Display] This field displays the collateral code.
Collateral Currency	[Display] This field displays the collateral currency
Home Branch	[Display] This field displays the home branch.
Document Code	[Display] This field displays the document code.
Non-Standard Coll.	
Non Standard Collateral	[Display] This field displays the non standard collateral.
Description 1	[Display] This field displays the primary description.
Description 2	[Display] This field displays the secondary description.
Automobile Coll	
Chasis #	[Display] This field displays the chasis number. Chasis is a framework of an automobile.
Engine #	[Display] This field displays the engine number.

Field Name	Description
Registration #	[Display] This field displays the registration number.
Model Name	[Display] This field displays the model name.
Mfg Year Month (YYYYMM)	[Display] This field displays the manufacturing year and month of the automobile.
Description 1	[Display] This field displays the primary description.
Description 2	[Display] This field displays the secondary description.
Financial Securities	
Financial Security Code	[Display] This field displays the financial security code.
Financial Security Currency	[Display] This field displays the financial security currency.
Number of Units	[Display] This field displays the number of units.
Total Value of Securities	[Display] This field displays the total value of the security.
Series Number 1	[Display] This field displays the primary series number.
Series Number 2	[Display] This field displays the secondary series number.
Property Coll.	
Location	[Display] This field displays the location of the property.
Cost Price	[Display] This field displays the actual cost of the property.
Area Unit	[Display] This field displays the measurement parameter for the property. For e.g. hectares, square feet, etc.

Field Name	Description
Total Area	[Display] This field displays the actual area of the property.
Type of Property	[Display] This field displays the type of property. For e.g. apartments, bungalow, penthouse, land/plot, etc.
Date of Lease Expiry	[Display] This field displays the date of lease expiry.
Forced Sale Value	[Display] This field displays the forced sale value.
Quit Rent Value	[Display] This field displays the quit rent value.
Description 1	[Display] This field displays the primary description.
Description 2	[Display] This field displays the secondary description.
Coll. Header	
Type of Charge	[Display] This field displays the type of charge.
Name of Lender	[Display] This field displays the name of lender.
Asset Class	[Display] This field displays the asset class.
Make	[Display] This field displays the make.
Model	[Display] This field displays the model.
Coll Valuation Data	
Original Value	[Display] This field displays the original value of the collateral.
Date of Valuation	[Display] This field displays the valuation date of the original value of the collateral.

Field Name	Description
Last Value	[Display] This field displays the last value.
Date of Valuation	[Display] This field displays the valuation date of the last value of the collateral.
Market Value	[Display] This field displays the market value.
Valuation Source	[Display] This field displays the valuation source.
Valuation Edition	[Display] This field displays the valuation edition.
Valuation Supplement	[Display] This field displays the valuation supplement
Account Insurance	
Insurance Plan Code	[Display] This field displays the insurance plan code.
Insurance Policy Number	[Display] This field displays the insurance policy number.
Assured Value	[Display] This field displays the assured value.
Amount Block Recovery	[Display] This field displays the recovery amount block.
Maturity Date	[Display] This field displays the maturity date.
Next Premium Due Date	[Display] This field displays the next premium due date.
Insurance Premium Billing	[Display] This field displays the insurance premium billing.
Manual	[Display] This field displays the manual.
Premium Billing Account	[Display] This field displays the premium billing account.

Field Name	Description
Percentage	[Display] This field displays the percentage.
Insurance Premium Amount	[Display] This field displays the insurance premium amount.
Coll. Deeds	
Status of Deeds	[Display] This field displays the status of deeds.
Name of Custodian	[Display] This field displays the name of custodian.
Date Deeds Sent	[Display] This field displays the date on which the deeds were sent.
Expected Return Date	[Display] This field displays the expected return date.
Deed Details	[Display] This field displays the deed details.
Registering Authority	[Display] This field displays the registering authority.
Guarantee	
Guarantor	[Display] This field displays the name of the guarantor of the collateral ID.
From Date	[Display] This field displays the date from which the guarantee is applicable for the collateral.
To Date	[Display] This field displays the date till which the guarantee is applicable for the collateral.
Status	[Display] This field displays the status of the guarantor.
Comments	[Display] This field displays the comments, if any.

Inst Details

Installment tab displays the details of the installment like installment schedule, Principal amount, interest amount etc.

The screenshot shows a software interface titled 'Authorize By Supervisor'. At the top, there are fields for 'Filter' (with a search icon), 'Phone(R): 23394819', 'Phone(O):', and 'Mobile No: 9986202432'. Below this is a table with account information:

No. of A/C's Pending for Authorization: 1	Collector: TCOLL1999 - TCOLL1999
Account No: 06001265650010	Status: Regular
Customer Id: 600126	Supervisor: SQTP11999 - TQTP11 SUPER
Address: 46, Canara Bank Colony, 6th Cross, Nagarabhavi Road, M	Workflow: WK1 - WORKFLOW_1
State: MAHARASHTRA	Queue: Q3 - QUEUE_3
Zip: 400063	Excp Collector: [-]
	Special Code: [-]

Below the table is a navigation bar with tabs: Multiple A/c's, Account Details, Demo Details, Collateral Details, **Inst Details**, Payment Details, Activity Hist, Coll Log, PTP History, Coll Summary, Auth/Esc Hist, and Insurance Details.

The 'Inst Details' tab displays a table of installment payments:

Stage No.	Installment No.	Installment Date	Principal Amount	Interest Amount	Installment Outstanding	Charges Outstanding	Outstanding Principal	Days
-----------	-----------------	------------------	------------------	-----------------	-------------------------	---------------------	-----------------------	------

At the bottom right of the form are buttons: 'Follow-Up', 'OK', and 'Close'.

Field Description

Column Name	Description
Stage No.	[Display] This column displays the stage number. If the loan amount is big, then the loan is disbursed in various stages. Each stage of disbursement has unique stage number.
Installment No.	[Display] This column displays the installment number. The repayment of loan is divided into number of installments. Each installment has a installment number.
Installment Date	[Display] This column displays the date on which the installments for the loan is paid.

Column Name	Description
Principal Amount	[Display] This column displays the principal amount. Principal amount is the total amount of the loan. Interest is not included in the principal amount.
Interest Amount	[Display] This column displays the additional amount charged on the principal amount.
Installment Outstanding	[Display] This column displays the installment due for payment.
Charges Outstanding	[Display] This column displays the charges due for payment.
Outstanding Principal	[Display] This column displays the principal amount due for payment.
Days	[Display] This column displays the number of days overdue for an installment.

Payment Details

Payment details tab displays the information about the payments made by the customer towards his account.

Field Description

Column Name	Description
Collector	[Display] This column displays the name of the collector.
Collector Group	[Display] This column displays the name of the collector group, to which the collector belongs.
Workflow Code	[Display] This column displays the workflow code attached to the account.
State Code	[Display] This column displays the state code. It the status of the account in the workflow. There are various stages in recovery of the outstanding money due from the customer. For e.g. Promise to Pay, Customer breaks PTP or call customer on mobile.

Column Name	Description
Action	[Display] This column displays the action taken on the account in the workflow state.
Action Date	[Display] This column displays the day on which the action was taken.
Result	[Display] This column displays the result of the action.
Result Date	[Display] This column displays the date of the result.
Overridden Next Action	[Display] This column displays the automated action which was overridden by another action.
Next Action	[Display] This column displays the next action. It depends on the result of the action taken earlier.
Next Action Date	[Display] This column displays the date of the next action.
Notes By Collector	[Display] This column displays the notes by collector. Notes by collector are comments added by collector during follow-up.

PTP History

This tab displays the history of the promises received by the collector for an account during the follow-up.

The screenshot shows the 'Authorize By Supervisor' window with the following details:

- Header:** Filter: [] Go [] Phone(R): 23394819 Phone(O): [] Mobile No: 9986202432
- Account Information:**
 - No. of A/C's Pending for Authorization: 1

- Buttons:** Follow-Up [] OK [] Close []

Field Description

Field Name	Description
PTP Plan#	[Display] This field displays the PTP plan number. A single plan can have multiple PTP.
Sr No#	[Display] This field displays the serial number. It is the serial number in the PTP details.
Promise Taken By	[Display] This field displays the name of the collector who has received the PTP from the customer.
Promise Date	[Display] This field displays the date on which the promise was received.

Field Name	Description
Promise Amount	[Display] This field displays the promise amount.
Status	[Display] This field displays the status. The different statuses are PTP broken, PTP fulfilled and PTP unused.
Promise By	[Display] This field displays the customer ID who has promised to pay.

Coll Summary

Collection summary tab displays the delinquency details of the account.

The screenshot shows the 'Authorize By Supervisor' dialog box with the 'Coll Summary' tab selected. The 'Delinquency Details' section contains the following data:

Non Starter :	<input type="checkbox"/>
Peak OD Days :	137
Peak OD Amount :	160500.00
No. Of Times Delinquent :	1
No. Of Times Self Cured :	
No. Of OD A/C (Self) :	12
Total OD Amount (Self) :	2907349.80
No. Of OD A/C (Group) :	0
Total OD Amount (Group) :	
Written Off :	<input type="checkbox"/>

The 'Last Resolution' section contains the following data:

Date :	
Collector Group :	
Collector :	
Action Taken :	

The 'Action Summary' section contains the following data:

Total Attempts :	1
Success Attempts :	0
No. Of PTPs :	
No. Of PTPs Kept :	
No. Of PTPs Broken :	
Consecutive Broken :	

At the bottom of the dialog box, there are buttons for 'Follow-Up', 'OK', and 'Close'.

Field Description

Field Name	Description
Delinquency Details	
Non Starter	[Display] This field displays whether the account is a non starter account. Non starter accounts are the accounts, wherein customers do not pay the first due installment.
Peak OD Days	[Display] This field displays the maximum number of overdue days of an account.
Peak OD Amount	[Display] This field displays the maximum amount overdue for an account.
No. Of Times Delinquent	[Display] This field displays the number of times the account is delinquent.
No. Of Times Self Cured	[Display] This field displays the number of times the account is delinquent and is cured on its own.
No. Of OD A/C (Self)	[Display] This field displays the number of times the account is overdue where the borrower is an account holder.
Total OD Amount (Self)	[Display] This field displays the total amount due by the loan account holder.
No. Of OD A/C (Group)	[Display] This field displays the number of accounts, where the customer is a group customer.
Total OD Amount (Group)	[Display] This field displays the total amount due as a group customer.
Written Off	[Display] This field displays whether the account is marked as write off. The written off check box is selected if the account is marked as write off.
Last Resolution	
Last resolution displays the details of the resolved account.	

Field Name	Description
Date	[Display] This field displays the date of the resolution i.e. when the account was last resolved and moved out of collection.
Collector Group	[Display] This field displays the collector group.
Collector	[Display] This field displays the name of the collector who was working on it.
Action Taken	[Display] This field displays the details of the action taken, when the account was resolved.
Action Summary	
Total Attempts	[Display] This field displays the number of attempts made to resolve the case.
Success Attempts	[Display] This field displays the successful result for the action. For e.g. If the customer promises to pay the amount, and the PTP is not breached.
No. Of PTPs	[Display] This field displays the number of times the PTP is received as result.
No. Of PTPs Kept	[Display] This field displays the number of times the PTP is successful.
No. Of PTPs Broken	[Display] This field displays the number of times the PTP is unsuccessful.
Consecutive Broken	[Display] This field displays the number of times the PTP is consecutively breached.
Next Bucket Movement	
Flow Date	[Display] This field displays the flow date of the next bucket movement.
Flow Days	[Display] This field displays the number of flow days of the next bucket movement.

Auth/Esc Hist

Authorization/escalation tab display the history of authorisations and escalation that is performed on an account.

The screenshot shows the 'Authorize By Supervisor' interface. At the top, there are search filters, phone numbers, and a mobile number. Below this, account details are displayed: Account No. 06001265650010, Status: Regular, Customer Id: 600126, Name: B ANUPAMA, Address: 46, Canara Bank Colony, 6th Cross, Nagarabhavi Road, M, State: MAHARASHTRA, Zip: 400063. The collector is TCOLL1999 - TCOLL1999, supervisor is SQTP11999 - TQTP11 SUPER, workflow is WK1 - WORKFLOW_1, state is NEW - New, queue is Q3 - QUEUE_3, and the exception collector is -. The bottom of the screen shows a large, empty table with columns for Collector Code, Authorizer, Next Action Code, Activity, Next collector, and Authorize Date. At the bottom right are buttons for Follow-Up, OK, and Close.

Field Description

Field Name	Description
Collector Code	[Display] This field displays the collector code. It is the unique code of the collector assigned to the account.
Authorizer	[Display] This field displays the authorisation authority for action.
Next Action Code	[Display] This field displays the next action code.
Activity	[Display] This field displays the activity. The activity is a system activity or a user activity.

Field Name	Description
Next collector	[Display] This field displays the name of the next collector to whom the account is transferred.
Authorize Date	[Display] This field displays the authorisation date.

Notes By Supervisor	[Mandatory, Alphanumeric, 4000] Type the notes by supervisor. It is the brief description of the follow-up by the supervisor.

9. Enter the relevant information and click the **Ok** button.
10. The system displays the **Authorization by Supervisor** screen.

4. Repossession

1.6. CLN62 - Initiate Repossession*

Assets have to be repossessed from customers in case of bad loans. Repossession involves ordering the repossession, repossessing the asset, storing it in a warehouse, evaluate the asset and finally dispose the asset.

Using this option you can initiate the re-possession of the assets of the account of a customer.

Definition Prerequisites

- Accounts assigned to the collectors.

Modes Available

Not Applicable

To initiate repossession

1. Type the fast path **CLN62** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Repossession > Initiate Repossession**.
2. The system displays the **Initiate Repossession** screen.

Initiate Repossession

The screenshot shows the 'Initiate Repossession' screen with the following layout:

- Account Details:** Contains fields for Account Number and Collector.
- Collateral Details:** Contains fields for Collateral Code, Manufacturing Date, Chassis Number, Warehouse, Mileage, Reason, Notes, Status, Engine Number, and Registration Number.
- Collateral Component Details:** A table with columns Component, Condition, and Remark. It includes a header row and a 'New' button.
- Location Details:** Contains fields for Address1, Address2, City, State, and Zip Code.
- Buttons:** Ok, Close, and Clear.

1.7. CLN63 - Collateral Auctioning*

Once the assets are repossessed they need to be disposed by auctioning.

Using this option you can maintain the records of the auctioning of the assets of a customer. It also contains the details of the various sales quotes made for the asset. The organization can initiate the sale of the asset based on the quotes entered in the system. This provides a better management and control for asset sale.

Definition Prerequisites

- CLN62 - Initiate Repossession

Modes Available

Not Applicable

To view the collateral auctioning records

- Type the fast path **CLN63** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Repossession > Collateral Auctioning**.
- The system displays the **Collateral Auctioning** screen.

Collateral Auctioning

1.8. CLN64 - Collateral Disposition*

Using this option you can maintain the sale details of the auctioned assets of a customer and the details of the new buyer to whom the asset will be sold. This is useful to complete the audit trail for the resale process.

Once the assets are repossessed they will be disposed by auctioning using the Collateral Auctioning (Fast Path: CLN63) option. After this the auctioned details need to be maintained in the system.

Definition Prerequisites

- CLN63 - Collateral Auctioning

Modes Available

Not Applicable

To select the buyer for the asset

1. Type the fast path **CLN64** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Repossession > Collateral Disposition**.
2. The system displays the **Collateral Disposition** screen.

6. Reallocation

1.10. CLN32 - Collectorwise Re-allocation*

Using this option you can reallocate the open cases to different collectors. The exception cases can not be reallocated. The collectors can follow-up these cases using the Group Follow Up (Fast Path: CLN30) option.

Definition Prerequisites

- Collectors should be defined

Modes Available

Not Applicable

To reallocate cases collectorwise

1. Type the fast path **CLN32** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Reallocation > Collectorwise Re-allocation** .
2. The system displays the **Collectorwise Re-allocation** screen.

Collectorwise Re-allocation

The screenshot shows a software interface for 'Collectorwise Re-allocation'. The window has a yellow title bar with the text 'Collectorwise Re-allocation'. Inside the window, there are five input fields with dropdown menus. The first two fields are 'From Collector' and 'From Collector Group'. The next two fields are 'To Collector' and 'To Collector Group'. The fifth field is '# of open Cases'. At the bottom right of the window, there are three buttons: 'Ok', 'Close', and 'Clear'.

Field Description

Field Name	Description
From Collector	[Mandatory, Pick List] Select the collector whose cases are to be reallocated from the pick list.
From Collector Group	[Mandatory, Pick List] Select the group of the collector whose cases have to be reallocated from the pick list.
To Collector	[Mandatory, Pick List] Select the collector to whom cases are to be reallocated from the pick list.
To Collector Group	[Mandatory, Pick List] Select the group of the collector to whom cases have to be reallocated from the pick list.
# of Open Cases	[Display] This field displays the total number of open cases of From collector that needs to be reallocated.
# of Cases to be Re-allocated	[Mandatory, Numeric, Three] Type the actual number of cases to be reallocated.

3. Select the from collector and collector group from the pick list.
4. Select the to collector and collector group from the pick list.
5. Type the number of cases to be reallocated.

Collectorwise Re-allocation

6. Click the **Ok** button.
7. The system displays the message "Record Modified Successfully.. Click Ok to continue". Click the **Ok** button.

1.11. CLN33 - Reallocation (Queue wise)*

Using this option you can manually change the collector assigned to a particular open case during reallocation in a particular queue.

Definition Prerequisites

- Queues should be defined
- Collectors should be defined

Modes Available

Not Applicable

To reallocate cases queuewise

1. Type the fast path **CLN33** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Reallocation > Reallocation (Queue wise)**.
2. The system displays the **Reallocation (Queue wise)** screen.

Reallocation (Queue wise)

The screenshot shows the 'Reallocation (Queue wise)' dialog box. The dialog has a yellow header bar with the title 'Reallocation (Queue wise)'. The main area contains seven input fields with labels: 'From Queue :', 'From Collector :', 'From Collector Group :', 'Open Cases # :', 'To Collector :', 'To Collector Group :', and '# of Cases to be Reallocated :'. Each field has a text input box and a browse button (ellipsis). At the bottom right of the dialog are three buttons: 'Ok', 'Close', and 'Clear'.

Field Description

Field Name	Description
From Queue	[Mandatory, Pick List] Select the queue from which cases are to be reallocated from the pick list.
From Collector	[Mandatory, Pick List] Select the collector to reallocate the cases opened by him from the pick list.
From Collector Group	[Mandatory, Pick List] Select the group of the collector whose cases have to be reallocated from the pick list.
Open Cases #	[Display] This field displays the total open cases of the chosen collector.
To Collector	[Mandatory, Pick List] Select the collector to reallocate the cases to him from the pick list.
To Collector Group	[Mandatory, Pick List] Select the group of the collector to whom the cases have to be reallocated from the pick list.
# of Cases to be Reallocated	[Mandatory, Numeric, Three] Type the actual number of cases to be reallocated to the new collector.

3. Select the appropriate from queue, collector, collector group from the pick list.
4. Select the to collector and to collector group from the pick list.
5. Enter the number of cases to be reallocated.

Reallocation (Queue wise)

6. Click the **Ok** button.
7. The system displays the message "Record Modified Successfully. Click Ok to continue". Click the **Ok** button.

1.12. CLN34 - Reallocation (Individual)*

Using this option you can manually change the collector assigned to a particular open case during reallocation.

For the given account number, you have to select the new collector and collector group.

Definition Prerequisites

- Collectors should be defined

Modes Available

Not Applicable

To reallocate cases individually

1. Type the fast path **CLN34** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Reallocation > Reallocation (Individual)**.
2. The system displays the **Reallocation (Individual)** screen.

Reallocation (Individual)

The screenshot shows the 'Reallocation (Individual)' dialog box. The dialog has a yellow header bar with the title 'Reallocation (Individual)'. Below the header are five input fields: 'Account number :', 'Collector Code :', 'From Collector Group :', 'New Collector :', and 'To Collector Group :'. Each field has a text input box and a '...' button to its right. At the bottom of the dialog is a yellow footer bar with three buttons: 'Ok', 'Close', and 'Clear'.

Field Description

Field Name	Description
Account number	[Mandatory, Pick List] Select the account number, of the open case to be reallocated, from the pick list.
Collector Code	[Display] This field displays the code of the collector who is assigned to the account.
From Collector Group	[Display] This field displays the current collector group of the collector.
New Collector	[Mandatory, Pick List] Select the new collector from the pick list. The adjoining field displays the name of the selected collector.
To Collector Group	[Mandatory, Pick List] Select the group of the collector to whom cases have to be reallocated from the pick list.

3. Select the account number from the pick list.
4. Select the new collector code from the pick list.

Reallocation (Individual)

Reallocation (Individual)			
Account number :	00052050000021	SURYANARAYANA B	
Collector Code :	SCOLL1	SCOLL1 SUPER

5. Click the **Ok** button.
6. The system displays the message "Record successfully modified. Click Ok to continue".
Click the **Ok** button.

1.13. CLN35 - Temporary Re-Allocation*

A collector is a person who will follow up with the case.

Using this option, you can manually change the collector assigned to a particular open case during reallocation. The case will remain reallocated to the new collector till the Till Date. However, a temporary reallocated case cannot be reallocated again until Till date.

Definition Prerequisites

- Collector should be defined
- Cases should be allotted to the collectors

Modes Available

Not Applicable

To temporary re-allocate a collector

1. Type the fast path **CLN35** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Reallocation > Temporary Re-Allocation**.
2. The system displays the **Temporary Re-Allocation** screen.

Temporary Re-Allocation

The screenshot shows the 'Temporary Re-Allocation' dialog box. At the top, there are four input fields: 'From Collector' and 'From Collector Group' (both with browse buttons), 'To Collector' and 'To Collector Group' (both with browse buttons), and a 'Till Date' field. Below these are sections for 'Parameter' (a table with columns for Parameter, Description, Operator, Condition, Value Flag, Value, Parameter, Description, and Logical Operator), 'Formula Expression' (a text area with a 'Show Expression' button), and buttons for 'Ok', 'Close', and 'Clear'.

Field Description

Field Name	Description
From Collector	[Mandatory, Pick List] Select the ID of the collector who has open cases that can be reallocated from the pick list. The collector name is populated in the corresponding field.
From Collector Group	[Mandatory, Pick List] Select the group ID of the collector whose cases will be reallocated from the pick list. The collector group name is populated in the corresponding field.
To Collector	[Mandatory, Pick List] Select the ID of the new collector to whom the cases will be reallocated from the pick list. The collector name is populated in the corresponding field.
To Collector Group	[Display] This field displays the group of the collector to whom the cases will be reallocated. The group name is displayed in the corresponding field.
Till Date	[Mandatory, dd/mm/yyyy] Type the date till which the reallocation will be valid.

Column Name	Description
Parameter	
([Display] This column displays the opening bracket for forming a condition.
Parameter	[Mandatory, Pick List] Select the reallocation parameter from the pick list. Based on the selected parameter, the criterion of reallocation is defined and attached to queue code.
Description	[Display] This column displays the description of the parameter selected in the adjacent field.

Column Name	Description
Operator	<p>[Mandatory, Pick List]</p> <p>Select the arithmetic operators used in the condition from the pick list.</p> <p>The options are:</p> <ul style="list-style-type: none"> • * • + • - • /
Condition	<p>[Optional, Pick List]</p> <p>Select the condition from the pick list.</p> <p>Condition is a criteria for a queue. User has to enter the condition by selecting the parameter.</p>
Value Flag	<p>[Mandatory, Pick List]</p> <p>Select the value flag from the pick list.</p> <p>The value flag specifies whether the value evaluated with the operator/ condition selected will be a fixed or variable.</p> <p>The options are:</p> <ul style="list-style-type: none"> • F: Fixed Value • V: Parameter to be evaluated
Value	<p>[Mandatory, Alphanumeric, 40]</p> <p>Type the value.</p> <p>The value is defined based on the condition.</p>
Parameter	<p>[Conditional, Pick List]</p> <p>Select the queue parameter from the pick list.</p> <p>The criteria of a queue is defined and attached to the queue code on the basis of the selected parameter.</p>
Description	<p>[Display]</p> <p>This column displays the description of the parameter selected in the adjacent field.</p>
Logical Operator	<p>[Conditional, Pick List]</p> <p>Select the operator used to join the two conditions/predicates specified with AND/OR from the pick list.</p>
)	<p>[Display]</p> <p>This column displays the closing bracket for forming a condition.</p>
Formula Expression	<p>[Display]</p> <p>This column displays the condition which is created</p>

3. Select the collector and collector group whose cases are to be re-allocated from the pick list.
4. Select the collector and collector group to whom the cases will be reallocated from the pick list.
5. Enter the other relevant information.

Temporary Re-Allocation

Parameter	Description	Operator	Condition	Value Flag	Value	Parameter	Description	Logical Operator
(AMT_OVERDUE	AMT OVERDUE	+		F	12) AND

6. Click the **Ok** button.
7. The system displays the message "Record modified successfully. Click Ok to continue". Click the **Ok** button.

7. Exception Case Marking

1.14. CLN29 - Exception Case Marking*

Using this option the collector can mark a case as a exceptional case if he wants that case to be handled by a exception collector.

This is the code which collector can attach to the account based on the type of the customer e.g. special code can be VIP. The cases which are ready for follow-up can be marked/unmarked for exception or the code which collector can attach to the account based on the type of the customer. The cases which are ready for follow-up can be marked/unmarked for exception or added as a special code by the collector.

Definition Prerequisites

- Collector should be defined
- Special codes should be defined

Modes Available

Not Applicable

To mark the exception case

1. Type the fast path **CLN29** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Exception Case Marking > Exception Case Marking**.
2. The system displays the **Exception Case Marking** screen.

Exception Case Marking

Field Description

Field Name	Description
Account No	[Mandatory, Pick List] Select the account number to be processed from the pick list.
Exception	[Mandatory, Radio button] Click the appropriate exception. Exception allows the user to select the case as an exception case. The options are: <ul style="list-style-type: none"> • Mark • Unmark • SpCode
Exception Collector	[Conditional, Pick List] Select the branch of the bank that has made the TT from the pick list. This field is mandatory if Mark is selected in the Exception field.

Field Name	Description
Special Code	<p>[Conditional, Pick List] Select the special code from the pick list. The special code is attached to the case on the basis of the type of the customer.</p> <ol style="list-style-type: none"> 3. Select the account number from the pick list. 4. Enter the other relevant information.

Exception Case Marking

Exception Case Marking

Account No : 00053010000012

Exception : Mark Unmark SpCode

Exception Collector : SCOLL1

Special Code : 222
