Release 4.5.0.0.0  
Part No E52127-01**

## Table of Contents (index)

<b>1. Service Charge Details Screen.....</b>	<b>3</b>
1.1. SCM02 - SC Package for Customer* .....	4
1.2. SCM03 - SC Package Changes at Account .....	12
1.3. SCM05 - SC History for Account Inquiry.....	18
1.4. SCM06 - SC Package Linkage to Code Task* .....	32

## 1. Service Charge Details Screen

The Service Charges Details is a common screen, which is linked to all the transactions and events maintenance's, for which a bank may levy charges. This screen enables a user to view the details of the charges levied for the particular transaction or an event. Examples of such transactions would be purchasing a TC, selling a banker's cheque or DD, etc. This option allows the user to only change the SC Amount. The user may increase or decrease or even waive it, as required. This screen attached to transactions and events maintenance's, can be navigated to by clicking the 'Service Charges Details' button, provided at the bottom-right corner of all charged transactions and events maintenances.

The details of the service charges will be displayed in this screen along with the collection mode details. SC Collection Mode: 'Cash' and 'Transfer' will be provided on the SC details Screen which gets enabled if the SC is applicable for that transaction code. The teller can select the either of the two modes for SC collection.

When multiple SCs are listed for the transaction, user can select different pay mode for the individual SC. In such case the system will debit the individual SC based on the mode selected for the collection.

For more information refer to Service Charge Details in **Common Screens** option in **Oracle FLEXCUBE Introduction User Manual**.

## 1.1. SCM02 - SC Package for Customer\*

Using this option you can link a SC package to a customer. Following activities can be performed using this maintenance:

- Link SC Package to the customer
- Specify the customer's existing accounts to which the package should be linked
- Specify an effective date from when the SC package linked at customer should get affected at customer's accounts.

### Definition Prerequisites

- SCM01 - SC Package Definition
- 8053 - Customer Addition

### Modes Available

Add, Modify, Delete, Cancel, Amend, Authorize, Inquiry. For more information on the procedures of every mode, refer to **Standard Maintenance Procedures**.

### To add a service charge package for customer

1. Type the fast path **SCM02** and click **Go** or navigate through the menus to **Transaction Processing > Account Transactions > Customer Transactions > SC Package Link at Customer**.
2. The system displays the **SC Package for Customer** screen.

## Field Description

Field Name	Description
<b>Date Effective</b>	[Mandatory, dd/mm/yyyy] The date or select it from the calendar from which the new linked service charge package should be effective for the existing accounts.
Column Name	Description
<b>Account Number</b>	[Display] The account number of the customer.
<b>Service Charge Package</b>	[Display] The service charge package code and name.

Column Name	Description
<b>Change</b>	<p>[Toggle Status]</p> <p>Click the toggle status and select the <b>Y</b> value to attach the new selected package to the account.</p> <p>By default, this field displays the value <b>N</b>.</p> <p>The new package will be effective for the selected accounts, from the effective date specified.</p>

7. Click the **Ok** button.
8. The system displays the message "Record Added...Authorization Pending...Click Ok to Continue". Click the **Ok** button.

**Note:** When a SC Package is attached to a customer, this new SC package functions as the default package, instead of the default product package. The waivers specified in the linkage will be defaulted to the account.

## 1.2. SCM03 - SC Package Changes at Account

A SC package can be attached at a customer level or at the product level. The SC package linked either at the customer level or product level is defaulted at the CASA level. Hence for an account, the SC package depends on the SC package linked either at the customer level or product level.

If there is a SC package attached at customer level the same is defaulted to the account when it's opened. If not, the SC package linked at the product level is attached to the account.

Using this option you can modify or customise an SC package for a CASA. The following changes can be made to the SC package attached to the account:

- Waiver of specific/all Service Charges for an account
- Changes to SC capitalisation parameters
- Modification of SC priority that will be effective in case NSF situation is encounter when charging periodic charges.

### Definition Prerequisites

- SCM01 - SC Package Definition

### Modes Available

Add, Modify, Delete, Inquiry. For more information on the procedures of every mode, refer to **Standard Maintenance Procedures**.

### To modify service charge package for an account

1. Type the fast path **SCM03** and click **Go** or navigate through the menus to **Transaction Processing>Account Transactions>CASA Account Transactions>Other Transactions>SC Package Changes at Account**.
2. The system displays the **SC Package Changes at Account** screen.

## SC Package Changes at Account

### Field Description

Field Name	Description
<b>Account Details</b>	
<b>Account No</b>	[Mandatory, Numeric, 16] Type the account number of the customer for which you want to perform the SC package changes inquiry.
<b>Name</b>	[Display] This field displays the short name of the primary customer linked to the account.
<b>Customer ID</b>	[Display] This field displays the ID of the selected customer.  Customer ID is an identification number, generated by the system after customer addition is completed successfully. This running number, unique to a customer across the system, is generated after the system has identified the Customer IC and Customer Category combination to be non-existent in the system. This ID is used for searching and tracking the customer in the system.

## SCM03 - SC Package Changes at Account

Field Name	Description
<b>Status</b>	[Display] This field displays the account status.
<b>Currency</b>	[Display] This field displays the currency in which the account is maintained.
<b>Product</b>	[Display] This field displays the name of the product under which the CASA is opened.
<b>Branch</b>	[Display] This field displays the home branch to which the customer belongs.
<b>Package Details</b>	
<b>Service Charge Package</b>	[Display] This field displays the name of the service charge package that is attached to the account.
<b>Account Level SC Waiver Flag</b>	[Optional, Check Box] Select the <b>Account Level SC Waiver Flag</b> check box to waive SC on the SC package attached to the account.  The check box is selected if SC waiver is applicable to the account. If this check box is selected, all service charges in the package will be waived for the account.
Column Name	Description
<b>Srl.No.</b>	[Display] This column displays the running serial number.
<b>Code</b>	[Display] This column displays the service charge code.
<b>Ccy</b>	[Display] This column displays the currency code in which the service charge is levied.
<b>Description</b>	[Display] This column displays the service charge name as the description for the service charge code.

Column Name	Description
<b>Linkage Type</b>	<p>[Display]</p> <p>This column displays the type of trigger, on which the SC is to be charged.</p> <ul style="list-style-type: none"> <li>• Periodic: SC applied in a frequency</li> <li>• Others: SC applied adhoc without a frequency</li> </ul>
<b>Linkage Code</b>	<p>[Display]</p> <p>This column displays the linkage code.</p> <p>Depending on the linkage type, this code is an exact trigger for charging SC. For e.g. for linkage type transaction, Cash Deposit, cash withdrawal type of transactions will be displayed.</p>
<b>Priority</b>	<p>[Mandatory, Numeric, Five]</p> <p>Type the priority of the service charge in the package.</p> <p>This is the order in which the service charges shall be applied. SC will applied in the ascending order of priority at the time of application</p>
<b>Cap Type</b>	<p>[Mandatory, Drop-Down]</p> <p>Select the SC capitalisation type from the drop-down list.</p> <p>The options are:</p> <ul style="list-style-type: none"> <li>• Calendar: SC application date will be calendar based depending on capitalisation frequency irrespective of anniversary day / anniversary month.</li> <li>• Anniversary: SC application date depends on capitalisation frequency and anniversary day / anniversary month.</li> </ul>
<b>Cap Freq.</b>	<p>[Mandatory, Drop-Down]</p> <p>Select the SC capitalisation frequency from the drop-down list.</p> <p>It is the time interval at which, the bank will levy the service charges.</p> <p>The options are:</p> <ul style="list-style-type: none"> <li>• Daily</li> <li>• Monthly</li> <li>• Bi-Monthly</li> <li>• Quarterly</li> <li>• Half -Yearly</li> <li>• Yearly</li> </ul>

Column Name	Description
<b>Anniv. Day</b>	<p>[Conditional, Numeric, Two]</p> <p>Type the anniversary day of SC.</p> <p>The number of days will be zero if the Calendar option is selected in the <b>Cap Type</b> field.</p>
<b>Anniv. Month</b>	<p>[Conditional, Numeric, Two]</p> <p>Type the anniversary month of SC.</p> <p>The number of months will be zero if the Calendar option is selected in the <b>Cap Type</b> field.</p>
<b>Waiver Flag</b>	<p>[Toggle]</p> <p>If the SC is waived for the account, then this field displays the value <b>Y</b>. By default, displays the value <b>N</b>.</p> <p>To waive a single service charge from the package, click the toggle status to change the value to <b>Y</b>.</p>
<b>Waive Uncharged</b>	<p>[Toggle]</p> <p>By default the value is N. If Waiver Flag has been changed to Y then:</p> <ul style="list-style-type: none"> <li>• N: Denotes that uncollected SC should be charged on the account.</li> <li>• Y: Denotes that uncollected SC should be waived on the account.</li> </ul> <p>As package change activity, if a service charge is waived in the middle of the capitalisation period, Waiver Uncharged flag determines the treatment of uncollected service charge.</p>

3. Click the **Modify** button.
4. Enter the account number and press the **<Tab>** key.
