Advance Amount	[Display] This field displays the advance amount for the finance given.
Fees And Charges	[Display] This field displays the fees and service charges applied on the financing account.

Field Name	Description
Installment Arrears	[Display] This field displays the unpaid installment amount.
Next Installment Date	[Display] This field displays the due date of the next installment.
Next Installment Amount	[Display] This field displays the next installment amount.
Final Settlement Amount	[Display] This field displays the final settlement amount.
Outstanding Finance	[Display] This field displays the outstanding finance amount to be paid.
Bank's Profit due	Display] This field displays the outstanding profit to be repaid.
Remaining installments	[Display] This field displays the total number of remaining installments.

- Click the **Back** button. The system displays the initial **Financing Account Details** screen.
OR
Click the **Financing Account Activity** button. The system displays the Financing Account Activity screen.(For Financing Account Activity screen refer Financing Account Activity Transaction)

4. Financing Schedule

Customers may have financing accounts pertaining to different products, amounts and variants. This option allows you to view individual loan parameters.

This is similar to the amortization schedule prepared for every loan. Every equated monthly installment consists of two components:

- Principal
- Interest

The schedule shows how every installment is part profit and part principal.

To view financing schedule

1. Navigate through the menus to **Islamic Finance > Financing Details**. The system displays the **Financing Details** screen.

This field displays the financing amount debited.

Debit Currency [Display]
This field displays the currency in which the financing amount is debited.

Installment Paid [Display]
This field displays the total number of installments paid.

Repayment Break Up

Component Name [Display]
This column displays the various components under which financing repayment amount is divided.

Amount [Display]
This column displays the component-level breakup of the financing repayment amount.

Outstanding Balance

Component Name [Display]
This column displays the various components under which the financing amount is outstanding.

Amount [Display]
This column displays the component-level breakup of the outstanding financing amount.

Currency

[Display]

This column displays the currency of the outstanding financing amount.

7. Click the **OK** button. The system displays the initial **Financing Repayment Inquiry** screen.

6. Financing Settlement

This option allows you to pay off outstanding balance in your financing account. You can transfer funds from another account to pay off the balance amount.

You can settle the finance by repaying the amount from the account and thus the settlement will be done. This settlement could be the settlement of complete amount or the partial amount as per the amount of repayment done.

To do financing settlement

1. Navigate through the menus to **Islamic Finance > Financing Details**. The system displays the **Financing Details** screen.

7. Financing Account Activity

This option allows you to view all the activity that has occurred in your account for a given period. The option allows you to select a transaction type (debit, credit or both), a date range, and a sorting order. It allows you to view the outstanding balance in your Financing account.

The statement displays the transaction date, the value date and the amount of debit or credit depending on what you have selected. It also gives you an option of downloading the statement in Microsoft Excel format.

This option should ideally used when you want to check the activity in your financing account over a period of time. It is a useful method of tracking any discrepancies or reconciling it with other budgetary activities.

To view the financing account activity

1. Navigate through the menus to **Islamic Finance > Loan Details**. The system **displays the Financing Details** screen.

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Hardware and Software

Engineered to Work Together
