2. Introduction

A term deposit is a deposit held with a fixed amount and for a fixed term. The amount deposited is called the principal amount on which interest is paid. The term for which the deposit is made is the tenure of the deposit. Amount deposited can only be withdrawn at the end of this tenure i.e. at maturity. Principal amount may be withdrawn from the term deposit before maturity. This is known as redemption and may be partial or full.

Term Deposit module allows you to open a term deposit account. The term deposits module includes transactions which enable you to view term deposit account details, view term deposit account activity, open new term deposits, amend term deposits and redeem term deposits through their respective modules.

Term deposit module includes contract deposits which allow you to initiate a contract deposit as well as view a contract term deposit. Contract term deposits are having similar functionality as normal term deposits but are integrated with Corporate Deposits Module of FC UBS.

Structured term deposit is a deposit that acts as an investment product. In addition to getting a fixed interest on the principal amount of the term deposit, you also gain a profit as a percentage of the amount invested.

In case of Islamic term deposits a profit is paid by the bank to the user.

3. Term Deposit Details

Using this option you can view the term deposit account details of the particular customer. It displays basic details of the deposit account like maturity date, maturity amount.

10. Structured Deposit Subscription

This option allows the user to subscribe for a new Structured Deposit. A structured deposit is combination of Term deposit with Fixed rate o return along with a NAV based fluctuating returns. Structured Deposits enable customers to invest in instruments linked to difference asset classes such as interest rates, equities, commodities, foreign exchange and credit without directly investing in the underlying assets. Structured Deposits gives an opportunity to the customers to earn higher returns than in a regular savings account. The returns from structured deposits are potentially higher than a plain vanilla deposit. However, the returns are not assured as it depends on the performance of the underlying assets.

Navigate through menus, **Accounts > Deposits > Structured Deposit Subscription** to view Structured Deposit Subscription details.
