U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

## 2 Abbreviations

FC@	FLEXCUBE @
J2EE	Java 2 Enterprise Edition
Java EE	Java Enterprise Edition
J2SE	Java 2 Standard Edition
DBA	Database Administrator

---

## 3 Scheduled Jobs

### 3.1 Purge File upload table

This scheduled job is used to purge the table used to temporarily hold the uploaded files.

The job invokes procedure “PURGE\_FILEUPLOAD” which purges the data.

PROC\_PURGE\_FILEU  
PLOAD.sql

### 3.2 Purge Timed out User Sessions

This scheduled job is used to purge the user sessions which have timeout.

The job invokes procedure “PURGE\_USERSSESSION” which purges the data. The procedure purges the session data & audits termination of the session.

PROC\_PURGE\_USER  
SESSION.sql

### 3.3 Purge Temp Tables

This scheduled job is used to purge the temporary tables. This job does not purge the log data.

The job invokes procedure “PURGE\_TMPTBL” which maintains the user.

PROC\_PURGE\_TMPT  
BL.sql

---

### 3.4 Maintain hibernated User

This scheduled job is used to maintain the users who have exceeded the hibernation period. “Passwordpolicy” allows to set hibernation period for users. If the user does not successfully logs into the system before the hibernation period, the user is locked.

The job invokes procedure “MAINTAIN\_HIBERNATEDUSER” which maintains the user.

PROC\_MAINTAIN\_HI  
BERNATEDUSER.sql

### 3.5 Deactivating channel user

This scheduled job is used to lock/unlock the channel users who have raised a deactivation request for a date range. This job will invoke the procedure to lock the channel user id’s whose deactivation requests starts on the calendar day when the job runs and unlocks the channel user id whose deactivation requests ends on the day when the job runs.

The job invokes procedure “ACT\_DEACT\_CHANNELUSER” which locks/unlocks the user.

ACT\_DEACT\_CHANN  
ELUSER.sql

### 3.6 Manage Maintain Log

This scheduled job is used to purge no. of table configured in Purge\_Duration table. This is the generic purging activity. This job will invoke the procedure which in turn takes each table configuration from Purge\_Duration table and does archive & delete the records depending on the duration specified in the same table.

MANAGE\_MAINTAIN\_PURGE.sql

---

## 4 Scheduled Jobs Summary

Job Name	Procedure Invoked	Job Schedule
JOB_PURGE_FILEUPLOAD	PURGE_FILEUPLOAD	Every 32 Minutes
JOB_PURGE_TIMEOUT_USER SESSION	PURGE_USERSESSION	Every 60 Minutes
