3.   Introduction

The *Term Deposit* is a deposit held with a fixed amount and for a fixed term. The amount deposited is called the *Principal Amount* on which interest is paid. The term for which the deposit is made is the *Tenure* of the deposit. The amount deposited can only be withdrawn at the end of this tenure i.e. at maturity. The *Principal Amount* may be withdrawn from the *Term Deposit* before maturity. This is known as *Redemption* and may be *Partial* or *Full*.

The *Term Deposit* module allows you to open a *Term Deposit Account*. The *Term Deposits* module includes transactions which enable you to view the *Term Deposit Account Details*, *View Term Deposit Account Activity*, *Open New Term Deposits*, *Amend Term Deposits* and *Redeem Term Deposits* through their respective modules.

The *Term Deposit* module includes *Contract Deposits* which allow you to initiate a *Contract Deposit* as well as *View a Contract Term Deposit*. The *Contract Term Deposits* are having similar functionality as normal *Term Deposits* but are integrated with the *Corporate Deposits Module* of *FCUBS*.

The *Structured Term Deposit* is a deposit that acts as an investment product. In addition to getting a fixed interest on the *Principal Amount* of the *Term Deposit*, you also gain a profit as a percentage of the amount invested.

In case of *Islamic Term Deposits* a profit is paid by the bank to the user.

4.   Term Deposit Details

Using this option you can view the *Term Deposit Account Details* of the particular customer. It displays basic details of the *Deposit Account* like *Maturity Date*, *Maturity Amount.*

1.   Navigate to **Accounts > Deposits > Term Deposit Details**

11. Structured Deposit Subscription

This option allows the user to subscribe for a new *Structured Deposit*. A *Structured Deposit* is a combination of the *Term Deposit* with the *Fixed Rate Returns* along with a *NAV* based fluctuating returns. The *Structured Deposits* enable customers to invest in instruments linked to different *Asset Classes* such as *Interest Rates*, *Equities*, *Commodities*, *Foreign Exchange* and *Credit without directly investing* in the underlying assets. The *Structured Deposits* gives an opportunity to the customers to earn higher returns than in a *Regular Savings Account*. The returns from the *Structured Deposits* are potentially higher than a *Plain Vanilla Deposit*. However, the returns are not assured as it depends on the performance of the underlying assets.
