U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

1. Preface

1.1 Intended Audience

This sites user manual doc is intended to contributor user of FLEXCUBE Direct Banking. Contributor users have privileges to create new assets and modify existing assets.

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to OFSS Support

<https://support.us.oracle.com>

1.4 Structure

This document is divided into the following sections: Overview (a brief introduction), Prerequisites, creation of content creation of pages, ATM branch location configuration steps and configuration for mobile devices.

1.5 Related Information Sources

For more information on Oracle FLEXCUBE Direct Banking Release 12.0.3.0 sites module, refer to the following documents:

- Oracle FLEXCUBE Direct Banking Sites Developer Guide,
- Oracle FLEXCUBE Direct Banking Sites Installation Guide.doc

2. Overview

FLEXCUBE Direct Banking Sites help customers in rapidly rolling out their online banking portals

FLEXCUBE Sites offers a comprehensive extensible content model which will help a bank build web content (termed "Assets") effectively and rapidly. The content model helps in building the following "Asset Types"

- Product Catalogs
- Offers
- Service Catalogs
- FLEXCUBE Direct Banking Widgets
- Promotions/Recommendations
- Images
- General Content (Articles/Quick Links/Navigation Links etc...)
- ATM and Branch locator

3. Pre-Requisites

Oracle Webcenter Sites 11.0.8.0.0 should have been installed along with the FC Sites Content Model.

4. Creation of content

As mentioned earlier, FLEXCUBE Direct Banking Sites helps in building content and assemble pages to rapidly rollout an online portal

This section will demonstrate on how to build content from the various asset model already pre-configured with FLEXCUBE Direct Banking Sites

4.1 Product Creation

1. Login as the administrator for FLEXCUBE Direct Banking Sites using the credentials "fwadmin/xceladmin"

ORACLE WebCenter Sites Version: 11gR1

Secure User Login

ORACLE®

Username: fwadmin

Password: ●●●●●●

Forgot password?

- Image:** A thumbnail image showing a smartphone with various icons and a globe.
- Image Alt Text:** Mobile Services Offer
- Caption for the image:** Mobile Services Offer

7.3 General Content

1. Login as the administrator for FLEXCUBE Direct Banking Sites using the credentials "fwadmin/xceladmin"

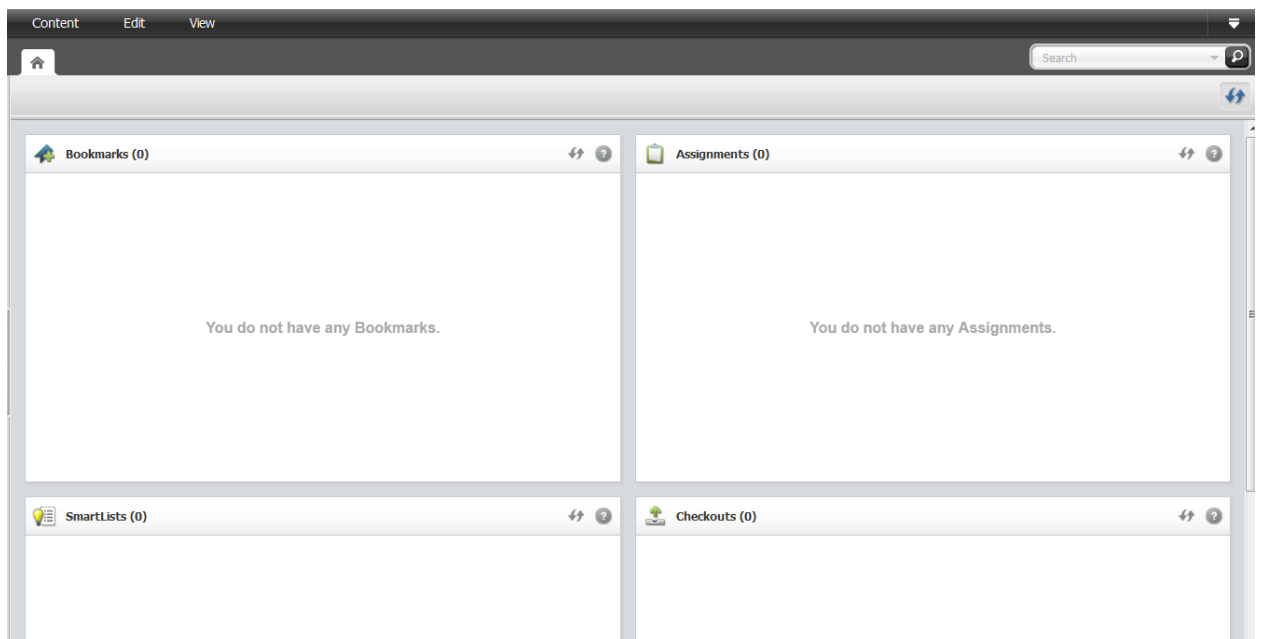

The screenshot shows the Oracle WebCenter Sites login page. The top bar includes 'ORACLE WebCenter Sites' and 'Version: 11gR1'. The main content area features the Oracle logo on the left and a 'Secure User Login' form on the right. The form includes:

- Username:** A text input field containing 'fwadmin'.
- Password:** A password input field with masked characters (dots).
- Forgot password?:** A link below the password field.
- LOGIN:** A prominent button.
- Remember me:** A checkbox below the login button.

2. Once logged in, choose the site FCWEM_v0.4 on the top-right corner of the screen and click on the Contributor icon on the top-left corner of the screen

The contributor interface screen is displayed. This is the main workspace for any content contributor

3. Click **Content -> New -> New Content**.
This will display a sequence of screens that will be required to create a New Content

The screenshot shows a web interface with a 'Form' tab selected. Below the tab are three sub-sections: 'Content', 'Marketing', and 'Metadata'. The 'Content' section is active and contains the following fields:

- *Name:** A text input field.
- Template:** A dropdown menu with the text "-- choose display style --".
- *Content Sub Category:** A dropdown menu with a double-headed arrow icon to its right.
- *Content Title:** A text input field.
- Headline:** A text input field.
- Content URL Link:** A text input field.
- Content Short Description:** A text input field.

Any sample Content can be viewed to see the kind of details that go into the creation of the Image.

4. Click **Search -> Find Content -> Product Announcement - Cash Retraction**

Form					
Content	Metadata				

Announcement: Product Announcement - Cash Retraction

***Name:** Product Announcement - Cash Retraction

Template: *No template specified*

Content Sub Category: [Announcements](#)

***Content Title:** Cash Retraction Facility

8. Creation of Pages

Once the content has been created, pages have to be setup.

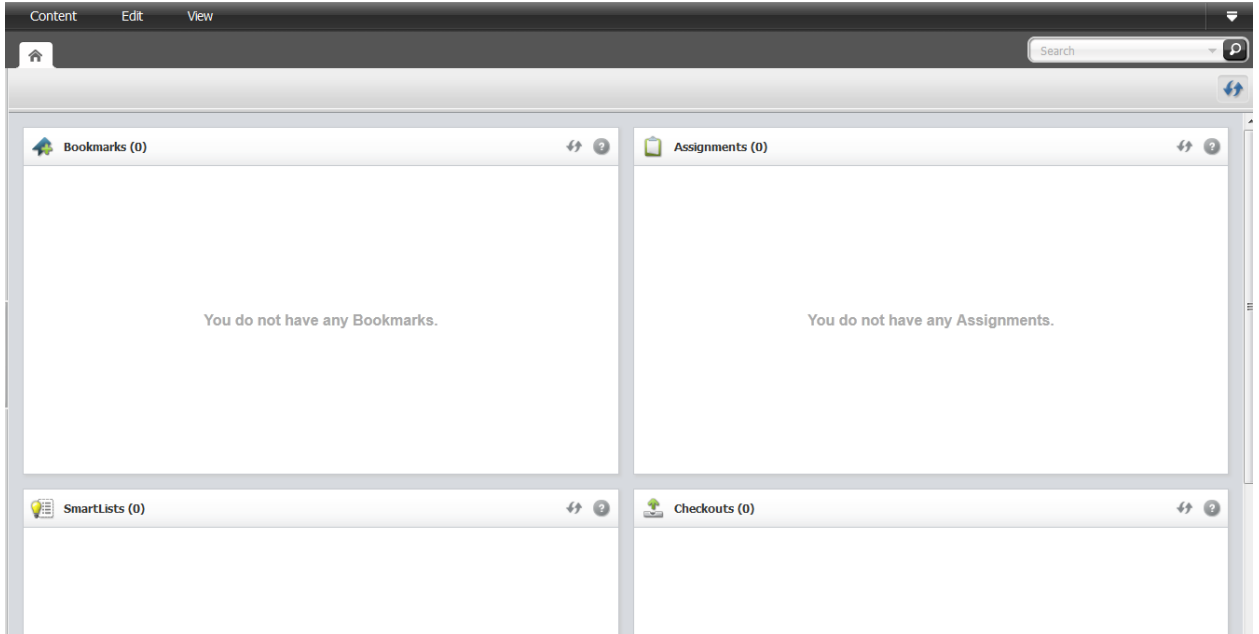

8.1 Page Creation

1. Login as the administrator for FLEXCUBE Direct Banking Sites using the credentials "fwadmin/xceladmin"

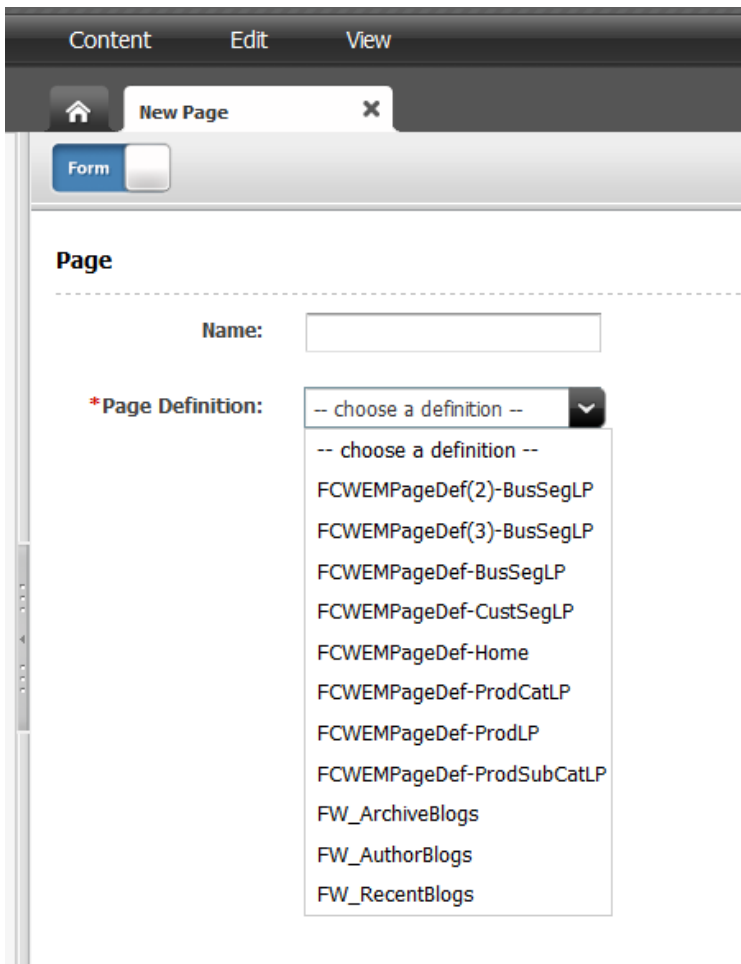

2. Once logged in, choose the site FCWEM_v0.4 on the top-right corner of the screen and click on the Contributor icon on the top-left corner of the screen

The contributor interface screen is displayed. This is the main workspace for any content contributor

3. Click on **Content -> New -> New Page**

FLEXCUBE Sites offers OOTB a set of Page Definitions which can be utilized by the bank to create new pages. Alternatively, it is very easy for a bank to create their own Page Definitions

In our case, we will choose to create a Business Segment Landing Page. Choose FCWEMPageDef-BusSegLP

The screenshot displays the 'New Page' configuration window. At the top, there is a breadcrumb trail with a home icon and the text 'New Page'. Below this, there are two buttons: 'Form' and a save icon. The main content area is divided into two tabs: 'Content' and 'Metadata'. The 'Content' tab is active, showing the 'Business Segment Landing Page Definition' form. The form includes the following fields and sections:

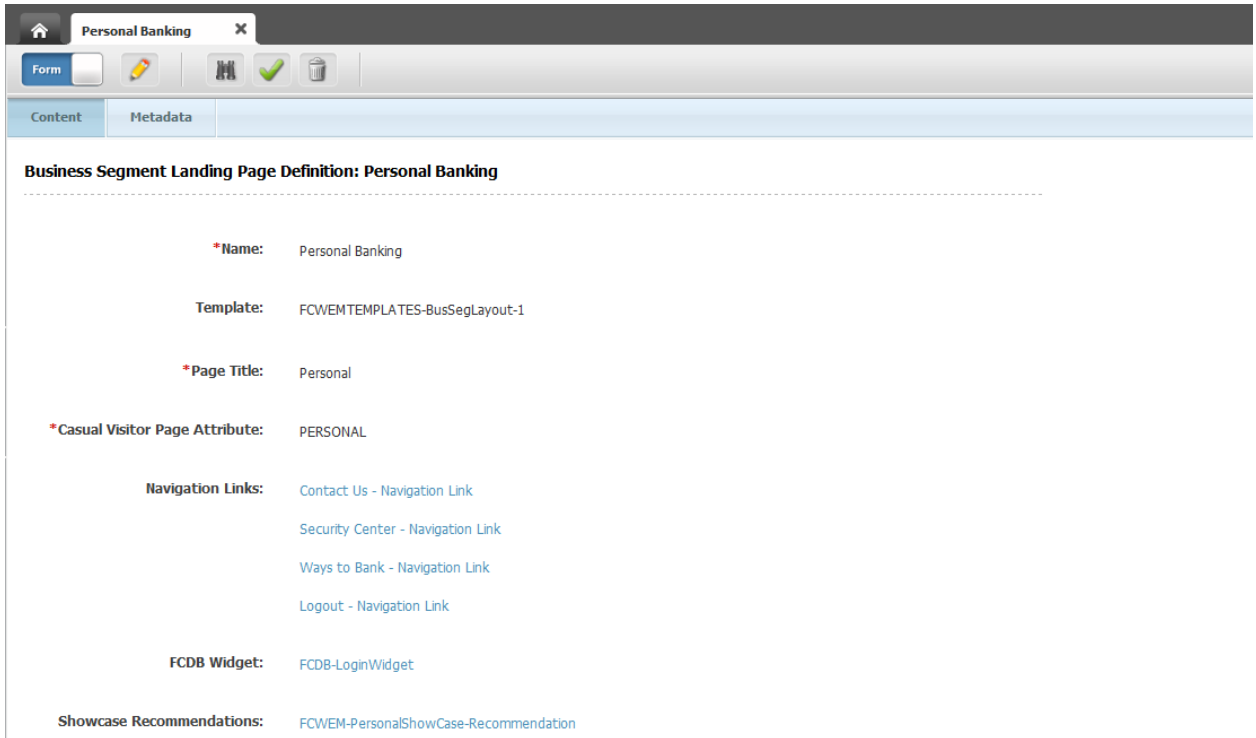

- *Name:** A text input field.
- Template:** A dropdown menu currently showing 'FCWEMTEMPLATES-BusSegLayout-1'.
- *Page Title:** A text input field.
- *Casual Visitor Page Attribute:** A text input field.
- Navigation Links:** A dashed box containing a hand icon and the text 'Drop Zone'.
- FCDB Widget:** A dashed box containing a hand icon and the text 'Drop Zone'.

4. Enter the set of attributes as mentioned and click on the "Save" icon.

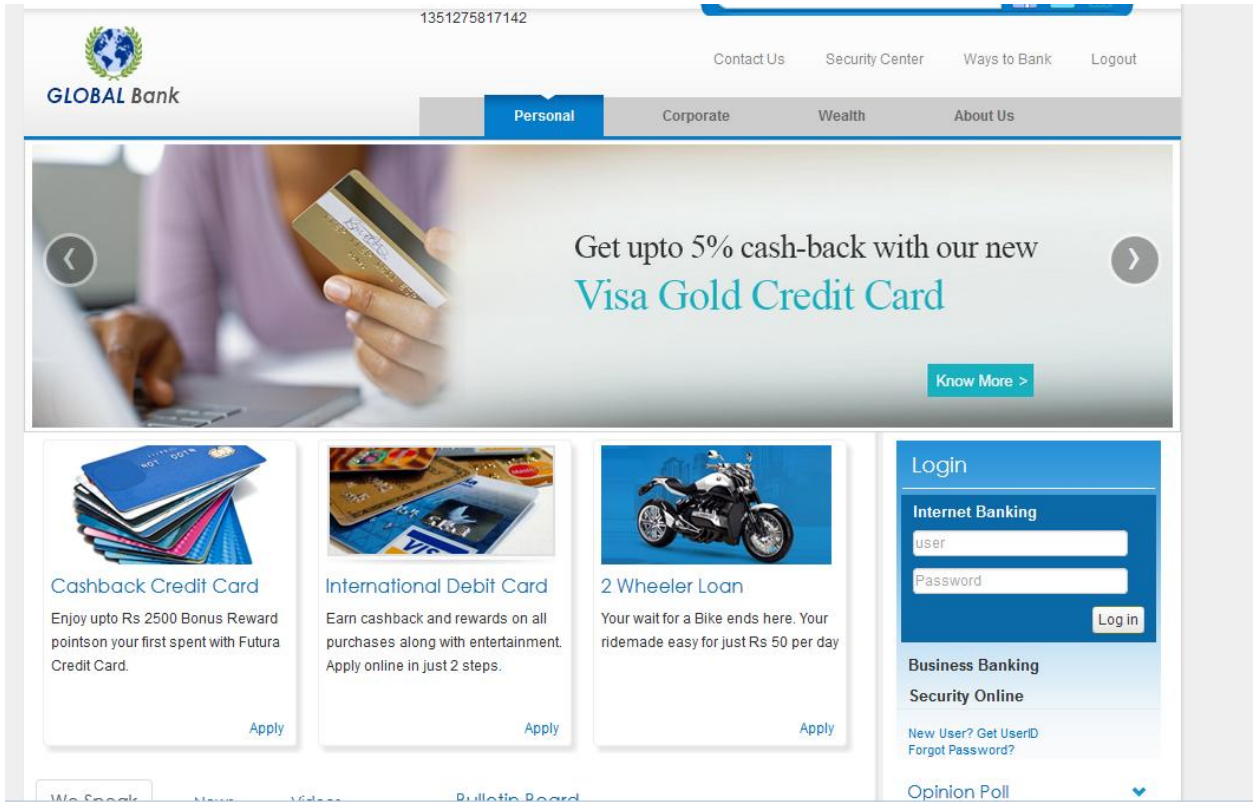

Note: You can also choose the "Web" mode to have a visual representation of the page as you continue editing it

Any sample Page can be viewed to see the kind of details that go into the creation of the Image.

5. Click on **Search -> Find Page -> Personal Banking**

6. At any time, to preview your changes, click **View -> Preview in New Window**. A new browser window will open up which shows the changes of your page.

9. New ATM or Branch locator configuration steps

9.1 Locator Asset

Locator asset family provides the functionality to the user to locate ATM or Branch on map. To mark a new location on you need to first create a Locator Parent which specifies the country in which ATM is located. All ATM and Branch are located in same country have the same Locator Parent.

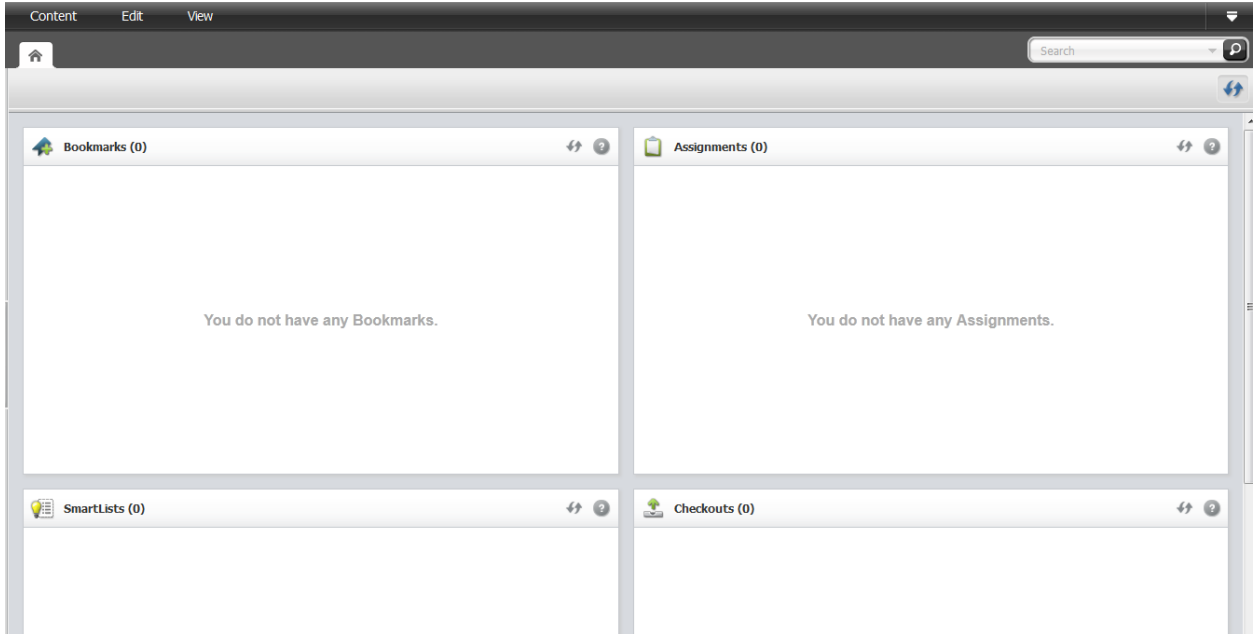

Creating New Locator Parent Assets

1. Login in FlexCube Sites in contributor mode.
2. Login as the administrator for FLEXCUBE Direct Banking Sites using the credentials "fwadmin/xceladmin"

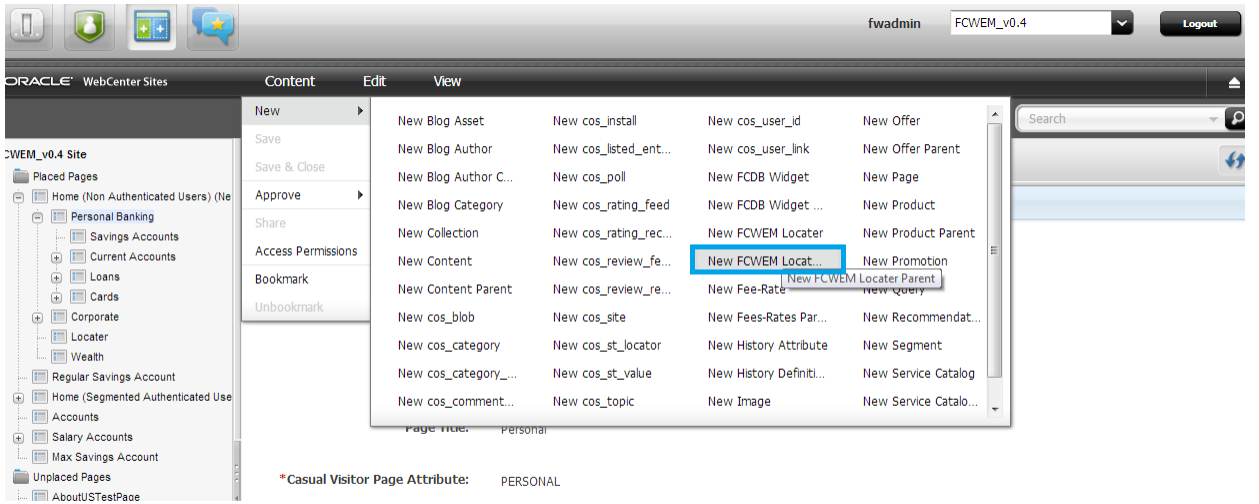

3. Once logged in, choose the site FCWEM_v0.4 on the top-right corner of the screen and click on the Contributor icon on the top-left corner of the screen

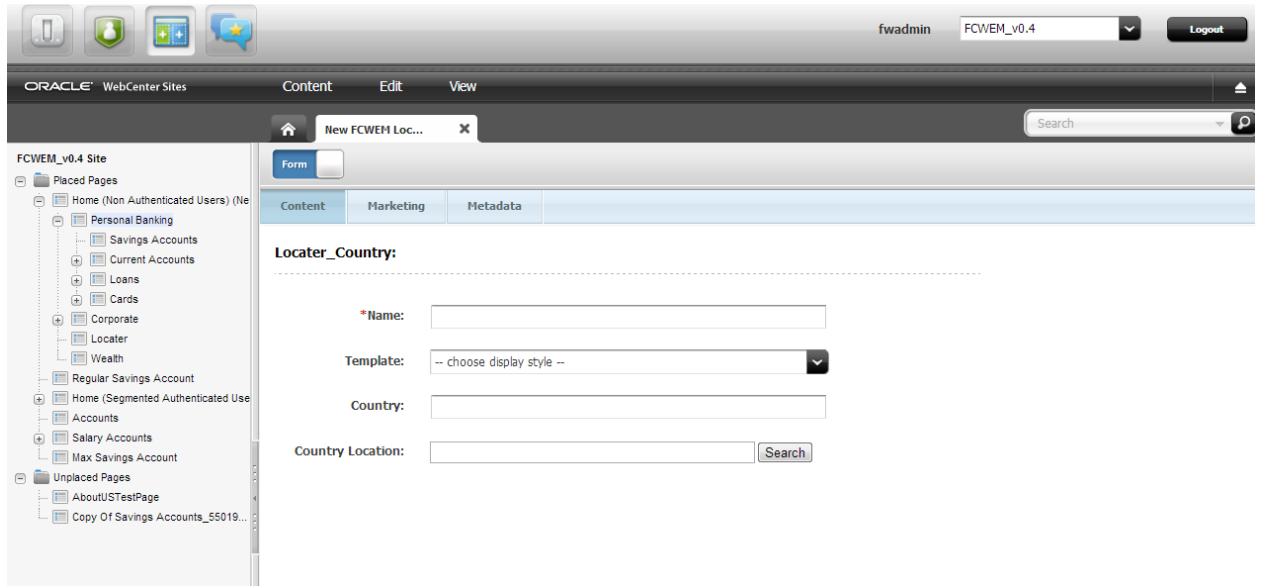

The contributor interface screen is displayed. This is the main workspace for any content contributor

4. Click **Content -> New ->New FCWEM_Locator Parent**

Following screen will appear

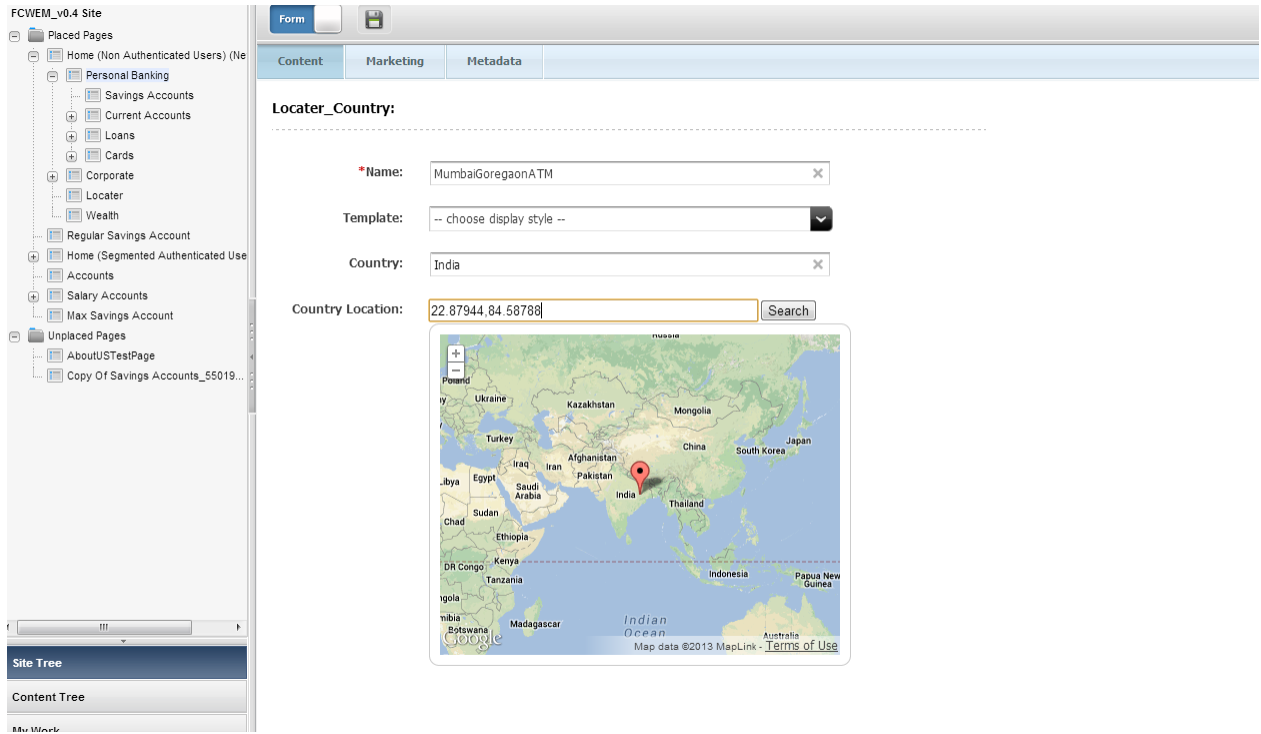

Fill the form according to the table

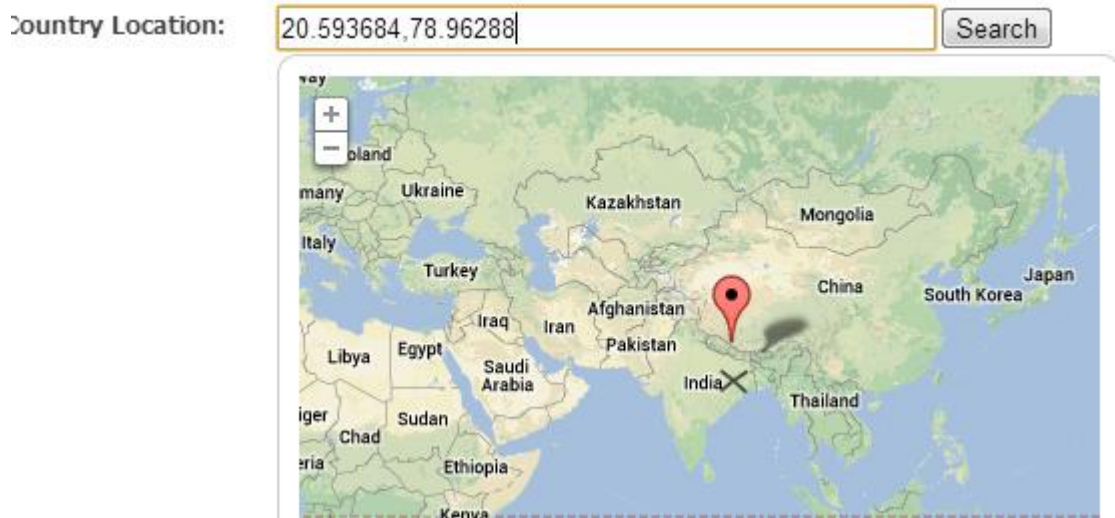

Column Description

Column Name	Column Value
Name	Name of the asset
Country	Country name in which ATM / Branch is located
Country Location	This column contains longitude and latitude of geographical location of country. To get this column value (longitude and attitude) name of location. You can also put longitude and attitude direct in given text box.

5. After filling country name and in text box click **Search** button. Following screen appears

- To adjust the longitude and latitude on map click on red mark on the map and drag to desired location.

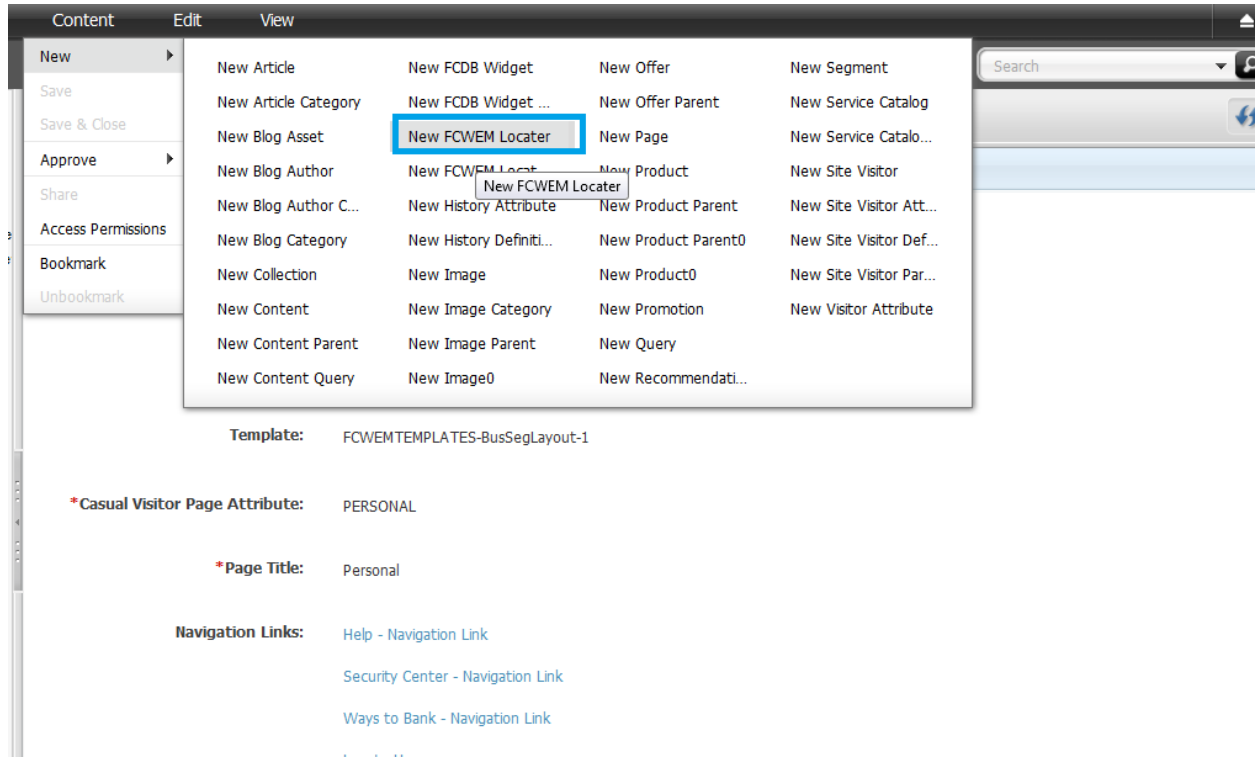

- After proving the value of all required field to save the asset and close the tab.
- Go In the menu bar, select **Content > Save & Close**.

9.2 Creating New Locator Assets

1. Click **Content -> New ->New FCWEM_Locator**

Following window will appear

2. After click on FCWEM_Locator following content form will appear.

The screenshot shows a web form titled "Locater" with the following fields and options:

- Name:** Text input field.
- Tags:** Text input field.
- Template:** Dropdown menu with the option "-- choose display style --".
- *Locater_Country:** Dropdown menu with a refresh icon.
- *Locater Type:** Dropdown menu with the value "ATM" selected.
- *State:** Text input field.
- *City:** Text input field.
- *Location:** Text input field with a "Search" button.
- *Locater Description:** Text input field.

Below the "Location" field is a map of Asia with a red pin marker over India.

To fill the contributor form please refer the below table

Column Description	
Column Name	Column Value
Name	Name of the asset
Locater_Country	Select the country name from parent asset.
Locater Type	Select Locater type from drop down acceptable values is ATM and Branch.

Column Name	Column Value
State	Enter state where ATM/Branch is located.
Location	This text box contains the longitude and attitude of geographical location where ATM/Branch is located. To fill this column value you can enter longitude and latitude value directly or enter the location name and click on search batten.
Locator Descriptor	This column contains description of ATM/Branch.

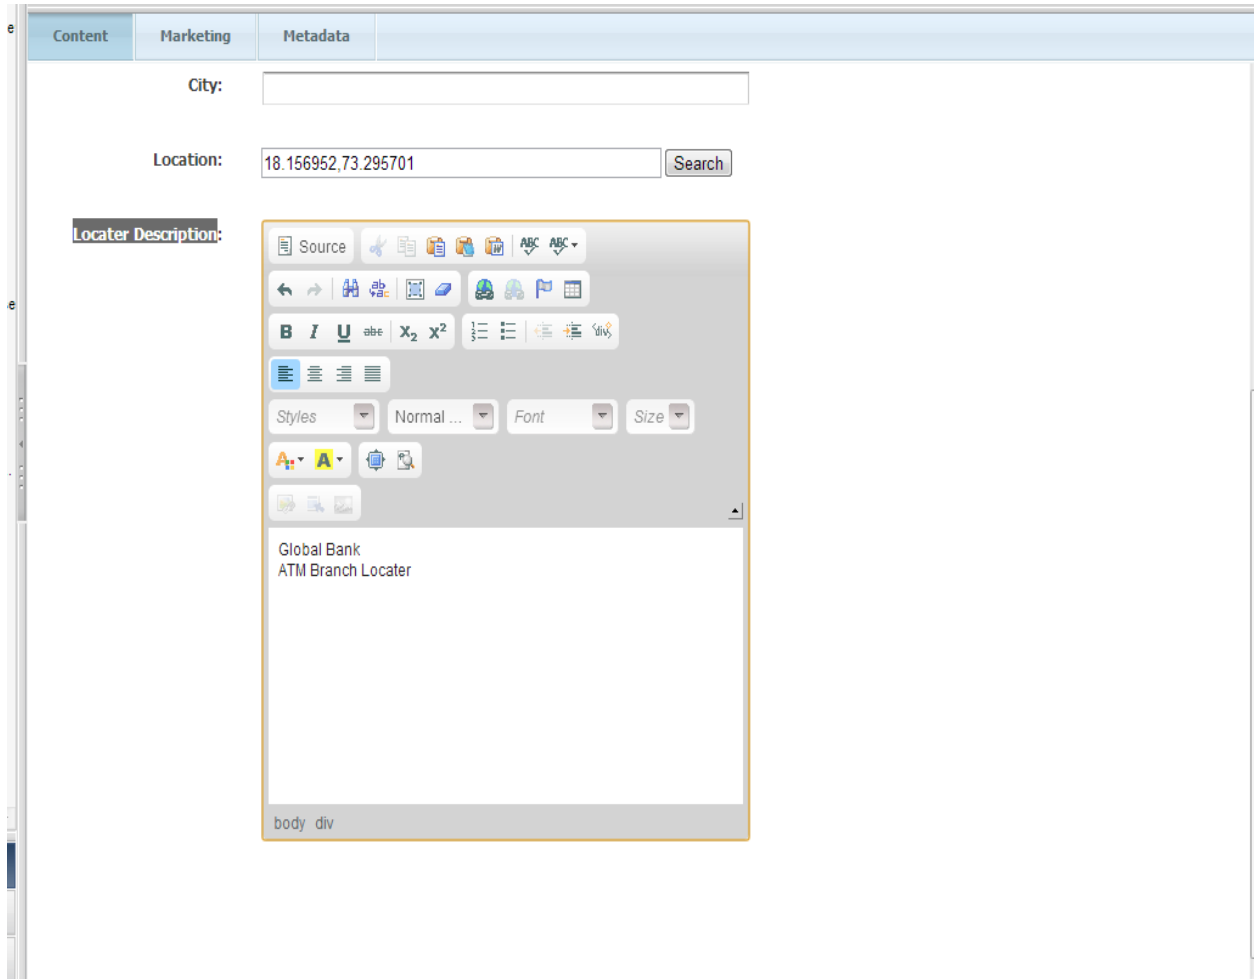

- To find longitude and latitude of location of ATM/Branch enter the name of location and click on search button. Following screen will appear. You can adjust longitude and latitude location by dragging click on red marker on desired location.

City:

Location:

Locator Description:

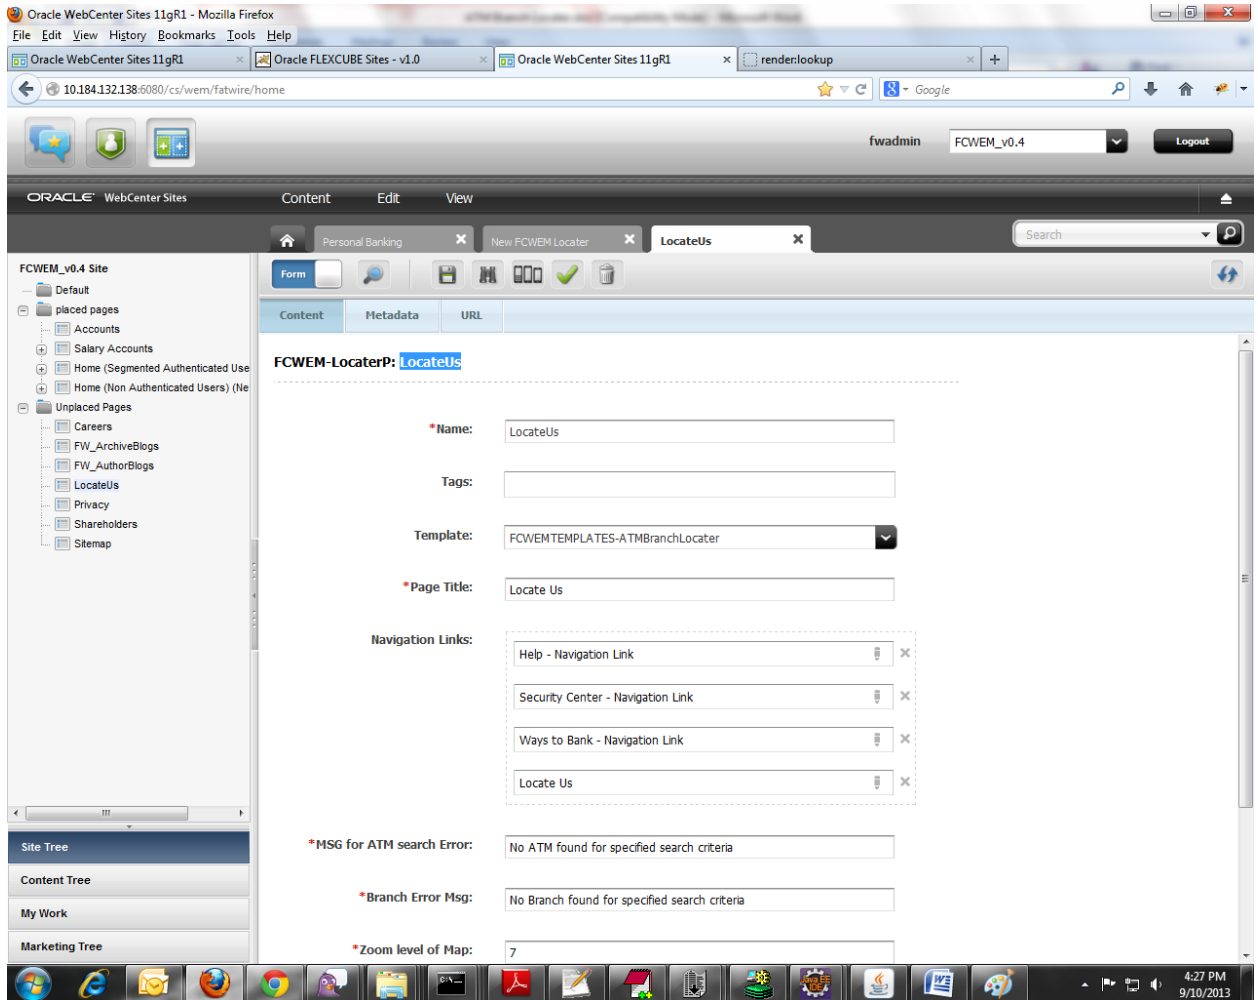

- To add the Locator Description click in text box. Following screen will appear. You can format your content using CKEditor. This description will be displayed for this ATM/Branch when user hover mouse over this location on map.

9.3 Configuring default location when page load

To configure default location of map when locator page load follow these steps.

1. Login to contributor interface and open LocateUs page in edit mode.

2. To fill the contributor form of LocateUs page please refer the below table

Column Description

Column Name	Column Value
Name	Name of the asset(No need to change if you are changing default map load values)
Page Title	Title of page. Title field also defines the name of link on personal page.
MSG for ATM search Error	Message to user when user search criteria did not match to any available ATM
MSG for Branch search Error:	Message to user when user search criteria did not match to any available Branch

Column Name	Column Value
Map Default Focus Location	This text box contains the longitude and attitude of geographical location where ATM/Branch is located. To fill this column value you can enter longitude and latitude value directly or enter the location name and click on search button.
Zoom level of Map	Specifies the zoom level of map.

10. Viewing Content on Mobile Devices

10.1 Overview

FlexCube Site provides set of devices which allows user to see preview content on different devices like iPhones, iPads, Android Phone, Android Tablets, and Desktop etc. To view the content in a particular device follow following steps.

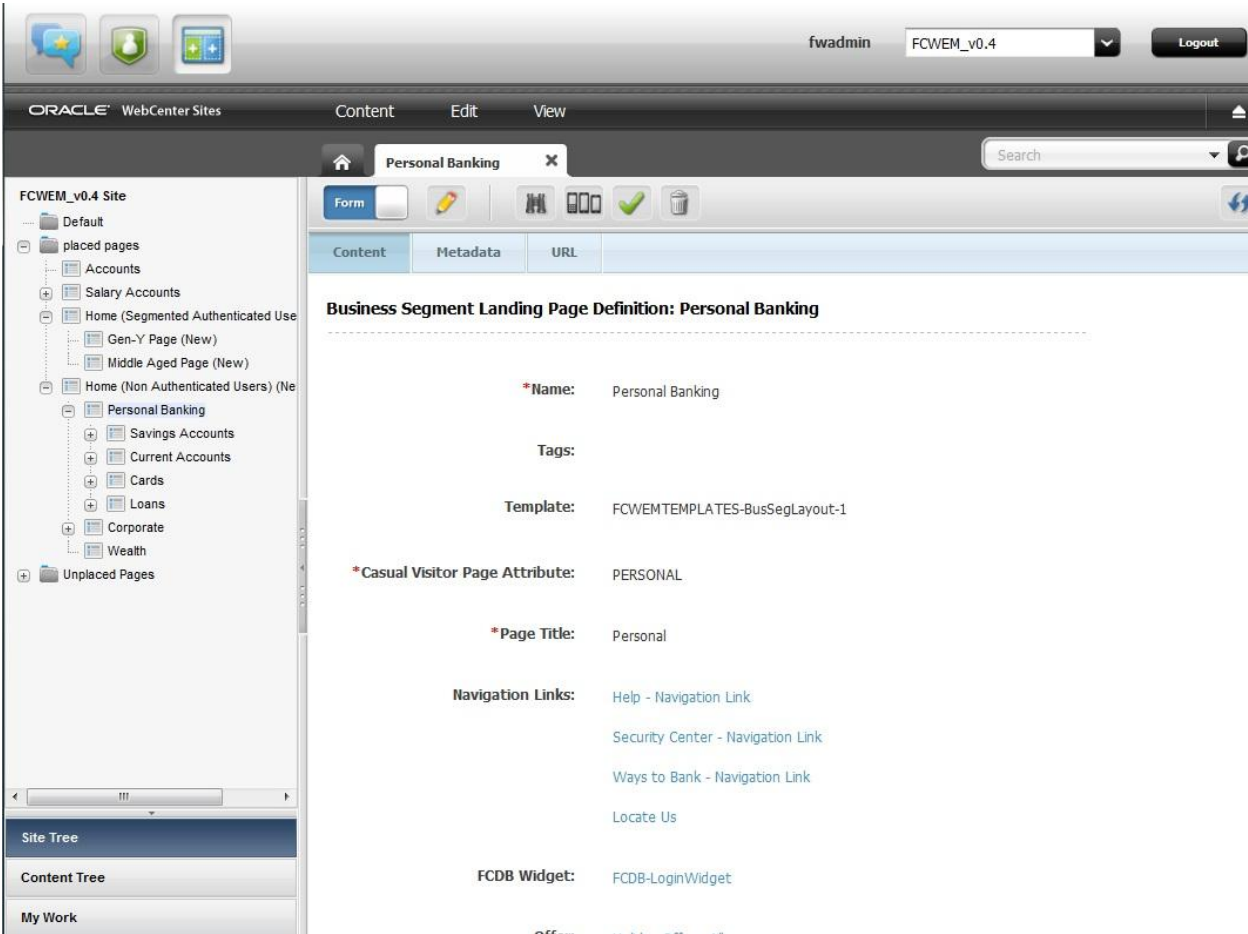

10.2 Viewing Content on Mobile Devices

1. Login in FlexCube Sites in contributor mode.
2. Login as the administrator for FLEXCUBE Direct Banking Sites using the credentials "fwadmin/xceladmin"

3. Once logged in, choose the site FCWEM_v0.4 on the top-right corner of the screen and click on the Contributor icon on the top-left corner of the screen

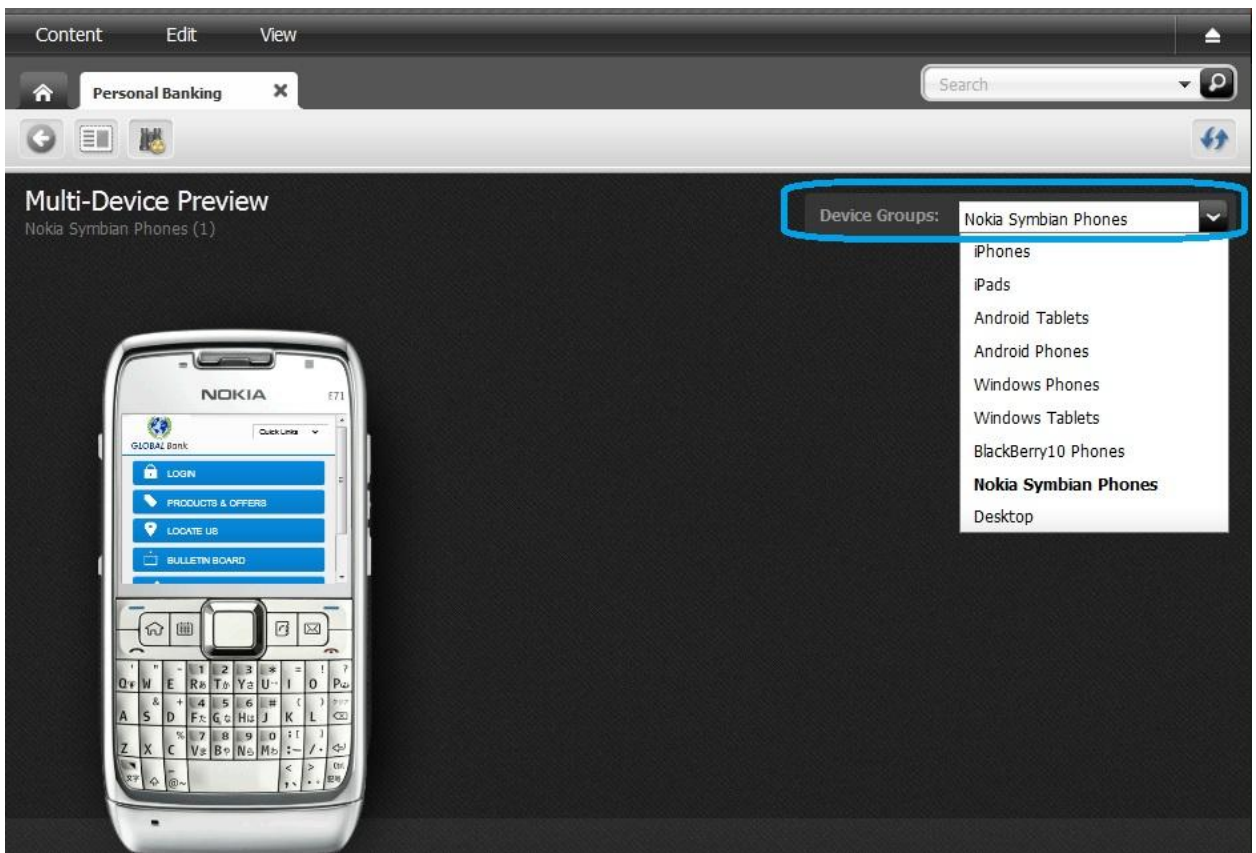

4. Open a page to be viewed.

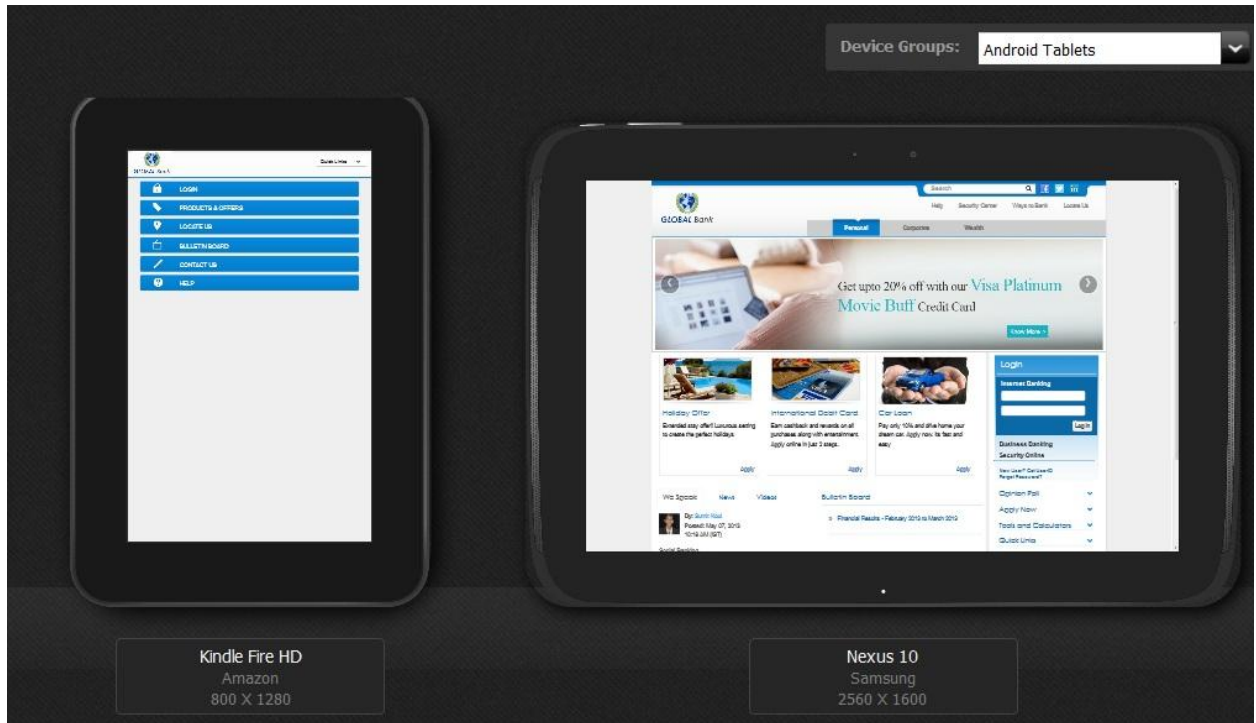

5. Select multi-device preview as shown below:

6. On top-right corner select the desired device:

So according the size of the device, the content will be displayed either in mobile or desktop view, as show below:

10.3 Working Summary:

The display of the content in either view (mobile, desktop) depends on the width of the device rendering it. If the width of the device is less than 767px the mobile view is rendered while device width with greater than 767px gives desktop view.

This is done by using responsive css which gets the window's resize function and renders following divs :

```
<div class="container hidden-phone">
```

All content under this div will be rendered for desktop view

```
</div>
```

```
<div class="container visible-phone">
```

All content under this dev will be rendered for mobile view

```
</div>
```

11. Pretty URL

1. Login as the administrator for FLEXCUBE Direct Banking Sites using the credentials "fwadmin/xceladmin"

ORACLE WebCenter Sites Version: 11gR1

Secure User Login

ORACLE®

Username fwadmin

Password ●●●●●●

Forgot password?
