2. Creation of Corporate Customer

2.1 **Introduction**

The process begins when a prospect/customer approaches the bank (via phone / net banking or by walking into the branch) with an account opening request or when the bank initiates the process by approaching a prospect-lead from its database. In case of a bank-initiated request, the process continues only if the prospect is interested. The process continues with the receipt of the required set of documents by the bank from the customer for savings account opening, which is followed by New Customer Due Diligence (NCDD) check. If the NCDD check is not passed for a customer, the application is rejected. For a customer who passes the NCDD check, the customer account is opened in Oracle FLEXCUBE and the kit is dispatched.

2.2 **Stages in Customer Creation**

In Oracle FLEXCUBE, the process for creating a corporate customer is governed by several user roles created to perform different tasks. At every stage, the users (with requisite rights) need to fetch the relevant transactions from their task lists and act upon them. Appropriate web services will be called in at certain stages to complete the transaction.

The customer creation process comprises the following stages:

- Input Customer Details
- Identify Customer requirements
- Capture Details For IPCA Checks
- Capture Details for NCDD Checks
- Check Prospect for Credit History
- Analyze Prospects Credit Report
- Balance Sheet Analysis
- Prepare Note for InPrinciple Approval
- IPCA Decision
- Prospect Fit to Be a Customer
- Negotiation
- Obtain Customer relationship Form
- Input Details For Customer Creation
- Verify Details For Customer Creation

**Step 1. Input Customer Details**

Users belonging to the user role CORMROLE (Corporate Relationship Manager) can perform this activity.

If you have the required access rights, you can enter details for a new customer in the ‘Input Details’ screen. To invoke this screen, type ‘STDCC050’ in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.
The screen appears as shown below:
