1. Creation of Current Account

1.1 Introduction

Oracle FLEXCUBE facilitates account opening from different sources. This chapter discusses and takes you through the available options, stages involved and account opening workflow. In the first section, the chapter briefs you on the process involved. The next section talks about the steps involved in detail.

1.2 Account Creation Process

The process of creating a current account begins with a bank receiving an account opening application and the related documents from a customer. A bank can receive this application either from a:

- Prospect – On receiving the request, customer is created in ‘Customer Maintenance’ screen and customer account is created at ‘Customer Maintenance’ screen. After the successful creation of customer and account, the prospect is informed about it. If the KYC check is not passed, then the application is rejected.
- Existing Customer – While opening an account for an existing customer, the bank checks KYC details, only if there are any changes in the existing KYC information of the customer. If the KYC check is not passed the application is rejected after blocking the existing accounts.

For a customer who passes the KYC check, the customer ID is created/updated and the customer account is opened in the relevant system and the kit is dispatched.

Prospect/customer can contact bank either through

- Channel – A request to open an account can be through any of the following routes.
  - Lead Request → Account opening through BPEL
  - Lead → Account opening through standard account opening process
- Branch – A request to open an account is through BPEL

After receiving a request, the bank verifies whether the details/documents required to process the request are available. If any documents are missing, then the bank will either decide to proceed after obtaining the missing details/documents or to process the request without waiting for the missing details/documents; however, with necessary approvals.

The following sections provide details on the process followed for Lead Maintenance and BPEL workflow.

1.3 Processing Lead Requests

Lead requests received from a prospective customers are handled at Lead Maintenance level and the facility is available to external channels as a service. As mentioned earlier, for a lead record, customer and account are created directly through Customer Information and Customer Account Creation screens respectively or through BPEL workflow.

Lead requests from an existing customer are also handled a Lead Maintenance level. However, for a lead record for an existing customer, the requested account is created directly through Customer Account Creation screen or BPEL workflow.
You can maintain the details of a prospective/existing applicant, when the applicant initially approaches the bank to open an account. The system facilitates capturing of lead details through external channels as well.

The following details are captured as part of this maintenance:

- Prospective/existing customer’s personal and location details
- Prospective/existing customer’s employment details
- Lead life cycle management

You can invoke this screen by typing ‘ORDLEADM’ in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

You can specify the following details in this screen:

**Lead Id**
Specify a unique identification for the prospective customer.

**Description**
Specify a suitable description for the prospective customer.

**Request ID**
The system displays the request identification of the request.

**Channel**
The system by default displays ‘FLEXCUBE’ as the channel. However, you can modify if needed. The adjoining option list displays a list of valid channels. Select the appropriate one.
Date of Request
Specify the date when the prospective customer enquired about the account. You can also select the date from the adjoining ‘Calendar’ icon.

Application Type
Select the application type as ‘CASA’ from the adjoining drop-down list.

Current Status
The system displays the current status of the lead.

New Status
Select the new status from the adjoining option list. It is mandatory to specify the reason if the current status is ‘Closed’, ‘Rejected’ or ‘Additional Document Required’.

After authorization, the new status becomes the current status of the lead.

Conversation ID
Specify the conversation ID, if conversation is originated before the lead record submission. The adjoining option list displays all valid conversation IDs. Select the appropriate one.

Recommender ID
Select the user ID of the employee who is referring the customer from the adjoining option list.

Recommender Position
Select the position of the employee who is referring the customer from the adjoining drop-down list.

Remarks
Specify remarks, if any.

Assign To
Select the user ID of the person who will follow up on the lead.

Priority
Select the priority of follow up on the lead request from the adjoining drop-down list.

1.3.1 Main Tab
You can capture the following personal and geographical details related to a prospective customer:

Sequence Number
The system displays the sequence number. Type

Select the type of the customer from the drop-down list provided. The following options are available:
- Primary
- Co-Applicant

Existing
Check this box, if the lead applicant is an existing customer.

Local Branch
Select the local branch of an existing customer from the adjoining option list.
Customer No
Specify the customer, if the Customer is existing. The adjoining option list displays all valid customer numbers. Select the appropriate one. If the Customer is prospect, then the system generates the new customer ID, by default.

Default
Click on default button to default the details on existing customer.

Short Name
The system defaults the Short name when default button is pressed, if the applicant is an existing customer. However, you can specify the short name, if the applicant is prospect.

Customer Name
The system defaults the Customer name when default button is pressed, if the applicant is an existing customer. However, you can specify the customer name, if the applicant is prospect.

National ID
Specify the national Id or country code of the customer or select the national Id from the option list provided.

Responsibility
Select the responsibility from the adjoining drop down list.

Liability
Specify the liability for all parties other than primary applicant.

City
Specify the city of the customer. If the lead is received from the channel (FCDB), then the city value is passed by the FCDB to FCUBS and is defaulted here.

Country
Specify the country of domicile of the customer or select the country code from the option list provided.

Nationality
Specify the country of which the customer is a national or select the country code from the option list provided.

Language
Specify the primary language of the customer or select the language from the option list provided.

Customer Category
Specify the category to which the customer belongs or select the customer category from the option list that displays all valid customer categories.

Financial Currency
Select the financial currency from the adjoining option list.

Mobile Number
Specify the mobile phone number of the prospective customer.

Landline Number
Specify the land phone number of the prospective customer.

Home Phone ISD+
Select the area code for the home phone number from the adjoining option list.
Home Phone
Specify the home phone number with area code.

E-mail
Specify the e-mail Id of the prospective customer.

Fax
Specify the fax number of the prospective customer.

Preferred Date of Contact
Specify the preferred date of contact.

Preferred Time of Contact
Specify the preferred time of contact.

First Name
Specify the first name of the customer.

Middle Name
Specify the middle name of the customer.

Last Name
Specify the last name of the customer.

Salutation
Select the salutation preference of the customer from the drop-down list provided. You can select any of the following options:
- Mr
- Mrs
- Miss
- Dr

Gender
Select the gender of the customer from the drop-down list.

Date of Birth
Specify the date of birth of the customer or select the date by clicking the ‘Calendar’ icon provided.

Mother’s Maiden Name
Specify the customer’s mother’s maiden name.

Marital Status
Select the marital status of the prospective customer from the drop-down list. The following options are available:
- Married
- Divorced
- Remarried
- Separated
- Spouse Expired

Dependants
Specify the number of dependants for the customer.
SSN
Specify applicant’s SSN.

Passport Number
Specify the passport number of the prospective customer.

Passport Issue Date
Specify the date on which the customer’s passport was issued or select the date from by clicking the adjoining ‘Calendar’ icon.

Passport Expiry Date
Specify the date on which the customer’s passport expires or select the date from by clicking the adjoining ‘Calendar’ icon.

Existing Relationship Details
You can maintain the following relationship details:

Relationship Type
Specify the relationship type of the customer.

Credit Card Number
Specify the credit card number of the customer

Customer ID/Account Number
Specify the customer identification or account number of the customer.

Note
The system defaults the above details for both the prospect and the existing customer, if the application is submitted from external system.

1.3.2 Details Tab
You can capture the address and employment related details of the prospective customer in 'Details' tab.
**Address Details**

**Address Type**
Select the address type of the customer from the following options provided in the drop-down list:
- Permanent
- Home
- Correspondence Address

**Mailing**
Check this box to indicate that the address you specify here is the customer’s mailing address.

**Address Line 1 – 4**
Specify the address of the customer in four lines starting from Address Line 1 to Address Line 3.

**Pincode**
Specify the zip code associated with the address specified.

**Contact Number**
Specify the contact telephone number of the customer.

**Country**
Specify the country associated with the address specified.

**Employment Details**

**Employer**
Specify the name of the employer of the prospective customer.

**Employment Type**
Select the customer’s employment type from the drop-down provided. The following options are available:
- Part Time
- Full Time
- Contract Based

**Occupation**
Specify the occupation of the prospective customer.

**Designation**
Specify the designation of the prospective customer.

**Employee Id**
Specify the employee Id of the prospective customer.

**Address Line 1 – 4**
Specify the employment address of the customer in four lines starting from Address Line 1 to Address Line 4.

**Country**
Specify the country associated with the employment address specified.

**Pincode**
Specify the zip code associated with the office address specified.
Phone Number
Specify the official phone number of the prospective customer.

Extension
Specify the telephone extension number, if any, of the prospective customer.

Contact Phone
Specify the contact phone number of the customer’s contact person.

Contact Name
Specify the name of a contact person at the customer’s office.

Contact Extension
Specify the telephone extension number, if any, associated with contact person.

Department
Specify the department to which the customer belongs.

Comments
Specify comments, if any, related to the customer’s employment.

Business Details

Type of Business
Select the type of business from the adjoining drop-down list.

Name of Business
Specify the name of the company here.

Type of Ownership
Select the type of ownership from the adjoining drop-down list.

Others
Specify if the type of ownership is others.

Currency
Select the currency from the adjoining option list.

Annual Turnover
Specify the annual turnover of the company.

Business Description
Give a brief description on the company.
1.3.3 **Financial Tab**

You can capture the details related to the finance in the ‘Financial’ tab.

**Income Details**

**Income Type**
Select the income type from the adjoining option list.

**Frequency**
Select the frequency of the income of the applicant.

**Currency**
Select the currency of the income from the adjoining option list.
### Amount

1.3.4 Specify the income amount. **Requested Tab**

You can capture the details related to the requested CASA in ‘Requested’ tab.

![Requested CASA Details](image)

You can capture the following details here:

**Requested CASA Details**

**Note**

This section is applicable only for CASA Lead origination.

**Type of Account**

The system displays the type of account.

**Purpose of Account**

The system displays the purpose of the account.

**Overdraft Limit Required**

Check this box if overdraft limit is required.

If the loan type of CASA is ‘Cash Credit’ or ‘Overdraft’, then the following fields are enabled:

**Requested Currency**

Select the requested currency from the adjoining option list.

**Requested Amount**

Specify the requested amount.

**Loan Purpose**

Specify the purpose of the loan.
1.3.5 **Document Details**

Click on ‘Documents’ link to invoke the Documents screen. You can upload the required documents from the external system.

**Document Category**
Select the document category from the adjoining option list.

**Document Reference**
Specify the document reference.

**Document Type**
Select the type of document from the adjoining option list.

**Remarks**
Specify remarks, if any.

**Ratio Upload**
Check this box to enable ratio upload.

**Upload**
Click on ‘Upload’ button to upload the document.

**View**
Click on ‘View’ button to view the uploaded document.

The document upload from the external system is allowed only when:
- the customer submits the account opening request from the external system
- the status in the Prospect Details screen is ‘Additional Documents Required’.

**Note**
The documents uploaded by the customer through the external system is stored in the Document Management System with a document reference number.
**Status Related Process and Validation**

The details of conditional listing of statuses required based on ‘Application Type’ and ‘Current Status’ combination in ‘Lead Maintenance’ screen are listed in the below table:

<table>
<thead>
<tr>
<th>Application Type</th>
<th>Process Code</th>
<th>Current Status</th>
<th>New Status Available</th>
<th>New Status Selected</th>
</tr>
</thead>
<tbody>
<tr>
<td>CASA LEAD</td>

<td>-</td>
<td>Converted (Automatic) Once the account is successfully opened in origination this status gets updated automatically</td>
</tr>
</tbody>
</table>

1-12
The default ‘Current Status’ for a new lead record will be ‘New’. In the ‘New Status’ field, the system lists the status based on the ‘Application type’, ‘Process Code’ selected and ‘Current Status’ of the record. The system enables you to proceed only when the new status you selected is applicable with respect to the current status. Else, the system displays the error message as “The status XXXXX cannot be chosen when the current status is XXXXX”.

The system communicates the status along with the reason code to respective channels for each status change. When the status is updated as ‘Rejected’ or ‘Converted’, you cannot amend the lead record.

The status ‘Converted’ and the field ‘New Account Number’ are updated in lead record as listed below:

- If the account is created through origination flow (BPEL flow), then the system updates the lead record status as ‘Origination in Progress’. Then the lead ID is linked with the origination application reference number. On further flow when the account is created The system updates the ‘New Account Number’ in the Lead Maintenance screen with the newly created account number and changes the status as ‘Converted’.
- Alternatively, you can manually update the status as ‘Converted’. While updating the status as ‘Converted’ you must update the newly created account number also. Else, the system will displays an error message as "New Account Number to be entered”.

If the process flow is terminated for any reason, then the system updates the lead status as ‘Rejected’.

You can link the lead ID with origination only when the current status of the lead record is ‘Account Opening in Progress’. The ‘Lead ID’ field in the origination screen will display a list of lead records which has the status as ‘Account Opening in Progress’.

### 1.3.6 Processing and Validating Fields in Lead Maintenance

The following are the steps involved to create an account using ‘Lead Maintenance screen. This section also briefs you on the validations related to few fields.

1. Documents uploaded in external channels are stored in Document Management System and a reference number is created in system using which you can view the uploaded documents.

2. Once the field level requirements are maintained the status definition needs to be maintained for lead management. The following features available in the system facilitate the status definition maintenance for lead management:
   - A process code ‘LEAD’ maintained is maintained in the ‘Process Code Maintenance’ screen.
   - Status definition is maintained based on the ‘Application Type’ and ‘Process Code’ combination, maintained in Customer Maintenance and Lead Maintenance screens respectively. The system displays the following values for selection:
     - New
     - Follow up
     - Under Process
You can link different reason codes to status definition in the ‘Status Maintenance Screen’. Reason codes are linked based on the ‘Application Type’, ‘Process Code’ and ‘Status Definition’ combination. You can invoke this screen by typing ‘ORDSTRMT’ in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

You can maintain the following details:

**Branch**
The system the current branch code here.

**Application Type**
Select the application type you need to link to the status definition, from the adjoining drop-down list. The list displays the following values:

- CASA
- Retail

When the Application Type is ‘CASA’ and Process Code is ‘LEAD’, then the ‘Status Definition’ field displays the status values maintained in the system; however you can specify the values additional to the ones displayed. These values are stored in the database.
Process Stages

Process Code
Specify a valid process code you need to link to the status definition. The adjoining option list displays all valid process codes for the application type selected. Select the appropriate one.

Description
System displays the description of the selected process code.

Status Definition

Status Definition
Specify a valid status definition you need to link. Also, the adjoining option list displays all valid status definition for the process codes selected. You can select the appropriate one.

Enable
Check this box to enable status usage for the application type or process code.

Reason Codes

Reason Code
Specify a valid reason code you need to link. The adjoining option list displays all valid error codes maintained as ‘I’ at ‘Error Message Maintenance’ level are displayed here. Select the appropriate one.

You can link multiple reason codes to a status definition in this screen. However, it is mandatory to link at least a single reason code. This linking is extended to origination process codes also

Description
System displays the description of the selected reason code.

Enable
Check this box to enable status usage for the application type or process code.

Interaction

- Interaction between branch user and channel user is established using the interaction module in ‘Lead Maintenance’ screen and the Conversation ID is referred to as Interaction ID. Interaction ID for a prospect is branch walk-in customer ID. If a branch walk-in customer is not available, then the system displays an error message as "Walk-in Customer not Available for the Branch". The ‘Reason Code’ and ‘Remarks’ details are sent to the channel, along with the status communication for a particular stage.

- Before submitting the lead request, you can initiate the interaction from channels. In such scenario interaction will be assigned to ‘Help Desk’ initially and then at later stage when customer chooses the branch, the system automatically changes the assignee to ‘All Roles’ for the customer chosen branch. The system defaults the User/Role field of the interaction as ‘Role’.

Note
Channel will send the Conversation ID along with the Request ID/Lead ID to the system, if interaction was initiated before the lead request is submitted.

- If the interaction is not started in channels even after the lead request is submitted, the branch user can initiate the interaction at any stage using the ‘Conversation’ button. The
generated Conversation ID along with the Request ID/Lead ID is sent to respective channels for further conversation. However, the ‘Conversation ID’ once updated cannot be amended.

Validating Lead Maintenance Fields

The system validates if;

1. For the application type CASA, the default current status for a new record is ‘New’.
2. Based on the application type and current status are the ‘New Status’ values listed.
3. Based on the new status value selected, are the reason codes linked to that status displayed in reason code field.
4. If employment type is ‘Self Employed’ or ‘Other’, then are the fields under ‘Business Details’ header enabled. For all the other options, fields under ‘Business Details’ must be disabled.
5. For ‘Part time’, ‘Full time’ and ‘Contract Based’ employment type, are the following fields enabled. For any other employment type they are disabled.
   - Occupation
   - Designation
   - Employee id
6. The fields under ‘Requested CASA Details’ must be enabled only when ‘Application Type’ is CASA.
7. Overdraft Limit Required field must be enabled only when ‘Type of Account’ is selected as ‘Current Account’.

1.3.7 Processing Lead Requests

You can receive the lead request from customer or prospects. The possible scenarios and the behavior of CIF ID for each scenario are explained below.

Scenario 1:
A prospect not holding any relationship with the bank raises a request from channels.
- In Applicant Details section of Lead Maintenance screen, ‘Existing’ check box will be unchecked.
- A new CIF ID is allocated to the prospect and is displayed in Customer Number field of Applicant Details section in Lead Maintenance screen.
- Once the lead is converted and if the new account is opened through BPEL route then the allocated CIF ID can be used.
- Once the lead is converted and if the new account is opened through manual CIF creation, then while opening an account opening, the allocated CIF ID needs to be released once the status of the lead is updated as converted.

Scenario 2:
An existing customer with FCDB login credentials can apply for a new account by logging into net banking.
- In Applicant Details section of Lead Maintenance screen, ‘Existing’ check box will be checked by default.
- Customer ID provided by the customer in channels is validated in channels and is displayed in Customer Number field of Applicant Details section in Lead Maintenance screen.
Scenario 3:
An existing customer without FCDB login credentials can apply for a new account by providing the existing relationship details and FCPB does not validate existing data.

- In Applicant Details section of Lead Maintenance screen, ‘Existing’ check box will be checked by default.
- Walk in Customer ID is computed by default in Customer Number field of Applicant Details section in Lead Maintenance screen.
- When the branch employee amends the lead record of walk-in customer ID, the system will display an error as “Invalid CIF, cannot amend a lead record as existing customer and customer ID is walk in ID”.

Scenario 4:
An existing customer applies for an account as a prospect from FCDB without providing any existing relationship details. This procedure is similar to scenario 1.

Note
When the current status of the lead record changes to ‘Rejected’, then the CIF IDs blocked for the Scenarios 1 and 4 are released automatically by the system, so that the blocked CIF IDs can be reused.

Once the Lead request is approved and converted, customer account is created through any of these;

- BPEL - Refer 1.4 Stages for Request Received through Branch (BPEL)
- Opening an account through normal process

1.3.7.1 Opening an Account through Normal Process

The account opening through normal process comprises of the following stages

1. CASA lead request submitted from channels
2. Receive and verify account opening form and other documents
3. Store documents
4. Seek approval for missing documents / details
5. Modify and resubmit the application
6. Input details of current account
7. Verify prospect / customer details
8. Modify details of current account
9. Know Your Customer checks
10. Block customer in the system on negative Status of KYC check
11. Notify prospect / customer on negative status of KYC checks
12. Create / Modify customer details in the system
13. Create Customer and Customer Account, if the request is from prospect and Create Customer Account, if the request is from existing customer
14. Check available balance
15. Generate cheque book in the system
16. Issue Debit Card
17. Generate welcome / thanks letter in the system
18. Notify the customer/prospect about the successful account opening with details
19. Deliver account kit to customer
20. Store documents

### 1.3.8 Lead Workflow Chart

The below flow chart provides graphical flow of the process followed for lead requests:

![Lead Workflow Chart](image)

### 1.4 Stages for Request Received through Branch (BPEL)

In Oracle FLEXCUBE, the process for opening a current account is governed by several user roles created to perform different tasks. These tasks are categorized to different stages. Stages for opening a current account are almost similar, with few exceptions. At every stage, the users (with requisite rights) need to fetch the relevant transactions from their task lists and
act upon them. Similarly, at different times, the system will make calls to certain web services to process the transaction.

The account opening process through BPEL comprises of the following stages:

- Receive and verify account opening form and other documents
- Seek approval for missing documents / details
- Store documents
- Input details of current account
- Verify prospect / customer details
- Sub process – Know Your Customer checks
- Block customer in the system on negative Status of KYC check
- Notify prospect / customer on negative status of KYC checks
- Create / Modify customer details in the system
- Create account in the system
- Store document reference in the system
- Check available balance
- Generate cheque book in the system
- Issue Debit Card
- Retrieve pre-printed cheque book and capture cheque book details
- Generate welcome / thanks letter in the system
- Notify the customer/prospect about the successful account opening with details
- Deliver account kit to customer
- Store documents

You can open a current account even without opting for the ATM facility. Current account opening process will support for capturing the branch and account details of the applicant.

Only users who have procured the relevant access rights can perform activities under a stage.
### Step 1. Receive and Verify Account Opening Form and Documents

Users belonging to the user role ‘CCSEROLE’ (Corporate Customer Service Executive) can perform these activities.

The bank receives the required documents from the customer for opening a current account. If you have the required access rights, you can capture basic account details, customer details for each of the applicant and attach multiple supporting documents using ‘Receive and Verify’ screen. To invoke this screen, type ‘STDCA001’ in the field at the top right corner of
Specify the following basic details in this screen:

**Application Category**
Specify the application category from the adjoining option list.

**Application Number**
System generates the application number at the account opening stage. This number remains unique till the last stage.

**Lead ID**
Specify a valid Lead ID for which you need to create the account. The adjoining option list displays a list of valid lead ID. Select the appropriate one.

**Branch Code**
System displays the logged in branch code.

**Status**
System displays the status of the application.

**Date**
System displays the application date.

**Workflow Reference**
The workflow reference number is generated in this stage of the account opening and this number remains unique till the last stage.

**Priority**
Select the priority for the creating the current account from the adjoining drop-down list. This list displays the following options:
- Low
- Medium
- High

The priority selected here is displayed in the Task List screens for all the further stages of the account creation. You can set the preference to list the task according to the priority.
instance, if you prefer to list the tasks in the order of High to Low priority, click the ‘Priority’ column in the Task List screen. Second attempt of the same would list in the vice-versa order.

**Account Details**

Capture the basic account details of the customer here:

**Branch**
The current logged in branch is displayed here.

**Currency**
Specify the currency of the customer account. You can also select the appropriate currency from the adjoining option list. The list displays all the valid currencies maintained in the system.

**Account Class**
Specify the account class to be used by the account. You can also select the appropriate account class from the adjoining option list. The list displays all the valid current account classes which are maintained in the system.

**Existing Customer**
Check this option, if the selected customer is an existing customer.

**Customer No**
This filed is enabled only if the customer is an existing customer. Specify a valid customer number. You can also select the appropriate customer number from the adjoining option list. The list displays all valid customers maintained in the system.

**Customer Name**
The name of the selected customer is displayed here.

**OverDraft**
System checks this box if the selected account class has an overdraft facility.

**Local Branch**
Specify the applicant’s home branch from the adjoining option list.

**Customer Number**
Specify a valid customer number. You can also select the appropriate customer number from the adjoining option list. The list displays all valid customers maintained in the system.

---

**Note**
If customer is not an existing customer, on pressing ‘Populate’ button system will create a new customer number.

**Existing Customer**
System checks this box if the provided customer number is an existing customer.

System displays ‘Local Branch’ and ‘Customer Number’ when you click on the ‘Populate’ button.
1.1 Capturing Customer Details

Click ‘Customer’ button to capture customer details. The following screen is displayed:

![Customer Details Screen](image)

Here you can maintain the following details:

System displays the following details:
- Application Category
- Application Number
- Application Branch
- Application Status
- Application Date
- Application Priority

**Customer Details**

Local Branch

System displays the applicant's home branch.
Customer Number
System displays the customer number here.

Full Name
Specify the full name of the customer.

Short Name
Specify the short name of the customer.

Type
Select the customer type as one of the following:
- Individual
- Corporate
- Bank

Existing Customer
If this box is checked in the ‘Receive and Verify’ screen, then the same is displayed here.

SWIFT Code
System displays the swift code in case the customer is a bank.

1.1.1 Main Tab
You can maintain the following details here:

Customer Information
In this section, maintain the following basic customer details:

Customer Name
Specify the full name of the customer.

External Reference
System displays the external reference number if the customers data is maintained in the another system,

Country
Specify the country in which the customer resides.

Nationality
Specify the nationality of the customer.

Language
As part of maintaining customer accounts and transacting on behalf of your customer, you will need to send periodic updates to your customers in the form of advices, statement of accounts and so on.

Indicate the language in which your customer wants the statements and advices to be generated. The option list positioned next to the language field contains all the language codes maintained in the SMS module. Select the appropriate language.

Customer Category
Specify the category in which the customer belongs to. Each customer that you maintain can be categorized under any one of the categories that you have maintained in the system. Select from the option list and indicate the category under which the particular customer is to be categorized.
Communication Mode
Select the mode of communication you need from the options. The following options are available for selection.

- Mobile – Select if you need mobile as the communication mode.
- Email – Select if you need Email as the communication mode.

Contact Person Details
In this section, indicate the contact person’s details of the current account being created. Specify the following details:

Name
Specify the name of the contact person.

Work Phone ISD+
Specify a valid international dialling code for the work telephone number of the customer. The adjoining option list displays valid ISD codes maintained in the system. Select the appropriate one.

Work Phone
Specify the work telephone number of the customer.

Home Phone ISD+
Specify a valid international dialling code for the home telephone number of the customer. The adjoining option list displays valid ISD codes maintained in the system. Select the appropriate one.

Home Phone
Specify the home telephone number of the customer.

Mobile ISD Code+
Specify the international dialling code for the mobile number of the customer. The adjoining option list displays valid ISD codes maintained in the system. Select the appropriate one.

Mobile Number
Specify the mobile number of the corresponding customer.

E-mail
Specify the e-mail id of the contact person.

Preferred Date of Contact
Specify the preferred date for contacting the customer. You can also select the date from the adjoining calendar icon.

Preferred Time of Contact
Select the preferred time for contacting the customer on the preferred date of contact, from the adjoining drop-down list. This list displays the following time slots in 24hrs format:

- Any time
- 1 hour combination of timings starting from 12am – 1am to 23pm – 12am.
Contact Address

Address
Specify the address of the contact person.

Zip
Specify the Zip code of the contact person’s address.

Country
Specify the country name of the contact person.

Statuses

Private Customer
Check this box to indicate that the customer is a private type of customer.

Eligible for AR-AP Tracking
Check this box to indicate that account receivable and payable process is to be enabled for the corresponding customer.

Permanent US Resident Status
Check this box to indicate that the corresponding director is a permanent US resident.

Visited US in last 3 years?
Check this box to indicate that the beneficial owner has visited US in the last three years.

Power of Attorney

Note
If the FATCA is enabled at the bank and the check box 'Power of Attorney' is checked here, then it is mandatory to specify the Power of Attorney information.

Power of Attorney
Check this box to indicate that the customer account is to be operated by the power of attorney holder.

Holder Name
The person who has been given the power of attorney.

Address
Specify the address of the power of attorney holder.

Country
Specify the country of the power of attorney holder.

Nationality
Specify the nationality of the power of attorney holder.

Telephone ISD Code +
Specify the international dialling code for the telephone number of the power of attorney holder. The adjoining option list displays valid ISD codes maintained in the system. Select the appropriate one.

Telephone Number
Specify the telephone number of the power of attorney holder.
Address of Correspondence

Address 1-4
Specify the address for correspondence.

Pin Code
Specify the pin code for the address of correspondence.

Country
Specify the country for the address of correspondence.

Send Correspondence through Email
The system defaults the value maintained for ‘Send by Email’ check box at ‘Customer Address Maintenance’ level.

The customer address data is created along with customer opening.

1.4.2 Personal Tab

Click ‘Personal’ tab to maintain personal details.
You can maintain personal details here:

**Prefix**
Specify prefix for the customer name

**First**
Specify first name of the customer.

**Middle**
Specify middle name of the customer.

**Last**
Specify last name of the customer.

**Work Phone**
Specify a valid office phone number of the customer.

**Home Phone**
Specify a valid home phone number of the customer.

**Email**
Specify a valid e-mail ID of the customer for correspondence.

**Mobile Number**
Specify a valid mobile number of the customer.

**Gender**
Select a valid gender of the customer from the options. The following options are available for selection:
- Male
- Female
- Other
- Prefer Not to Disclose

**Permanent address**
You can specify the permanent address details here:

**Address1-4**
Specify the permanent address of the customer.

**Pincode**
Specify the pin code of the permanent address.

**Passport Details**
You can specify the passport details here:

**Passport Number**
Specify a valid passport number of the customer.

**Issue Date**
Specify the date on which the specified passport was issued from the adjoining Calendar icon.

**Expiry Date**
Specify the expiry date of the specified passport from the adjoining Calendar icon.
Legal Guardian

You can specify the legal guardian details here:

Date of Birth
Specify date of birth of the legal Guardian

Minor
Check the box if the customer is a Minor.

Guardian
Specify the details of the legal guardian.

1.1.2 Corporate Tab

Click ‘Corporate’ tab to maintain corporate details.
Registration Details

You can specify the registration details here:

Name
Specify the registration name of the organization.

National ID
Specify the national ID of the organization.

Address 1-4
Specify the registration address of the organization.

Pin code
Specify the pin code of the registration address of the organization.

Country
Specify the country code of the registration address of the organization. The adjoining option list displays all valid country codes. Select the appropriate one.

Incorporation

You can maintain the incorporation details here:

Date
Specify the date of incorporation from the adjoining Calendar icon.

Capital
Specify the capital amount of incorporation.

Net Worth
Specify the net worth of the organization.

Currency of Amounts
Specify the currency code of the amounts. The adjoining option list displays all valid currency codes. Select the appropriate one.

Country
Specify the country code of incorporation. The adjoining option list displays all valid country codes. Select the appropriate one.

Additional Details

Maintain the additional details here:

Type of Ownership
Specify a valid type of ownership of the customer for the specified organization.

Description of Business
Provide description for the business, if any.
1.1.3 Directors Tab

Click ‘Directors’ tab to maintain directors details.

You can maintain the director details here:

**Director Details**

**Director Name**
Specify the name of the director.

**Tax ID**
Specify the tax ID of the director.

**Work Phone ISD**
Specify a valid international dialling code for the work telephone number of the director. The adjoining option list displays valid ISD codes maintained in the system. Select the appropriate one.

**Work Phone**
Specify the work telephone number of the director.
Home Phone ISD+
Specify a valid international dialling code for the home telephone number of the director. The adjoining option list displays valid ISD codes maintained in the system. Select the appropriate one.

Home Phone
Specify the home telephone number of the director.

Mobile Number
Specify the mobile number of the director.

Email
Specify the E-mail of the director

Address For Correspondence
Address 1-4
Specify the address of correspondence of the director.

Pin Code
Specify the pin code of correspondence of the director.

Country
Specify the country code of the correspondence address. The adjoining option list displays all valid country codes. Select the appropriate one.

Permanent Address
Address 1-4
Specify the permanent address of the director.

Pin Code
Specify the pin code of the specified permanent address.

Country
Specify the country code of the specified permanent address. The adjoining option list displays all valid country codes. Select the appropriate one.

Other Details
Nationality
Specify the nationality of the director.

Permanent US Resident Status
Check this box if the director is a permanent resident of US.

Share Percentage
Specify the percentage of shares the director holds.
1.1.4 Bank Details Tab

To maintain the bank details, click ‘Bank Details’ tab. The following screen is displayed:

![Bank Details Tab Screen](image)

You can specify the existing bank account details here.

**Bank Code**
Specify the existing bank code.

**Branch Code**
Specify the existing branch code.

**Account Type**
Specify the account type from the adjoining drop-down list. Available options are:
- Nostro
- Misc Dr
- Misc Cr
- Savings Current
- Deposit
- Line
Account Number
Specify the existing account number

Visit Frequency
Specify how frequently the customer visits the bank.

1.1.5 Domestic Tab
Click ‘Domestic’ tab to maintain domestic details.

You maintain the domestic details of the customer here:

Domestic
Educational Status
Select a valid educational status of the customer from the adjoining drop-down list. The list displays the following values:

- Non Student
- Under Graduate
• Graduate
• Post Graduate

**Marital Status**
Select a valid marital status of the customer from the adjoining drop-down list. The list displays the following values:
• Single
• Married
• Divorced
• Remarried
• Separated
• Spouse Expired

**Accommodation**
Select a valid type of accommodation of the customer from the adjoining drop-down list. The list displays the following values:
• Self Owned
• Company Provided
• Other

**Dependent Details**

**Spouse Name**
Specify the spouse’s name of the customer.

**Spouse Employment Status**
Select the employment status of the spouse from the adjoining drop-down list. The list displays the following values:
• Full Time Permanent
• Full Time Temporary
• Self Employed
• Unemployed
• Retired Pensioned
• Part Time
• Retired Non Pensioned
• Other

**Mother’s Maiden Name**
Specify the maiden name of customer’s mother.

**Dependent Children**
Specify the number of dependant children, if any.

**Other Dependents**
Specify the number of other dependants, if any.
1.1.6  Professional Tab

Click ‘Professional’ tab to maintain professional details

You can maintain the professional details here:

**Professional**

**Employment Type**
Select the employment type of the customer.

**Official Address**

**Address 1-4**
Specify the official address of the customer.

**Pin Code**
Specify the pin code of the official address.
Country
Specify the country code of the specified official address. The adjoining option list displays all valid country codes. Select the appropriate one.

**Employment Details**

Tenure
Specify the tenure of the employment.

Retirement Age
Specify the retirement age.

Previous Designation
Specify the previous designation of the customer.

Previous Employer
Specify the name of the previous employer.

Current Designation
Specify the current designation of the customer.

Current Employer
Specify the name of the current employer.

**Contact**

Telephone
Specify the professional telephone number of the customer.

Telex
Specify the professional telex number.

Fax
Specify the professional fax number.

Email
Specify the professional Mail ID of the customer.

**Income**

Income Currency
Specify the currency code of the income. The adjoining option list displays all valid currency codes. Select the appropriate one.

Salary
Specify the salary of the customer.

Other Income
Specify other income of the customer, if any.

**Expense**

You can specify the expenses of the customer here:

Rent
Specify the rent paid by the customer, if any.
Insurance
Specify the insurance paid by the customer, if any.

Loan Payments
Specify the loan payments paid by the customer, if any.

Other Expense
Specify the other expense paid by the customer, if any.

House Value
Specify the house value owned by the customer, if any.

No of Credit Cards
Specify the number of credit cards held by the customer, if any.

1.1.7 Specifying MIS Details
Click ‘MIS’ button to specify the MIS details. The ‘Customer MIS’ screen is displayed:
1.1.8 Specifying User Defined Fields

Click ‘UDF’ button to upload the documents. The ‘User Defined Fields’ screen is displayed:

![User Defined Fields Screen]

1.2 Capturing Document Details

You can capture the customer related documents in central content management repository through the ‘Documents’ screen. Click ‘Documents’ button to invoke this screen.

![Documents Screen]

Here, you need to specify the following details:

**Document Category**
Specify the category of the document to be uploaded.

**Document Reference**
The system generates and displays a unique identifier for the document.

**Document Type**
Specify the type of document that is to be uploaded.
Upload
Click ‘Upload’ button to open the ‘Document Upload’ sub-screen. The ‘Document Upload’ sub-screen is displayed below:

In the ‘Document Upload’ sub-screen, specify the corresponding document path and click the ‘Submit’ button. Once the document is uploaded through the upload button, the system displays the document reference number.

View
Click ‘View’ to view the document uploaded.

When the origination is initiated from channels and the existing customer check box is checked, then there will not be any modifications allowed to customer details in channel except the fields ‘Preferred Date of Contact’ and ‘Preferred Time of Contact’.

You can validate origination from channels using the workflow reference number. During the validation the updated application will be visible to the customer in the submitted format.

In ‘Current Account Creation’ process, ‘Document Upload’ feature is not available in all the stages. Its availability in this process is given below:

Refer the Procedures User Manual for details about task list.

**Step 2. Seek Approval for Missing Documents / Details**

In case the documents/details received by the bank from the customer are incomplete, the bank may decide to approve processing the account opening request as an exception and simultaneously arranges to follow up with the customer for submission of the pending details/documents.

Users belonging to the user role ‘CCSMROLE’ (Corporate Customer Service Manager) can perform these activities.

Go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button adjoining the ‘Approve Account Opening’ task to acquire it. The system displays the information message as “The task was successfully Acquired!”

*Refer the Procedures User Manual for details about task list.*
If you have requisite rights, double click on the task in your ‘Assigned’ task list. You can invoke any of the following screens, based on the origination of initiation:

2.1 **Origination Initiated by Oracle FLEXCUBE Branch**

The following details from the first stage are displayed on clicking the ‘Populate’ button:

**Header Section**
- Application Category
- Branch
- Date
- Channel
- Request ID
- Application Number
- Conversation ID
- Lead ID
- Status

**Account Details**
- Account Branch
- Account Currency
- Account Class
- Purpose of Account
- Overdraft

**Customer Details**
- Local Branch
- Customer Number

You can specify the following details:
Priority
Select the priority you need to assign to the application from the adjoining drop-down list. This list displays the following values:

- Medium
- Low
- High

Purpose of Account
Specify the purpose for maintaining the account.

After viewing the details, if you want to obtain the missing documents before approval, then select the action ‘Obtain Missing Documents’ in the text box adjoining the ‘Audit’ button. You will be taken back to ‘Receive and Verify’ screen. However, if you want to proceed with the process of account creation, select the action ‘APPROVE’ in the text box adjoining the ‘Audit’ button. You will be taken to “Input Details’ task. Click save icon in the tool bar. The system displays the information message as “The task is completed successfully”

Click ‘OK’ button in this screen. You will be taken back to the ‘Approve Account Opening’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity.

You can publish the standard list of documentation for origination workflow process using ‘Document Verify Maintenance’ screen. The system facilitates retrieval of the document checklist defined for a process code that can be utilized by channels for originations.

You can also upload the required documents from channels at the time of application submission. Further document upload will be possible only when the outcome is selected as ‘Rejected’ in this and the application is redirected to application filling stage.

If the submitted application is rejected by the authorizer, then the request is redirected to the application filling stage.

The system stores the documents uploaded by the customer/prospect through the channel in the document management system. When the request is raised from the branch the documents uploaded will be stored in the document management system.

Step 3. Modifying and Resubmit the Application

In this stage the Customer/Prospect can modify and resubmit the application if the Bank user rejects the application due to any reasons.

Step 4. Input Details of Current Account

Users belonging to the user role ‘COEROLE’ (Corporate Operations Executive) can perform these activities.

Go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button adjoining the ‘Input Details’ task to acquire it. The system displays the information message as “The task was successfully Acquired!”.
If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

Here you can specify the following details:

**Account Details**

The following details from the first stage are displayed on clicking the ‘P’ button next to the ‘Account Class’ field:

- Customer No
- Customer Name
- Existing Customer
- Account Class

Specify the following account details in this section:

**Currency**

Specify the currency to be used for the account. You can also select the account currency from the adjacent option list. The list displays all the currencies maintained in the system.
Media
Specify the media i.e. the mode of communication to be used. It can either be through SWIFT, mail, fax etc. You can also select the media from the option list provided. The list displays all the media maintained in the system. Select and click the appropriate media.

Account Balance
Specify the account balance details in this section.

Current Balance
Specify the current balance of the account holder.

Available Balance
Specify the available balance of the account holder.

Note
The initial deposit details are captured here only for the sake of information. These details are not used for processing.
**Account Balance**

**Current Balance**
System displays the current balance of the account.

**Available Balance**
System displays the available balance of the account.

**Intermediary Details**

**Intermediary Required**
Check this box to indicate that the intermediary details have to be provided for the customer.

**Escrow Transfer Details**

**Escrow Transfer Applicable**
Check this box to indicate that the escrow transfer is applicable for this account.

**Branch Code**
Specify the escrow branch code.

**Escrow Account**
Specify the escrow account number.

**Escrow Percentage**
Specify the escrow percentage for the account.

**Intermediary**

**Intermediary Code**
Specify the intermediary code from the adjoining option list.

**Intermediary Name**
System displays the intermediary name.

**Intermediary Ratio**
Specify the intermediary ratio to be divided among intermediaries in case of more than one intermediary.

---

**Note**
In case of one intermediary, the ratio will be 100%.
4.1 Capturing Interest Details

Enter interest details by invoking the 'Interest Screen'. Click 'Interest' button to invoke this screen.

Refer the ‘Applying Interest Product on Account’ chapter in the ‘Interest and Charges’ User Manual for details about applying interest to an account.

4.1.1 Capturing MIS Details

Click 'MIS' button to invoke MIS screen. The screen is displayed below:

Refer the Management Information System User Manual for further details.
4.1.2 Capturing Customer Details

Click the ‘Customer’ button to invoke the ‘Customer Details’ screen. The screen is displayed below:

In this screen maintain the following customer details:

**Customer Information**

In this section, specify the basic information of the customer.

**Customer Number**

Specify the customer number for whom the current account is being created. You can also select the appropriate customer from the adjacent option list. The list displays all the valid and authorized customers maintained in the system.

**Full name**

The full name of the selected customer is displayed.

**Short Name**

Along with the Customer Code you have to capture the customer’s abbreviated name. The description that you capture is unique for each customer. It helps in conducting a quick alphasearch or generating queries regarding the customer.

**Existing Customer**

If the customer is the existing customer, then this field is checked and you cannot edit the same.
Country
Specify the country in which the customer resides. You can also select the appropriate country from the adjacent option list. The list displays a list of countries maintained in the system.

Nationality
Specify the nationality of the customer. You can also select the nationality of the customer from the adjacent option list. The list displays a list of countries maintained in the system.

Language
As part of maintaining customer accounts and transacting on behalf of your customer, you will need to send periodic updates to your customers in the form of advisories, statement of accounts and so on.

Indicate the language in which your customer wants the statements and advisories to be generated.

Customer Category
Specify the category in which the customer belongs. You can also select the appropriate customer category from the adjacent option list and indicate the category under which the particular customer is categorized. Each customer that you maintain can be categorized under any one of the categories that you have maintained in the system.

Click ‘Main’ tab to input the following contact details of the customer:

- Name
- Telephone Number
- Email ID
- Address

Existing Bank Account Details
If the customer is an existing bank customer, then specify the following details:

Bank Name
Specify the name of the bank in which the customer is holding an account.

Branch
Indicate the name of the bank’s branch in which the customer is holding an account.

Account Type
Specify the type of account the customer is holding.

- Corporate
- Bank

Contact Person
In this section, indicate the contact person’s details of the current account being created.

Name
Specify the name of the contact person.
Work Phone ISD+
Specify a valid international dialling code for the work telephone number of the customer. The adjoining option list displays valid ISD codes maintained in the system. Select the appropriate one.

Work Phone
Specify the work telephone number of the customer.

Home Phone ISD+
Specify a valid international dialling code for the home telephone number of the customer. The adjoining option list displays valid ISD codes maintained in the system. Select the appropriate one.

Home Phone
Specify the home telephone number of the customer.

Mobile ISD Code+
Specify the international dialling code for the mobile number of the customer. The adjoining option list displays valid ISD codes maintained in the system. Select the appropriate one.

Mobile Number
Specify the mobile number of the corresponding customer.

E-mail
Specify the e-mail id of the contact person.

Contact Address
Address
Specify the address of the contact person.

Zip
Specify the Zip code of the contact person’s address.

Country
Specify the country name of the contact person.

Statuses
Private Customer
Check this box to indicate that the customer is a private type of customer.

Permanent US Resident Status
Check this box to indicate that the corresponding director is a permanent US resident.

Visited US in last 3 years?
Check this box to indicate that the beneficial owner has visited US in the last three years.

Eligible for AR -AP Tracking
Check this box to indicate that account receivable and payable process is to be enabled for the corresponding customer.
Power of Attorney

**Note**
If the FATCA is enabled at the bank and the check box 'Power of Attorney' is checked here, then it is mandatory to specify the Power of Attorney information.

**Power of Attorney**
Check this box to indicate that the customer account is to be operated by the power of attorney holder.

**Holder Name**
The person who has been given the power of attorney.

**Address**
Specify the address of the power of attorney holder.

**Country**
Specify the country of the power of attorney holder.

**Nationality**
Specify the nationality of the power of attorney holder.

**Telephone ISD Code +**
Specify the international dialling code for the telephone number of the power of attorney holder. The adjoining option list displays valid ISD codes maintained in the system. Select the appropriate one.

**Telephone Number**
Specify the telephone number of the power of attorney holder.
1.4.3 Specifying Corporate Details.

Here, specify the following details of the corporate:

**Registration Address**

Specify the registration address details of the corporate.

**Country**

Specify the country where the corporate is registered. You can also select the appropriate country from the adjacent option list. The list displays all the valid countries maintained in the system.

**Name**

Specify the full name of the main office of the Corporate/Bank customer.

**National ID**

Specify the corporate National Identification Number of this customer, in other words the registration number of your customer organization.
Address
Specify the address of the customer.

Description of Business
Specify the nature of the business and the business activities carried out by the customer organization.

Incorporation
Specify the following incorporation details of the corporate:

Date
Specify the date on which the customer’s company was registered as an organization.

Capital
Specify the capital of the corporate.

Net Worth
Specify the net worth of the corporate.

Currency of Amounts
Specify the currency in which you specify the particular customer’s various financial details like the Net worth of the customer organization, the total Paid Up capital etc.

Country
Specify the country in which the corporate is incorporated.

If the customer is a corporate, then maintain the director details. Click ‘Directors’ tab. The following screen is displayed:

Here, you can maintain the following details of the directors:
Directors Details

Director’s Name
Specify the directors’ name.

Telephone Number
Specify the directors’ telephone number.

Tax ID
Specify the tax id of the director.

Mobile Number
Specify the directors’ mobile number.

E-mail
Specify the directors’ email id.

Permanent Address Details
Specify the director’s permanent address.

Correspondence Address Details
Specify the director’s corresponding address.

To maintain the bank details, click ‘Bank Details’ tab. The following screen is displayed:

You can specify the existing bank account details here.

Bank Code
Specify the existing bank code.
Branch Code
Specify the existing branch code.

Account Type
Specify the account type from the adjoining drop-down list. Available options are:
- Nostro
- Misc Dr
- Misc Cr
- Savings Current
- Deposit
- Line

Account Number
Specify the existing account number

Visit Frequency
Specify how frequently the customer visits the bank.

4.1.3 Capturing Signatory Details

Click ‘Account Signatory’ button to invoke the ‘Signatory Details’ screen.

Refer the ‘Signature Verify’ User Manual for further details.

After entering the details, select the action ‘PROCEED’ in the text box adjoining the ‘Audit’ button and save the record by clicking save icon in the tool bar. The system displays the information message as “The task is completed successfully”

Click ‘OK’ button in this screen. You will be taken back to ‘Input Details’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity i.e verifying details of the current account.

For further details on the remaining fields refer Step 2. Seek Approval for Missing Documents / Details section in this chapter.
Step 5. Verify Details of Current Account

Users belonging to the user role ‘COMROLE’ (Corporate Operations Manager) can perform these activities.

Go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button adjoining the ‘Verify Details’ task to acquire it. The system displays the information message as “The task is completed successfully”

If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

Here you can view the details captured. If the required documents have been verified, select the action ‘SUCCESS’ in the text box adjoining the ‘Audit’ button. The process will move to ‘KYC_R’ task. If the verification has failed for some reason, then you will be taken ‘Modify Details’ task. Click save icon in the tool bar to save the record.

The system displays the information message as “The task is completed successfully”

Click the ‘OK’ button in this screen. You will be taken back to the ‘Verifying Details’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity.

Step 6. Modify Details of Current Account

Users belonging to the user role ‘COEROLE’ (Corporate Operations Executive) can perform these activities.

In case verification is not successful, then you may need to modify few details. Go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button
adjoining the required task to acquire it. The system displays the information message as “The task is completed successfully”

If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

In this screen you can modify the editable fields. After modify the required details, click save icon in the tool bar. You will be taken back to ‘Verify Details’ task. Click save icon in the tool bar to save the record. The system displays the information message as “The task is completed successfully”

Click the ‘OK’ button in this screen. You will be taken back to the ‘Modify Details’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity.

Step 7. KYC_C Review Info

KYC checks are mandatory and it is performed on both existing and new customers. In case of an existing customer the KYC check is done only if there are changes in the customer information (including all directors, mandate holders etc). The KYC check depends upon the regulatory environment within which your bank operates and its internal KYC policies.

If any of the checks fail, the relevant regulatory /internal authorities are informed. Once KYC checks are carried out, the result is passed on to the parent process.

Bank initiates the process of KYC-C review for a customer as a part of parent process with all the relevant information in the system. This process comprises the following stages:

- SDN checks
- Internal Black List check
- Customer Identity Verification
- External KYC Check
7.1 Verify Prospect /Customer details

Users belonging to the user role ‘KYCEROLE’ (KYC Executive) can perform these activities.

Go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button adjoining the ‘Sub-process KYC Review’ task to acquire it. The system displays the information message as “The task is completed successfully”.

If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:
You can view the customer details in this screen. Click ‘KYC Details’ tab to capture the Director name.

**Director Name**

Specify the name of the director.

If the customer information is complete, then select the outcome as ‘COMPLETE’ and save the record by clicking the save icon in the tool bar. The system displays the information message as “The task is completed successfully”

Click ‘Ok’ button. You will be taken back to the ‘Verify Prospect Customer Details’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity.

### 7.2 Ascertain if KYC Checks are Required

Users belonging to the user role ‘KYCMROLE’ (KYC Manager) can perform these activities.

In case of an existing customer, the bank checks if there are any changes to the existing KYC information already available with the bank. The KYC check for an existing customer is performed only if there are changes in the customer information (including details of nominee and mandate holder). In all other cases of new and existing customers, KYC checks are mandatory.

### 7.3 SDN Check

System checks the prospects/ customer’s name for the terrorism related black listing in the SDN database maintained by United States (US) Office of Foreign Asset Control (OFAC). If
the customer clears this match, system continues with the KYC check else the bank informs the regulatory/internal authorities about the SDN match of the prospect/customer.

7.4 Verify SDN Match

The bank checks the applicant’s name for terrorism-related black-listing against the SDN database maintained by the Office of Foreign Assets Control (OFAC). In case of a no match, the process proceeds. In case of a match (positive/partial), you can verify the match again using the OFAC guidelines.

Users belonging to the user role ‘KYCMROLE’ (KYC Manager) can perform these activities.

Go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button adjoining the ‘Verify SDN Match’ task to acquire it. The system displays the information message as “The task is completed successfully”

If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

In this screen, you can view the applicant's details. In case of a positive SDN match, the bank informs the regulatory agency (OFAC or any other similar agency) about the SDN match of the prospect/customer. However, if the match is cleared, you can continue with the subsequent KYC checks. Select the outcome as ‘NO MATCH’ and save the record by clicking the save icon in the tool bar. The system displays the information message as “The task is completed successfully”
Click ‘Ok’ button. You will be taken back to the ‘Verify SDN Match’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity.

7.5 Inform Regulatory Authorities

In case of a positive SDN match or the applicant is internally blacklisted, you should inform the regulatory agency (OFAC or any other similar agency) and the internal authorities on the match of the applicant.

Users belonging to the user role ‘KYCMROLE’ (KYC Manager) can perform these activities.

Go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button adjoining the ‘Inform Regulatory Authorities’ task to acquire it. The system displays the information message as “The task is completed successfully”.

If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

In this screen, you can view all the details of the applicant. Even the KYC check details are also displayed here. You can report about the positive match to the regulatory authorities by specifying the following details:

Name
Specify the name of the applicant whose name was shortlisted in the SDN or internal blacklist check.

Dt. of Reporting SDN Failure
Specify the date of reporting the SDN failure.

Mode of Reporting SDN Failure
Specify the mode of reporting the SDN failure.
Dt. of Reporting Blacklist Fail
Specify the date of reporting the blacklist failure.

Mode of Reporting Blacklist Fail
Specify the mode of reporting the blacklist failure.

Select the outcome as ‘PROCEED’ and save the record by clicking the save icon in the toolbar. The system displays the information message as “The task is completed successfully”

Click ‘Ok’ button. You will be taken back to the ‘Inform Regulatory Authorities’ screen. Click ‘Exit’ button to exit the screen.

7.6 Internal Blacklist Check

Users belonging to the user role ‘KYCEROLE’ (KYC Executive) can perform these activities.

Go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button adjoining the ‘Internal Blacklist Check’ task to acquire it. The system displays the information message as “The task is completed successfully”

If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:
In this screen, you can view the applicant’s details. Click ‘Int.Blacklist Check’ button to invoke ‘Blacklist Checks for Corporate Details’ screen.

The system validates the name of the applicant against the bank's internal list of global blacklisted customers. If any match is found, you can report it to the internal authorities of the bank. If no match is found, the system displays the information message as “The task is completed successfully”

You can continue with the process of creating account only when the customer passes these checks. Select the outcome as ‘PROCEED’ and save the record by clicking the save icon in the tool bar.

The system displays the information message as “The task is completed successfully”

Click ‘Ok’ button. You will be taken back to the ‘Internal Blacklist Checks’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity.

### 7.7 External KYC Check

Based on the external KYC check property set, the KYC-C sub process invokes the external KYC check sub process which sends data to Mantas KYC solution and retrieves the abbreviated risk score and risk category of the customer.

### 7.8 Retrying to Get Customer / Nominee Details

If the bank receives negative or no acknowledgement from the external system about the customer, then you can opt for a retry of external KYC check.

Users belonging to the user role ‘KYCROLE’ (KYC Manager) can perform these activities. To invoke the ‘Retry of External KYC Check’ screen, go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button adjoining the ‘Retry of External KYC Check’ task to acquire it. The system displays the information message as “The task is completed successfully”
If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

Here, you can specify the following details:

**Retry External KYC**
Check this box to specify that retry of external KYC check should be required for a particular customer.

You can enter the outcome of various stages in the Audit block for the verifier to make a decision. After verification, select the outcome as ‘Retry’ and save the record by clicking the save icon in the tool bar. The system displays the information message as “The task is completed successfully”

Click ‘Ok’ button. You will be taken back to the ‘Retry of External KYC Check’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity.

**7.9 Verify Customer / Prospect Contact Details**

Users belonging to the user role ‘KYCEROLE’ (KYC Executive) can perform these activities.

Go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button adjoining the ‘Internal Blacklist Check’ task to acquire it. The system displays the information message as “The task is completed successfully”
If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

In this screen, you can view the applicant’s details. As per the bank’s mandated policy, you will have to perform the customer identification check. This involves verification of customer address, phone number etc. You can enter the outcome of various stages in the Audit block for the verifier to make a decision. After verification, select the outcome as ‘PROCEED’ and save the record by clicking the save icon in the tool bar. The system displays the information message as “The task is completed successfully”

Click ‘Ok’ button. You will be taken back to the ‘Verify Customer Contact Details’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity.

7.10 Other KYC Checks

As per the bank’s mandated policy, you will have to other details like verification of the employer information, verification of the income information, sources and uses of funds etc.

Users belonging to the user role ‘KYCEROLE’ (KYC Executive) can perform these activities.

Go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button adjoining the ‘OtherKYCChecks’ task to acquire it. The system displays the information message as “The task is completed successfully”
If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

In this screen, you can view and verify the applicant’s details. After verifying the details, select the outcome as ‘PROCEED’ and save the record by clicking the save icon in the tool bar. The system displays the information message as “The task is completed successfully”

Click ‘Ok’ button. You will be taken back to the ‘Other KYC Checks’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity.

7.11 KYC Decision

After verifying and evaluating the KYC information, bank decides whether it should enter into a relationship with the prospect/continue relationship (in case of an existing relationship) or not.

Users belonging to the user role ‘KYCMROLE’ (KYC Manager) can perform these activities.

Go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button adjoining the ‘KYCDecision’ task to acquire it. The system displays the information message as “The task is completed successfully”
If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

In this screen, you can view the complete information of the applicant. The outcome of various stages of KYC-R sub process is displayed in the Audit block. Based on these information, you can inform the customer if you enter into a relationship with the prospect/continue relationship (in case of an existing relationship) or not as part of the parent process.

Based on the decision, select the outcome as ‘FAILED’ or ‘PASSED’ and save the record by clicking the save icon in the tool bar. The system displays the information message as “The task is completed successfully”

Click ‘Ok’ button. You will be taken back to the ‘KYC Decision’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the Main process.

**Step 8. Block Customer in the System**

**Step 9.** For an existing customer if the KYC check fails, then the system will block all the existing accounts for the customer as per the bank’s internal guidelines. The failed customers will be added into the internal blacklist database. **Notify Customer on Negative Status of KYC Checks**

Users belonging to the user role ‘COEROLE’ (Corporate Operations Executive) can perform these activities.
In case, a customer does not clear KYC checks, then you can terminate the account opening process after notifying the customer. If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

In this screen you can view the account and the customer details. After intimating the customer about the failed KYC checks, you can terminate the account creation process.

Step 10.Create / Modify Customer Details in Oracle FLEXCUBE

If the applicant is a new customer, then a new customer record is created in the system. In case of an existing customer, the customer's KYC information is updated. Similarly, if a joint account is opened where multiple customer IDs need to be created/updated, then the same is done in the system as part of this activity.

Step 11.Create Account

The system creates a customer account at this stage. In case of a joint account, the entire applicable customers IDs are linked to the account.

Step 12.Store Document Reference in FLEXCUBE

The customer and account details captured are stored in the system for further reference.

Step 13.Check Available Balance

Users belonging to the role ‘COEROLE’ (Corporate Operations Executive) will be able to perform this task.
If initial deposit is required, then you have to check the available balance. For this, go to the pending list and Click ‘Acquire’ button adjoining the ‘Check if Balance Available’ task to acquire it. The system displays the information message as “The task is completed successfully”.

If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen.

You can view the available balance in this screen. If the balance is sufficient, select the action ‘PROCEED’ from the drop-down list adjoining the ‘Audit’ button. Click ‘Save’ icon in the tool bar to save the record. The system displays the information message as “The task is completed successfully”.

Click the ‘OK’ button in this screen. You will be taken back to the ‘Check Available Balance’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity.

**Step 14. Generate Cheque Book**

Users belonging to the user role ‘COEROLE’ (Corporate Operations Executive) can perform these activities.

If the customer has opted for personalized cheque book, then go to the pending list and Click ‘Acquire’ button adjoining the ‘Generate Cheque Book’ task to acquire it. The system displays the information message as “The task is completed successfully”.

---

**If you have any questions or need further assistance, please feel free to ask.**
If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

The following details are displayed in this screen:

- Workflow reference number
- Priority
- Customer name
- Account number

**Cheque Leaves From**
Enter the starting cheque leaf number.

**No. of Check Leaves**
Enter the number of leaves to be generated.

Select the action ‘PROCEED’ in the text box adjoining the ‘Audit’ button in this screen and save the record by clicking the save icon in the tool bar. The system displays the information message as “The task is completed successfully”

Click the ‘OK’ button in this screen. You will be taken back to the ‘Generate Cheque Book’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity i.e. delivery account kit to the customer.

**Step 15. Retrieve Pre-printed Cheque Book**

Users belonging to the user role ‘CBOEROLE’ (Corporate Branch Operations Executive) can perform these activities.

If initial deposit is not required and if the customer has opted for pre-printed cheque book, then go to the pending list and click ‘Acquire’ button adjoining the ‘Retrieve Pre-printed Cheque Book’ task to acquire it. The system displays the information message as “The task is completed successfully”
If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

In this screen, the following details are displayed:

- Workflow reference number
- Priority
- Customer Name
- Account Number

**Account Facilities**

Enter the following details in this section:

**Cheque Leaves From**
Enter the starting cheque leaf number of the cheque book which you want to retrieve.

**No. of Check Leaves**
Enter the number of leaves to be retrieved.

Select the action ‘PROCEED’ in the textbox adjoining the ‘Audit’ button in this screen and save the record by clicking the save icon in the tool bar. The system displays the information message as “The task is completed successfully”

Click the ‘OK’ button in this screen. You will be taken back to the ‘Retrieve Pre-printed Cheque Book’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity i.e. delivery account kit to the customer.

**Step 16.Issue Debit Card**

In this stage, if the customer has opted for debit card, the required details are maintained and debit card will be issued to customer.
Details entered here are handed off to Debit card request tab in Customer Account Maintenance screen and debit card request is processed automatically.

You need to maintain the following details:

**Debit Card Details**

**Name On Card**
Specify the name the customer prefers to be displayed on the card.

**Card BIN**
Specify the card BIN. The adjoining option list displays all valid card BIN available in the system. Select the appropriate one.

**Request Reference Number**
Specify the reference number of the request.

**Card Number**
Specify the card number.

**Card Products**
Specify a valid card product provided to the customer. The adjoining option list displays all valid card products available in the system. Select the appropriate one.

**Card Application Date**
Specify the date on which the application requesting for card was received, from the adjoining calendar icon.
Card Status
The system displays the status of the card.

Step 17. Generate Welcome / Thank You Letter

As part the account opening kit, you should generate welcome/thank you letter. You can generate the letter from the system. The system generates the letter in a pre-defined format by picking up the name and other details of the customer maintained in the system.

Step 18. Notify the customer/prospect about the successful account opening with details

In this stage, Customer/Prospect will be notified about the successful account opening with account number and details.

Step 19. Deliver Account Kit to the Customer

Users belonging to the user role ‘COEROLE’ (Corporate Operations Executive) can perform these activities.

Go to the pending list in the system. The system displays all the pending activities. Click ‘Acquire’ button adjoining the ‘Deliver Customer Kit’ task to acquire it. The system displays the information message as “The task is completed successfully”

If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen:

The account kit includes product features, welcome/thanks letter, cheque book (if applicable).

The following details are displayed in this screen:
- Workflow number
- Customer Name
- Account Name
- Priority
**Account Facilities**

The following details of the delivery kit can be captured here:

**Cheque Leaves From**
Specify the starting cheque leaf number.

**No. of Cheque Leaves**
Specify the number of cheques leaves provided to the customer.

**Cheque Book Delivered**
Check this field to indicate that the cheque book is delivered to the customer.

**Delivery Ref. No.**
Capture the delivery reference number.

**Mode of Delivery**
Indicate the mode of delivery of the account opening kit.

**Date of Delivery**
Mention the date on which the account opening kit was delivered.

Select the action ‘PROCEED’ in the textbox adjoining the ‘Audit’ button in this screen and save the record by clicking the save icon in the tool bar. The system displays the information message as “The task is completed successfully”

Click the ‘OK’ button in this screen. You will be taken back to the ‘Delivery Customer Kit’ screen. Click ‘Exit’ button to exit the screen. The task is then moved to the next activity i.e storing documents.

**Step 20.Store Documents**

You can store the current account opening form and other supporting documents are stored in a safe and accessible location. This storage information can be recorded using ‘Store Documents’ screen. You can capture the storage details in this stage.

Users belonging to the role ‘CBOEROLE’ (Corporate Branch Operations Executive) will be able to perform this task.

Click ‘Acquire’ button adjoining the ‘Store Documents’ task to acquire it. The system displays the information message as “The task is completed successfully”
If you have requisite rights, double click on the task in your ‘Assigned’ task list and invoke the following screen.

In this screen the following information can be stored:

System displays the following information:

- Application Category
- Application Branch
- Date
- Application Number
- Application Status

**Priority**
Select the priority for maintaining the documents.

- Account Details

The following customer information is displayed:

- Customer Name
- Customer Number

**Account Details**
The current account number of the customer is displayed.

**Storage Details**
Capture the following storage details in this section:

**Storage Reference**
Specify the storage reference number.

**Date of Storage**
Capture the date of storing the documents.

**Time of Storage**
Specify the time of storing the documents of the current account.
Place of Storage

Mention the place where the document is stored.

Select the action ‘Document Stored’ in the textbox adjoining the ‘Audit’ button in this screen and save the record by clicking the save icon in the tool bar. The system displays the information message as “The task is completed successfully”

Click ‘Ok’ button. You will be taken back to the ‘Store Documents’ screen. Click ‘Documents’ button to view the documents stored. The following screen is displayed:

1.5 Auto Closure of Leads

The system allows the auto closure of the leads based on the values configured in the origination bank parameter screen. This can be achieved either through a batch OREOD or through Origination Batch maintenance screen. A reason code ‘Auto Closed Lead’ is maintained for the leads which are auto closed by the system. The system remains the Maker ID and Checker ID for the auto closed leads.

The EOTI Origination Batch (OREOD) is run to change the lead status in the prospect details screen when the lead auto closure period is expired. If CIF is generated for the lead, then the CIF ID gets released against the particular lead.
You can also auto close the leads through the Origination Batch maintenance screen. To invoke this screen type ‘ORDBATCH’ in the field at the top-right corner of the Application tool bar and click the adjoining arrow button.

You can select the branch code from which you want to close the leads from the adjoining option list. Click ‘Run Batch’ to close the status of the leads to ‘Closed’. On closure of a lead, the CIF Id generated for a lead is released.
