### *Useful queries when performing / trouble shooting a Property delete:*

*--Find the proc id -- all jobs using batch proc log*

```
select * from batch_proc_log
where (proc_id,log_line) in (select proc_id,max(log_line) from batch_proc_log group by
proc_id)
order by entry_time desc
```

*--Replace -77 with actual proc id of the property delete job*

```
select * from batch_proc_log where proc_id = '-77' order by log_line desc -- show full log
```

```
select * from batch_proc_log where proc_id = '-77' and log_txt like 'ERROR=>' order by
log_line desc -- show errors
```

```
select * from batch_proc_log where proc_id = '-77' and log_txt like '%!SLOW!%' order by
log_line desc -- slow deletions
```

```
select * from batch_proc_log where proc_id = '-77' and log_txt like '%--!STAT!%' order by
log_line desc -- all statements used
```

```
select * from batch_proc_log where proc_id = '-77' and log_txt like '%deleted %' and log_txt
not like '%deleted 0%' order by log_line desc -- actually deleted rows
```

```
select * from batch_proc_log where proc_id = '-77' and substr(log_txt,1,1) not in (' ','1')
and log_txt not like '%--!STAT!%' order by log_line desc -- only main logs
```

*--Chech which table has been deleted from:*

```
select distinct substr(tab,1,instr(tab,' ')-1) from
(
select replace(LOG_TXT,'delete from ') tab from batch_proc_log where proc_id = '-77' and
log_txt like '%--!STAT!%'
)
order by 1
```
