### Korean Mode

For every field that is available in data extraction which relates to Date of Birth, Passport Number or ID Number, an additional field has been added with the Field Description showing (Masked) at the end of the description. The existing fields will return NULL. The additional field will return the masked value of the field.

### Generic Mode

The additional fields are not visible  
The existing fields continue to behave as before (return clear text values)

Data Source(s)	Existing Field Description	Additional Field Description
All Contacts All Accounts with or without Contacts Activities with Accounts and Contacts All Contacts with or without Primary Accounts	Birth Date	Birth Date (Masked)
General Stay Records Revenue Extract	Guest Birth Date Guest Passport Guest ID Number	Guest Birth Date (Masked) Guest Passport (Masked) Guest ID Number (Masked)
General Stay Records Extract	Guest Birth Date Guest Passport Guest ID Number	Guest Birth Date (Masked) Guest Passport (Masked) Guest ID Number (Masked)
Reservations with Profiles	Date of Birth of the Individual Profiles. Passport Number Number ID	Date of Birth of the Individual Profiles. (Masked) Passport Number (Masked) Number ID (Masked)
