1 EPM System Installer Changes

The following changes were made to the 11.1.2.4.900 Oracle Enterprise Performance Management System Installer.

- Installation dependencies between Oracle Hyperion Financial Reporting and Oracle Hyperion Reporting and Analysis Framework no longer exist.

- **Items Added**
  Document Repository binaries are installed with Oracle Hyperion Financial Reporting. They are in these locations:
  
  /EPMSystem11R1/common/financialreporting/11.1.2.0/lib/Docrep.jar
  
  /EPMSystem11R1/common/financialreporting/11.1.2.0/lib/Docrepreg.jar
  
  /EPMSystem11R1/common/financialreporting/11.1.2.0/lib/Repository.jar

- **Items Removed**
  The following were removed. References to these products and features in the Release 11.1.2.4 Oracle Enterprise Performance Management System Installation and Configuration Guide no longer apply.
  
  - Oracle Hyperion Reporting and Analysis, including:
    
    * Oracle Hyperion SQR Production Reporting
    * Oracle Hyperion Interactive Reporting
    * Reporting and Analysis Framework
    * Oracle Hyperion Web Analysis
  
  - Disclosure Management

- **Items Changed**

In earlier releases, Financial Reporting was a sub node under Reporting and Analysis. In Release 11.1.2.4.900, Financial Reporting is now at the root node with the other products.
Note:

Release 11.1.2.4.900 installs Release 11.1.2.4.000 as it base, except for Financial Reporting with PSU 11.1.2.4.708 and Oracle Hyperion Enterprise Performance Management Workspace with PSE 26950214. After the installation and configuration is complete you can apply 11.1.2.4.xxx PSUs to get the latest updates.
EPM System Configurator Changes

General Changes

The following changes have been made to the Oracle Hyperion Enterprise Performance Management System Configurator:

- Configuration screens for Oracle Hyperion Reporting and Analysis, Oracle Hyperion SQR Production Reporting Studio, Oracle Hyperion Interactive Reporting, and Disclosure Management were removed.
- The Document Repository Application is registered and configured when Oracle Hyperion Financial Reporting is configured. The application is in WORKSPACE in the registry.
- This new Configuration panel is used.
