Purpose

This document includes important late-breaking information about this release of Oracle Enterprise Performance Management Mobile.

New Features

See the Oracle EPM Mobile *New Features Guide* for information about the new functionality in this release.

Installation Information

Before installing this release, remove your existing release from your device. You can then download the Oracle EPM Mobile app from:

- The Apple App Store: http://bit.ly/1dVo3dt
- The Google Play Store: http://bit.ly/1lrln7m

Supported Devices

You can use Oracle EPM Mobile on iPhones running iOS 7 or 8, and on Android 4.1, 4.2 and 4.3 based phones.

All supported devices and operating systems are listed on:

http://www.oracle.com/technetwork/developer-tools/maf/documentation/maf201cert-2298202.html

Localization for the Oracle EPM Mobile Apps

In addition to English, the Oracle EPM Mobile apps are available in: Danish, German, Spanish, Finnish, French, Italian, Japanese, Korean, Norwegian, Polish, Portuguese - Brazilian, Russian, Turkish, Swedish, Dutch, Chinese - Simplified, and Chinese – Traditional. The documentation is provided in English only.

Prerequisites

- Install and configure Oracle Hyperion Foundation Services, and all Oracle Enterprise Performance Management Mobile product components, such as Oracle Hyperion Planning, Oracle Data Relationship Governance, and so on.
- Review these product readmes, and perform any product-specific installation, migration, and upgrade tasks:
    - Planning

- Close Manager, a module in Oracle Hyperion Financial Close Management
- Oracle Data Relationship Governance
- Oracle Hyperion Financial Management
- Oracle Hyperion Tax Provision

Defects Fixed in This Release

These issues are resolved:

- 1799703 - The action list does not refresh when you scroll to the top of the page and pull down.
- 17803853 - iOS: If you select multiple filter values, the first filter may not be retained.
- 17996687 - In a Planning application, annotations on the History tab may contain HTML tags.
- 17817783 - Configured Financial Management applications that you later delete may remain listed on the applications page.
- 17824706 - A progress bar doesn't display to indicate that the configuration process is underway.
- 17949251 - If you tap "Forget this application" on the Settings page, you are not prompted to confirm that you want to remove the application from the client.
- 18051311 - For Planning applications on iPhones: Pages are not updated to indicate if frozen planning units were unfrozen by another user.

Known Issues in This Release

Subtopics

- General Issues
- Product-Specific Issues
- Locale Issues

General Issues

- 18292397 - iOS 7: Filter values that you select may not be retained after you tap Refresh Filter Values.
- 19571513 - iPhone 4 with iOS 6.1.3: Not all links display in the product tour or on the main launch page.
- 19560580 - Android 4: There isn't a delete button in the search.
- 19298452 - Android 4: Due to router activity, the start screen may take several seconds to display after sign off and then sign back in

- 19436387, 19456859 - iOS7: There are no buttons that allow you to leave the End User License Agreement (EULA) page if you do not agree to the EULA terms.
- 19422982, 19636664 - After closing errors that display if you access an application to which you are not provisioned, a blank screen displays and you must sign out and then sign back in to access an application to which you are provisioned.

Product-Specific Issues

- 18550161 - Financial Management: Although you should not be able to, you can, from multiple devices, take action on a published process unit.
- 18549662 - Financial Management and iOS7: If multiple users perform actions in the same application from different mobile devices, the Actions page may be blank or display zero-values.
- 17997037 - Planning: You are not returned to the location of a list item that you select. For example, if you select a planning unit at the bottom of a list, you are placed at the top of the list when the page refreshes.
- 18318152 - iPhone 4S with iOS 7.0.6: You may be unable to scroll as expected after selecting filters in an Financial Management application.
- 17824706 - iPhone with iOS 6 or 7: The icon that indicates that data is loading displays intermittently; appearing and then disappearing.

Locale Issues

- 18526873 - Oracle Hyperion Financial Management and Oracle Hyperion Planning: Detail pages are blank and do not display history, promotional path, or pass/fail status information on a Turkish locale.
- 18526805 - Arabic locale users may be unable to navigate the springboard to the left as expected or access the help.
- 19984168 - iPhone 4 with iOS7: There are display overlap issues on an Arabic locale.
