1.5. Related Information Sources

Not Applicable

2. Introduction

The purpose of this document is to elaborate the steps involved in the installation of the entire FLEXCUBE software.

3. Order of installations

The installation is to be done in the following stages -

1. Installation of Database
2. Bootstrap Installation
3. Installation of the Host
4. Installation of the Branch.
5. Setting up Multi Branch Registries

3.1. Installation of Database

The installation of the Database is elucidated in the document - Oracle FLEXCUBE-Core 5.1.0.0.0-RCU_Installation_Guide. By following this document, one will be able to successfully install the database with initial required data and proceed to the installation of the FLEXCUBE Host.

3.2. Bootstrap Installation

This enables to install system and product related data with Chinese localization

so that one can perform banking operations after installation. Please refer the doc - Oracle FLEXCUBE Common Setup & Extract User Guide_v1.2.doc

If we are using Bootstrap, please make sure you are setting the below values correctly in RCU installer and Branch Installer.

- Branch Code – 9999
- Currency Code – 156
- Bank Code – 1
- Entity Code – 1
- Bank IC Code -- 1

3.3. Installation of the Host

The installation of the Host on a Linux machine is explained in the document - Oracle FLEXCUBE-CORE 5.1.0.0.0-Installation_Guide_Host. By following this document, one will be able to install the FLEXCUBE Host and proceed to the installation of the FLEXCUBE Branch.

3.4. Installation of the Branch

The installation of FLEXCUBE branch is to be done on a windows machine and this is explained in the document - Oracle FLEXCUBE-CORE 5.1.0.0.0-Installation_Guide_branch(winServer). Using this document we can install the FLEXCUBE Branch on the to a windows machine.

3.5. Setting up Multi Branch Registry

The steps to set up Multi Branch Registry are mentioned in the document - Oracle FLEXCUBE Core 5.1.0.0.0 Branch Addition Configuration in Registry.
