# Chapter 1

---

## Overview

This chapter provides a brief description of the SGG-MDM Manage Events business process and associated process diagrams. This includes:

- **Brief Description**
- **Business Process Diagrams**

---

## Brief Description

**Business Process:** 5.3.3 SGG-MDM.Manage Events

**Process Type:** Process

**Parent Process:**

**Sibling Processes:**

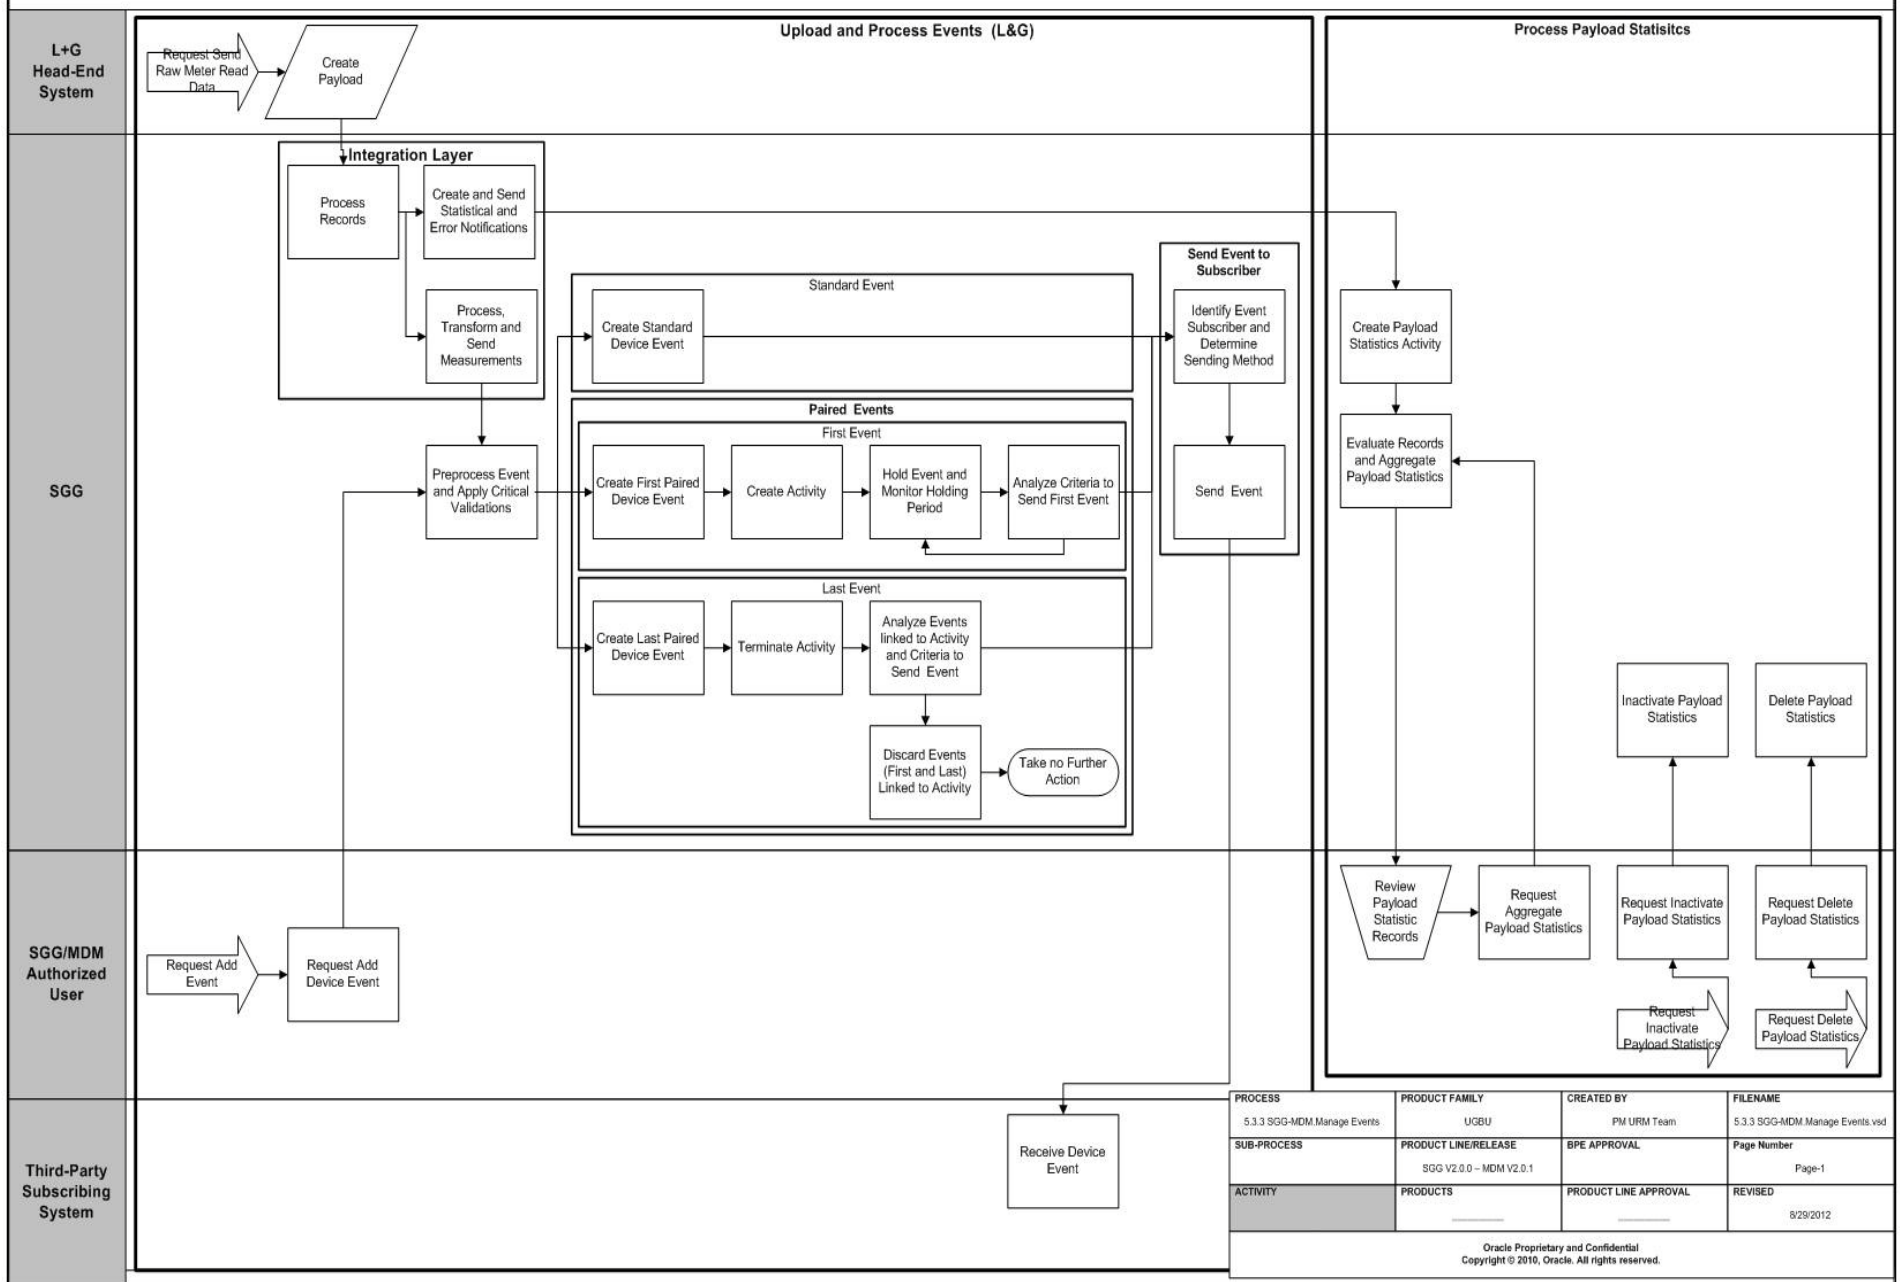

This process takes place when device events data should be sent to SGG for upload and further processing. Head End Systems collects event information from devices and enables data for SGG. SGG retrieves events data, transforms records and upload them. Authorized Users can review and analyze payload statistics. SGG validates, processes the events and sends to the third party subscribers.

## Business Process Diagrams
