U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

1. Navigation

This document provides an overview of the basic template, navigation, common operations that can be performed, and keyboard short cuts available in Oracle Financial Services Lending and Leasing. Since this section details the general options available in the User Interface, some or all the parts of this section are applicable to you as per access provisions & licensing.

The document is organized into below topics:

- Logging In
- Template and Navigation
- Common Operations
- Hot Keys

Note

The application can be best viewed in 1280 x 1024 screen resolution.

1.1 Audience

This document is intended to all Prospective Users who would be working on the application.

1.2 Conventions Used

Term	Refers to
The system/application	Oracle Financial Services Lending and Leasing
Mnemonic	The underlined character of the tab or button

1.3 Logging In

The pre-requisites to log into the system are a valid user ID and a password, defined by the system administrator in Administration > User screen.

You can login to the system using a valid user ID and a password defined by the system administrator, in Administration > User screen. A User ID is disabled automatically by the system if it is inactive for a specified number of days.

When you invoke the application, the **Sign In** screen is displayed.

ORACLE[®]
Financial Services Lending and Leasing

Sign In

Sign in to Oracle Financial Services Lending and Leasing.

* User Id

* Password

Sign In

Oracle Financial Services Lending and Leasing 14.1.0.0.0
Copyright © 1998, 2013, Oracle and/or its affiliates. All rights reserved.

- **User ID** – Specify a valid User ID.
- **Password** – Specify a valid password for the specified User ID.

The system accepts the User ID and password in upper case only. After specifying valid credentials, click **Sign In** to sign into the application.

1.4 Template and Navigation

This section provides a brief input on the template and navigation of the system. Details are grouped into two categories to enable easy understanding. These include:

- Home screen
- Screens

1.4.1 Home Screen

Once you login to the application with valid credentials, the system authenticates the details and displays the Home screen.

The Home screen consists of the following components:

- Header
- Left Pane

- Right Pane/Work Area

You can view the application version details and copyright information by clicking **About** link at the right corner of the screen.

Header

In the Header, system displays the following:

- **User ID** that you have currently logged/Signed in. Click the adjoining drop-down arrow, the system displays the following options:

- **Change Password** – Click to change the current password.

Specify the current password in the **Current Password** field and a valid password, you wish to maintain as a new password, in the **New Password** field. Re-enter the password in **Confirm Password** field and click **Submit** to change the password.

- **User Info** – Click to view the current user info.

In this screen, apart from viewing the user info, you can also set Session Language, enable error log, and specify the time zone preference.

Session Language – Select a language that you need to set for the session, from the drop-down list.

Debug Enabled Ind – Check this box to enable error logs.

Time Zone Level - Select the time zone preference as User/Company Branch/ Application Server Time Zone from the adjoining options list.

For more details on time zone selection, refer to Time Zone Preference section of this user manual.

Click **Submit** to save the changes or **Close** to close the screen without changes.

- **Accessibility** – Click the link to view accessibility features of the system.
Refer accessibility document for further details.
- **Sign Out** – Click the link to sign off from the application. You can also click on  icon to sign off from the application.

Left Window

In the left pane, system lists and provides drop-down links for various modules available in the product. Click  to expand the Module Master Tabs and  to collapse them.

To open a screen, navigate to Module Master Tab to which the screen belongs, expand the tabs, and click the screen link you wish to open.

Right Window

The Right Window can also be termed as work area. When you click the screen link on left pane, system displays the corresponding screen in the right pane.

You can open a maximum of 15 screens at a go. Once the maximum limit is reached, the system displays an error message.

In origination, only one among the three screens namely, Application Entry, Underwriting, Funding can be opened at a time. If 'Application Entry' screen is open and you click on Underwriting or Funding, the system retains the same screen.

Each active screen is displayed as a tab at the top of right pane, across its width. To view a screen, click the screen tab. You can identify the active screen with its white background. Also, operation on any of the screen will not affect the data in other screens.

Right Splitter/Action Window

The Right Splitter/Action Window has quick access to search and other options to avoid switching between tabs or navigating into sub tabs periodically. You can access the Right Splitter/Action Window while working on an Application or Customer Service screens. You can click  and  to toggle the view of Right Splitter/Action Window.

Origination Screens

In Origination Application screens, you can use the Right Splitter/Action Window to do the following:

- Use **Quick Search** to search for an application based on application number, last 4 digits of SSN (SSN of the primary applicant) or identification number. If multiple applications or accounts are found during 'Identification #' search, the system displays an error message as "Multiple Matches found for the Identification #, Please use normal Search".
- **Summary** section displays critical information that has to be referred repeatedly during origination like – DTI, PTI, Book Value, Grade, FICO Score, Approved Advance, Rate and Term.
- Use **Change Status** section to change the application status to next level. If the application edit status is restricted, then the 'Change Status' will be read-only.

- Use **Add Comment** section to post an alert or comment during Underwriting and Funding stages.

For detailed information on the above options, refer to respective sections in the document.

Servicing and Collection Screens

In Servicing and Collection → Customer Service screens, you can use the Right Splitter/ Action Window to do the following:

- Use **Quick Search** to search for an account based on account number, or customer Id, or last 4 digits of SSN (SSN of the primary applicant) or identification number. If multiple applications or accounts are found during 'Identification #' search, the system displays an error message as "Multiple Matches found for the Identification #, Please use normal Search". You can also select the Queue Condition and Auto Run options during search.
- Use **Add Comment** section to post an alert or comment based on Type and Sub Type.
- Use **Add Call Activity** section to post all types of call activities including promise to pay, account conditions and so on, irrespective of the screen you are working on. This is similar to the option available in 'Call Activities sub tab' under Customer Service tab.

For detailed information on the above options, refer to respective sections in the document.

The height of Header and width of the Left and Right Panes do not change, with resizing of application screen.

The system facilitates toggling Header and Left and Right Panes of the home screen to increase the visible area of the screens. Click  to toggle upper pane and  to toggle left pane. To un-toggle click  and  respectively.

Few screens in Origination, Servicing and Collection are identical and are linked. Hence, you can open only one screen at a time from the group. A sample of the grouping structure is given below, based on stages of the screens:

Origination:

- Simple Application Entry
- Application Entry
- Underwriting

- Funding

Collection:

- Collection
- Bankruptcy
- Repossession
- Deficiency

WFP:

- Producers
- Credit Lines
- Units

As per the above listing, you will be able to open only one screen in the corresponding list i.e. if you have opened the 'Application Entry' screen in 'Origination', you are not allowed to open any of the other 3 screens until you exit the 'Application Entry' screen.

1.4.1.1 Time Zone Preference

Oracle Financial Services Lending and Leasing

User Info

Organization: DMC
 Division: US01
 First Name: DEMO
 Last Name: SUPERUSER
 Responsibility: SUPERUSER
 GL Post Date: 10/22/2014
 Last Login Date: 10/22/2014 03:34:01 PM
 Session Language: ENGLISH
 Debug Enabled Ind: ☐

Time Zone Level: APPLICATION SERVER TIME ZONE
 User Time Zone: USER TIME ZONE
 Company Branch Time Zone: COMPANY BRANCH TIME ZONE
 Application Server Time Zone: APPLICATION SERVER TIME ZONE
 Server Time: ASIA/CALCUTTA (INDIA STANDARD TIME)

Submit Close

You can select any of the following three time zones from the User Info screen:

- Application Server Time Zone
- Company Branch Time Zone
- User Time Zone

The time zones set up at each of these levels are displayed in the user info screen. However, data is always stored in the application server time zone and based on the user preference of time zone, the display time would be User or Company or Application Server time zone. Any time zone related changes done at UI does not impact the other time bound activities which are dependant on database time.

Application Server Time Zone (Server Time Zone)

The Application Server Time Zone by default is the Production Server Time Zone. Selecting this time zone will have all date and time fields defined as per the time stored in application server. There is no offset in time if both storage (database server) and display (application server) are in the same time zone.

Company Branch Time Zone (Organization - Division Time Zone)

This is the Company time zone and is setup at the organization - division definition level. The various divisions defined under an organization can be set up with different time zones depending on geographical locations. This time can be modified as per requirement.

To modify the Company Branch Time Zone:

- Navigate to Setup > Administration > User > Organization and select the company or division listed under 'Division Definition'.
- In the Display Formats tab, select **Time Zone** and click 'Edit'.
- In the Format field, select the required time zone from the adjoining options list and click 'Save'.

If 'Company Branch Time Zone' is selected as the time zone in User Info screen, then on save, all the time and date fields are automatically updated with the time zone of the company branch.

User Time Zone

User Time Zone or User Preference Time Zone can be set up at the User Level in the User Definition screen. Various Users under same divisions defined under an organization can be set up with different time zones depending on geographical locations.

To modify the User Time Zone:

- Navigate to Setup > Administration > User > Users.
- Select the required User record listed in "User Definition" section and click **Edit**.
- In the Time Zone field, select the required time zone from the adjoining options list and click **Save**.

If 'User Time Zone' is selected as the time zone in User Info screen, then on save, all the time and date fields are automatically updated with the current updated time.

1.4.2 Screens

Details in few main screens are grouped into different sections. These sections are displayed as tabs, horizontally within the screen. In turn, details in few of these tabs are again grouped horizontally. The details are displayed when you click the tab under which they are grouped. As similar to the main screen tabs, you can identify the active tab with its white background.

For example, Customer Service main screen has four main tabs. When you click on 'Customer Service' tab, the corresponding tabs are displayed.

You can click ➤ to view the hidden tabs, if any.

1.5 Common Operations

Some of the operations are common to most of the screens. These are grouped into three categories, based on their features.

- Basic Operations
- Basic Actions
- Personalization Options

1.5.1 Basic Operations

All the screens contain buttons to perform all or few of the basic operations. The four basic operations available are:

- Add
- Edit
- View
- Audit

When you click any of the operation tabs, system displays the corresponding records inline, below the respective setup tables.

The table below gives a snapshot of them:

Basic Operation	Description
Add	Click to add a new record. When you click Add , the system displays a new record enabling you to specify the required data. It is mandatory to specify details for the fields marked with '*' symbol.
Edit	Click to edit an existing record. Select the record you want to edit and click 'Edit'. The system displays an existing record in editable mode. Edit the required details.
View	Click to view an existing record. Select the record you want to view and click 'View'. The system displays the record details in display mode.
Audit	Click to view audit info. If an audit is set for a field, then the system tracks the changes for that field. Select the record for which you want to view the audit info and click 'Audit'. The system displays the details tracked for that field.
Close	Click to close a screen or a record. When you try to close an unsaved, modified record, then the system alerts you with an error message. You can click 'Yes' to continue and 'No' to save the record.

1.5.2 Basic Actions

Most of the screens contain buttons to perform all or few of the basic actions.

All or few of these actions are enabled when you select any of the Basic Operations.

The table below gives a snapshot of them:

Basic Actions	Description
Save And Add	Click to save and add a new record. This button is displayed when you click 'Add' button.
Save and Stay	Click to save and remain in the same page. This button is displayed when you click 'Add/Edit' button.
Save And Return	Click to save and return to main screen. This button is displayed when you click 'Add' or 'Edit' buttons.
Return	Click to return to main screen without modifications. This button is displayed when you click 'Add', 'Edit' or 'View' buttons.

The summary screens consist of the following navigations. The table below gives a snapshot of them:

Basic Actions	Description
	Click to navigate to the first record.

Basic Actions	Description
	Click to navigate to the previous record.
	Click to navigate to the next record.
	Click to navigate the last record.

1.5.3 Personalization Options

You can personalize the data displayed in setup tables. Once personalized, system saves the settings for that User ID until next personalization.

The table below gives a snapshot of them:

Options	Description
View	Click to personalize your view. The drop-down list provides the following options of customization: • Customize columns you wish to view • Sort the order of displayed data • Reorder columns Additionally, the drop-down list provides selection of options adjoining 'View'. 
Format	Click to resize columns or wrap a data in the table cells.  Select the column you need to resize and select Resize Columns option from the Format drop-down list.  Specify the Width and unit for the selected column. Click OK to apply changes and Cancel to revert.

Options	Description
Query by Example	Click to query for the data by an example. When this option is selected, the system displays an empty row above column heads. You can specify all or any of the details of the record you wish to query. 
Freeze	Select the column at which you need to freeze the table and click Freeze . Function is similar to the freeze option in MS excel.
Detach	Click to detach the setup table from the screen. An example of the detached table is provided below.
Wrap	Select the column in which the data needs to be wrapped and click Wrap . 
	Click to refresh the data in the table.

Print option in Customer Service screen

The Print button  option in Customer Service/Collection screen facilitates you to print the contents on the screen as is without scroll bars. This button is available along with other options in the Action block. Clicking on this provides a browser print functionality and a new tab is opened where the print content is displayed.

Detach

The screenshot shows the Oracle 'Detach' application interface. At the top, there's a 'Result/Task' bar with 'Application Entry', 'Search', and 'Review Requests (Pending: 0)'. Below this is a 'Quick Search' section with fields for 'App #', 'SSN', and 'Queue'. The main 'Search' section contains a table with columns: Company, Branch, App #, Date, Title, Product, Status, Producer, and Secured. A red arrow points to the 'Detach' button in the toolbar. Below the search table is a 'Detached Table' which displays the same data but with an additional 'ME DETACH' entry for App # 0000001865.

Company	Branch	App #	Date	Title	Product	Status	Producer	Secured
US01	USHQ	0000001854	03/21/2013	1854 1854	LOAN VEHICLE (FR)	NEW - BLANK	NY-02 : PR

Click 'Add', 'Edit' or 'View' button to open a new screen in expanded mode with details.

Drop-down List

The system provides an option to select the required data from LOV, for few fields. You can either select the record from list or enter first alphabet of the value you want. When you provide the alphabet, system limits the selection to the values starting with the specified alphabet. These lists are grouped into two types:

- Drop-down list – Provides the selection option. You can either select a record from the list or enter first alphabet of the required value.

- Combo drop-down list – The LOV contains huge data and provides both selection and search option. These drop-down arrows are smaller in size, when compared to normal drop-down arrows, thus enabling easy identification.

Click the arrow button available before 'Search' to toggle the search options.

Buttons/Menus	Do this
Basic	Click 'Basic' for normal search.
Advanced	Click 'Advanced' for advanced search. In this mode, you can select the search option from drop-down list adjoining the search criteria. Selected record will be highlighted (Hover to select).
Match	Select 'All' to display results exactly matching the specified characters. Select 'Any' to display results matching any of the specified characters.
Search	Click to search for values based on the specified search criteria. The search results are displayed below with the details in respective columns.
Reset	Click to reset the search criteria.
Add Fields	Click to add additional fields to search criteria.

The search criteria are provided below the 'Match' field. These criteria vary based on the Field for which the search is executed.

Also, the system remembers your recent search options and demarcates them from the actual ones.

* Channel	WEB ENTRY	* Producer Name
NY-02 : PR	HOLTSVILLE	43125313212
MT-00001 : SGFSADDF	RAMEY	23132132

MT-00001 : TEST-001	ADJUNTAS	0
MT-00001 : TERMINATE	AGUADA	0
MT-00001 : SGFSADDF	RAMEY	23132132
NY-02 : PR	HOLTSVILLE	43125313212

Comments

In all the user input screens wherever comments are accepted, the system allows an input of 4000 characters of information in the comment(s) field.

1.6 Keyboard Compatibility

The system facilitates keyboard compatibility. You can perform most of your tasks using keyboard short cuts also termed as 'Hot Keys'. These hot keys are single keyboards or a combination of keyboards. The available options are listed below:

1. **Shift + Alt** + mnemonic to activate buttons in the screen. For example, to open 'Accessibility' screen, press '**Shift + Alt + y**'.
2. **Tab** for forward navigation in the application. **Shift + Tab** for backward navigation in the application. When the required link/tab/button/field is highlighted, press enter on the keyboard to edit.
3. **Space bar** to check or uncheck 'Check Box'.
4. **Arrow Keys** to hover within the drop-down list.

1.6.1 Keyboard Compatibility

The application is made compatible with keyboard only-operations. However, there is a change in key combination based on the browser on which the application is running.

Browser	Operating System	Key Combination	Action
Google Chrome	Linux	Alt + mnemonic	Click
Google Chrome	Mac OS X	Control + Option + mnemonic	Click
Google Chrome	Windows	Alt +mnemonic	Click
Mozilla Firefox	Linux	Alt + Shift + mnemonic	Click
Mozilla Firefox	Mac OS X	Control + mnemonic	Click
Mozilla Firefox	Windows	Alt + Shift + mnemonic	Click
Microsoft Internet Explorer 7	Windows	Alt + mnemonic	Set focus
Microsoft Internet Explorer 8	Windows	Alt + mnemonic	Click or set focus
Apple Safari	Windows	Alt + mnemonic	Click
Apple Safari	Mac OS X	Control + Option + mnemonic	Click

Also, one can use the following keyboard shortcuts in order to increase or decrease the zoom level.

Shortcut	Action
Ctrl++	To increase zoom level.
Ctrl+-	To decrease zoom level.
Ctrl+0	To set zoom level to default level.

1.7 Tool Tips

The system is facilitated with tool tip option. When the cursor is moved to any of the field in the screen, a popup is displayed with a tip on the action to be performed.

1.8 Accessibility

1.8.1 Understanding Accessibility

Accessibility is making the application usable for multiple user groups, which includes users with physical challenges. One of the most important reasons to make the application accessible is to provide them the opportunity to work. The four main categories of disabilities are visual, hearing, mobility and cognitive.

A person with disability might encounter one or more barriers that can be eliminated or minimized by making the electronic information user-friendly and approachable.

1.8.2 Application Accessibility Preferences

Oracle Financial Services Lending and Leasing is facilitated with the feature of Accessibility to make the application more usable for the people who are differently abled. You can set the accessibility preferences after login. On the landing screen using 'Accessibility' link on the right end of the header set the following preferences as required

Screen Reader

Screen reader provides assistance to the visually impaired users. It interprets the screen elements by reading them aloud.

High Contrast

High contrast feature increases contrast level to make the screen more appealing for the reader with low vision.

Large Fonts

Large fonts feature increases font size to ensure clear display and appropriate spacing. This benefits the reader with low vision.

1.8.2.1 For Visual Challenges

The visual challenges varies widely, however it generally includes, blindness, low vision or color blindness. To make the application more accessible, following features are provided.

Blindness:

In order to interpret the visual display information in the audible form, Screen reader compatibility is provided.

In places where Screen reader technology cannot obtain information from images, text equivalents for images are provided.

For Users with difficulty in using mouse, since it requires hand and eye coordination, Keyboard navigation is provided. Details of keyboard navigation is provided in '*Section 1.8.3.2 Keyboard Compatibility*'.

Low vision:

For Users who cannot view the content that has small font size and cannot be enlarged, Software magnifier is provided to enlarge text and images beyond normal font enlargement.

Also, there is no information presented using attributes such as depth, size, location, font etc.

For high contrast requirements Screen setting can be adjusted.

Color blindness:

Oracle Accessibility guidelines have been followed and hence accessibility issues relating to color blindness are addressed.

Also, high contrast colors have been used to address difficulty in identifying shades of colors. For example, Black text in white background.

1.8.2.2 For Hearing Challenges

People with hearing challenges or hard of hearing might encounter problems accessing the information presented using sounds. Some application features minimize their concerns.

Visual representations of audible information is provided so that Users with this challenge do not miss information presented using audio.

1.8.2.3 For Age-related Challenges

Apart from the above, there can be aging issues like weak eye-sight or hearing.

Issues related to weak eyesight can be addressed through Application features for Visual Challenges provided in '*Section 1.8.2.1 For Visual Challenges*'.

Issues related to hearing can be addressed through Application features for hearing challenges provided in '*Section 1.8.2.2 For Hearing Challenges*'.

For Users who are less familiar with computers, the simplified user interface with easy navigation options, uniform layout and design and commonly used terminology in the application is of great advantage.

To address issues relating to understanding complex information, User manuals are provided for online help and tool tips at all required places are provided. In addition, system messages like error, warning or information helps you through.

1.8.3 Other Accessibility Considerations

1.8.3.1 Documentation Accessibility

Apart from assigning the logical sequence and organizing topics, the following techniques are used to enhance the accessibility of documentation.

- Addition of text equivalent to all graphics

- Usage of standard fonts and avoiding shadow or reversed text
- Usage of strong foreground and background color contrast
- Color usages as per Oracle Accessibility guidelines have been ensured
- Usage of styles and formatting elements
- Documentation in simple language to ensure easy understanding
- Including accurate and effective navigational features, such as cross-reference, tables of content and bookmarks as appropriate

1.8.4 **Setting up Accessibility Preferences**

You can setup or change the accessibility preferences.

To edit accessibility settings

1. Click Accessibility in the header part of application. The system displays the following screen:

2. Select any or all of the required options to edit or change the accessibility settings.
3. Click Submit.

Note

You need to define the required Settings for each browser session and defined settings are saved until next modification.

2. Search Function

Oracle Financial Services Lending and Leasing allows you to search for an account, customer or application using specific search criteria. Since this section details the general search options available in the User Interface, some or all the parts of this section are applicable to you as per access provisions & licensing. The following sections explain the Search options in detail.

2.1 Search Criteria

Search criteria has a list of parameters which enables to query the application / account from the database by providing one or more parameter values. There are 15 parameters whose values can be specified in combination with comparison operators which are described in the table below. The Reset button enables to clear the comparison values for a fresh search. Apart from this, Search can also be performed using wild card characters.

Description	Example Expression
LESS THAN	APPLICATION DATE < 01/22/2002 Result: The system searches for all applications created before Jan. 22, 2002.
LESS THAN OR EQUAL TO	APPLICATION DATE <= 01/22/2002 Result: The system searches for all applications created on or before Jan. 22, 2002.
EQUAL	APPLICANT SSN = 111-22-3333 Result: The system searches for all applications with applicant social security number 111-22-3333.
NOT EQUAL	APPLICANT SSN <> 111-22-3333 Result: The system searches for all applications except those with an applicant whose social security number is 111-22-3333.
GREATER THAN	APPLICATION DATE > 01/22/2002 Result: The system searches for all applications created after Jan. 22, 2002.
GREATER THAN OR EQUAL	APPLICATION DATE >= 01/22/2002 Result: The system searches for all applications created on or after Jan. 22, 2002

Description	Example Expression
IN	ACCOUNT NUMBER IN ('20001000012512', '20010100012645', '20010300012817') IN is used with values that are within parenthesis. Result: The system searches for the applications with the account numbers of '20001000012512', '20010100012645', and '20010300012817'.)
NOT IN	ACCOUNT NUMBER NOT IN ('20001000012512', '20010100012645', '20010300012817') NOT IN is used with values that are within parenthesis. Result: The system searches for all applications except those with the account numbers of '20001000012512', '20010100012645', and '20010300012817'.)
IS	VIN IS NULL IS is only used with a value of "NULL". It enables you to search for criteria that has no value; that is, fields where no information is present. Result: The system searches for all applications without a vehicle identification number.
IS NOT	VIN IS NOT NULL IS NOT is only used with a value of "NULL". It enables you to search for criteria that has any value; that is, fields where information is present. Result: The system searches for all accounts with a VIN, vehicle identification number.
LIKE	ASSET TYPE LIKE VEH% LIKE enables you to search for close matches using wildcard characters. Result: The system searches for all applications with asset type beginning with the characters "veh" such as "vehicle car" or "vehicle van."
NOT LIKE	ASSET TYPE NOT LIKE VEH% NOT LIKE enables you to search for close matches using wildcard characters. Result: The system searches for all applications with asset type other than those starting with the characters "veh."

Using Wildcard Characters

- Wildcard characters can only be used with the operator LIKE and NOT LIKE.
- % (percent) represents any number of characters, including no characters.
- _ (underline) represents any single character.

Using Criteria Value

Search criteria values of **1234%** will locate character strings of any length that begin with **"1234"** for example,

- **1234ACB**
- **12345678**

- 1234
- **12348**
- **1234**0980988234ABIL230498098

Search criteria values of **1234_** will locate character strings of five characters that begin with “**1234**” for example,

- **12345**
- **1234A**
- **12340**

Search criteria values of **%1234** will locate character strings of any length that end with “**1234**” for example,

- 1234
- **01234**
- 098908LKJLJLKJ00098807**1234**

Search criteria values of **_1234** will locate five character strings that end in “**1234**” for example,

- **A1234**
- **11234**

Search criteria values of **%1234%** will locate character strings of any length that contain “**1234**” for example,

- 1234
- **01234**
- **12340**
- AKJLKJ**1234**128424

Search criteria values of **_1234_** will locate character strings of 6 characters that *contain* “**1234**” for example,

- **A1234B**
- **012341**
- **A12341**

Using Search Criteria examples

Result: The system searches for all applications with application date May 1, 2001.

Criteria	Comparison Operator	Value
APPLICATION DATE	EQUAL	05/01/2001

Criteria	Comparison Operator	Value
APPLICATION DATE	EQUAL	05/01/2001
APPLICATION NUMBER	GREATER THAN OR EQUAL	0000000278

Result: The system searches for all applications with application date May 1, 2001 and an application number greater than or equal to 0000000278.

Criteria	Comparison Operator	Value
FIRST NAME	EQUAL	JAN

Result: The system searches for all applications with applicant whose first name is “JAN”

- JAN ARBOR
- JAN FISHER

Criteria	Comparison Operator	Value
FIRST NAME	LIKE	JAN%

Result: The system searches for all applications with applicant’s first name starting with “JAN”

- JAN ARBOR
- JAN FISHER
- JANE MEYERS
- JANETTE NORDSTROM

2.2 Searching for an Application

Oracle Financial Services Lending and Leasing allows you to search and retrieve a particular application.

During application entry, queues can be created based on your user id and your user responsibility. You can view the assigned queues in the Origination screen of DashBoard.

In each stage of application, the queue name to which the selected application is assigned, appears in Queue name field in Result screen.

You can begin processing the applications in the order in which they are listed. Select the record and click **Submit**.

2.2.1 Search tab

To view the Search screen during Lease origination

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Origination** master tab.

Depending on the task to be performed and the link clicked, the respective screen opens in the Results screen.

The screenshot shows the Oracle Financial Services Lending and Leasing application interface. The top navigation bar includes the Oracle logo, the text "Financial Services Lending and Leasing", and user information: "Welcome, DEMOSUPR", "Accessibility", and "Sign Out". The left sidebar shows the "Origination" master tab selected, with a sub-menu including "Sales Lead", "Simple Application Entry", "Application Entry", "Underwriting", "Funding", "Application Retrieval", "Scenario Analysis", "Application Documents", "Image Maintenance", "Reports", "Producers", and "Vendors". The main content area is titled "Origination" and has tabs for "Result/Task", "Application Entry", "Search", and "Review Requests (Pending: 0)". The "Search" tab is active, showing a "Quick Search" section with input fields for "App #", "SSN", and "Identification #", and a "Submit" button. Below this is a "Queue" section with a dropdown menu and a "Next Application" button. The "Search Results" section displays a table with columns: "Lod Allo Company", "Branch", "App #", "Date", "Title", "Product", "Status", and "Sub Status". The table contains 14 rows of application data. At the bottom of the table, it says "Columns Hidden 1".

Lod Allo Company	Branch	App #	Date	Title	Product	Status	Sub Status
DEMO COMPAN FIN1		0000001017	02/18/2014	JASON PAUL	AUTO LEASE	NEW	REVIEW REQUIRE

T-BANK	T-BANK	0000001134	02/19/2015	DICKENSON ROGER	AUTO LEASE	NEW	REVIEW REQUIRE

2. Click the **Search** tab.

The screenshot shows the Oracle Financial Services Lending and Leasing application interface. The top navigation bar includes the Oracle logo, the text "Financial Services Lending and Leasing", and user information: "Signed in as DEMOSALES", "Accessibility", and "Sign Out". The left sidebar shows the "Origination" master tab selected, with a sub-menu including "Sales Lead", "Simple Application Entry", "Application Entry", "Underwriting", "Funding", "Application Retrieval", "Scenario Analysis", "Application Documents", "Image Maintenance", "Reports", "Producers", and "Vendors". The main content area is titled "Origination" and has tabs for "Result/Task", "Application Entry", "Search", and "Review Requests (Pending: 0)". The "Search" tab is active, showing a "Search Criteria" section. It includes a "View" dropdown, a "Format" dropdown, and buttons for "Freeze", "Detach", "Wrap", and "View All". There is also a "Reset Criteria" button and a "Search" button. The search criteria table has columns: "Criteria", "Comparison Operator", "Enter/Select the Value", and "Value". The table contains 14 rows of search criteria.

Criteria	Comparison Operator	Enter/Select the Value	Value
APPLICATION #	LIKE		
APPLICATION DT	GREATER THAN OR EQUAL		
APPLICATION STATUS	LIKE		
APPLICATION SUB STATUS	LIKE		
UNDERWRITER	LIKE		
PRODUCT	LIKE		
APPLICANT LAST NAME	LIKE		
APPLICANT SSN	EQUAL		
VIN	LIKE		
YEAR	EQUAL		
MAKE	LIKE		
MODEL	LIKE		
ASSET TYPE	LIKE		
PRODUCER #	LIKE		
PRODUCER NAME	LIKE		

The search tab enables you to locate an application using a broad range of search criteria.

- During Lease origination, the results are sorted according to the priority of application and application identification number. However you can sort the records using any criteria.

- If you try to open an application which is already opened by another user, system displays an alert message indicating “Application is locked by <User Name> Phone <phone number>”.

The Results screen.

3. On the **Results** screen, select the application you want to load and click **Open Application**.

The system loads the application on the respective screen.

You are now ready to begin work on the application.

2.2.2 Quick Search section

Quick Search enables to search for an account using any one of the following values - Account Number, Customer ID, SSN, Identification Number or Queue.

To load an account using the Quick Search section:

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing** master tab.
2. In the Quick Search section's Acc # field, specify the account number you want to load and click **Submit**.

You can also load the account by specifying the last 4 digits of the SSN Number. System retrieves only those accounts where the searched SSN is of the Primary Applicant. If multiple matches are found, system displays an error message as 'Multiple Matches found for the SSN, Please use normal Search'.

Note

Search cannot be performed using wild card characters in the Quick Search section.

The system loads the selected application.

To load an account from a queue during application entry

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing** master tab.
2. In the Quick Search section's **Queue** field, select the queue you want to work with and click **Next Account**.

2.2.2.1 Other Features on the Results screen

The Results screen on the Applications screen has below listed common features (these features are not present on the Result screen on Customer Service screen):

What is it?	What does it do?
View All	If you select View All check box, all applications in the system accessible with your user id appear in the Results screen under search section.
Queue Name field	This display only field indicates the queue in which the selected application is currently in. (This is normally related to one or more of the following, based on setup: producer, state, or status.)
Secured box	Indicates that the selected application is secured (that is, that the applicant is an employee of the organization) and may only be loaded by authorized users.
Copy Application button	Creates a copy of the selected application. This feature is usually used when an applicant has submitted a previous application or when an applicant submits a second application and you don't want to retype the information.
New Application	Opens a screen where a user can create a new application by providing required details.
Open Application	Displays the application details for the selected application.

What is it?	What does it do?
Unlock Application	Unlocks the selected application locked by another user.

2.2.2.2 Copying an Application

Once the application clears the pre-qualification edits successfully, it moves to the underwriting queue. In the Underwriting/Funding screen, you can copy the information of an existing application into a new application. using Results screen. The new application will contain duplicated data of application information, the requested Lease information, credit bureau data, and collateral information. The new application will have status/sub status as NEW - REVIEW REQUIRED.

To copy an application

1. Open the **Underwriting/Funding** screen and use **Search** screen to locate the application you want to copy.
2. Select the application you want to copy on the **Results** screen.
3. Click **Copy Application**.

2.2.2.3 Unlocking an Application

When an application is opened by a user, the same would be locked for other users. Using Results screen in the Applications screen user can unlock the application.

To unlock an application

1. Open **Applications Entry** screen and use **Search** screen to locate the application you want to work with.
2. On **Results** screen, select the application you want to load and click **Submit**.

An Information message appears with the message: "An application is locked by another

user.”

3. Click **Unlock Application**.
4. Click **Open Application**. The system loads application on the Underwriting screen.

2.2.2.4 View Application

The **View Application** button is available in all origination screens (Application Entry, Underwriting and Funding). You can view a selected application in the search results by clicking on the **View Application** button even when the application is locked by another User.

The application will be opened in 'View Mode' only and no edits are allowed. However in Tools sub tab, the 'Initialize' and 'Calculate' buttons will be enabled allowing you to use the calculator options.

2.3 Searching for an Account and Customer

You can search or retrieve a particular account or customer through Customer Service screen. The search tab available in the screen enables you to locate an account or customer using a broad range of search criteria.

To view the Search screen during Lease servicing

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing** master tab.
2. If you want to perform a **customer service** task on the application, click **Customer Service** link.

Depending on the link clicked, Customer Service screen appears, opening at Results screen.

3. Click the **Search** tab.

Using the Search tab

1. Create a search criteria by specifying the required details in **Comparison Operator** and **Value** columns.
2. Click **Search**. System displays all accounts that meet the search criteria in the Results tab.
3. On the **Results** screen, select the account you want to load and click **Open Account**.

The system loads account on Customer Service screen.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The interface is divided into a sidebar on the left and a main content area. The sidebar contains navigation links for Dashboard, Origination, Servicing, and Collections. The main content area displays account details for 'Customer Service: 20141000017954' and 'PATIL SHALINI'. The account details section includes a table for 'Summary' with columns for Company, Branch, Account #, Product, Days Past Due, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. Below this, there are sections for Alerts, Conditions, Delinquency Information, Activities, Due Date Change, Extensions, Collateral Information, Customer Information, Address Information, Employment Information, and Telecom Information. A 'Quick Search' panel is visible on the right side of the screen, allowing users to search for accounts by Account Number, Customer Id, SSN, Identification Number, or Queue/Condition.

2.3.1 Quick Search section

The Customer Service screen has a Quick Search section under Results tab. The Quick Search section enables you to load accounts using any one of the fields Account Number, Customer Id, SSN, Identification Number or Queue/Condition.

To load an account using the Quick Search section

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing** master tab.
2. If you want to perform **customer service** task on the application, click **Customer Service**.

3. In the Quick Search section's **Acc#/Customer Id/SSN** fields, specify the corresponding Account number, or Customer Id, or last four digits of SSN or complete SSN in the respective fields and click **Submit**.

4. When the request to access an application comes from an external system, user needs to check 'Auto Run' and click 'Next' button. System displays the customer service screen for the respective Account.

To load an account from a queue

In the Quick Search section's **Queue** field, select the queue you want to work with and click **Next Account**.

2.3.2 Search Using Customer Details

There are different ways to search a customer account using the customer details.

To search for and load the customer details with the Search screen

On the Oracle Financial Services Lending and Leasing home screen, click **Servicing** → **Servicing** → **Customer Service** → **Search**

Select **Customer** as a search option. .

Customer Service

Results: Customer Service: 20130800010226 Search Review Request (Pending: 0)

Search Options: Account Customer

Search Criteria

Criteria	Comparison Operator	Value
CUSTOMER ID	LIKE	
CUSTOMER FIRST NAME	LIKE	
CUSTOMER LAST NAME	LIKE	
CUSTOMER SSN	EQUAL	
CUSTOMER NATIONAL ID	LIKE	
CUSTOMER PASSPORT NUMBER	LIKE	
CUSTOMER PHONE NUMBER	EQUAL	
CUSTOMER ZIP CODE	LIKE	

1. On **Search Criteria** screen, use **Comparison Operator** and **Value** columns to create a search criteria to find the account using customer details. You can click **Reset Criteria** at any time to clear the **Comparison Operator** and **Value** columns.
2. Click **Search**.

The system locates and displays all the accounts that meet your search criteria on **Results** screen.

3. On the Results screen, view the following information:

Field	View this:
Customers section	
Customer Id	The customer identification number.
National Id	The national identification number (for non US members).
First Name	The customer's first name.
Last Name	The customer's last name.
SSN	The customer SSN number (for US members only).
Passport #	The customer's passport number.
Zip	The zip code of the customer.
Accounts section	
The account section will display the list of accounts for the customer selected.	
Company	The company of the account.
Branch	The branch of the account
Account #	The account number.
Product	The product for the account.
Status	The account's status.
Currency	The currency for the account.

Field	View this:
Payoff Amt	The current payoff amount for the account.
Amount Due	The current delinquent amount due for the account.
Oldest Due Dt	The oldest due date.
Type	The account type.

- On the **Results** screen, select the customer you want to retrieve. The system displays all the accounts pertaining to that customer Id. Select an account and click **Open Account**.

The system displays the account details on **Customer Service** tab.

2.3.3 Search Using Account Details

To search for and load an account using the **Search** screen

On the Oracle Financial Services Lending and Leasing home screen, click **Servicing** → **Servicing** → **Customer Service** → **Search**

- Select **Account** as a search option.

The screenshot displays the Oracle Financial Services Lending and Leasing application interface. The top navigation bar includes the Oracle logo, user information (Signed in as DEMOSALES), and links for Accessibility and Sign Out. The left sidebar shows a tree view with categories like Dashboard, Origination, and Servicing. The main content area is titled 'Customer Service' and features a 'Search' tab. Below the tab, there's a 'Search Criteria' section with a table for defining search parameters. The table has three columns: 'Criteria', 'Comparison Operator', and 'Value'. The 'Criteria' column lists various fields such as ACCOUNT #, ACCOUNT STATUS, PRODUCT, CUSTOMER SSN, CUSTOMER LAST NAME, CUSTOMER FIRST NAME, CUSTOMER ID, VIN, YEAR, MAKE, MODEL, ASSET TYPE, PRODUCER #, PRODUCER NAME, ACCOUNT CONDITION, QUEUE NAME (UNDEFINED FOR DEFAULT), and QUEUE DESCRIPTION. The 'Comparison Operator' column has dropdown menus for each criterion, with 'LIKE' selected for most. The 'Value' column has text input fields for each criterion. At the top right of the search area, there are radio buttons for 'Account' (selected) and 'Customer', along with 'Reset Criteria' and 'Search' buttons.

- On the **Criteria** screen, use the **Comparison Operator** and **Value** columns to create a search criteria to find an account. You can click **Reset Criteria** at any time to clear the **Comparison Operator** and **Value** columns.
- Click **Search**.

The system locates and displays all the accounts that meet your search criteria on Results screen.

3. Dashboards

3.1 Introduction

This document is designed to help acquaint you with the features of Dashboard, on the landing screen of Oracle Financial Services Lending and Leasing. Information from multiple products is integrated and displayed as Dashboard on home screen of the application.

This manual explains the functionality of Dashboard facility and various Dashboards present in the system. Since this section details the general dashboard options available in the User Interface, some or all the parts of this section are applicable to you as per access provisions & licensing. Besides providing these details, the manual also provides a brief description of other features associated with Dashboard link. The Dashboard main Menu further provides links to the following screens:

- Dashboard
- Users Productivity
- System Monitor
- Producer Analysis

3.2 Dashboards

Dashboards are the tiny windows displayed on landing screen of the Application. Dashboard renders quick and crisp information of specific transactions or tasks mapped to the 'User Role', who logs on to the system.

The system facilitates integration of Information from different levels and displays it as Dashboard on home screen, also called the landing screen of the application.

Navigating to Dashboards

Click **Dashboard** → **Dashboard** → **Dashboard**.

Features

Following are the features of Dashboard:

- The system organizes Dashboards to provide comprehensive and consolidate snapshot in tiny windows, to access information easily. Thus, helping to; analyze, monitor and make better decisions which in turn help save time and cost.
- The screen is designed to display six Dashboards, distributed in two rows with three Dashboards per row, without scroll bars.
- The height and width of all Dashboards are fixed; however, you can expand or collapse the Dashboards. Click the arrow heads at the top left corner of the Dashboard windows to expand or collapse the dashboard windows.
- Each section in Dashboard is hyperlinked to home screen of the respective section. The main screen will present descriptive information of details shown in Dashboard only.

3.3 User Productivity

Oracle Financial Services Lending and Leasing User Productivity Setup screen is a supervisor feature that allows you to monitor the daily performances of users completing Lease origination and servicing tasks.

These tasks are categorized as customer service/collection tasks. The system updates these details on daily basis.

Using the User Productivity Setup screen, you can review the following daily tallies:

- Number of accounts worked and call activities, by user
- Number of accounts worked and call activities, by queue

This chapter explains how to use the User Productivity Setup screen to view this information.

Navigating to User Productivity Screen

1. On the Oracle Financial Services Lending and Leasing home screen, click **Dashboard →Dashboard →User Productivity**.
2. The system displays the User Productivity screen. You can view the tasks related to:
 - Underwriting/Funding
 - Customer Service/Collection

3.3.1 Viewing the Customer Service/Collection tasks

Daily tallies from the Customer Service module appear on screens opened from the following tabs on User Productivity Screen:

- Collector Activity
- Queues Status

3.3.1.1 Collector Activity

The Collector Activity screen displays the number of accounts worked and call activities by collector for the day. It also displays details regarding calls and total number of calls per queue.

To use the Collector Activity

1. Click **Dashboard →Dashboard →User Productivity →Collector Activity**. The details on this screen are grouped into two:

- Users
- Activity Details

2. In the Users section, you can view the following information.

A brief description of the fields is given below:

Field:	View this:
User	Displays the user code.
Name	Displays the user name.
Accounts	Displays the number of accounts worked.
Call Activities	Displays the number of call activities.

3. In the Activity Details section, you can view information for the selected user. A brief description of the fields is given below:

Field:	View this:
Queue Name	Displays the queue name.
Left Messages	Displays the left message activity count.
Promise To Pay	Displays the promise to pay activity count.
No Answer	Displays the no answer activity count.
Other	Displays the other activity count.
Total	Displays the total activity count.

3.3.1.2 Service/Collection Queues

The Service/Collection Queues Status tab displays daily information regarding queues, such as the number of accounts worked, number of call activities, number of accounts pending, and totals number of accounts in the queue. It also displays information about the users who worked on these queues and details of the call activities.

To use the Queues Status tab

1. Click **Dashboard** → **Dashboard** → **User Productivity** → **Service/Collection Queues** tab. The details are grouped into two:
 - Service/Collection Queues
 - Activity details
2. In the Service/Collection **Queues** section, you can view the following information.

A brief description of the fields is given below:

Field:	View this:
Company	Displays the company name.
Branch	Displays the branch.
Queue Name	Displays the queue name.
Accounts	Displays the number of accounts worked.
Activities	Displays the number of call activities.
Pending	Displays the number of accounts pending.
Total	Displays the number of total accounts.

In the Activity Details block, you can view information for the selected queue. A brief description of the fields is given below:

Field:	View this:
User	Displays the user code.
Name	Displays the user name.
Left Messages	Displays the left message activity count.
Promise To Pay	Displays the promise to pay activity count.
No Answer	Displays the no answer activity count.
Other	Displays the other activity count.
Total	Displays the total activity count.

3.4 System Monitor

The System Monitor screen is the one stop place to check all the activities in and around the system. It maintains the progress of;

- Batch Jobs
- Jobs
- Services
- Database Server Log Files
- Parked Transactions
- Users

Navigating to System Monitor

On the Oracle Financial Services Lending and Leasing home screen, click **Dashboard** → **Dashboard** → **System Monitor**.

3.4.1 Monitoring Batch Jobs

The system tracks the success of each batch process on the Batch Job. If either a set of batch jobs or specific batch job should fail, you can resubmit it on this screen and review the results in Request Details section.

The Monitor Batch Jobs screen is only a display screen that contains the following sections:

- Batch Job Sets
- Batch Jobs
- Batch Jobs Threads
- Request Details
- Request Results

To Monitor Batch Job

1. Click **Dashboard** → **Dashboard** → **System Monitor** → **Batch Jobs**.

2. In the **Batch Job Sets** section, you can view the following information

Tools
Setup

A brief description of the fields is given below:

Field:	View this:
Set Code	Displays the code for batch job set.
Job Set Description	Displays the description for batch job set.
Status	Displays the job set status.
Frequency Code	Displays the frequency at which the job set is to be executed.
Frequency Value	Displays the value of frequency code chosen for the job set.
Start Time	Displays the start time for the job set.
Enabled	Displays if the job set is enabled or not.
Critical	Displays if this job set is critical or not.
Last Run Dt	Displays the date of last run of the job set.
Next Run Dt	Displays the next run date for job set.
Parent	Displays the preceding job set.
Dependency	Displays the type of dependency on predecessor.

To resubmit a batch job set

Whenever a batch job set fails, it is best to resubmit it after correcting the errors that caused the failure. Resubmitting a set causes system to re-perform the batch job set and dependent batch jobs.

- In the **Batch Job Sets** section, choose the batch job set to resubmit (only a batch job set with a status of FAILED can be resubmitted), then click **Resubmit Job Set** button.

The **Batch Jobs** section lists the batch jobs within a job set. The status, threads, commit count, dependencies, enabled indicator and the holiday and weekend runtime indicators are shown for each job.

A brief description of the fields is given below:

Field:	View this:
Seq	Displays the batch job sequence number.
Job Type	Displays the batch job request type.
Job Code	Displays the batch job request code.
Status	Displays the job status.
Job Description	Displays the batch job description.
Threads	Displays the number of threads used by the job.
Commit Count	Displays the number of rows after which auto-commit is triggered.
Errors Allowed	Displays the number of errors allowed.
Weekend	Displays if the batch job will execute job on weekend or not.
Holiday	Displays if the batch job will execute job on a holiday or not.
Enabled	Displays if the job is enabled or not.
Parent	Displays the preceding job.
Dependency	Displays the type of dependency on predecessor.
Command	Displays the command line for the job.
Rollback Segment	Displays the rollback segment for job.

To resubmit a batch job

Whenever a batch job fails, it is best to resubmit it after correcting the errors that caused failure. Resubmitting a set will cause system to re-perform the batch job.

- In the **Batch Jobs** section, choose the batch job to resubmit (only a batch job with a status of FAILED can be resubmitted), then choose **Resubmit Job Set**.
- The **Batch Job Threads** section displays the status of individual threads.

A brief description of the fields is given below:

Field:	View this:
Thread	Displays the name of thread.
Status	Displays the status of thread.

Field:	View this:
Errors	Displays the number of errors in the thread.
Records	Displays the number of records in the thread.
Trace Level	Displays the SQL trace level (0, 1, 4, 8, 12).
Enabled	Displays if the job thread is enabled or not.

The **Request Details** section displays the status and runtimes for each time the selected job ran.

A brief description of the fields is given below:

Field:	View this:
Request Type	Displays the job request type.
Status	Displays the job request status.
Start Dt	Displays the job request is valid from this date and time.
End Dt	Displays the job request is valid till this date.
Run Start Dt	Displays the date and time on when the job run started.
Run End Dt	Displays the date and time at which the job run ended.
Process Dt	Displays the transaction is posted with this General Ledger effective date.
Description	Displays the job request description.

If a particular job requires that a result message be created, then that message appears in the Request Results section. A message is usually created in the event of an error.

A brief description of the fields is given below:

Field:	View this:
Request Results	Displays the result of job request.
Description	Displays the result details.

3.4.2 Monitoring Jobs

The Monitor Jobs screen provides another view of monitoring all system processes, including credit bureau requests and payment posting. This screen displays the data in reverse chronological order of the Run Start Date/Time, whereas the Monitor Batch Jobs screen provides the historical data about each job and job set.

To Monitor Job Details

1. Click **Dashboard** → **Dashboard** → **System Monitor** → **Jobs**.
2. On the **Job** screen, select the type of jobs you want to view in the Job Details section. You can select any of the following jobs:
 - Batch

- Back Ground
- Credit Request

A brief description of the different jobs available is given below:

Select:	System Displays:
Batch	Batch jobs (used primarily for the nightly processes).
Back Ground	User submitted requests, such as reports and payment posting.
Credit Request	Credit bureau requests.

3. In the **Job Details** section, select the time frame of the contents of **Job Details** section. You can select any of the following options:

Select:	System Displays:
1 Day	All the types of jobs selected in Jobs Type section in last one-day.
2 Days	All the types of jobs selected in Jobs Type section in last two days.
5 Days	All the types of jobs selected in Jobs Type section in last five days.
All Days	All the types of jobs selected in Jobs Type section.

4. If you select **Failed** option in the **View** section, the system displays failed jobs on the type and time frame you have selected.
5. In the **Job Details** section, you can view the following information about jobs matching the contents of Job Type, View Last and Failed boxes:

A brief description of the fields is given below:

Field:	View this:
Request Type	Displays the job request type.
Status	Displays the job request status.
Job Set	Displays the job set code.
Job	Displays the job description.
Thread	Displays the job thread.
Errors	Displays the number of errors.
Records	Displays the number of records processed by the job.
Run Start Date/Time	Displays the job run start date time.
Run End Date/Time	Displays the job run end date time.
Description	Displays the job request description.
Process Dt	Displays the job process date.
Valid Execution Period	
Start Date/Time	Displays the job start date/time.
End Date/Time	Displays the job end date time.

6. In the **Job Results** section, you can view the following information about the Job selected in Job Details section:

A brief description of the fields is given below:

Field:	View this:
Request Type	Displays the job request type.
Description	Displays the job request description.

3.4.3 Monitoring Services

The Services screen allows you to track and maintain the system's processing services, including credit bureaus, fax-in and batch job scheduler. The system administrator can start or stop the service on this screen using the action buttons respectively.

To stop, start or refresh a processing service

1. Click **Dashboard** → **Dashboard** → **System Monitor** → **Services**.

2. In the **Services** section, you can view the following information about the system's processing services:

A brief description of the fields is given below:

Field:	View this:
Service	Display the service name.
Company	Display the service company.
Branch	Display the service branch.
Description	Display the service description.
Status	Display the service status.

3. In the **Action** section, select the processing service you want to work with and choose one of the following commands in **Action** section.

Choose:	System:
Status	Refreshes (updates) the status of service. The Service screen does not update the status in real time. You must choose Status after choosing Start or Stop to perform that command.
Start	Starts the job service.
Stop	Stops the job service.

3.4.4 Data Server Log Files

Various processes in the system create reports in different log files with regards to what tasks they performed and what they encountered (for example, errors, failures, erroneous data and

so on). The Database Server link lists and describes all such log files within the system on the database server.

To view a log file on the database server

1. Click **Dashboard** → **Dashboard** → **System Monitor** → **Database Server Log Files**.
2. In the **Database Server Log Files** section, click **List Files**.

3. Then in the **Database Server Log Files** section, you can view the following information. A brief description of the fields is given below

Field	View this:
File Name	Displays the name of file.
File Type	Displays the type of file.
File Size	Displays the size of file.
File Time	Displays the time stamp of file.

4. In the **File Content** section you can view the content of the file selected in the **Database Server Log Files**.
5. Click **Show File**. A File Download - Security Warning dialog box is displayed with the confirmation message "Do you want to save this file?"
6. Click **Save**.
7. In **Save As** dialog box, select the location you want to save the file, and click **Save**.

3.4.5 Monitoring Users

The Users Logins section allows you to view all users who have logged on to the system, along with the log on time stamp and logout time stamp. The information appears in reverse chronological order of the log on time stamp.

To monitor users who have logged on to the system

1. Click **Dashboard** → **Dashboard** → **System Monitor** → **Users**.
2. In the **User Logins** section, you can view the following information

A brief description of the fields is given below:

Field:	View this:
User	Displays the user ID.
User Name	Displays the user name.
Details	Displays the details.
Login Date and Time	Displays the login date time for the user.
Logout Date and Time	Displays the logout date time for the user.

3.5 Producer Analysis

The Producer analysis screen enables you to view and know the status of all applications sourced by different Producers.

Click **Dashboard** → **Dashboard** → **Producer Analysis**.

Select Criteria

You can filter the producer search details based on any or all of the following criteria:

- Company
- Branch
- Region
- Territory
- Sales Agent
- Underwriter
- Funder
- Status
- Zip

You can select the required values from the adjoining drop-down list and click **Submit** . System displays the Producer details satisfying the criteria, you selected.

The Producer Analysis screen is further categorized into two sections (left and right panels) to support various details depending on the selection criteria. The left Panel consists of two tabs, Producers and Territories.

Producers

In the Producers Tab, you can use search option to search for a producer by name. Enter the producer name and click  button. You can also search for all the producers maintained in the system by doing a blank search.

Based on criteria specified, all the matching records are listed in alphabetical order and the producers sales metrics for the first selected record (by default), is displayed in the right panel through following tabs. Also the current status of the producer and contact information is displayed on the top.

3.5.2.1 **Activity Tab**

The activity tab displays all the applications processed by the producer as per the following categorization.

Recent Activity

This section displays the following information:

- Last Funded - Date on the which the recent application was funded.
- Approved - Total number of applications approved, but not funded in last 30 days.
- Funded - Total number of applications funded in last 30 days.
- Comments - Total number of producer comments added in the last 30 days.

Recently Approved Applications

This section displays the first 10 credit applications which have been approved, but not funded in last 30 days along with their applicant name, application number, amount and collateral description details.

Recently Funded Applications

This section displays the first 10 credit applications which have been approved and funded in last 30 days along with their applicant name, application number, amount and collateral description details.

Recent Comments

This section displays the first 10 application comments of the total comments added in the last 6 months with their date and comment description.

3.5.2.2 **Volume Tab**

The volume tab provides a graphical (bar chart) representation of volume metrics.

Volume Metrics

You can filter the metrics data to be displayed based on Credit Amount or Units Sold by selecting **Amt** or **Units** radio button respectively.

The table in volume metrics section displays the following details:

- Time Frame - This consists of the following two specific time frame of records.
 - MONTH TO DATE: Indicates the total applications processed in the current month till date.
 - CURRENT PACE: Indicates the speed at which the applications are being processed by calculating the total applications submitted against elapsed days of the month.
- Submitted - Indicates the ratio of total requested amount per units (applications) submitted for processing.
- Approved - Indicates the ratio of total financed amount per units (applications) approved but not funded.
- Funded - Indicates the ratio of total contract amount financed per units (applications) funded.

You can further sort the display of metrics data based on applications submitted or approved or funded against time, i.e. MTD (month to date) or 6M (6 months) or 6Y (6 years). By default, "Submitted" and "6M" options are selected.

3.5.2.3 **Mix Tab**

The mix tab provides a graphical (bar chart) representation of mix of business metrics.

Mix of Business

You can filter the metrics data to be displayed based on Credit Request Percentage or Units Sold by selecting **Percentage** or **Units** radio button respectively.

The table in volume metrics section displays the following details:

- Time Frame - This consists of the following two specific time frame of records.
 - MONTH TO DATE: Indicates the total applications processed in the current month till date.
 - PREVIOUS MONTH: Indicates the total applications processed in the previous month.
- Tier 1 - Total of applications processed in first slab.
- Tier 2 - Total of applications processed in second slab.
- Tier 3 - Total of applications processed in third slab.

You can further sort the display of metrics data based MTD (month to date) or 6M (6 months) or 6Y (6 years) of which "6M" is selected by default.

3.5.3 **Territories**

On selecting the Territories Tab, you can view the territory-wise producer sales metrics. Depending on the territory selected in 'Select Criteria' section, all the matching records are listed in alphabetical order with the total amount funded for the particular territory from beginning of the month till date. If you have selected multiple territories in the search criteria, then the cumulative total of amount funded for all the selected territories are listed under 'ALL' categorization.

The producer sales metrics for the first selected record (by default), is displayed in the right panel through following tabs.

3.5.3.1 **Portfolio**

The portfolio tab provides a graphical (bar chart) representation of territory-wise business metrics in term of volume i.e. total amount funded against date.

Portfolio Information

You can filter the metrics data to be displayed based on total number of **Actual** (only funded applications) or **Actual + In For Funding** (both submitted and funded applications) by selecting the appropriate radio buttons.

The table in Portfolio Information section displays the following details:

- Measurement - This consists of the following two specific records.
 - MONTH TO DATE: Indicates the total applications processed in the current month till date.

- TARGET: Indicates the total number of applications expected to be processed by the producer.
- Volume - Indicates the ratio of total amount funded to the total number of applications submitted.
- Percentage - Indicates the ratio of total amount funded against the target volume expected.

You can further sort the display of metrics data based on Volume or Percentage against time, i.e. MTD (month to date) or 6M (6 months) or 6Y (6 years). By default, “Volume” and “MTD” options are selected.

3.5.3.2 Volume

The volume tab provides a graphical (bar chart) representation of territory-wise volume metrics.

For more information, refer to ‘Volume Tab’ explained in Producers section.

3.5.3.3 Mix

The mix tab provides a graphical (bar chart) representation of territory-wise mix of business metrics.

For more information, refer to ‘Mix Tab’ explained in Producers section.

3.5.3.4 Ratios

The ratios tab provides a territory-wise graphical (bar chart) representation of different ratios of applications being processed by producers.

Ratios

The table in ratios metrics section displays the following details:

- Time Frame - This consists of the following two specific time frame of records.
 - MONTH TO DATE: Indicates the number of applications being processed in the current month till date.
 - PREVIOUS MONTH: Indicates the number of applications processed in the previous month.
- Look to Book - Indicates the ratio of funded applications against the total submitted for processing.
- Approval Ratio - Indicates the ratio of approved applications against the total submitted for processing.
- Cashout Ratio - Indicates the ratio of funded applications against the total approved.

You can further sort the display of metrics data based on the above ratios - LTB (Look to Book) or Approval or Cashout against time, i.e. MTD (month to date) or 6M (6 months) or 6Y (6 years). By default, “LTB” and “6M” options are selected.

3.5.3.5 Producers

The producers tab provides a territory-wise graphical (bar chart) representation of producer metrics.

Producer Metrics

The table in producer metrics section displays the following details:

- Time Frame - This consists of the following two specific time frame of records.
 - MONTH TO DATE: Indicates the number of producers processing applications in the current month till date.
 - PREVIOUS MONTH: Indicates the number of producers who have processed applications in the previous month.
- Submitting - Indicates the number of producers with a minimum of one submitted application for processing.
- Approving - Indicates the number of producers with a minimum of one approved application.
- Funding - Indicates the number of producers with a minimum of one funded application.

You can further sort the display of metrics data based on producers who have submitted or approved or funded applications against time, i.e. MTD (month to date) or 6M (6 months) or 6Y (6 years). By default, “Submitted” and “6M” options are selected.

4. Customer Service

4.1 Introduction

After an application has cycled through the Lease origination process, it becomes an account. Account maintenance and collections tasks can be performed with Oracle Financial Services Lending and Leasing's Customer Service screen.

The Customer Service screen enables you to view and manage all customer information in a centralized location to ensure data integrity and provide better service. Oracle Financial Services Lending and Leasing provides online real-time information about the applicant(s), contract, account balances, dues, transactions, call activities, and comments. Oracle Financial Services Lending and Leasing also supports back-dating of financial transactions till the account's opening date.

Activating an Account

An account is automatically activated when you fund the contract using Funding main tab or convert from a legacy system. You cannot activate an account using the Customer Service screen.

Posting and Reversing Payments

A payment can be posted and reversed on the Payments screen. You cannot post and reverse the payment in Customer Service screen. (For more information, see the **Payment Processing** chapter.)

Account Mask

After an application completes the Lease origination cycle and is funded or is ported into the system, it becomes an account and receives an account number. The system assigns account numbers using the following logic:

YYYYMMNNNNNNNX

where:

YYYYMM = contract date

NNNNNN = serial number

X = check digit

The system sorts accounts using the **NNNNNN** portion only. That portion is referred to as the account ID.

4.1.1 Quick Search section

Conditions and Queues

During the Lease application process, Accounts do not have sub statuses; instead, accounts use *conditions*. Conditions further define the status of an account; for example: delinquent, bankruptcy, scheduled for charge off, Do Not Charge Off. Conditions can be applied automatically by the system based on set up, and manually by the system users using Customer Service screen.

The system can assign accounts to specific users by way of *queues*. Queues are a work flow management tool that allow the users to work on accounts sequentially from a prioritized list, rather than having to manually search for and load them. Queues are created and sorted during nightly processing. Examples of customer service queues include due date change requests, delinquent accounts, deferment requests, and title and insurance follow-up.

Account conditions serve as default queues; that is, an account's condition determines which queue the account is in.

In the following example, account has a condition of DELINQUENT, noted in the Conditions section and Status field. The account was loaded from delinquent queue, DELQ (D).

A queue can be associated with only one condition. In the following example, the Delinquent queue is associated with the Delinquent condition. However, an account can have more than one condition, so an account can be in more than one queue. Multiple queues can be created for a single condition. Account attributes (such as number of days delinquent and product code) can be used for assigning accounts to a queue and sorting accounts within a queue.

You can quickly load an account from a queue using **Next Account** button in the **Quick Search** section.

4.2 Customer Service screen

Most of the screens on Customer Service screen contain Account(s) and Customer(s) sections as a header. The Account(s) section provides a quick overview of an account by displaying its company, branch, account number, product, payoff amount and amount due, status, and oldest due date. The information on Customer Service screen always refers to the account selected in this section.

The Customer(s) section displays information about customer(s) attached to the account. The information on Customer Service screen always refers to the customer selected in this section.

To view account details in Account(s) and Customer(s) sections, open **Customer Service** screen and load the account you want to work with.

On **Customer Service** screen's **Account(s)** section, view the following information: The system filters and displays information based on your selection:

Command Button:	Action Performed:
Current	Displays the current search account only. It does not matter how that account was searched like using account search screen or selected a queue from drop-down and pressed 'Next' button or account number was directly pasted in Acc# text box and pressed Submit button. This is the default option.
Show All	Displays the related accounts based on current selected customer's customer Id. To view the details of account number(s) other than current account, select the account in Account(s) section and click Submit.

Command Button:	Action Performed:
Group Follow-up	Displays the set of accounts that share same account condition as the selected account and bear same Customer Id. Other than having same account condition and Customer Id, the queue currently selected should have the Group Follow-up Indicator enabled in queue setup and follow-up date should fall in range of organization level system parameter UCS_GROUP_FOLLOWUP_DAYS.

In **Account(s)** section, click **View** to view the following information:

In this field:	View this:
Company	The company of the account.
Branch	The branch of the account.
Account #	The account number.
Product	The product for the account.
Currency	The currency for the account.
Pay Off Amt	The current payoff amount for the account.
Amount Due	The current delinquent amount due for the account.
Status	The account's status.
Oldest Due Dt	The oldest due date.

The system allows quick search of an account through **Quick Search** section in the right hand side of screen irrespective of the customer service screen on which you are working on. This is available in addition to the **Quick Search** section available in Results tab.

For more details on Quick Search refer 'Search Functions' chapter.

Comments can be added using **Add Comment** section in the right hand side of screen irrespective of screen you are working on. This is available in addition to the **Comments sub tab** available under Customer Service tab. This facilitates quick and easy reference.

For details on Comments refer **Comments sub tab** section in this chapter.

Call Activity functionality can be performed using **Add Call Activity** section in the right hand side of screen irrespective of the screen you are working on. This is available in addition to the **Call Activities** sub tab available under Customer Service tab. This facilitates quick and easy reference.

For details on Call Activity refer **Call Activities** sub tab section in this chapter.

Alerts section

Any comment posted as an alert, are displayed in the alert section of Summary tab.

Conditions section

You can view any conditions like Bankruptcy, Repossession, Foreclosure etc posted on an account. The condition is posted in the account with a start date which is the effective date and follow up date which indicates the next follow-up date for further process.

Dues section

Unpaid dues and the dates are displayed in a tabular form. Details of payment amount due, fee due, payoff are also displayed.

In this field:	View this:
Delq Due	The total delinquent amount that is due so far in the account.
LC Due	The total amount of non-sufficient fee due in the account.
NSF Due	The non sufficient funds fee due.
Other Due	The total of any other dues pending in the account.
Total Due	The total of all dues including payment amount and all applicable fees.
Today's Pay-off	If the account is to be paid off as per the current date and the amount payable by the borrower.
Future payoff	The total Amount due on a future date. The borrower can know the total pay off amount for a future date, say 10 days from today.
Future Payoff Date	The date on which the future payoff is due.
Future Pmt Dt	The date till which the future payoff quote is valid.
Oldest Due Dt	The due date.
Amt Paid Excess	The excess amount paid.

Delinquency Information Section

View the following information in the **Delinquency Information** section:

In this field:	View this:
Late	Total number of times the account was delinquent for less than 30 days since start date.
30	Total number of times the account was delinquent for over 30 days since start date.
60	Total number of times the account was delinquent for over 60 days since start date.

In this field:	View this:
90	Total number of times the account was delinquent for over 90 days since start date.
120	Total number of times the account was delinquent for over 120 days since start date.
150	Total number of times the account was delinquent for over 150 days since start date.
180	Total number of times the account was delinquent for over 180 days since start date.
Category	The delinquency category.
Days	The number of days delinquent. A negative number in this fields denotes the number of days until a payment is due.
BP (Life)	Total number of broken promises since the account start date.
BP (Year)	Total number of broken promises since this year.
NSF (Life)	Total number of non sufficient funds since the account start date.
NSF (Year)	Total number of non sufficient funds since this year.
Collector	The default collector working on the account.

Activities Section

View the following information in the **Activities** section:

In this field:	View this:
Active Dt	The date account was made active.
Last Activity Dt	The date on which most recent activity was performed in the account.
Due Day	The due day for payment.
Last Pmt Amt	The last payment amount.
Customer Grade	The customer grade.
App#	The application number from which this account was created.
Paid Off Dt	The date on which account was paid off. Note: Filed has value only if account has Paid-off condition.
Effective Dt	The date account became effective.
Current Pmt	The current payment amount.
Last Bill Amt	The last bill amount.
Last Pmt Amt	The last payment amount.

In this field:	View this:
Chargeoff Dt	The Date on which account was charged off. Note: This is applicable only if account has Charged-off condition. Else, no value displayed.
Military Duty	If selected, indicates that at the time of billing, the customer was in active military duty and qualifies for rates in accordance with Service members Civil Relief Act (SCRA) of 2003.
Customer Score	The customer score.
Behaviour Score	The behavior score.
Producer	The producer through which the account was sourced.

Due Date Change section

The Due Date Change section displays the remaining number of transactions available for the account in the Summary tab. You can view the following information under **Due Date Change** section.

In this Field:	Do This:
Last Txn Dt	The last date on which the due date was changed.
Rem. Txn. Limit (Life)	Remaining number of due date changes allowed till account closure.
Rem. Txn. Limit (Year)	Remaining number of due date changes in the account for current calendar year.

Extensions section

The Extensions section displays the remaining number of transactions available for the account in the Summary tab. You can view following extension details as per the conditions maintained in the contract.

In this Field:	Do This:
Rem. Txn. Limit (Year)	Remaining number of extensions in the account for current calendar year.
Rem. Txn. Limit (Life)	Remaining number of extensions in the account till closure.
Last Txn Dt	The date when last extension was made.
Exten. Gap Rem. (Months)	The number of months remaining before you can post Extensions for an account.

Collateral Information section

You can view the Collateral Information in this section:

In this field:	View this:
----------------	------------

Description	A brief description on the collateral. This is a hyper-link which when clicked opens Collateral Management screen with relevant collateral details.
Identification #	The identification number of the collateral. This is a hyper-link which when clicked takes you to the collateral management screen with the relevant asset details.
Year	The year of manufacture of the collateral.
Asset Class	The asset class of the collateral.
Asset Type	The type of collateral.
Sub Type	The sub type of the collateral.

Customer Information section

On Customer Service screen's **Customer Information** section, select the record you want to work with and view the following information:

In this field:	View this:
Customer #	Customer identification number (unique customer identifier).
Name	Customer's full name.
Relation	Customer's relationship to the account.
SSN	Customer's social security number. If the organizational parameter <code>UIX_HIDE_RESTRICTED_DATA</code> is set to Y, this appears as a masked number; for example, XXX-XX-1234.
Birth Dt	Customer's date of birth.
Gender	Customer's gender.

Customer Details section

In this field:	View this:
Email	Customer's e-mail address.
Language	Language spoken by the customer.
Marital Status	Customer's marital status.
Disability	Customer's disability indicator. If selected, this indicates that the customer is disabled.
Skip	Customer's skip indicator. If selected, this indicates that the customer is a skip debtor. This is selected using the Maintenance screen.
Stop Correspondence	Stop correspondence indicator. If selected, Oracle Financial Services Lending and Leasing will not send correspondence to customer. This is selected using the Maintenance screen.
Privacy Opt-Out	Privacy opt-out indicator. If selected, indicates that customer does not want the FI to share his /her information with any other body, other than regulatory requirements. (optional).
Active Military Duty	Customer's Active Military Duty indicator. If selected, this indicates that the customer is serving Military Duty. This is selected using the Maintenance screen.
Time Zone	Customer's time zone.

Address Information section

In this field:	View this:
Type	Address type.
Current	If selected, indicates that this is the current address.
Permission to Call	If selected, indicates that you can contact the customer.
Mailing	If selected, indicates that this is the mailing address.
Address	Address details.
Phone	Phone number.

Employment Information section

In this field:	View this:
Type	Address type.
Current	If selected, indicates that this is the current address.
Permission to Call	If selected, indicates that you can contact the customer.

Employer	Employer Details
Address	Address details.
Phone	Phone number.

Telecom Information Section

In this field:	View this:
Type	The type of phone contact such as Home / Office / Car / Mobile phone.
Permission to Call	Permission as either Yes 'Y' or No 'N' to contact the customer over phone.
Phone	The customer's phone number.
Extn	The customer's phone extension.
Time Zone	The customer's time zone.
Best Time To Call	Preferred time to contact the customer, if specified.

4.4 Customer Service screen's Customer Service tab

Open the **Customer Service** screen and load the account you want to work with. Click the **Customer Service** tab to view the sections under it.

4.4.1 Call Activities sub tab

Call activity section includes calls from customer, calls you make regarding the account or changes to the condition of the account. Entries in the **Call Activities** section are listed in reverse chronological order of follow-up date.

Each action and result has a code and description. The code for the call action and call result is what appears on the Call Activity sub screen. The Call activity action codes (Action field) and call activity results codes (Results field) are user-defined.

The Call Activities sub tab displays all the call activities defined by users in both "Customer Service > Call Activities tab" and in "Right Hand Splitter > Add Call Activity section",

4.4.1.1 Recording a Call Activity

To record a call activity

1. Open the **Customer Service** screen and load the account you want to work with.

- Click **Customer Service** sub tab and then click **Call Activities** tab under it. Click **Add**. The system displays the following screen.

- You can complete the following optional fields:
- Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

In this field:	Do this:
Action	Select the action performed.
Result	Select the result of the action
Contact	Select who you contacted.
Reason	Select the reason for the communication.
Promise Date	Select the promise date.
Promise Amt	Specify the promise amount.
Condition	Select the condition or queue type. LOV that is used in the Condition field is the intersection of list of condition set ups for what is entered into Action and Result fields and open conditions on the account.
Appointment	Check this box to take an appointment. If Appointment is checked, then system allows you to select date and appointment time as per customer request. If appointment flag is not checked, then you can only enter the date with date picker.
Followup Dt	Specify the next follow-up date. The date when FLS will place the account in queue next time. (The system defaults this date automatically based on setup.)
Time Zone	Select the time zone for the customer.
Group Followup	Check this box to enable group followup.

- Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
- Click to **Save and Add** to add a new record. Click to **Save and Return** to return to the main screen.
The system creates two entries on Customer Service screen for the call activity.

The codes for Action and Result appear as a record on the Account Detail screen, under Call Activities tab. The description for Action and Result appear as a system generated comment on the Account Detail screen, under Comments tab.

4.4.1.2 Making an Appointment

The Appointment box on **Call Activities** section enables you to schedule an account to appear in a particular queue at a future date and time. When you make an appointment, account will appear in the front of queue listed in the Conditions field at the time listed in the Follow Up Dt field.

In order to view the account, you must be working in that queue at follow up time. Refer the 'Recording a Call Activity section'.

To make an appointment

1. Open **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Call Activities** tab under it.
3. Click **Add** and specify the field details on **Call Activities** section (Refer, **Recording a call activity** section).
4. In **Condition** field, select the condition for queue you want the account to appear in.
5. In **Follow Up Dt** field, select the date and time you want account to appear using the calendar. This can be either current day or a day in future.
6. Select the **Appn'mt** box.
7. Click **Save And Add / Save And Return**.

If account is not worked within the queue on day of the appointment, nightly jobs will cancel the appointment. If the account's queue condition changes during nightly batch jobs, the outstanding appointments are cancelled.

4.4.1.3 Cancelling an Appointment

Using the **Call Activities** screen, you can cancel an appointment for an account. The account will still appear in the queue on follow up date, but no longer receive a priority.

To cancel an appointment

1. Open **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Call Activities** tab under it.

Click **Add**. The system displays **Call Activities** screen. If you need to change time for the appointment, create a new entry on account's **Call Activities** section with the same condition, but enter a new follow up date. If you need to cancel the appointment, create a new entry on account's **Call Activities** section with same condition, but don't check the **Appointment** check box.

(To create a new entry, refer **Recording a Call Activity** section.)

3. Click **Save**.

4.4.1.4 Recording a Promise to Pay

If you record an action on **Call Activities** screen as a 'promise to pay', it appears as a record on the **Account Details** screen's **Promises** section. The Promises section enables you to quickly view these actions without searching for them individually.

To record a promise to pay

1. Open **Customer Service** screen and load the account you want to work with.

2. Click **Customer Service** sub tab and then click **Call Activities** tab under it.
3. Click **Add**. The system displays the **Call Activities** screen. In **Action** field, select the action which is already performed, such as DC - DEALER CALLED
4. In the **Result** field, select a result involving a promise to pay, such as PP - PROMISE TO PAY.
5. You can complete the following optional fields:

In this field:	Do this:
Contact	Select the contact type. (Who was the person you communicated with?).
Reason	Select the reason, as stated by the contacted person. (What is the reason for this contact?).

6. In the **Promise Dt** field, record date when the person you spoke with promises to make payment.
7. In the **Promise Amt** field, record amount of payment the person you spoke with promises to pay.
8. In the **Condition** field, select the condition or queue type.
9. In the **Follow up Dt** field, enter next follow-up date for the promise-to-pay or accept the default date.
10. Click **Save**.

The system automatically notes this information as an entry on the Promises and Comments sub screens.

Note

If payment amount is within the tolerance limit, promise is considered to be kept. If the payment amount is not within tolerance limit, promise is considered to be broken. During this validation, only percentage tolerance is considered and not the contract tolerance amount.

4.4.1.5 Cancelling a Promise to Pay

Oracle Financial Services Lending and Leasing enables you to cancel promises to pay using the **Account Detail's** screen **Call Activities** section. You might do this when a customer informs you prior to the promise date that he or she cannot make the payment.

To cancel the existing promise to pay

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Call Activities** tab under it.
3. Click **Add**. The system displays the **Call Activities** screen.
4. Select the call activity entry for the promise to pay you want to cancel.

Click the **Cancel** box. The promise is marked as cancelled and will not be considered when processing promises; in other words, it will not be counted as either satisfied or broken.

4.4.1.6 Posting Offline Call Activities

The system facilitates posting of offline call activities against an account.

To Post Offline Call Activities:

1. The source file is provided in CSV format (pre-determined for fields & size). Each field in the file is separated by a comma (,) and each line is separated by return (New Line).
2. A batch job Offline call activity posting, loads the provided flat file in the specified format and system will process it line by line.
3. For each line, the system posts Call Action Code and the corresponding Call Result Code, for a given account number with SYSDATE.
4. The system will perform respective call activities and sets the follow-up date as SYSDATE + Follow up Days (As provided in the feed file)
5. During offline call activity, you can specify comments, if any, in the comments field. The system defaults comments received from offline call activity in the comments section sub tab under Customer Service screen.

4.4.2 Maintenance sub tab

The Customer Service screen's Maintenance screen acts as a single command stations that enables you to post a wide array of monetary and non monetary transactions for any given account. Transaction available is based on the account's Lease produce and the user's responsibility. This section explains how to complete the following tasks:

Monetary tasks**Lease:**

- Apply, adjust, or waive servicing expenses
- Adjust or waive late charges
- Adjust or waive non-sufficient funds
- Apply, adjust, or waive repossession expenses
- Apply, adjust, or waive bankruptcy expenses
- Apply or adjust phone pay fees
- Change an index/margin rate
- Apply, adjust, or cancel financed insurance
- Generate a payoff quote
- Payoff an account
- Charge-off an account/Do Not Charge-Off an account.
- Close an account
- Change a due date
- Apply, adjust, or waive a disposition fee
- Apply, adjust, or waive a termination fee
- Record selling an asset
- Apply, adjust, or waive an excess usage fee
- Apply, adjust, or waive other fees and taxes

Non-Monetary tasks**Lease:**

- Update a customer's name
- Maintain customer details
- Mark a customer as a skipped debtor

- Change a customer's Privacy Opt-Out indicator
- Stop correspondence
- Modify financed insurance information
- Start or stop an ACH
- Reprint a statement (batch only)
- Add or stop servicing of accounts with post dated checks as a repayment method
- Re-order coupon books

The system enables you to post a monetary transaction immediately or submit it for nightly processing. The transaction is identified as either a 'real-time' or nightly batch transaction in Oracle Financial Services Lending and Leasing's transaction setup codes. The system also enables you to cancel the future dated transactions or transactions those have been submitted for nightly processing. All activities in the account, including who performed it, date and time stamp, are captured in the audit trail.

4.4.2.1 **Creating Monetary and Non monetary Transactions**

All monetary and non monetary tasks listed in the appendix **Transaction Parameters** are available for use on Maintenance screen. Each task requires a Transaction value and a Parameter value.

To use the Maintenance screen to complete monetary transaction

1. Open **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Maintenance** tab under it.

The screenshot displays the Oracle Financial Services Lending and Leasing Customer Service Maintenance screen. The top navigation bar includes the Oracle logo, 'Financial Services Lending and Leasing', and user information: 'Welcome, DEMOSUPR', 'Accessibility', and 'Sign Out'. The left sidebar contains a 'DashBoard' menu with options like 'Origination', 'Servicing', 'Batch Transactions', 'Advances', 'Payments', 'Fees', 'Interfaces', 'Collections', 'WFP', 'Tools', and 'Setup'. The main content area is titled 'Customer Service' and shows account details for 'McCARTHY JENNIFER / McCARTHY JENNIFER' with account number 20121000015330. The 'Transaction Batch Information' section is active, showing a date of 10/17/2014 and a 'Monetary' checkbox checked. The 'Parameters' section is empty, and the 'Result' section shows 'No data to display.'

3. On the Maintenance screen's **Action** section, click **Add** in the **Transaction Batch Information Section**:
 - Select the **Monetary** box to complete a monetary transaction.
 - or–
 - Clear the **Monetary** box to complete a non monetary transaction.

4. In the **Transaction** field, select transaction for the task you want to complete. Transaction availability depends on the type of Lease account, whether the transaction is monetary or non monetary, and user responsibility.

Note that, during set up, all transactions are configured to be processed either in real time or as a batch transaction. Accordingly, the 'Batch' check box is selected only if the selected transaction is to be performed through batch execution.

5. Click **Load Parameters**.
6. Specify all the required parameter values and click **Post**.
The system displays result (success or failure) in the Results section.

You can cancel a transaction by selecting the record and clicking **Void**. The parameter 'TPE_TXN_POST_DEFAULT_GLDATE' is used to default the transaction date to GL date. If the 'Default Transaction Date to GL Date' is Yes, then GL date will be defaulted as transaction date. If the value is 'No', then the transaction date will not be defaulted and you can specify the transaction date manually.

When transaction date is not equal to or less than the system date, transaction is considered to be back dated. System Date is 'OFSLL System Date' which is the GL Date. When user posts the back dated transaction, system displays warning message as "Confirm to post the back dated transaction" with YES/NO. If user selects 'Yes', then transaction proceeds. If user selects 'No', then the transaction gets cancelled.

System displays back dated posting warning message only if the parameter 'TPE_SHOW_BACKDATE_WARNING' is set to 'Y'

When an 'ON MILITARY DUTY TRANSACTION' is posted in an account:

- The system restricts users from bankruptcy /repossession/foreclosure conditions.
- System posts DO NOT CHARGE OFF condition on that account to exclude the account from Auto Charge Off process.
- The DO NOT CHARGE OFF condition is removed when 'OFF Military Duty' transaction is posted.

4.4.3 **Comments sub tab**

Oracle Financial Services Lending and Leasing enables you to record comments on the Customer Service screen using **Comments** tab. These comments also appear under the **Comments** sub tab.

All the user added Comments in either Customer Service > Comments tab or in Right Hand Splitter > Add Comment section, are displayed in the Comments sub tab including system generated comments.

4.4.3.1 **Recording an Additional Comment**

To record an additional comment

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Comments** tab under it.

3. Click Add. The system displays the **Comments** screen.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service interface. The 'Comments' tab is active, displaying a form to add a new comment. The form includes fields for Alert, Type, Sub Type, Comment, Comment By, and Comment Dt. The 'Alert' checkbox is selected. The 'Type' dropdown is set to 'REGULAR'. The 'Sub Type' dropdown is empty. The 'Comment' field is empty. The 'Comment By' field is populated with 'DEMOSUPR' and the 'Comment Dt' field is populated with '10/17/2014 12:21:37 PM'. The 'Save and Add' button is highlighted.

4. If you want to tag this comment as important, select the **Alert** box. If selected, the comment appears on Customer Service screen's Alerts section, after clicking **Save**.
5. In the **Type** field, select what type of comment you are adding.
6. In the **Sub Type** field, select what sub type of comment you are adding.
7. In the **Comment** field, specify your comment.
8. Click **Save and Add** to add a new record. Click **Save and Return** to return to the main screen.

Comments can be viewed under the Comments tab View the following:

In this field:	View this:
Alert	If selected, Oracle Financial Services Lending and Leasing to recognizes this comment as an alert and displays in Customer Service > Summary Tab, in Alerts section.
Type	The type of comment.
SubType	The sub type of comment.
Comment	The text message entered in the Add Comments section.
Comment By	The user ID of person who entered comment in the Add Comments section.
Comment Dt	The date on which comment was entered in the Add Comments section.

4.4.4 Promises sub tab

The system automatically updates promise to pay request information as an entry under the Promises sub tab based on value defined in parameter at setup level.

In this field:	View this:
Promise Amt	The amount promised.
Promise Dt	The date by which customer promises to pay the said amount.
Taken By	The user who took promise.
Taken Dt	The date promise was taken.
Collected Amt	The amount collected against the promise.
Broken ind	If selected, indicates that this is a broken promise.
Cancelled	If selected, indicates that this is a cancelled promise

If a call was recorded as a PROMISE TO PAY on the **Call Activities** section, it will appear under the **Promises** sub tab. The **Promises** sub tab enables you to quickly view details about the call and subsequent actions and displays 25 most recent promises to pay.

If system does not receive promised amount before the promised time, it notes broken promise on the Delinquency Information section of the Account Details screen. View the following information in the **Promises** sub tab.

Create Multiple Promises

In the Promises sub tab, you can capture more than one Promise at a go and track all promises, instead of adding multiple call activities to capture multiple promises.

To record multiple promises related to call activity, Click **Create Multiple Promises**. The system displays the 'Promises' section with the following fields:

In this field:	View this:
Action	Select the type of action from the drop-down list.
Result	Select the required result of action from the drop-down list. The Result field drop-down list displays only "Promise to Pay" related results based on the action selected.
Contact	Select the type of person you contacted from the drop-down list.
Reason	Based on the account condition and the reason stated by the contact, select the appropriate reason from the drop-down list.
Promise St Dt	Select the date from which the first promise is made from the adjoining calendar icon.
Frequency	Select the frequency of payment from the drop-down list.

In this field:	View this:
Promise Amt	Specify the amount promised by the contact. Ensure that you do not enter zero or a decimal value.
No. of Prom-ises	Specify the total number of promises made by the contact. A minimum of one promise need to exist.
Appointment	Select the check box if a prior appointment is to be taken for future follow-up.
Comment	Specify additional details of the promise, if any.

Click **Create** to record the promise details. Based on the number of promises, equivalent records are created in the section below with the following information:

In this field:	View this:
Promise Dt	The first record indicates the promise start date and subsequent records will have dates incremented based on frequency and number of promises.
Promise Amt	View the amount promised.
Reason	Indicates the reason stated by the contact.
Contact	Indicates the contact selected.
FollowUp Dt	Indicates the followup date which is auto calculated by the system by adding 2-3 additional days from the promise date.
Appointment	Indicates if a prior appointment is required for future follow-up.
Comment	Specify additional details of the promise, if any.

If required, You can further modify the details of each record.

Click **Save and Return**. The recorded promises are populated in Call Activities tab for tracking.

For more information on Call Activities, refer Customer Service > Call Activities sub tab section.

4.4.5 Checklists sub tab

In this field:	View this:
Promise Amt	The amount promised.
Promise Dt	The date by which customer promises to pay the said amount.
Taken By	The user who took promise.
Taken Dt	The date promise was taken.
Collected Amt	The amount collected against the promise.
Broken	If selected, indicates that this is a broken promise.
Cancelled	If selected, indicates that this is a cancelled promise

Oracle Financial Services Lending and Leasing enables you to use checklist to ensure that procedures are followed to complete various tasks. This instructional information appears under the **Checklist** sub tab.

4.4.5.1 Completing a Checklist for an Account

To complete a checklist for an account

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** tab, Click **Checklist** sub tab.

3. In the **Check List Type** field, select the type of checklist you want to complete and then click **Load Checklist**.

The system loads checklist in the **Checklist** and **Checklist Action** sections.

4. Under **Action - Regular** tab, Click **Edit**. In the Action field, select an action you want to complete.

5. Under **Action - Document** tab, Click **Edit**. In Document tab, you can track documents pertaining to the checklist type and update the status.
6. Note your work with the **Yes/No/NA** option buttons. You can also add comments to each action on the checklist in the Comment column.
7. Click **Save and Add** to add a new record. Click **Save and Return** to return to the main screen.

4.4.6 Tracking Attributes sub tab

The Tracking Attributes screen enables you to link information to an account that is not tracked by default in the system, but is part of your company's business practices; for example, the location of important documents, how customers receive pay checks, or the hint questions for remembering a PIN. Such attributes are defined during system setup.

To use the Customer Service screen's Tracking Attributes screen

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **Tracking Attributes** sub tab.
3. Click **Load Tracking**. The system loads the tracking parameters.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The top navigation bar includes the Oracle logo, the text "Financial Services Lending and Leasing", and user information: "Welcome, OMAMUN", "Accessibility", and "Sign Out". The main window is titled "Customer Service" and displays "Results" for "Customer Service: 20140700010200". It shows "Account(s): 20140700010200: NATH JIA" with buttons for "View" and "Audit". Below this is a table with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Status, and Oldest t. The table contains one row: US01, USHQ, 20140700010200, LEASE VEHICLE, USD, 7,748.37, 701.67, ACTIVE:DELQ, 08/01/20. The "Tracking Attributes" sub tab is selected, showing a "Summary" section with tabs for Maintenance, Comments, Promises, Checklists, Tracking Attributes, References, Correspondence, Letters, and Document Tracking. The "Tracking Attributes" section has buttons for "Save and Stay", "Save and Return", and "Return". Below this is a table with columns: Sub Parameter, Parameter, and Value. The table is empty, displaying "No data to display."

4. Complete **Tracking** section by entering the requested parameter in the **Value** field.
5. Save any changes you made to the account.

4.4.7 References sub tab

The **References** sub tab enables you to view/add/edit references attached to the account during Lease origination cycle.

To use the Customer Service screen's References screen

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **References** sub tab.

3. Click Add.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service interface. The sidebar on the left contains navigation options: Dashboard, Origination, Servicing, and Collections. The main area displays account details for 'GIARDANO MIRIAMGCF / NICHOLASKDO'. Below the account details, there is a table of references. The 'References' section is active, showing a form to add a new reference. The form includes fields for Relationship, Name, Country, Address, Zip, City, State, Years, Months, Phone, Extn, and Comment. The 'Add' button is highlighted in the top right of the references section.

Specify the following:

In this field:	Specify this:
Relationship	Referee's relationship with borrower.
Name	Referee's name and details in the following fields.
Country	The country.
Address	The address line.
Zip	The zip code.
City	The city.
State	The state.
Years	Number of years or months that the reference is known by the borrower.
Months	The number of months.
Phone	The reference's primary phone number.
Extn	The reference's primary phone extension.
Phone	The reference's secondary phone number.
Extn	The reference's secondary phone extension.
Comment	The comments regarding the reference.

- Click **Save and Add** to add a new record. Click **Save and Return** to return to the main screen.

4.4.8 Correspondence sub tab

Ad-hoc correspondence enables you to include information from accounts in document templates you create yourself without manually transferring the data. Ad-hoc documents can be generated as either Microsoft Word or PDF files.

Ad-hoc correspondence can be viewed on the Correspondence screen when you have opened an account. The screen enables you to generate a new letter or view a previously generated letter.

To generate an ad hoc correspondence

- Open the **Customer Service** screen and load the account you want to work with.
- Click the **Customer Service** tab, then click **Correspondence** sub tab.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The 'Correspondence' sub-tab is selected. The screen displays account details for 'HANSSEN SAMUEL / HANSSEN SAMUEL' and a table of correspondence records. The 'Correspondence' section includes buttons for 'Add', 'View', and 'Audit'. Below it, the 'Documents' section shows a table of document records. The 'Document Elements' section shows a table of document elements. The left sidebar contains navigation links for Dashboard, Origination, Servicing, Collections, WFP, Tools, and Setup.

- In the **Correspondence** section, click **Add**. In the **Correspondence** section, use **Correspondence** field to select type of correspondence you want to generate.

The system displays following information in the Correspondence screen for selected type of correspondence:

In this field:	View this:
Id	The correspondence id.
Correspondence	The correspondence which is to be generated.
Date	The correspondence generation date.

- In the **Correspondence** section, click **Save**.

The **Documents** section displays all types of documents available for the type of correspondence you selected.

5. In the **Documents** section, click **View**. View the following information for each document:

In this field:	View this:
Document Id	The document Id.
Document	The document description.
Recipient	The recipient description.
E-Form Source	The e-form source.
Source Type	The source type.
Generated	'Y' indicates that Oracle Financial Services Lending and Leasing generated the document.
Selected	'Y' indicates that this document is selected to be included in the correspondence.

6. In the **Documents** section, select the correspondence you want to view.

7. The **Document Elements** section displays elements of the system used to generate correspondence.

Click **All** to view all elements in the correspondence.

- or -

8. Click **User Defined**, to view user-defined elements in the correspondence. In the **Document Elements** section, view the following information:

In this field:	Do this:
Element Type	View the document element type.
Element	View the element description.
Content	Enter/view value of the element.

9. In the **Document Elements** section, click **User Defined** and complete **Content** fields for **Element** fields you want to include in the correspondence.

10. In the **Document Elements** section, click **Save**.

11. In the **Documents** section, click **View**.

The system displays a PDF of the ad hoc correspondence.

4.4.9 **Letters sub tab**

The Oracle Financial Services Lending and Leasing Customer Service screen's correspondence address matters regarding customer service and collections for accounts. They also enable financial organizations to manage bulk mailings. The Letters screen enables you to create and view the following types of correspondence:

- Welcome letter
- Paid in Full letter
- PayOff quote letter
- Rate change intimation letter
- PDC renewal letter

- Collection:
 - Collection Letter - 1
 - Collection Letter - 2
 - Collection Letter - 3

You can view format of all the above letter types by clicking 'View Letter' button. In case, the correspondence to a particular customer has been stopped using the Maintenance, 'View Letter' button will not be displayed and only Letters screen will be available.

To use the Letters screen

1. Open the Customer Service screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **Letters** sub tab.

Recipient Details

In the **Recipient Details** section, you can maintain the recipient details to whom the letter should be sent. You can specify the following recipient details:

Field:	Do this:
Recipient	Select the recipient of the letter.
Customer Type	Select the type of customer. The system displays all available customer types if the Recipient is selected as 'Customer'.
Mode	The system displays the mode of communication as Email or Fax.
Type	Select the type.
E-mail	The system displays the email ID based on Recipient and Type values.
Comments	Specify comments, if any. The specified comments will be sent to the selected recipient.

If Producer or Customer is selected as Recipient and the Type is selected as Email, then the system defaults the customer or producer email ID in the E-mail field. If the type is selected as Adhoc Email, then you can enter the email ID manually in E-mail field.

On **Save** the system displays the recipient data in tabular form.

Click **Send** to email the correspondence details to the specified recipients. If the letter generation is dependent on any batch, then the system displays an error message as 'Letter not generated. Please try sending later'.

4.4.9.1 Collections: Collection letter 1

The predefined Collection letter 1 is automatically sent a configurable number of days after an account becomes delinquent (receives a condition of active: DELQ on the Customer Service screen).

The Collection letter 1 is available for Lease fixed and variable rate).

To generate the Collection letter 1

1. Open the Customer Service screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **Letters** sub tab.
3. On the **Letters** section, select **Collection Letter - 1**.
4. Click **View Letter** to generate Collection Letter - 1.

4.5 Customer Service screen's Account Details tab

Open the **Customer Service** screen and load the account you want to work with. Click the **Account Details** tab to view the sections under it.

4.5.1 Account Details sub tab

Oracle Financial Services Lending and Leasing enables you to view account details using Account Details sub tab.

In the **Account Information** section click **View**.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service interface. The sidebar on the left contains navigation options: Dashboard, Origination, Servicing, and Collections. The main area displays account details for '20140200012590: LEASE LEASE'. It includes a table for account information with columns for extensions, term, and due day changes. Below this, there are sections for 'Extn and Due Dates' and 'Additional Details' showing various metrics like total term, paid term, and maturity date.

View the following information for Lease servicing product.

4.5.2 Statements sub tab

The Statements screen contains three display only sections. The **Statements** section displays a list of all statements generated during life of the account. The **Transaction** section displays monetary transactions applied to the account from closing date of the previous statement through closing date of the current statement. The **Messages** section displays user-defined message that appears in the statement.

To view the Statements screen

1. Open the **Customer Service** screen and load the account you want to work with.

- Click the **Account Details** tab, then click **Statements** sub tab.

- In the **Statements** section, click **View**.

- View the following information:

In this field:	View:
Closing Dt	The statement closing date.
Due Dt	The statement due date.
Generation Dt	The statement generation date.

In the **Statements Details** section, select the statement you to view and click **View**.

- View the following:
- Click **Transactions** sub tab and click **View**
- View the following information:

In this field:	View:
Txn Dt	The transaction effective date.
Transaction Type	The type of transaction.
Amount	The transaction amount.

Click **Messages** sub tab and click **View**.

- View the following information:

In this field:	View:
Sequence	The sequence number.

In this field:	View:
Message	The message.

4.5.3 Rate Schedule sub tab

The **Rate Schedule** section contains information about rate adjustments, such as the sequence and number of adjustments.

To view the Rate Schedule screen

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Account Details** tab, then click **Rate Schedule** sub tab.

The **Rate Schedule** section only applies to variable rate loans.

3. In **Rate Schedule** section, click View.
4. View the following information:

In this field:	View this:
Seq	The sequence number for rate adjustment.
Adjustment Frequency Type	The rate adjustment frequency type.
Period	The rate adjustment period for the frequency.
# of Adjustments	The number of rate adjustments for the frequency.

4.5.4 Insurances sub tab

If insurance information was entered on Funding screen during Lease origination, you can view financed insurance information on the **Customer Service screen's Insurances** screen. The Insurances screen displays the details of all financed insurances, including cancellation and refund information whenever applicable. It also displays the insurances that were financed after funding of Lease using the **Customer Service screen's Maintenance** screen.

To view the Insurances screen

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Account Details** tab, then click **Insurances** sub tab.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The left sidebar contains navigation options like Dashboard, Origination, Servicing, Collections, WFP, Tools, and Setup. The main area is titled 'Customer Service' and shows account details for 'WRIGHT JOHN / MARTY'. The 'Insurances' sub tab is selected, displaying a table of insurance policies. The 'Insurance Information' section is expanded, showing fields for Contractual, Insurance Type, Company, Policy #, Effective Dt, Premium Amt, Term, and Status. The 'Policy Information' section is also expanded, showing fields for Status, Sub Status, Insurance Mode, Phone, Phone 2, Itemization, Expiry Dt, Term, Commission Amt, Comments, and Cancellation/Refund. The 'Insurance Tracking' section is at the bottom.

3. On the **Insurances** screen, view the following information in **Insurance Information** section:

In this field:	View:
Contractual	If selected, indicates that the insurance policy is required by contract.
Insurance Type	The insurance type.
Company	The insurance company.
Policy#	The insurance policy number.
Effective Dt	The insurance effective date.
Premium Amt	The insurance premium amount.
Term	The insurance term.
Status	The insurance status.

Click **View** and view the following information:

In this field:	View:
Policy Information section:	
Contractual	If selected, indicates that the insurance policy is required by contract.
Insurance Type	The insurance type.
Insurance Plan	The insurance plan.
Company	The insurance company.
Policy#	The insurance policy number.
Effective Dt	The insurance effective date.
Premium Amt	The insurance premium amount.
Commission Rule	The rule of commission.
Primary Beneficiary	The primary beneficiary of the insurance.
Secondary Beneficiary	The secondary beneficiary of the insurance.
Status	The status.
Sub Status	The sub status.
Insurance Mode	The insurance mode.
Phone	The insurance company's primary phone number.
Phone 2	The insurance company's alternate phone number.
Itemization	The contract itemization.

Term	The term of insurance.
Commission Amt	The insurance commission amount.
Comments	The comments regarding the insurance policy.
<u>Cancellation/Refund section:</u>	
Policy Cancellation Dt	The insurance cancellation date.
Refund Allowed	If selected, a refund is allowed. A selected box indicates that the insurance premium can be rebated to the customer in case of early payoff.
Grace Days Cancellation Fee Allowed	If selected, indicates that cancellation fees during grace period is allowed.
Cancellation Fees	View amount of the cancellation fee to be charged when the insurance is cancelled.

In this field:	View:
Complete Refund	If selected, a complete refund is allowed.
Term Remaining	The remaining term on the insurance at cancellation.
Refund Calculation Method	The refund calculation method.
Grace Days	View the number of grace days allowed for cancellation without charging a cancellation fee.
Estimated Refund Amt	The estimated insurance refund.
Received Refund Amt	The insurance refund received.
Itemization	The contract itemization.

4. In the **Insurance Tracking** section, click **Create Tracking**.
The system loads insurance tracking parameters in the Insurance Tracking section.
5. If you want to reduce the list of parameters, select a sub attribute in the unlabelled Sub Attribute box next to Create Tracking button.
If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in the parameter display.
6. Click **Edit** and complete the **Parameter** and **Value** fields.
7. Click **Save**.

4.5.5 Contract Information sub tab

The Customer Service screen Contract sub tab enables you to view contract and truth-in-lending information recorded during the funding process. It's a display only version of the same information found on the Funding screen's Contract screen.

To view an account's contract information

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click **Account Details** tab, then click **Contract Information** sub tab.

4.6 Customer Service screen's Customer Details tab

Open the **Customer Service** screen and load the account you want to work with. Click the **Customer Details** tab to view the sections under it.

Customer Details screen displays the information gathered on application entry process regarding the customer and customer's address, employment data, and phone numbers. Using this screen, you can update or add to a customer's address, employment information, or phone listing. Whenever you add or edit the customer details, a system generated comment will be posted in the account to keep record of old and new details.

Note that the 'Edit' option on this screen has user level security defined and based on your responsibility, you can either edit a few or all of the fields. The difference is that, you may either have access to edit only non-PII (Personal Identifiable Information) fields or edit all possible fields as per the customer maintenance transaction.

The list of possible editable fields in both these scenarios is given below:

Edit non-PII fields	All editable fields
Marital Status	Birth Date
Language	Marital Status
Education	Language
Mother's Maiden Name	Education
Class Type	Mother's Maiden
Email	Class Type
Stop Correspondence	Email

Military Service	
Active Military Duty	Active military duty indicator. If selected, indicates that customer is on active military duty and may qualify for rates in accordance with the Service members Civil Relief Act of 2003 (SCRA).
Effective Dt	The effective date
Order Ref #	The order reference number.
Release Dt	The release date.
Customer Decease Date	The deceased date of the customer.

When military duty transaction is posted on an account, the system does the following:

- Restricts the user from posting repossession/ foreclosure and bankruptcy activities on the account.
- Posts “DO NOT CHARGE OFF” condition on that account to exclude the account from Auto Charge Off process.

4.6.1 **Customer sub tab**

Click **Customer** to view the sections under it.

4.6.1.1 **Address sub tab**

Click **Address** sub tab to view address information for the customer in the following section:

In this field:	View this:
Type	The address type.
Current	If selected, indicates that this is the customer's current address.
Confirmed	If selected, indicates that the address is confirmed by the customer.
Mailing	If selected, indicates that this is the customer's mailing address.
Permission to Call	Check this box if customer has provided permission to contact through the specified phone number. Atleast one phone number for every application should have the permission to call (flagged as 'Y') for the successful pre-qualification of the application. Else, an error message is displayed.
Country	The country.
Postal Address Type	The postal address type.
Address #	The address.
Street Pre	The street pre.
Street Name	The street name.
Street Type	The street type.
Street Post	The street post.
Apt #	The apartment number.
Address 1	The customer's address.
Address 2	The customer's address.
Address 3	The customer's address.
City	The city.
State	The state code.
Zip	The zip code.

In this field:	View this:
Zip Extn	The zip code extension.
City	The city.
State	The state code.
Phone	The phone number.
Address	The address.
Census Tract/ BNA Code	The census tract/BNA code.
MSA Code	The metropolitan statistical area (MSA) code.
Comment	Comments regarding the address.

4.6.1.2 **Telecoms sub tab**

1. Click **Telecom** sub tab to View/edit the Telecom information for the customer:

In this field:	Do this:
Type	Select the telecommunication type.
Phone	Specify the phone number.
Extn	Specify the phone extension.
Current	Select if this telecom number is current.
Permission to Call	Check this box if customer has provided permission to contact through the specified phone number. Atleast one phone number per application should have the permission to call (flagged as 'Y') for the successful pre-qualification of the application. Else, an error message is displayed.
Time Zone	Select the applicant's time zone.
Start Time	Specify the best time to call start time.
End Time	Specify the best time to call end time.
Period	Specify the time period.

4.6.1.3 **Employment sub tab**

1. Click **Employment** sub tab, in **Employment Information** section, click **View** to View/edit the employment information for customer in the following section:

In this field:	View this:
Current	If selected, indicates that this is the customer's current address.

In this field:	View this:
Permission to Call	Check this box if customer has provided permission to contact through the specified phone number. Atleast one phone number per application should have the permission to call (flagged as 'Y') for the successful pre-qualification of the application. Else, an error message is displayed.
Type	The occupation.
Employer	The employer's name.
Occupation	The occupation.
Title	The title.
Department	The department of the employment.
Country	The country.
Address #	The address line.
Address Line 1	The employer's address.
Address Line 2	The employer's address.
City	The city.
State	The state.
Zip	The zip code.
Zip Extn	The zip code extension.
City	The city.
State	The state.
Phone	The work phone number.
Extn	The work phone number extension.
Comment	Comments regarding the employment.

4.6.1.4 Tracking Attributes sub tab

You can add tracking attribute information to an application at any time on the Customer Details screen's Customer Tracking Attributes section

In the **Tracking Attributes** section, click **Edit**

When you click **Create Tracking**, the system loads the tracking parameters.

- If you want to reduce the list of parameters, select a sub-attribute in the **Sub Attribute** box.
- If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in the Parameter display.

- specify the requested parameter in the **Value** field and click **Save**.

Save any changes you made to the account.

4.6.2 Business sub tab

If this is a SME Lease, information gathered on the application entry process regarding the business and business's address, partners and affiliates data, and phone numbers appears on the Customer Service screen's Business screen. Using the Business screen, you can update or add to a business's address, partners and affiliates information, or phone listing.

To view or edit business information

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service link bar, click the Customer Service drop-down link, then click **Business**.

4.7.1 Balances sub tab

Details of an account balance can be viewed on the Balances sub tab.

The **Balance Group** in Balances section consists of the following four action buttons:

- Current Balance
- Deficiency Balance
- Non-Performing Balance
- Terminate Balance

By default, the Current Balance option is selected. In case the status of an account is 'Charged Off', then the system defaults to 'Deficiency Balance' option.

Depending on which one you select, a different set of balance information appears. In all cases, the Balance screen can be viewed in the following two transaction period modes:

- ITD/CTD (Inception-to-date/Cycle-to-date)
- YTD (year-to-date)

To view account balance information

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Transaction History** tab, then click **Balances** sub tab
3. In the **Balance Group** section, select the balance you want to view.

Current Balance displays the current balances for accounts with an status of ACTIVE.

In this field:	View:
Balance Type	The balance type.
Opening Balance	The opening balance amount.
Posted	The amount posted (in addition to the opening balance).
Paid Balance	The amount paid.
Waived	The amount waived.
Charged Off	The amount charged off.
Adjusted (-)	The amount adjusted (negative adjustments).
Adjusted (+)	The amount adjusted (positive adjustments).
Balance	The current (closing) balance. The total active balance of the account is displayed at the bottom.

Deficiency Balance displays the current balances for accounts with an status of CHARGED OFF. If you click **Deficiency Balance**, the following information appears:

In this field:	View:
Balance Type	The balance type.
Opening Deficiency	The opening deficiency balance.

In this field:	View:
Chg off Posted	The additional charged off amounts posted.
Recovery	The amount of deficiency balance paid.
Deficiency Balance	The current (closing) deficiency balance. The total deficiency balance of the account is displayed at the bottom.

Non-Performing Balance displays the current balance for accounts with status as NON-PERFORMING. Non-Performing accounts fall between CHARGED OFF accounts and ACTIVE accounts. These accounts are treated as active when dealing with the customer, but for accounting purposes are treated differently as they are expected to charge off in the future. Fee and interest balances are not expected to be collected in full and therefore are not recognized as income. If you click **Non-Performing Balance**, the following information appears:

In this field:	View:
Balance Type	The balance type.
Opening Non-Performing	The opening non performing balance.
Paid / Terminate	The amount of non performing balance paid or terminated.
Paid Excess	The additional non performing amounts posted.
Waived	The amount waived.
Adjusted (-)	The amount adjusted (Negative adjustments).
Adjusted (+)	The amount adjusted (Positive adjustments).
Balance	The current (Closing) non performing balance. The total non-performing balance of the account is displayed at the bottom.

Terminate Balance displays the current balance for accounts with a status of TERMINATE. Selecting **Terminate Balance** option displays the following account details.

In this field:	View:
Balance Type	The balance type.
Opening Balance	The opening non performing balance.
Paid / Terminate	The amount of non performing balance paid or terminated.
Waived	The amount waived.
Charge Off	The additional charged off amounts.
Adjusted (-)	The amount adjusted (Negative adjustments).
Adjusted (+)	The amount adjusted (Positive adjustments).
Terminate	The balance amount to terminate.

4. In the **Txn Period Balance** section, select how you want to view the balance:
Select **ITD/CTD** to view transactions by Inception-to-date /Cycle-to-date:
-OR-
Select **YTD** to view the transactions by year to date.

4.7.2 Transactions sub tab

The Transactions screen displays all transactions that have occurred over the life of account. Transactions can be sorted by when the transaction was created (Post Dt) or the effective date of transaction (Txn Dt). You can also choose to view all transactions or reverse certain transactions. This information comes from the payments and advances applied to the account, maintenance tasks, and nightly processes such as billing.

To view the transaction history of an account

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Transaction History** tab, then click **Transactions** sub tab.

The screenshot displays the Oracle Financial Services Lending and Leasing Customer Service interface. The 'Transaction History' tab is selected, and the 'Transactions' sub-tab is active. The screen shows a table of transactions for account 20121000011635, including columns for Post Dt, Description, Txn Dt, Currency, Amount, and Balance Amt. A detailed view of a transaction is shown below the table, including allocation details.

3. In the **View Options** section, select type of transactions in this account's history you want to view on the **Transactions** screen.

If you select this:	The system displays:
Good Payments	All valid payments that was neither voided nor reversed.
All Payments	All transaction involving payments.
Good Txns	All transactions that was neither voided nor reversed.
All Txns	All transactions.

4. In the **Sort Option** section, choose **Post Dt** to sort entries on in **Transactions** section in order of when the transaction was made effective.
-OR-

Select **Txn Dt** to sort the entries on in **Transactions** section in order of when the transaction was created.

5. In **View Option** section, click **View to** view the following information:

In this field:	View:
Transactions section	
Post Dt	The transaction posting date.
Txn Dt	The transaction effective date.
Description	The transaction details.
Currency	The currency of the transaction.
Amount	The transaction amount.
Details	The transaction details.
Balance Amt	The balance amount. This is the principal balance, not the total balance amount.
Payment Currency	The payment currency.
Payment Amount	The payment amount.
Payment Type	The payment type.
Reference	The reference number associated with the transaction.
Mode	The mode of the transaction.
Reason	The reason for the transaction.
Allocation Details	
Txn	The transaction allocation details.
Amt	The transaction allocation amount.

4.7.2.1 To Reverse (or Void) a Transaction

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service link bar, click **Customer Service** drop-down link, then click **Transactions**.
3. In the **Transactions** section, select the transaction you want to reverse.
4. Click **Reverse**. A confirmation dialog is displayed.
5. Click 'Yes' to reverse the transaction. On confirmation, the reversal is posted for processing.

Some transactions cannot be reversed. If a transaction cannot be reversed, the Reverse button will be dimmed when transaction is selected. If the Reverse button is unavailable, the transaction anniversary cannot be reversed.

Access to the **Reverse** button can be restricted by user responsibility and account's product type using the PAYMENT_REV transaction code (Super Group: ACCOUNT MONETARY TXN) on the Administration screen.

(For more information, see **Txn Codes tab (Transaction Super Group screen)** section of the **Administration (System) Setup** chapter in the **Oracle Financial Services Lending and Leasing Setup Guide**).

4.7.2.2 **Voiding an Account**

To void an account

Oracle Financial Services Lending and Leasing can be configured to void an account using the Reverse button on the Transaction screen.

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service link bar, click **Customer Service** drop-down link, then click **Transactions**.
3. In the **Transactions** section, select ACTIVE entry in the **Description** field.
4. Click **Reverse**.

On the Transactions screen, Oracle Financial Services Lending and Leasing creates an entry of REVERSE ACTIVE and reverses all transactions. The system also changes status of the account to CLOSED: VOID and changes status of the application to APPROVED-VOID (or whatever the account's last status was before funding).

To use this feature, ACTIVE_REV transaction code must be enabled and set to manual on the Transaction Super Group screen for your user responsibility and account's product type. (For more information, see the **Txn Codes tab (Transaction Super Group screen)** section of the **Administration (System) Setup** chapter in the **Oracle Financial Services Lending and Leasing Setup Guide**).

4.7.3 **Payment Rating sub tab**

To view the transaction history of an account

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click **Transaction History** tab, then click **Payment Rating** sub tab.

The **Payment Rating** section displays month and year of payment and rating reported to credit bureaus through Metro 2 file for the past 24 months, including the following:

In this field:	View this:
Pmt Rating	The payment rating.
Rating Description	The payment rating description.
Acc Status	The credit bureau account status.
Status Description	The credit bureau account status description.
Month/Year Rating	The month/year of payment rating.

4.7.4 Due Date History sub tab

The **Due Date History** tab provides a delinquency history, by payment, by displaying a history of all due dates, along with when actual payment was made for that due date and the subsequent balance. If a payment was delinquent, Due Date History section displays the number of days the customer was delinquent against each due date.

Due Date History sub tab displays all the dues that have crossed the system date and also the history that is currently available in Transaction History > Due Date History sub tab.

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click **Transaction History** tab, then click **Due Date History** sub tab.

4.7.6 Work Order sub tab

To expedite repossessions and foreclosures, the display only Vendor Work Order screen enables you to view all the work orders issued to different vendors for an account.

To view the vendor work order screen

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Transaction History** tab, then click **Work Order** sub tab.

In the **Vendor Work Order** section, click **View**

View the following display only information:

In this field:	View this:
Type	The assigned type.
Dt	The assignment date.
Estimated	The estimated dollar amount of work order.
Vendor	The vendor number and name.
Status	The assigned status.
Total Amt	The total estimated dollar amount of all work orders.

You can create/view and maintain vendor work orders related to an account.

- To create and maintain vendor work orders, click **Create Work Order**. The system opens Vendor Management screen. You can perform tasks and record additional information, such as changing the work order's status and adding comments in the Work Orders section.

If vendor screen is already opened in the main screen and user tries to create new work order or open an existing work order, system displays the warning message as "Vendor management screen is already open. Please close it and retry".

- To view more detailed information about vendor work order, select the work order you want to view and click **View Work Order**. The **View Work Order** button appears faded if the responsibility does not allow access to the Vendor Work Order screen.

- Click **Close** on the Vendor Management screen to return to the Customer Service screen.

For more information about using the Vendor Management screen, please refer to the **Vendor** chapter in the User Guide.

4.8 Customer Service screen's Pmt Modes tab

Open the **Customer Service** screen and load the account you want to work with. Click the **Pmt Modes** sub tab to view the sections under it.

4.8.1 ACH sub tab

If used, the **ACH** section displays information about automated clearing house and electronic fund transfers.

To view the ACH information screen

- Open the **Customer Service** screen and load the account you want to work with.
- Click **Pmt Modes** tab, then click **ACH** sub tab.

The system displays the ACH details depending on the following option selected:

- Recurring - Select 'Recurring' to display all the Recurring ACH details.
- One-Time Phone - Select this option to display one time ACH details.
- All - Select 'All' to display both recurring and one-time phone ACH details.

If you have selected 'Recurring' or 'One-Time Phone' option, you can further Add, Edit, or Copy the details and perform any of the [Basic Operations](#) mentioned in Navigation chapter. On save, the system will automatically post the transaction capturing the current transaction date along with a comment as 'Direct Record Update' for the particular ACH transactions.

If you have selected 'Recurring' option, the following fields are displayed:

In this field:	View this:
Reference #	The unique reference number.
Bank Name	The bank name.
Routing #	The routing number.

In this field:	View this:
Account Type	The type of account.
Account #	The account number. If the organizational parameter <code>UIX_HIDE_RESTRICTED_DATA</code> is set to Y, this appears as a masked number; for example, XXXXX1234.
Pmt Day	The payment day.
Pmt Amt	The Payment amount.
Pmt Amt Excess	The excess payment.
Pmt Freq	The payment frequency.
Fee Amt	The amount charged as fees.
Direct Debit Fee	If selected indicates that the fees is debited directly.
Start Dt	The date the system began using ACH payments for this account
End Dt	The ACH end date.
Default	If selected indicates that this ACH is the default ACH for the account.
Status	The status of the account.

Note

This information can be edited using the Maintenance screen and the non monetary transaction ACH MAINTENANCE.

If you have selected 'One-Time Phone' or 'All' option, the following fields are displayed:

In this field:	View this:
Reference #	The unique reference number.
Bank Name	The bank name.
Bank City	The bank city.
Bank State	List of available states.
Routing #	The routing number.
Account Type	The type of account.
Name On Account	The account name.
Account #	The account number. If the organizational parameter <code>UIX_HIDE_RESTRICTED_DATA</code> is set to Y, this appears as a masked number; for example, XXXXX1234.
Debit Dt	The debit date.

In this field:	View this:
Pmt Amt	The Payment amount.
Direct Debit Fee	If selected indicates that the fees is debited directly.
Secret Question	Select the secret question from the drop down list.
Provided To Whom	The person to whom the ACH is concerned.
Reference	Additional reference if any.
Drawer Relation Type	The withdrawer relation to ACH.
Drawer Name	The name of withdrawer.
Drawer Address1	Address of withdrawer,
Drawer Address2	Address of withdrawer,
Drawer City	City of withdrawer,
Drawer State	State of withdrawer,
Drawer Zip	Zip of withdrawer,
Status	The status of the account.

Note

This information can be edited using the Maintenance screen and the non monetary transaction ACH MAINTENANCE.

Copying ACH Details

You can copy and maintain ACH details from **Pmt Modes** sub tab of **Customer Service** screen. Copy option is available only when you have selected the ACH option as either Recurring or One-Time Phone.

To copy the ACH details

1. Select a record and click **Copy**.
2. A confirmation message is displayed as 'Do you want to Copy ACH Record?'. Click **OK** to copy and create a new record.

On confirmation, the system creates a new row with new reference number, Status as 'Active', Default as 'N', Start Dt as 'System Dt + Pre note days' and all the other details as maintained in the copied record. When a new record is created using the **Copy** function, the system will post a 'New ACH Transaction' capturing the current transaction date along with a comment as 'Direct Record Update'.

4.8.2 Coupon sub tab

The **Coupon** section displays information regarding coupons associated with the account.

To view the coupon screen

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Pmt Modes** tab, then click **Coupon** sub tab.

4.8.4 Payment Arrangement sub tab

The **Payment Arrangement** section enables you to define and calculate the payment amount for the account with status Charge-off. An alert message will be displayed in the Customer Service screen when the user tries to view the payment arrangement for account other than charged off status.

To view the **Payment Arrangement details screen**

1. Open the **Customer Service** screen and load the account you want to work with.

- Click **Pmt Modes** tab, then click **Payment Arrangement** sub tab.

The Payment Arrangement section is enabled only when the Payment Arrangement Batch job is posted.

- In the **Payment Arrangement** section, click **View** to view the following details:

In this field:	Do this:
Frequency	Displays the payment frequency.
Start Date	Enter the start date from when the customer pays.
Terms	Enter the number of payments. Note that if the term is specified as zero "0", an error message is displayed.
End Date	View the end date of the payment.
Plan Amount	View the payment amount which the customer plans to pay.
Outstanding Amount	View the outstanding amount.

- In the **Details** section, click **View** to view the following details:

In this field:	View this:
Date	View the start date of the payment plan.
Frequency	View the payment frequency.
Plan Amount	View the planned payment amount.
Paid Amount	View the paid amount.
Satisfied Ind	Indicates that the customer done the payment arrangements.
Broken Ind	Indicates that the customer did not make the payment arrangement.
Enabled Ind	Indicates that the arrangement is active

On Clicking **Deactivate**, the account will be deactivated.

To add a new payment rearrangement plan, previous plan has to be manually deactivated otherwise the system displays an error message. This condition applies to the payment arrangement previous plan even when the 'Broken Indicator' is selected.

Only one Payment arrangement plan can exist at a time. If a schedule broken by the customer make another payment arrangement, the first payment arrangement has to be deactivated and only then, the other payment can be added.

4.9 Customer Service screen's Bankruptcy tab

The Bankruptcy screen enables you to record the details of a bankruptcy. This information usually is supplied from the customer or customer's attorney. You can track each stage of the bankruptcy process based on its follow-up date and record information using the Details and Tracking sections.

As there are occasions when a borrower files bankruptcy more than once during tenure of the Lease, you can record information for multiple bankruptcies. The **Add** button enables you to create a new bankruptcy record with different start and end dates. You can also use the Bankruptcy screen to view previous bankruptcy record using Next and Previous buttons in Detail section. The Current box in Detail section indicates the current bankruptcy details.

When a Bankruptcy condition is opened on an account, the system defaults a detailed tracking record with 'Current' field enabled and 'Follow up date' defaulted to system date. The 'Disposition' is defaulted as 'NEWLY RECEIVED'. The system only adds a new detail tracking record. No processing will be done with respect to detail tracking record when the bankruptcy condition is closed.

To enter bankruptcy details for an account

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Bankruptcy** tab.
3. In the **Bankruptcy Details** section, select the bankruptcy record you want to work with.

-Or-

Select **Add** to refresh the Bankruptcy screen to create a new record.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service interface. The 'Bankruptcy Details' section is active, displaying a table with columns: Current, Followup Dt, Disposition, Type, Customer, Relation, Comment, File Received Dt, Bankruptcy Start Dt, and Bankruptcy End Dt. The 'Tracking' section is also visible below, showing a table with columns: Sub Parameter, Parameter, and Value. The interface includes a sidebar with navigation options like Dashboard, Origination, Servicing, and Collections.

4. In the **Bankruptcy Details** section, enter, view or edit the following information:

Field:	Do this:
Current	Select to indicate this is the current bankruptcy record.
Follow up Dt	Enter the follow-up date for the bankruptcy.
Disposition	Select the bankruptcy disposition.
Type	Select the bankruptcy type.
Customer	Select the customer from the drop-down list
Relation	The system displays relation of the customer
Comment	Enter a comment.
File Received Dt	Select the file received date for the bankruptcy.
Bankruptcy Start Dt	Select the bankruptcy start date.
Bankruptcy End Dt	Select the bankruptcy end date.

5. Click **Save**.

6. In the **Tracking** section, click **Load Tracking**.

The system loads the bankruptcy tracking parameters.

7. If you want to reduce the list of parameters, select a sub attribute in the Sub Attribute field. If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in parameter display.

8. Complete the **Create Tracking** section by entering information regarding bankruptcy in the Value field for each corresponding Parameter, click Save on the Bankruptcy screen.

4.9.1 Call Activities sub tab

Call activity section includes calls from customer, calls you make regarding the account or changes to the condition of the account. Entries in the **Call Activities** section are listed in reverse chronological order of follow-up date.

For details on how to Record a Call Activity, refer [Call Activities sub tab](#) section in “Customer Service screen’s Customer Service tab” section.

4.9.2 Comments sub tab

Oracle Financial Services Lending and Leasing enables you to record comments on the Customer Service screen using **Comments** tab. These comments also appear under the Comments sub tab.

For details on how to Record a Comment, refer [Comments sub tab](#) section in “Customer Service screen’s Customer Service tab” section.

4.9.3 Due Date History sub tab

The Due Date History tab section provides a delinquency history, by payment, by displaying a history of all due dates, along with when actual payment was made for that due date and the subsequent balance. If a payment was delinquent, Due Date History section displays the number of days the customer was delinquent against each due date.

For more details, refer [Due Date History sub tab](#) section in “Customer Service screen’s Transaction History tab” section.

4.10 Customer Service screen’s Repo/Foreclosure tab

The Repossession/Foreclosure screen enables you to record information regarding repossessions/foreclosure in a manner similar to how bankruptcies are recorded on the Bankruptcy screen. You can track each stage of repossession/foreclosure process based on the follow-up date and record information using the Details and Tracking section.

4.10.1 Repossession sub tab

On occasion, a lender performs multiple repossessions for the same Lease. The Create New Repossession button on the Repossession screen enables you to create a new repossession record for a different collateral and different start and end dates. You can also use the Repossession screen to view previous repossession information using the Next and Previous buttons in the Details section. The Current box in Details section indicates the current repossession record for each asset.

This tab will be available only when the collateral type associated with the Lease account is a Vehicle.

You can update the current record, but previous records cannot be modified.

When the REPO call activity is posted, system defaults the primary collateral details and current status will be checked.

When a Repossession condition is opened on an account, the system defaults a detailed tracking record with ‘Current’ field enabled and ‘Follow up date’ defaulted to system date. The

'Disposition' is defaulted as 'NEWLY RECEIVED'. The system only adds a new detail tracking record. No processing will be done with respect to the detail tracking record when the repossession condition is closed.

To Specify repossession details for an account

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Repo/Foreclosure** sub tab, then click **Repossession**.
3. In the **Repossession Details** section, select the repossession record you want to work with.

-OR-

Click **Add** to refresh the Repossession screen to create a new record.

4. In the **Details** section, enter view or edit the following information:

In this field:	Do this:
Current	Select to indicate this is the current repossession record.
Followup Dt	Specify the follow-up date for the repossession.
Disposition	Select the repossession disposition.
Type	Select the repossession type.
Collateral	Select the collateral involved in the repossession.
File Received Dt	Select the file received date for the repossession.
Repo Start Dt	Select the repossession start date.
Repo End Dt	Select the repossession end date.
Comment	Specify a comment.

5. In the **Tracking** section, click **Load Tracking**.

The system loads the repossession tracking parameters.

- If you want to reduce the list of parameters, select a sub attribute in the Sub Attribute box. If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in the parameter display.
- Complete the **Tracking** section by entering information regarding repossession in the Value field for each corresponding Parameter, then click **Save**.

4.10.2 Foreclosure sub tab

The Foreclosure screen enables you to record information regarding foreclosure in a manner similar to how bankruptcies are recorded on the Bankruptcy screen. You can track each stage of the repossession process based on follow-up date and record information using Details and Tracking section.

A lender can perform multiple foreclosures for the same Lease. The Create New Foreclosure button on the Foreclosure screen enable you to create a new foreclosure record for a different collateral and different start and end dates. You can also use the Foreclosure screens to view the previous foreclosure information using Previous and Next buttons in Details section. The Current box in Details section indicates the current foreclosure record for each asset.

This tab will be available only when the Collateral type associated with the Lease account is home.

You can update the current record, but previous records cannot be modified.

To enter foreclosure details for an account

- Open the **Customer Service** screen and load the account you want to work with.
- Click the **Repo/Foreclosure** sub tab, then click **Foreclosure**.
- In the **Foreclosure Details** section, select the foreclosure record you want to work with.

-or-

Click **Add** to refresh the Foreclosure screen to create a new record.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service interface. The 'Foreclosure Details' section is active, displaying various input fields for recording a foreclosure. The 'Current' checkbox is selected. The 'Followup Dt' is set to 12/31/4000. The 'Collateral' dropdown is set to 2003. The 'File Received Dt' and 'Foreclosure Dt' fields are empty. The 'Foreclosure End Dt' field is empty. The 'Disposition' dropdown is set to NEWLY RECEIVED. The 'Comment' field is empty. The 'Type' dropdown is empty. The 'Save and Add', 'Save and Stay', 'Save and Return', and 'Return' buttons are visible at the top right of the form.

- In the **Foreclosure Details** section, enter view or edit the following information:

In this field:	Do this:
Current box	Select to indicate this is the current repossession/foreclosure record.
Followup Dt	Select the follow-up date for the repossession/foreclosure.
Disposition	Select the foreclosure disposition.
Type	Select the foreclosure type.
Collateral	Select the foreclosure asset.
File Received Dt	Enter the file received date for the foreclosure.

In this field:	Do this:
Foreclosure Start Dt	Enter the foreclosure start date.
Foreclosure End Dt	Enter the foreclosure end date.
Comment	Enter a comment.

5. In the **Tracking** section, click **Load Tracking**.
The system loads the foreclosure tracking parameters.
6. If you want to reduce the list of parameters, select a sub attribute in the Sub Attribute box. If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in the parameter display.
7. Complete the **Tracking** section by entering information regarding foreclosure in the Value field for each corresponding Parameter, then click **Save**.

4.10.3 Analysis sub tab

The Analysis screen enables you to create and analyze possible scenarios for re marketing and sale of the asset. This enables you to calculate the possible gain or loss in the sale of an asset. Expenses already incurred on the asset are displayed on Expenses sub screen. You can change the numbers if you expect more expenses by the time asset is sold. You can have up to three Repo/Foreclosure and three Sales analyzes on each Analysis screen.

To complete a repossession/foreclosure analysis or sales analysis for an account

1. Open the **Customer Service** screen and load the account you want to work with.
 2. On the Customer Service link bar, click the **Repo/Foreclosure** drop-down link, then click **Analysis**
 3. In the **Analysis** section, select the analysis record you want to work with and click **Load**.
- or-

Click **Add** to refresh the Foreclosure screen to create a new record.

4. In the **Analysis** section, select the **Current** box if you wish to indicate that this is current analysis worksheet.
5. In the **Analysis** section, use the **Level** field to select analysis level you want to use, ACCOUNT or ASSET.
 - Select **Account** if you want analysis to use value of the entire account.
 - or –
 - Select **Asset** if you want analysis to use the value of a particular asset.
6. In the **Analysis** section, enter, view, or edit the following information:

In this field:	Do this:
Current Ind	Current Indicator. Select the check box if analysis is current.
Level	Select the Analysis level from the drop down list.
Balance %	Specify balance allocation percentage.
Analysis Dt	View the analysis date.
Current Value	View the asset current total value.
Asset	If you want to perform an analysis for a particular asset, select the asset.
Comment	Specify comment associated with the analysis.

7. Specify all the required information in **Analysis** or **Bid** section, depending on the type of incident you are analyzing.
8. Complete the details in **Expenses** and **Refunds** sub screens, corresponding to analyze or bid number on the **Analysis** screen. The data here is loaded to the analysis and bid columns as 'expenses' and 'refunds'.

- To complete the **Expenses** sub screen:

In this field:	Do this:
Expense Type	Select the expense type.
Manual	Indicates that the expense was entered manually.
Analysis1 Amt	Specify the expense amount for analysis1.
Analysis2 Amt	Specify the expense amount for analysis2.
Analysis3 Amt	Specify the expense amount for analysis3.
Bid1 Amt	Specify the expense amount for bid1.
Bid2 Amt	Specify the expense amount for bid2.
Bid3 Amt	Specify the expense amount for bid3.

- To complete the **Refunds** sub screen:

In this field:	Do this:
Refund Type	Select the refund type.
Manual	Indicates that the refund was entered manually.
Analysis1 Amt	Specify the refund amount for analysis1.
Analysis2 Amt	Specify the refund amount for analysis2.
Analysis3 Amt	Specify the refund amount for analysis3.
Bid1 Amt	Specify the refund amount for bid1.
Bid2 Amt	Specify the refund amount for bid2.
Bid3 Amt	Specify the refund amount for bid3.

Select the Corresponding Analysis/Bid to Load details Maintained in the Expense and Re-fund sections.

- Repeat steps 4 to 8 with information regarding other repossession/foreclosure or sales analysis.
- In **Status** field, select status of the analysis: APPROVED or REJECTED.
- When you have decided which analysis or which sale bid you want to approve, select your choice in either the **Final Analysis** or **Final Bid** section.

Note

You can approve only one analysis. Based on Analysis approved on 'Save And Return' Corresponding Radio button will be enabled in the Final section of Analysis details.

- Click **Save**.

4.10.4 **Call Activities sub tab**

Call activity section includes calls from customer, calls you make regarding the account or changes to the condition of the account. Entries in the **Call Activities** section are listed in reverse chronological order of follow-up date.

For details on how to Record a Call Activity, refer [Call Activities sub tab](#) section in “Customer Service screen’s Customer Service tab” section.

4.10.5 **Comments sub tab**

Oracle Financial Services Lending and Leasing enables you to record comments on the Customer Service screen using **Comments** tab. These comments also appear under the Comments sub tab.

For details on how to Record a Comment, refer [Comments sub tab](#) section in “Customer Service screen’s Customer Service tab” section.

4.10.6 **Due Date History sub tab**

The Due Date History tab section provides a delinquency history, by payment, by displaying a history of all due dates, along with when actual payment was made for that due date and the subsequent balance. If a payment was delinquent, Due Date History section displays the number of days the customer was delinquent against each due date.

For more details, refer [Due Date History sub tab](#) section in “Customer Service screen’s Transaction History tab” section.

4.11 **Customer Service screen’s Deficiency tab**

The Deficiency screen enables you to record information about deficiency accounts i.e. accounts that are no longer collectable. You can create and track specific details on status of the charged-off account for timely follow-up and analysis. You can also track each stage of the deficiency process based on its follow-up date and record information using the Details and Tracking sections.

The **Add** button enables you to create a new deficiency record with different start and end dates. You can also use the **Deficiency Details** screen to view deficiency information. The **Current** field in **Deficiency Details** section indicates the current bankruptcy details. To view the balance of a charged off account, click the Transaction History tab on Customer Service screen, then click Balances. On the Account Details screen’s Balance Group section, click Deficiency. For more information on Deficiency Balance, see Balances sub tab section in this chapter.

When a Deficiency condition is opened on an account, the system defaults a detailed tracking record with ‘Current’ field enabled and ‘Follow up date’ defaulted to system date. The ‘Disposition’ is defaulted as ‘NEWLY RECEIVED’. The system only adds a new detail tracking record. No processing will be done with respect to the detail tracking record when the deficiency condition is closed.

To enter deficiency details for an account

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Deficiency** tab.
3. In the **Deficiency Detail** section, select the deficiency record you want to work with

-or-

- Click **Add** to refresh the Deficiency screen to create a new record.

- If account's collateral is neither a vehicle nor a home, the **Collateral** screen opens at the **Other Collateral**:

The screenshot displays the 'Other Collateral' screen in the Oracle Collateral Management system. At the top, there are tabs for Summary, Applicant, Request, Collateral, Comments, Tracking, Verification, and Tools. The 'Collateral' tab is active. Below the tabs, there's a 'Collateral' section with a table showing a list of collateral items. The table has columns: Existing Asset, Existing Asset Id, Primary, Asset Class, Asset Type, Sub Type, Status, Year, Age, Make, Model, Body, Registration #, and Ident. A single row is visible with values: N, , Y, , , , , 0, , , , , UNDEFINED, . Below the table, there's a form for editing or adding collateral details. The form includes fields for Existing Asset, Existing Asset Id, Primary, Asset Class, Asset Type, Sub Type, Status, Year, Age, Make, Model, Body, Registration #, Identification #, Description, Condition, Address, Country, Zip, and Usage Details. The form is divided into sections: Existing Asset, Body, Registration #, Identification #, Description, Condition, Address, Country, Zip, and Usage Details. The form is currently in 'Edit' mode, as indicated by the 'Edit' button being highlighted.

Clicking on **Asset #** in the Vehicle sub tab takes you to Collateral Management screen opening respective collateral. You can modify the details on Collateral management screen by clicking on 'Edit' and saving the record.

The system displays a warning message if the Collateral Management screen is already open.

4.12.1 Valuation sub tab

With the Valuation sub screen, you can view the collateral or asset valuation for an account.

To view the collateral or asset valuation for an account

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Collateral** tab and then Valuation.
3. Click the **Valuation** sub tab to view the following information:

In this field:	View this:
Value section	
Current	Select if this is the current valuation.
Valuation Dt	The valuation date of the vehicle.
Source	The valuation source.
Edition	The valuation edition.
Supplement	The valuation supplement.
Wholesale section	

In this field:	View this:
Total Value (=)	The total value.
Wholesale Base	The wholesale value.
Usage	The usage. This pertains to Lease and usually is entered as the current mileage.
Retail section	
Retail Amt	Specify the retail base value.
Addons Amt (+)	The add-ons value.
Usage Value Amt (+)	The usage value; that is, the monetary effect that current mileage has on the value of vehicle.
Total Amt (=)	The total value.
Addons section	
Addons/Attributes	Select the add-on/attribute.
Value	The value of the attribute.
Amount	The add-on amount.

Note

Assets can have exactly one current valuation.

4.12.2 Tracking sub tab

With the Tracking sub screen, you can view collateral or asset tracking details to an account, such as the location of title, liens, and insurance information.

To view the collateral or asset tracking for an account

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service link bar, click **Collateral**.
3. On the available screen (**Vehicle**, **Home**, or **Other**), click the **Tracking** sub tab.
4. On the Tracking sub screen, enter, view, or edit the following information:

In this field:	View this:
Tracking Items section	
Select	If selected, indicates that this is the current record.
Tracking Item	The tracking type.
Disposition	The disposition.
Start Dt	The tracking start date.

In this field:	View this:
End Dt	The tracking end date.
Followup Dt	The next follow-up date.
Comment	Comments if any.
Tracking Item Details section	
Enabled	Select to track the information from start date in the Start Dt field.
Parameter	The parameter.
Value	The tracking parameter value.

4.12.3 Seller sub tab

The Collateral link's Seller Details screen enables you to view seller details of the collateral of Lease. You cannot edit or modify details of the seller.

1. In **Seller Details** section, click **View**.
2. View the following:

In this field:	View this:
Seller Details	
Seller Type	The seller type.
Seller Name	The seller name.
Nationality	The nationality of the seller.
National Id	The national Id of the seller.
Authorized Signatory	The authorized signatory of the seller.

3. In **Seller Address** section click **View**.
4. View the following:

Seller Address	
Mailing	If selected, indicates that this address is the mailing address.
Current	If selected, indicates that this address is the current address.
Country	The seller's country name.
Address #	The seller's address.
City	The seller's city name.
State	The seller's state name.

4.13 Customer Service screen's Bureau tab

The Customer Service screen Bureau screen enables you to view credit bureau reports associated with the account that were pulled during servicing for account. You can also use the Bureau screen to create and pull additional credit bureau reports and view the results as a text only file.

To view an existing credit bureau report

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service link bar, click **Bureau**.
3. In the **View Report** section:
Click **Servicing** to view credit reports generated with the Customer Service screen.
-or-
Click **Origination** to view credit reports generated during Lease origination.
4. In the **Bureau Details** section, select the report you want to view.
The system displays report as a text file in the Text Report section.

To request a manual credit bureau report

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service link bar, click **Bureau**.
3. Click **Add** to open **New Request** section.
4. Complete the following fields:

In this field:	Do this:
Applicant/ Customer	Select the available applicant/customer from the drop-down list.
Spouse	Select the applicant's spouse from the drop-down list.
Bureau	Select the credit bureau from the drop-down list.
Report	Select the credit bureau report type from the drop-down list.

5. In the **New Request** section, click **Create Request**.
The system displays this information in the Bureau Details section and further information about customer in Applicant/Customer Detail section.
6. If you want to receive a copy of a previously pulled credit bureau report, enter credit bureau reorder number in the Credit Bureau Reorder # field on the Bureau Details section.
7. Click **Save**.

You can print the report by selecting the report and clicking on **Print Report**.

4.14 Customer Service screen's Cross/Up Sell Activities tab

The Customer Service screen's Cross/Up Sell Activities tab enables you to view and edit all the captured marketing trigger based events for respective customers linked primary accounts.

Oracle Financial Services Lending and Leasing Application has been integrated with a third party database marketing solutions provider to receive monitoring triggers related to marketing based call activities. Primarily the active customer details are shared through an input file and corresponding monitoring triggers data within the processed customer input file are uploaded back into designated location of OFSLL database through an automated interface.

The Customer Service screen's Cross/Up Sell Activities tab displays the first 10 marketing trigger based call activities with the opportunity details and follow-up requirements. You can select **View All** check box to view all the 'active' and 'closed' call activities.

4.14.1 Edit Cross/Up Sell Activity

To edit a reported Cross/Up Sell Activity

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service link bar, click **Cross/Up Sell Activities**.
3. Select the record which you want to update and click **Edit**.
4. Complete the following fields:

In this field:	Do this:
Trigger Dt	View the date on which the activity has been recorded.
Product	Select the product from drop-down list.
Trigger Action	View the trigger action captured.
Trigger Description	View the description of the action.
Result	Select the result of the action from the drop-down list.
Reason	Select the desired reason for the result selected.
Appn'mnt	Select the check box to indicate if a prior appointment is required for next communication.
Followup Dt	Select the agreed follow-up date from the adjoining calendar icon.
Close	If there is no follow-up and the opportunity is closed, you can select this check box indicating the status of call activity as closed.
Time Zone	Select the time zone of the contact from the drop down list.
Comments	Specify additional information, if any.

5. Click **Save and Stay** or any other save option as explained in Basic Actions section.

4.14.2 **Create Simple Application**

You can use the call activity data and directly initiate the Lease Origination process from Cross/Up Sell Activities tab.

To create simple application

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service link bar, click **Cross/Up Sell Activities**.
3. Select the required call activity record and click **Create Simple Application**.
The system opens Origination > Simple Application Entry screen with Application section capturing the details of call activity.

You can enter/edit the required details and continue creating credit application data into Oracle Financial Services Lending and Leasing Application.

For detailed information, refer to Simple Application Entry chapter in Lease Origination User Manual.

4.14.3 **Close Opportunity**

You can close an opportunity based on the response received from customer and if there are no follow-ups required. However, you can close an opportunity and de-link the same from an account only when all the records are closed.

To close an opportunity

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service link bar, click **Cross/Up Sell Activities**.
3. Ensure that all the records are marked as closed and click **Close Opportunity**.

4.15 **Review Request**

The Review Requests page is primarily a work flow tool used to flag an account or an application for the attention of another Oracle Financial Services Lending and Leasing user and ask for feedback. It allows the system users to send and receive requests (including e-mail) commenting on a specific account or application.

In this chapter, you will learn how to compete the following tasks:

- Reviewing a request
- Sending a review request
- Responding to a review request
- E-mailing a Review Request
- Closing a review request

Note the following:

- You can complete the above tasks for an Account Review Request using Review Request page in the Servicing master tab.
- To complete the above mentioned tasks for an Application Review Request, use Review Request page available in the Origination master tab.

4.15.1 Review Requests Tab

The Review Requests page contains the following sections:

- Query Section
- Action Section
- Email Section
- Review request records
- Comments Sections

Query Section

The **Query** section enables you to filter records according to priority levels i.e.high, normal or low based on any of the following:

Query Options	Descriptions
Originator	Displays the records of all the active review requests you created.
Receiver	Displays the records of all the active review requests you received.
Both	Displays all the review requests records you have created as well as received with the status other than 'CLOSED'.
View All	Displays all the review requests records you sent and received, both active and closed.

Action Section

The **Action** section enables you to send, respond or close the review request.

Action Options	Descriptions
Open Application/Account	Opens the application details page to review the request. (if you open it from origination it's application and if from servicing den account)
Send Request	Sends a review request to another Oracle Financial Services Lending and Leasing user.
Send Response	Sends a response to a review request from another Oracle Financial Services Lending and Leasing user.
Close Request	Changes the status of review request to CLOSED and removes its record from the Review Request page. The status can be viewed by selecting 'View All' in the 'Query' section.

Email Section:

The **Email** section enables you to send an email to either originator or receiver of the review request which cannot be responded or replied back from email recipient.

Email Options	Descriptions
Originator	Sends an email of review request information to the person listed in the Originator column on Review Request page.
Receiver	Sends an email of review request to the person listed in the Receiver column on Review Request page.

Comments Sections

The **Comments** section enables originator or receiver to specify additional information that needs to be sent with the request.

Comments From	Descriptions
Originator Comment	Displays comments specified by the originator of review request at the time of creating a request.
Receiver Comment	Displays comments specified by the receiver of review request at the time of reviewing a request.

4.15.1.1 Reviewing a Request

System displays the priority and the number of requests ready for review, if any, for your user id at **My Pending Review Requests By Priority** section in the **Servicing Dash Board** window.

To review requests

1. On the Oracle Financial Services Lending and Leasing application home page, click **Servicing** main tab and then click Servicing drop-down link. Click **Customer Service** link.

The Customer Service window appears, opened at the **Results** tab. Under Customer Service screen, click **Review Requests** tab.

2. In the **Query** section, click **Receiver**.

In the Review Request record, the system displays all open review request you have received.

The screenshot displays the Oracle Financial Services Lending and Leasing application interface. The top navigation bar includes the Oracle logo, the application name, and user information (Welcome, DEMOSUPR). The left sidebar contains a navigation menu with options like Dashboard, Origination, Servicing, Collections, WFP, Tools, and Setup. The main content area is titled 'Customer Service' and shows the 'Review Requests' tab. Below the tab, there are filters for 'Query' (Originator, Receiver, Both) and 'Action' (Open Account, Send Request, Send Response, Close Request). A table lists review requests with columns for Originator, Priority, Receiver, Account #, Reason, and Status. Two requests are visible: one from DEMO SUPERUSER with priority HIGH and another with priority NORMAL. Below the table, there are sections for 'Originator Comment' and 'Receiver Comment'.

Originator	Priority	Receiver	Account #	Reason	Status
DEMO SUPERUSER	HIGH	ANSHUMAN PANDIA	20120100010026	REVIEW TRANSACTIONS	NEW
DEMO SUPERUSER	NORMAL	ANSHUMAN PANDIA	20120100010034	REVIEW CUSTOMER DETAILS	WAITING FOR RESPONSE

3. In the Review Request record, select the record you want to view and click **View**. The following screen is displayed.

4. For the selected **Review Request** record, view the following information:

Fields	Descriptions
Originator	The user id of the request originator.
Priority	The request priority: HIGH, NORMAL, or LOW.
Receiver	The recipient of the request.
Account #	The account number which needs review.
Transaction	The transaction selected.
Reason	The review reason.
Status	The request status.
Date	The date and time when the request was created.
Originator Comment	The comment by the originator which creating a request.
Receiver Comment	The comment by the receiver after reviewing a request.

Note

If you click **Open Account**, system loads the account in review request and displays the Account Details page.

4.15.1.2 Sending a Review Request

The **Send Request** button enables you to send a review request to another the system user. However, the **Send Request** button is enabled only if you have specified the receiver while creating a review request and have saved it.

To send a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing** main tab and then click **Servicing** drop-down link. Click **Review Requests** tab.
2. In the **Review Requests** page in the **Query** section, select **Originator**.
3. Click **Add** to create a new review request. The following screen is displayed:

The screenshot shows the Oracle Financial Services Lending and Leasing application interface. The left sidebar contains navigation links: Dashboard, Origination, Servicing, Collections, WFP, Tools, and Setup. The main area is titled 'Customer Service' and 'Review Request (Pending: 0)'. It contains a 'Review Requests' table with columns: Originator, Priority, Receiver, Account #, Reason, and Status. Below the table is a form to create a new review request with fields for Originator, Priority, Receiver, Account #, Reason, and a large text area for Originator Comment. There are also buttons for 'Save and Add', 'Save and Stay', 'Save and Return', and 'Return'.

4. In the **Priority** field, select the priority of review request: **High**, **Normal**, or **Low** which helps the recipient in responding to requests. It does not affect the order in which messages are sent or received.
5. In **Receiver** field, select the person you want to receive the message.
6. In **Account #** field, select the account involved with the review request.
The default value **NEW** appears in the **Status** field.
7. In **Reason** field, select the purpose for the review request.
8. In **Originator Comment** field, specify any additional message you want to send along with the review request.
9. Click **Save And Add/Save And Return**.

The review request is created and Send Request button is enabled in the Action section.

10. In the **Action** section, click **Send Request**.

The system sends your request to the recipient's, where it appears on **My Pending Review Request** window in Dash Board with status SENT TO ORIGINATOR.

4.15.1.3 Responding to a Review Request

When you receive a review request, the system notifies you by creating an entry in **My of Pending Review Requests By Priority** section in **Dash Board** with the number of unseen messages. In the following example, one review request is waiting on the Review Request page.

To respond to a review request

- On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link. Click **Customer Service** link. If the **Number of Pending Review Requests** tab displays a number, click **Review Requests** tab. On the Review Request page **Query** section, select **Receiver**.

The system displays the unread review requests in Review Request record.

2. In the **Review Request** record, select the record you want to view and click **View**.

3. Click **Open Account**.

The system loads the account on Customer Service screen and displays Account Details page.

4. Perform requested task on review request on the account. Click Review Request tab and selecting request, click **Edit**. Specify your response in the **Receiver Comment** field. Click **Save And Return**.

5. In the **Action** section, click **Send Request**.

The system sends your response to the originator, where it appears on **Review Request** page with status RETURN TO ORIGINATOR.

The recipient can view sent response by clicking **Receiver** or **View All** in **Query** section. (The request has a status as RETURN TO ORIGINATOR.)

6. In the **Action** section, click **Close Request**

It will remove the message from the Review Request section.

Back on the originator's Review Request page, the message appears when **Originator** is selected in **Query** section. The request has a status as RETURN TO ORIGINATOR.

4.15.1.4 E-mailing a Review Request

While system updates **My Pending Review Requests By Priority** section in the **DashBoard** to notify you about the new requests, you can also e-mail a review request to both the originator and a receiver, as applicable. The system will use e-mail address recorded for both the originator and receive in **User Definition** section in User page.

To e-mail a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link.
2. Click **Customer Service** link.
3. On the Customer Service link, click **Review Requests** tab.
4. Select the request you want to e-mail in the **Review Request** section.
5. In **Email** section, click **Originator** to send the message to the person listed in Originator field.

-or-

Click **Receiver** to send it to the person listed in the **Receiver** field.

The system emails the details of selected record to e-mail address recorded in user setup.

4.15.1.5 Closing a Review Request

You can close a review request you created at anytime, regardless of status. However, you can only close review requests that have your user id in the Originator field. When you close a review request, the system removes it from Review Request record.

To close a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link.
2. Click **Customer Service** link.
3. On the Customer Service link, click **Review Requests** tab.
4. Select the request you want to close in the **Review Request** section.
5. In the **Action** section, click **Close Request**.

The system assigns the request as **CLOSED** and removes it from your Review Request record. The closed accounts can be reviewed anytime by selecting **View All** in the **Query** section.

5. Collections

5.1 Introduction

After an application has cycled through the Lease origination process, it becomes an account. Account maintenance and collections tasks can be performed with Oracle Financial Services Lending and Leasing's Collection screen.

The Collection screen enables you to view and manage all customer information in a centralized location to ensure data integrity and provide better service. Oracle Financial Services Lending and Leasing provides online real-time information about the applicant(s), contract, account balances, dues, transactions, call activities, and comments. Oracle Financial Services Lending and Leasing also supports back-dating of financial transactions till the account's opening date.

Activating an Account

An account is automatically activated when you fund the contract using Funding main tab or convert from a legacy system.

Posting and Reversing Payments

A payment can be posted and reversed on the Payments screen.

Account Mask

After an application completes the Lease origination cycle and is funded or is ported into the system, it becomes an account and receives an account number. The system assigns account numbers using the following logic:

YYYYMMNNNNNNNX

where:

YYYYMM = contract date

NNNNNN = serial number

X = check digit

The system sorts accounts using the **NNNNNN** portion only. That portion is referred to as the account ID.

5.2 Search Tab

There are two types of search available.

- Account
- Customer

5.2.1 Searching for a Customer or Account

There are a number of different ways to load customer details on the Collections screen.

- Use the Search screen by selecting Customer Centric option(s).

- Use the Quick Search section to search for the customer by Account Number, or Customer Id, or by specifying the last four digits of Primary SSN (SSN of the primary applicant).
- Use the Next Account feature to load the customer from a predefined queue.

For details on how to search and load the customer or account details using Search screen, refer [Search Using Customer Details](#) section in **Search Function** chapter.

5.3 Customer Service screen

Most screens on the Customer Service screen contain the Account(s) and Customer(s) sections as a header. The Account(s) section provides a quick overview of an account by displaying its company, branch, account number, product, payoff amount and amount due, status, and oldest due date. The information on Customer Service screen always refers to the account selected in this section.

The Customer(s) section displays information about customer(s) attached to the account. The information on Customer Service screen always refers to the customer selected in this section.

To view account details in Account(s) and Customer(s) sections, open the **Collections** screen and load the account you want to work with.

For details on this screen refer [Customer Service screen](#) section in **Customer Service** chapter.

5.4 Customer Service screen's Summary tab

Open the **Collections** screen and load the account you want to work with. By default the Customer Service screen opens the **Summary** tab.

The screenshot displays the Oracle Financial Services Lending and Leasing Customer Service screen, specifically the Summary tab. The interface includes a top navigation bar with the Oracle logo, user information (Welcome, DEMOSUPR), and links for Accessibility and Sign Out. A left sidebar contains a navigation menu with options like Dashboard, Origination, Servicing, Collections, Alerts, and Setup. The main content area is titled 'Collections' and features a 'Customer Service' section with a search bar and a 'Review Request (Pending: 0)' indicator. Below this is an 'Account(s)' section with a table for account details, currently showing 'No data to display.' The 'Summary' tab is active, showing various sections: 'Alerts', 'Conditions', 'Account Details' (with 'Dues' and 'Delinquency Information' subsections), 'Other Information' (with 'Customer Information', 'Address Information', 'Employment Information', and 'Telecom Information' subsections), and 'Activities'. Each subsection contains a table of data, with many currently showing 'No data to display.'

For details on this screen refer [Customer Service screen's Summary tab](#) section in **Customer Service** chapter.

5.5 Customer Service screen's Customer Service tab

Open the **Collection** screen and load the account you want to work with. Click the **Customer Service** tab to view the sections under it.

5.5.0.1 Recording a Call Activity

To record a call activity

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Call Activities** tab under it. Click **Add**. The system displays the following screen.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The top navigation bar includes the Oracle logo, the text 'Financial Services Lending and Leasing', and user information: 'Welcome, DEMOSUPR', 'Accessibility', and 'Sign Out'. The main window is titled 'Collections' and has a 'Customer Service' sub-tab selected. Below the sub-tab, there are tabs for 'Summary', 'Customer Service', 'Account Details', 'Customer Details', 'Transaction History', 'Print Modes', 'Bureau', 'Call Activities', 'Maintenance', 'Comments', 'Promises', 'Checklists', 'Tracking Attributes', 'References', 'Correspondence', and 'Letters'. The 'Call Activities' tab is active, showing a table with columns: Action, Result, Contact, Reason, Promise Dt, Promise Amt, Condition, Appn't, and Followup Dt. The table is currently empty, and there are buttons for 'Save and Add', 'Save and Stay', 'Save and Return', and 'Return'.

For details on this screen refer [Customer Service screen's Customer Service tab](#) section in **Customer Service** chapter.

5.6 Customer Service screen's Account Details tab

Open the **Collections** screen and load the account you want to work with. Click the **Account Details** tab to view the sections under it.

5.6.1 Account Details sub tab

Oracle Financial Services Lending and Leasing enables you to view account details using Account Details sub tab.

In the **Account Information** section click **View**.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The left sidebar contains navigation options: Dashboard, Origination, Servicing, and Collections. The main area is titled 'Collections' and shows 'Customer Service: 20120300016684'. Below this, the 'Account(s): 20120300016684: RYUGA HIDEKI / MISA' is displayed. The 'Account Information' section is active, showing a table with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. The status is 'ACTIVE-DELQ-SCHEDULED CHGOFF'. Below the table, there are tabs for Summary, Customer Service, Account Details, Customer Details, Transaction History, Print Modes, Collateral, and Bureau. The 'Account Details' tab is selected, showing a table with columns: # of Extensions (Year), # of Extensions (Life), # of Extension Term (Year), # of Extension Term (Life), # of Due Day changes (Year), # of Due Day changes (Life), Last Extn Dt, Due Day Change Dt, and Total Tr. The 'Additional Details' section shows: Total Term 36, Paid Term 1, Maturity Dt 02/10/2015.

For details on this screen refer [Customer Service screen's Account Details tab](#) section in **Customer Service** chapter.

5.7 Customer Service screen's Customer Details tab

Open the **Customer Service** screen and load the account you want to work with. Click the **Customer** tab to view the sections under it.

Information gathered on the application entry process regarding the customer and customer's address, employment data, and phone numbers appears on the Customer Details screen. Using the Customer Service screen's Customer Details tab, you can update or add to a customer's address, employment information, or phone listing. All the information about the customer can be changed using Maintenance screen.

To view or edit customer information

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Details** sub tab.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The left sidebar contains navigation options: Dashboard, Origination, Servicing, and Collections. The main area is titled 'Collections' and shows 'Customer Service: 20120300016684'. Below this, the 'Account(s): 20120300016684: RYUGA HIDEKI / MISA' is displayed. The 'Customer Details' tab is selected, showing a table with columns: Customer #, Relation, ECOA, Name, SSN, Birth Dt, Marital Status, Enabled, and Lang. The 'Customer Information' section is active, showing a form with fields for Customer #, Relation, ECOA, Name, SSN, Birth Dt, Marital Status, Enabled, and Lang. The 'Identification Details' section shows fields for Stop Correspondence, Disability, Ship, Bankruptcy, Privacy Opt Out, Existing CIP, National ID, SSN, License #, License State, Active Military Duty, Effective Dt, Order Ref #, Release Dt, and Customer Deceased Date. The 'Addresses' section shows fields for Address, City, State, Zip, and Phone.

For details on this screen refer [Customer Service screen's Customer Details tab](#) section in *Customer Service* chapter.

5.8 Customer Service screen's Transaction History tab

Open the **Customer Service** screen and load the account you want to work with. Click the **Transaction History** tab to view the sections under it.

For details on this screen refer [Customer Service screen's Transaction History tab](#) section in *Customer Service* chapter.

5.9 Customer Service screen's Pmt Modes tab

Open the **Customer Service** screen and load the account you want to work with. Click the **Pmt Modes** sub tab to view the sections under it.

5.9.1 ACH sub tab

If used, the **ACH** section displays information about automated clearing house and electronic fund transfers.

To view the ACH information screen

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Pmt Modes** tab, then click **ACH** sub tab.

For details on this screen refer [Customer Service screen's Pmt Modes tab](#) section in *Customer Service* chapter.

5.10 Customer Service screen's Collateral tab

The Collateral screen displays information regarding any assets associated with an account. Collateral can be a vehicle, home, or something else, such as household goods. The Collateral screen contains the **Home** and **Seller** sub tabs. **To view the collateral details**

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Collateral** tab. The system displays the following screen:

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The top navigation bar includes the Oracle logo, "Financial Services Lending and Leasing", and user information: "Welcome, DEMOSUPR", "Accessibility", "Sign Out", and a help icon. The left sidebar contains a menu with "Dashboard", "Origination", "Servicing", and "Collections". The "Collections" section is expanded, showing sub-items like "Collections", "Bankruptcy", "Repossession", "Reports", "Producers", and "Vendors". The main content area is titled "Collections" and shows "Customer Service: 20140300018472". Below this, there's a search bar and a "Review Request (Pending: 0)" button. The account details are displayed: "Account(s): 20140300018472: SALES TAX BAVNA". A table lists the account details with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. The table shows one row: "US01", "USHQ", "20140300018472", "LEASE VEHICLE", "USD", "16,498.26", "3,299.06", "04/03/2014", and "ACTIVE:DELTQ". Below the table, there are tabs for "Summary", "Customer Service", "Account Details", "Customer Details", "Transaction History", "Pmt Modes", "Collateral", and "Bureau". The "Collateral" tab is selected, showing a "Vehicle" section. The "Vehicle" section has a "Vehicle" sub-tab and a "Seller" sub-tab. The "Vehicle" sub-tab is active, showing a table with columns: Primary, Description, Status, Asset Type, Lien Status, Lien Event Date, Comments, and Identification #. The table shows one row: "Y", "2014 TOYOTA CAMR", "ACTIVE", "VEHICLE", "UNDEFINED", and empty cells for "Lien Status", "Lien Event Date", "Comments", and "Identification #". Below the table, there are buttons: "Save and Add", "Save and Stay", "Save and Return", and "Return". The "Vehicle" section also has a "Type & Description" section with fields for "Primary", "Substitution", "Asset #", "Asset Class", "Asset Type", "Sub Type", "Registration #", "Status", "Select Make and Model", "Year", "Make", and "Model". The "Lien Details" section has fields for "Body", "Description", "Condition", "Lien Status", "Lien Event Date", and "Comments". The "Usage Details" section has fields for "Start", "Base", and "Extra". The "Address" section has fields for "Country", "Address #", "City", "State", "County", "Address Line 1", "Address Line 2", and "Zip".

For details on this screen refer [Customer Service screen's Collateral tab](#) section in **Customer Service** chapter.

5.11 Customer Service screen's Bureau tab

The Customer Service screen Bureau screen enables you to view credit bureau reports associated with account that were pulled during Lease servicing for the account. You can also use the Bureau screen to create and pull additional credit bureau reports and view the results as a text only file.

To view an existing credit bureau report

1. Open the **Customer Service** screen and load the account you want to work with.

2. On the Customer Service link bar, click **Bureau**.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The top navigation bar includes 'Dashboard', 'Origination', 'Servicing', and 'Collections'. The 'Collections' section is expanded, showing 'Collections', 'Bankruptcy', 'Repossession', 'Deficiency', 'Reports', 'Producers', and 'Vendors'. The main content area is titled 'Collections' and has a 'Customer Service' link bar. The 'Bureau' tab is selected. The 'Bureau Details' section contains a table with columns: Type, Bureau, #, Status, Dt, Report, and Credit Bureau Reorder #. The table shows one row with 'Bureau' as the Type, '11/04/2014' as the Dt, and 'Report' as the Report. Below the table is a 'New Request' section with dropdowns for Customer, Spouse, Bureau, and Report. The 'Applicant/Customer Detail' section has a table with columns: Type, First Name, MI, Last Name, Status, Birth Dt, SSN, Suffix, and Address Type. The 'Bureau Report' section has a 'Print Report' button. The bottom navigation bar includes 'WFP', 'Tools', and 'Setup'.

3. For details on this screen refer [Customer Service screen's Collateral tab](#) section in **Customer Service** chapter.

5.12 Review Request

The Review Requests page is primarily a work flow tool used to flag an account or an application for the attention of another Oracle Financial Services Lending and Leasing user and ask for feedback. It allows the system users to send and receive requests (including e-mail) commenting on a specific account or application.

In this chapter, you will learn how to complete the following tasks:

- Reviewing a request
- Sending a review request
- Responding to a review request
- E-mailing a Review Request
- Closing a review request

Note the following:

- You can complete the above tasks for an Account Review Request using Review Request page in the Servicing master tab.
- To complete the above mentioned tasks for an Application Review Request, use Review Request page available in the Origination master tab.

5.12.1 Review Requests Tab

The Review Requests page contains the following sections:

- Query Section

- Action Section
- Email Section
- Review request records
- Comments Sections

Query Section

The **Query** section enables you to filter records according to priority levels i.e.high, normal or low based on any of the following:

Query Options	Descriptions
Originator	Displays the records of all the active review requests you created.
Receiver	Displays the records of all the active review requests you received.
Both	Displays all the review requests records you have created as well as received with the status other than 'CLOSED'.
View All	Displays all the review requests records you sent and received, both active and closed.

Action Section

The **Action** section enables you to send, respond or close the review request.

Action Options	Descriptions
Open Application/Account	Opens the application details page to review the request. (if you open it from origination it's application and if from servicing den account)
Send Request	Sends a review request to another Oracle Financial Services Lending and Leasing user.
Send Response	Sends a response to a review request from another Oracle Financial Services Lending and Leasing user.
Close Request	Changes the status of review request to CLOSED and removes its record from the Review Request page. The status can be viewed by selecting 'View All' in the 'Query' section.

Email Section:

The **Email** section enables you to send an email to either originator or receiver of the review request which cannot be responded or replied back from email recipient.

Email Options	Descriptions
Originator	Sends an email of review request information to the person listed in the Originator column on Review Request page.

Email Options	Descriptions
Receiver	Sends an email of review request to the person listed in the Receiver column on Review Request page.

Comments Sections

The **Comments** section enables originator or receiver to specify additional information that needs to be sent with the request.

Comments From	Descriptions
Originator Comment	Displays comments specified by the originator of review request at the time of creating a request.
Receiver Comment	Displays comments specified by the receiver of review request at the time of reviewing a request.

5.12.1.1 Reviewing a Request

System displays the priority and the number of requests ready for review, if any, for your user id at **My Pending Review Requests By Priority** section in the **Servicing Dash Board** window.

To review requests

- On the Oracle Financial Services Lending and Leasing application home page, click **Servicing** main tab and then click Servicing drop-down link. Click **Customer Service** link.
The Customer Service window appears, opened at the **Results** tab. Under Customer Service screen, click **Review Requests** tab.

2. In the **Query** section, click **Receiver**.

In the Review Request record, the system displays all open review request you have received.

4. For the selected **Review Request** record, view the following information:

Fields	Descriptions
Originator	The user id of the request originator.
Priority	The request priority: HIGH, NORMAL, or LOW.
Receiver	The recipient of the request.
Account #	The account number which needs review.
Transaction	The transaction selected.
Reason	The review reason.
Status	The request status.
Date	The date and time when the request was created.
Originator Comment	The comment by the originator which creating a request.
Receiver Comment	The comment by the receiver after reviewing a request.

Note

If you click **Open Account**, system loads the account in review request and displays the Account Details page.

5.12.1.2 **Sending a Review Request**

The **Send Request** button enables you to send a review request to another the system user. However, the **Send Request** button is enabled only if you have specified the receiver while creating a review request and have saved it.

To send a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing** main tab and then click **Servicing** drop-down link. Click **Review Requests** tab.
2. In the **Review Requests** page in the **Query** section, select **Originator**.

- Click **Add** to create a new review request. The following screen is displayed:

Buttons: Save and Add, Save and Stay, Save and Return, Return

- In the **Priority** field, select the priority of review request: **High**, **Normal**, or **Low** which helps the recipient in responding to requests. It does not affect the order in which messages are sent or received.
- In **Receiver** field, select the person you want to receive the message.
- In **Account #** field, select the account involved with the review request.
- The default value **NEW** appears in the **Status** field.
- In **Reason** field, select the purpose for the review request.
- In **Originator Comment** field, specify any additional message you want to send along with the review request.
- Click **Save And Add/Save And Return**.

The review request is created and Send Request button is enabled in the Action section.

Request Processed Successfully

Buttons: Add, Edit, View, Audit, Email, Request, Send Response, Close Request, Originator, Receiver

- In the **Action** section, click **Send Request**.

The system sends your request to the recipient's, where it appears on **My Pending Review Request** window in Dash Board with status SENT TO ORIGINATOR.

5.12.1.3 Responding to a Review Request

When you receive a review request, the system notifies you by creating an entry in **My of Pending Review Requests By Priority** section in **Dash Board** with the number of unseen messages. In the following example, one review request is waiting on the Review Request page.

Oracle Financial Services Lending and Leasing

Signed in as DEMOGALES Accessibility Sign Out

Priority	Count
HIGH	1

To respond to a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link. Click **Customer Service** link. If the **Number of Pending Review Requests** tab displays a number, click **Review Requests** tab. On the Review Request page **Query** section, select **Receiver**.

The system displays the unread review requests in Review Request record.

2. In the **Review Request** record, select the record you want to view and click **View**.

Oracle Financial Services Lending and Leasing

Welcome, DEMOSUPR Accessibility Sign Out

Originator	Priority	Receiver	Account #	Reason	Status
DEMO SUPERUSER	HIGH	ANSHUMAN PANDA	20120100010026	REVIEW TRANSACTIONS	NEW

3. Click **Open Account**.

The system loads the account on Customer Service screen and displays Account Details page.

- Perform requested task on review request on the account. Click Review Request tab and selecting request, click **Edit**. Specify your response in the **Receiver Comment** field. Click **Save And Return**.

- In the **Action** section, click **Send Request**.

The system sends your response to the originator, where it appears on **Review Request** page with status RETURN TO ORIGINATOR.

The recipient can view sent response by clicking **Receiver** or **View All** in **Query** section. (The request has a status as RETURN TO ORIGINATOR.)

- In the **Action** section, click **Close Request**

It will remove the message from the Review Request section.

Back on the originator's Review Request page, the message appears when **Originator** is selected in **Query** section. The request has a status as RETURN TO ORIGINATOR.

5.12.1.4 E-mailing a Review Request

While system updates **My Pending Review Requests By Priority** section in the **Dashboard** to notify you about the new requests, you can also e-mail a review request to both the originator and a receiver, as applicable. The system will use e-mail address recorded for both the originator and receive in **User Definition** section in User page.

To e-mail a review request

- On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link.
- Click **Customer Service** link.
- On the Customer Service link, click **Review Requests** tab.
- Select the request you want to e-mail in the **Review Request** section.
- In **Email** section, click **Originator** to send the message to the person listed in Originator field.

-Or-

Click **Receiver** to send it to the person listed in the **Receiver** field.

The system emails the details of selected record to e-mail address recorded in user setup.

5.12.1.5 Closing a Review Request

You can close a review request you created at anytime, regardless of status. However, you can only close review requests that have your user id in the Originator field. When you close a review request, the system removes it from Review Request record.

To close a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link.
2. Click **Customer Service** link.
3. On the Customer Service link, click **Review Requests** tab.
4. Select the request you want to close in the **Review Request** section.
5. In the **Action** section, click **Close Request**.

The system assigns the request as CLOSED and removes it from your Review Request record. The closed accounts can be reviewed anytime by selecting **View All** in the **Query** section.

ORACLE®
Financial Services Lending and Leasing

Signed in as DEMOSALES Accessibility Sign Out

The screenshot displays the Oracle Financial Services Lending and Leasing application interface. On the left is a navigation menu with options like Dashboard, Origination, Servicing, and various transaction types. The main area is titled 'Customer Service' and shows a 'Review Request (Pending: 0)' section. Below this is a table of review requests with columns for Originator, Priority, Receiver, Account #, Reason, Status, and Date. Two requests are listed: one from DEMO SALES AGENT with priority HIGH and another from DEMO SALES AGENT with priority NORMAL. Below the table are sections for 'Originator Comment' and 'Receiver Comment'.

DEMO SALES AGENT	NORMAL	DEMO FLINDER	20120500010824	REVIEW BALANCES	NEW	10/

6. Bankruptcy

6.1 Introduction

After an application has cycled through the Lease origination process, it becomes an account. Account maintenance and collections tasks can be performed with Oracle Financial Services Lending and Leasing's Bankruptcy screen.

The Bankruptcy screen enables you to view and manage all customer information in a centralized location to ensure data integrity and provide better service. Oracle Financial Services Lending and Leasing provides online real-time information about the applicant(s), contract, account balances, dues, transactions, call activities, and comments. Oracle Financial Services Lending and Leasing also supports back-dating of financial transactions till the account's opening date.

Activating an Account

An account is automatically activated when you fund the contract using the Funding main tab or convert from a legacy system.

Posting and Reversing Payments

A payment can be posted and reversed on the Payments screen.

Account Mask

After an application completes the Lease origination cycle and is funded or is ported into the system, it becomes an account and receives an account number. The system assigns account numbers using the following logic:

YYYYMMNNNNNNNX

where:

YYYYMM = contract date

NNNNNN = serial number

X = check digit

The system sorts accounts using the **NNNNNN** portion only. That portion is referred to as the account ID.

6.2 Search Tab

There are two types of search available.

- Account
- Customer

6.2.1 Searching for a Customer or Account

There are a number of different ways to load the customer details on the Bankruptcy screen.

- Use the Search screen by selecting Customer Centric option(s).

- Use the Quick Search section to search for the customer by Account Number, or Customer Id, or by specifying the last four digits of Primary SSN (SSN of the primary applicant).
- Use the Next Account feature to load the customer from a predefined queue.

*For details on how to search and load the customer or account details using Search screen, refer [Search Using Customer Details](#) section in **Search Function** chapter.*

6.3 **Customer Service screen**

Most screens on the Customer Service screen contain the Account(s) and Customer(s) sections as a header. The Account(s) section provides a quick overview of an account by displaying its company, branch, account number, product, payoff amount and amount due, status, and oldest due date. The information on Customer Service screen always refers to the account selected in this section.

The Customer(s) section displays information about customer(s) attached to the account. The information on Customer Service screen always refers to the customer selected in this section.

To view account details in the Account(s) and Customer(s) sections, open **Bankruptcy** screen and load the account you want to work with.

On the **Customer Service** screen's **Account(s)** section, you can view the information based on your selection.

*For details on this screen refer [Customer Service screen](#) section in **Customer Service** chapter.*

6.4 Customer Service screen's Summary tab

Open the **Bankruptcy** screen and load the account you want to work with. By default the Customer Service screen opens the **Summary** tab.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The top navigation bar includes the Oracle logo, "Financial Services Lending and Leasing", and user information: "Welcome, DEMOSUPR", "Accessibility", and "Sign Out". The left sidebar contains a "DashBoard" menu with options: "Origination", "Servicing", "Collections", "Collections" (expanded), "Bankruptcy", "Repossession", "Deficiency", "Reports", "Producers", and "Vendors". The main content area is titled "Collections" and shows "Results" for "Customer Service". It includes a "Search" bar and a "Review Request (Pending: 0)" button. Below this is a table for "Account(s)" with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. The table is currently empty, showing "No data to display." Below the table are tabs for "Summary", "Customer Service", "Account Details", "Customer Details", "Transaction History", "Pmt Modes", and "Bureau". The "Summary" tab is active, showing sections for "Alerts", "Conditions", "Account Details", "Other Information", "Delinquency Information", "Activities", "Customer Information", "Address Information", "Employment Information", and "Telecom Information". Each section contains various data fields and buttons, such as "Dues", "Delq Due", "Total Due", "Future Pmt Dt", "Today's Payoff", "Oldest Due Dt", "Amt Paid Excess", "Future Payoff", "Date", "Late", "30", "60", "90", "120", "150", "180", "Category ID", "BP(Life)", "BP(Year)", "NSF(Life)", "NSF(Year)", "Collector", "Active Dt", "App #", "Last Pmt Amt", "Charge Off Dt", "Due Day", "Effective Dt", "Military Duty", "Last Pmt Dt", "Current Pmt", "Customer Score", "Customer Grade", "Last Bill Amt", "Behaviour Score", "Producer", "Email", "Disability", "Privacy Opt", "Language", "Skip", "Active Military", "Marital Status", "Correspondence", "Stop", "Duty", "Time Zone", "Type", "Current", "Permitted to Call", "Mailing", "Address", "Phone", "Type", "Current", "Permitted to Call", "Employer", "Address", "Type", "Current", "Permitted to Call", "Employer", "Address", "Type", "Current", "Permitted to Call", "Employer", "Address".

For details on this screen refer [Customer Service screen's Summary tab](#) section in **Customer Service** chapter.

6.5 Customer Service screen's Customer Service tab

Open the **Bankruptcy** screen and load the account you want to work with. Click the **Customer Service** tab to view the sections under it.

6.5.1 Call Activities sub tab

With **Call Activities** section, the system enables you to record the details of all actions you performed regarding this account. This includes calls from the customer, calls you make regarding the account, or changes to condition of the account. Entries in the **Call Activities** section are listed in reverse chronological order of follow-up date and are user defined.

Each action and result has a code and description. The code for call action and call result is what appears on the Call Activity sub screen.

6.5.1.1 Recording a Call Activity

To record a call activity

1. Open the **Bankruptcy** screen and load the account you want to work with.

- Click **Customer Service** sub tab and then click **Call Activities** tab under it. Click **Add**. The system displays the following screen.

For details on this screen refer [Customer Service screen's Customer Service tab](#) section in Customer Service chapter.

6.6 Customer Service screen's Account Details tab

Open the **Bankruptcy** screen and load the account you want to work with. Click the **Account Details** tab to view the sections under it.

6.6.1 Account Details sub tab

Oracle Financial Services Lending and Leasing enables you to view account details using Account Details sub tab.

In the **Account Information** section click **View**.

- For details on this screen refer [Customer Service screen's Account Details tab](#) section in Customer Service chapter.

6.7 Customer Service screen's Customer Details tab

Open the **Bankruptcy** screen and load the account you want to work with. Click the **Customer** tab to view the sections under it.

Information gathered on the application entry process regarding the customer and customer's address, employment data, and phone numbers appears on the Customer Details screen. Using the Customer Service screen's Customer Details tab, you can update or add to a customer's address, employment information, or phone listing. All the information about the customer can be changed using Maintenance screen.

To view or edit customer information

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Details** sub tab.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The left sidebar contains navigation options: Dashboard, Origination, Servicing, Collections, Bankruptcy, Repossession, Deficiency, Reports, Producers, and Vendors. The main area is titled 'Collections' and 'Customer Service'. It features a search bar and a 'Review Request (Pending: 0)' button. Below this is a table for 'Account(s)' with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. The 'Customer Details' tab is selected, showing a 'Customer Information' section with fields for Customer #, Relation, ECOA, Name, Birth Dt, Marital Status, Enabled, and Lang. Below this is a 'Customer Information' section with a 'Save and Stay' button. The 'Addresses' section is also visible, showing a table for 'Address Information' with columns: Address #, Address, City, State, Zip, and Phone. The 'Addresses' section is currently empty.

3. For details on this screen refer [Customer Service screen's Customer Details tab](#) section in *Customer Service* chapter.

6.8 Customer Service screen's Transaction History tab

Open the **Bankruptcy** screen and load the account you want to work with. Click the **Transaction History** tab to view the sections under it.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The left sidebar contains navigation options: Dashboard, Origination, Servicing, Collections, Bankruptcy, Repossession, Deficiency, Reports, Producers, and Vendors. The main area is titled 'Collections' and 'Customer Service'. It features a search bar and a 'Review Request (Pending: 0)' button. Below this is a table for 'Account(s)' with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. The 'Transaction History' tab is selected, showing a 'Balances' section with a table for 'Balance Group' with columns: Balance #, Balance, City, State, Zip, and Phone. The 'Balances' section is currently empty.

For details on this screen refer [Customer Service screen's Transaction History tab](#) section in *Customer Service* chapter.

6.9 Customer Service screen's Pmt Modes tab

Open the **Bankruptcy** screen and load the account you want to work with. Click the **Pmt Modes** sub tab to view the sections under it.

6.9.1 ACH sub tab

If used, the **ACH** section displays information about automated clearing house and electronic fund transfers.

To view the ACH information screen

1. Open the **Customer Service** screen and load the account you want to work with.

Click **Pmt Modes** tab, then click **ACH** sub tab.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The left sidebar contains a navigation menu with options like Dashboard, Origination, Servicing, Collections, Bankruptcy, Repossession, Deficiency, Reports, Producers, and Vendors. The main area is titled 'Collections' and 'Customer Service'. It features a search bar and a 'Review Request (Pending: 0)' button. Below this is a table for 'Account(s)' with columns for Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. The 'ACH' sub tab is selected, showing 'ACH Information' with a table for Reference #, Bank Name, Routing #, Account Type, Account #, Pmt Day, Pmt Amt, Pmt Amt Excess, and Pmt Freq. The bottom section contains fields for Reference #, Bank Name, Routing #, Account #, Pmt Day, Pmt Amt, Pmt Amt Excess, Pmt Freq, Fee Amt, Direct Debit Fee, Start Dt, End Dt, Default, and Status.

For details on Pmt Modes tab refer [Customer Service screen's Pmt Modes tab](#) section in Customer Service chapter.

6.10 Customer Service screen's Bankruptcy tab

The Bankruptcy screen enables you to record the details of a bankruptcy. This information usually is supplied from the customer or customer's attorney. You can track each stage of the bankruptcy process based on its follow-up date and record information using the Details and Tracking sections.

As there are occasions when a borrower files bankruptcy more than once during the tenure of the Lease, you can record information for multiple bankruptcies. The **Add** button enables you to create a new bankruptcy record with different start and end dates. You can also use the Bankruptcy screen to view the previous bankruptcy record using Next and Previous buttons in the Detail section. The Current box in Detail section indicates the current bankruptcy details.

To enter bankruptcy details for an account

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Bankruptcy** tab.
3. In the **Bankruptcy Details** section, select the bankruptcy record you want to work with.

-Or-

Select **Add** to refresh the Bankruptcy screen to create a new record.

The screenshot displays the Oracle Financial Services Lending and Leasing application interface. The left sidebar contains navigation links: Dashboard, Origination, Servicing, Collections, WFP, Tools, and Setup. The main window is titled 'Bankruptcy' and features a 'Customer Service' tab. Below the tab, there are sections for 'Account(s)', 'Bankruptcy Details', 'Tracking', and 'Call Activities'. The 'Bankruptcy Details' section includes a table with columns for Current, Followup Dt, Disposition, Type, Customer, Relation, Comment, File Received Dt, Bankruptcy Start Dt, and Bankruptcy End Dt. The 'Tracking' section has a table with columns for Sub Parameter, Parameter, and Value. The 'Call Activities' section has a table with columns for Comments and Due Date History. The interface also includes various action buttons like 'Add', 'Edit', 'View', 'Audit', 'Save and Add', 'Save and Stay', 'Save and Return', and 'Return'.

For details on this screen refer [Customer Service screen's Bankruptcy tab](#) section in *Customer Service* chapter.

6.11 Customer Service screen's Collateral tab

The Collateral screen displays information regarding any assets associated with an account. Collateral can be a vehicle, home, or something else, such as household goods. The Collateral screen contains the **Home** and **Seller** sub tabs. **To view the collateral details**

1. Open the **Customer Service** screen and load the account you want to work with.

- Click **Collateral** tab. The system displays the following screen:

The screenshot displays the Oracle Financial Services Lending and Leasing interface. The top navigation bar includes 'Dashboard', 'Origination', 'Servicing', and 'Collections'. The 'Collections' section is expanded, showing 'Collections', 'Bankruptcy', 'Repossession', 'Deficiency', 'Reports', 'Producers', and 'Vendors'. The main area shows the 'Collateral' tab for account '20140300018472: SALES TAX BAVNA'. A table lists the collateral items, with one item highlighted: '2014 TOYOTA CAMR' with an 'ACTIVE' status and 'VEHICLE' asset type. Below the table, the 'Vehicle' details form is visible, showing fields for 'Type & Description', 'Lien Details', 'Usage Details', and 'Address'. The 'Type & Description' section includes 'Primary' (checked), 'Substitution' (checked), 'Asset #', 'Asset Class', 'Asset Type', 'Sub Type', 'Registration #', 'Status' (ACTIVE), and 'Select Make and Model'. The 'Lien Details' section includes 'Body', 'Description', 'Condition', 'Lien Status', 'Lien Event Date', and 'Comments'. The 'Usage Details' section includes 'Start', 'Base', and 'Extra'. The 'Address' section includes 'Country' (UNITED STATES), 'Address #', 'City', 'State', 'County', 'Address Line 1', 'Address Line 2', and 'Zip'.

- If the account's collateral is a vehicle, **Collateral** screen opens at the **Vehicle** tab:
- If the account's collateral is a home, **Collateral** screen opens at the **Home** tab.
- If the account's collateral is neither a vehicle nor a home, **Collateral** screen opens at the **Other** Collateral.

For details on this screen refer [Customer Service screen's Collateral tab](#) section in **Customer Service** chapter.

6.12 Customer Service screen's Bureau tab

The Customer Service screen Bureau screen enables you to view credit bureau reports associated with account that were pulled during servicing for the account. You can also use the Bureau screen to create and pull additional credit bureau reports and view the results as a text only file.

To view an existing credit bureau report

- Open the **Customer Service** screen and load the account you want to work with.

2. On the Customer Service link bar, click **Bureau**.

The screenshot displays the Oracle Financial Services Lending and Leasing Customer Service interface. The 'Bureau' tab is selected in the 'Customer Service' section. The interface shows a 'Bureau Details' section with a table for 'Bureau' data, a 'New Request' section with dropdowns for Customer, Bureau, and Report, and an 'Applicant/Customer Detail' section with a table for applicant information. The 'Bureau Report' section is also visible at the bottom.

For details on this screen refer [Customer Service screen's Collateral tab](#) section in **Customer Service** chapter.

6.13 Review Request

The Review Requests page is primarily a work flow tool used to flag an account or an application for the attention of another Oracle Financial Services Lending and Leasing user and ask for feedback. It allows the system users to send and receive requests (including e-mail) commenting on a specific account or application.

In this chapter, you will learn how to complete the following tasks:

- Reviewing a request
- Sending a review request
- Responding to a review request
- E-mailing a Review Request
- Closing a review request

Note the following:

- You can complete the above tasks for an Account Review Request using Review Request page in the Servicing master tab.
- To complete the above mentioned tasks for an Application Review Request, use Review Request page available in the Origination master tab.

6.13.1 Review Requests Tab

The Review Requests page contains the following sections:

- Query Section
- Action Section
- Email Section
- Review request records
- Comments Sections

Query Section

The **Query** section enables you to filter records according to priority levels i.e.high, normal or low based on any of the following:

Query Options	Descriptions
Originator	Displays the records of all the active review requests you created.
Receiver	Displays the records of all the active review requests you received.
Both	Displays all the review requests records you have created as well as received with the status other than 'CLOSED'.
View All	Displays all the review requests records you sent and received, both active and closed.

Action Section

The **Action** section enables you to send, respond or close the review request.

Action Options	Descriptions
Open Application/Account	Opens the application details page to review the request. (if you open it from origination it's application and if from servicing den account)
Send Request	Sends a review request to another Oracle Financial Services Lending and Leasing user.
Send Response	Sends a response to a review request from another Oracle Financial Services Lending and Leasing user.
Close Request	Changes the status of review request to CLOSED and removes its record from the Review Request page. The status can be viewed by selecting 'View All' in the 'Query' section.

Email Section:

The **Email** section enables you to send an email to either originator or receiver of the review request which cannot be responded or replied back from email recipient.

Email Options	Descriptions
Originator	Sends an email of review request information to the person listed in the Originator column on Review Request page.

Email Options	Descriptions
Receiver	Sends an email of review request to the person listed in the Receiver column on Review Request page.

Comments Sections

The **Comments** section enables originator or receiver to specify additional information that needs to be sent with the request.

Comments From	Descriptions
Originator Comment	Displays comments specified by the originator of review request at the time of creating a request.
Receiver Comment	Displays comments specified by the receiver of review request at the time of reviewing a request.

6.13.1.1 Reviewing a Request

System displays the priority and the number of requests ready for review, if any, for your user id at **My Pending Review Requests By Priority** section in the **Servicing Dash Board** window.

To review requests

- On the Oracle Financial Services Lending and Leasing application home page, click **Servicing** main tab and then click Servicing drop-down link. Click **Customer Service** link.
The Customer Service window appears, opened at the **Results** tab. Under Customer Service screen, click **Review Requests** tab.

2. In the **Query** section, click **Receiver**.

In the Review Request record, the system displays all open review request you have received.

3. In the Review Request record, select the record you want to view and click **View**. The following screen is displayed.

4. For the selected **Review Request** record, view the following information:

Fields	Descriptions
Originator	The user id of the request originator.
Priority	The request priority: HIGH, NORMAL, or LOW.
Receiver	The recipient of the request.
Account #	The account number which needs review.
Transaction	The transaction selected.
Reason	The review reason.
Status	The request status.
Date	The date and time when the request was created.
Originator Comment	The comment by the originator which creating a request.
Receiver Comment	The comment by the receiver after reviewing a request.

Note

If you click **Open Account**, system loads the account in review request and displays the Account Details page.

6.13.1.2 **Sending a Review Request**

The **Send Request** button enables you to send a review request to another the system user. However, the **Send Request** button is enabled only if you have specified the receiver while creating a review request and have saved it.

To send a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing** main tab and then click **Servicing** drop-down link. Click **Review Requests** tab.
2. In the **Review Requests** page in the **Query** section, select **Originator**.

- Click **Add** to create a new review request. The following screen is displayed:

- In the **Action** section, click **Send Request**.

The system sends your request to the recipient's, where it appears on **My Pending Review Request** window in Dash Board with status **SENT TO ORIGINATOR**.

6.13.1.3 Responding to a Review Request

When you receive a review request, the system notifies you by creating an entry in **My of Pending Review Requests By Priority** section in **Dash Board** with the number of unseen messages. In the following example, one review request is waiting on the Review Request page.

ORACLE[®]
Financial Services Lending and Leasing

Signed in as DEMOGALES Accessibility Sign Out

Priority	Count
HIGH	1

To respond to a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link. Click **Customer Service** link. If the **Number of Pending Review Requests** tab displays a number, click **Review Requests** tab. On the Review Request page **Query** section, select **Receiver**.

The system displays the unread review requests in Review Request record.

2. In the **Review Request** record, select the record you want to view and click **View**.

ORACLE[®]

Welcome, DEMOSUPR Accessibility Sign Out

Originator	Priority	Receiver	Account #	Reason	Status
DEMO SUPERUSER	HIGH	ANSHUMAN PANDA	20120100010026	REVIEW TRANSACTIONS	NEW

3. Click **Open Account**.

The system loads the account on Customer Service screen and displays Account Details page.

- Perform requested task on review request on the account. Click Review Request tab and selecting request, click **Edit**. Specify your response in the **Receiver Comment** field. Click **Save And Return**.

The screenshot displays the Oracle Financial Services Lending and Leasing application interface. On the left is a sidebar with navigation tabs: Dashboard, Origination, Servicing, Collections, WFP, Tools, and Setup. The 'Servicing' tab is active, showing a tree view of service options. The main content area is titled 'Customer Service' and 'Review Request (Pending: 0)'. It contains a 'Query' section with a table of review requests and an 'Action' section with buttons like 'Add', 'Edit', 'View', 'Audit', 'Open Account', 'Send Request', 'Send Response', 'Close Request', 'Email', 'Originator', and 'Receiver'. The 'Email' button is highlighted. Below the table, there is a 'Review Requests' section with a form for editing a request. The form includes fields for 'Originator', 'Priority', 'Receiver', 'Account #', 'Reason', and 'Receiver Comment'. The 'Receiver Comment' field is highlighted with a red box.

Originator	Priority	Receiver	Account #	Reason	Status
DEMO SUPERUSER	HIGH	ANSHUMAN PANDA	20120100010026	REVIEW TRANSACTIONS	NEW
DEMO SUPERUSER	NORMAL	ANSHUMAN PANDA	20120100010034	REVIEW CUSTOMER DETAILS	WAITING FOR RESPONSE

- In the **Action** section, click **Send Request**.
The system sends your response to the originator, where it appears on **Review Request** page with status RETURN TO ORIGINATOR.
The recipient can view sent response by clicking **Receiver** or **View All** in **Query** section. (The request has a status as RETURN TO ORIGINATOR.)
- In the **Action** section, click **Close Request**
It will remove the message from the Review Request section.

Back on the originator's Review Request page, the message appears when **Originator** is selected in **Query** section. The request has a status as RETURN TO ORIGINATOR.

6.13.1.4 E-mailing a Review Request

While system updates **My Pending Review Requests By Priority** section in the **Dashboard** to notify you about the new requests, you can also e-mail a review request to both the originator and a receiver, as applicable. The system will use e-mail address recorded for both the originator and receive in **User Definition** section in User page.

To e-mail a review request

- On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link.
- Click **Customer Service** link.
- On the Customer Service link, click **Review Requests** tab.
- Select the request you want to e-mail in the **Review Request** section.
- In **Email** section, click **Originator** to send the message to the person listed in Originator field.

-Or-

Click **Receiver** to send it to the person listed in the **Receiver** field.

The system emails the details of selected record to e-mail address recorded in user setup.

6.13.1.5 Closing a Review Request

You can close a review request you created at anytime, regardless of status. However, you can only close review requests that have your user id in the Originator field. When you close a review request, the system removes it from Review Request record.

To close a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link.
2. Click **Customer Service** link.
3. On the Customer Service link, click **Review Requests** tab.
4. Select the request you want to close in the **Review Request** section.
5. In the **Action** section, click **Close Request**.

The system assigns the request as CLOSED and removes it from your Review Request record. The closed accounts can be reviewed anytime by selecting **View All** in the **Query** section.

ORACLE®
Financial Services Lending and Leasing

Signed in as DEMOSALES Accessibility Sign Out

The screenshot displays the Oracle Financial Services Lending and Leasing application interface. On the left is a navigation menu with 'Dashboard' and 'Origination' tabs. Under 'Origination', the 'Servicing' section is expanded, showing a list of links including 'Customer Service', 'Securitization', 'Transaction Authorization', 'Post Date Checks', 'Escrow Transactions', 'Account Documents', 'Collateral Management', 'Reports', 'Producers', 'Vendors', 'Batch Transactions', 'Advances', 'Payments', 'Fees', and 'Interfaces'. The 'Customer Service' link is selected. The main content area is titled 'Customer Service' and shows a 'Review Request (Pending: 0)' section. This section includes a 'Query' tab with a table of review requests and an 'Action' section with buttons for 'Open Account', 'Send Request', 'Send Response', and 'Close Request'. The table has columns for 'Originator', 'Priority', 'Receiver', 'Account #', 'Reason', 'Status', and 'Date'. Two records are visible: one from 'DEMO SALES AGENT' with a 'HIGH' priority and 'REVIEW ACCOUNT' reason, and another from 'DEMO SALES AGENT' with a 'NORMAL' priority and 'REVIEW BALANCES' reason. Below the table are two text input fields labeled 'Originator Comment' and 'Receiver Comment'.

Originator	Priority	Receiver	Account #	Reason	Status	Date
DEMO SALES AGENT	HIGH	DEMO SALES AGENT	20110800010682	REVIEW ACCOUNT	NEW	10/
DEMO SALES AGENT	NORMAL	DEMO FLINDER	20120500010824	REVIEW BALANCES	NEW	10/

7. Repossession

7.1 Introduction

After an application has cycled through the Lease origination process, it becomes an account. Account maintenance and collections tasks can be performed with Oracle Financial Services Lending and Leasing's Repossession screen.

The Repossession screen enables you to view and manage all customer information in a centralized location to ensure data integrity and provide better service. Oracle Financial Services Lending and Leasing provides online real-time information about the applicant(s), contract, account balances, dues, transactions, call activities, and comments. Oracle Financial Services Lending and Leasing also supports back-dating of financial transactions till the account's opening date.

Activating an Account

An account is automatically activated when you fund the contract using the Funding main tab or convert from a legacy system.

Posting and Reversing Payments

A payment can be posted and reversed on the Payments screen.

Account Mask

After an application completes the Lease origination cycle and is funded or is ported into the system, it becomes an account and receives an account number. The system assigns account numbers using the following logic:

YYYYMMNNNNNNNX

where:

YYYYMM = contract date

NNNNNNN = serial number

X = check digit

The system sorts accounts using the **NNNNNN** portion only. That portion is referred to as the account ID.

7.2 Search Tab

There are two types of search available.

- Account
- Customer

7.2.1 Searching for a Customer or Account

There are a number of different ways to load the customer details on Repossession screen.

- Use the Search screen by selecting Customer Centric option(s).

- Use the Quick Search section to search for the customer by Account Number, or Customer Id, or by specifying the last four digits of Primary SSN (SSN of the primary applicant).
- Use the Next Account feature to load the customer from a predefined queue.

*For details on how to search and load the customer or account details using Search screen, refer [Search Using Customer Details](#) section in **Search Function** chapter.*

7.3 **Customer Service screen**

Most screens on the Customer Service screen contain the Account(s) and Customer(s) sections as a header. The Account(s) section provides a quick overview of an account by displaying its company, branch, account number, product, payoff amount and amount due, status, and oldest due date. The information on Customer Service screen always refers to the account selected in this section.

The Customer(s) section displays information about customer(s) attached to the account. The information on Customer Service screen always refers to the customer selected in this section.

To view account details in the Account(s) and Customer(s) sections, open **Repossession** screen and load the account you want to work with.

On the **Customer Service** screen's **Account(s)** section, you can view the information based on your selection.

*For details on this screen refer [Customer Service screen](#) section in **Customer Service** chapter.*

7.4 Customer Service screen's Summary tab

Open the **Repossession** screen and load the account you want to work with. By default the Customer Service screen opens the **Summary** tab.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The interface includes a top navigation bar with the Oracle logo, "Financial Services Lending and Leasing", and user information. A left sidebar contains a navigation menu with options like Dashboard, Origination, Servicing, Collections, and Alerts. The main content area is titled "Collections" and "Customer Service". It features a search bar, a "Review Request (Pending: 0)" button, and a "View" button. Below this is a table for "Account(s)" with columns for Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. The "Summary" tab is selected, showing sections for Alerts, Conditions, Account Details, Other Information, Delinquency Information, Address Information, Employment Information, and Telecom Information. Each section contains various data fields and tables, some of which are currently empty or show "No data to display."

For details on this screen refer [Customer Service screen's Summary tab](#) section in **Customer Service** chapter.

7.5 Customer Service screen's Customer Service tab

Open the **Repossession** screen and load the account you want to work with. Click the **Customer Service** tab to view the sections under it.

7.5.1 Call Activities sub tab

With the **Call Activities** section, system enables you to record the details of all actions you performed regarding this account. This includes calls from the customer, calls you make regarding the account, or changes to condition of the account. Entries in the **Call Activities** section are listed in reverse chronological order of follow-up date and are user-defined.

Each action and result has a code and description. The code for the call action and call result is what appears on Call Activity sub screen.

7.5.1.1 Recording a Call Activity

To record a call activity

1. Open the **Repossession** screen and load the account you want to work with.

- Click **Customer Service** sub tab and then click **Call Activities** tab under it. Click **Add**. The system displays the following screen.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The left sidebar contains a navigation menu with 'Dashboard', 'Origination', 'Servicing', and 'Collections'. The 'Collections' section is expanded, showing 'Collections', 'Bankruptcy', 'Repossession', 'Deficiency', 'Reports', 'Producers', and 'Vendors'. The main area displays the 'Call Activities' tab under 'Customer Service'. The 'Account(s)' section shows a table with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. Below this, the 'Call Activities' section has a table with columns: Action, Result, Contact, Reason, Promise Dt, Promise Amt, Condition, and Apprnt/ Followup Dt. The interface includes various action buttons like 'Save and Add', 'Save and Stay', 'Save and Return', and 'Return'.

For details on this screen refer [Customer Service screen's Customer Service tab](#) section in **Customer Service** chapter.

7.6 Customer Service screen's Account Details tab

Open the **Repossession** screen and load the account you want to work with. Click the **Account Details** tab to view the sections under it.

7.6.1 Account Details sub tab

Oracle Financial Services Lending and Leasing enables you to view account details using Account Details sub tab.

In the **Account Information** section click **View**.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The left sidebar contains a navigation menu with 'Dashboard', 'Origination', 'Servicing', and 'Collections'. The 'Collections' section is expanded, showing 'Collections', 'Bankruptcy', 'Repossession', 'Deficiency', 'Reports', 'Producers', and 'Vendors'. The main area displays the 'Account Details' tab under 'Customer Service'. The 'Account(s)' section shows a table with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. Below this, the 'Account Details' section has a table with columns: # of Extensions (Year), # of Extensions (Life), # of Extension Term (Year), # of Extension Term (Life), # of Due Day changes (Year), # of Due Day changes (Life), Last Extn Dt, Due Day Change Dt, and Total Tr. The interface includes various action buttons like 'View', 'Audit', and 'Return'.

For details on this screen refer [Customer Service screen's Account Details tab](#) section in **Customer Service** chapter.

7.7 Customer Service screen's Customer Details tab

Open the **Repossession** screen and load the account you want to work with. Click the **Customer** tab to view the sections under it.

Information gathered on the application entry process regarding the customer and customer's address, employment data, and phone numbers appears on Customer Details screen. Using the Customer Service screen's Customer Details tab, you can update or add to a customer's address, employment information, or phone listing. All the information about the customer can be changed using Maintenance screen.

To view or edit customer information

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Details** sub tab.

The screenshot shows the Oracle Financial Services Lending and Leasing application interface. The top navigation bar includes 'DashBoard', 'Origination', 'Servicing', and 'Collections'. The 'Collections' section is expanded, showing 'Collections', 'Bankruptcy', 'Repossession', 'Deficiency', 'Reports', 'Producers', and 'Vendors'. The main content area is titled 'Customer Service' and contains a 'Customer Details' tab. The 'Customer Details' tab is active, displaying a form for customer information. The form includes fields for 'Customer #', 'Relation', 'ECOA', 'Name', 'SSN', 'Birth Dt', 'Marital Status', 'Enabled', and 'Lang'. Below these fields are sections for 'Customer Information' (with checkboxes for 'Stop Correspondence', 'Disability', 'Skip', 'Bankruptcy', 'Privacy Opt Out', and 'Existing CPF') and 'Identification Details' (with checkboxes for 'National ID', 'SSN', 'License #', 'License State', 'Active Military Duty', 'Effective Dt', 'Order Ref #', 'Release Dt', and 'Customer Deceased Date'). The bottom of the screen shows a 'Balance Group' section with a 'Ten Period' dropdown and radio buttons for 'Current Balance', 'Deficiency Balance', 'Non-Performing Balance', 'Terminate Balance', 'ITD/CTD', and 'YTD'.

For details on this screen refer [Customer Service screen's Customer Details tab](#) section in *Customer Service* chapter.

7.8 Customer Service screen's Transaction History tab

Open the **Repossession** screen and load the account you want to work with. Click the **Transaction History** tab to view the sections under it.

The screenshot shows the Oracle Financial Services Lending and Leasing application interface. The top navigation bar includes 'DashBoard', 'Origination', 'Servicing', and 'Collections'. The 'Collections' section is expanded, showing 'Collections', 'Bankruptcy', 'Repossession', 'Deficiency', 'Reports', 'Producers', and 'Vendors'. The main content area is titled 'Customer Service' and contains a 'Transaction History' tab. The 'Transaction History' tab is active, displaying a form for transaction history. The form includes fields for 'Company', 'Branch', 'Account #', 'Product', 'Currency', 'Pay Off Amt', 'Amount Due', 'Oldest Due Dt', and 'Status'. Below these fields are sections for 'Balances' (with a 'Balance Group' dropdown) and 'Ten Period' (with radio buttons for 'Current Balance', 'Deficiency Balance', 'Non-Performing Balance', 'Terminate Balance', 'ITD/CTD', and 'YTD').

For details on this screen refer [Customer Service screen's Transaction History tab](#) section in *Customer Service* chapter.

7.9 Customer Service screen's Pmt Modes tab

Open the **Repossession** screen and load the account you want to work with. Click the **Pmt Modes** sub tab to view the sections under it.

7.9.1 ACH sub tab

If used, the **ACH** section displays information about automated clearing house and electronic fund transfers.

To view the ACH information screen

1. Open the **Customer Service** screen and load the account you want to work with.

Click **Pmt Modes** tab, then click **ACH** sub tab.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The left sidebar contains a navigation menu with options like Dashboard, Origination, Servicing, Collections, Bankruptcy, Repossession, Deficiency, Reports, Producers, and Vendors. The main area is titled 'Collections' and 'Customer Service'. It features a search bar and a 'Review Request (Pending: 0)' button. Below this is a table for 'Account(s)' with columns for Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. The table is currently empty. Below the table are tabs for Summary, Customer Service, Account Details, Customer Details, Transaction History, Pmt Modes, and Bureau. The 'Pmt Modes' tab is selected, and within it, the 'ACH' sub tab is active. The 'ACH Information' section shows a table with columns for Reference #, Bank Name, Routing #, Account Type, Account #, Pmt Day, Pmt Amt, Pmt Amt Excess, and Pmt Freq. This table is also empty. At the bottom, there are input fields for Reference #, Bank Name, Routing #, Account Type, Account #, Pmt Day, Pmt Amt, Pmt Amt Excess, Pmt Freq, Fee Amt, Direct Debit Fee, Start Dt, End Dt, Default, and Status.

For details on this screen refer [Customer Service screen's Pmt Modes tab](#) section in *Customer Service* chapter.

7.10 Customer Service screen's Repo/Foreclosure tab

The Repossession/Foreclosure screen enables you to record information regarding repossessions/foreclosure in a manner similar to how bankruptcies are recorded on the Bankruptcy screen. You can track each stage of the repossession/foreclosure process based on the follow-up date and record information using Details and Tracking section.

7.10.1 Repossession sub tab

On occasion, a lender performs multiple repossessions for the same Lease. The Create New Repossession button on the Repossession screen enables you to create a new repossession record for a different collateral and different start and end dates. You can also use the Repossession screen to view previous repossession information using the Next and Previous buttons in Details section. The Current box in Details section indicates the current repossession record for each asset.

This tab will be available only when the collateral type associated with the Lease account is a Vehicle.

You can update the current record, but previous records cannot be modified.

To Specify repossession details for an account

1. Open the **Repossession** screen and load the account you want to work with.
2. Click the **Repo/Foreclosure** sub tab, then click **Repossession**.
3. In the **Repossession Details** section, select the repossession record you want to work with.

-or-

Click **Add** to refresh the Repossession screen to create a new record.

The screenshot displays the Oracle Financial Services Lending and Leasing Repossession screen. The interface includes a sidebar with navigation options such as Dashboard, Origination, Servicing, Collections, and WFP. The main area is titled 'Repossession' and features tabs for Results, Customer Service, and Search. Below these tabs are sections for Account(s), Repossession Details, Tracking, and Call Activities. The Repossession Details section is currently active, showing fields for Current, Followup Dt, Type, Collateral, Disposition, File Received Dt, Repo Dt, Repo End Dt, and Comment. The Disposition is set to 'NEWLY RECEIVED'. The Tracking section shows a table with columns for Sub Parameter, Parameter, and Value. The Call Activities section shows a table with columns for Action, Result, Contact, Reason, Cancel, Promise Dt, Promise Amt, Condition, and Appointment Followup.

For details on this screen refer [Customer Service screen's Repo/Foreclosure tab](#) section in *Customer Service* chapter.

7.11 Customer Service screen's Collateral tab

The Collateral screen displays information regarding any assets associated with an account. Collateral can be a vehicle, home, or something else, such as household goods. The Collateral screen contains the **Home** and **Seller** sub tabs. **To view the collateral details**

1. Open the **Repossession** screen and load the account you want to work with.

- Click **Collateral** tab. The system displays the following screen:

- If the account's collateral is a vehicle, the **Collateral** screen opens at the **Vehicle** tab:
- If the account's collateral is a home, the **Collateral** screen opens at the **Home** tab.
- If the account's collateral is neither a vehicle nor a home, the **Collateral** screen opens at the **Other** Collateral.

For details on this screen refer [Customer Service screen's Collateral tab](#) section in **Customer Service** chapter.

7.12 Customer Service screen's Bureau tab

The Customer Service screen Bureau screen enables you to view credit bureau reports associated with the account that were pulled during Lease servicing for the account. You can also use the Bureau screen to create and pull additional credit bureau reports and view the results as a text only file.

To view an existing credit bureau report

1. Open the **Customer Service** screen and load the account you want to work with.

2. On the Customer Service link bar, click **Bureau**.

The screenshot displays the Oracle Financial Services Lending and Leasing Customer Service interface. The 'Bureau' tab is selected under the 'Customer Service' link bar. The interface shows a 'Bureau Details' section with a table for 'Bureau' data, a 'New Request' section with dropdowns for Customer, Bureau, and Report, and an 'Applicant/Customer Detail' section with a table for applicant information. The 'Bureau Report' section is also visible at the bottom.

For details on this screen refer [Customer Service screen's Collateral tab](#) section in **Customer Service** chapter.

7.13 Review Request

The Review Requests page is primarily a work flow tool used to flag an account or an application for the attention of another Oracle Financial Services Lending and Leasing user and ask for feedback. It allows the system users to send and receive requests (including e-mail) commenting on a specific account or application.

In this chapter, you will learn how to complete the following tasks:

- Reviewing a request
- Sending a review request
- Responding to a review request
- E-mailing a Review Request
- Closing a review request

Note the following:

- You can complete the above tasks for an Account Review Request using Review Request page in the Servicing master tab.
- To complete the above mentioned tasks for an Application Review Request, use Review Request page available in the Origination master tab.

7.13.1 Review Requests Tab

The Review Requests page contains the following sections:

- Query Section
- Action Section
- Email Section
- Review request records
- Comments Sections

Query Section

The **Query** section enables you to filter records according to priority levels i.e.high, normal or low based on any of the following:

Query Options	Descriptions
Originator	Displays the records of all the active review requests you created.
Receiver	Displays the records of all the active review requests you received.
Both	Displays all the review requests records you have created as well as received with the status other than 'CLOSED'.
View All	Displays all the review requests records you sent and received, both active and closed.

Action Section

The **Action** section enables you to send, respond or close the review request.

Action Options	Descriptions
Open Application/Account	Opens the application details page to review the request. (if you open it from origination it's application and if from servicing den account)
Send Request	Sends a review request to another Oracle Financial Services Lending and Leasing user.
Send Response	Sends a response to a review request from another Oracle Financial Services Lending and Leasing user.
Close Request	Changes the status of review request to CLOSED and removes its record from the Review Request page. The status can be viewed by selecting 'View All' in the 'Query' section.

Email Section:

The **Email** section enables you to send an email to either originator or receiver of the review request which cannot be responded or replied back from email recipient.

Email Options	Descriptions
Originator	Sends an email of review request information to the person listed in the Originator column on Review Request page.

Email Options	Descriptions
Receiver	Sends an email of review request to the person listed in the Receiver column on Review Request page.

Comments Sections

The **Comments** section enables originator or receiver to specify additional information that needs to be sent with the request.

Comments From	Descriptions
Originator Comment	Displays comments specified by the originator of review request at the time of creating a request.
Receiver Comment	Displays comments specified by the receiver of review request at the time of reviewing a request.

7.13.1.1 Reviewing a Request

System displays the priority and the number of requests ready for review, if any, for your user id at **My Pending Review Requests By Priority** section in the **Servicing Dash Board** window.

To review requests

- On the Oracle Financial Services Lending and Leasing application home page, click **Servicing** main tab and then click Servicing drop-down link. Click **Customer Service** link.
The Customer Service window appears, opened at the **Results** tab. Under Customer Service screen, click **Review Requests** tab.

2. In the **Query** section, click **Receiver**.

In the Review Request record, the system displays all open review request you have received.

3. In the Review Request record, select the record you want to view and click **View**. The following screen is displayed.

4. For the selected **Review Request** record, view the following information:

Fields	Descriptions
Originator	The user id of the request originator.
Priority	The request priority: HIGH, NORMAL, or LOW.
Receiver	The recipient of the request.
Account #	The account number which needs review.
Transaction	The transaction selected.
Reason	The review reason.
Status	The request status.
Date	The date and time when the request was created.
Originator Comment	The comment by the originator which creating a request.
Receiver Comment	The comment by the receiver after reviewing a request.

Note

If you click **Open Account**, system loads the account in review request and displays the Account Details page.

7.13.1.2 **Sending a Review Request**

The **Send Request** button enables you to send a review request to another the system user. However, the **Send Request** button is enabled only if you have specified the receiver while creating a review request and have saved it.

To send a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing** main tab and then click **Servicing** drop-down link. Click **Review Requests** tab.
2. In the **Review Requests** page in the **Query** section, select **Originator**.

- Click **Add** to create a new review request. The following screen is displayed:

Review Requests

Originator	Priority	Receiver	Account #	Reason	Status
DEMO SUPERUSER	HIGH	ANSHUMAN PANDA	20120100010026	REVIEW TRANSACTIONS	NEW

Buttons: Save and Add, Save and Stay, Save and Return, Return

- In the **Priority** field, select the priority of review request: **High**, **Normal**, or **Low** which helps the recipient in responding to requests. It does not affect the order in which messages are sent or received.
- In **Receiver** field, select the person you want to receive the message.
- In **Account #** field, select the account involved with the review request.
The default value **NEW** appears in the **Status** field.
- In **Reason** field, select the purpose for the review request.
- In **Originator Comment** field, specify any additional message you want to send along with the review request.
- Click **Save And Add/Save And Return**.

The review request is created and Send Request button is enabled in the Action section.

Review Requests

Originator	Priority	Receiver	Account #	Reason	Status
DEMO SALES AGENT	NORMAL	DEMO SALES AGENT	20120500010824	REVIEW BALANCES	NEW
DEMO SALES AGENT	HIGH	DEMO SALES AGENT	20110800010682	REVIEW ACCOUNT	WAITING FOR RESPONSE
DEMO SALES AGENT	HIGH	DEMO SALES AGENT	20120500010816	REVIEW BALANCES	WAITING FOR RESPONSE
DEMO SALES AGENT	HIGH	DEMO FUNDER	20110800010616	REVIEW TRANSACTIONS	WAITING FOR RESPONSE

Request Processed Successfully

Buttons: Add, Edit, View, Audit, Email, Request, Send Response, Close Request, Originator, Receiver

- In the **Action** section, click **Send Request**.

The system sends your request to the recipient's, where it appears on **My Pending Review Request** window in Dash Board with status SENT TO ORIGINATOR.

7.13.1.3 Responding to a Review Request

When you receive a review request, the system notifies you by creating an entry in **My of Pending Review Requests By Priority** section in **Dash Board** with the number of unseen messages. In the following example, one review request is waiting on the Review Request page.

ORACLE[®] Financial Services Lending and Leasing

Signed in as DEMOGALES Accessibility Sign Out

Priority	Count
HIGH	1

To respond to a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link. Click **Customer Service** link. If the **Number of Pending Review Requests** tab displays a number, click **Review Requests** tab. On the Review Request page **Query** section, select **Receiver**.

The system displays the unread review requests in Review Request record.

2. In the **Review Request** record, select the record you want to view and click **View**.

ORACLE[®] Financial Services Lending and Leasing

Welcome, DEMOSUPR Accessibility Sign Out

Originator	Priority	Receiver	Account #	Reason	Status
DEMO SUPERUSER	HIGH	ANSUMAN PANDA	20120100010026	REVIEW TRANSACTIONS	NEW
DEMO SUPERUSER	NORMAL	ANSUMAN PANDA	20120100010024	REVIEW CUSTOMER DETAILS	WAITING FOR RESPONSE

3. Click **Open Account**.

The system loads the account on Customer Service screen and displays Account Details page.

4. Perform requested task on review request on the account. Click Review Request tab and selecting request, click **Edit**. Specify your response in the **Receiver Comment** field. Click **Save And Return**.

5. In the **Action** section, click **Send Request**.
The system sends your response to the originator, where it appears on **Review Request** page with status RETURN TO ORIGINATOR.
The recipient can view sent response by clicking **Receiver** or **View All** in **Query** section. (The request has a status as RETURN TO ORIGINATOR.)
6. In the **Action** section, click **Close Request**
It will remove the message from the Review Request section.

Back on the originator's Review Request page, the message appears when **Originator** is selected in **Query** section. The request has a status as RETURN TO ORIGINATOR.

7.13.1.4 E-mailing a Review Request

While system updates **My Pending Review Requests By Priority** section in the **Dashboard** to notify you about the new requests, you can also e-mail a review request to both the originator and a receiver, as applicable. The system will use e-mail address recorded for both the originator and receive in **User Definition** section in User page.

To e-mail a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link.
2. Click **Customer Service** link.
3. On the Customer Service link, click **Review Requests** tab.
4. Select the request you want to e-mail in the **Review Request** section.
5. In **Email** section, click **Originator** to send the message to the person listed in Originator field.

-Or-

Click **Receiver** to send it to the person listed in the **Receiver** field.

The system emails the details of selected record to e-mail address recorded in user setup.

7.13.1.5 Closing a Review Request

You can close a review request you created at anytime, regardless of status. However, you can only close review requests that have your user id in the Originator field. When you close a review request, the system removes it from Review Request record.

To close a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link.
2. Click **Customer Service** link.
3. On the Customer Service link, click **Review Requests** tab.
4. Select the request you want to close in the **Review Request** section.
5. In the **Action** section, click **Close Request**.

The system assigns the request as **CLOSED** and removes it from your Review Request record. The closed accounts can be reviewed anytime by selecting **View All** in the **Query** section.

ORACLE®
Financial Services Lending and Leasing

Signed in as DEMOSALES Accessibility Sign Out

The screenshot displays the Oracle Financial Services Lending and Leasing application interface. On the left is a navigation menu with 'Dashboard' and 'Origination' tabs. Under 'Origination', the 'Servicing' section is expanded, showing a list of links including 'Customer Service', 'Securitization', 'Transaction Authorization', 'Post Date Checks', 'Escrow Transactions', 'Account Documents', 'Collateral Management', 'Reports', 'Producers', 'Vendors', 'Batch Transactions', 'Advances', 'Payments', 'Fees', and 'Interfaces'. The 'Customer Service' link is selected. The main content area is titled 'Customer Service' and shows a 'Review Request (Pending: 0)' section. This section includes a 'Query' tab with a table of review requests. The table has columns for 'Originator', 'Priority', 'Receiver', 'Account #', 'Reason', 'Status', and 'Date'. Two records are visible: one for 'DEMO SALES AGENT' with 'HIGH' priority and 'DEMO SALES AGENT' as the receiver, and another for 'DEMO SALES AGENT' with 'NORMAL' priority and 'DEMO FLINDER' as the receiver. Below the table are 'Originator Comment' and 'Receiver Comment' fields. At the top right of the main content area, there are buttons for 'Add', 'Edit', 'View', 'Audit', 'Email', 'Open Account', 'Send Request', 'Send Response', and 'Close Request'.

Originator	Priority	Receiver	Account #	Reason	Status	Date
DEMO SALES AGENT	HIGH	DEMO SALES AGENT	20110800010682	REVIEW ACCOUNT	NEW	10/
DEMO SALES AGENT	NORMAL	DEMO FLINDER	20120500010824	REVIEW BALANCES	NEW	10/

8. Deficiency

8.1 Introduction

After an application has cycled through the Lease origination process, it becomes an account. Account maintenance and collections tasks can be performed with Oracle Financial Services Lending and Leasing's Deficiency screen.

The Deficiency screen enables you to view and manage all customer information in a centralized location to ensure data integrity and provide better service. Oracle Financial Services Lending and Leasing provides online real-time information about the applicant(s), contract, account balances, dues, transactions, call activities, and comments. Oracle Financial Services Lending and Leasing also supports back-dating of financial transactions till the account's opening date.

Activating an Account

An account is automatically activated when you fund the contract using the Funding main tab or convert from a legacy system.

Posting and Reversing Payments

A payment can be posted and reversed on the Payments screen.

Account Mask

After an application completes the Lease origination cycle and is funded or is ported into the system, it becomes an account and receives an account number. The system assigns account numbers using the following logic:

YYYYMMNNNNNNNX

where:

YYYYMM = contract date

NNNNNN = serial number

X = check digit

The system sorts accounts using the **NNNNNN** portion only. That portion is referred to as the account ID.

8.2 Search Tab

There are two types of search available.

- Account
- Customer

8.2.1 Searching for a Customer or Account

There are a number of different ways to load the customer details on Deficiency screen.

- Use the Search screen by selecting Customer Centric option(s).

- Use the Quick Search section to search for the customer by Account Number, or Customer Id, or by specifying the last four digits of Primary SSN (SSN of the primary applicant).
- Use the Next Account feature to load the customer from a predefined queue.

*For details on how to search and load the customer or account details using Search screen, refer [Search Using Customer Details](#) section in **Search Function** chapter.*

8.3 **Customer Service screen**

Most screens on the Customer Service screen contain the Account(s) and Customer(s) sections as a header. The Account(s) section provides a quick overview of an account by displaying its company, branch, account number, product, payoff amount and amount due, status, and oldest due date. The information on Customer Service screen always refers to the account selected in this section.

The Customer(s) section displays information about the customer(s) attached to the account. The information on Customer Service screen always refers to the customer selected in this section.

To view account details in the Account(s) and Customer(s) sections, open the **Deficiency** screen and load the account you want to work with.

On the **Customer Service** screen's **Account(s)** section, you can view the information based on your selection.

*For details on this screen refer [Customer Service screen](#) section in **Customer Service** chapter*

8.4 Customer Service screen's Summary tab

Open the **Deficiency** screen and load the account you want to work with. By default the Customer Service screen opens the **Summary** tab.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The top navigation bar includes the Oracle logo, "Financial Services Lending and Leasing", and user information: "Welcome, DEMOSUPR", "Accessibility", and "Sign Out". The left sidebar contains a menu with "Dashboard", "Origination", "Servicing", "Collections", "Collections", "Collections", "Bankruptcy", "Repossession", "Deficiency", "Reports", "Producers", and "Vendors". The main content area is titled "Collections" and "Customer Service". It features a search bar, "Review Request (Pending: 0)", and buttons for "View" and "Audit". Below this is a table for "Account(s)" with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. The table is currently empty, showing "No data to display." Below the table are tabs for "Summary", "Customer Service", "Account Details", "Customer Details", "Transaction History", "Pmt Modes", and "Bureau". The "Summary" tab is active, showing sections for "Alerts", "Conditions", "Account Details", "Other Information", "Customer Information", "Address Information", "Employment Information", and "Telecom Information". The "Account Details" section includes "Dues" (Delq Due, LC Due, NSF Due, Other Due, Total Due, Today's Payoff, Future Payoff, Future Pmt Dt, Oldest Due Dt, Amt Paid Excess, Date) and "Delinquency Information" (Late, 30, 60, 90, 120, 150, 180, Category ID). The "Other Information" section includes "Customer Information" (Customer #, Name, Relation, SSN, Birth), "Address Information" (Type, Current, Permitted to Call, Mailing, Address, Phone), "Employment Information" (Type, Current, Permitted to Call, Employer, Address), and "Telecom Information" (Permitted).

For details on this screen refer [Customer Service screen's Summary tab](#) section in **Customer Service** chapter

8.5 Customer Service screen's Customer Service tab

Open the **Deficiency** screen and load the account you want to work with. Click the **Customer Service** tab to view the sections under it.

8.5.1 Call Activities sub tab

With the **Call Activities** section, the system enables you to record details of all actions you performed regarding this account. This includes calls from the customer, calls you make regarding account, or changes to condition of the account. Entries in the **Call Activities** section are listed in reverse chronological order of follow-up date and are user-defined.

Each action and result has a code and description. The code for the call action and call result is what appears on Call Activity sub screen.

8.5.1.1 Recording a Call Activity

To record a call activity

1. Open the **Deficiency** screen and load the account you want to work with.

- Click **Customer Service** sub tab and then click **Call Activities** tab under it. Click **Add**. The system displays the following screen.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The left sidebar contains a navigation menu with 'Dashboard', 'Origination', 'Servicing', and 'Collections'. The 'Collections' section is expanded, showing 'Collections', 'Bankruptcy', 'Repossession', 'Deficiency', 'Reports', 'Producers', and 'Vendors'. The main area displays the 'Call Activities' tab under 'Customer Service'. The 'Account(s)' section shows a table with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. Below this, the 'Call Activities' section shows a table with columns: Action, Result, Contact, Reason, Promise Dt, Promise Amt, Condition, and Apprnt/ Followup Dt. The 'Save and Add' button is visible.

For details on this screen refer [Customer Service screen's Customer Service tab](#) section in **Customer Service** chapter

8.6 Customer Service screen's Account Details tab

Open the **Deficiency** screen and load the account you want to work with. Click the **Account Details** tab to view the sections under it.

8.6.1 Account Details sub tab

Oracle Financial Services Lending and Leasing enables you to view account details using Account Details sub tab.

In the **Account Information** section click **View**.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The left sidebar contains a navigation menu with 'Dashboard', 'Origination', 'Servicing', and 'Collections'. The 'Collections' section is expanded, showing 'Collections', 'Bankruptcy', 'Repossession', 'Deficiency', 'Reports', 'Producers', and 'Vendors'. The main area displays the 'Account Details' tab under 'Customer Service'. The 'Account(s)' section shows a table with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. Below this, the 'Account Details' section shows a table with columns: # of Extensions (Year), # of Extensions (Life), # of Extension Term (Year), # of Extension Term (Life), # of Due Day changes (Year), # of Due Day changes (Life), Last Extn Dt, Due Day Change Dt, and Total Tr. The 'Account Information' section shows a table with columns: # of Extensions (Year), # of Extensions (Life), # of Extension Term (Year), # of Extension Term (Life), # of Due Day changes (Year), # of Due Day changes (Life), Last Extn Dt, Due Day Change Dt, and Total Tr. The 'Additional Details' section shows a table with columns: # of Extensions (Year), # of Extensions (Life), # of Extension Term (Year), # of Extension Term (Life), # of Due Day changes (Year), # of Due Day changes (Life), Last Extn Dt, Due Day Change Dt, and Total Tr.

For details on this screen refer [Customer Service screen's Account Details tab](#) section in **Customer Service** chapter

8.7 Customer Service screen's Customer Details tab

Open the **Deficiency** screen and load the account you want to work with. Click the **Customer** tab to view the sections under it.

Information gathered on the application entry process regarding the customer and customer's address, employment data, and phone numbers appears on Customer Details screen. Using the Customer Service screen's Customer Details tab, you can update or add to a customer's address, employment information, or phone listing. All the information about the customer can be changed using Maintenance screen.

To view or edit customer information

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Details** sub tab.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The left sidebar contains navigation options: Dashboard, Origination, Servicing, Collections, WFP, Tools, and Setup. The main area is titled 'Collections' and 'Customer Service'. It features a search bar and a 'Review Request (Pending: 0)' button. Below this is a table for 'Account(s)' with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. The 'Customer Details' tab is selected, showing 'Customer Information' and 'Address Information' sections. The 'Customer Information' section includes fields for Customer #, Relation, ECOA, Name, Birth Dt, Marital Status, Enabled, and Language. The 'Address Information' section includes fields for Customer #, Relation, ECOA, Name, Birth Dt, Marital Status, Enabled, and Language. There are also checkboxes for 'Stop Correspondence', 'Disability', 'Skip', 'Bankruptcy', 'Privacy Opt Out', and 'Existing CIP'. The 'Identification Details' section includes fields for National ID, SSN, License #, License State, Active Military Duty, Effective Dt, Order Ref #, Release Dt, Customer Deceased Date, Passport #, Issue Dt, Expiry Dt, Visa #, and Nationality. The 'Military Service' section includes a checkbox for 'Active Military Duty'.

For details on this screen refer [Customer Service screen's Customer Details tab](#) section in *Customer Service* chapter.

8.8 Customer Service screen's Transaction History tab

Open the **Deficiency** screen and load the account you want to work with. Click the **Transaction History** tab to view the sections under it.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The left sidebar contains navigation options: Dashboard, Origination, Servicing, Collections, WFP, Tools, and Setup. The main area is titled 'Collections' and 'Customer Service'. It features a search bar and a 'Review Request (Pending: 0)' button. Below this is a table for 'Account(s)' with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. The 'Transaction History' tab is selected, showing 'Balances' and 'Transaction History' sections. The 'Balances' section includes a 'Balance Group' table with columns: Balance Group, Current Balance, Deficiency Balance, Non-Performing Balance, Terminate Balance, and Ten Period. The 'Transaction History' section includes a table with columns: Transaction #, Transaction Dt, Transaction Amt, Transaction Type, Transaction Status, and Transaction Description.

For details on this screen refer [Customer Service screen's Transaction History tab](#) section in *Customer Service* chapter.

8.9 Customer Service screen's Pmt Modes tab

Open the **Deficiency** screen and load the account you want to work with. Click the **Pmt Modes** sub tab to view the sections under it.

8.9.1 ACH sub tab

If used, the **ACH** section displays information about automated clearing house and electronic fund transfers.

To view the ACH information screen

1. Open the **Customer Service** screen and load the account you want to work with.

Click **Pmt Modes** tab, then click **ACH** sub tab.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The left sidebar contains a navigation menu with options like Dashboard, Origination, Servicing, Collections, Bankruptcy, Repossession, Deficiency, Reports, Producers, and Vendors. The main area is titled 'Collections' and 'Customer Service'. It features a search bar and a 'Review Request (Pending: 0)' button. Below this is a table for 'Account(s)' with columns: Company, Branch, Account #, Product, Currency, Pay Off Amt, Amount Due, Oldest Due Dt, and Status. The table is currently empty. Below the table are tabs for Summary, Customer Service, Account Details, Customer Details, Transaction History, Pmt Modes, and Bureau. The 'Pmt Modes' tab is selected, and within it, the 'ACH' sub tab is active. The 'ACH Information' section shows a table with columns: Reference #, Bank Name, Routing #, Account Type, Account #, Pmt Day, Pmt Amt, Pmt Amt Excess, and Pmt Freq. This table is also empty. At the bottom, there are input fields for Reference #, Bank Name, Routing #, Account Type, Account #, Pmt Day, Pmt Amt, Pmt Amt Excess, Pmt Freq, Fee Amt, Direct Debit Fee, Start Dt, End Dt, Default, and Status.

For details on this screen refer [Customer Service screen's Pmt Modes tab](#) section in *Customer Service* chapter.

8.10 Customer Service screen's Deficiency tab

The Deficiency screen enables you to record information about deficiency accounts i.e. accounts that are no longer collectable. You can create and track specific details on the status of the charged-off account for timely follow-up and analysis. You can also track each stage of the deficiency process based on its follow-up date and record information using the Details and Tracking sections.

The **Add** button enables you to create a new deficiency record with different start and end dates. You can also use the **Deficiency Details** screen to view the deficiency information. The **Current** field in the **Deficiency Details** section indicates the current bankruptcy details.

Note

To view the balance of a charged off account, click the Transaction History tab on Customer Service screen, then click Balances. On the Account Details screen's Balance Group section, click Deficiency. For more information on Deficiency Balance, see Balances sub tab section in this chapter.

To enter deficiency details for an account

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Deficiency** tab.
3. In the **Deficiency Detail** section, select the deficiency record you want to work with

-or-

Click **Add** to refresh the Deficiency screen to create a new record.

For details on this screen refer [Customer Service screen's Deficiency tab](#) section in **Customer Service** chapter.

8.11 Customer Service screen's Collateral tab

The Collateral screen displays information regarding any assets associated with an account. Collateral can be a vehicle, home, or something else, such as household goods. The Collateral screen contains the **Home** and **Seller** sub tabs. **To view the collateral details**

1. Open the **Repossession** screen and load the account you want to work with.
 - Click **Collateral** tab. The system displays the following screen:

- If the account's collateral is a vehicle, the **Collateral** screen opens at **Vehicle** tab:
- If the account's collateral is a home, the **Collateral** screen opens at **Home** tab.
- If the account's collateral is neither a vehicle nor a home, the **Collateral** screen opens at **Other Collateral**.

For details on this screen refer [Customer Service screen's Collateral tab](#) section in **Customer Service** chapter.

8.12 Customer Service screen's Bureau tab

The Customer Service screen Bureau screen enables you to view credit bureau reports associated with the account that were pulled during Lease servicing for the account. You can also use the Bureau screen to create and pull additional credit bureau reports and view the results as a text only file.

To view an existing credit bureau report

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service link bar, click **Bureau**.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service Bureau tab. The interface includes a sidebar with navigation options: Dashboard, Origination, Servicing, and Collections. The main area displays 'Bureau Details' for a selected account. It features a table of bureau reports with columns: Type, #, Status, Dt, Report, and Credit Bureau Reorder #. Below this, there is a 'New Request' section with dropdowns for Customer, Spouse, Bureau, and Report, and a 'Create Request' button. The 'Applicant/Customer Detail' section includes a table with columns: Type, First Name, MI, Last Name, Status, Birth Dt, SSN, Suffix, and Address Type. At the bottom, there is a 'Bureau Report' section with a 'Print Report' button.

For details on this screen refer [Customer Service screen's Collateral tab](#) section in **Customer Service** chapter

8.13 Review Request

The Review Requests page is primarily a work flow tool used to flag an account or an application for the attention of another Oracle Financial Services Lending and Leasing user and ask for feedback. It allows the system users to send and receive requests (including e-mail) commenting on a specific account or application.

In this chapter, you will learn how to complete the following tasks:

- Reviewing a request
- Sending a review request
- Responding to a review request
- E-mailing a Review Request
- Closing a review request

Note the following:

- You can complete the above tasks for an Account Review Request using Review Request page in the Servicing master tab.
- To complete the above mentioned tasks for an Application Review Request, use Review Request page available in the Origination master tab.

8.13.1 **Review Requests Tab**

The Review Requests page contains the following sections:

- Query Section
- Action Section
- Email Section
- Review request records
- Comments Sections

Query Section

The **Query** section enables you to filter records according to priority levels i.e.high, normal or low based on any of the following:

Query Options	Descriptions
Originator	Displays the records of all the active review requests you created.
Receiver	Displays the records of all the active review requests you received.
Both	Displays all the review requests records you have created as well as received with the status other than 'CLOSED'.
View All	Displays all the review requests records you sent and received, both active and closed.

Action Section

The **Action** section enables you to send, respond or close the review request.

Action Options	Descriptions
Open Application/Account	Opens the application details page to review the request. (if you open it from origination it's application and if from servicing den account)
Send Request	Sends a review request to another Oracle Financial Services Lending and Leasing user.

Action Options	Descriptions
Send Response	Sends a response to a review request from another Oracle Financial Services Lending and Leasing user.
Close Request	Changes the status of review request to CLOSED and removes its record from the Review Request page. The status can be viewed by selecting 'View All' in the 'Query' section.

Email Section:

The **Email** section enables you to send an email to either originator or receiver of the review request which cannot be responded or replied back from email recipient.

Email Options	Descriptions
Originator	Sends an email of review request information to the person listed in the Originator column on Review Request page.
Receiver	Sends an email of review request to the person listed in the Receiver column on Review Request page.

Comments Sections

The **Comments** section enables originator or receiver to specify additional information that needs to be sent with the request.

Comments From	Descriptions
Originator Comment	Displays comments specified by the originator of review request at the time of creating a request.
Receiver Comment	Displays comments specified by the receiver of review request at the time of reviewing a request.

8.13.1.1 Reviewing a Request

System displays the priority and the number of requests ready for review, if any, for your user id at **My Pending Review Requests By Priority** section in the **Servicing Dash Board** window.

To review requests

1. On the Oracle Financial Services Lending and Leasing application home page, click **Servicing** main tab and then click Servicing drop-down link. Click **Customer Service** link.
The Customer Service window appears, opened at the **Results** tab. Under Customer Service screen, click **Review Requests** tab.
2. In the **Query** section, click **Receiver**.

In the Review Request record, the system displays all open review request you have received.

3. In the Review Request record, select the record you want to view and click **View**. The following screen is displayed.

4. For the selected **Review Request** record, view the following information:

Fields	Descriptions
Originator	The user id of the request originator.

Fields	Descriptions
Priority	The request priority: HIGH, NORMAL, or LOW.
Receiver	The recipient of the request.
Account #	The account number which needs review.
Transaction	The transaction selected.
Reason	The review reason.
Status	The request status.
Date	The date and time when the request was created.
Originator Comment	The comment by the originator which creating a request.
Receiver Comment	The comment by the receiver after reviewing a request.

Note

If you click **Open Account**, system loads the account in review request and displays the Account Details page.

8.13.1.2 Sending a Review Request

The **Send Request** button enables you to send a review request to another the system user. However, the **Send Request** button is enabled only if you have specified the receiver while creating a review request and have saved it.

To send a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing** main tab and then click **Servicing** drop-down link. Click **Review Requests** tab.
2. In the **Review Requests** page in the **Query** section, select **Originator**.

- Click **Add** to create a new review request. The following screen is displayed:

8.13.1.3 Responding to a Review Request

When you receive a review request, the system notifies you by creating an entry in **My of Pending Review Requests By Priority** section in **Dash Board** with the number of unseen messages. In the following example, one review request is waiting on the Review Request page.

Oracle Financial Services Lending and Leasing

Signed in as DEMOGALES Accessibility Sign Out

Priority	Count
HIGH	1

To respond to a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link. Click **Customer Service** link. If the **Number of Pending Review Requests** tab displays a number, click **Review Requests** tab. On the Review Request page **Query** section, select **Receiver**.

The system displays the unread review requests in Review Request record.

2. In the **Review Request** record, select the record you want to view and click **View**.

Oracle Financial Services Lending and Leasing

Welcome, DEMOSUPR Accessibility Sign Out

Originator	Priority	Receiver	Account #	Reason	Status
DEMO SUPERUSER	HIGH	ANSHUMAN PANDA	20120100010026	REVIEW TRANSACTIONS	NEW

3. Click **Open Account**.

The system loads the account on Customer Service screen and displays Account Details page.

- Perform requested task on review request on the account. Click Review Request tab and selecting request, click **Edit**. Specify your response in the **Receiver Comment** field. Click **Save And Return**.

The screenshot shows the Oracle Financial Services Lending and Leasing application. The top navigation bar includes the Oracle logo, the text 'Financial Services Lending and Leasing', and user information: 'Welcome, DEMOSUPR', 'Accessibility', and 'Sign Out'. The left sidebar contains a 'Dashboard' tab and a 'Servicing' dropdown menu with options like 'Customer Service', 'Securitization', 'Transaction Authorization', 'Post Date Checks', 'Escrow Transactions', 'Account Documents', 'Collateral Management', 'Reports', 'Producers', 'Vendors', 'Batch Transactions', 'Advances', 'Payments', 'Fees', 'Interfaces', 'AP Transactions', 'GL Transactions', and 'Conversion Accounts'. The main content area is titled 'Customer Service' and 'Review Request (Pending: 0)'. It has a 'Query' section with a table of review requests and an 'Action' section with buttons like 'Add', 'Edit', 'View', 'Audit', 'Email', 'Open Account', 'Send Request', 'Send Response', 'Close Request', 'Originator', and 'Receiver'. The table has columns for 'Originator', 'Priority', 'Receiver', 'Account #', 'Reason', and 'Status'. Below the table is a form for editing a request, including fields for 'Originator', 'Priority', 'Receiver', 'Account #', 'Reason', and a large text area for 'Receiver Comment'.

- In the **Action** section, click **Send Request**.
The system sends your response to the originator, where it appears on **Review Request** page with status RETURN TO ORIGINATOR.
The recipient can view sent response by clicking **Receiver** or **View All** in **Query** section. (The request has a status as RETURN TO ORIGINATOR.)
- In the **Action** section, click **Close Request**
It will remove the message from the Review Request section.

Back on the originator's Review Request page, the message appears when **Originator** is selected in **Query** section. The request has a status as RETURN TO ORIGINATOR.

8.13.1.4 E-mailing a Review Request

While system updates **My Pending Review Requests By Priority** section in the **Dashboard** to notify you about the new requests, you can also e-mail a review request to both the originator and a receiver, as applicable. The system will use e-mail address recorded for both the originator and receive in **User Definition** section in User page.

To e-mail a review request

- On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link.
- Click **Customer Service** link.
- On the Customer Service link, click **Review Requests** tab.
- Select the request you want to e-mail in the **Review Request** section.
- In **Email** section, click **Originator** to send the message to the person listed in Originator field.

-Or-

Click **Receiver** to send it to the person listed in the **Receiver** field.

The system emails the details of selected record to e-mail address recorded in user setup.

8.13.1.5 Closing a Review Request

You can close a review request you created at anytime, regardless of status. However, you can only close review requests that have your user id in the Originator field. When you close a review request, the system removes it from Review Request record.

To close a review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click **Servicing** main tab and then click **Servicing** drop-down link.
2. Click **Customer Service** link.
3. On the Customer Service link, click **Review Requests** tab.
4. Select the request you want to close in the **Review Request** section.
5. In the **Action** section, click **Close Request**.

The system assigns the request as CLOSED and removes it from your Review Request record. The closed accounts can be reviewed anytime by selecting **View All** in the **Query** section.

ORACLE®
Financial Services Lending and Leasing

Signed in as DEMOSALES Accessibility Sign Out

The screenshot displays the Oracle Financial Services Lending and Leasing application interface. On the left is a navigation menu with options like Dashboard, Origination, Servicing, and Customer Service. The main area is titled 'Customer Service' and shows a 'Review Request (Pending: 0)' section. Below this is a table of review requests with columns for Originator, Priority, Receiver, Account #, Reason, Status, and Date. Two requests are listed: one from DEMO SALES AGENT with priority HIGH and another from DEMO SALES AGENT with priority NORMAL. Below the table are sections for 'Originator Comment' and 'Receiver Comment'.

Originator	Priority	Receiver	Account #	Reason	Status	Date
DEMO SALES AGENT	HIGH	DEMO SALES AGENT	20110800010682	REVIEW ACCOUNT	NEW	10/
DEMO SALES AGENT	NORMAL	DEMO FLINDER	20120500010824	REVIEW BALANCES	NEW	10/

9. Tools

Depending on the type of product you are working with during origination, the Tools screens enable you to calculate Loan, Lease or Vehicle value details.

Tools in the main menu are standalone and information calculated using them can only be viewed. They cannot be copied to the application / contract.

Whereas, Tools that appear as a sub-tab in Underwriting and Funding Tabs, allows you to import the contract values, do necessary calculations and copy the calculated values to the respective Contract / Decision tabs.

9.1 Lease Calculator

The lease calculator works in one of four modes, depending on which of the following options you select in the Lease Calculator section:

- Calculate Payment
- Calculate Rate/Rent Factor
- Calculate Residual Percent
- Calculate Gross Capitalized Cost.

The **Calculate Payment** mode calculates the base monthly payment using the information provided: the gross capitalized cost, capitalized cost reduction, residual percentage, rate, and lease term.

The **Calculate Rate/Rent Factor** mode calculates the rate and the rent factor using the gross capitalized cost, capitalized cost reduction, residual percent, lease term, and base monthly payment.

The **Residual Percent** mode calculates the residual percent using the gross capitalized cost, capitalized cost reduction, rate, lease term, and base monthly payment.

The **Gross Capitalized Cost** mode calculates the gross capitalized cost using the capitalized cost reduction, residual percent, rate, lease term, and base monthly payment.

To calculate a lease payment

1. On the Oracle Lending and Leasing home screen, click **Tools** → **Tools** → **Lease Calculator**.

Oracle Financial Services Lending and Leasing

Lease Calculator

Parameters

☒ Calculate Payment
 ☐ Calculate Rate/Rent Factor
 ☐ Calculate Residual Percent
 ☐ Calculate Gross Capitalized Cost

* Contract Dt: 07/12/2015
 * First Pmt Dt: 07/01/2016
 Maturity Dt: 07/12/2015
 Gross Capitalized Cost: 0.00
 Capitalized Cost Reduction: 0.00

Adjusted Capitalized Cost: 0.00
 Residual Value (-): 0.00
 Residual %: 0.0000
 Depreciation Value (=): 0.00
 Rent Charge (+): 0.00
 * Rate: 0.0000

Rent Factor: 0.000000
 Total of Base Monthly Pmts (=): 0.00
 * Term: 0
 Base Monthly Payment (=): 0.00

Initialize Calculate Print Quote

Copyright © 1998,2015, Oracle and/or its affiliates. All rights reserved. About

2. In the **Lease Calculator** section, click **Calculate Payment**, then click **Initialize**.
3. In the **Lease Details** section, complete the following fields:

Field:	Do this:
Contract Dt	Enter the contract date.
First Pmt Dt	Enter the first payment date.
Maturity Dt	View the maturity date.
Gross Capitalized Cost	Enter the gross capitalized cost.
Capitalized Cost Reduction	Enter the capitalized cost reduction.
Adjusted Capitalized Cost	View the adjusted cap cost.
Residual Value (-)	View the residual value.
Residual%	Enter the residual percentage.
Rent Charge (+)	View the rent.
Rate	Enter the rate.
Rent Factor	View the rent factor.
Total of Base Monthly Pmts (=)	View the total of payments.
Term	Enter the term.
Base Monthly Payment	View the base monthly payment.

4. In the **Lease Calculator** section, click **Calculate**.

The system calculates the Base Monthly Payment (=) field on the Lease Details section.

To calculate a rate/rent factor

1. In the **Lease Calculator** section, click **Calculate Rate/Rent Factor**, then click **Initialize**. You can refer to the above section for updating information in the required fields.
2. In the **Lease Calculator** section, click **Calculate**.

The system calculates the Rate field on the Lease Details section.

To calculate a residual percent

1. In the **Lease Calculator** section, click **Calculate Residual Percent**, then click **Initialize**. You can refer to the above section for updating information in the required fields.
2. In the **Lease Calculator** section, click **Calculate**.

The system calculates the Residual% field on the Lease Details section.

To calculate a gross capitalized cost

1. In the **Lease Calculator** section, click **Calculate Gross Capitalized Cost**, then click **Initialize**. You can refer to the above section for updating information in the required fields.
2. In the **Lease Calculator** section, click **Calculate**.

The system calculates the Gross Capitalized Cost field on the Lease Details section.

9.1.1 Printing a Quote

You can generate a summarised report using the calculated lease details in the format of quote with lease details and charges.

In the Lease Calculator screen, click **Print Quote**. The system generates a PDF document to the default downloads repository consisting of the following information in the respective headers:

Lease Details

The Lease Details section consists of Contract Start Date, Contract End Date, First Payment Date, Total Lease Term, and Rate.

Payment/Finance Charge

The Payment/Finance Charge section consists of gross capitalized cost, adjusted capitalized cost, percentage of residual value, rent factor, base monthly payment, and total of base monthly payments including rental charges.

9.2 Vehicle Evaluator

The Vehicle Evaluator screen allows you to calculate the value of a vehicle. You can use the Vehicle Evaluator screen to calculate the value of either a vehicle you are entering as the new collateral or vehicle currently listed as the application's collateral.

The Vehicle Evaluator screen can be cleared or refreshed at any time by clicking **Clear**.

To calculate a vehicle value

1. On the Oracle Financial Services Lending and Leasing home screen, click **Tools** → **Tools** → **Vehicle Evaluator**

2. In the **Vehicle Evaluator** section, use **Asset** field to select the vehicle you want to appraise. This can be either NEW COLLATERAL or a vehicle entered on the Collateral link.
3. In the **Vehicle Evaluator** section, click **Initialize**. The system completes **Valuation Source**, **Period** and **Region** fields.
4. If needed, you can change the default contents of the fields in **Vehicle Evaluator**.
5. **If you selected a vehicle from the Collateral link in step 3**, information from the Vehicle section appears in Vehicle section in Vehicle Evaluator screen.
6. **If you selected NEW COLLATERAL in step 3**, complete the **Identification #**
-OR-
Complete the fields in the **Vehicle** section.
7. In the **Vehicle Evaluator** section, click **Evaluate**.
 - If you have specified the vehicle identification number, system searches for the value of that vehicle with that identification number, then completes Vehicle Evaluator screen with information about that exact match.
 - If you completed the **Vehicle** section, system searches for the value of a vehicle matching that description.
 - In either case, the system displays following information about the vehicle:
 - In the **Vehicle** section, view the returned information:

Field:	View this:
Year	The asset year.
Make	The asset make.
Model	The asset model.
Body	The asset body style.
Usage	The asset usage or current mileage.
Weight	The asset weight.

In the **Valuation (Total Value)** block, view the returned information:

Field:	View this:
MSRP	Manufacturer's suggested retail price value of the asset.
Total	Total value of the asset.
Usage	Adjusted usage value of the asset.

In the **Base and Attribute Value** section, view the returned information:

Field:	View this:
Base Retail	Total retail value of the asset.
Base Loan	Base loan value of the asset.
Base Trade	Base trade value of the asset.
Retail	Retail value of the asset attributes.
Loan	Loan value of the asset attributes.
Trade	Base trade value of the asset attributes.

9.2.1 Attributes Tab

In the **Attributes** section, view the following information:

Field:	View this:
Attribute	Asset attribute.
Retail	Attribute retail value.
Loan	Attribute loan value.
Trade	Attribute trade value.
Standard	Standard indicator. If selected, indicates that the attribute is a standard.
Package Incl	If selected, indicates that the attribute is inclusive.
Selected	If selected, indicates that the attribute is selected.

If you want to re-calculate the values using other data in **Total Value** and **Base and Attribute Value** section, do the following:

- Make the required changes to the desired parameters fields in Vehicle Evaluator and **Vehicle** sections.
- In the **Vehicle Evaluator** section, click **Recalculate**.

The system updates the values in **Total Value** and **Base and Attribute Value** sections.

8. If you choose, use **Attributes** section to select or clear the **Selected** box for attributes of the vehicle. This automatically updates the values in Total Value and Base and Attribute Value sections. (**Note:** Attribute amounts within brackets reduce the amount in Totals field in the Total Value section.)

To copy the calculated value to the Collateral link

You can copy the calculated value to Collateral link only if you have accessed the tools tab either from Underwriting or Funding Tab. Accessing Tools from the main menu does not support this option.

1. Complete the following steps in the section **To calculate a vehicle value**.
2. In the **Vehicle Evaluator** screen, click **Copy to Asset**.

The system uses calculations on the Vehicle Evaluator screen to complete Valuation sub screen on Collateral link. Any pre-existing collateral is no longer the primary collateral.

10. Oracle Financial Services Lending and Leasing Reports

During day, or at end of the day, you may want to retrieve any information from several operations that were performed during the day in your financial institution. You can generate this information in the form of reports in Oracle Financial Services Lending and Leasing. You can specify the values in the Report Parameters section and generate a report using that information.

Navigation to Reports

On the Oracle Financial Services Lending and Leasing home page, click **Collections** → **Collections** → **Reports**.

10.1 Bankruptcy Log

This collection report lists bankruptcy accounts.

Parameters:

- Company/Branch

Example of the Bankruptcy Log report

11. Producer

Oracle Financial Services Lending and Leasing is capable to create and service direct as well as indirect Lease. Indirect Lease are generated through Producer Entities like Dealerships and Agents. It is essential to create and maintain such entities to enable incentive tracking and business development achieved through each entity.

Applications are sent to financial institutions indirectly through producer entities like dealers or agents on behalf of a customer. Specifying Producer details is mandatory while creating a application since the system associates a credit application with the producer entity which sent it, on the Application Entry, Underwriting, and Funding screens. When the credit application is approved and funded, the system associates the account with the producer entity.

The following three different status are defined for Producer Entities in OFSLL:

- Active: Only if Producer Status is Active, the application sourced through that Producer Entity can be funded.
- Inactive: If the Producer Status is Inactive, the application sourced through that Producer Entity cannot be funded.
- Temporary: If the Producer Status is Temporary, the application sourced through that Producer Entity can only be reviewed. However it cannot be funded.

The producers are paid for their participation, either:

- Up front during funding
- or-
- Up front on a monthly basis
- or-
- When the interest is earned
- or-
- When the payment is received from customer based on the set up compensation plans.

The Producer Setup screen contains pages that enable you to maintain and administer producer compensation, compensation payments, charge back plans, and chargeback parameters.

While setting up Producer entities it is also essential to setup the Producer Cycles under 'Setup' in main menu. For more details, refer to Configuring Lending and Leasing guides.

While working with the Producer Setup screen, you will primarily use the following sub tabs:

1. Payment Details
2. Tracking Attributes
3. Contracts
4. Comments
5. Summary

The Producers screen, completed during setup, can be used to view and maintain producer details.

11.1 Producer Details

The Producer details screen allows you to record or edit basic information about the producer. You can set up dealers or producers for a company and branch. You can also set up a default underwriter and a default collector for a producer. The system uses this information in the origination work flow to select a queue.

The producer number, name, contact information, company and branch to which the producer is associated with, federal tax number, status, and license information can be stored in this screen.

Navigating to Producer

1. On the Oracle Financial Services Lending and Leasing home screen, click **Collection** → **Collections** → **Producers**.
2. The system displays the Producers setup screen.

To set up the Producer

1. In the **Producer** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Producer #	Based on the system setup, either: Specify the producer number -or- The system generates producer number. Producer will be activated on the next system date (current system date + 1) and not on the start date.

Field:	Do this:
Old Producer #	Specify the old producer number.
Name	Specify the producer name.
Company	Select the company from the drop-down list.
Branch	Select the branch from the drop-down list.
Start Dt	Select the producer start date by clicking on the adjoining Calendar icon.
End Dt	Select the producer end date by clicking on the adjoining Calendar icon.
Contact	Specify the producer contact.
Group	Select the producer contact group from the drop-down list.
Grade	Select the producer grade as per business processes from the drop-down list. The list consist of values which are used only for categorizing at the producer level and can be changed periodically as per business requirement.
Type*	Select the producer type from the drop-down list. The Group and Type fields help in setting up the pricing schemes on Pricing screen.
Status	Select the appropriate status from the drop-down list. The contents of this field can be linked to edits in Lease origination cycle so that only applications from Producers whose status is 'Active' can be funded.
Sales Agent	Select the sales agent associated with this producer from the drop-down list.
Underwriter	Select the default underwriter assigned to this producer from the drop-down list. Only users with a responsibility for an UNDERWRITER can be designated as underwriters for producers.
Funder	Select the users with responsibility as Funding Specialist, from the drop-down list.
Collector	Select the default collector or agent assigned to this producer from the drop-down list. (This will appear in the Collector field in Delinquency Information section of Account Details screen on the Customer Service screen).
Fed Tax #	Specify the federal tax identification number. If the organizational parameter <code>UIX_HIDE_RESTRICTED_DATA</code> is set to Y, this appears as a masked number; for example, XXXXX1234.
Address section	
Country	Select the country code from the drop-down list.
Address Line 1	Specify address line 1
Address Line 2	Specify address line 2

Field:	Do this:
Zip	Select the zip code from the drop-down list.
Zip Extn	Specify the extension of the zip code.
City	Specify the city.
State	Select the state from the drop-down list.
Phone 1	Specify phone number 1.
Exnt 1	Specify phone number 1 extension.
Phone 2	Specify phone number 2.
Extn2	Specify phone number 2 extension.
Fax Prefix1	Select fax prefix number 1 from the drop-down list.
Fax1	Specify fax number 1.
Fax Prefix2	Select fax prefix number 2 from the drop-down list.
Fax2	Specify fax number 2.
E-Mail	Specify the producer mail address.
Loss Reserve Amount	Specify the loss reserve amount
Max Float	Specify the value of maximum float allowed for the Producer. A Float represents the application sourced by the producer that is Funded and awaiting 'Title perfection' from the concerned authorities for marking lien. If you do not know the exact value but want to provide a maximum float, then specify the value as 99999.
Remaining Float	System automatically displays the available number of floats by calculating the remaining float value based on 'Max Float' and Title perfections under processing.
Enabled	Check this box to enable the product.
Subvention Participation Details	
Subvention Participant	Check this box to maintain the producer as subvention participant
Collection Type	Select the collection type from the drop-down list.
Collection Frequency	Select the collection frequency from the drop-down list.
Refund Disbursement Method	Select the refund disbursement method from the drop-down list.
Region	Select the region of producer from the drop-down list.
Territory	Select the territory of producer from the drop-down list.

Field:	Do this:
License Details	
Valid From	Specify the date from when the producer's license is valid.
Valid To	Specify the date till when the producer's license is valid.

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

Note

Oracle Financial Services Software recommends that you double-check the fax numbers (especially the 10 digit number) and email addresses you enter on this screen, since the system uses this information to send its system-generated underwriting decisions.

11.1.1 Payment Details

You can setup ACH as the payment mode for a dealer or producer on Payment Details sub screen. The Payment Details sub screen stores information regarding the producer's bank, such as bank's name, routing number, account type and account number. Once this sub screen is completed, the information goes into effect immediately. To complete the Payment Details

1. Click **Collection** → **Collections** → **Producers** → **Payment Details**.
2. In the **Payment Details** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Pmt Mode	Select the payment mode from the drop-down list.
Bank	Specify the ACH bank name.
Start Dt	Select ACH start date if payment mode is ACH. You can even select the date from adjoining Calendar icon.
Routing #	Specify the ACH bank routing number.
Account Type	Select the ACH bank account type from the drop-down list.
Account #	Specify the ACH bank account number.
Disbursement Currency	Select the disbursement currency from the drop-down list.

Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

1. Compensation Plan sub screen

You can view additional details of the Compensation Plan, Chargeback Methods, and Compensation/Chargeback Amounts in the sub screen.

- SubventionSubvention Receivables In the Subvention Receivables section, you can view the following details. The Transactions in the action block. All transactions relating to Payment to / from Producers, Disbursements transactions from Holdback / Reserve can be posted by selecting 'Others' option in the action block.
- Subvention Receivables / Payments and adjustments can be posted by selecting 'Subvention' option in the action block.

On selecting 'Others' or 'Subvention' option, click **Add** and specify the following field information.

Click **Post** to post the transaction for processing.

Holdback/Loss Reserve Holdback/Loss Reserve Proceed Holdback and Loss Reserve for the producer.

Holdback/Loss Reserve

1. Click **Producers** → **Holdback/Loss Reserve**.
2. In the Proceed Holdback section, you can view the account and Holdback amount details.

In the Loss Reserve section, you can view Loss Reserve amount details.

11.1.2 Tracking Attributes

The Tracking Attributes sub screen allows you to link information to a producer who is not tracked in the system, by default, however is part of company's business practices.

To complete the Tracking Attributes

1. Click **Collection** → **Collections** → **Producers** → **Tracking Attributes**.
2. In the Tracking section, you can edit the **parameter** and **Value** details.

11.1.3 Contacts

The Contacts sub screen allows you to record information regarding contacts associated with a producer, such as employees at a dealership.

To complete the Contacts

1. Click **Collection** → **Collections** → **Producers** → **Contacts** sub tab.
2. On the **Contacts** sub screen, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Contact Type	Select the producer contact type from the drop-down list.
Name	Specify the producer contact name.
Phone	Specify producer contact phone number.
Extn	Enter phone number extension.
Fax	Enter producer contact fax number.
Enabled	Check this box to indicate this is a current contact.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

11.1.4 **Comments**

The Comments sub screen allows you to view and enter comments regarding the producer.

To enter a comment on the Comments

1. Click **Collection** → **Collections** → **Producers** → **Comments** sub tab.
2. In the **Comments** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Comment	Enter comment.
Comment By	Displays user id.
Comment Dt	Displays comment date.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

11.1.5 **Summary**

The display only Summary sub screen allows you to view summary information regarding the producer.

To view summary on the Summary

1. Click **Collection** → **Collections** → **Producers** → **Summary** sub tab.
2. In the **Summary** section, view the following information.

A brief description of the fields is given below:

Field:	View this:
Year Month	The year and month.
Total Apps	The application total status count.
Approved	The application approved status count.
Conditioned	The application conditioned status count.
Rejected	The application rejected status count.
Withdrawn	The application rejected status count.
Funded	The application withdrawn status count.
Amount	The application funded status total amount.

11.1.6 **Title Status Summary**

The Title Status Summary screen displays the various stages of titles of assets for applications sourced by the producer. The details are available for specific periods like last 1

day, 2 days, 5 days, 7 days and All (entire history) and results are displayed for selected period with each date as new row.

For example, if user has selected 2 days and the system date is 2nd June 2014, then system will group statuses in mentioned buckets and displays data for each 'Lien event date'.

To view Title Status Summary on the Summary

1. Click **Collection** → **Collections** → **Producers** → **Summary** sub tab.
2. On the **Title Status Summary** screen, perform any of the [Basic Operations](#) mentioned in Navigation chapter.
3. Select the **Title Status Summary** period as 1 day/2 days/5 days/7 days/All.

A brief description of the fields are given below:

Field:	View this:
New Status	Displays lien status as 'New'
Perfection Processing Status	Displays lien status as either Sent for Perfection/ Sent for Re-perfection
Perfected Status	Displays if lien status has 'Perfected Title'
Release Processing Status	Displays lien status as either Sent for Title Release/Re-sent for Title Release
Released Status	Displays lien status as either Service Requested/Pending Delete
Hold Release	Displays lien Hold Release status
To be Released	Displays lien status if 'To be released'
Closed Status	Displays lien status if 'Deleted'
Exception Status	Displays lien status as either Pending Lien Holder/ Pending DMV
Lien Event Date	Displays lien Event Date attached against each status.

12. Vendors

During the life of an account, a financial institution might require the use of specialized services of a vendor for various purposes; for example, repossessing a vehicle, retaining an attorney for bankruptcy court proceedings or making field calls. With the system's Vendors screen, you can:

- Maintain vendor information
- Maintain services offered by the vendor
- Assign tasks to the vendors and subsequently track and process those tasks
- Charge vendor expenses to customers
- Enter and update invoices raised by the vendors
- Post vendor transactions
- Process vendor payments.

Once an invoice has been presented for a service performed by a vendor, you can enter information on Vendor Management form and create a monetary transaction. You can then choose if the customer should pay any particular expense or not.

12.1 Vendor Detail Screen

The Vendors screen allows you to set up vendor information. By default it will show current address but if the vendor receives escrow disbursement at an address which is different from current business address the information can be entered in Payment Details sub screen. Also, the Payment Details sub screen allows you to enter number of days prior to the due date by which payment to vendor must be processed.

Navigating to Vendor Detail Screen

1. On the Oracle Financial Services Lending and Leasing home screen, click **Collections** → **Collections** → **Vendors**.
2. The system displays the Vendor screen. The details are grouped under four tabs:
 - Vendors
 - Work Orders
 - Follow-up
 - Invoices

12.1.1 Vendors tab

1. Click **Collections** → **Collections** → **Vendors** → **Vendors**. The details in the screen are grouped into three:
 - Vendor Details
 - Payment Details
 - Vendor Groups

2. In the **Collections** → **Collections** → **Vendors** → **Vendors** → **Vendor Details** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter:

The screenshot displays the Oracle Financial Services Lending and Leasing application. The left sidebar contains navigation options: Dashboard, Origination, Servicing, Collections, WFP, Tools, and Setup. The main area is titled 'Vendors' and includes tabs for Work Orders, Follow-up, and Invoices. The 'Vendor Details' section shows a table of vendors with columns for Vendor #, Name, Status, Company, Branch, Start Dt, End Dt, Contact Person, and Fed Tax #. Below the table, there are input fields for various vendor attributes, including Name, Status, Company, Branch, Start Dt, End Dt, Contact Person, Fed Tax #, Credit Days, Address #, Address Line 1, Address Line 2, State, Zip, Zip Extn, City, Email, and Country. The 'Payment Details' section at the bottom shows a table with columns for Country, City, State, Address Line 1, Address Line 2, Zip, Zip Extn, Pre Process Days, and Mode.

A brief description of the fields is given below:

Field:	Do this:
Enabled	Check this box to enable the vendor.
Vendor #	Displays the vendor number. The system generates the vendor number by default.
Name	Specify the vendor name.
Status	Select the vendor status from the drop-down list.
Company	Select the vendor portfolio company from the drop-down list.
Branch	Select the vendor portfolio branch from the drop-down list.
Start Dt	Specify the vendor start date. You can select data even from the adjacent Calendar icon.
End Dt	Specify the vendor end date. You can select data even from the adjacent Calendar icon.
Contact Person	Specify the vendor contact name.
Fed Tax #	If available, enter the vendor federal tax identification number. If the organizational parameter <code>UIX_HIDE_RESTRICTED_DATA</code> is set to Y, this appears as a masked number; for example, XXXXX1234.
Credit Days	Specify the credit days for the vendor invoice. This number is used to check that Invoice Due Date is not more than the credit days from Invoice Date.

Field:	Do this:
Phone 1	Specify primary phone number.
Extn 1	Specify the primary phone extension.
Phone 2	Specify alternate phone number.
Extn 2	Specify the alternate phone's extension.
Fax	Specify the fax number.
Fax 2	Specify the fax number 2.
Country	Select the country code from the drop-down list.
Address Line 1	Specify address line 1.
Address Line 2	Specify address line 2.
Zip	Select the zip code from the drop-down list.
Zip Extn	Specify the extension of the Zip code.
City	Specify the city.
State	Select the state from the drop-down list.
Email	Specify the email address.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

Click **Collections** → **Collections** → **Vendors** → **Vendors** → **Vendor Details**. The Payment Details sub tab allows you to set up automatic clearing house information for vendors.

4. On the **Payment Details** sub tab, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Remittance section	
Country	Select the country code from the drop-down list.
City	Specify city.
State	Select state from the drop-down list.
Address Line 1	Specify address line 1.
Address Line 2	Specify address line 2.
Zip	Specify zip code from the drop-down list.
Zip Extn	Specify extension of the zip code.
Pre-Process Days	Specify the remittance pre-process days. This is the number of days prior to due date by which payment to the vendor must be processed.

Field:	Do this:
Payment Details section	
Mode	Select the mode of payment from the drop-down list.
Bank	Specify the ACH bank.
Start Dt	View ACH start date.
Routing #	Specify the bank routing number.
Account Type	Select the account type from the drop-down list.
Account #	Specify the account number. If the organizational parameter <code>UIX- _HIDE_RESTRICTED_DATA</code> is set to 'Y', this appears as a masked number; for example, XXXXX1234.

- Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
- Click **Collections** → **Collections** → **Vendors** → **Vendors** → **Vendor Details**. The Vendors Groups allows you to set up vendor groups.
- On the **Vendor Groups** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Sort	Specify sort sequence.
Group	Select the vendor type to which the vendor belongs from drop-down list, based on services provided by the vendor.
Enabled	Check this box to enable the vendor service.

- Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

12.1.2 Work Orders Tab

The Work Orders link allows you to assign an account to a vendor for a service that the vendor provides.

- Click **Collections** → **Collections** → **Vendors** → **Work Order**. The details are categorized into two:
 - Work Order
 - Services

2. In the **Collections** → **Collections** → **Vendors** → **Work Order** → **Work Order**, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Work Order #	Displays the work order number.
Account	Select account number for the work order from the drop-down list.
Vendor	Select vendor who will service the work order from the drop-down list.
Company	Displays the vendor company.
Branch	Displays the vendor branch.
Status	Select the service status from the drop-down list.
Type	Select the work order type from the drop-down list.
Work Order Details section	
Dt	Displays the work order date.
Status Dt	Displays the last work order status change date.
Currency	Select currency for the work order from the drop-down list.
Estimated	Displays the estimated amount for the work order.
Billed	Displays amount billed by the vendor for the work order.
Paid	Displays amount paid to the vendor for the work order.

Field:	Do this:
Account Information section	
Collateral	Select asset associated with the work order from the drop-down list.
Reference #	Specify the vendor reference.
Assigned By	Specify the user who created the work order.
Followup Dt	Specify the next follow-up date. You can even select from the adjoining Calendar icon.
Vendor Information section	
Contact	Specify the vendor contact for the work order.
Phone	Specify the vendor contact phone for the work order.
Extn	Specify the vendor contact phone extension for the work order.
Fax	Specify the vendor contact fax for the work order.
Comment	Specify any comments regarding the work order.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
4. In the **Collections** → **Collections** → **Vendors** → **Work Order** → **Services**, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Service	Select the service type from the drop-down list (required).
Fee Type	Select the vendor fee type from the drop-down list.
Currency	Select the currency from the drop-down list.
Estimated	Specify the estimated amount for the service.
Billed Amt	Displays amount billed by the vendor for the service.
Paid	Displays amount paid to the vendor for the service.
Status	Select the status from the drop-down list.
Status Dt	Displays the last service status change date.

5. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

12.1.3 **Follow-up Tab**

The Work Orders link lists the work orders that are not complete and hence require follow-up.

1. Click **Collections** → **Collections** → **Vendors** → **Follow-up** tab. The details are grouped into two:
 - Work Order Follow-up

- Assigned Services
2. In the **Collections** → **Collections** → **Vendors** → **Follow-up** → **Work Order Follow-up**, perform any of the [Basic Operations](#) mentioned in Navigation chapter except for creating a new record.

A brief description of the fields is given below:

The 'Invoice Information' form includes fields for:

- Invoice:** Vendor (dropdown), Company, Branch, Invoice #, Invoice Dt (calendar icon), Due Dt (calendar icon), Status (dropdown).
- Details:** Status Dt (09/29/2014).
- Payment Schedule:** Related Invoice/Work Orders.
- Payment Schedules:** Currency, Payment Amt, Status, Payment Dt, Payment Reference, Payable Id, Disbursement Currency.

A brief description of the fields is given below:

Field:	Do this:
Vendor	Select the vendor name for whom the invoice is to be created.
Company	Displays the vendor portfolio company.
Branch	Displays the vendor portfolio branch.
Invoice #	Specify the invoice number. The invoice number should be unique for every vendor. In case the Invoice # already exists for Vendor, system displays a warning message.
Invoice Dt	Specify the invoice date. You can even select the date from the adjoining Calendar icon.
Due Date	Select the due date. You can even select the date from the adjoining Calendar icon.
Status	Select the invoice status from the drop-down list.
Details section	
Status Dt	Displays the last invoice status change date.
Address	Displays the vendor address.
Currency	Select the currency from the drop-down list.
Invoice Amt	Displays the total invoice amount.

Field:	Do this:
Agreed Amt	Displays the total agreed amount.
Paid Amt	Displays the total paid amount.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
4. In the **Collections** → **Collections** → **Vendors** → **Invoices** → **Invoice Details**, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Work Order	Select the work order from the drop-down list.
Invoice Amt	Specify the invoice amount.
Agreed Amt	Specify the agreed amount.
Paid Amt	Displays the paid amount.
Txn Post Dt	Specify transaction effective date. You can even select the date from the adjoining Calendar icon.
Status	Select the status from the drop-down list.
Status Dt	Displays the last status change date.
Collectible	Check this box to collect the agreed amount from the customer.

5. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
6. In the **Collections** → **Collections** → **Vendors** → **Invoices** → **Payment Schedules**, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Currency	Select the currency from the drop-down list.
Payment Amt	Specify the payment amount.
Status	Select the payment status from the drop-down list.
Payment Dt	Specify the payment date. You can even select the date from the adjoining Calendar icon.
Payment Reference	Specify the payment reference.
Payable Id	Specify the payable requisition Id.
Disbursement Currency	Select the currency from the drop-down list.

7. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

8. In the **Collections** → **Collections** → **Vendors** → **Invoices** → **Related Invoice/Work Order Details**, perform any of the [Basic Operations](#) mentioned in Navigation chapter:

A brief description of the fields is given below:

Field:	View this:
Invoice #	Displays the invoice number.
Invoice Status	Displays the invoice status.
Status Dt	Displays the invoice status date.
Currency	Displays the currency.
WO Estimated Amt	Displays the work order estimated amount.
WO Agreed Amt	Displays the work order agreed amount.
WO Paid Amt	Displays the work order paid amount.
WO Status	Displays the work order status.

9. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

Appendix A: Transaction Parameters

The Customer Service screen's Maintenance sub tab enables you to post an array of monetary and nonmonetary transactions for any given account. The transactions that are available depend on responsibility of the Oracle Financial Services Lending and Leasing user, nature of account, and whether the account is a Lease.

Appendix A: This appendix catalogues the baseline transaction codes and parameters available on Customer Service screen's Maintenance sub tab. Instructions on how to use the Maintenance sub tab are located in Customer Service chapter of this User Guide.

A.1 Monetary Transactions

This section catalogues the transaction codes and parameters required to complete the following monetary tasks for Lease:

- Apply, adjust, or waive servicing expenses
- Adjust or waive late charges
- Adjust or waive nonsufficient funds
- Apply, adjust, or waive repossession expenses
- Apply, adjust, or waive bankruptcy expenses
- Apply or adjust phone pay fees
- Change an index/margin rate
- Apply, adjust, or cancel financed insurance
- Generate a payoff quote
- Payoff an account
- Charge-off an account
- Close an account
- Apply, adjust, or waive an extension fee
- Change payment amount
- Adjust or waive a prepayment penalty
- Reschedule an escrow payment
- Adjust or waive an escrow payment
- Adjust or waive a payoff quote fee
- Place an account in a nonperforming condition
- Reverse a nonperforming condition
- Reschedule precomputed Lease to interest bearing Lease
- Change profit rate
- Refunding the payment
- Non Refund GL
- ACH Fee Maintenance
- Adjust, charge-off, or waive the advance/principal balance
- Adjust the interest balance
- Stop interest accrual
- Indicate a borrower as on or off active military duty

Late charges occur when payment is not made within the grace period or by the day after payment is due. The due date is determined by the contract.

Late charges appear in LC Due field on the Dues section of Summary tab of the Customer Service screen. This is the first screen to appear on the Customer Service screen when you

load an account.

The screenshot displays the Oracle Financial Services Lending and Leasing Customer Service interface. The main window shows the account details for '20140200012590: LEASE LEASE'. The 'Dues' section is expanded, showing a table of due dates and amounts. The 'Late Due' of 120.00 is highlighted with a red box. Other sections include Alerts, Conditions, Collateral Information, and Customer Information.

To adjust a late charge

Transaction	Parameters
Adjustment To Late Charge - Add	Txn Date Amount
Adjustment To Late Charge - Subtract	Txn Date Amount

To waive a late charge

Transaction	Parameters
Waive Late Charge	Txn Date Amount

A.1.2 Nonsufficient Fund Fees

Nonsufficient fund fees are posted when a payment does not cover the amount owed. The fee that the system automatically applies to an account is recorded during setup.

Nonsufficient fund fees appear in the NSF Due field on the Dues section of Summary tab of Customer Service screen. This is the first screen to appear on the Customer Service screen

when you load an account.

The screenshot displays the Oracle Financial Services Lending and Leasing Customer Service interface. The main window shows account details for '20140200012590: LEASE LEASE'. The 'Dues' section is expanded, showing a table of dues with columns for dates and amounts. The 'NSF Due' is highlighted in a red box. Other sections include Alerts, Conditions, Collateral Information, and Customer Information.

A.1.6 Financed Insurances

You can add financed insurance to an existing account with the INSURANCE ADDITION transaction. This transaction adds insurance premium amount to advance/principal balance on the Lease and adjusts the Lease receivables accordingly. The transaction also triggers the process to re-compute repayment amount for Lease. After you post the transaction Lease will be billed for newly computed payment amount and will be considered for delinquencies and fees calculations based on information on the Contract link's Contract screen. The newly

added insurance information can be viewed on Customer Service drop-down link's Insurances link.

	Secondary Beneficiary
	Comment

You can cancel financed insurance on an existing account with the INSURANCE CANCELLATION transaction. When you post this transaction, the system computes premium refund amount based on the refund method associated with insurance item. If you enter a value for PREMIUM AMOUNT parameter, the system overrides calculated refund amount and adjusts advance/principal balance and Lease receivables accordingly. The INSURANCE CANCELLATION transaction re-computes the repayment amount for Lease based on remaining balances. After posting the transaction, Lease will be billed for newly computed payment amount according information on the Contract tab's Contract sub tab. The insurance cancellation information can be viewed on the Contract link's Insurances sub screen.

To cancel a financed insurance

Transaction	Parameters
-------------	------------

Insurance Addition	Txn Date
	Insurance Type
	Policy Effective Date
	Insurance Refund Amount
	Interest Refund Amount
	Payment Amount
	Cancellation Reason

You may rectify possible errors resulting from incorrect information entered on the INSURANCE ADDITION transaction (such as an incorrect premium account) with the monetary transaction INSURANCE MODIFICATION.

When you post the INSURANCE MODIFICATION transaction, Oracle Financial Services Lending and Leasing re-computes the repayment amount using new premium amount and adjusts advance/principal balance on Lease and Lease receivables.

To modify financed insurance information

Transaction	Parameters
Insurance Modifications	Txn Date
	Insurance Type
	Policy Effective Date
	Premium Amount

A.1.7 Index/Margin Rates

You can change the current index rate type and margin rate of a variable rate Lease using the INDEX / MARGIN RATE CHANGE monetary transaction.

To change an index/margin rate

Transaction	Parameters
Index/Margin Rate Change	Effective Date
	Index
	Margin Rate
	Reason

A.1.8 Payoff Quotes

A payoff quote is the amount still owed on account or amount needed to satisfy the Lease. It can be generated anytime and may be requested during a call from a customer, dealer, or insurance agent. The payoff quote appears in Results section of Maintenance screen.

To generate a payoff quote for an account Lease

Transaction	Parameters
Payoff Quote	Txn Date
	Payoff Quote Valid Up To Date
	Assess Payoff Quote Fee
	Payoff Quote Ltr Print
	Comment

A.1.9 Account Paidoff

An account is automatically paid off or marked for payoff processing by the system with a batch transaction when the account balance is \$0.00. You can also manually payoff an account with the Maintenance screen. You can also pay off an account using the Consumer Lending (Advance and Payment) form. For more information, see the **Payment Processing** chapter.

When you payoff an account, the system changes the account's status to PAID OFF. The date the account was paid off appears in Activities section's Paid Off Dt field on Account Details screen.

The system also notes the amount of the principal that was waived when account was paid off in the Waived column on Account Balances screen.

To pay off an account

Transaction	Parameters
Paid off	Txn Date

If you reverse the payoff payment using Customer Service form, then the pay-off is automatically reversed. The system changes the account's status from PAID OFF to ACTIVE when you refresh the account.

A.1.10 Account Charge Off

Charging off an account refers to when a lender decides to take a loss on an account, signalling that attempts to recover the Lease have failed. In calculating a charge off, the system considers the total compensation amount (up front compensation plus remaining compensation amount). It is different from the waive off process since a waive off is a concession offered to the customer on payment of some component, such as a late fee. The repayment of the original Lease still continues in waive off process.

When you charge off account, the system changes the status to CHARGED OFF. The balance on the account appears on Customer Service form's Balance screen when you choose Deficiency Balance in the Balance Group section.

								Current Balance Total 0.00	

The date of the charge off appears on Account Details screen in Activity section's Chargeoff Dt field.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The left sidebar contains navigation options like Dashboard, Origination, Servicing, Collections, WFP, Tools, and Setup. The main area is titled 'Customer Service' and has tabs for Summary, Customer Service, Account Details, Customer Details, Transaction History, Pmt Modes, Bankruptcy, and Repo/Foreclosure. The 'Account Details' tab is active, showing sections for Alerts, Conditions, Dues, Delinquency Information, Activities, Due Date Change, and Extensions. In the 'Activities' section, the 'Charge Off Dt' field is highlighted with a red box. Other fields include Active Dt, Last Activity Dt, Due Day, Last Pmt Dt, Customer Grade, Producer, Last Txn Dt, Rem. Txn. Limit (Year), Rem. Txn. Limit (Life), Extn. Gap Rem. (Months), App. #, Paid Off Dt, Effective Dt, Current Pmt, Last Bill Amt, Last Pmt Amt, Military Duty, Customer Score, and Behaviour Score.

However, you can select the 'Do Not Auto Charge Off' condition to ignore few account conditions, for the charge-off processing batch job. When an account is marked with the condition DO NOT CHARGE OFF, then batch job will not pick the account for charge off processing.

You can add 'Do Not Auto Charge Off' condition in addition to the already existing condition.

To charge off an account

Transaction	Parameters
Charged Off	Txn Date

A.1.11 Account Closure

The system automatically closes an account when its status changes from ACTIVE status to PAID or VOID. It is manually closed if it has status as CHARGE OFF. Accounts marked as

CLOSED are not processed and after a period of time are purged from Oracle Financial Services Lending and Leasing.

A.1.15 Active Military Duty

The Servicemembers Civil Relief Act of 2003 (SCRA), formerly known as the Soldiers and Sailors Civil Relief Act of 1940 (SSCRA), is a federal law that gives military members some important rights as they enter active duty military service. The law is designed for active duty military personnel and reservists (and their spouse -- if applicable for joint credit accounts) to receive, as a result of military service economic hardship(s), an interest rate reduction (currently at 6.000%) for certain consumer and mortgage-related debt that was incurred prior to entering military service, for the period of time that the servicemember is on active duty. Under the law, the term's interest includes service charges, renewal charges, fees, or any other charges (except bona fide insurance) with respect to an obligation or liability. The law also provides protection against certain legal actions during the term of active duty military service. The SCRA function is currently available in the system for simple interest Lease.

Any account that has been identified under SCRA requirements as eligible for the allowable benefits of active military duty for its primary borrower/spouse will have a new interest rate calculation based upon the 6.000% limit set by the SCRA. However, this change is subject to

exception in case of accounts that already have an interest rate less than 6.000%. In such cases, the original interest rate that is less than 6.000% will continue.

To indicate that a borrower is on active military duty

Transaction	Parameters
Borrower On Military Duty	Txn Date
	Borrowers Relation With Account
	Active Duty Order Reference

After you post this transaction, the Military Duty box (Account Details screen Activities section) and Active Military Duty box (Customer Details screen Military Service section) are selected. Oracle Financial Services Lending and Leasing changes the condition of the account to ON ACTIVE DUTY. Details of the transaction appear in the Military Services section on Customer Details screen.

The screenshot displays the Oracle Financial Services Lending and Leasing interface. The 'Account Details' tab is selected, showing the 'Dues' section with a table of due dates and amounts. Below this is the 'Delinquency Information' section, which includes a table of late payments and a 'Military Duty' field highlighted with a red box, showing 'N'. The 'Customer Information' tab is also visible, showing the 'Customer Information' section with fields for Customer #, Name, Relation, SSN, and Birth Dt. The 'Address Information' section shows the current address, and the 'Employment Information' section shows the current employer. The 'Alerts' section shows no alerts, and the 'Conditions' section shows a table of conditions.

If the interest rate was greater than 6%, Oracle Financial Services Lending and Leasing will change the rate to 6% and adjust the payment accordingly. The CHANGE PAYMENT AMOUNT and RATE CHANGE transactions on the Transactions screen.

To indicate that a borrower is no longer on active military duty

A.1.16 Due Date Change

You can change the due date of an account. When it is changed, the system determines next bill date, as well as the next due date. The DUE DATE CHANGE transaction does not allow next billing date to change such that it is less than the current billing date. The due date change transaction has been extended to change the default ACH due day, provided that the account due day and ACH due day match.

If a late fee is no longer applicable because of this due day change, Oracle Financial Services Lending and Leasing will automatically remove the fee.

The new due day appears in Activities section Due Day field on the Account Details screen.

A.1.17 Payment Refund Transaction

Payment refund transactions allows you to refund excess payment received from the customer during life of the Lease. The Payment Refund transaction is posted at the maintenance screen in servicing. The refund is posted only when the refund amount is equal to Payment amount. Else an error message is displayed.

The screenshot displays the Oracle Servicing Maintenance interface. The top navigation bar includes tabs for Summary, Customer Service, Account Details, Customer Details, Transaction History, Pmt Modes, Bankruptcy, and Repo/Foreclosure. The 'Maintenance' tab is active, showing sub-tabs for Call Activities, Comments, Promises, Checklists, Tracking Attributes, References, Correspondence, and Letters. The main area is titled 'Transaction Batch Information' and contains a table with columns: Date, Monetary, Transaction, Status, and Batch. The table lists several transactions, including one dated 11/05/2014 with status 'CHARGED OFF'. Below the table are buttons for 'Save and Add', 'Save and Stay', 'Save and Return', and 'Return'. The 'Parameters' section shows a table with columns for Parameter, Value, and Required, but it is currently empty. The 'Result' section also shows a table with columns for Transaction Processing Details, but it is also empty.

To refund the payment amount

Transaction	Parameters
Payment Refund	Txn Date
	Payment Amount
	Payment Date
	Refund Amount

A.1.18 Extensions

Extension transactions allow you to extend a Lease. An extension fee may be assessed when an account receives an extension. In case of precomputed Lease, this is generally done to recoup the interest lost.

The system adjusts due date on Dues section's Oldest Due Dt field on Account Details screen to reflect the extension.

To apply an extension

Transaction	Parameters
EXTENSION	Txn Date
	Extension Term
	Reason
	Stop Accrual

While posting an extension, ensure that the minimum number of required payments, as defined at contract level is met. Else, system displays an error message on verification. Also while posting subsequent extension transactions, ensure that the minimum gap requirement between two extensions is satisfied.

To adjust an extension fee

Transaction	Parameters
ADJUSTMENT TO EXTENSION FEE - ADD	TXN DATE AMOUNT
ADJUSTMENT TO EXTENSION FEE - SUBTRACT	TXN DATE AMOUNT

To waive an extension fee

Transaction	Parameters
WAIVE EXTENSION FEE	TXN DATE AMOUNT

A.1.18.1 Extension Override

You can post 'EXTENSION OVERRIDE' transaction when you want the system to bypass extension validations which are defined at contract level.

Note the following:

- You can post a 'EXTENSION OVERRIDE' transaction only if you are authorized.
- There are no validations done when an extension override transaction is posted.
- Backdating an extension is allowed and also while backdating, system validates for the number of payments as of Transaction date.
- If 'EXTENSION OVERRIDE' transaction is posted on a backdated transaction which has 'TXN Date' appearing before the transaction extension date, then all the transactions from the date of previous extension will be reversed and re-posted. Here again, no validation rules are checked.

To apply an extension

Transaction	Parameters
EXTENSION	Txn Date
	Extension Term

A.1.19 Payment Amount

You can change the current payment amount of an account. The new payment amount has to be calculated manually as Oracle Financial Services Lending and Leasing does not perform any checks on the new payment amount.

If the transaction is backdated, due amounts for the affected periods are re-calculated. While delinquency data could potentially change, prior statements are not to be changed. The next ACH (if applicable) does not reflect changed payment amount if the account has already been billed at time of posting the transaction. Payments will be re-applied causing changes to account balances and late fees may be assessed (if applicable).

After you post the transaction, the new payment amount appears on Account Details screen in Current Pmt field of the Activities section.

To change the payment amount

Transaction	Parameters
Change Payment Amount	Txn Date
	Payment Amount
	Payment Auto Computer
	Indicator

A.1.20 Prepayment Penalty

A prepayment penalty is typically applied automatically by Oracle Financial Services Lending and Leasing if the account is paid off prematurely.

The following transactions allow you to adjust or waive the prepayment penalty fee. The adjustments will appear in the corresponding column of Customer Service screen's Account Balances screen for FEE PREPAYMENT PENALTY Balance Type-- Waive, Adjusted (-), or Adjusted (+) -- depending on which of the following the transactions you perform.

To adjust a prepayment penalty

Transaction	Parameters
Adjustment Prepayment Penalty - Add	Txn Date Amount
Adjustment Prepayment Penalty - Subtract	Txn Date Amount

To waive a prepayment penalty

Transaction	Parameters
Waive Prepayment Penalty	Txn Date Amount

A.1.21 Escrow Payment

The following monetary transactions allow you to specify escrow payment to be billed to the customer each month. Rescheduling an escrow payment enables you to change the payment rate (and hence rate and term) and define when change will begin. The "txn date" parameter is when the new agreement starts.

The following transactions allow you to adjust or waive the escrow advance.

The adjustments will appear in the corresponding column of Customer Service screen's Account Balances screen for ESCROW ADVANCE Balance Type-- Waive, Adjusted (-), or Adjusted (+) -- depending on which of the following transactions you perform.

To adjust escrow advance

Transaction	Parameters
Adjustment to escrow advance - add	Txn Date Amount
Adjustment to escrow advance - subtract	Txn Date Amount

To waive escrow advance

Transaction	Parameters
Waive Escrow Advance	Txn Date Amount

To reschedule an escrow payment

Transaction	Parameters
Reschedule Escrow Payment	Txn Date Amount

A.1.22 Escrow balance refund

If an account is paid off resulting in a positive (greater than \$0) escrow balance or the last item being escrowed is removed resulting in a positive (greater than \$0) escrow balance, then Oracle Financial Services Lending and Leasing refunds the escrow and creates a check requisition.

A.1.23 Pay Off Quote Fee

The PAYOFF QUOTE transaction on Maintenance screen includes the required parameter ASSESS PAYOFF QUOTE FEE. If you select Y, Oracle Financial Services Lending and Leasing assesses a payoff quote fee on Customer Service form's Balances screen for Balance Type FEE PAYOFF QUOTE. The amount of the payoff quote fee is based on contract setup.

The following transactions allow you to adjust or waive the pay off quote fee.

The adjustments will appear in the corresponding column of Customer Service form's Balances screen for FEE PAYOFF QUOTE Balance Type-- Waive, Adjusted (-), or Adjusted (+) -- depending on which of the following transactions you perform.

The screenshot displays the Oracle Financial Services Lending and Leasing Customer Service form's Balances screen. The 'Balance Group' section shows a table with columns: Balance Type, Opening Balance, Posted, Paid Balance, Waived, Charge Off, Adjusted (-), and Adjusted (+). The table lists various balance types such as ADVANCE / PRINCIPAL, INTEREST, FEE LATE CHARGE, FEE NSF, FEE ADVANCE, FEE OVER CREDIT LIMIT, FEE MEMBERSHIP, FEE PHONE PAY, FEE DELAY, and EXPENSE BANKRUPTCY, all with zero values. Below the table is a 'Promotion Details' section with a table showing a promotion of type NONE, rate 0.00, term 0.00, start date 08/22/2013, end date 12/31/4000, insurance, status TEMPORARY INACTIVE, and sub type.

To adjust a pay off quote fee

Transaction	Parameters
Adjustment to Payoff Quote Fee - Add	Txn Date Amount
Adjustment to Payoff Quote Fee - Subtract	Txn Date Amount

To waive a pay off quote fee

Transaction	Parameters
Waive Payoff Quote Fee	Txn Date Amount

A.1.24 Nonperforming Accounts

Lease accounts can be placed in a nonperforming, or nonaccrual, condition. Once an account is set to a nonperforming condition, the system makes the following modifications and accounting entries:

- After the transaction date, Oracle Financial Services Lending and Leasing assesses no late charge to this account.
- Stops general ledger entries for interest accrual.
- Transfers the existing principal balance on this account to the Non-Performing Balance Group on Customer Service form's Balance screen.
- Charges the unearned dealer compensation back to the dealer.
- Treats payments posted to this account as it does with a normal account; however, the general ledger entries for allocation of these amounts towards principal and interest will go towards the nonperforming balance.

The system's general ledger (GL) is set up for the above items. There will be no impact on balances of the account (principal, interest, fee and expense) as a result of the above transactions.

To place an account in a nonperforming condition

Transaction	Parameters
Account Non Performing	Txn Date
	Non Performing Description

The following transaction removes nonperforming condition on an account and reverses the nonperforming transactions explained above. General ledger entries for interest accrual, stopped during nonaccrual stage, resume.

To reverse a nonperforming condition

Transaction	Parameters
Resume Account Performing	Txn Date

A.1.25 Convert a Precomputed (PC) Lease into a Simple Interest (SI) Lease

When converting a precomputed Lease into a simple interest Lease, Oracle Financial Services Lending and Leasing assumes the following default values:

- Accrual Calculation Method - interest bearing (simple interest)
- Maturity Date - Computed from the term and next payment due date
- Monthly Payment Amount - Computed from the interest rate, new principal balance, accrual start date, and term.
- All balances other than the Note balance are carried over to simple interest Lease.

The resulting 'new' simple interest Lease will have the same account number with details entered/computed above.

Caution: The converting a precomputed Lease into a simple interest Lease transaction can be performed only by closing the nonperforming condition.

To reschedule precomputed Lease to interest bearing Lease

Transaction	Parameters
Reschedule Pre-Compute Lease to Interest Bearing Lease	Txn Date
	Reschedule Payment Start Date
	Amount
	Rate
	Term

A.2 Nonmonetary Transactions

This section catalogues the transaction codes and parameters required to complete the following nonmonetary tasks for Lease:

- Update a customer's name
- Maintain customer details
- Mark a customer as a skipped debtor
- Mark a customer as deceased

- Change a customer's Privacy Opt-Out indicator
- Stop correspondence
- Modify financed insurance information
- ACH Maintenance
- Reprint a statement (batch only)
- Add or stop servicing of accounts with post dated checks as a repayment method
- Stop an ACH for an account
- Add ACH bank
- Cancel or adjust an ESC
- Apply a refund payment to an ESC
- Cancel insurance (or reverse the insurance cancellation)
- Add new escrow insurance details
- Add new escrow tax details
- Change insurance annual disbursement
- Change insurance disbursement plan
- Change escrow indicators of insurance
- Change insurance expiration date
- Change insurance maturity date
- Change tax annual disbursement
- Change tax disbursement plan
- Change escrow indicators of tax
- Resume escrow analysis
- Resume escrow disbursements
- Stop escrow analysis
- Stop escrow disbursements
- Refund or adjust insurance

A.2.1 Customer Name Maintenance

You can update and change a customer's name.

To update a customer's name

Transaction	Parameters
Customer Name Maintenance	Txn Date
	Relation Type Code
	Customer First Name
	Customer Middle Name
	Customer Last Name
	Customer Generation
	Code

The new details appear throughout the system; for example, in Customer Service screen's Customer(s) section and Customer Details screen's Customer section.

A.2.2 Customer Details Maintenance

You can update and change the following details regarding a customer: social security number, marital status, disability indicator, driving license number, number of dependents, and email address.

To change other details about a customer

Transaction	Parameters
Customer Maintenance	Txn Date
	Relation Type Code
	Customer SSN
	Customer Marital Status Code
	Customer Disability Indicator
	Customer Driving License Number
	Customer Number of Dependents
	Customer Email Address 1
	Customer Birth Date
	Customer Gender Code
	Customer Language Code
	Customer Driving Licence State Code
	Customer Time Zone

The new details appear throughout the system.

A.2.3 Skipped Customers

When a customer cannot be located, the system enables you to mark that person as “skipped” (as in, “the person is a skipped debtor.”) Marking a customer as skipped indicates that the customer’s whereabouts are unknown.

To mark a customer as “skipped”

Transaction	Parameters
Customer Skip	Txn Date
	Relation Type Code
	Customer Skip Indicator

The Skip box is selected on the Customer Service screen's Customer(s) section and Customer Details screen's Customer section.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service interface. The 'Customer Information' section is active, and the 'Skip' checkbox is selected. The 'Customer Information' section includes fields for Customer #, Relation, ECOA, Name, Birth Dt, Marital Status, Enabled, Language, Education, Mother's Maiden Name, Class Type, and Email. The 'Skip' checkbox is located in the 'Customer Information' section, and it is highlighted with a red box. The 'Skip' checkbox is located in the 'Customer Information' section, and it is highlighted with a red box. The 'Skip' checkbox is located in the 'Customer Information' section, and it is highlighted with a red box.

To remove the Skip indicator, follow the above procedure. However, you can also type **N** in the CUSTOMER SKIP INDICATOR parameter.

A.2.4 Mark Customer as Deceased

You can mark a particular customer as deceased by posting a non-monetary transaction. Marking a customer as deceased indicates that the 'Account holder is deceased' and this condition is posted on the account and an Alert is populated in Comments tab and Summary tab.

Transaction	Parameters
Mark Customer as Deceased	Deceased Date
	Relation Type Code

You need to specify the deceased date of the customer and select the relation type code from the drop-down list.

The Customer Deceased Date is also indicated on the Customer Details screen's Military Service section.

A-32

A.2.5 Privacy Opt-Out Indicator

You can change the customer's Privacy Opt-Out indicator

To change the customer's privacy opt-out indicator

Transaction	Parameters
Customer Privacy Info Sharing Preference	Privacy Opt Out
	Effective Date
	Relation Type Code

The Primary Opt-Out box is selected on the Customer Service screen's Customer(s) section and Customer Details screen's Customer section.

A.2.6 Correspondence (stopping)

You can choose at any time to stop correspondence to a customer. When you do so, the customer will receive no correspondence of any kind from the system.

To stop correspondence with a customer

Transaction	Parameters
Customer Stop Correspondence	Txn Data
	Relation Type Code
	Customer Stop Corr Indicator

The Stop Correspondence box is selected on the Customer Service screen's Customer(s) section and Customer Details screen's Customer section.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service screen. The 'Customer Information' section is active, displaying a form with various fields. The 'Stop Correspondence' checkbox is highlighted with a red box. Other sections like 'Identification Details' and 'Address Information' are also visible.

To remove the Stop Correspondence indicator, follow the above procedure; However, you can also type **N** in the CUSTOMER STOP CORRESPONDENCE INDICATOR parameter.

A.2.7 Financed Insurance (modifying)

You can change other insurance details entered on the INSURANCE ADDITION transaction with nonmonetary INSURANCE DETAILS MODIFICATION transaction. The changed insurance information can be viewed on Customer Service screen's Insurances screen.

Note

In case any issues on existing Lease accounts, you can back port this functionality. Contact your account manager.

Transaction	Parameters
Insurance Modification	Txn Date

	Refund Amount Received
	Full Refund Received
	Comment

A.2.8 ACH Maintenance

The ACH maintenance transaction is for updating the existing ACH Banks details and not to define a new Ach Bank. The transaction is effective provided the ACH account no, ACH routing no, account type are matching with the existing Ach Banks details. On successful posting, the confirmation number will be generated.

To update the existing ACH bank details

Transaction	Parameters
ACH Maintenance	ACH Account Number
	ACH Account Type Code
	ACH Payment Frequency Code
	ACH Status Code
	ACH Bank Name
	ACH Bank Routing Number
	ACH Default Indicator
	ACH End Date
	ACH Payment Amount
	ACH Payment Amount Excess
	ACH Payment Day
	ACH Start Date
	Txn Date

This information appears in the ACH section of the Account Details screen.

ORACLE® Financial Services Lending and Leasing

	ACH Bank Routing Number
	ACH Default Indicator
	ACH End Date
	ACH Payment Amount
	ACH Payment Amount Excess

A.2.12 Post Dated Checks

You can add or stop servicing of accounts with PDC as a repayment method.

The POST DATED CHEQUE MAINTENANCE transaction enables you to switch an account to the post dated check method of repayment.

To add post dated checks as a method of repayment

Transaction	Parameters
Post Dated Cheque Maintenance	Txn Date
	PDC Type
	pdv Check Number
	pdv Check Date
	pdv No Of Checks
	pdv Check Amount
	pdv Bank Routing Number
	pdv Account Type
	pdv Account Number
	pdv Bank Name
	pdv Bank Branch Name
	pdv Docket Code
	pdv Comments
	pdv Frequency

The STOP POST DATED CHEQUE MAINTENANCE transaction stops processing the payments on an account using Post dated checks. Once this transaction is posted, status of all PDCs attached to a Lease account changes to VOID, indicating that the PDCs are of no use.

To stop post dated checks as a method of repayment

Transaction	Parameters
Stop Post Dated Cheque Maintenance	Txn Date

A.2.13 Coupon Book Maintenance (batch only)

In reordering coupon books, you will need supply the first date of new coupons, the new coupon start number, and number of new coupons to order.

To re-order coupon book (batch only)

Transaction	Parameters
Coupon Book Maintenance	Txn Date
	Coupon First Payment Date
	Coupon Start Number Coupon Count

To cancel the coupon book re-order before it is processed in the nightly batch, choose **Void**.

A.2.14 Extended Service Contract (ESC)

You can apply, cancel, or adjust a payment to an extended service contract.

To cancel or adjust an ESC

Transaction	Parameters
Warranty Maintenance	Txn Date
	Insurance/Warranty Cancel Indicator
	Insurance/Warranty Cancel Date
	Insurance/Warranty Remaining Term
	Insurance/Warranty Refund Amount Estimate
	Insurance/Warranty Refund Amount Received
	Insurance/Warranty
	Full Refund Received Indicator
	Insurance/Warranty Itemization Code

To apply a refund payment to an ESC

Transaction	Parameters
Warranty Payment Maintenance	Txn Date
	Insurance/Warranty Refund Amount Received
	Insurance/Warranty
	Itemization Code
	Insurance/Warranty Full Refund Received Indicator

Note

A Warranty Refund transaction posted or reversed on the Maintenance screen should be matched with a payment posting or reversal.

A.2.15 Insurance Maintenance

To cancel insurance (or reverse the insurance cancellation)

Transaction	Parameters
Insurance Maintenance	Txn Date
	Insurance/Warranty Cancel Indicator
	Insurance/Warranty Cancel Date
	Insurance/Warranty Remaining Term
	Insurance/Warranty Refund Amount Estimate
	Insurance/Warranty Refund Amount Received
	Insurance/Warranty Full Refund Received Indicator
	Insurance/Warranty
	Itemization Code

The above refers to the account insurance and not asset or collateral insurance. For example, 'Credit Life and Disability'.

A.2.16 Escrow Information and Maintenance

The following nonmonetary transactions allow you to add a new tax or insurance escrow to an account.

To add new escrow insurance details

Transaction	Parameters

A.2.18 Insurance Payment Maintenance**To refund or adjust insurance**

Transaction	Parameters
Insurance Payment Maintenance	Txn Date
	Insurance/Warranty Refund Amount Received
	Insurance/Warranty
	Itemization Code
	Insurance/Warranty For Full Refund Received

Note

The insurance refund posted or reversed on the Maintenance screen should be matched by a payment posting or reversal.

A.3 Processing SCRA

SCRA (Servicemembers Civil Relief Act) is a United States federal law that protects soldiers, sailors, airmen, Marines, Coast Guardsmen, commissioned officers in the Public Health Service and National Oceanic and Atmospheric Administration, from being sued for payment defaults.

The system is facilitated to be compliant with these SCRA laws. The following features are supported:

- Interest Rate Limitation, Prevention of Acceleration of Principal during Borrower's Military Duty
- Fees, Bankruptcy & Deferment rules applicable during Military Duty by the Account holder/Borrower
- Reverting to pre-SCRA terms when Account holder/Borrower is OFF Military Duty
- Validations with respect to Account holder/Borrower reporting Military Duty and
- Validations with respect to Guarantor being on Military Duty.

To be compliant with the above SCRA features, you can setup;

- Transaction Posting checks
- Related configurations OFF MILITARY DUTY through a transaction which will revert to original contractual terms for payment amount, interest rate and term.
Post the 'OFF MILITARY DUTY' date, if payment is missed as per contracted billing cycle, delinquency fee transaction is posted separately.

However, delinquency fees will not be applied for period of Borrower's Military duty.

A.3.1 Setting up Interest Rate for SCRA

You can define different interest rate which will be an input parameter for the ON ACTIVE MILITARY DUTY transaction. The system enables you to override default rate values with the values you define. However, if the values are not overridden, then system will pick the transaction from system parameter TPE_SCRA_DEFAULT_INTEREST_RATE.

The system will apply lowest rate between contract and system default interest rate. However, you can indicate to override the Rate with one entered in the transaction input parameter.

Access to the transaction and availability of the Override and Rate parameters are setup in Transaction Codes Access Grid and Parameters, respectively.

When the transaction is under BORROWER ON ACTIVE MILITARY DUTY status, the system facilitates setting up and validating the following:

- While posting On Military Duty transaction, provides flexibility to choose the Fee to be applicable through Fee Assessment Access Grid, based on **On Military Duty account** condition created in the account.
- You can not initiate Foreclosure / Repossession activities on active military duty accounts.
- The monthly payment amount must not exceed the existing payment amount.
- During deferment period, enables you to define 'NO Interest to be charged' by defining 'Stop Accrual' to the 'EXTENSION transaction' for the same terms of Extension. A batch job re-starts Interest Accrual, once the system posts comments for the same

Once the OFF MILITARY DUTY transaction is posted on account, system facilitates setting up and validating the following:

- The contractual terms are returned once the SCRA condition is removed. That is, the payment amount, terms, and interest rate must revert to their pre-SCRA state. Thus, resulting in a balloon payment at the end of Lease.
- To extend On Military Duty benefits, you can perform any of the following:
 - OFF Military Duty transaction must not be posted
 - If already posted, OFF Military Duty transaction must be REVERSED
 - Close current Military Duty by posting the OFF transaction and then opening a new Duty period by posting the On Military Duty Transaction. Ensure not to overlap the periods.

A.4 Black Book Interface

The system performs collateral valuation for all the active accounts at a set frequency. However, valuation is not performed for collaterals with account status <ACTIVE> and Asset Status <ACTIVE> and <PRIMARY>.

The source for the above valuation is Black book or any other Collateral Evaluator agency. These valuation details are stored for each collateral in Collateral tables. If an account has multiple collaterals, then the valuation details must be stored for each collateral.

You can run 'BLACK BOOK INTERFACE' batch to perform valuation for active accounts and active collaterals. This batch job performs the following:

- Validates for current valuation in the Black Book interface tables and gets the latest valuation
- After getting the valuation updates the collateral valuation with source as Source setup.
- Loads Black Book values

The system date is saved as Valuation Date along with other valuation details during batch run. Once the batch is run, black book values will load process to Oracle Valuation Section

Appendix B: Payment Amount Conversions

The following table contains the calculations Oracle Financial Services Lending and Leasing uses to convert different payment frequencies (weekly, biweekly, semi monthly, and so on) to standard monthly values for instalment accounts.

Payment Frequency:	Scheduled Monthly Income Amount:
D = Deferred	Zero fill
P = Single payment Lease	Zero fill
W = Weekly (due every week)	Multiple by 4.33
B = Biweekly (due every two weeks)	Multiple by 2.16
E = Semi-monthly (due twice a month)	Multiple by 2
M = Monthly (due every month)	As given
L = Bimonthly (due every two months)	Divide by 2
Q = Quarterly (due every three months)	Divide by 3
T = Triannually (due every four months)	Divide by 4
S = Semi-annually (due twice a year)	Divide by 6
Y = Annually (due every year)	Divide by 12
