

Oracle® Communications
Policy Management 12.0.0.1.0
Release Notes
E65546 Revision 01

August 2015

ORACLE®

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Chapter 1

Introduction

Topics:

- [Introduction to Policy Management7](#)

Maintenance Release for the 12.0.0 code stream
[see 12.0.0Release Notice - E61812-03]

This Release Notice identifies the fixes in Oracle
Communications Policy Management (OCPM)
Release 12.0.0.1.0

This Release Notice includes Feature Descriptions,
supported Hardware Baseline, Media and
Documentation pack contents and identifies the
Supported Upgrade Paths. This document also
includes listings of both the Resolved and Known
Bugs for this Release. Directions for accessing key
Oracle sites and Services are also identified in the
[Oracle References and Services](#) chapter.

Release Notices are included in the Documentation
Pack made available with every Software Release.

Introduction to Policy Management

OCPM Release 12.0.0.1.0 is a maintenance release targeted specifically for Verizon Wireless.

Chapter 2

Feature Descriptions

This maintenance release has no new features, for features in the 12.0.0.X release, refer to [Locate Product Documentation on the Oracle Technology Network Site](#). [E61812-03]

Policy 12.0.0.1.0 Media and Documentation

Topics:

- [Media Pack.....10](#)
- [Documentation Pack.....10](#)

Oracle Communications patch software is available for electronic download on My Oracle Support (MOS) . Documentation is delivered electronically on the Oracle Technology Network (OTN). Both the software Media Pack and the Documentation Pack are listed in this chapter.

Media Pack

Available for download from My Oracle Support. (<https://support.oracle.com/>) are in [Table 1: Media Pack Contents](#)

Note: This list is accurate at the time of release, but is subject to change. Please view the My Oracle Support site for the latest information.

Table 1: Media Pack Contents

Name
patch-12.0.0.1.0_5.1.0.iso

Documentation Pack

All documents available for download from the Oracle Technology Network (OTN) site (<http://docs.oracle.com>) are listed in [Table 2: Documentation Pack Contents](#).

Note: This list is accurate at the time of release, but is subject to change. Please view the OTN site for the latest information.

Chapter 4

Supported Hardware Baseline

Topics:

- [Supported Hardware Baseline.....13](#)

The Hardware identified in [Table 3: Supported Hardware Baseline](#) comprises the hardware and server versions that have been verified with this Release.

Supported Hardware Baseline

Table 3: Supported Hardware Baseline

Hardware	Description
Wireless HP Gen8 C-Class Blades	C-Class Blade Servers configured as defined in configuration workbook

Chapter 5

Policy 12.0.0.1.0 Supported Upgrade Paths

Topics:

- [Supported Upgrade Paths.....15](#)

This release has been tested for upgrades from specific prior releases; this chapter contains the exact paths for upgrade. Please verify that your current installed release is listed on a valid upgrade path.

Paths

Supported Upgrade Paths

The possible upgrade paths to Policy 12.0.0.1.0 are listed below.

Table 4: Policy 12.0.0.1.0 Upgrade Paths

From	To
12.0.0.0.0	12.0.0.1.0

Chapter 6

Policy 12.0.0.1.0 Resolved and Known Bugs

Topics:

- [Severity Definitions 17](#)
- [Resolved Bug Listing..... 18](#)
- [Customer Known Bug Listing..... 19](#)

This chapter lists the Resolved and Known Bugs for Policy 12.0.0.1.0

These bug lists are distributed to customers with a new software release at the time of General Availability (GA), and are updated for each Maintenance release.

Severity Definitions

The problem report sections in this document refer to Bug severity levels. Definitions of these levels can be found in the publication, *TL 9000 Quality Management System Measurement Handbook*.

Problem Report: A report from a customer or on behalf of the customer concerning a product or process defect requesting an investigation of the issue and a resolution to remove the cause. The report may be issued via any medium. Problem reports are systemic deficiencies with hardware, software, documentation, delivery, billing, invoicing, servicing or any other process involved with the acquisition, operation, or performance of a product. An incident reported simply to request help to bring back the service or functionality to normal without the intent to investigate and provide a resolution to the cause of the incident is not a problem report.

- **Critical:** Conditions that severely affect the primary functionality of the product and because of the business impact to the customer requires non-stop immediate corrective action, regardless of time of day or day of the week as viewed by a customer on discussion with the organization such as
 1. product inoperability (total or partial outage),
 2. a reduction in the capacity capability, that is, traffic/data handling capability, such that expected loads cannot be handled,
 3. any loss of emergency capability (for example, emergency 911 calls), or
 4. safety hazard or risk of security breach.
- **Major:** Product is usable, but a condition exists that seriously degrades the product operation, maintenance or administration, etc., and requires attention during pre-defined standard hours to resolve the situation. The urgency is less than in critical situations because of a lesser immediate or impending effect on product performance, customers and the customer's operation and revenue such as
 1. reduction in product's capacity (but still able to handle the expected load),
 2. any loss of administrative or maintenance visibility of the product and/or diagnostic capability,
 3. repeated degradation of an essential component or function, or
 4. degradation of the product's ability to provide any required notification of malfunction.
- **Minor:** Other problems of a lesser severity than 'critical' or 'major' such as conditions that have little or no impairment on the function of the system

The numbered severity levels in the tables below correspond to these definitions:

- 1 - Critical
- 2 - Major
- 3 - Minor

Resolved Bug Listing

[Table 5: Policy Release 12.0.0.1.0 Resolved Bugs](#) lists bugs that are resolved in the following builds:

Platform Lineup

- Oracle Communications Policy

Above listed load line-up provides a view of our GA milestone release. Firmware release <release number> was used with this release. The Firmware is addressed by an independent manufacturer (e.g., HP) and will have additional release guidance and requirements. We recommend review of the line-up prior to system and/or node upgrade.

Table 5: Policy Release 12.0.0.1.0 Resolved Bugs

Bug#	SR#	Severity	Title
21350984		3-Minor	MPE forced standby of active takes longer to peer with MRA
21350936		3-Minor	Connection to secondary site not retried by MRA
21209198		3-Minor	Sy sessions not terminated when SLR-i was triggered by PNR
21215185		3-Minor	Gui says X1 interface down, but netstat output says it is connected
21357274		3-Minor	KPI Dashboard fails to show the correct MRA connections for the MPEs
21364020		3-Minor	Renewed session lifetime timer is not sent out in AAA-u to the AF
21363539		3-Minor	Capture the tomcat hs_err_pid file in the savelogs everytime tomcat crashes
21417694		3-Minor	savelogs/backup tar ball unable to be pulled back via scp

Customer Known Bug Listing

Table 6: Policy Release 12.0.0.1.0 Customer Known Bugs lists known bugs in this release:

Table 6: Policy Release 12.0.0.1.0 Customer Known Bugs

Bug#	SR#	Severity	Title	Customer Impact
19116834	-	3-Minor	[239507][SEC] Policy Web Application must follow ARB Cookie Design and Disclosure Req. and Guidelines	None - This is a security enhancement
19116835	-	3-Minor	[239508][SEC] Policy Web Application needs to comply with SCS and use CSRF recommended protections	None - This is a security enhancement
20386371	-	2-Major	Incompatibility between Multi-Level OAM and Checkpoint feature	Due to the incompatibility, when a customer is using the Multi-Level OAM feature (in other words, all the CMP installations are configured to be S-CMPs or NW-CMPs), then the functions for managing checkpoints are disabled (not available in the GUI). This is to prevent the user from relying on the checkpoint function when it will not work as expected. If the customer relies on the Checkpoint functions as a key part of their processes for managing changes then they should not use the Multi-Level OAM feature

Chapter

Oracle References and Services

Topics:

- *My Oracle Support (MOS) 23*
- *Emergency Response23*
- *Customer Training24*
- *Locate Product Documentation on the Oracle Technology Network Site..... 24*
- *Locate Product Release Software on the Oracle Software Delivery Cloud Site.....25*

My Oracle Support (MOS)

MOS (<https://support.oracle.com>) is your initial point of contact for all product support and training needs. A representative at Customer Access Support (CAS) can assist you with MOS registration.

Call the CAS main number at 1-800-223-1711 (toll-free in the US), or call the Oracle Support hotline for your local country from the list at <http://www.oracle.com/us/support/contact/index.html>. When calling, make the selections in the sequence shown below on the Support telephone menu:

1. Select 2 for New Service Request
2. Select 3 for Hardware, Networking and Solaris Operating System Support
3. Select one of the following options:
 - For Technical issues such as creating a new Service Request (SR), Select 1
 - For Non-technical issues such as registration or assistance with MOS, Select 2

You will be connected to a live agent who can assist you with MOS registration and opening a support ticket.

MOS is available 24 hours a day, 7 days a week, 365 days a year.

Emergency Response

In the event of a critical service situation, emergency response is offered by the Customer Access Support (CAS) main number at 1-800-223-1711 (toll-free in the US), or by calling the Oracle Support hotline for your local country from the list at <http://www.oracle.com/us/support/contact/index.html>. The emergency response provides immediate coverage, automatic escalation, and other features to ensure that the critical situation is resolved as rapidly as possible.

A critical situation is defined as a problem with the installed equipment that severely affects service, traffic, or maintenance capabilities, and requires immediate corrective action. Critical situations affect service and/or system operation resulting in one or several of these situations:

- A total system failure that results in loss of all transaction processing capability
- Significant reduction in system capacity or traffic handling capability
- Loss of the system's ability to perform automatic system reconfiguration
- Inability to restart a processor or the system
- Corruption of system databases that requires service affecting corrective actions
- Loss of access for maintenance or recovery operations
- Loss of the system ability to provide any required critical or major trouble notification

Any other problem severely affecting service, capacity/traffic, billing, and maintenance capabilities may be defined as critical by prior discussion and agreement with Oracle.

Customer Training

Oracle University offers expert training on Oracle Communications solutions for service providers and enterprises. Make sure your staff has the skills to configure, customize, administer, and operate your communications solutions, so that your business can realize all of the benefits that these rich solutions offer. Visit the Oracle University web site to view and register for Oracle Communications training: education.oracle.com/communication. To reach Oracle University:

- In the US, please dial 800-529-0165.
- In Canada, please dial 866-825-9790.
- In Germany, please dial 0180 2000 526 (toll free) or +49 8914301200 (International).
- In Spain, please dial +34 91 6267 792.
- In the United Kingdom, please dial 0845 777 7 711 (toll free) or +44 11 89 726 500 (International).

For the appropriate country or region contact phone number for the rest of the world, please visit Oracle University's web site at <http://www.oracle.com/education/contacts>.

Locate Product Documentation on the Oracle Technology Network Site

Oracle customer documentation is available on the web at the Oracle Technology Network (OTN) site, <http://docs.oracle.com>. You do not have to register to access these documents. Viewing these files requires Adobe Acrobat Reader, which can be downloaded at <http://www.adobe.com>.

1. Access the Oracle Technology Network site at <http://docs.oracle.com>.
2. Click **Industries**.
3. Under the Oracle Communications subheading, click the **Oracle Communications documentation** link.
The Oracle Communications Documentation page appears with Tekelec shown near the top.
4. Click the **Oracle Communications Documentation for Tekelec Products** link.
5. Navigate to your Product and then the Release Number, and click the **View** link (the Download link will retrieve the entire documentation set).
A list of the entire documentation set for the selected product and release appears.
6. To download a file to your location, right-click the **PDF** link, select **Save target as**, and save to a local folder.

Locate Product Release Software on the Oracle Software Delivery Cloud Site

Oracle Communications software is available for electronic download at the Oracle Software Delivery Cloud (OSDC) site, <https://edelivery.oracle.com>. Only authorized customers with a valid password may download software from the site.

1. Log into the Oracle Software Delivery Cloud site at <https://edelivery.oracle.com>.
The **Terms & Restrictions** page appears.
2. Read and accept both the Oracle Trial License Agreement and the Export Restrictions Agreement.
The **Media Pack Search** page appears.
3. Select **Oracle Communications** for Product Pack and **Tekelec** for Platform.
4. Click the **Go** button.
All media packs that meet the search criteria are displayed on the page.
5. Select the media pack for your Product and Release Number and click the **Continue** button.
The **Download** page appears.
6. Provide a valid password in the **Password** field and click the **Go** button.
7. To download a file to your location, click the **Download** button.
