Licensing Notes for PeopleSoft Enterprise PeopleTools 8.50

Copyright © 2009, Oracle and/or its affiliates. All rights reserved.

Purpose Statement

This document provides an overview of features and enhancements included in the PeopleTools 8.50 release. It is intended solely to help you assess the business benefits of upgrading to PeopleTools 8.50 and to plan your I.T. projects.

Disclaimer

This document in any form, software or printed matter, contains proprietary information that is the exclusive property of Oracle. Your access to and use of this confidential material is subject to the terms and conditions of your Oracle software license and service agreement, which has been executed and with which you agree to comply. This document and information contained herein may not be disclosed, copied, reproduced or distributed to anyone outside Oracle without prior written consent of Oracle. This document is not part of your license agreement nor can it be incorporated into any contractual agreement with Oracle or its subsidiaries or affiliates.

This document is for informational purposes only and is intended solely to assist you in planning for the implementation and upgrade of the product features described. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, and timing of any features or functionality described in this document remains at the sole discretion of Oracle.

Due to the nature of the product architecture, it may not be possible to safely include all features described in this document without risking significant destabilization of the code.

This documentation is in prerelease status and is intended for demonstration and preliminary use only. It may not be specific to the hardware on which you are using the software. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to this documentation and will not be responsible for any loss, costs, or damages incurred due to the use of this documentation.

Restricted Rights Notice

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS

Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, duplication, disclosure, modification, and adaptation shall be subject to the restrictions and license terms set forth in the applicable Government contract, and, to the extent applicable by the terms of the Government contract, the additional rights set forth in FAR 52.227-19, Commercial Computer Software License (December 2007). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

Third Party Content, Products, and Services Disclaimer

This software and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third party content, products and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third party content, products or services.

Licensing Notes for PeopleSoft Enterprise PeopleTools 8.50

As part of the sales contract with Oracle, what products you can install and use and how you use them is part of the licensing agreement. That agreement contains information related to your overall PeopleSoft application license. This document contains licensing notes and reminders intended more for product implementation teams to help determine if additional products need to be licensed to achieve the ultimate goals of the PeopleSoft system.

Note. Where third party products are discussed, in most cases no specific version number is mentioned, as these can change due to product updates outside the release cycle. You should *always* consult the Product Certifications area on My Oracle Support to determine what product versions are supported with your version of PeopleTools.

Licensing Notes

The following table contains licensing notes and reminders per product in alphabetical order.

Product	Sub Product	Licensing Description
All	License Codes	PeopleSoft Enterprise installs all products with your PeopleTools and application installation. Activate the products you have purchased after you create the database, install the application server, and install PeopleSoft Internet Architecture. 1. Log in to PeopleSoft. 2. From the Products tab, select <i>Set Up xxx (where xxx is your application), Install, Installation Table</i>. 3. De-select the products for which you have not obtained a license. Deselecting the products from the Installation Table <i>does not</i> automatically remove access by your users of these applications. The license code used when you installed is the generic license code that allows access to all modules. There are two ways that you can remove access to unlicensed product pages: • Create new permission lists and roles that only allow access to certain pages. Works well for sites with a relatively small user base • Deactivate the pages in the portal navigation, by selecting <i>Portal Structure and Content</i> and remove the products from the navigation. If the pages are inactive then only PeopleSoft or Portal administrator roles will have access. Works well for customers only needing to inactivate a small number of pages and they know the pages to inactivate. Select the option that best suits your site or requires less work.
Application Server	Oracle Tuxedo	The Oracle Tuxedo license included with PeopleTools is a restricted use license that may only be used to run PeopleSoft Enterprise applications. The use of this Tuxedo license outside of the scope of PeopleSoft Enterprise Applications is not permitted.
COBOL	Micro Focus COBOL	Micro Focus COBOL is an additional product that is required by some PeopleSoft Enterprise applications. The license must be purchased separately.
Crystal Reports	Crystal Enterprise	Required License Agreement: Licensing Crystal Enterprise for PeopleSoft Enterprise entitles you to five Concurrent Access Licenses (CALs). If your license was signed and executed before December 2004, you must execute and return a signed copy of the Crystal Schedule to take advantage of this product. The Crystal Schedule, along with instructions on where to send the completed Schedule, is available on My Oracle Support. See document 887899.1. To purchase additional CALs, contact your account executive and follow the standard process for licensing new products.

Product	Sub Product	Licensing Description
		If you are a PeopleSoft Enterprise customer, and you have licensed additional CALs for Crystal Enterprise, you can enable them by sending a request for codes to licensecodes_ww@oracle.com. Include your Company Name, Customer Number, and CSI Number (if available), the PeopleSoft Enterprise product you are requesting the code for, and the number of additional licenses you have purchased. Note. License keys are not required if you are using the free products. They are required only if you are purchasing additional licenses.
Crystal Reports	Language Support	Crystal Reports is available in several different language editions. You receive the appropriate language edition of Crystal Reports based on the languages that you license when you purchase Oracle's PeopleSoft Enterprise software. Each language version of Crystal Reports is functionally identical; the primary difference is the language of the Crystal Reports Designer user interface.
Cube Manager	Cognos	Cognos PowerPlay, if licensed, may be used with PeopleSoft Cube Manager.
Cube Manager	Essbase	Essbase is shipped separately from PeopleTools (there are separate licensing components for the integration and the end-user product).
Integration Broker	Oracle BEPL Process Manager	- Oracle BPEL Process Manager is a standards-based process orchestration and integration solution that provides the foundation for developing and deploying a services-oriented and web service-enabled integrations. The Oracle BPEL Process Manager provides native support for BPEL 1.1 in combination with broad web service standard support to ensure interoperability with other BPEL and Web Service compliant solutions. - The Oracle BPEL Process Manager Developer Edition provides restricted design time use. Runtime use requires purchase of BPEL Process Manager. It is recommended that you check your Oracle PeopleSoft license agreements to see if you are licensed to use Oracle BPEL Process Manager for runtime purposes. If you are licensed to use this product, you may download it from the Oracle web site. Note. PeopleSoft Integration Broker includes all necessary components for XML mapping/XSL transformation. You are not required to be licensed for BPEL runtime use in order to utilize this functionality. See Also http://www.oracle.com/technology/index.html Oracle JDeveloper 10g Installation Guide PeopleTools Installation Guide for your database

Product	Sub Product	Licensing Description
		Oracle BPEL Process Manager Quick Start Guide Oracle BPEL Process Manager Developer's Guide
Integration Broker	Oracle Enterprise Service Bus (ESB)	Oracle ESB moves data among multiple endpoints, both within and outside of an enterprise. It uses open standards to connect, transform, and route XML documents among disparate applications. Enterprise service bus infrastructure is used for delivering service-oriented architecture (SOA). PeopleTools supports Oracle ESB. Design time requires JDeveloper. The runtime for ESB requires the Oracle SOA suite. It is recommended to make sure you are licensed to use Oracle SOA Suite.
Integration Broker	Oracle XSL Mapper	Your PeopleTools license grants you a design-time use license of the Oracle XSL Mapper. This tool provides the ability to rapidly create XSL-based transformation maps to support integration of PeopleSoft to third-party applications deployed through Integration Broker. The Oracle XSL Mapper is a component of Oracle BPEL Designer and is included in Oracle JDeveloper 10g, which is available at: http://www.oracle.com/technology/index.html
Microsoft	VSTO Plugin	DISCLAIMER OF WARRANTY. THE SOFTWARE IS LICENSED "AS-IS." YOU BEAR THE RISK OF USING IT. MICROSOFT GIVES NO EXPRESS WARRANTIES, GUARANTEES OR CONDITIONS. YOU MAY HAVE ADDITIONAL CONSUMER RIGHTS UNDER YOUR LOCAL LAWS WHICH THIS AGREEMENT CANNOT CHANGE. TO THE EXTENT PERMITTED UNDER YOUR LOCAL LAWS, MICROSOFT EXCLUDES THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. LIMITATION ON AND EXCLUSION OF REMEDIES AND DAMAGES. YOU CAN RECOVER FROM MICROSOFT AND ITS SUPPLIERS ONLY DIRECT DAMAGES UP TO U.S. \$5.00. YOU CANNOT RECOVER ANY OTHER DAMAGES, INCLUDING CONSEQUENTIAL, LOST PROFITS, SPECIAL, INDIRECT OR INCIDENTAL DAMAGES. This limitation applies to anything related to the software, services, content (including code) on third party Internet sites, or third party programs; and claims for breach of contract, breach of warranty, guarantee or condition, strict liability, negligence, or other tort to the extent permitted by applicable law. It also applies even if Microsoft knew or should have known about the possibility of the damages. The above limitation or exclusion may not apply to you because your country may not allow the exclusion or limitation of incidental, consequential or other damages.
MultiChannel Framework	PeopleSoft CTI	If you are using a Cisco CTI system with the PeopleSoft CTI Java applet console, the assumption is that you already have a functioning and appropriately licensed Cisco system configured at your site. The Cisco Java API is shipped as part of the CTI applet; however, no other Cisco products are shipped with the PeopleSoft system. If you use Cisco CTI, you need a Cisco ICM Central Controller Server installed and configured before you begin installing your PeopleSoft CTI system. Your PeopleSoft application may require an IVR supported by Cisco and capable of passing call data to Cisco. This enables CTI components to attach data to incoming calls.

Product	Sub Product	Licensing Description
		For detailed information about specific PeopleSoft-supported versions, refer to My Oracle Support in the certifications area.
Oracle Database Server	Transparent Database Encryption (TDE)	PeopleTools supports and provides integration with Oracle Transparent Database Encryption (TDE) technology. TDE is a separately licensed product. TDE is bundled with Oracle Advanced Security Options (ASO).
PeopleCode	BPEL Classes	- Your PeopleTools license grants you a design time use license of the Oracle BPEL Process Manager for OC4J. The Oracle BPEL Process Manager is a standards based process orchestration and integration solution that provides the foundation for developing and deploying a service oriented and web service enabled integrations. The Oracle BPEL Process Manager provides native support for BPEL 1.1 in combination with broad web service standard support to ensure interoperability with other BPEL and Web Service compliant solutions. - The Oracle BPEL Process Manager Developer Edition provides restricted design time use. Runtime use requires purchase of BPEL Process Manager. It is recommended that you check your Oracle PeopleSoft license agreements to see if you are licensed to use Oracle BPEL Process Manager for runtime purposes. If you are licensed to use this product, you may download it from the Oracle web site. - Your PeopleTools license grants you a design-time use license of the Oracle XSL Mapper. This tool provides the ability to rapidly create XSL based transformation maps to support integration of PeopleSoft to third party applications deployed through Integration Broker. The Oracle XSL Mapper is a component of Oracle BPEL Designer and is included in Oracle JDeveloper 10g. Note. PeopleSoft Integration Broker includes all necessary components for XML mapping/XSL transformation. Customers are not required to be licensed for BPEL runtime use in order to utilize this functionality.
PeopleCode	Verity	A subset of features in Autonomy product Verity VDK is bundled and included free of cost. It is used by PeopleSoft Enterprise to implement free text search functionality. No license is granted to use it for any other purpose. To spider HTTPS links while building a search collection, a separate license needs to be obtained directly from Autonomy.
Performance Monitor	PPMI API	Using web service technology, performance data that is generated by the Performance Monitor can be shared with third-party performance-monitoring tools by way of the Performance Monitor Integration (PPMI) API. The PPMI API uses the Simple Object Access Protocol (SOAP). The PPMI API protocol is not documented in PeopleBooks. It is used only in products that are developed by PeopleSoft system and performance management integration partners. You can use the PPMI API only if you

Product	Sub Product	Licensing Description
		are licensed through Oracle.
Portal	Base Portal Technology	As a licensee of PeopleTools, you are authorized to use the following functions included within the base portal technology: • Create pagelets and customize the homepage • Use the PeopleSoft Pagelet Wizard to create pagelets and publish them as WSRP portlets. • Publish PeopleSoft component, iScript and generic URL data as WSRP portlets. • Consume WSRP or JSR168 content from non-PeopleSoft applications or web sites if licensed by the third-party to do so.
Portal	PeopleSoft Enterprise Portal Features Licensed for Use with PeopleTools 8.50	With a PeopleTools 8.50 license, you are entitled to install and run a "limited use PeopleSoft Enterprise Portal 9.1 system" with the following functionality: • Collaborative workspaces • Related content services Collaborative Workspaces With a PeopleTools 8.50 license, you are able to install and configure a PeopleSoft Enterprise Portal database to host collaborative services to be integrated with your PeopleSoft applications. Within the PeopleSoft Enterprise Portal you may use Collaborative Workspaces and any functionality that is delivered out of the box within a Collaborative Workspace. Specifically, this entitles you to use: • Thirteen workspace modules and associated pagelets: Wiki Content, Welcome, Discussions, Documents, Blogs, Links, Action Item Lists, Calendar, Members, Related Data, Polls, Browse Workspaces, Administration. • Workspace branding. • Workspace content as feeds. • Workspace search. • Workspace tagging. • Integration with external email and calendar systems through delivered pagelets. • Related links from and to PeopleSoft application pages and components. • Related discussions from PeopleSoft application pages and components. • Resource Finder within a workspace. • Task and worklist integration through delivered pagelets. If you wish to use any of these features outside of collaborative workspaces or if you wish to use any other PeopleSoft Enterprise Portal features that are not part of collaborative workspaces, you must purchase a license

Product	Sub Product	Licensing Description
		for PeopleSoft Enterprise Portal. See the latest PeopleSoft Portal Solutions Release Notes for more details on new functionality. See the latest PeopleSoft Enterprise Portal PeopleBooks for a comprehensive reference to all PeopleSoft Enterprise Portal functionality available. Related Content Services The PeopleTools Related Content Framework is delivered with PeopleTools 8.50. In addition, with a PeopleTools 8.50 license, you are able to use the following three PeopleSoft Enterprise Portal related content services delivered in PeopleTools 8.50: • Related Discussion service • Related Links service • Related Tags service You must install and configure a PeopleSoft Enterprise Portal database to host the data for these services. However, a separate PeopleSoft Enterprise Portal license is not required to use these related content services as described above.
Portal	PeopleSoft Application License Only	PeopleSoft Application License Only - When you license an application from PeopleSoft, you can use the standards-compliant portal functionality included in PeopleTools to perform the following functions without requiring the purchase of any additional license: • Use the portal registry and basic portal functionality to navigate to applications and search for applications within a product line database. • Create new pagelets based upon the licensed applications within that application database.
Portal	PeopleSoft Application Portal Packs	PeopleSoft Application Portal Packs - You can easily extend an Application Portal Pack by creating additional pagelets and navigation pages using PeopleTools' included portal capabilities.
REN Server	AOLServer	PeopleTools licensing abides by the AOLServer Public License, which you can view at http://www.aolserver.com/license/.
Rich Text Editor	CKeditor	The CKeditor included with PeopleTools is licensed under Apache 2.0. You may obtain a copy of the License at http://www.apache.org/licenses/LICENSE-2.0.
Security	PGP Algorithms	• The PGP® secure messaging algorithms are available when you license the PGP encryption library from PGP Corporation, compile the glue code, and load the library into the PET database. • Use of the PGP® encryption functionality accessible through the PeopleTools PGP® plug-in requires a specific license grant from PGP Corporation. Contact peopletools@pgp.com to inquire about purchasing the required license. • Confirm with PGP Corporation that the PGP SDK is supported on your

Product	Sub Product	Licensing Description
		platform.
Web Server	IBM WebSphere	Included with PeopleTools is a copy of IBM WebSphere Application Server. A restricted-use license to use this product is granted with PeopleTools at no additional cost for customers who have purchased PeopleSoft Enterprise applications prior to September 1, 2010. You may only use Websphere in conjunction with PeopleSoft Enterprise programs you have licensed. In addition to the terms set forth in the standard Oracle License and Service Agreement, the use of the IBM WebSphere Application server shall be subject to the terms and conditions set forth in the "README" and "LICENSE.TXT" files included with the WebSphere program, as those terms may change from time to time. Customers that have purchased a PeopleSoft product prior to September 1, 2010 may use their existing WebSphere license with any new PeopleSoft application modules that will be deployed within their existing licensed PeopleSoft application environments. However, customers may not use their existing WebSphere license with any new PeopleSoft applications purchased after September 1, 2010. Customers that have purchased PeopleSoft products on or after September 1, 2010 and wish to use IBM WebSphere Application Server as their web server option must contact IBM directly in order to secure the appropriate licensing rights.
Web Server	Oracle WebLogic	Restricted Use: Oracle WebLogic Server Enterprise Edition is supplied with Oracle PeopleSoft Enterprise PeopleTools and some Oracle PeopleSoft Enterprise applications for use in the PeopleSoft products. As an Oracle PeopleSoft customer, you are granted a restricted use license of Oracle WebLogic Server Enterprise Edition to run PeopleTools or the applicable applications at no additional cost. Note. The provided license does not grant rights to use Oracle Weblogic Server for development of, or execution of applications not delivered as part of PeopleSoft Enterprise.

Note. PeopleSoft Enterprise Portal has been renamed to PeopleSoft Applications Portal as of October 2010. Please be aware of this rebranding. See <https://support.us.oracle.com/oip/faces/secure/km/DocumentDisplay.jspx?id=1249234.1> for more information.

AOLServer Attribution

You are receiving a copy of the AOLServer program in both source and object code for the following platforms:

PeopleSoft PeopleTools Platforms						
Library file names	winx86	aix-6-powerpc	oel-5-x86_64	solaris-10-sparc	hpux-11-ia64	solaris-10-x86_64
	rennsd rennssock rennsopenssl rennslog rennsthread	rennsd rennssock rennsopenssl rennslog rennsthread	rennsd rennssock rennsopenssl rennslog rennsthread	rennsd rennssock rennsopenssl rennslog rennsthread	rennsd rennssock rennsopenssl rennslog rennsthread	rennsd rennssock rennsopenssl rennslog rennsthread

The terms of the Oracle license do NOT apply to the AOLServer program; it is licensed under the terms of the MPL license (<http://oss.oracle.com/licenses/MPL>), separately from the Oracle programs you receive. If you do not wish to install this program, you can disable RenServer from the Application Server configuration.

Sun LDAP C SDK Attribution

You are receiving a copy of the Sun LDAP C SDK program in both source and object code for the following platforms:

Object Files			Source Files
winx86	Solaris 10 SPARC	HP-UX IA64	All Platforms
libnspr21.dll	libldap50.so	libldap50.so	disptmpl.h
libnspr4.dll	libnspr4.so	libnspr4.so	util.h
libplc21.dll	libnss3.so	libnss3.so	lber.h
libplc4.dll	libplc4.so	libplc4.so	ldap-deprecated.h
libplds21.dll	libplds4.so	libplds4.so	ldap-extension.h
libplds4.dll	libprldap50.so	libprldap50.so	ldap-platform.h
nsldap32v50.dll	libssl3.so	libsoftokn3.so	ldap-standard.h
nsldappr32v50.dll	libssldap50.so	libssl3.so	ldap-to-be-deprecated.h

nsldapssl32v40.dll			ldappr.h
nsldapssl32v50.dll			ldap_ssl.h
nss3.dll			srchpref.h
ssl3.dll			

The terms of the Oracle license do NOT apply to the Sun LDAP C SDK program; it is licensed under the terms of the MPL license (<http://oss.oracle.com/licenses/MPL>), separately from the Oracle programs you receive. If you do not wish to install this program, you will need to remove both the source and object files for the respective platform after the PeopleSoft PeopleTools Application Server installation.

Document Update History

Date	Event
September 18, 2009	Posted for PeopleTools 8.50 General Availability.
October 2, 2009	Updated Portal information for Portal Solutions General Availability.
September 1, 2010	Added significant changes to the IBM WebSphere licensing statements.
November 1, 2011	Added attribution statements for AOLServer and Sun LDAP C SDK Also added note about Enterprise Portal rebranding.
