

# Oracle® Retail Xstore Suite

Release Notes

Release 16.0.4

E94968-01

March 2018

---

This document highlights the major changes for Release 16.0.4 of Oracle Retail Xstore Suite.

## Overview

Oracle Retail Xstore Suite 16.0.4 includes the products below.

### Oracle Retail Xstore Point of Service

Oracle Retail Xstore Point of Service is a point-of-sale application that provides the capabilities to carry out day-to-day transactions and conduct daily store activities. Tasks such as scanning items, applying price adjustments, tendering, and printing receipts as well as processing returns and web orders can be performed. Store operations including opening the store, managing registers and tills, and closing the store can be handled through Oracle Retail Xstore Point of Service.

As part of Oracle Retail Xstore Point of Service, these release notes include information about Xstore Point of Service Mobile and Xenvironment.

### Oracle Retail Xstore Office

Oracle Retail Xstore Office is a central web-based management console that provides for the facile management of the data and configurations that empower your associates. The user interface within Oracle Retail Xstore Office provides streamlined functionality that guides users through configuration changes, data changes, and deployments. Granular security access can create a custom experience for users of all access levels. Multiple support tools and alerts enable IT leaders to take a proactive approach to managing multiple installations.

## Hardware and Software Requirements

See the Oracle Retail Xstore Suite Implementation and Security Guide for information about the following:

- Hardware and software requirements
- Oracle Retail application software compatibility

## Functional Enhancements

This section describes the functional enhancements that have been added to Xstore Suite 16.0.4:

## Xstore Point of Service

The following functional enhancements have been made to Xstore POS version 16.0.4:

### France Country Pack

The following changes have been made in the country pack for France:

**Postal Code in Invoices and Credit Notes** A tax-free invoice or credit note cannot be created when there is no postal code in the primary address for the customer assigned to a transaction.

**Workstation Sales Summary** Workstation sales summary records are now maintained at daily, monthly, yearly and perpetual time periods.

**Transaction Sequence Number** Each sales transaction has a new, specific sequence number assigned to it. This transaction number is printed on the receipt.

**Certification Information** Xstore POS now has a menu option to display its certification number, a reference to the NF525 mark or logo, its certified system serial number, and the compliance version of the software and/or firmware.

**New Information on Receipts and Invoices** Receipts and invoices now include the following fields:

- An Electronic Signature string.

---

---

**Note:** The Infocert Certification number is replaced by asterisks when the register is in training mode.

---

---

- Xstore POS software version
- Certification Logo

**Training Mode Indication on Receipts** When printing a receipt in training mode, the receipt displays the word, "Formation," indicating that it is a training receipt.

**Indication that Receipts are Not Valid for Collection** Non-sale extended transactions include the words, "NON VALABLE POUR ENCAISSEMENT," on the receipt. This indicates that the receipts are not valid for collection.

**Daily Close** Xstore POS now includes a daily close function used to create daily summaries and reports. This process also creates daily closure archive files.

**Monthly Close** Xstore POS now includes a monthly close function used to create monthly summaries and reports. This process also creates monthly closure archive files.

**Yearly Close** Xstore POS now includes a yearly close function used to complete end-of-fiscal-year functions. This process also creates yearly closure archive files.

### Portugal Country Pack

The following features have been added to the Portugal country pack for Xstore POS:

**Electronic Signature** Receipts and invoices now include an electronic signature string

### **Germany Country Pack**

The following changes have been made to the Xstore POS country pack for Germany:

**Tax Export Files** Xstore POS Back Office users can now create GoBD Tax Export files through Xstore POS. These comma-separated values (CSV) files contain tax data for a defined set of dates. The data can be retrieved from the Xstore POS database, or from the Xstore Office database.

### **Xstore Mobile Point of Service**

Xstore Mobile POS has the following functional enhancements:

#### **Linea Pro Sled**

A Linea Pro sled is now supported by Xstore Mobile Point of Service on an iOS system.

### **Technical Enhancements**

The technical enhancements below have been added to the Oracle Retail Xstore Suite:

#### **Xstore Office**

Xstore Office has the following technical enhancements:

#### **Jetty**

Xstore Office is now supported on Jetty version 9.4.8.

### **Noteworthy Defect Fixes**

The following noteworthy defect fixes are included in this release:

<b>Affected Component</b>	<b>Fixed Issue/Defect</b>	<b>Defect Number</b>
Receipt	Xstore POS prints all the legally required information on Brazilian SAT receipts.	26962661
Report	When running the Inventory Movement Report in Xstore POS without any filters, the report includes items having item IDs that start with a letter.	27137574
POSLog	Xstore POS creates a correct OrderStatus string for a post void of an on-hold account.	27196527
Receiving	In an ASN receiving document, the quantity of an item can be changed to zero in Xstore POS.	27203544
Airside	When invoice and credit note sequence numbers are configured to reset at the start of the year, the sequence numbers reset correctly in Xstore POS.	27354925

Affected Component	Fixed Issue/Defect	Defect Number
Return	When entering an item with color and size information into an unverified return by entering the item ID then selecting the color and size, Xstore POS displays the correct price for the item.	27381936
Return	Xstore POS displays the Web Order ID for Order Management System Cloud Service on the Verified Return transaction search form when EFTLink is enabled.	27383480
Report	When running the Returned Merchandise Report in Xstore POS without any filters, the report includes employees having employee IDs that use characters rather than numbers.	27448797
Replication	Using transreplicate.bat, transaction replication moves POSLog data to Xstore Office correctly.	27479366
Xenvironment	On a lead register connected to a large number of non-lead registers, the Xenvironment engine does not gradually increase its CPU usage during the day.	27500681
Receipt	Receipts from EFTLink are printed correctly from Xstore Mobile POS systems that use printer pooling.	27556844
Installation	Characters in primary keys in the Xstore POS database are changed to upper-case letters during the upgrade from version 15 to 16.0.4	27629651
Return	In the Tender screen, Xstore POS displays the name of the associate assigned to a return transaction.	27638617
Tender	Xstore POS does not allow expired gift certificates to be redeemed.	27654113

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

#### Value-Added Reseller (VAR) Language

##### Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

(i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.

(ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.

(iii) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.

(iv) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
