Resolved Issues

The noteworthy defect fixes described below are included in this release.

Resolved Issue	Defect Number
The cash drawer audit report in Xstore POS displays valid values for tenders other than US dollars.	22826244
When applying a split tender to a transaction in Xstore POS, if a tender requiring a signature is applied to the transaction after a tender that does not require a signature, Xstore POS will prompt for a signature.	22826397
The IRS 8300 form has been updated in Xstore POS.	22917607

[1] All Oracle Retail Xstore Point of Service databases support unicode or double-byte data.

The Xstore Office reprocess replication queue does not issue an error for logged-in users with a user ID longer than 20 characters.	23040054
If Xenvironment runs into a conflict while packaging and archiving the trickle log files, incomplete files will not be included in the package.	23091932
In Xstore POS, the deposit amount for an order is updated when the line items in the order are changed.	23270747
At the Xstore POS prompt asking for the manner in which the customer wishes to receive their receipt, manually opening the cash drawer does not produce a help-desk error.	23346804
For stacked deals in Xstore POS, when a new price is applied to an item, any percentage price reductions of that item are applied to the new price, rather than the original price.	23527446
After a sale transaction has been returned, it cannot be post-voided through the electronic journal in Xstore POS.	23577368
When non-working payroll categories are in the top two in the sort order, they are editable in payroll maintenance.	23618192
Xstore POS will not prompt to verify that an item is on hand for non-inventoried items when Xstore POS is configured to verify that an item is on hand.	23859874
In Xstore POS, deals will be evaluated properly when they have inclusions or exclusions that use style IDs having the same starting characters.	24296877
Xstore POS will use the configured item type in cross-channel return processing with Order Management Cloud Service.	24385059
In Xstore POS, when a user manually opens a cash drawer before printing a transaction receipt, then the user manually opens the drawer again after the transaction is complete, Xstore POS will not load the previously completed transaction.	24466431
The Xstore POS RetailLocationServices web service processes successfully.	24964384
In an exchange transaction, when returning an item sold with an employee discount in Xstore POS, there will not be an amount due for the return.	25061122
When using the number keys to select an item from the Xenvironment System Menu, pressing the [1] key selects the correct option from the menu.	25211295
When returning items sold through a currency off transaction deal, if the most expensive items is returned first, Xstore POS applies the correct amount to the return.	25268821

Known Issues

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

(i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.

(ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.

(iii) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.

(iv) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
