This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/ or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/ or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/ or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

1 Patch Information **1-1**
Patch Releases 1-1
Features and Updates 1-1

Preface

This document provides information regarding the Patch Release 8.9.6.30 and Higher. Patches can include:

- Defect and performance fixes
- Features and updates
- Technology upgrades

For more information on Suite8, refer to the product documentation on the Oracle Help Center and My Oracle Support.

Audience

This document is intended for customers who install Release 8.9.6.30 and Higher.

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL: https:/ / support.oracle.com

When contacting Customer Support, please provide the following:

- Product version and program/ module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received and any associated log files
- Screen shots of each step you take

Documentation

Oracle Hospitality product documentation is available on the Oracle Help Center at the following URL: http://docs.oracle.com/en/industries/hospitality/

Revision History

Date	Description of Change
December 2016	Initial publication
March 2017	Austria Fiscal Printer Interface updates for Release 8.9.6.30 and Higher

1 Patch Information

Patch Releases

Patch	Release Date
8.9.6.31	March 2017
8.9.6.30	December 2016

Features and Updates

For a complete list of fixed issues and new features, access https:/ / support.oracle.com.

The following table lists the features and updates for the Patch Release for Release 8.9.6.30 and Higher:

Patch	Features and Updates
8.9.6.31	• This patch contains bug fixes and is only required if using the Fiscal Printer Interface for Austria.
8.9.6.30	• Bug Fixes • In Cashiering, you can now use the Bank Identification Numbers (BIN) including the range 222100-272099. • You can now define if tentative reservations are included in the day type calculation. • Depreciated the FTP file transfer, and removed the Download and Import Multiple Languages option from the Setup->Miscellaneous->Updates->Translation menu. Renamed the menu option Import Translation Manually to Translation Update. Removed the Translation Update option in the Setup-> Configuration-> Miscellaneous menu. • The following new views calculate the total amount of futures packages x the number of attendees: o V8_CCM_YBEF_NO_YPKD o V8_CCM_YBEF_YPKD o V8_CCM_YBEF • You can enable the user log for Articles, Rate Package Prices, and Rate Codes using the options in the User Log > Configuration menu. In Germany, run the `GET_GDPDU_EXPORTS_V6.sql` file to use the view to configure the export. • For Austria, a Fiscal Printer Interface is now available. Each time an invoice prints the Fiscal Printer Interface activates communication with the fiscal control unit and a view collects the required information passed to the fiscal device. To configure the Austria Fiscal Printer Interface run the `V8_FISCAL_FOLIO_INFO.sql` to use the view to configure the Fiscal Printer Interface. The *Oracle Hospitality Suite8 Fiscal Printer Interface Guide for Austria* contains more information.
