Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

INTRODUCTION:	4
SETUP:	4
MASTER DATA > ARTICLES:	4
PURCHASE STATISTICS:	5
PURCHASE STATISTICS PER ARTICLE / PER SUPPLIER:	5

Introduction:

This function allows to assign an additional quality code to the articles.
The quality code allows filtering in the Purchase Statistics per Article / per Supplier.
The code is assigned to the main stock article and automatically distributed to all related purchase articles as well.

Note: This code currently has no impact on the ordering and / or receiving process itself!

SETUP:

MASTER DATA > ARTICLES:

There is no activation in the configuration necessary.

Please go directly to Master Data > Articles > select any article:

The screenshot shows the 'Manage Articles' window with the following details:

- Article:** Beef Fillet kg (Active)
- Assigned to:** Profit Contribution
- Article No.:** 10100002
- Item Group:** Meat Beef
- Base Unit:** Kilogram
- Authorisation Level:** 0
- Store Unit:** Kilogram
- Weight Factor:** 1,0000
- Volume:** 1,0000
- Quality:** (Dropdown menu with options 1, 2, 3, highlighted in red)
- Price Behavior:** Dynamic Price
- Last Purchase Price:** 7,090
- Sales Price:** 0,000
- ABC Indicator:** C
- Last Receiving Date:** 08.03.2005
- Barcode:** 2000001006047
- Labels:** No Printing
- HACCP Required:** Checked

Here the user now can assign a quality code (1 – 5) to the stock article. This code will also be assigned to all related purchase articles.

Please don't forget to save the article after the assignment of the quality code!

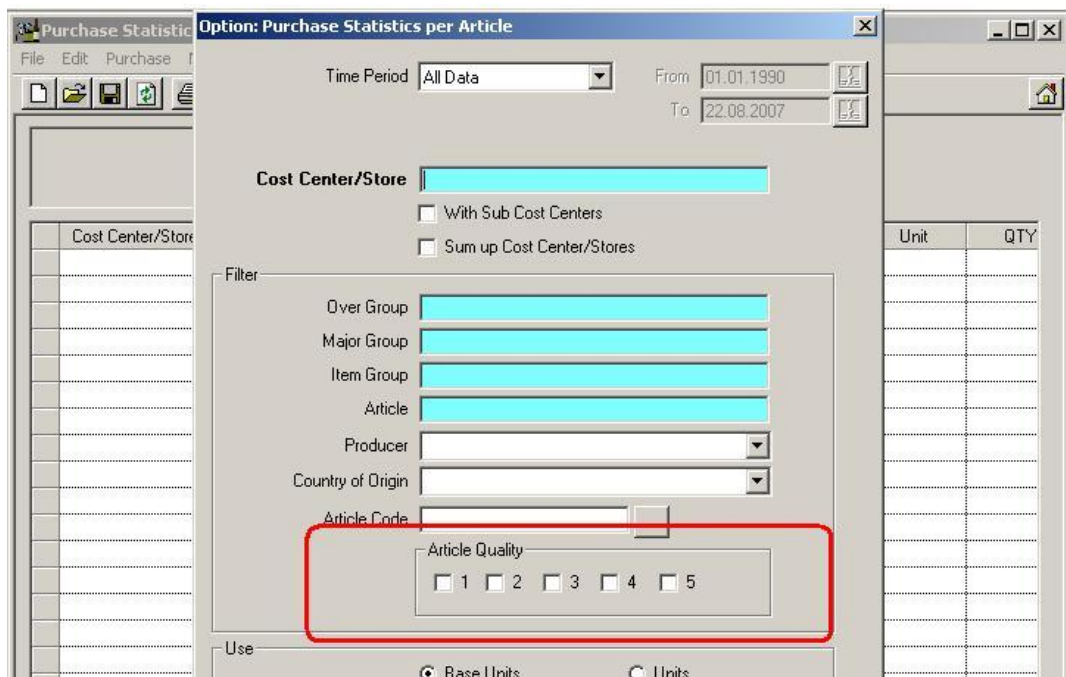

PURCHASE STATISTICS:

The configuration made above now allows to filter in the purchase statistic reports for specific quality codes.

PURCHASE STATISTICS PER ARTICLE / PER SUPPLIER:

Goto Purchase > Purchase Analysis > select ...

- Purchase Statistic per Article
- or
- Purchase Statistic per Supplier

The user can now filter for the defined Article Quality codes.

The selected filter is also displayed in the report's information box:
