Preface

Oracle MICROS InMotion Mobile is a mobile application that provides business management capabilities using iOS or Android devices. InMotion Mobile provides near real time data for today's operations, including sales, labor, discounts, tenders, guest count, and so on.

Purpose

These Release Notes provide a brief overview of additions, enhancements, and corrections implemented in this software release. Their intent is informative, not instructional. Review InMotion Mobile's product documentation, including technical and application advisories for previous versions, for detailed information on installation, upgrade, configuration, and general use.

Audience

This document is intended for all users of Oracle MICROS InMotion Mobile version 3.2.
