- A Appendix A
 - Initial Configuration..... A-1

Preface

This document describes how to perform initial setup of an e7 Point-of-Sale pre-imaged server.

Audience

This document is for end users and deployment technicians who are responsible for setting up the Oracle Hospitality e7 Point-of-Sale server on premise.

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL: <https://support.oracle.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Documentation

Oracle Hospitality product documentation is available on the Oracle Help Center at <http://docs.oracle.com/en/industries/hospitality/>.

Revision History

Date	Description of Change
January 2017	Initial Publication

Getting Started

1. Power on the server.
2. Select your regional settings, and click **Next**.
3. Accept the license agreements, and click **Next**.
4. Select **Use Express Settings** and create a user account.
5. Enter a password in the **Password** field. The password:
 - Cannot contain the user account name
 - Cannot contain more than two consecutive characters from the user full name
 - Must be at least eight characters in length
 - Must adhere to at least three of the following:
 - Contains an English uppercase character (A through Z).
 - Contains an English lowercase character (a through z).
 - Contains a base 10 digit (0 through 9).
 - Contains a non-alphabetic character (for example: ! \$ # %).
6. You can create a password **Hint**, and then click **Next**.
7. You can register the server with the manufacturer, and then click **Next**.
8. After completing the server initialization and booting into the operating system, Oracle Hospitality e7 Point-of-Sale application starts. Click **OK** when prompted to program an employee and a job to use the e7 Configurator.
9. You can now:
 - Restore a database.
 - Configure the POS application.
10. The *Oracle Hospitality e7 Point-of-Sale Security Guide* contains information and instructions for securing the application and environment.

Appendix A

Initial Configuration

This chapter describes initial server configurations.

This appendix provides a reference of initial server configurations:

Table A-1 Initial Server Configurations

Setting	Description
Microsoft Updates	Set to Notify to schedule restart . Windows Malicious Software Removal Toolx64 (kb890830) not installed.
Clear Virtual Memory Pagefile on shutdown	Enabled
Autoplay	Disabled for e7admin. Enabled for new accounts.
Firewall	On
Restore Points	Disabled

Table A-2 Power Control Settings

Setting	Description
Turn Off the Display	Never
Put the computer to sleep	Never
Hard disk/Turn off hard disk after	Never
Wireless Adapter Settings/Power Saving Mode	Maximum Performance
Sleep/Sleep after	Never
Sleep/Allow hybrid sleep	Off
Sleep/Hibernate after	Never
USB/USB selective suspend setting	Disabled
Power buttons and lid/Power button action	Shut down
PCI Express/Link State Power Management	Off

Table A-3 Performance Options

Setting	Description
Visual Effects	Adjust for best performance
Advanced/Processor scheduling	Programs
Data Execution Prevention	Turn on DEP for essential Microsoft Windows programs and services only

Table A-4 Local Area Connection Properties

Setting	Description
Internet Protocol Version 6 (TCP/IPv6)	Deselected
Internet Protocol Version 4(TCP/IPv4)	Set to DHCP

Table A-5 Global Policy Settings

Setting	Description
Always use classic logon	Enabled
Enforce password history	Enabled and set to 4
Maximum password age	60
Password must meet complexity	Enabled
Audit account logon events policy	Enabled for both Success and Failure
Audit logon events policy	Enabled for both Success and Failure

Table A-6 Shutdown Settings

Setting	Description
Allow system to shut down without having to log on	Disabled
Do not display Install Updates and Shut Down Option	Enabled
Do not adjust default option to Install Updates and Shut down in the...	Enabled
