

Oracle Retail Order Broker Cloud Service

Release Notes

Release 16.0.9

E99887-02

August 2018

This document highlights the changes for Release 16.0.9 of Oracle Retail Order Broker Cloud Service.

Note: Bug # 28381249 was inadvertently introduced in this patch. This bug prevents the product import from creating system product codes in non-default systems that differ from the system product code for the product in the default system. A fix for this bug is in release 16.0.10.

Overview

Order Broker Cloud Service includes the following modules:

- Routing Engine: Distributed order broker that determines inventory availability across the enterprise, and uses advanced business rules to select locations that can fulfill orders
- Supplier Direct Fulfillment: Web-based vendor portal enabling vendors to share purchase orders and shipping information to simplify drop shipment
- Store Connect: Web portal that enables store associates to process and fulfill omni-channel orders

About Patch Releases

Oracle Retail patch releases are periodic releases that can include the following:

- New defect fixes
- Product enhancements
- Technology upgrades
- Performance fixes

Documentation for patch releases may include new and updated guides (for example, Operations Guides, User Guides, and so on) that apply to the patch release level. These documents include applicable updates made since the last patch release.

Client Browser Requirements

Supported browsers for the vendor portal, Store Connect, and the Order Broker administration screens:

- Chrome 43.0 or higher
- Internet Explorer 10.0 or higher

- Firefox 38.0 or higher

Fixed Issues/Defects

The following table lists the issues fixed in this release:

Defect Number	Description
BugDB # 21592980	Corrected the Probable Quantity Location screen to display an error when the user clicked Save without selecting a level and rule to apply.
BugDB # 22242291	Removed SHIP2STORE carrier from list of carriers that are automatically assigned at vendor creation.
BugDB # 22242362	Corrected unnecessary logging when the Tenant screen was updated.
BugDB # 27349383	Corrected Status Request Response message to prevent sending any order information when the Status Request specified a request ID of 0.
BugDB # 27430699	Corrected LocateItems to prevent sending an invalid response when a location's phone number was null.
BugDB # 27573252	Added logic to prevent multiple jobs (product import or ecommerce import) from running at the same time.
BugDB # 27845547	Changed the OrderSearch web service to prevent high database usage.
BugDB # 28223035	Corrected CreateDSOrder processing to create a new product and system product when the requesting system is the organization default.
BugDB # 28227860	Added a <i>Job Batch Size</i> setting to the Tenant (admin) screen to control the number of records processed in import file batches, enhancing stability.
BugDB # 28299632	Modified incremental import and product location import to be more efficient.
Def # 5927	Rewrote product import to be more efficient.

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

(i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.

(ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.

(iii) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.

(iv) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
